

Churg-Strauss Syndrome - Tree Format

1990 CRITERIA FOR THE CLASSIFICATION OF CHURG-STRAUSS SYNDROME (TRADITIONAL FORMAT), THEIR SENSITIVITY AND SPECIFICITY VERSUS OTHER DEFINED VASCULITIS SYNDROMES

CSS subsets

5. Asthma and eosinophilia >10%
3. No asthma, eosinophilia >10%, history of allergy

Non-CSS subsets

1. No asthma or eosinophilia >10%
2. No asthma, but eosinophilia >10%, no history of allergy
4. Asthma without eosinophilia >10%

* The subset numbers also appear below the subset boxes in Figure 1. See Table 3 for definitions of criteria.
