Additionally, competencies in the categories of international success and team chemistry will be taken into consideration

Anyone interested who cannot attend please contact member of selection committee for video instructions.

2. DISCRETIONARY SELECTION (if applicable)

2.1. Provide rationale for utilizing discretionary selection (if any):

The sport of team handball is not a measured or timed event. In the selection of athletes who will compete together as a team, it is difficult to make selection decisions based solely upon objective criteria. The fact that various positions on the team (offense,goalkeeper, defense) require different physical and mental attributes has to be considered. It is the belief of the MBNTSC that considering the mix of SelectionCriteria, which includes discretionary components in evaluation of performance ability andother listed considerations, will result in selection of the best athletes, who will work together as an effective team, to continue the success of this program.

2.2. The following is the committee that will be responsible for making discretionary selections, along with a complete list of the members currently serving on the committee and their titles:

The USA Team Handball Selection Committees, which includes the requisite minimum of 33 percent of athlete representation, is responsible for making all athlete selections for the National Teams.

Any member of the selection committee that has a possible conflict of interest must disclose it. If such conflict exists, the selection committee member must recuse him/herself from committee discussions and voting. Furthermore, the committee member should not otherwise influence other members of the committee in the selection process. However, a committee member who recused him/herself, but who has relevant and necessary information with respect to athlete performance (ex: a national team coach or high performance director) may provide such information to the committee if requested by the selection committee, so long as such information is provided in a fair and unbiased manner and the committee member who declared the conflict of interest does not vote toward the final decision.
