

Developed by  MyopiaProfile™ & *Johnson & Johnson* VISION

Contact lenses for kids

Benefits

- ★ **Corrects vision and treats myopia** at the same time¹
- ★ **Improved quality of life** in children and teens^{2,3}
- ★ **Improved participation** in activities^{2,3}
- ★ **Improved confidence** and self-perception^{3,4}

Ease of use

- 😊 95% of children learn to handle lenses at their first visit: **Average training time = 30mins**⁵
- 😊 Children 8-12yrs only require 10 mins more to learn handling than children 13-17yrs⁶
- 😊 **Children quickly improve** in lens application time⁷

Average time taken to apply after:

1 week = 8.2 mins

1 month = 4.3 mins

3 months = 3.2 mins

Ortho-k

No daytime wear of contact lenses:

- **Parents can oversee entire process** of handling and wear at home¹
- **Less ocular dryness and discomfort symptoms** compared to soft lens wear (in adults)⁸
- **Reduced risk of acanthamoeba infection** in water sports compared to soft lens wear⁹

Daily disposable

- **No lens cleaning** required¹⁰
- **Simple to fit, requiring less consultations**¹¹
- **Improved patient compliance**¹²
- **Lower rate of adverse events** compared to reusable contact lenses¹³

Suitability checklist^{1,10}

- ✓ Are parents willing to be part of the contact lens plan?
- ✓ Can the child follow instructions, handle & care for the lenses?
- ✓ Are the child and parent(s) motivated to seek the benefits of contact lenses?
- ✓ Do they have healthy anterior eyes?

Prescribing decisions¹⁴

- ✓ What products are available to you?
- ✓ What will best suit refraction and/or ocular health?
- ✓ What may best suit the family?

Where to start^{10,15}

- ✓ Have you heard about contact lenses?
- ✓ Are you playing sports?
- ✓ Are there times you wish you didn't wear glasses?
- ✓ Are you losing or breaking your glasses regularly?

Safety profile

- ▶ Risk of adverse events in children ≤ 12 yrs appears to be lower than the risk for teens and adults¹⁶
- ▶ Risk of microbial keratitis in patient-wearing years:
 - ▶ **2 per 10,000 for daily disposable** contact lenses¹³
 - ▶ **12 per 10,000 for reusable** soft contact lenses^{13,17}
 - ▶ **Between 5 per 10,000¹⁸ and 14 per 10,000¹⁹ for ortho-k**

No water should be used in any part of the lens care process⁹

Speak to your eye care practitioner about whether myopia management contact lenses are a good treatment for your child's myopia.

Contact lens wear is not without risks. Consult an eye care professional before wearing.

Always wash hands thoroughly before handling lenses. Wear only in accord with a prescription from an eye care professional and always follow product documentation to ensure proper use.
