USA Wrestling Non-Rights Holder Footage Usage Agreement

FloSports has granted limited, non-rights-holding privileges for credentialed media at events included in the USA Wrestling / FloSports partnership. Credentialed media personnel receive specific accreditation for dedicated areas at an event. Your organization must abide by the following guidelines and regulations:

Audio / Video Distribution and Usage

USA Wrestling and its exclusive rights holder facilities (television and internet), FloSports, shall be the only entities permitted to record USA Wrestling / FloSports events when exclusive television and digital rights have been granted.

Videographer Access

For USA Wrestling events where FloSports is the exclusive video rights holder, FloSports and USA Wrestling team videographers, and/or exclusive broadcast partners, are the only entities authorized to capture and distribute video in the field of play during the broadcast of live events.

Credentialed media personnel are allowed to record video in the field of play under the following conditions:

- Video may only be used for editorial coverage of the event(s), including distribution on social media platforms. Video may not be used for any commercial purposes, including, without limitation, long or short film content, promotion of other properties, events, etc., without the written consent of FloSports and USA Wrestling, and may only be distributed following the conclusion of the round.
- Credentialed media personnel may use up to 30 seconds of footage from the field of play (match clips) per day on social media or in editorial coverage but may only be distributed following the conclusion of the applicable day or event. For the avoidance of doubt, there shall be no live distribution of any match of an event.
- Any credentialed media personnel who desire to exercise these rights on social media are required to credit/tag FloSports, FloWrestling, and USA Wrestling on the applicable social media platform and include "Watch live on FloWrestling" in the post.
- Additional field of play footage to support editorial coverage may be licensed from FloSports and USA Wrestling.

If USA Wrestling and FloSports determine that a credentialed media member or organization has violated these guidelines in their coverage, that individual or organization may not be eligible for further accreditation at USA Wrestling / FloSports events, and may be liable for legal proceedings by FloSports. In case of questions or clarification about these guidelines, please contact USA Wrestling and FloSports.
