In relation to criterion 2 above, National Paralympic Committees (NPC's) are permitted to provisionally select athletes with a sport class status of "new," "review," or "review with a fixed review date" of 2025 or earlier, subject to such athletes attending an evaluation session prior to or during the World Championships.

The following Track & Field procedures will be used to select athletes to the Team:

Team Size

USATF will field a maximum Team of forty (40) athletes. The final Team size will be determined by implementing the selection criteria herein. For the purposes of the Athlete Selection Procedures, the men's and women's components of the Team shall be considered together, unless specifically noted.

General Provisions

General provisions, as outlined in the [New Delhi 2025 WPA Championships qualification criteria and event program](#), are as follows:

Maximum Entry per NPC

- An NPC may enter a maximum of three (3) eligible athletes per individual Medal event provided each has achieved at least one (1) MES performance in that event.
- NPCs may enter a maximum of one (1) team in the Relay Event.
- NPCs may enter an eligible athlete in an unlimited number of individual Medal Events as long as the athlete has achieved a MES performance in each respective Medal Event.
- In the event that two or more classes in Field Events are combined following the final entry by name and event viability review (e.g., Shot Put F53/54/55), an NPC may not exceed a maximum of five (5) eligible athletes in a combined Medal Event. However, per each sport class, a maximum of three (3) eligible athletes can be entered.

Event Viability Criteria

A minimum of five (5) athlete entries from three (3) NPCs is necessary to sustain an individual Medal Event on the program. A minimum of five (5) entries from five (5) NPCs is necessary to sustain the Relay Medal Event on the program.

World Para Athletics shall review the event viability following the close of the final Entry by Name on 8 August 2025. In the case an event did not meet the above viability criteria by final entry, World Para Athletics reserves the right to combine such an event with other events where appropriate and applicable. World Para Athletics also reserves the right to either cancel such events or run them as non-medal events.

1. Team Selection

Team selection will consist of 6 separate parts in the following order:

- Part A: Discretionary Selection A
- Part B: Team Ranking List
- Part C: Discretionary Selection B
- Part D: Team Ranking List
- Part E: Direct Invitation
- Part F: Guide Athletes & Athlete Assistants

Part A: Discretionary Selection A

A total of two (2) athletes per gender may, but are not required to, be selected to the Team according to Discretionary Selection (see below). Athletes nominated in Part A must meet the following requirements:

- Athlete must be currently ranked in the top three (3) of the 2025 WPA World Rankings or hold a valid mark from the selection event that would place the athlete in the top three of the World Rankings (<https://www.paralympic.org/athletics/rankings>) and experienced a reported and documented event including, but not limited to, equipment failure during the Selection Event or major illness/injury prohibiting the athlete from competing in the Selection Event.

Part B: Team Selection Ranking List

Thirty (30) Team slots will be filled using the Team Selection Ranking List (<https://www.usatf.org/events/2025/2025-toyota-usatf-outdoor-championships>) (hereinafter referred to as "Ranking List") in Part B.

- The Ranking List will be comprised of each athlete's best event result (from all rounds inclusive of any open events) at the Selection Event.
- If the 100m, 200m and Long Jump results from the Selection Event are wind-aided, results will be included in the Ranking List as-is without any additional factoring.
- All results for each eligible athlete will be given a percentage score. The score is calculated by comparing each athlete's result from the Selection Event to the 2025 A Standard (Attachment A) for each event using the following formula:
 - Track events (2025 A Standard/result) *100
 - Field events (result/2025 A standard) *100
- The percentage will be provided with two decimal points (to the one-hundredth of a percent) with the highest percentage compared to the A standard being the better result.
- Team slots and start rights will be filled concurrently in order via the Ranking List (highest to lowest percentage) until all remaining slots are filled)

- Athletes must compete at World Championships in all events for which they are named to the Team during the Team Selection Ranking List process (Part B) and discretionary ranking list process (Part A).
- Athletes will be added to the Ranking List with a cumulative rank based on all of their registered events. If an athlete does not want to be considered for Team selection in an event after registering and competing at the Selection Event, the athlete will have until one (1) hour following the final session of the Selection Event to remove the event(s) for consideration in the ranking list process (Part B). The event removal form must be filled out online and can be found [here](#) beginning July 30, 2025.

Part C: Discretionary Selection B

A total of four (4) athletes may, but are not required to, be selected to the Team according to Discretionary Selection (see below for additional information on discretionary selection).

Part D: Team Selection Ranking List

If Team slots remain after Part A, B, & C, the remainder of the Team slots will be filled utilizing the Ranking List (<https://www.usatf.org/events/2025/2025-toyota-usatf-outdoor-championships>). The order will continue from where it was stopped at the conclusion of Part B.

Part E: Direct Invitation

World Para Athletics reserves the right to directly invite a limited number of eligible athletes under the following criteria:

- To enable greater representation by nation;
- To ensure events featured on the program have sufficient representation for viability;
- To enable greater representation by gender;
- To ensure the representation of athletes with high support needs;
- To ensure top athletes that may have not had the opportunity to formally qualify due to extraordinary circumstances;
- To ensure inclusion of new athletes that may have not had the opportunity to be formally classified due to extraordinary circumstances.

NPCs must submit a formal request for a Direct Invitation slot to World Para Athletics by 4 August 2025.

All Direct Invitation slots are at the sole discretion of World Para Athletics. World Para Athletics has no obligation to award any Direct Invitation slots, regardless of whether or not NPCs/athletes meet the Direct Invitation criteria set out in this section.

If WPA awards a direct invitation slot to an athlete by name, USATF will accept such athlete to the Team. USATF will disclose on its website the name of any athlete named to the Team through direct invitation allocation method.

Submission of direct invitation slots are at the sole discretion of USATF. USATF has no obligation to submit any names to WPA for direct invitation consideration, regardless of whether or not an athlete meets the Direct Invitation criteria outlined by WPA.

Part F: Guide Athletes & Athlete Assistants

Guide athletes & athlete assistants will be selected to the Team based on the Discretionary Selection process as outlined below. Guide athletes & athletes assistants are not included within the maximum Team size.

2. Additional Team Selection Considerations

Tie Breaking Procedures

If a tie exists for the final Team slot or for a final event start right at any point during the implementation of these Athlete Selection Procedures, the percentages will be calculated to three decimal points (rounded to the one-thousandth of a percent).

If a tie persists for the final Team slot or for a final event start right following the above percentage recalculation to the one-thousandth, the athlete who has the highest ranking on the published WPA 2025 World Ranking list on [WPA's website](#) as of the date of Team selection, 3 August 2025, in the respective event(s) shall be nominated to the final Team slot or start right.

Additional Start Rights

Start rights remaining open after all Team slots have been filled may, but are not required to, be assigned by Director, USATF Paralympics, to eligible athletes who have already been selected to the Team. In assigning additional start rights, the Director, USATF Paralympics, may consult with the applicable athlete(s) and may consult with relevant discipline coaches as necessary. Any such additional start rights shall be granted at the sole discretion of USATF. The following factors may be considered when assigning additional start rights:

- The desire of the athlete to start the event.
- The athlete's number of events and schedule of events.
- The likelihood of the athlete winning a medal or earning a slot in the event.
- The athlete's ranking in the relevant event on the WPA World Ranking list.
- Other historical performances in the event.

Universal Relay Pool

The Universal Relay Pool shall be determined by the Director, USATF Paralympics, with input from relevant discipline coaches and up to two athlete representatives. The Universal Relay Pool must consist of athletes selected to the Team in an individual event. The Universal Relay team for the finals and any subsequent qualifying rounds may be, but are not required to be, the same. The following factors may be considered (not in priority order):

- The desire of eligible athletes to compete in the universal relay.
- Building a team that is likely to medal in the event, while complying with the WPA universal relay composition rules.
- Individual athletes' performance and result in the 100m during the Selection Event.
- The number of events an athlete will compete in at World Championships and the schedule of individual events for athletes at the World Championships in comparison to the Universal Relay schedule.
- The athletes' participation in relay camps and competitions in which the relay is ran (if applicable).
- Output of data for fastest relay combinations based on eligible athletes for the universal relay.

It is not required, but strongly preferred that an athlete compete in the 100m during the Selection Event to be considered for the Universal Relay Pool. Athletes interested in competing in the Universal Relay may indicate their interest during the Selection Event entry process and/or by written email communication to the Director, USATF Paralympics (Parinfo@usopc.org), at any time prior to the start of the Selection Event. While strongly preferred, notifying USATF Paralympics is not a requirement for selection to the Universal Relay Pool.

Discretionary Selection Criteria:

Universal Relay

Final election of athletes for the Universal Relay (all rounds) will be based upon the following factors listed in no particular order:

- Output of data for fastest relay combinations based on eligible athletes for the Universal Relay;
- Athletes' ability to perform the tag within the exchange zones;
- Athletes' availability and willingness to attend any relay camps and/or practices;
- Athletes' demonstrated onsite fitness during World Championships training camp.

Athlete Selection

The rationale for discretionary selection for athletes is to allow USATF the ability to nominate the best physically, psychologically, and technically prepared athletes to the Team with the focus on maximizing our slot potential for the 2028 Paralympic Games (if slot allocation opportunities for LA28 exist).

Additionally, in the event where the Selection Event started, but cannot be fully completed or cannot be contested due to unforeseen circumstances, the Team may be selected based on discretionary selection outlined herein.

Discretionary Petition for Athletes, Guide Athletes & Athlete Assistants

Athletes, guide athletes & athlete assistants may, but are not required to, submit a discretionary petition form for consideration for Discretionary Selection within these Selection Procedures. The purpose of the discretionary petition is to assist the selection committee in identifying athletes whose performances at the Selection Event may have been impacted by equipment failure, illness, injury, travel delays and other unforeseen circumstances.

Discretionary Selection Petition

The submission of a discretionary petition does not guarantee an athlete will be considered for discretionary selection or selected to the Team. Athletes should confer with personal medical providers, event medical providers and/or personal coaches to ensure additional feedback and comments are submitted using the comment/feedback form within the discretionary petition application. Discretionary petition requests based on medical reasonings, must include relevant documentation from a medical provider to include information regarding diagnosis and recovery timelines and include supporting documentation where applicable.

The discretionary petition form will open July 30, 2025 and will remain open through one (1) hour following the conclusion of the last Paralympic event at the Selection Event. Discretionary petition forms and comment/feedback forms MUST be submitted via the discretionary petition process and emails with information will NOT be accepted for any reason. Discretionary petition forms will not be accepted late for any reason; however, additional comments/feedback may be submitted up until the team selection process (approximately two hours following the conclusion of competition). All submitted medical

documentation will be thoroughly reviewed by the Para Team Physician or a designated selection committee medical provider where the Para Team Physician is not available.

The discretionary petition form and comments/feedback form can be found at the following link during the period in which the discretionary petition form and comments/feedback form is open.

<https://www.usparatf.org/selection-procedures>

Discretionary Criteria for Athlete Selection

The discretionary selection committee may consider input and coaching feedback from the World Championships coaches and staff.

Discretionary selection will be focused specifically on athletes who are likely to produce a medal winning performance at the World Championships, for the purpose of developing the World Championships only events and to increase participation in female events. Performance criteria used to evaluate athletes for discretionary selection are as follows and are not listed in priority order:

- Athletes who experienced equipment malfunction which impeded maximal performance at the Selection Event;
- Athletes who experienced a documented injury or illness making them unable to compete or impeded maximal performance at the Selection Event;
- Athletes who were unable to compete at the Selection Event for unforeseen circumstances;
- Athletes who have a verifiable performance that is not listed in the WPA World Rankings, but the mark approximates what would be a top five (5) World Ranking in the 2025 World Rankings at the time of Team selection;
- An athlete who competes in a high support need classification in a frame running event;
- Female athletes who are ranked in the top eight (8) of the World Rankings at the time of team selection in their respective event(s);
- If WPA allocates a relay specialists slot or if an athlete is needed to fill spot in the Universal Relay Pool.

Discretionary Selection for Guide Athletes & Athlete Assistants

The Discretionary Selection Committee will nominate guide athletes to the Team through discretionary selection.

Guide athletes are used for athletes who compete in T11/12 (visually impaired) track events. The guide athletes are not included in the maximum Team size, nor are the guide athletes accounted in the discretionary selection slots as outlined above.

WPA categorizes guides for field events as “athlete assistants.” Athlete assistants are not able to receive a guide athlete designation. For the purposes of the World Championships, WPA considers these as athlete assistants as it relates to credentials and benefits. Athlete assistants are not entered into an event with an eligible athlete and are not included in the maximum Team size nor are the athlete assistants included in the discretionary slots as outlined above. Athlete assistants are used to support F11/12 sport class athletes (visually impaired) who compete in eligible field events.

For the purposes of Discretionary Selection, guide athletes and athlete assistants will be considered under the same process for selection to the Team. For the purposes of benefits as defined by USATF and USOPC

(prize money, athlete benefits, operation gold, etc.), USATF will consider guide athletes and athlete assistants as athletes.

Guide athletes and athlete assistants selected to the Team for the purposes of code of conduct, team rules, athlete safety, etc. will be considered the same as athletes following selection to the Team.

3. Other Terms and Conditions for Participation on the Team:

Athletes may be removed for any of the following reasons including, but not limited to:

- Injury or illness as certified by a physician (or medical staff) approved by USATF Para. If an athlete refuses verification of his/her illness or injury by USATF Para Team Physician or other medical provider approved by USATF Para, his/her injury will be assumed to be disabling and he/she may be removed.
- Failure to participate in any Mandatory Training and/or Competition that may be defined in these procedures.

- Non-compliance with the eligibility requirements for selection to the Team
- Removal by the IPC/WPA of the event in which the athlete qualified for the Team from the medal event program of Worlds.

All members of the selection committee must comply with USATF's conflict of interest policy, to include completing and submitting a disclosure form for review by the USATF's ethics committee prior to convening the committee.

Any member of the selection committee who has an actual, possible, or perceived conflict of interest must disclose it to the USATF's ethics committee prior to the start of the selection process and/or recuse him/herself from the review process and/or voting. A conflict of interest exists when a personal, family, financial, professional, club, team or business interest of the committee member poses a direct or indirect relationship, connection, or affiliation, past or present, with an athlete in contention for the applicable team selection that could compromise the committee member's ability to participate in the selection

process in an unbiased manner. If a conflict exists, USATF's ethics committee shall review the conflict and determine the committee member's level of involvement (e.g., whether that committee member must recuse him/herself from participating in discussions and/or voting). For example, if it is determined that a committee member must recuse him/herself from voting, the ethics committee may still determine that a committee member who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and so long as the committee member with the conflict of interest does not vote toward the final decision. The committee member must not otherwise influence other members of the committee in the selection process.

Additionally, any person (including any potentially impacted athlete or coach of a potentially impacted athlete) with a good faith belief that a committee member has a conflict of interest may report the alleged conflict of interest to USATF's ethics committee. Reports may be made anonymously. No committee member shall retaliate in any way against a person who, in good faith, reports an alleged conflict of interest.

Any recused individual shall be replaced in accordance with USATF's selection committee appointment process.
