## Go, Japan

“ Thanks to ELS, my English has dramatically improved in six months. ELS is, however, not just the place where we learn English. The greatest thing which I have experienced is the importance of understanding differences. It is not only the differences between cultures but also in each person. The ability to communicate in a common language which we learn is power to understand this difference respectfully. Language is power. Language is love. ”

# Straight from the Students

Our students speak from experience.

**Tatiana, Russia**

**Languages spoken:** Russian, English

**ELS program:** ELS Language Experience+®

**ELS center:** ELS/New York – Manhattan

**Favorite thing about ELS:** Teachers at ELS. They give students respect, and they are very wise.

**Favorite thing about New York City:** World Trade Center

**Q. Briefly describe your journey to learning English—why did you choose ELS?**

- A. Because English is an international language, and I think everybody needs to understand what a lot of people in the world speak. I want to improve my level of English, and then I can study another language. It's interesting to understand people from another country, another culture, and to see a lot of new places and try to understand information.

**Q. Describe your experience when you first arrived at ELS/New York – Manhattan. How did you feel? What were some of the first things you did?**

- A. I was very nervous. But everything here is very good, very kind. People are very friendly. I have very good emotions, even when I spoke to the visa officer; he was very kind and polite. One of my first and interesting experiences was to see museums and a lot of famous memorials, and I was in a museum in New York that was about 9/11.

**Q. What did you like the best about Manhattan? What was the most enjoyable thing you experienced?**

- A. New York was like a dream. I could never think that I could be in New York and have such an interesting experience to see a famous big city, museums, and the World Trade Center. I liked the World Trade Center best because it was great to have people from other countries to speak with.

**Q. What are some of the things you have learned in the classroom, and how have they helped you?**

- A. Every class is important to me. We speak to develop our language skills and grammar. All my life I thought I was very good in grammar because I was in my country. Now I learned something new because my experience here was bigger than what was in my country.

**Q. How do you anticipate using the skills you have learned at ELS in the future?**

- A. In Russia, I like to write and do research, and if I can translate it in English, it can be useful to somebody in the future. For everybody, English is very important because a lot of people speak English. And for traveling it's very important. When I travel with my family, now I can communicate with others.

## **Bandar, Saudi Arabia**

**Languages spoken:** Arabic, English

**ELS program:** Intensive English

A. I read a lot about ELS. I found it a successful school to improve my language. Also, I like the program they teach us. It's more helpful.

### **Q. What do you like about ELS/Grand Rapids?**

A. First of all, I like the campus. Then I like my teachers in the school. They are super friendly. They are always ready to help us if we have any question or any problem. There is different culture I learn in Grand Rapids ELS.

### **Q. How has ELS helped you achieve your goals?**

A. First of all, it improved my language. Then, they correct my grammar mistakes and told me many things about my major. Also, they told me how I can get admission [to university], and there are some classes to help me with my major. They gave me many after-school classes every month. For the first six months, I used to go to the speech lab after school to improve my English and my skills. That was helpful.

### **Q. What advice do you have for students looking for a place to learn English?**

A. ELS/Grand Rapids is the best place to learn because if you want to save the money, the city is affordable. The city is also friendly. The people in the city are friendly, and the teachers at ELS are more than friendly, and you will not feel homesick. Also, you can get a host family—they will help you to find good one. The bus is free. You can ride the bus anytime in the day without paying anything.

### **Q. What are your future plans?**

A. After ELS, I will start university to catch my goal, and I would like to come back to visit my teachers in ELS because I really made new friends there. I would like to complete the university in the U.S. for my bachelor's and master's degrees. I would like to get my bachelor's degree in radiation therapy.

### Gozde, Turkey – ELS/Charlotte

“ When I first went to ELS/Charlotte, I was really anxious because my family was so far away and it was a new world and life. However, on my first day, I met with my roommates. They were so friendly and nice to me. That made me calmer and a little bit happy. They told me that I was going to have amazing times here. Then I met with ELS. The teachers are not just teachers. # Take Your English to the Next Level

ELS offers 12 levels of instruction to fit your needs.

There are 12 levels of English instruction, and we'll help you find the level that's best suited for you. The basics and foundations of the English language are taught at the lower levels, and as you progress, you will find more complexity in your coursework. You will be evaluated every four weeks, and if you meet the requirements of your current level, you will move to the next.

## Find your place.

Before you begin taking classes, we will determine your level of proficiency so we can place you in the correct level. All ELS centers offer placement testing prior to enrollment. If you have already taken the TOEFL iBT®, IELTS™, or GTEC, your scores might automatically qualify you to begin at a specified ELS level:

Minimum ELS Level Placement	Required Minimum Test Score		
	TOEFL iBT	IELTS	GTEC
104	45	4.0	774
106	55	4.5	946
108	65	5.5	1076

To qualify, simply submit your TOEFL iBT, IELTS, or GTEC score along with your ELS application or do so anytime before you take the ELS placement test. You'll still take our placement test when you arrive at the center because it might indicate that you should start at a higher level than what your standardized test scores indicate. If your placement test indicates you should start at a lower level than what you qualify for, you will be counseled by the academic director, but the decision to start at a lower level will be up to you.

Remember, you must submit your standardized test scores before you take the ELS placement test. Test scores will not be accepted after classes start, and test scores cannot be used to move to a higher level at any time.

## Start Your Day

Whether you are living in a homestay or in one of our student residences, you can always begin your day practicing your English with your host family or roommate(s) before heading to your first lesson. You can also use this time to have breakfast or coffee, which can be an ideal opportunity for conversation.

## Morning Classes in Session

Depending on your program, you will have three or four 50-minute lessons each morning, with a 10-minute break after each class. Throughout the morning class sessions, you will have the chance to interact with teachers and fellow students as you focus on speaking, listening, reading, and writing.

## Lunchtime / Midday Break

You can spend your lunch break at your school's location or venture out to experience local restaurants, eateries, cafes, and coffee shops. You can test your new English skills while ordering food or having conversations with locals in the community or on campus.

## Afternoon Classes in Session

If you are studying in the Intensive, Business English, or ELS Language Experience+® 6 programs, your learning experience continues after lunch. The content of your afternoon classes will vary depending on your program of study, but all afternoon classes will give you additional opportunities to develop your language skills as you explore new topics with your teachers and classmates.

### Study and Explore

Once classes are over for the day, you'll have the choice to practice your English at your center's student lounge or at your residence, or you can take time to discover new experiences around you, such as seeing local attractions, going shopping, meeting new friends, and more. If your center is on a university campus, you'll have the opportunity to take advantage of campus facilities, such as libraries, fitness centers, and computer labs. Studying abroad requires balance, so manage your study and free time according to your needs.

### Dinner and Evening Activities

Use this time to practice your English during your evening meal, relax with new friends or roommate(s), or attend events within the community or on your school's campus. Whatever you choose, you will still be able to use your English to improve your conversational skills with native speakers.

### Faii, Thailand – ELS/La Verne

“ I was an ELS student in the Semi-Intensive program. With abundance of help from all ELS instructors and friendly staff members, it was worthwhile being here. I found ELS programs are greatly enriched with both academic and non-academic activities that encourage students to practice English inside and outside of classroom. Besides learning in class, practicing my speaking skill with the staff members is one of the most enjoyable things for me ever! The advantage of being here is that not only did I enjoy learning American culture, but also the wide range of cultural experiences by getting to know people from many different countries. ”

# Higher Education Services

## Discover what university is right for you.

Before you even leave home to learn English and study abroad, you can take full advantage of applying for conditional admission to the college or university of your choice. To get started, you can use the ELS University Guide Online at [UniversitySearch.com](http://UniversitySearch.com) to browse college and university programs you may be interested in.

### How it works

You can create a customized college and university search to easily compare schools based on what's most important to you, including degree or major, locations (state and/or region), English requirements, opportunity to receive a conditional letter of admission, and more.

After you have found a higher education institution that's right for you, the next step is to contact the ELS University Admission Services team. One of our experts will work with you to help you get started on applying and receiving your conditional letter of admission.

### What is a conditional letter of admission?

The college or university of your choice may grant you a conditional letter of admission after you apply, stating that you will be guaranteed admission into their institution provided you complete the required ELS English proficiency level. So, once you graduate from ELS, you'll go directly to the school of your choice.

1. Apply to the college or university of your choice through ELS University Admission Services.
2. Receive your conditional letter of admission.
3. Successfully complete Level 109 or Level 112 of ELS Intensive English.\*

\*Some universities allow you to take courses for credit as you complete advanced levels of the ELS Intensive English program.

### Laurianne, Ivory Coast – ELS/Grand Rapids

“ I came to ELS because GVSU [Grand Valley State University] is a university which interested me due to its diversities and its high implication with international student. The education provided there is highly appropriate to myself. I intend to pursue an accounting major. GVSU could give me experience and formation in that domain, I really intend to be a part integrated to GVSU community. Also with ELS I think everything is facilitated because students from ELS have some advantages. ”

# ELS Extras

## Get the most out of your experience.

ELS centers have plenty of opportunities if you're looking for additional ways to get to know other students, your community, or university courses. Your English will improve as you hold conversations with native speakers, volunteer in your community, or have the opportunity to listen and learn from courses on campus. These options are available at select ELS centers. Contact a counselor to find out more. [Visit ELS.edu/ContactACounselor](https://els.edu/ContactACounselor).

### Conversation Partnerships

Some ELS centers organize conversation partner programs where you can connect with groups of native speakers to practice your English outside class in a relaxed and informal setting.

### Volunteering

There are volunteer opportunities at some centers, giving you the opportunity to learn more about the community in which you live. These can be regular monthly projects such as visiting a senior center or playing with dogs and cats at an animal shelter, or seasonal events such as serving meals to the homeless on Thanksgiving or participating in a toy drive for Christmas.

### Concurrent Enrollment

ELS partners with many universities, so if you're in the advanced levels of Intensive English, you might have the opportunity to start taking university classes while still enrolled in your ELS program. Some universities require you to go through the admission process and be accepted before starting concurrent enrollment, and payment of regular university class tuition is required. For more information, contact [info@els.edu](mailto:info@els.edu).

### Course Auditing

If you're interested in a class at a partner university, you might be able to audit the course for a fee. You won't get university credit, but you'll have the benefit of learning the course material while you attend all classes for the semester and take all the assessments.

### Class Visitation

Many campus-based centers offer you the opportunity to observe a live university class. This is a great opportunity to see how professors and students interact, and to learn more about classroom culture.

### Argenis, Venezuela – ELS/Tampa

Vancouver is framed by mountains and beaches, has a thriving art, music, and performance theatre scene, and is a popular location to film both television and movie projects.

### Must See in Vancouver

Let Vancouver be your gateway to adventure and experience some of the city's spectacular attractions.

- **Stanley Park:** You can walk, run, or cycle around the seawall that surrounds the downtown waterfront. This park, nearly 1,000 acres in size, includes Lost Lagoon, a water park, a saltwater pool, beaches, the Vancouver Aquarium, and Brockton Point, where you can get up close with totem poles that were originally carved in the 1880s. Summers feature outdoor movies, concerts, dances, and much more.
- **Granville Island:** Explore one of the best open-air markets in North America. This funky, trendy artisan neighborhood offers fresh food, local artwork, and beautiful views of the beaches, marinas, and cityscape.
- **Visits to Victoria, Whistler, Tofino, the Rocky Mountains, and Seattle:** Enjoy single or multiday tours starting in Vancouver on the weekends. Seasonal activities such as snowboarding, surfing, whale watching, and more are available.
