Coupa Supplier Portal (CSP)

Registering for CSP

Registering for the Coupa supplier portal provides an easy way to manage information, view purchase orders, and create and manage invoices and online catalogs. You will receive an email notification with an invitation to connect to the Coupa Supplier Portal, similar to the example below.

Ace Corporation would like to be connected with you as a trading partner on Coupa Supplier Network. You will be able to manage your company information and collaborate more efficiently when we're connected.

Coupa Support
Ace Corporation

To confirm this request, please click the link below:

<https://supplier-demo.coupahost.com/signup/cba19cd2811fbee4d8b148fb2828dc8ed7091fb8>

-
1. Click the link provided in the email to register. From the registration site, you can also request an invitation.
 2. Once you have registered, log in using your credentials.

Supplier Portal Home Page

After logging in, you will see the supplier portal home page. The CSP home page provides a snapshot of your company's info. Companies searching for potential suppliers on the CSP will see only public profiles.

About

Public Profile

<https://csn-3-1-0.coupadev.com/suppliers/public/22>

Merge Accounts

It looks like your company has more than one CSN account. Consider merging them so buyers can identify your company with confidence.

Latest Customers

Coupa

Item	Description
Default Public Profile	Displays your company's public profile information.
Merge Accounts	Allows you to consolidate accounts if you have more than one on the supplier portal.
Latest Customers	Displays a list of your current customers.
	The Menu button allows you to navigate within the CSP.
	Use the Notification button to set up notification preferences.
	When you have a new alert Notifications display in red with the number of new alerts.
	The Help button displays the online help and help tour.

Menu

The Menu button helps you navigate through the system. From the Menu, you can create invoices, update your company's profile, and invite additional users to join the CSP.

Item	Description
Orders	This is where you can find purchase orders sent by your customers.
Invoices	This is where you create and manage invoices to send to your customers.
Catalogs	This is where you create and manage customer-specific catalogs
Profile	This is where you create, modify, and manage your public and customer-specific profiles, and manage which remit-to addresses each customer can use.
Admin	This is where you can manage users, merge requests, and your remit-to addresses
My Account	This is where you can manage your person profile.
Log Out.	Use this to log out of the CSN.

Notifications

You can view new notifications and make changes to your notifications preferences. Click **Notifications > gear icon** to access the Notifications Preferences page. Here, you can see the types of notifications you can select from, and how you want to view them, via email or the CSP. If neither is selected, notifications for that item will not be sent.

CSP Help and Support

For additional information while using the CSP, click **Help > Online Help**. Here, you will find helpful topics and definitions for using the supplier portal. You can also click. **Help > Help Tour** to see a quick navigation demo of the supplier portal.

If you require technical assistance, please send an email to supplier@coupa.com.

Updating Your Company Profile

Using CSP you can easily update your company's profile.

1. From the Menu, click **Profile**.
2. Select the profile you wish to edit from the **Profile** drop down menu.
3. Click **Edit Profile**. Make any desired changes to your profile.
4. Click **Save** when you have finished making changes.

Fields marked with an asterisk () are required fields.*

Inviting Additional Users

Using the supplier portal, you can invite additional users in your company access to the CSP.

1. From the Menu, click **Admin**.
2. Click **Invite User**.

3. Enter the user's information.
4. Select which permissions the user should be able to access.
5. Select which customer(s) the user should be able to access.
6. Click **Send Invitation**. The employee will receive an email notification, with a link to register.

*To deactivate a user, you must edit the user record and select **Deactivate User**.*

Adding a Remit To Address

CSP includes remit-to addresses as part of electronic invoice compliance. You must add a remit to address before you can create an invoice.

1. From the Menu, click **Admin**.

Remit To Name

Remit To Code

Address *

Remit To Contact

Assign Customers

You are about to create a remit to address to use for invoicing, however it won't be sent to your customer until you include it on an invoice.

Cancel
Add

4. Once you have filled out the remit to address fields, click **Add**.

Address (information required)

Item	Description
Remit To Name	A unique easily identifiable user-friendly name.
Remit To Code	Use this field to tie your CSP remit-to address with the corresponding address in your ERP.
Address Line 1, 2	Standard address information.
City	Name of the city.
State	Name of the state.
Postal Code	Five digit postal code.
Country	Country of origin.
Tax Country	Determines the origination country for tax purposes.

Remit To Contact

This is optional contact information for the remit-to address.

Assign Customers

Here, you can choose which customers will be able to see a specific remit-to address.

If you merge accounts, your remit-to addresses won't be merged unless you make them available for All customers. Once the merge is complete, you can again assign the remit-to address to the specific customers you want.

Purchase Orders

The purchase orders page is where you work with orders from your customers. The Purchase Orders table lists all the POs you've received from that customer. You can use the search bar to filter the list with a search term, or click the View dropdown to perform advanced filtering. See [Custom Views](#) for more info about advanced filtering.

1. From the Menu, click **Orders**.
2. Click **Orders**. The Purchase Order screen displays all your purchase orders. The first time you use the orders page, you'll have to choose a customer. To see orders from a specific customer, select the customer from the dropdown list just under the menu button. The next time you visit the orders page, it'll return to the last customer you chose.

PO Number	Order Date	Status	Acknowledged	Items	Unanswered Comments	Total	Actions
2759	09/17/15	Issued	None	1 Each of Snow removal three parking lots 12/8	No	500.00 USD	
2758	09/17/15	Issued	None	1 Each of Snow removal on 1/7	No	250.00 USD	

3. To view the detail for an individual PO, click the PO number.

Column	Description
PO Number	This is the purchase order number generated by Coupa.
Order Date	This is the date the purchase order was created on.
Status	This is the current status of the purchase order. See the Status table for more information.

Column	Description
Acknowledged	You can choose to let your customer know that you received their PO by selecting the Acknowledged checkbox on the purchase order. When you select the checkbox, the current date appears in the Acknowledge column. This checkbox is a simple toggle, so you can also un-acknowledge an invoice by deselecting the checkbox. If you re-acknowledge at a later time, the new date will appear.
Items	Items List of items on the PO.
Unanswered Comments	You can now make comments directly on the purchase order for your customers to see. If your customer has left comments that you haven't responded to, you'll get notified here.
Total	This is the total amount of the purchase order.
Actions	Use the gold coins icon 🏆 to flip the PO into an invoice and the red coins icon 🏴 to create a credit note.

Status	Description
Buyer Hold	The PO is approved but pending buyer review.
Cancelled	The order has been cancelled, and doesn't need to be fulfilled.
Closed	The issued PO has been received and was then closed, either manually or automatically within Coupa.
Currency Hold	The PO is on hold due to a currency exchange rate issue.
Error	There's something wrong with the PO. Contact your customer to get the PO back on track.
Issued	The PO has been approved and sent to the supplier.
Supplier Window Hold	The PO was approved outside of the order window schedule under contract terms.

If you click on the purchase order number to view the PO, and then use the back button to return to the Purchase Orders page, you'll need to refresh the page to see any changes you made to the PO.

Creating an Invoice

You can create an invoice directly from the purchase order.

1. From **Purchase Orders**, click the gold coin (👉) icon in the Action's column of the PO you wish you create an invoice from.
2. Fill out any required fields marked with an asterisk (*).
3. Use the **Calculate** button to see invoice totals prior to submitting.
4. Click **Submit**. If you want to save a draft now, and continue to work on the form later, click **Save as draft** instead.

2. To see invoices for a specific customer, select the customer from the dropdown list just under the menu button. The first time you use the invoices page, you'll have to choose a customer. The next time you visit, it'll return to the last customer you chose.

The Invoices table lists all the invoices you've created for that customer. You can use the search bar to filter the list with a search term, or click the **View** dropdown to perform advanced filtering. See [Custom Views](#) for more info.

Column	Description
Invoice #	This is the invoice order number generated by Coupa.
Created Date	This is the date the invoice was created on.
Status	This is the current status of the purchase order. See the Status List for more information.
PO #	This is the purchase order number generated by Coupa.
Acknowledged	You can choose to let your customer know that you received their PO by selecting the Acknowledged checkbox on the purchase order. When you select the checkbox, the current date appears in the Acknowledge column. This checkbox is a simple toggle, so you can also un-acknowledge an invoice by deselecting the checkbox. If you re-acknowledge at a later time, the new date will appear.
Items	List of items on the PO.
Total	This is the total amount of the purchase order.
Unanswered Comments	You can now make comments directly on the purchase order for your customers to see. If your customer has left comments that you haven't responded to, you'll get notified here.
Actions	Use the edit icon to make changes to the invoice.

Status	Description
Approved	The invoice has been accepted for payment by the customer. Payment status can be tracked on invoices that have been approved. Click the invoice number to open the invoice. New fields on the header will indicate payment information. <i>Approved invoices will reflect payment depending on your payment terms with your Coupa customer.</i>

Status	Description
Disputed	The invoice has been disputed or rejected by your Coupa customer. You will receive an email notifying you of the approver's reasons for rejecting the invoice in the Comments field. Disputed invoices cannot be edited in the CSP. A new invoice must be created with a different invoice number because Coupa will not accept duplicate invoice numbers.
Draft	The invoice has been created, but hasn't been submitted to your customer yet.
On Hold	The invoice has been put on hold for AP review.
Pending Approval	The invoice is currently with a business approver.
Processing	The invoice is being processed by the AP department, and should be paid soon.
Voided	There's something wrong with the PO. Contact your customer to get the PO back on track.

Custom Views

A custom view gives you the ability to create a set of advanced search filters, and save them.

Creating a Custom View

1. Go to the Coupa table you want to set up a custom view for.
2. At the top of the table, click the **View** dropdown and select **Create View**.

3. In the next screen, specify the settings you want to use for your custom view, including the filtering conditions to use, the columns to include, and the sorting criteria. If you want to build this view off of another view and tweak those settings, use the **Start with view** option under the **General** settings. Refer to **Custom View Settings**, below, for more details.

Custom View Settings

Customize these settings when creating or editing a custom view for a Coupa table.

General	Description
Name	The custom view name, visible from the View dropdown on top of the table.
Visibility	Decide whether this view can be visible to only you or all other Coupa users that can see the main table.
Start with view	Use this option to load another views settings and then tweak them to fit your needs for this view.

Conditions	Description
Apply	All of these conditions: Coupa displays results only for objects that meet all of the conditions you add in this list. Any of these conditions: Coupa displays results for objects that meet at least one of the conditions you add in this list.

Conditions	Description
Conditions	Create conditions based on the data available in Coupa.

Columns	Description
Available columns	This list depends on the table you're working with in Coupa. You can select any of these columns to add into your custom view.
Selected columns	These are all the columns Coupa displays with this custom view. It displays them, from left to right, in the same order that you set them up here.

Default Sort Order	Description
Default Sort Order	Choose the column you want results sorted by and whether to sort them in ascending or descending order.
