

ACR24 Global Rheumatology Summit

The ACR Global Summit will provide a platform to highlight the global burden of rheumatologic diseases, the challenges and success of different health systems and international rheumatology professionals. It will continue to create a space to bring rheumatologists and health professionals together from different parts of the world to talk about topics that are of mutual relevance and concern. The 2024 program will continue to showcase innovative rheumatology education, training, research, and partnerships around the world.

The summit will include two sessions built by learners' participation. Learners are invited to **submit a case on Gout and Crystalline Disease** and/or an **example of harnessing AI to enhance education and healthcare delivery in low resource situations**.

Submission Guidelines

Global Meet the Experts:

A Global Meet the Experts session will take place within the Global Rheumatology Summit and will focus on **Gout and Crystalline Disease**. Cases will be submitted in advance from around the world, and leading rheumatology experts will discuss and debate key questions and learning points arising from these cases.

Submit your diagnostically challenging case of **Gout and Crystalline Disease** or a case that has a difficult/refractory management course.

The review committee will select up to four cases based on teaching value for inclusion. If your case is accepted, you will be supported to pre-record a 5-minute presentation with the ACR team and will receive complimentary registration to ACR Convergence 2024.

- You may submit up to two cases.
- Each case must be submitted in PowerPoint format.
- Cases must not be more than six slides and must follow this format:
 - Slide 1: Title slide – Please include the case title. The case title should be intriguing and make the reader curious. The title should not disclose the diagnosis. Please do NOT include identifying information such as your name, company/institution, city, or country
 - Slide 2: Introduction to the case
 - Slide 3-4: Provide a clinical overview of the case
 - Slide 5: State diagnostic or therapeutic dilemma
 - Slide 6: Include questions for the experts

Harnessing AI to enhance education and healthcare delivery in low resource situations:

In 500 words, describe how AI has been used to enhance education and healthcare delivery in low resource settings.

The review committee will select up to four examples to showcase in the Global Rheumatology Summit. If your submission is accepted, you will be invited to pre-record a 10-minute presentation with the ACR's Production team in September 2024, for inclusion in the Global Rheumatology Summit and be invited to participate in live Q&A on Thursday, November 14, 2023. You will also receive complimentary registration to ACR Convergence 2024.
