

## ASIA FORUM 2026 – AIGP 1-DAY TRAINING

- 1 full day of delivery
- Content pulled from 3 modules
- ~105 slides
- Printed mini participant guide

---

### CONCEPT

Learners will participate in a **focused, themed one-day AIGP training** that introduces essential AI governance terminology and concepts while exploring the regulatory and legal landscape surrounding AI use.

The session covers:

- Core governance structures
- Organizational risk considerations
- Key regulatory obligations

Throughout the workshop, learners engage with **brief chat prompts, case examples, and scenario-based exercises** to reinforce understanding. The day concludes with a **practical panel discussion** featuring subject matter experts who provide real-world perspectives and answer participant questions.

**Learners will receive the full online AIGP training to supplement the workshop.**

---

### HIGHLIGHTS

- NIST RMF
- Global risk-based classification frameworks
- High-risk system requirements
- Internal governance duties
- Cross-functional legal triage
- Legal obligations
- Role-based accountability
- Documentation, transparency, oversight
- Regulatory expectations across jurisdictions
- Impact assessments, RACI clarity, decision-rights

Appropriate for a mixed audience (legal + operational leaders).
