Instructions

You'll see some instructions on how the test works and you can test your audio setting to make sure it's working.

Welcome to Berlitz Online Testing Services

The Berlitz Online Placement Test is designed to measure your ability in the language at the level you have studied. The test will assess your grammar, vocabulary, listening comprehension and reading comprehension skills.

The test contains a total of 68 questions and each question is timed. The test will take approximately 30 minutes to complete. If you do not know the answer to a question, select "I don't know (skip)" to move to the next question. The skipped question will not be counted in your score. Once you have submitted or skipped a question, there is no option to go back to that question.

It is important that you take the test in Optimal Conditions. To do so, please observe the following guidelines:

- If you are not taking the test in a designated test room, find a quiet place to take the test
- Read the instructions and sample questions carefully
- Listen carefully to the audio; it will be played only once. Then select your answer.
- Select the correct answer. You can change it during the allotted time for each question.
- Confirm your response to proceed to the next question. If you do not confirm or if the question times out, it will skip to the next question and be recorded as "no answer".
- Test should be taken at once and cannot be paused. If you interrupt the test, you will need to restart it from the beginning.

Please check your audio settings before beginning the test.

Click on the button below to test your audio settings.

If you can hear the tone, adjust the volume and click "START NOW" at the bottom of the screen to begin.

If you can't hear the tone, please make sure your volume is turned on.

If you're unsure how to turn on your device's volume, or if your volume is on but you can't hear the tone anyway, please refer to our FAQ section, speak to the test supervisor or contact info@berlitztesting.com
