

Coaches Board Annual Report
2026

This year we worked on revamping Club Excellence. We are excited to see what comes of that work. We are hopeful it can bridge the gap between judges/Tech controllers and Coaches. Increase membership and help positively reinforce clubs to be in compliance with CCP, CPR and safe sport requirements. As well as continuing to supply resources for clubs looking to grow their membership and education.

A proposal for AWD name change to Adaptive Artistic Swimming as well as Tier restrictor to align closer with the levels already in place with USAAS (pre novice, novice, intermediate 12-U and youth) is being submitted this convention.

Thank you to all my committee members and for all your hard work this season. Our goal is to work along side USAAS Executive board to help bring education and resources to the club coaches.

And thank you Amy Oliver VP of Membership Development for trusting me to continue with the position.
