ACR/SAA/SPARTAN 2019 Axial SpA Guideline Disclosure Summary

In order for the College to most effectively further its mission and to otherwise maintain its excellent reputation in the medical community and with the public, it is important that confidence in the College's integrity be maintained. The cornerstone of the ACR's Disclosure Policy is disclosure of actual and potential conflicts so that they can be evaluated by the College in order to avoid undue influence of potential conflicts. The purpose of the ACR's Disclosure Policy is identification of relationships which may pose actual or potential conflicts. These actual or potential conflicts can then be evaluated by the College so that adjustments can be made that will avoid any undue influence. This policy is based on the principle that, in many cases, full disclosure of the actual or potentially conflicting relationship will of itself suffice to protect the integrity of the College and its interests.

						Investments to include medical		Activities with other	
Participants	Role	Primary employer	Sources of personal income	Intellectual property	Research grants/contracts	industry and nonmedical industry	Organizational benefit	organizations	Family or other relations
					Patient Centered Outcomes			BMJ/Amm Rheum Dis; J	
					Research Institute; NIH PO1			Rheumatology; Clin Exp
