

# 2025 Junior National Team Selection Procedure

January 2025

**USA**  
TABLE TENNIS

The Junior National Team Ranking Procedure ranks athletes based on their performance in various events throughout the year. Using a point allocation system, it rewards competitive achievements and provides a clear pathway for athletes to achieve their goals. This procedure is integral to grassroots development and is essential for cultivating talent that can progress to Olympic-level competition. By encouraging participation from all regions, the procedure ensures opportunities are available to athletes across the country. It promotes broader engagement in the sport while effectively recognizing and rewarding top performers. Participation in all events is not mandatory; rather, athletes are given the opportunity to participate in various events to pursue their aspirations—whether focusing on playing at the Olympic level by staying competitive or simply enjoying the athletic experience to enrich their lives.
