

PROTECTING YOUR BUSINESS THROUGH OUR COMMITMENT TO SAFETY

A single accident has far-reaching consequences. One event impacts profit, reputation, the environment and more – not just for you but for your customers as well.

Schneider Bulk is committed to providing you the safest drivers and safest vehicles on the road.

SAFETY HIGHLIGHTS

#1
CORE VALUE
SAFETY FIRST AND ALWAYS

RESPONSIBLE CARE
OUR COMMITMENT TO SUSTAINABILITY

Schneider was one of **THE FIRST CARRIERS** to be certified

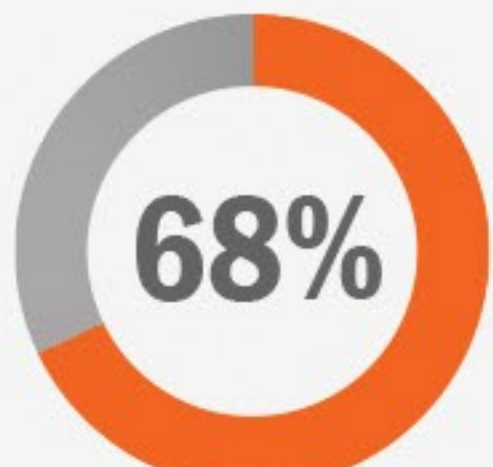

CONTINUOUSLY INVEST IN SAFETY TECHNOLOGIES

FORWARD FACING AND SIDE MIRROR CAMERAS

to improve driver behavior and provide fact-based evidence to reduce litigation costs

COLLISION MITIGATION TECHNOLOGY

in the fleet promotes safe following distances, resulting in 68% reduction in rear-end collisions

92% OF BULK FLEET WITH AUTOMATED TRANSMISSION

to reduce driver task saturation and increase driver retention

IN-CAB TECHNOLOGY

Reduces distracted driving, provides text-to-voice information and turn-by-turn navigation on a mounted Samsung tablet

ADDITIONAL SAFETY TECHNOLOGIES

Electronic stability control systems, side guard assist/trailer sweep assist and disk brakes (decreased stopping distances)

HIRE AND RETAIN THE RIGHT DRIVERS

Only 14% of applicants get hired

PHYSICALLY FIT

Drivers have passed a pre-work screen to ensure ability to work safely

\$7 MILLION INVESTMENT

in hair follicle testing to screen out drivers with a chronic drug problem

PROACTIVE SLEEP APNEA AND HEALTH AND WELLNESS PROGRAMS

TRAIN EFFECTIVELY

MORE THAN 4 WEEKS

of intense initial TRAINING

\$1 MILLION YEARLY INVESTMENT

in on-going training required

MULTIPLE TRAINING METHODS:

INSTRUCTOR-LED

COMPUTER-BASED

SIMULATION

PERFORMANCE ENHANCEMENT TRAINING

MANAGE ACTIVELY

REAL-TIME NOTIFICATION

of a critical event recording (CER) through Safety Management System (SMS) technology

PROHIBIT CELL PHONE USE WHILE DRIVING

INCLUDING HANDS-FREE

exceeding the FMCSA restriction

LEVERAGE BIG DATA

to identify drivers most at-risk, further enhancing our ability to intervene before a crash occurs.
