# AGENDA

- I. How Investigations Start in Practice
- II. Inside the Investigation: Lifecycle, Coordination & Disclosures
- III. Beyond the Crisis: Remediation, AI Governance & Accountability
- IV. Questions and Answers

# How Investigations Start in Practice

**#IAPPIntensive26**

# 1. How Investigations Start in Practice

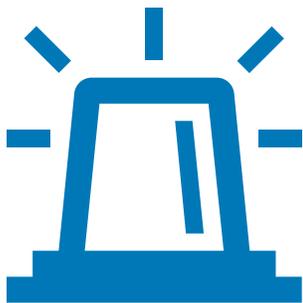

In practice, what typically triggers a regulator to open an investigation in the first place?

Data breach ? Product launch? Internal whistleblowing? Media pressure? Political scrutiny?

# 1. How Investigations Start in Practice

How often does an investigation actually start from something small and what early signs tell you that a minor issue is likely to escalate into formal regulator attention?

# 1. How Investigations Start in Practice

Once you realise an issue might be serious, what's the very first thing you make sure happens internally?

# 1. How Investigations Start in Practice

In those early days/ hours, what do teams most often get wrong when trying to 'fix' the issue quickly?

# Inside the Investigation: Lifecycle, Coordination & Disclosures

**#IAPPIntensive26**

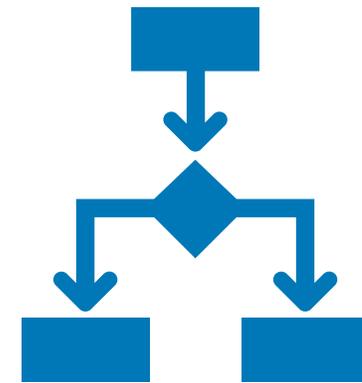

## 2. Inside the Investigation: Lifecycle, Coordination & Disclosures

Can you walk us through what usually happens once an issue becomes a real regulatory matter - from early contact with a regulator to more formal steps - and whether this differs depending on the type of regulator involved?

## 2. Inside the Investigation – Lifecycle, Coordination & Disclosures

For GDPR investigations in particular, what stages do you typically see in practice, and how does the process differ between cases that start from a complaint and those the regulator opens on its own?

## 2. Inside the Investigation – Lifecycle, Coordination & Disclosures

Regulators often seek underlying evidence of compliance or accountability documentation. What are your strategies for disclosure?

# Beyond the Crisis: Remediation, AI Governance & Accountability

**#IAPPIntensive26**

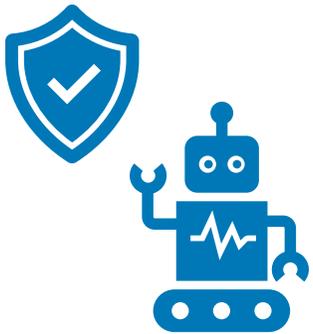

# 3. Beyond the Crisis – Remediation, AI Governance & Accountability

Remediation now often runs alongside an investigation and may involve changes to AI systems or platform features.

How do you manage remediation in parallel, balancing tight deadlines, uncertain risk, and regulator expectations?

# 3. Beyond the Crisis – Remediation, AI Governance & Accountability

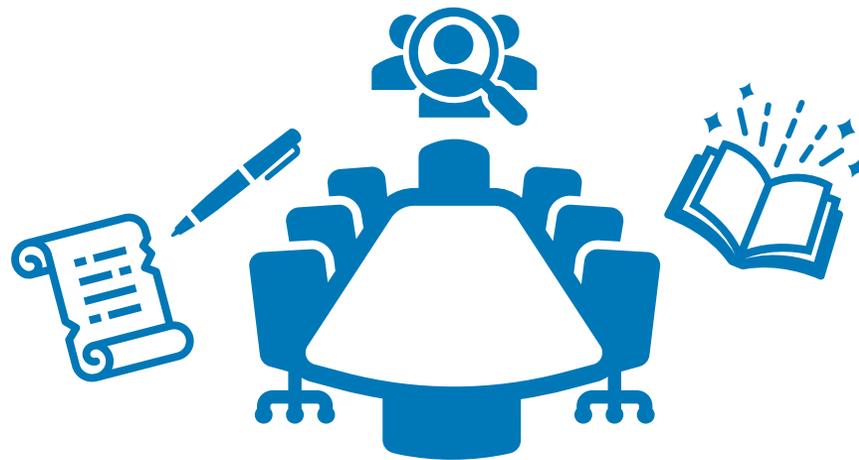

With the EU AI Act, online safety rules, and evolving UK approaches, how should organisations prepare when multiple regulators may be involved, for example data protection, AI oversight, and platform or content safety authorities?

### 3. Beyond the Crisis – Remediation, AI Governance & Accountability

Looking ahead, what's the one governance change organisations should make now to be better prepared for investigations involving AI systems or platform safety issues?

# Questions and Answers

# How Did Things Go? (We Really Want To Know)

Did you enjoy this session? Is there any way we could make it better? Let us know by filling out a speaker evaluation.

1. Open the IAPP Events app.
2. Select **IAPP Intensive 2026**.
3. Tap "Schedule" on the bottom navigation bar.
4. Find this session. Click "Rate this Session" within the description.
5. Once you've answered all three questions, tap "Done".

Thank you!
