California AB 1305 Disclosures

Schneider National, Inc., on behalf of its subsidiary and affiliated companies (collectively, "Schneider") provides the following information pursuant to California AB 1305, which addresses Voluntary Carbon Market Disclosures and is codified in Sections 44475 through 44475.3 of the California Health and Safety Code. More information on Schneider's approach to strategic environmental, social and governance initiatives can be found within our Corporate Responsibility Report.

44475.2 Disclosures

Any claims made regarding any reductions in Schneider's CO2 or greenhouse gas emissions (GHG) are supported by reporting data that has been submitted to SmartWay, a division of the United States Environmental Protection Agency or have been provided to us by our recycling provider Waste Management. SmartWay is certified in utilizing GHG protocols and describes their tools as the "gold standard" of fuel efficiency and emissions accounting in the freight transportation sector, and Waste Management is a national waste management and recycling company providing integrated environmental solutions. SmartWay audits the information submitted by Schneider, and Waste Management provides calculated emissions reductions based on materials and products collected directly from Schneider. All CO2 or GHG gas emission reductions achieved by Schneider are relative to a baseline of 2019, unless otherwise specified. Additional information regarding our GHG emissions can be found within our Corporate Responsibility Report.
