

# CUSTOMER INFORMATION GUIDE

## CUSTOMER COMMITMENT

Johnson & Johnson Vision is committed to promoting patient health through the safe distribution of its products. Johnson & Johnson Vision products are sold through qualified professionals and retailers only. In order to dispense products, the patient requires a valid prescription in compliance with all applicable laws and regulations. This may include a requirement for the dispensing party to verify the prescription.

## COMMITTED TO QUALITY

Johnson & Johnson Vision products are warranted against defects in materials and workmanship. If, after opening a factory-sealed blister pack, the contact lens is found to have a workmanship or material problem, Johnson & Johnson Vision will replace the contact lens. Johnson & Johnson Vision's liability for damages caused by defective products shall be limited to the return process in effect at the time of the claim. If Johnson & Johnson Vision determines that the product for which a claim has been made is defective, meaning that the product does not meet Johnson & Johnson Vision's written specifications in effect at the time the product was shipped, Johnson & Johnson Vision shall replace the product. Johnson & Johnson Vision may require return of the damaged product. Except as otherwise provided, Johnson & Johnson Vision disclaims all other representations, warranties, or guarantees with respect to the products, whether express or implied.

## DIAGNOSTICS

If applicable, Johnson & Johnson Vision provides diagnostic lenses to be used for trial fittings or for the occasional replacement of torn or lost lenses. Diagnostic lenses are packaged for free trial only, and cannot be sold, substituted for revenue lenses, or given away at no charge for promotional purposes or as a replacement for contact lens sales.

## ADVERSE EVENT REPORTING

Contact Customer Relations if patients experience any adverse effects associated with the use of ACUVUE® Contact Lenses.
