

SCHNEIDER LOGISTICS
HELPS MANUFACTURER SAVE**\$250,000****ON ANNUAL SHIPPING COSTS**

A manufacturer of liquid and gas tanks that ships its products throughout the country using multiple LTL carriers began experiencing significant rate increases and needed help following up on claims.

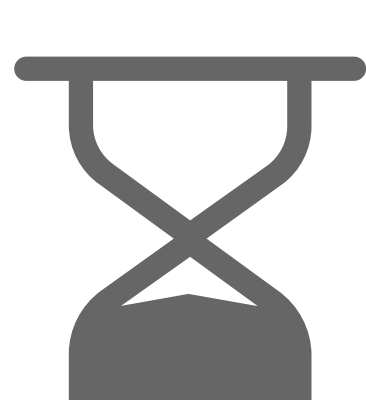

THE SITUATION

Manufacturer was experiencing rate increases

Difficult to track shipments among multiple LTL carriers

Mounting number of claims and no time to follow up meant the manufacturer was losing money

Shipment data from multiple carriers in different formats was hard to analyze

THE SCHNEIDER SOLUTION

Pooling products from same zones into one full truckload decreased shipping costs

OrangeHub™ powered by Schneider allowed manufacturer to easily track LTL shipments

Implemented improved packaging solutions to protect product during shipment and reduce claims

Data from new KPI reporting helped identify opportunities for improvement

THE RESULTS

8% COST SAVINGS**DECREASED
TRANSIT TIME**

ON OPTIMIZED FREIGHT BY ONE DAY

MAINTAINED**97%  N-TIME**

DELIVERY RATE DURING TRANSITION

Schneider brought in the right carriers, engineered the manufacturer's supply chain and reduced the burden of claims follow-up. With reporting and tools from the experts at Schneider, the manufacturer can now efficiently fulfill its shipping needs.
