

## PREDICTABLE AND EFFICIENT CROSTOWN INTERMODAL TRANSFERS

A value chain retailer of apparel and home fashions was experiencing significant and unpredictable delays transporting product from the West Coast through the Midwest to its distribution center in Canada.

### THE SITUATION

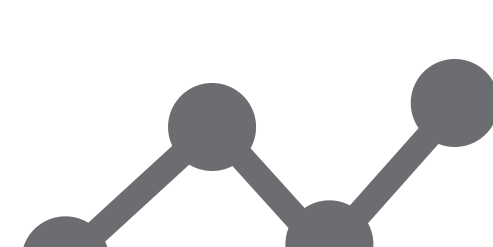

Sitting product resulted in accrued ramp storage fees

Product was delayed getting to stores, which impacted sales

Receiving appointments had to be booked last-minute

Capacity to move product to Canada was inconsistent

### THE SCHNEIDER SOLUTION

Shared its intermodal resources and depth of knowledge

Brought the retailer to Chicago to demonstrate a crosstown move for its business

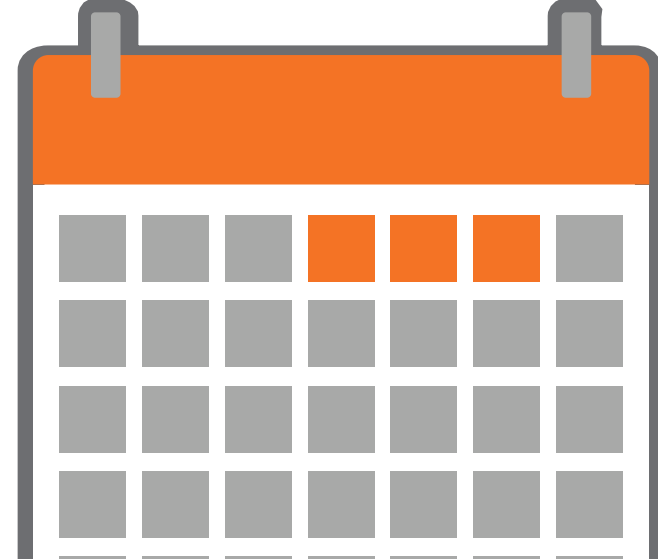

Created a plan that guaranteed crosstown intermodal predictability

Completed the process with a thorough onboarding call to discuss key details
