

ON-DEMAND BULK SUPPORT DURING DISTRIBUTION EMERGENCIES

Here's how our safe, efficient Bulk service helps a leading national bottled water distributor quickly overcome unexpected distribution challenges to meet business demands.

THE SITUATION

Pipelines serve as primary water transport from natural springs to water plants

Extreme weather and runoff contamination regularly halt operations

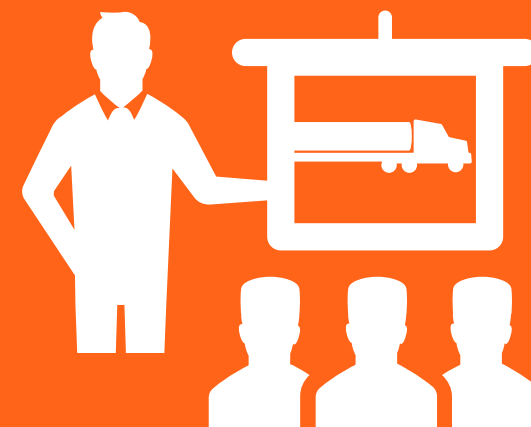

Company lacked capacity to move 1 million+ gallons of water required during pipeline failures

THE SCHNEIDER SOLUTION

This distributor turned to Schneider for safe, reliable Bulk transport. Within two weeks of the request, we:

Centralized a dispatch team to leverage our vast driver network and meet fluctuating capacity needs

Provided driver training focused on specific spring and plant locations' safety protocols

Maximized efficiencies through truck sharing and tanker retrofitting

THE RESULTS

100%

ON-TIME DELIVERY

100%

PROBLEM-FREE LOADS

75,000+

GALLONS/DAY DELIVERED BY SCHNEIDER

Our Bulk services ensure this distributor's safe drinking water hits the shelves on time, even when faced with unexpected obstacles. The company continues to rely on Schneider's Bulk transportation for their distribution needs.

Find out how Schneider can give your business safe, reliable Bulk transport when it needs it most.
