# THE [BENEFIT] IS BETWEEN YOUR EARS

Think it through. Suppressed shooting is simply the smarter solution. In addition to protecting your hearing, it provides more control, more accuracy and more endurance. So, for shooters looking to advance their skills, Gemtech® delivers a more intelligent alternative.

By leveraging the latest in acoustic science, utilizing advanced materials and applying decades of engineering expertise, Gemtech® brings these benefits to shooters. Not just commandos and secret agents, but all shooters seeking an enhanced experience.

The Abyss™ is the culmination of Gemtech® suppressor technology to date, including key patent pending technologies designed to be the best hard use, user-friendly silencers on the market. Utilizing a low back pressure design, the Abyss™ minimizes toxic gas and chemicals from running back through your rifle. An all new baffle design significantly reduces sound. Finally, the new GM-S1® end cap keeps muzzle flash to a minimum. All of this while providing an ETM™ quick-detach muzzle device that minimizes carbon build-up and virtually eliminates the possibility of carbon-lock.

# NEUTRON™

[7.62]

SKU:  
13700

A versatile new suppressor from Gemtech®, the Neutron™ 7.62 offers a wide range of features at a price point hard to beat. It utilizes a tubeless design and is constructed using a 17-4 stainless blast baffle with a laser-welded titanium baffle stack. This provides for an extremely durable build without all of the weight typically associated with a suppressor this size. We have also included our ETM™ quick-detach muzzle device that minimizes carbon build-up and severely reduces the possibility of carbon-lock.

# TRACKER™

[7.62]

The Gemtech® Tracker™ was designed for military snipers and adapted with big game hunters in mind. To add to the Tracker's™ impressive performance, it comes in at only 11.3 ounces so it doesn't add too much weight to your rifle setup. Being 300WM rated means the Tracker™ will be able to handle your next hunt with ease.

# TREK-II<sup>®</sup>

[5.56]

SKU:  
12110

If you're looking to get into suppressed shooting, look no further than the Trek<sup>®</sup>-II. With its full-auto rating, compact design, and rugged 17-4 stainless construction, the Trek<sup>®</sup>-II makes a great host for SBR builds, rated down to 10.3". This suppressor also comes pre-drilled for meeting length requirements when paired with an 11" barrel or larger. The Trek<sup>®</sup>-II provides exceptional value to both individuals and departments alike looking to get into suppressed shooting.

# AURORA-II<sup>®</sup>

[9MM]

SKU:  
12123

The Aurora-II<sup>®</sup> is one of the smallest, lightest cans on the market. Our engineers updated the original Aurora suppressor designed in the mid-1990s for a pilot's bailout kit. It comes threaded on both ends, making it compatible with Metric and Standard thread pitches. The Aurora-II<sup>®</sup> is made from Military Grade 70-75T6 aluminum, with the internals composed of 8 neoprene wipes and 3 petroleum jelly-filled spacer baffles. Since it weighs only 3.2 ounces, it does not require a Nielsen device.

## SUPPRESSED RIMFIRE

# GM<sup>®</sup>-22 [22LR]

SKU:  
12127

Take a look at one of our most popular compact silencers. The GM<sup>®</sup>-22 has a unique G-Core<sup>®</sup> design that enables the user to easily maintain their suppressor, while still providing some of the best noise reduction in the industry. Coming in at under 3 ounces, you can attach it to nearly any 22LR rimfire pistol or rifle and barely notice that it's there.

# MIST-22<sup>v</sup> [22LR]

SKU:  
12602

Developed specifically for the SW22 Victory®, the Mist-22<sup>v</sup> is the ultimate suppressor companion. By integrating a shorter barrel and custom suppressor, all factory 22LR ammo rated at 1600fps or less will perform at subsonic speed. This eliminates the need to purchase more expensive ammo and helps ensure you can spend more time on the range. All the typical advantages apply when using our patented Stainless Steel G-Core® design, which are durable, light weight and easy to clean.

AMERICAN MADE SILENCE

### DECADES OF EXPERIENCE

The Gemtech® story is decades in the making. Dating back to the 1960's when radiologist and firearm enthusiast Phil Dater began dabbling off-hours in his hospital's machine shop. Dr. Dater merged his passion for guns and his knowledge of ultrasound to create solutions that would silence skeptics and improve the overall shooting experience.

With a focus on design, intense testing, and a customer-first mentality, Gemtech® would grow year-over-year to become one of the world's leading suppressor companies. Gemtech® is trusted every day by members of the United States Military, Federal Agencies, and local police, as well as being used by civilian shooters.

To further the education, public relations, legislation, and hunting applications of the silencer industry, Gemtech® helped establish the American Suppressor Association [ASA]. This strategic non-profit alliance brings together firearm industry leaders to advance the benefits and understanding of suppressed shooting.

### MANUFACTURED BY SMITH & WESSON®

In 2017, Gemtech® was acquired by Smith & Wesson®, one of the world's leading firearm manufacturers. This strategic partnership has led to the expansion of Gemtech® product innovation and has advanced the accessibility of suppressed shooting options.
