

The U.S. Biathlon Athlete Health and Safety Task Force and Vestry Laight have been working together to develop a thoughtful approach to review and assess our organization's athlete safety measures and provide recommendations to enhance our overall approach to providing an environment where athletes feel safe and supported.

Later this month we will launch a survey for athletes that have traveled and/or competed internationally during the current and previous quadrennium.

After the results of the survey are reviewed, the Vestry Laight team will reach out to a sampling of athletes, staff, and stakeholders to learn more about measures in place to address misconduct and ensure athletes are safe, and to learn about what is working and where there are opportunities for improvement.

We expect the survey and interviews will be complete by late summer and a report will be shared with the membership in the fall.

Sincerely,

Rachel Steer
U.S. Biathlon Board Vice Chair
Task Force Chair
