

Sub-Form for Gas Design Registration: Fireplace Showroom Common Venting Systems

Payment Card Industry Data Security Standards prevent the use of credit card information sent through email or fax. A Client Service Representative will contact you within three business days to complete any payment process required.

Note: Any personal information collected is handled in accordance with the British Columbia *Freedom and Protection of Privacy Act*. If you have questions about the collection, use, or disclosure of this information, contact the Records, Information and Privacy Analyst for the Technical Safety BC at 1-866-566-7233.

Please note: Designs may be submitted electronically by e-mail or mailed in on a data CD or data DVD. All electronic documents must be in PDF or Word formats and scans must be legible. Picture files need to be in standard formats and must be clear. Hard copy submissions shall include two copies of all data. Designs must be made by a Certified Professional acceptable to the Authority.

Please note:

Certified fire pits in operation in a show room must be vented under a hood with an approved power vented exhaust system.

Please submit the following drawings and specifications:

- 1. Site or room P&ID showing location of appliances, clearances, and construct of surrounds.
- 2. Electrical / control ladder schematics show interlocks and fans.
- 3. Venting diagram indicating materials and diameters.
- 4. Show location of combustion air supply and sizing. (For decorative B-vent units)

Technical Safety BC is working towards going paperless! Participate by signing up for email correspondence.
