

USA Karate National Team Athlete Performance Subsidy Program (NTAPS)

The ***National Team Athlete Performance Subsidy Program (NTAPS)*** is aimed at recognizing and rewarding our athletes' exceptional achievements on the international stage. This initiative underscores our commitment to supporting athletes who represent The United States with pride and achieve measurable success. The ***NTAPS Program*** provides a monetary subsidy for athletes who secure podium finishes in individual, and in some cases, team divisions at key international competitions. This newly expanded program includes the current ***Senior Team Athlete Funding Model*** (see below) and the OP Gold Program from the USOPC.

Allocation of Funds

The funds earned through the ***NTAPS Program*** could be applied to incurred USA Karate related expenses related to the result obtained, such as:

- Hotel accommodations
- Event registration fees
- Team fees
- USA Karate apparel
- Other competition related costs

This approach is designed to directly support athletes in reducing the financial burdens associated with their training and competition activities to earn the international podium result.

Purpose and Goals

This program aims to:

- Motivate and reward excellence in international competition.
- Provide financial support to alleviate training and competition-related expenses.
- Highlight the accomplishments of our athletes and inspire the next generation.

OP Gold Program of the USOPC

The Operation Gold program is a U.S. Olympic and Paralympic Committee (USOPC) initiative that provides financial grants to Team USA athletes for top finishes at major international events. Payments are awarded based on an athlete's performance in designated qualifying events, and the specific award criteria and amounts differ depending on whether it is an Olympic year. USA Karate OP Gold events are typically the Senior World Championships and/or the World Cup.
