

INBOUND PO MANAGEMENT MORE CONTROL FOR YOUR SUPPLY CHAIN

Here's how Schneider helped a global energy exploration and production company liable for millions in safety losses take control of its supply chain processes, costs and safety compliance methods.

THE SITUATION

\$18
MILLION

Up to \$18 million in noncompliance liability

Manual, error-prone processes lacking SKU-level detail

Varying hidden transportation costs among suppliers

THE SCHNEIDER SOLUTION

Pickup & Delivery appointments and load planning alignment

Tool provides full visibility to SKU-level detail and inbound POs

Safety-first focus for reliable safety compliance among managed carriers

THE RESULTS

\$400,000
SAVED ANNUALLY

**POSITIVE
SUPPLIER
RELATIONSHIPS
AND EASIER ONBOARDING**

— ONGOING —
**IDENTIFICATION
AND CORRECTION OF
ORDER INACCURACIES**

Schneider's Inbound PO Management tool filled the gaps in this company's supply chain and led to key improvements in carrier safety compliance. Schneider now manages nearly half of this customer's inbound domestic freight, each shipment on a customer-approved safety compliant carrier.
