

NEW BULK FREIGHT TECHNOLOGY AND SERVICES TEAM IMPROVES TRANSPORTATION OF HAZARDOUS MATERIAL

When adding hazardous material to an already-intricate supply chain, risks to safety and efficiency can increase exponentially. One logistics provider needed a solution for a paper manufacturing customer with an inaccurate method of loading hazardous material. This solution required a Bulk transportation expert that could improve processes and increase the customer's bottom line.

THE SITUATION

Manual approach to loading hazardous material wasted time and product

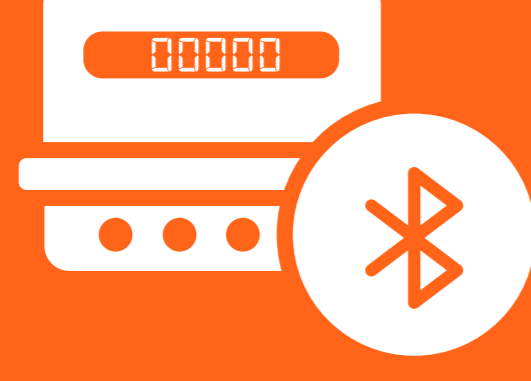

Process inefficiencies hurt the manufacturer's bottom line and reputation

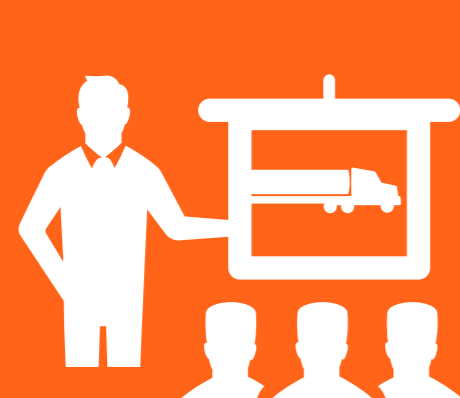

Improper handling put health of drivers and manufacturing employees at risk

THE SCHNEIDER SOLUTION

New meter and Bluetooth technology improved liquid loading efficiency

Enhanced training procedures reduced waste and improved safety

Streamlined process, paperwork and communication

THE RESULTS

REDUCED AVERAGE TRAILER

LOADING TIME FROM OVER

4 HOURS **TO**

45 MINUTES

ACCURATE DELIVERIES
DECREASED
OPERATIONAL COSTS

IMPROVED
RELATIONSHIPS
— AND —
REPUTATION

The logistics provider knew that improving efficiency was critical for its customer's business and relationships. With access to the experience and technology of Schneider Bulk, the paper manufacturer finally achieved the results it wanted: an optimized amount of product, a stronger reputation, and increased productivity.
