

June 6th meeting minutes:

Members in attendance: Kevin Doherty, Kathy Redcher-Bowling, Casey Blackketter.

Financial report

-Old money: There is a chunk of cash left over from the lwc/wso restructure. We are currently in the process of transitioning responsibility for that money to the new board. further discussion was tabled, to be continued at the end of june in las vegas.

- New money: A wso budget was tentatively presented in a google doc and shared with all board members. Kevin brought up Jashas idea for medal bonuses, and tying the medal bonus into the grant application process. Idea can be voted on at the next board meeting when everyone has a chance to hear and speak to the ideas that are presented. Jasha was not present to speak to the financial situation regarding the new money allocated to our WSO by USAW

Regional championship: USAW has informed us that a state championship is not necessary, however a regional championship is. Chris Amenta from SoCal Weightlifting would like to coordinate with someone from up here to host an event in San Luis Obispo that serves as a state championship event. If Chris gets organized enough and reaches out, Kevin mentioned that he would be willing to try and coordinate with Chris.

Roles and responsibilities: Primarily, a grant committee is necessary to facilitate the grant process. We are still waiting for specifics regarding roles and responsibilities from USAW, however a grant committee will need to be established at the next board meeting.

Additionally, we are short board members, as a group we need to think about people who are active in our local community, who would like to advocate for their peers. Then reach out to them to accept nominations to be board members in the future. It will be helpful to find out from usaw how frequently board members can be voted into positions if we are trying to fill empty slots.
