USA FENCING PROGRAM

Abuse & Misconduct Summary of Insurance.

Effective August 1, 2026 – August 1, 2027

COVERAGE

The USA Fencing program includes Abuse & Misconduct Liability coverage, which responds to claims alleging abuse or misconduct made against a protected person or organization. Coverage is subject to compliance with applicable SafeSport training and background-screening requirements. This coverage applies in excess of any other valid and collectible insurance or bond available to the protected person or organization.

Coverage applies on a claims-made-and-reported basis: incidents or allegations are reported promptly upon becoming aware of them, using the claim contact below. The policy picks up covered conduct occurring on or after **August 1, 2021**.

WHO IS PROTECTED

USA Fencing and its directors, officers, and employees are protected. USA Fencing-registered clubs, teams, and divisions, event organizers, athletes, coaches, officials, referees, members (including trial members), and volunteers are protected while acting in their capacity as such with respect to USA Fencing-sanctioned events.

Registered club fencing activities, including practices, classes, clinics, and day camps, are also protected when every participant is a USA Fencing member in good standing. A trial member counts as a member in good standing for these activities while a completed USA Fencing trial-membership form is on file with USA Fencing or with the club conducting the activity.
