- Performance in sanctioned and non-sanctioned events.
- Team chemistry, leadership, adaptability, and coachability.

 - Versatility and ability to play multiple roles within the team.
-

IV. Selection Committee

- **Michael King** – CEO, USA Team Handball (Non-voting)

- **Independent**– TBD
- **Independent**– TBD
- **Athlete Representative #1** – TBD
- **Athlete Representative #2** – TBD

Process that will be used to identify and handle any potential conflicts of interest involving a member of the committee: All members of the selection committee must comply with the NGB/PSO's conflict of interest policy, to include completing and submitting a disclosure form for review by the NGB/PSO's Ethics Committee prior to convening the committee. Any member of the selection committee who has an actual, possible, or perceived conflict of interest must disclose it to the NGB/PSO's Ethics Committee prior to the start of the selection process and/or recuse him/herself from the review process and/or voting. A conflict of interest exists when a personal, family, financial, professional, club, team or business interest of the committee member poses a direct or indirect relationship, connection, or affiliation, past or present, with an athlete in contention for the applicable team selection that could compromise the committee member's ability to participate in the selection process in an unbiased manner.

If a conflict exists, the NGB/PSO's Ethics Committee shall review the conflict and determine the committee member's level of involvement (e.g., whether that committee member must recuse him/herself from participating in discussions and/or voting). For example, if it is determined that a committee member must recuse him/herself from voting, the Ethics Committee may still determine that a committee member who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and so long as the committee member with the conflict of interest does not vote toward the final

decision. The committee member must not otherwise influence other members of the committee in the selection process.

Additionally, any person (including any potentially impacted athlete or coach of a potentially impacted athlete) with a good faith belief that a committee member has a conflict of interest may report the alleged conflict of interest to NGB/PSO's Ethics Committee. Reports may be made anonymously.

No committee member shall retaliate in any way against a person who, in good faith, reports an alleged conflict of interest. Any recused individual shall be replaced in accordance with the NGB/PSO selection committee appointment process.
