

Jason Liu

FOR USA FENCING

AT-LARGE BOARD OF DIRECTORS CANDIDATE

I am self-petitioning to run for the At-Large Board Of Directors because I believe USA Fencing is at an important crossroads and we have an opportunity to refocus, rebuild, and grow.

MY GUIDING PRINCIPLES FOR USA FENCING

- Serve the Members
- Help the Fencers and Coaches
- Promote the Sport
- Govern with Integrity

MY PRIORITIES

Grow Collegiate Fencing

Partner with universities and expand varsity programs to increase participation and opportunity.

Improve referee training and support

Better referee training and explore AI technology that enhances accuracy and consistency.

Strengthen member communication

Ensure members' voices shape policies and decisions through transparent engagement.

Increase accountability

Promote financial oversight and clear reporting, including independent audits.

Restore member representation

Support governance that reflects member input and strengthens democratic participation.

A GLIMPSE OF MY BACKGROUND

I am an entrepreneur and business executive with over 25 years of experience across the telecommunications, IT, education, real estate, and construction industries. Since 2001, I have founded and managed multiple for-profit companies and have also been actively involved in a number of nonprofit organizations. My company serves several Fortune 500 clients and employs teams across the United States.

I first developed an interest in fencing during my college years, though I did not have the opportunity to pursue the sport at that time. Years later, my daughter discovered fencing and carried that passion forward, ultimately becoming one of the youngest fencers in history to win a World Championship. Through her journey, our entire family became deeply involved in the fencing community.

USA Fencing's members are its foundation. I will work to serve the membership, promote growth, and improve governance. I would be honored to earn your support and your vote for the USA Fencing Board of Directors.
