Welcome

Thank you for your interest in 8x8. A pioneer in integrated cloud communications and contact center solutions, 8x8 helps customers deliver improved customer and employee experiences, solve critical communications challenges by enabling work from anywhere, and supporting digital transformation initiatives that drive competitive and economic advantage.

An 11-time Leader in the Gartner Magic Quadrant for Unified Communications as a Service (UCaaS), Worldwide and recognized eight years in a row in the Gartner Magic Quadrant for Contact Center as a Service (CCaaS), 8x8 is known in the market for its vision in introducing XCaaS™ (eXperience Communications as a Service™) and the 8x8 eXperience Communications Platform™ which includes integrated cloud contact center, voice, team chat, video meetings, and SMS capabilities in a single-vendor solution.

8x8 takes active security measures that have been validated by independent, 3rd party auditors, so we can confidently say we securely deliver robust communications capabilities. Our security team is geographically dispersed providing 24/7/365 capabilities protecting our infrastructure and supporting our customers.

This package contains information regarding our security certifications and ways in which we protect your data. We are certain you will find our “Security and Compliance Assurance Packet” to be a helpful tool in answering the questions you may have about our security program.

Thank you for the opportunity to show how we believe we have earned your trust.

Best Regards,

Rick Orloff
GVP, Chief Information Security Officer

Why 8x8?

The 8x8 eXperience Communications Platform™ is the first and only true XCaaS platform in the market and optimizes omnichannel customer experience with data-driven insights while enabling robust employee engagement in a work-from-anywhere world. 8x8 XCaaS erases the boundary between Unified Communications as a Service (UCaaS) and Contact Center as a Service (CCaaS) to help organizations deliver modern communications experiences that drive revenue, cut costs, and optimize operations for the new world of work.

Secure & Compliant

8x8 protects your business using some of the strictest security requirements for data security, privacy, and compliance - verified by 3rd party security and compliance certifications.

Integrated

Organizations searching for communications technology that bridges employee and customer experience gaps find that an integrated platform provides the highest reliability, security, and the best overall value. The 8x8 XCaaS platform brings customer and employee experience together with contact center, voice, video, chat, and APIs on one cloud-native platform.

Reliable

Our proprietary 8x8 eXperience Communications Platform™ is designed from the ground up and delivered from top-tier, redundant, geographically

diverse, state-of-the-art cloud locations/regions to ensure the highest possible uptime for contact center, voice, video, chat. The 8x8 eXperience Communications Platform™ also uses patented Global Reach™ technology and built-in software intelligence to deliver high availability and mitigate common cloud communications challenges, such as connectivity issues, audio and video quality problems, and service outages.

Our platform offers a financially-backed, platform-wide 99.999% uptime SLA across UCaaS and CCaaS.

Insightful

From call activity reporting to AI-driven speech analytics, 8x8's unique ability to bring together and analyze data from all your communication touchpoints provides unique insights that drive productivity improvements, cost savings, and revenue growth.

Message from 8x8 Security and Compliance

Built on the 8x8 eXperience Communications Platform™, 8x8 is responding to the new needs of businesses today and uniquely provides a single-vendor, fully integrated, cloud-native contact center, voice, team chat, meetings, and Communications Platform as a Service (CPaaS) platform. With XCaaS, 8x8 is delivering on the innovation that will advance our customers' increasingly connected EX and CX-focused communications, collaboration, and engagement needs.

The 8x8 Platform offers:

- 8x8 Contact Center
 - An omnichannel contact center solution supporting inbound/outbound interactions for all voice and digital channels
 - A conversational AI solution for automated self-service experiences
 - A full suite of Workforce Engagement Management applications that include native Quality Management and Speech and Text Analytics
- 8x8 Work
 - Enterprise-grade PBX features that include auto-attendant, voicemail, flexible call flow rules, and number coverage in over 100 countries
 - Business SMS/MMS and internet fax
 - End-to-end encrypted video meetings
 - 1-1 or team chat and private or public chat room
- In-depth reporting and robust analytics
- Unified administration for license management, number porting, provisioning, and configuration
- Integrations with 40+ popular business and productivity apps like Microsoft Teams, Salesforce etc.

System Hardening

8x8 designs its XCaaS (8x8 Work including phone, video and chat capabilities, 8x8 Contact Center, JaaS, CPaaS Messaging, CPaaS Chat Apps, CPaaS Voice) platform to meet its regulatory commitments that 8x8 provides to its clients, the laws and regulations that govern the provision of those services, and the financial, operational, and compliance storage and transmission following NIST guidelines and Center for Internet Security (CIS) hardening standards.

Encryption

All discovered subdomains and IPs require Transport Layer Security (TLS) 1.2 and above. 8x8's key length requirements are reviewed annually as part of our yearly security review. 8x8 maintains technical requirements for our established services, as well as operational requirements in its system design.

Network

8x8 documents its network design for the purpose of showing its network interconnectivity and perimeter security of its network via policy enforcement points (PEPs), including firewalls. PEP configurations are used throughout XCaaS. The XCaaS architecture also utilizes segmentation for Confidentiality, Integrity, and Availability monitoring and control points.

Cloud Storage

The XCaaS environment is based in Amazon Web Services (AWS) and uses technologies including Application and Network Load balancers, VPCs, EC2 instances, S3 buckets, Route53 Domain Name System (DNS), CloudWatch, CloudTrail, and GuardDuty.

The Meetings and JaaS technology stack uses cloud services from both AWS and Oracle Cloud Infrastructure (OCI) in a hybrid configuration. Signaling and Public Switched Telephone Network (PSTN) connection services are provided on secure AWS EC2 instances and supported by global accelerators, Application Load Balancers, and HAProxy (also in EC2). Video bridge services (also called "Selective Forwarding Units" [SFUs]) and meeting recording capabilities are implemented on secure virtual machines in OCI. Network connectivity between cloud providers is provided by Megaport and is backed up by secure virtual private networks (VPNs).

Data Centers

Data centers and internet points-of-presence are maintained around the world to accommodate both processing capacity and data jurisdictional issues. Internet connectivity is critical for 8x8 and includes multiple connections from multiple internet service providers. Connectivity from 8x8 offices to data centers environments is accomplished with an IPSEC VPN. Connectivity from data centers to AWS and OCI cloud environments are provided with secure dedicated routes, which is backed up by IPSEC-based VPN. Connectivity between data centers uses a mix of private circuits and IPSEC-based VPN.

8x8's 3rd Party Validations

PCI Data Security SAQ D

The Payment Card Industry Data Security Standard (PCI DSS) outlines a set of security requirements that all organizations handling credit card information must follow. The purpose of the standard is to ensure that sensitive credit card data is stored, processed, and transmitted securely.

8x8's XCaaS services have been reviewed by a nationally recognized Qualified Security Assessor (QSA) and have been assessed PCI compliant.

HIPAA Security Rule Compliance

The Health Insurance Portability and Accountability Act (HIPAA) stipulates how Personally Identifiable Information (PII) maintained by the healthcare and healthcare insurance industries should be protected from fraud and theft.

When properly configured, 8x8 products and services are HIPAA compliant.

8x8 Solutions have been audited by a nationally recognized Qualified Security Assessor (QSA) and have demonstrated that all requirements from the HIPAA Security Rule have been met.

HITRUST

HITRUST is a privately held company located in the United States. The HITRUST Common Security Framework (CSF) is a prescriptive set of controls that meet the requirements of multiple regulations and standards for use by organizations that create, access, store or exchange sensitive and/or regulated data.

8x8 has successfully completed a HITRUST Risk-based, 2-year (r2) readiness assessment as a part of our assurance toward supporting HIPAA environments.

Cyber Essentials Plus

Cyber Essentials is a UK government backed scheme that provides a set of basic security controls that an organization, whatever its size, needs in order to defend against the most common cyber attacks.

8x8 has successfully completed a Cyber Essentials Plus security assessment.

CYBER ESSENTIALS PLUS

CERTIFICATE OF ASSURANCE

8x8 UK Limited
Oxford House Bell Business Park, Smeaton Close Aylesbury HP19 8JR

COMPLIES WITH THE REQUIREMENTS OF THE CYBER ESSENTIALS PLUS SCHEME

NAME OF ASSESSOR : Jason McNicholas
CERTIFICATE NUMBER : 9c93e433-1456-4be2-9a3f-40967319306e DATE OF CERTIFICATION : 2023-01-19
PROFILE VERSION : 3 RECERTIFICATION DUE : 2024-01-19
SCOPE : Whole 8x8 UK Limited Organisation, excluding networks external to 8x8 UK Limited

SCAN THIS QR CODE TO VERIFY THE AUTHENTICITY OF THIS CERTIFICATE

CERTIFICATION MARK CERTIFICATION BODY CYBER ESSENTIALS PARTNER

  

The Certificate certifies that the organisation was assessed as meeting the Cyber Essentials Plus implementation profile and thus that, at the time of testing, the organisation's ICT defences were assessed as satisfactory against commodity based cyber attack. However, this Certificate does not in any way guarantee that the organisation's defences will remain satisfactory against a cyber attack.

SOC 2

System and Organization Controls (SOC) is a suite of audit reports defined by the American Institute of Certified Public Accountants (AICPA), intended for use by service organizations to issue validated reports of internal controls over those information systems to the users of those services.

8x8's XCaaS services have been reviewed by a nationally recognized Qualified Security Assessor (QSA) and have passed a SOC 2 Type 2 audit.

The graphic is a certificate of audit with a white background and a light gray vertical-line pattern. At the top, there is a dark orange horizontal bar. Centered below this bar is a shield-shaped logo with a black border, a white background, and a blue ribbon across the middle. The ribbon contains the word "AUDITED" in white capital letters. Above the ribbon is a small "KP" logo, and below it is a checkmark icon. Below the shield, the text "Certificate of Audit" is written in a large, bold, black sans-serif font. Underneath this, in a smaller black font, it says "An Independent Service Auditor's Report has been issued to". The name "8x8, Inc." is written in a bold, orange sans-serif font. Below that, it says "after completing a SOC 2 Type II Audit for the period of September 1, 2021 through August 31, 2022." and "Valid for 12 months from audit period end date." in a small black font. At the bottom left is the KirkpatrickPrice logo, which consists of a black square with "KP" in white, followed by the text "KirkpatrickPrice" in black and orange, and the tagline "Innovation. Integrity. Delivered." in a smaller black font. At the bottom right is a signature of Joseph Kirkpatrick in black ink, with a horizontal line underneath it. Below the signature, the text "Joseph Kirkpatrick, President" and "CPA, CISSP, CISA, CGEIT, CRISC, and QSA" is written in a small black font.

Certificate of Audit

An Independent Service Auditor's Report has been issued to

8x8, Inc.

after completing a SOC 2 Type II Audit for the period of September 1, 2021 through August 31, 2022.

Valid for 12 months from audit period end date.

 KirkpatrickPrice
Innovation. Integrity. Delivered.

Joseph Kirkpatrick, President
CPA, CISSP, CISA, CGEIT, CRISC, and QSA

ISO 27001

ISO 27001 is an international standard framework for an effective Information Security Management System (ISMS). ISO 27001 requires that management systematically examine the organization's information security risks, design and implement a coherent and comprehensive suite of information security controls and adopt an overarching management process to ensure that the information security controls continue to meet the organization's information security needs on an ongoing basis.

8x8 has been found compliant with the requirements of ISO 27001:2013 by an accredited certification body following successful completion of an audit.

Certificate of Registration

This is to certify that the Management System of:

8x8 Inc

675 Creekside Way, Campbell, CA, 95008, United States

And as detailed on the annex of this certificate

has been approved by Alcumus ISOQAR and is compliant with the requirements of:

ISO 27001: 2013

Certificate Number:	13884-ISMS-001
Initial Registration Date:	30/10/2015
Previous Expiry Date:	30/10/2021
Recertification Audit Date:	10/09/2021
Re-issue Date:	03/08/2022
Current Expiry Date:	30/10/2024

Scope of Registration:

Information Security Management for the design, deployment and operation of cloud-based unified communication services globally in accordance with the Statement of Applicability Version 5.

FISMA / NIST SP 800-53 R5

NIST Special Publication 800-53 is a catalog of security and privacy controls intended to assist federal agencies and corporations implement the Federal Information Security Modernization Act of 2014 (FISMA) to protect their data and information systems.

8x8 is NIST SP 800-53 R5 compliant.

A nationally recognized Qualified Security Assessor (QSA) performed an assessment of the 8x8 X Series environment and found 8x8 to be NIST SP 800-53 R5 compliant at the FISMA Moderate level.

Cyber Trust mark

The Cyber Trust mark is a cybersecurity certification for organizations with extensive digital business operations. Put forth by the Cyber Security Agency of Singapore (CSA).

The Cyber Trust mark serves as a mark of distinction for organizations to prove that they have put in place good cybersecurity practices and measures that are commensurate with their cybersecurity risk profile.

8x8 is CSA Cyber Trust mark (Advocate Level) certified.

TÜV SÜD PSB performed an assessment of 8x8 Information Security Management for and found 8x8 systems to be Cyber Trust compliant.

ISO 9001

ISO 9001 is a standard that sets out the requirements for a quality management system. It helps businesses and organizations to be more efficient and improve customer satisfaction.

8x8 offices in the UK have been found compliant with the requirements of ISO 9001:2015 by an accredited certification body following successful completion of an audit.

Certificate of Registration

This is to certify that the Quality Management System of

8x8 UK Ltd

Oxford House, Bell Business Park, Smeaton Close, Aylesbury, Buckinghamshire. HP 19 8JR

has been assessed by The Certification Group for conformance to the requirements of:

ISO 9001:2015

Scope of Registration

Quality Management System for the deployment, operation and support of cloud based unified communication services from 8x8 head office at Oxford House, Bell Business Park, Smeaton Close, Aylesbury, HP19 8JR.

Signed on Behalf of The Certification Group
Certification Manager: Elaine Hanaghan 

Registration No	7137265S
Initial Certification Date	12/03/2014
Certificate Issue Date	04/04/2023
Certificate Expiry Date	12/03/2026
Issue No	05

ISO 14001

ISO 14000 is a family of standards and guidelines related to environmental management to help organizations minimize how their operations negatively affect the environment, comply with applicable laws, regulations, and other environmentally oriented requirements, and continually improve in this area.

8x8's UK offices are being audited for compliance with the requirements of ISO 14001 by an accredited certification body and certification will be issued following successful completion of the audit.

8x8/HackerOne Vulnerability Disclosure Program

Since January 2020, 8x8 has conducted a third-party vulnerability disclosure Bug Bounty program. The scope of the program covers 8x8 Work, 8x8 Contact Center, 8x8 CPaaS and Jitsi.

Our third-party Bug Bounty program provides preemptive security testing enhancing 8x8's in-house Security team and third party penetration testing by leveraging a global pool of security experts to detect vulnerabilities.

Our Bug Bounty provides monetary rewards given to ethical hackers for successfully discovering and reporting a vulnerability, or bug, to 8x8. The Bug Bounty program allows 8x8 to leverage the ethical hacking and security researcher community to continuously improve 8x8's systems' security posture. Bug Bounties complement 8x8's existing security controls by exposing vulnerabilities that automated scanners might miss, and incentivize security researchers to emulate what a potential bad actor would attempt to exploit.
