

Maximize Intermodal capacity with Schneider's custom-spec'd equipment

Every pound matters. Every inch matters. Fit more weight and width with Schneider's asset-based containers, chassis and tractors.

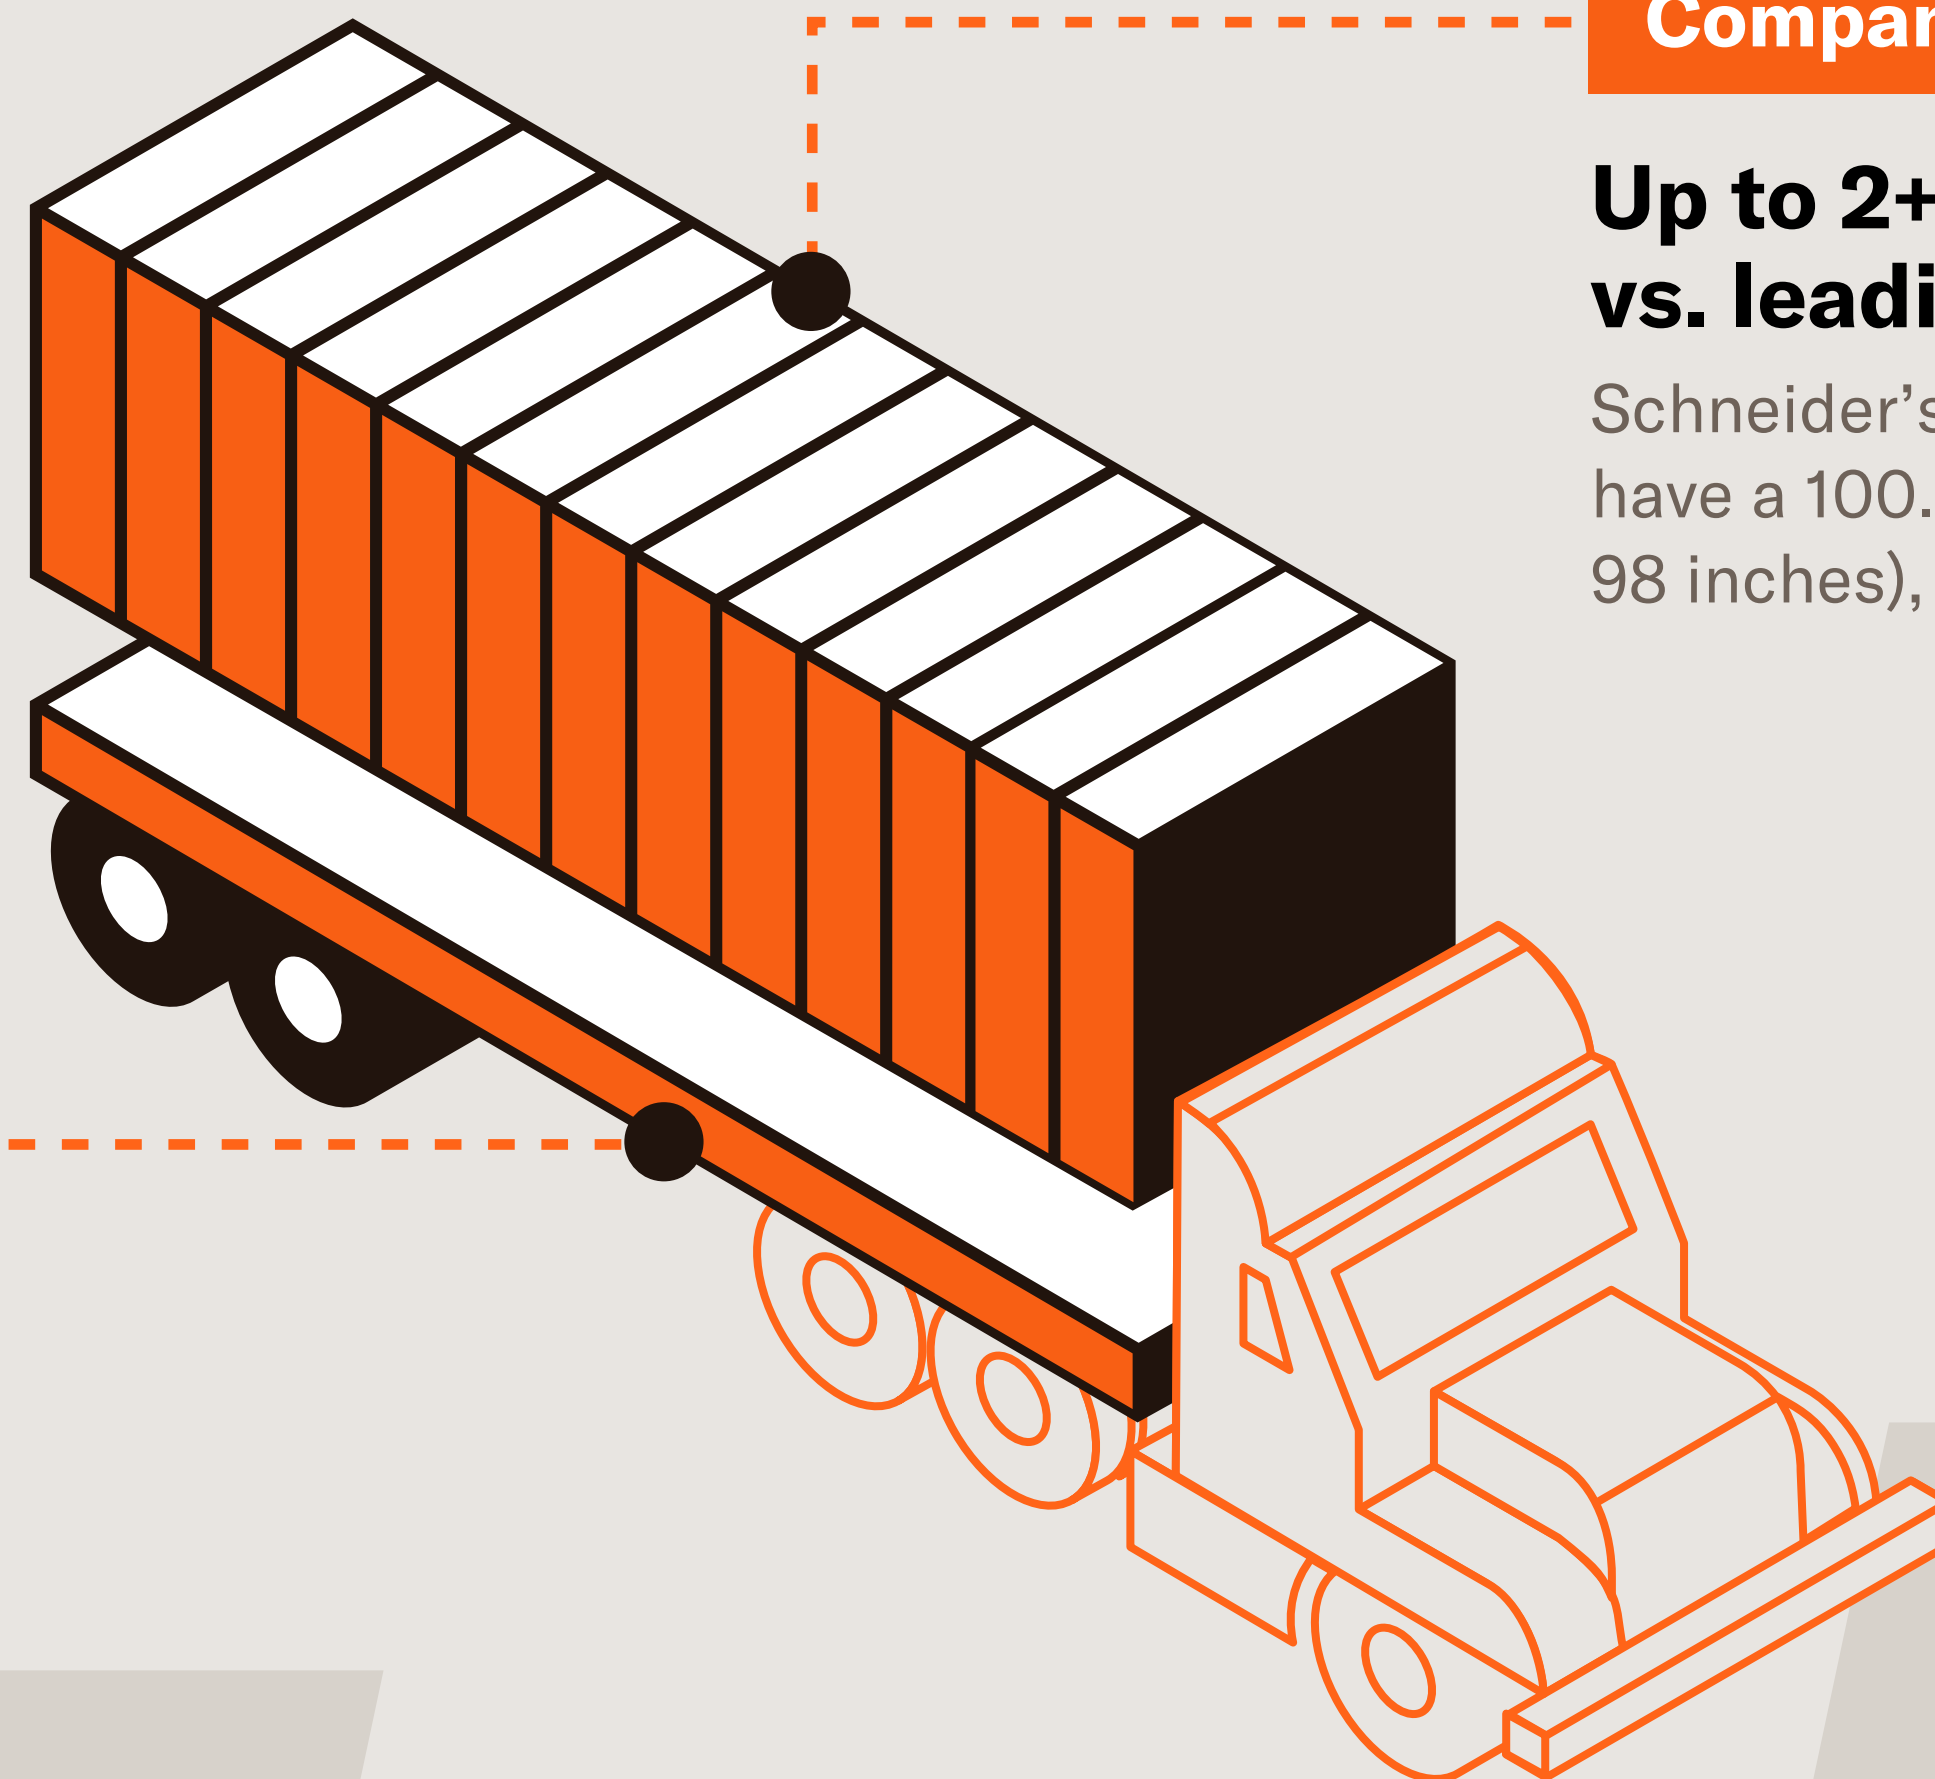

Company-owned chassis

Up to 10% increase in payload pounds vs. leading competitors

Schneider's lightweight standardized company-owned chassis are 700 pounds lighter than the common pool chassis

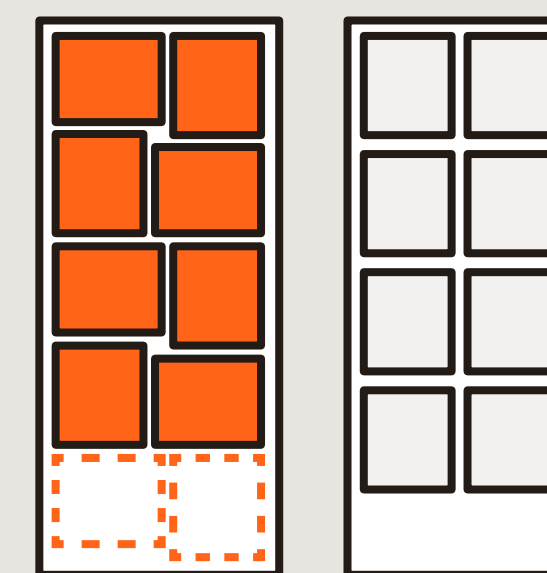

One shipper **saved \$728,000 annually** by adding more to each load, reducing seven loads per week.

Company-owned containers

Up to 2+ inches wider vs. leading competitors

Schneider's company-owned containers have a 100.375 inch inside width (others 98 inches), allowing pinwheel pallets

100.375"

98"

One cross-border shipper fit **13% more cubic capacity** by pinwheeling pallets with Schneider vs. cubing out on the same load with another provider.

Reduce your cost per pound, total truck moves and bottom-line expenses with Schneider.
