

# Post-Meeting Takeaways

**Thank you for making the Winter Rheumatology Symposium (WRS) 2024 a huge success.** The meeting featured world-class lectures, panel discussions, and valuable educational clinical content with networking opportunities and interactive sessions.

## **Your fellow WRS participants have identified the following key takeaways from the symposium:**

- Combination of key basic science concepts and important clinical care information
- Updates on relevant technologies and therapies
- Concise, targeted lectures on advances in clinical practices
- Discussions of collaboration between practices and the connection of the inflammatory pathways affecting diseases

## **Feedback from the 2024 meeting:**

*"Unique opportunity to directly interact and network with the top experts in each area of rheumatology. This meeting is unrivaled!"*

*"Best educational meeting provided by [the] ACR. Presentations by top researchers with terrific access to the faculty."*

*"I walk away with pages of notes containing ideas that will change my practice when I return each time. The speakers are almost consistently outstanding and I enjoy the intimate environment."*

## **Additional Resources for Continued Learning**

Visit the [ACR website](#) for upcoming in-person and virtual events and online courses.

**Save the date for the Winter Rheumatology Symposium 2025 in Snowmass, January 26-30. We'll see you where rheumatology skis!**
