

GO GREEN: — CHOOSE THE RIGHT — TRANSPORTATION PROVIDER

Smart companies know their success is linked to how seriously they take their commitment to sustainability. To help choose a green transportation provider, shippers should ensure their provider invests in these two key areas:

1.

CULTURE OF SUSTAINABILITY

A RANGE OF SERVICES FOR MORE EFFICIENT OPTIONS

ROAD

LOGISTICS

RAIL

DRIVER TRAINING ON SUSTAINABILITY

A BROAD DEFINITION OF SUSTAINABILITY

FINANCIAL

SOCIAL

ENVIRONMENT

2.

ENERGY-EFFICIENT TECHNOLOGIES

IN-HOUSE RESEARCH AND DEVELOPMENT TEAMS

 **EPA COMPLIANT**
LOW-EMITTING ENGINES

AERODYNAMIC FEATURES

SPEED GOVERNORS

NO-IDLE HEATING/COOLING SYSTEMS

STACKABLE INTERMODAL CONTAINERS

BUILD A SUSTAINABLE SUPPLY CHAIN

Shippers are responsible for choosing an environmentally friendly transportation provider. To ensure success, evaluate and choose a provider based on its green practices and technologies and hold the provider accountable.
