

## HOMEOWNER TEMPORARY CONNECTION REQUEST FORM

**Payment Card Industry Data Security Standards prevent the use of credit card information sent through email or fax. A Client Service Representative will contact you within three business days to complete any payment process required.**

**Note:** Technical Safety BC collects your personal information for the purpose of administering permits and other activities under the *Safety Standards Act* and may need to disclose this information to entities such as utilities, provincial agencies and municipalities. By submitting this form you are consenting to the disclosure described above.

Any personal information collected is handled in accordance with the British Columbia *Freedom and Protection of Privacy Act*. If you have questions about the collection, use, or disclosure of this information, contact the Records, Information and Privacy Analyst for the Technical Safety BC at 1-866-566-7233.

**Note: In order for our safety officers to conduct an inspection of your site, we require that regulatory Occupational Health and Safety ("OHS") conditions for structural and respiratory hazards are met. Examples of potential OHS hazards include: asbestos, mold, lead, Hanta virus (mouse droppings), silica, or chemical or gas leaks. If you have any of these potential or existing conditions, you need a qualified professional to perform a hazard assessment and certify that the site is free of these hazards prior to requesting an inspection.**

Date: \_\_\_\_\_ Installation Permit No.: \_\_\_\_\_

Electrical Safety Officer  
Technical Safety BC

Permission is requested by \_\_\_\_\_ for a Temporary Connection to my permanent Electrical Service at the following location:

The following conditions are understood and will apply:

1. The temporary connection will expire 180 days from the date when the Safety Officer has authorized the connection of my electrical service to the Supply Authority.
2. The main switch or circuit breaker will be locked off when workers are not present at the site or until such time as the house is lockable. A suitable padlock will be provided at the main electrical panel for this purpose.
3. The electrical portion of my installation will be completed and a final electrical inspection requested prior to the expiry date of my temporary connection.
4. Except for those circuits authorized at the time of temporary connection, no additional circuits will be connected to circuit breakers or energized until they are complete with all devices installed and a final electrical inspection is requested.
5. My dwelling will not be occupied until the electrical installation is complete and a final inspection is requested.

**I understand that a failure to comply with the above terms and conditions may result in the disconnection of the supply of electrical power to my house. I also understand that a failure to comply with the provisions of the *Safety Standards Act* and the regulations under that Act may also result in the disconnection of the supply of electrical power to my house.**

Checking this box and submitting this form to Technical Safety BC **via email** constitutes your authorization. This has the same effect as submitting a handwritten signature.
