Furthermore, the committee member should not otherwise influence other members of the committee in the selection process. However, a committee member who recused him/herself, but who has relevant and necessary information with respect to athlete performance (ex: a national team coach or high performance director) may provide such information to the committee if requested by the selection committee, so long as such information is provided in a fair and unbiased manner and the committee member who declared the conflict of interest does not vote toward the final decision.
