CAMPAIGN GOALS

- I will represent our region, federation and coaches with my extensive experience and knowledge.
- From my days as an elite athlete to my current tenure as the Director of High Performance at USA Triathlon, I have a depth of understanding of the sport that only years of involvement at the elite level can provide.
- I've coached dozens of elite level athletes and been an active member on the World Triathlon circuit over the last few Olympic cycles.
- I'd plan to bring my background to the Coaching Committee to help form and guide decisions that will positively impact the sport as we grow into the future.
- As a key member of the USA Triathlon staff and considerable involvement and investment in World Triathlon over the past 8 years, being a member of the coaching committee would offer me the opportunity to help provide guidance and collaboration on key coach/athlete issues that arise in the World Triathlon community.
- I would be an important voice that would help form policies and make decisions that would benefit the sport.
- I would represent the athlete perspective and needs, as only a coach can provide.
- I'd like to be a voice on the committee for our country, region and committee as a whole regarding key World Triathlon topics and initiatives that impact both coaches and athletes.
