# ABOUT

## ABOUT U.S. BIATHLON

The United States Biathlon Association, known as U.S. Biathlon, is recognized by the International Biathlon Union (IBU) and the U.S. Olympic and Paralympic Committee (USOPC) as the National Federation for biathlon in the United States. Founded in 1980, U.S. Biathlon exists to support and encourage the development of biathlon in the United States, to work with biathlon clubs and regional centers around the country to organize training and competition from the grassroots to elite level, and to prepare athletes for international competition. U.S. Biathlon staffs and finances the U.S. Biathlon national and junior national teams and is a 501 c (3) non-profit organization.

## MISSION

U.S. Biathlon is an Olympic sports organization that fosters the growth of the biathlon community in the U.S., developing athletes with integrity and achieving international and Olympic success.

## VISION

U.S. Biathlon's vision is to stand atop the international biathlon stage and be a leading organization for supporting athletes and clubs, prioritizing athlete well-being, and acting with integrity.

## U.S. BIATHLON OPERATES UNDER THREE MAIN CORE VALUES:

**RESPECT**

**GRIT**

**GROWTH MINDSET**

# HISTORY

## HISTORY OF BIATHLON

Biathlon traces its roots back thousands of years to the snowbound regions of Scandinavia, where early inhabitants combined cross-country skiing and rifle marksmanship as essential survival skills for hunting and defense. The sport evolved through military patrol competitions in the 18th and 19th centuries, particularly in Norway and Sweden, before gaining formal recognition in the 20th century. Biathlon made its Olympic debut at the 1960 Winter Games in Squaw Valley, with women's events added in 1992. Over time, biathlon has transformed into a fast-paced, globally followed winter sport that demands exceptional endurance, precision, and mental focus. Today, the sport is governed internationally by the International Biathlon Union (IBU) and features athletes competing internationally across IBU Junior Cups, IBU Cups, World Cups, World Championships, and the Olympic Winter Games.

## HISTORY OF U.S. BIATHLON

Biathlon in the United States can trace its roots to the establishment of the U.S. Army's 10th Mountain Division at Camp Hale, Colorado in 1943. With the introduction of biathlon in the Winter Olympic program in 1960, the U.S. Army took the major role in the development of the sport for the nation. In 1980, the United States Biathlon Association (U.S. Biathlon) was founded to govern the sport.

For more information on the history of U.S. Biathlon, click [HERE](#).

# IN DETAIL

A breakdown of biathlon.

In biathlon, shooting is where fatigue meets rapid-fire — and where races are won or lost in a matter of seconds. Athletes arrive at the range with their heart rates hitting 180 beats per minute or more. Yet they must switch instantly from full-gas skiing to absolute stillness. Every shot is a mental reset. Five targets, two positions (prone and standing), and one simple truth: accuracy beats speed if your nerves can hold. A clean shot can electrify an entire stadium, while a single miss can short-circuit an athlete's race and silence the crowd. This tension is what hooks new fans: the sport's most dramatic moments often happen without anyone moving. One shot can reshape an entire race, turning leaders into chasers and outsiders into contenders in an instant.

If shooting is the calm, skiing is the storm. Biathlon skiing is built on cross-country speed — explosive and relentless. Athletes race on courses that twist through forests, climb hills, and dive into fast descents, demanding both raw power and flawless efficiency. Every loop is a balancing act between attacking the terrain and conserving just enough energy to stay sharp for the shooting range. What makes biathlon skiing so compelling is the rhythm of constant change and shifting gears: quick bursts up climbs, aerodynamic tucks downhill, smooth gliding on flats, and tactical decisions when skiing in packs. Watching them attack the final loop - legs burning, crowds roaring - is where biathlon's intensity reaches its peak. It's pure athletic drama on snow.

# DISCIPLINES

Biathletes compete in 6 different disciplines at the Olympics.

## INDIVIDUAL

The original, classic and longest biathlon competition. The Individual (20 km for men; 15 km for women), more than any other discipline, rewards precision: as each missed target adds one minute to the athlete's final time. Careful, accurate shooting is crucial for success. Athletes start at 30-second intervals and ski five loops (5 x 4 km for Men; 5 x 3 km for women), with four shooting stages alternating prone and standing (prone, standing, prone, standing). The final time including penalty minutes determines the winner.

## SPRINT

The Sprint (10 km for men; 7.5 km for women) became a part of the Olympic Winter Games program at Lake Placid in 1980. Just as it says, this is an all-out effort from start to finish, emphasising fast skiing and equally fast shooting. Athletes start at 30-second intervals and ski three loops (3 x 3.3 km for men; 3 x 2.5 km for women) with two shooting stages, prone and standing. The athlete skis a 150-meter penalty loop for each missed target before starting on the next loop. The fastest total time determines the winner.

## PURSUIT

The Pursuit (12.5 km for men; 10 km for women) first appeared in the 2002 Olympic Winter Games in Salt Lake City. The top 60 competitors from the previous competition qualify for the pursuit, going out in the seconds-back order based on their sprint finish, i.e. sprint winner starts at 0:00, second place in sprint starts at for example five seconds back and so on until all sixty have started. Competitors ski five loops (5 x 2.5 km for men; 5 x 2 km for women) with four shooting stages (prone, prone, standing, standing). Athletes ski a 150-meter penalty loop for each missed target before starting on the next loop. This competition is always full of big moves and sudden drama, especially in the last standing stage, when many times victory is on the line. The first to cross the finish line is the winner.

## **MASS START**

The Mass Start (15 km Men, 12.5 km Women) was added to the Olympic program in Torino 2006. The top 30 biathletes in the world all start at the same time. At the Olympic Winter Games, these 30 athletes are A) the top 15 from the current World Cup Total Score plus any medal winners that are not among the top 15 in the World Cup Total Score and B) the remaining competitors in rank order from the points they have earned in the Individual, Sprint and Pursuit competitions at the OWG. The points are distributed using the same system as for the World Cup. Single Best Result, Total Score Ranking and Qualifying Points are tie-breakers, if necessary. Competitors ski five loops (5 x 3 km for men: 5 x 2.5 km for women) with shooting stages in the same order as the pursuit: prone, prone, standing, standing. Athletes ski a 150-meter penalty loop for each missed target before starting on the next loop. Tactics abound with quick, accurate shooting being essential. The first across the finish is the winner.

## **RELAYS**

The Relay (4 x 7.5 km for men; 4 x 6 km for women) is the second-oldest biathlon competition, introduced at the 1968 Grenoble Olympic Winter Games. Each relay team runs four legs with the distance based on gender (each men's leg is 3 X 2.5 km with prone and standing shooting stages; Each women's leg is 3 X 2 km with prone and standing stages). In each shooting stage, the competitor is allowed to use three spare rounds if needed to close their five targets. A 150-meter penalty loop is run for any unclosed targets after the eighth shot is fired. Exchanges between each leg are a tap of the shoulder from the incoming athlete to the outgoing athlete. The first team across the finish line is the winner.

## **MIXED RELAY**

The mixed relay made its debut at the 2014 Sochi Olympic Winter Games. Two men and two women compete on each mixed relay team, which is simply four sprint-style legs. The same genders, which can be alternated at different competitions, start consecutively and compete at a distance of 6 km (3 x 2 km for each athlete with prone and standing shooting stages). In each shooting stage, the competitor is allowed to use three spare rounds if needed to close their five targets. A 150-meter penalty loop is run for any unclosed targets after the eighth shot is fired. Exchanges between each leg are a tap of the shoulder from the incoming athlete to the outgoing athlete. The first team to cross the finish line is the winner.

# SCHEDULE

Olympic biathlon competitions will take place from February 8, 2026 until February 21, 2026.

## SUNDAY, FEBRUARY 8

Mixed Relay (M+W) | 08:05 EST / 14:05 CET

## TUESDAY, FEBRUARY 10

Men's 20km Individual | 07:30 EST / 13:30 CET

## WEDNESDAY, FEBRUARY 11

Women's 15km Individual | 08:15 EST / 14:15 CET

## FRIDAY, FEBRUARY 13

Men's 10km Sprint | 08:00 EST / 14:00 CET

## SATURDAY, FEBRUARY 14

Women's 7.5km Sprint | 08:45 EST / 14:45 CET

## SUNDAY, FEBRUARY 15

Men's 12.5km Pursuit | 05:15 EST / 11:15 CET

Women's 10km Pursuit | 08:45 EST / 14:45 CET

**TUESDAY, FEBRUARY 17**

Men’s 4x7.5km Relay | 08:30 EST / 14:30 CET

**WEDNESDAY, FEBRUARY 18**

Women’s 4x6km Relay | 08:45 EST / 14:45 CET

**FRIDAY, FEBRUARY 20**

Men’s 15km Mass Start | 08:15 EST / 14:15 CET

**SATURDAY, FEBRUARY 21**

Women’s 12.5km Mass Start | 08:15 EST / 14:15 CET

Where Olympic Journeys Begin

# **2026 U.S. BIATHLON OLYMPIC TEAM ATHLETE PROFILES**

# LUCI ANDERSON

**Hometown:** Golden Valley, MN, USA

**Club:** Team Birkie

**DOB:** 3 December, 2000 (Age 25)

**Education:** University of New Hampshire '24

**Olympics:** Debut in 2026

**World Championships:** 2025

## ABOUT

Luci spent many years as a cross-country skier, skiing in high school then competing collegiately at UNH. She took a shot at biathlon in 2024 and has continued to grow in the sport. Luci made her IBU Cup debut in November 2024, followed by her World Cup debut weeks later in Hochfilzen, AUT in December 2024. By February 2025, Luci was named to U.S. Biathlon's 2025 World Championship Team. Luci will make her Olympic debut in February 2026! Outside of biathlon, Luci enjoys hanging out with her friends and family!

## FUN FACT

Luci enjoys knitting during the season; she finds it very meditative and helps her to turn her brain off and relax.

## 25-26 SEASON PERFORMANCE

# SEAN DOHERTY

**Hometown:** Conway, NH, USA

**Club:** Army World Class Athlete Program

**DOB:** 8 June, 1995 (Age 30)

**Olympics:** 2014, 2018, 2022, 2026

**World Championships:** 2015, 2016, 2017, 2019, 2020, 2021, 2023, 2024, 2025

## ABOUT

Sean became the all-time leader in individual medals at the IBU Youth/Junior World Championships in 2016, winning 3 medals to bring his career total to 10. He was the youngest member of the 2014 U.S. Olympic Biathlon Team at the age of 18, was first U.S. Biathlon athlete to triple podium at any World Championship event, and was a member of the 2012 U.S. Youth Olympic Games squad competing in Innsbruck, AUT, where he won bronze as a member of the mixed relay team. Outside of biathlon, Sean enjoys hunting, fishing, archery, woodworking/carpentry, tractoring, boating, sporting clays, cooking, gardening and being happy!

## FUN FACTS

- 1. Sean lives off the grid.
- 2. He does wood lathe work and makes many things out of wood!

## 25-26 SEASON PERFORMANCE

# MARGIE FREED

**Hometown:** Apple Valley, MN, USA  
**Club:** Craftsbury Green Racing Project  
**DOB:** 10 November, 1997 (Age 28)  
**Education:** University of Vermont '20

**Olympics:** Debut in 2026  
**World Championships:** 2025

## ABOUT

Margie grew up in Apple Valley Minnesota and played soccer until she was 18. She started skiing with the high school team and liked going to practice because her friends were there. She competed on the University of Vermont NCAA ski team and after graduating joined the Craftsbury Green Racing Project as a cross country skier. Her career highlight is racing at the cross country World Cup in Minneapolis. She casually learned biathlon for a few years and then began training full time last year. Outside of biathlon, Margie enjoys sewing, line dancing, and birding.

## FUN FACTS

- 1. She played french horn in high school.
- 2. She brings crystals to the venue on race day.

# DEEDRA IRWIN

**Hometown:** Pulaski, WI, USA

**Club:** Army World Class Athlete Program

**DOB:** 27 May, 1992 (Age 33)

**Education:** Michigan Technological University '15

**Olympics:** 2022

**World Championships:** 2021, 2023, 2024, 2025

## ABOUT

Deedra grew up running competitively in Northeast Wisconsin. She started skiing at 16 years old to help stay in shape for running during the winter. She was a 3 sport athlete at Michigan Tech and competed in 2 Nordic skiing NCAA championships and U23 Worlds for Team USA in 2015. She then skied professional with the Sun Valley Ski Education Gold Team for 2 seasons after college. In 2017 she took a chance on biathlon. She joined the Vermont National Guard in 2019. In her debut race at the 2022 Beijing Olympics she raced to an historic 7th place in the Women's 15km Individual shooting 19/20. This is the best Olympic finish in US Biathlon history. Outside of biathlon, Deedra enjoys knitting, baking, puzzles, and music.

## FUN FACTS

- 1. She will compete for beer & donuts!
- 2. She met her fiancé at the 2022 Olympic Opening Ceremony.

# JOANNE REID

**Hometown:** Grand Junction, CO, USA

**Club:** Colorado Biathlon Club

**DOB:** 27 May, 1992 (Age 33)

**Education:** University of Colorado at Boulder ‘15, MS ‘17

**Olympics:** 2018, 2022

**World Championships:** 2017, 2019, 2020, 2021, 2023

## ABOUT

Joanne is the daughter of 1980 Olympic speedskating bronze medalist Beth (Heiden) Reid, and the niece of Eric Heiden, a five-time Olympic gold medalist in speedskating. She was an NCAA champion cross-country skier at the University of Colorado-Boulder before taking up biathlon in 2015. She has an undergraduate degree in applied mathematics and a graduate degree in engineering from the University of Colorado. Joanne's hobbies include mountain biking, climbing, rollerblading, microbrewery touring, road tripping, meeting amazing people, studying, learning new things, building things, breaking things... "If it ain't broke, I'll break it."

## FUN FACTS

- 1. 2x NCAA National Champion
- 2. Inducted into the CU Boulder Hall of Fame in 2025

# PAUL SCHOMMER

**Hometown:** Appleton, WI, USA

**Club:** Team Birkie & Ariens Nordic Center

**DOB:** 6 June, 1992 (Age 33)

**Education:** College of St. Scholastica '15

**Olympics:** 2022

**World Championships:** 2020, 2021, 2023, 2025

## ABOUT

Paul was born in Appleton, WI and is the second oldest of four kids. Growing up in Wisconsin, he competed in sports on a field or in a gym, but during his sophomore year of high school he was introduced to cross country skiing. He quickly fell in love with the sport and enrolled in the College of St. Scholastica (CSS) to ski at the NCAA level under the guidance of Chad Salmela. Chad quickly recognized Paul's talent in skiing, and as a former biathlete, suggested Paul consider trying biathlon himself. Upon graduating from CSS, Paul pursued biathlon full time and has been a member of the US Biathlon team since 2017. Outside of biathlon, Paul enjoys hunting, cooking, biking, paddling, reading, and exploring.

## FUN FACTS

- 1. Paul lives in a van.
- 2. He makes flapjacks every Friday
- 3. He is an undefeated high school wrestler.

# CAMPBELL WRIGHT

**Hometown:** Wanaka, NZL

**Club:** Waiorau Nordic Skiing

**DOB:** 25 May, 2002 (Age 23)

**Olympics:** 2022\*

**World Championships:** 2021\*, 2023\*, 2024, 2025

\*Competed for NZL

## ABOUT

Campbell is a dual citizen of both NZL and USA, where both of his parents were born. He began biathlon in 2016 at the age of 14. Growing up skiing at the Snowfarm, he is proud to have achieved success representing NZL: he won gold in the sprint at the 2023 Junior World Championships in Shchuchinsk, KAZ and competed at the 2022 Beijing Olympics as a 19-year-old. He made the jump to Team USA in Fall 2023. During the 24-25 season, Campbell raced to his first two career World Championship medals, placing second in both the sprint and pursuit, and finished the season ranked 17th overall to win the U23 Globe. His biggest influencer is Lance Armstrong and his favorite biathlon venue to race at is Brezno-Osrblie in Slovakia.

## FUN FACTS

- 1. He had 3 front teeth when he was young.
- 2. He is one of the best at coming back from sickness!
