MGM Resorts International

Internet and Data Services Terms & Conditions

- Internet orders must be placed 14 days prior to show move-in.
- A Floor plan **MUST** be provided for all wired internet orders. If floor plans are not provided, placement will be done at MGMRI's discretion and relocation fees will apply.
- Services does not include a personal computer, network interface card, TCP/IP software, power to the booth, or configuration of personal equipment, including personal computers or laptops. The choice of ISP is at the discretion of MGMRI.
- Please be advised that install times cannot be guaranteed and will be performed based on General Service Contractor's production schedule or once meeting room is setup
- Installs for on-site pop-up orders will be performed in order received once all pre-orders have been completed.
- MGMRI employees are authorized to cut floor coverings when essential for installation of services unless otherwise directed.
- MGMRI is not responsible for any cut or damage lines, addition fees may incur for repairs/re-installs.
- Any additional cost incurred by MGMRI to assist in diagnosis or problem resolution found not to be fault of MGMRI, or to collect any required information the customers fails to provide in order to complete the installation will be billed to the Group/Exhibitor at the prevailing rate.
- Any problem relating to the services provided should be reported immediately to the Service Desk.
- Rental equipment must be picked up at the Service Desk.
- Exhibitor is responsible for protecting all rental equipment after taking possession of the equipment, and is responsible for returning all rental equipment within one (1) hour after close of show.
- Only MGMRI staffs are authorized to make any change or modification to the cabling infrastructure of MGMRI.
- MGMRI does not guarantee any level of performance or connectivity beyond our gateway. All users of MGMRI's network services will use reasonable efforts to promote efficient use of the networks to avoid unnecessary network traffic and interference to other users of the interconnected networks.
- Users of MGMRI data services shall not disrupt other users of MGMRI data services. Any device that is suspected of disrupting or interfering with MGMRI owned and operated hardware or software will be disconnected and/or shutdown without notice.
- Macro controls the use of, and shall have absolute authority over all devices operating under Part 15 of the Federal Communications Commission (FCC) rules on any property or facility owned, operated or managed by MGM Resorts Intl.

- MGMRI data services shall not be used to transmit any communication that would violate any applicable law or regulation or be considered offensive to the recipient or recipients. All devices using MGMRI data services for Internet connectivity shall be required to obtain a MGMRI assigned IP address. (NO NAT OR PAT - INCLUDING ROUTERS).
- Internet Performance Disclaimer: MGMRI does not guarantee the speed, routing, performance or throughput, either expressed, or implied, of any data circuit or connection with regard to the Internet and/or Internet backbone beyond the MGMRI demarcation point. Internet Security Disclaimer: MGMRI does not provide security for any data circuit or connection we provide. Exhibitor has the responsibility of providing any network security (such as, but not limited to, firewalls, anti-virus software, etc.). All Exhibitors agree that MGMRI, our agents and/or contractors will not be held responsible for any liabilities arising from the use of non-secured data circuits, either connected, or not connected to the Internet, including but not limited to loss of business. Intended Use of Network Connections: The network connection and Internet services provided by MGMRI may only be used by the officers, directors, and agents of the company purchasing the services, including its guests and consultants if performing a service to the company. MGMRI network or Internet services may not be resold, or made available for use by another company, individual or exhibitor.

A Floor plan MUST be provided for all wired internet orders. If floor plans are not provided, placement will be done at MGMRI's discretion and relocation fees will apply.

Wireless

Please be aware that Wi-Fi broadcasts within unregulated airspace. This means that many factors outside of our control can disrupt your wireless signal (such as MiFi's, cell phone hotspots/tethering, wireless routers, etc.) It is recommended that your device have the ability to operate within the 5 GHz spectrum (802.11a/n/ac) we have found it to be a more optimal environment. If your device does not allow for the 5 GHz spectrum, it's recommended that you purchase a 5 GHz adapter prior to event/show site.
