Introducing Sky Glass Air

We're excited to share Sky Glass Air with you, the smarter TV*, for a smarter price.

At Sky, we believe in better. We wanted to use our expertise in technology and entertainment to bring greater choice to the value end of the TV market, giving more people the joy of a better experience, whatever their budget.

Sky Glass Air expands the Sky Glass range to give customers exactly that.

It offers the world-class Sky experience, a brilliant smart operating system with Sky OS, and a beautifully designed TV, all at a lower price point.

We can't wait for you to try it.

**Sky Glass is the only TV with Sky OS.*

Simple setup, sleek design

Sky Glass Air comes in three stylish colours – Sea Green, Carbon Grey, and Cotton White – and three sizes: 43", 55" and 65".

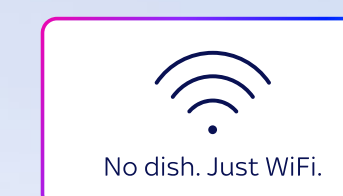

Its slim frame complements any aesthetic, and the remote and stand are colour matched too, so your whole TV setup is coordinated.

The TV is easy to set up without any tools. Its stand comes in the same box and has metal prongs you can twist in by hand to attach both together.

You can also use the bespoke optional wall mount*, which tilts and swivels or you can fix your Sky Glass Air to a universal wall mount.

Once set up, just plug your TV in, connect it to WiFi and start streaming in minutes.

**Wall mount sold separately (from £2 a month over 48 months)*

It's a 4K, HDR TV

Crisp picture

Sky Glass Air has a 4k Quantum Dot screen with global dimming, HDR, contrast enhancement and a backlight control that automatically brightens the screen for a clearer, punchy picture.

From edge-of-your-seat sport to family-favourite movies, auto-enhance adjusts the picture and sound based on what you're watching to bring out the best in every show.

Plus, picture modes let you tailor what's on screen. There's Auto, Entertainment, Sports, Movies, Music, Vivid, and Extra Vivid. To try out the Movies picture mode for yourself, watch Despicable Me 4 and experience Sky Glass Air's vibrant picture in action.

Auto-optimised sound

With Dolby Audio and a 2 stereo speaker system inside, Sky Glass Air auto-optimises your sound based on what you're watching.

Three things to know about Sky OS

Sky Glass Air runs on Sky OS, so you get the same brilliant Sky Glass experience. It's always getting smarter, with new updates and features landing over time:

01. Playlist

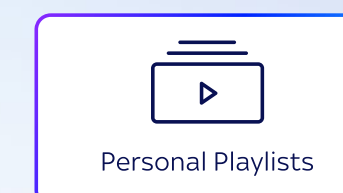

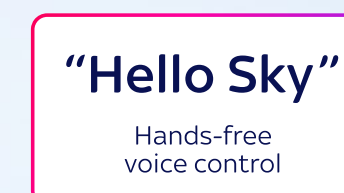

Sky OS gives you your own personal playlist on your Sky Glass Air to save your favourite shows, movies and sports across Sky and other apps, all in one place. The same way you'd record them. So, you can spend less time searching and more time watching.

02. Voice control

Search for actors, genres, shows or movies across Sky and other apps with Sky OS, hands free. Say **"Hello Sky"**, followed by what you want to see, and it'll be on your TV before you know it.

03. Aggregation

Sky OS learns what you like to watch and curates the best entertainment from Sky and other apps into one place. It's the smartest, easiest way to find what you love on your Sky Glass Air.

What to watch

Just like the wider Sky Glass range, on Sky Glass Air you can take your pick from award-winning Sky Originals, Sky Exclusives, and channels as well as the very best content from your favourite apps and brands.

Thanks to Sky OS, your entertainment is curated for you, all in one place.

Sustainability

Sustainable design principles are part of the development of all our products, understanding where our biggest impacts lie so we can make meaningful changes.

Our teams have brought this way of thinking to the design of Sky Glass Air, building on the credentials of our Sky Glass work over the years.

Tech

The screen adjusts the brightness to the optimal level depending on the lighting in the room.

Materials

Sky Glass Air contains recycled solder for the printed circuit board, and recycled plastic.

Packaging

Our packaging is recyclable, responsibly sourced, and single-use plastic free.

Design

By using a decorative bezel as the structural midframe, which holds the display together and in place, we were able to reduce the number of parts needed.

Ways to pay

New and existing customers can buy a Sky Glass Air from just £6 a month with 0% interest*. You can also choose to pay for your new TV in whole upfront.

Next choose a TV pack to go with it. Sky Essential TV starts from only £15 a month and gives access to some of the UK’s highest rated shows from Sky, Netflix and discovery+. You can choose a 24-month TV contract for best value, or a 31-day rolling contract for more flexibility. Meaning telly fans can enjoy a wide variety of entertainment, with the smart Sky Glass Air TV experience from £21 a month.

The new Sky Glass Air will be available to buy at Sky.com, Sky stores and via Sky’s call centres, as well as on Currys.co.uk from 10 June. It will also be on sale in Currys stores from 18 June.
