Total Population Estimate As of April 1, 2023	1,541,531
Population in unincorporated area	69%
Number of households As of April 2023	591,387
Persons per square mile 2023 Office of Economic and Demographics Research	1,508.5
People Visited Hillsborough County Visit Tampa Bay	26.7 million in Fiscal 2023
Decrease of Home Sales in 2023	1.9%
Agricultural product sales - 2022 Census of Agriculture	\$704 million
In new Corporate Investments	\$76.3 million

Geography & Demographics

Located midway on the west coast of Florida, Hillsborough County's boundaries encompass 1,048 square miles of land and 24 square miles of inland water for a total of 1,072 square miles. With the largest bay in Florida opening to the Gulf of Mexico, its coast spans 76 miles.

The unincorporated area is 84% of the total county area. The municipalities of Tampa (the county seat), Temple Terrace, and Plant City account for the remainder. According to the latest population estimate from the University of Florida's Bureau of Economic and Business Research, the county's April 1, 2023 total population was 1,541,531 making it the fourth most populous county in the state. Of this population,1,066,961 or 69% live in the unincorporated area.

A Rich History

Hillsborough County takes its name from Wills Hill, the Earl of Hillsborough and British Colonial Secretary from 1768-1772. The Spanish first mapped and explored the area in the early 16th century. Between 1559 and 1819. the area now called Florida was under the rule of four nations: Spain, France, Great Britain and, finally, the United States. The United States purchased Florida from Spain in 1821 for \$5 million. In 1845, it was granted statehood. On January 25, 1834, the U.S. Legislative Council for the Territory of Florida approved an act organizing Hillsborough as Florida's 19th county. Its area then was 5.5 million acres and included the present counties of Hillsborough, Pinellas, Polk, Pasco, Manatee, Sarasota, Charlotte, DeSoto, Hardee and Highlands. The civilian non-native population in 1834 was less than 100.

Hillsborough County's Board of County

The old courthouse from Franklin Street, circa 1908.

Commissioners held its first meeting on January 25, 1846. The county's first courthouse was a frontier cabin burned during the Second Seminole War in 1836. In 1847, Capt. James McKay built a two story courthouse at a cost of \$1,358. A third structure was erected in 1855 and was used until 1891, when a red brick, domed structure mimicking the architecture of the Tampa Bay Hotel was built, occupying a square block in downtown Tampa. This is the courthouse depicted on today's County seal. The current courthouse was built in 1952 and a new county government administration building, called Frederick B. Karl County Center, opened in 1994.

The County's Economy

Hillsborough County has a diversified economic base including large professional and management services, health services and financial services sectors, as well as a thriving retail sector. In 2018 the four largest employers in the public sector are Hillsborough County School Board followed by MacDill Air Force Base, University of South Florida, and Hillsborough County government. Major private sector employers include Publix Super Markets, Sea World Parks & Entertainment, Amazon, Tampa Electric Company, Bank of America, and JPMorgan Chase.

Port Tampa Bay serves as the closest port in the United States to the Panama Canal. It is also the largest tonnage port in Florida and the twenty-first largest port in the United States with respect to 2017 annual tonnage. Ninetyseven percent of the cargo moving through the port is bulk phosphate, phosphate chemicals, rock, coal, and petroleum products. The Garrison Seaport Center is a \$300 million cruise terminal and entertainment complex. Along with the Florida Aquarium, it is helping spur redevelopment in the area known as the Channel District.

Agriculture remains a significant element of Hillsborough's economy. The 2022 US Census of Agriculture shows Hillsborough County's agricultural product sales were \$704 million. Berries accounted for 32% of those sales.

Tourism is another major component of the economy. The number of tourists visiting Florida is expected to continue growing. Busch Gardens of Tampa is one of the leading tourist attractions in the nation. There are numerous other attractions in Hillsborough County such as The Florida Aquarium, the Museum of Science and Industry, Tampa Museum of Art, the Glazer Children's Museum, Zoo Tampa, the New York Yankees spring training facility, the Tampa Bay History Museum, and the Amalie Arena in downtown Tampa. The Florida State Fair is held in Hillsborough County annually. The county is also the home of the Tampa Bay Buccaneers, the 2021 and 2003 Super Bowl Champions, as well as the 2021, 2020, and 2004 National Hockey League Stanley Cup Champions, the Tampa Bay Lightning.

Hillsborough County Fire Rescue's fire engines celebrate "Champa Bay's" sports teams.

Governing the County

A political subdivision of the State of Florida, the County is governed by an elected seven-member Board of County Commissioners.

Bonnie M. Wise, County Administrator

Through partisan elections, three are elected to represent the entire county as a district and four are elected to represent single-member districts. Under a Charter Ordinance effective May 1985, the Board is restricted to performing the legislative functions of government by developing policy for the management of Hillsborough County. The County Administrator, a professional appointed by the Board, and her staff are responsible for the implementation of those policies. The County Internal Auditor and the County Attorney also directly report to the Board.

Board of County Commissioners

The Board of County Commissioners is responsible for functions and services delivered throughout the county, including municipalities, and for municipal services to residents and businesses in the unincorporated area. The countywide responsibilities include such services as local social services, health care for the medically indigent, animal services, mosquito control, consumer protection, and a regional park system. Its responsibilities to the residents and businesses in the unincorporated area include, for example, fire protection, parks, emergency medical services, planning, zoning, and code enforcement.

The Board of County Commissioners also serves as the Environmental Protection Commission. Individual Board members serve on various other boards, authorities, and commissions, such as the Hillsborough Area Regional Transit Authority, Tampa Bay Regional Planning Council, Tampa Bay Water, Aviation Authority, Expressway Authority, Sports Authority, Arts Council, Drug Abuse Coordinating Council, Metropolitan Planning Organization, Council of Governments and the Economic Development Corporation.

The County Administrator

The Board of County Commissioners appoints the County Administrator, who is responsible for carrying out all decisions, policies, ordinances, and motions of the Board.

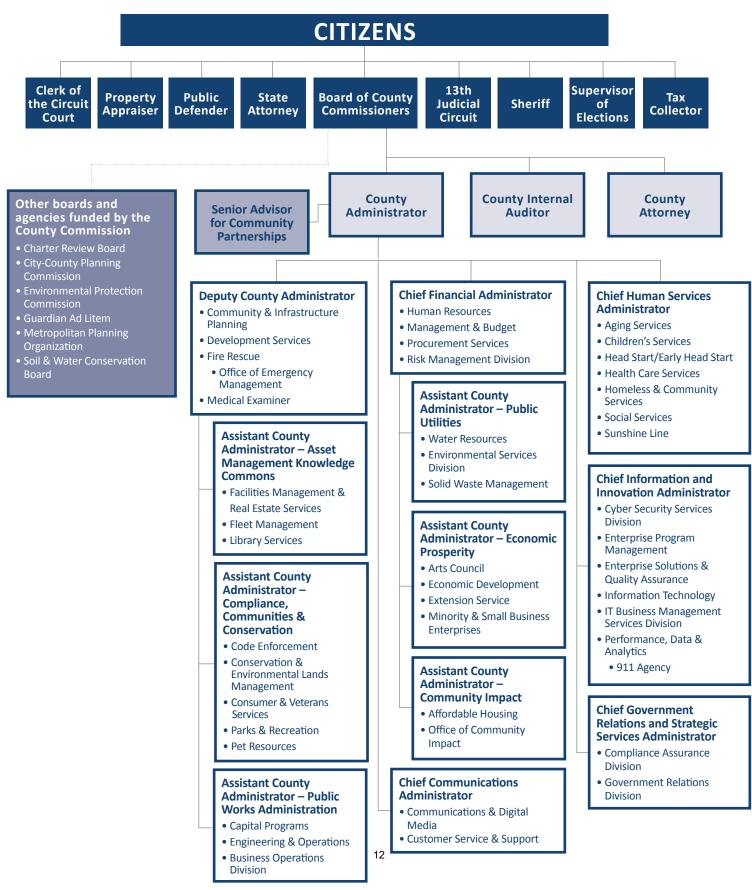

The departments under the County Administrator are responsible for providing services such as social services and public assistance to residents countywide. Departments are also responsible for providing municipal-type services to residents of the unincorporated areas of Hillsborough County such as road construction and maintenance, solid waste disposal, fire and emergency rescue services, parks and recreation, code enforcement and water and wastewater treatment.

Other Government Agencies

Based on the extent of budgetary authority, taxing authority, the ability to obligate funds to finance any deficits and the ability to fund any significant operational subsidies, several other governmental entities also have their budgets reviewed and approved by the Board of County Commissioners. These are the Environmental Protection Commission, the Planning Commission. Soil and Water Conservation Board, Metropolitan Planning Organization and the Law Library Board. The budgets of these offices and the Constitutional Officers are included in the County's budget to the extent of funding by the BOCC.

Hillsborough County Organization Chart

This chart shows the organization of County government entities and their accountability to the electorate. Those directly elected to office by voters are shown directly below the citizens' box. Boards and commissions funded through the Board of County Commissioners, but not otherwise accountable to the Board, are connected by the dotted line.

Our Purpose

The purpose of Hillsborough County Government reflects why we exist and how we operate when we are at our very best. Our purpose motivates our workforce, shapes how we approach our work, and conveys our pride in public service.

"Advance our community's well-being by maintaining service delivery excellence, practicing fiscal responsibility, and connecting with our communities"

Our Strategic Outcomes

Outcomes are the impacts we facilitate to advance our community's well-being. Community outcomes are external and affect our residents and visitors, while enabling outcomes internally underpin and help us actualize our community outcomes. To achieve these outcomes, our County departments pursue a wide range of strategies and initiatives to fulfill their missions, continuously improve their services, and positively impact the many communities of Hillsborough County (to learn more, please refer to the Department Page Summaries).

Community Outcomes

Health & Safety – Across the spectrum of our services and community assets, we will prioritize activities and investments that safeguard the health and safety of our children, families, friends, colleagues, and visitors.

Economic Opportunity – We will create conditions for achieving financial stability and capitalizing on growth opportunities through the enterprising efforts and ingenuity of our talented, hard-working population.

Community Enrichment – We will provide an abundance of recreational, entertainment, and learning experiences that improve our residents' lives and attract visitors to our region.

Positive Experiences – We will consistently deliver convenient, helpful, courteous, and frictionless experiences that engender the goodwill, support, and trust of those we serve.

Enabling Outcomes

High Performing Workforce – We will attract, develop, and retain skilled and dedicated employees who take pride in reliably and responsively performing the County's functions.

Financial Soundness & Accountability – We will be responsible stewards of taxpayer dollars and other funding sources by operating cost-effectively and maintaining a favorable debt rating and ample reserves to help ensure the County's short- and long-term financial stability.

Quality Community Assets – We will construct our facilities, roads, bridges, parks, and other infrastructure to be safe, resilient, fit-for-purpose, and cost-effective to operate and maintain for years to come.

Our Operating Principles

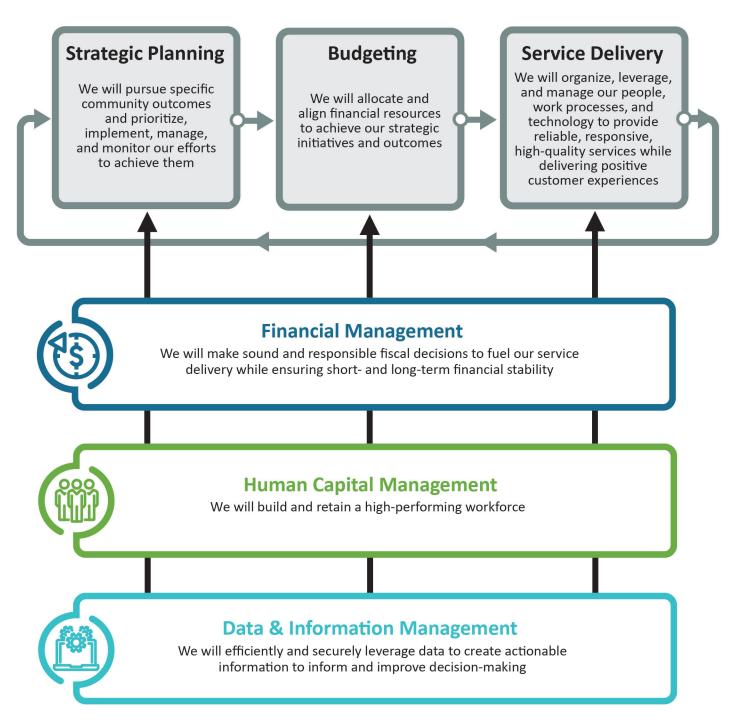

Operating principles convey the behaviors we demonstrate to deliver on our purpose – starting with our leaders and extending to every one of our Hillsborough County employees.

- Act as One Team The County's departments provide a wide range of important services to our community, from fire rescue services to park programs to animal control (and many more). Though each service is unique, we acknowledge and appreciate that our community's needs are not always service-specific or defined by departmental boundaries. As such, we will proactively identify global needs and issues and work cross-functionally to address them – as one team with a shared purpose, goals, and objectives.
- Accountably Achieve Results We will demonstrate ownership, deliver on our commitments, and act transparently with the public and our many stakeholders. Accountability for keeping our promises will be more than matched by an urgency to plan and conduct our work with the end in mind, namely, achieving results and downstream outcomes that will positively impact our community. The 'why' behind our efforts will always drive the 'what' and 'how' that follows.
- Push for 'Even Better' We will create an organizational culture that encourages critical thinking, welcomes challenges to the status quo, and rewards those who identify and implement improvements – from the incremental to the transformative. We will securely source and leverage data to inform decision-making, measure and openly communicate our performance in key areas, be laser-focused on our most pressing challenges, and inject the voice of our customers into our improvement efforts. Day-in and day-out, our teams will 'push for even better' for the benefit of those we serve.

Hillsborough County Strategic Planning Cycle

Our strategic planning cycle depicts the process by which we prioritize, budget for, and deliver services to our customers and stakeholders.

Distinguished Budget Presentation Award

PRESENTED TO

Hillsborough County Florida

For the Biennium Beginning

October 01, 2023

Christophen P. Morrill

Executive Director

Introduction

This document provides the residents of Hillsborough County with the Recommended Capital Improvement Program (CIP) for a five-year period starting with the fiscal year beginning October 1, 2024, and continuing through the fiscal year ending September 30, 2029. The Recommended FY 25 – FY 29 CIP totals \$4.0 billion. This is the second year of the biennial budget cycle.

The CIP is the County's financial plan of proposed capital projects, their costs, and timing over a six-year period in the first year of the biennial budget, and over a five-year period in the second year of the biennial budget. The CIP is designed to meet County infrastructure needs in a strategic and efficient manner. Community sustainability, environmental considerations and changing conditions demand that the CIP be reviewed and updated annually.

The CIP is separate and distinct from the County's operating budget for several reasons. First, capital outlays reflect non-recurring capital improvements rather than ongoing expenses. Where possible, capital projects are funded from non-recurring funding sources such as debt proceeds and grants. These one-time revenue sources are not appropriate funding sources for recurring operating expenses. Second, capital projects tend to have higher costs requiring more stringent control and accountability. Finally, several revenue sources such as the Community Investment Tax, impact fees and certain gas taxes are limited to use on certain types of capital improvements by statute or other legal restrictions.

To provide direction for the capital program, the Hillsborough County Board of County Commissioners approved Policy 03.02.02.00 - Policy for Capital Budget and Capital Improvement Program. This policy defines requirements for projects included in the Capital Budget and Capital Improvement Program. Under the policy, a capital project is defined as a set of activities meeting one or more of the following criteria:

- Delivery of a distinct capital asset or improvement to an existing capital asset which will become an asset of Hillsborough County and be recorded on the financial records of the County as a capital asset under generally accepted accounting principles and applicable State statutes;
- Any contribution by Hillsborough County to other governmental or not-for-profit entities to deliver a capital improvement. In situations where the improvement is not or will not become an asset of the County, it will be included in the Capital Improvement Program as a contribution for tracking purposes;

- Any project or equipment funded from the Community Investment Tax (CIT);
- Any engineering study or master plan needed for the delivery of a capital project;
- Any major repair, renovation or replacement that extends the useful operational life by at least five years or expands capacity of an existing facility.

Hillsborough County categorizes capital improvements into eight programs: Fire Services, Government Facilities, Libraries, Parks Facilities, Solid Waste Enterprise, Stormwater, Transportation and Water Enterprise. The Recommended FY 25 – FY 29 CIP also includes the County's Environmental Land Acquisition and Protection Program (ELAPP). While not specifically meeting the criteria above, this program is tracked through the CIP to provide for better accountability and control.

As previously noted, capital projects only require onetime allocations for a given project unlike operating expenses which recur annually. This funding flexibility allows the County to use financing and one-time revenue sources to accelerate completion of critical projects. Significant projects within each program are discussed below. More comprehensive project information can be found in the individual program sections of this document. Interested parties can review this and other information at the County's website at <u>www.HCFL.gov</u>.

Financial Policies

Among financial policies approved by the Board of County Commissioners since FY 98, there are several pertaining to the preparation, implementation, monitoring and financing of capital projects. While the County Administrator is responsible for the continued development, monitoring and update of these policies, specific functions are carried out by the Management and Budget Department and the Clerk of the Circuit Court. These and other policies are reviewed periodically by the County Administrator and the Board of County Commissioners and are detailed in the Financial Policies and Procedures section of the Recommended FY 25 Budget document.

Specific policies applying to the Capital Improvement Program and the Capital Budget are:

- BOCC Policy 03.02.01.00 Bids for Capital Improvement Projects 10% or More in Excess of Estimated Construction Costs
- BOCC Policy 03.02.02.00 Capital Budget and Capital Improvement Program
- BOCC Policy 03.02.02.05 Pay-As-You-Go Funding of Capital Projects

- BOCC Policy 03.02.02.06 Prioritization of Capital Projects
- BOCC Policy 03.02.02.07 Minimizing the Expense of Financing Capital Projects
- BOCC Policy 03.02.02.08 Operating Impact of Capital Projects
- BOCC Policy 03.02.02.20 Budgetary Control
- BOCC Policy 03.02.02.26 Use of Capital Project Appropriations
- BOCC Policy 03.02.02.28 Method of Funding Citizen Initiated Localized Capital Projects or Services
- BOCC Policy 03.02.03.00 Environmental Land Acquisition Program (ELAPP) Fund
- BOCC Policy 03.02.06.00 Debt Management
- BOCC Policy 03.03.01.00 Water and Wastewater Financial Policy
- BOCC Policy 03.03.05.00 Community Investment Tax Financial Policies
- BOCC Policy 04.05.00.00 Capital Funding for Outside Agencies

Capital Planning

Capital planning refers to the process of identifying and prioritizing the County's capital needs to determine which capital projects should be funded in the CIP as resources become available.

In general, capital planning for projects within the unincorporated area of Hillsborough County is guided by the Hillsborough County Comprehensive Plan. In particular, capital planning for certain types of parks and recreation, solid waste, stormwater, transportation and water facilities are guided by the Capital Improvements Section (CIS) of the Comprehensive Plan. This plan, prepared by the Hillsborough County City-County Planning Commission and formally adopted by the Hillsborough County Board of County Commissioners, provides long-term direction for the growth and development of the county. Proposed capital projects are reviewed for compliance to the adopted comprehensive plan as part of the budget adoption process.

The public has many opportunities to be involved in capital planning both during the comprehensive plan development process and during the budget adoption process. Interested parties can view the Comprehensive Plan at the Planning Commission's website located at www.planhillsborough.org.

Hillsborough County's plan includes a specific growth management strategy called the Urban Service Area. This strategy is designed to direct growth into areas where public service needs can be more efficiently provided and where existing services are already in place.

In addition to the standards in the Comprehensive Plan and the Capital Improvements Section of the Plan, the planning for parks and recreation, solid waste, stormwater, transportation and water facilities also is guided by master and visioning plans developed by County staff. Planning for fire, government facilities, and library infrastructure in Hillsborough County's unincorporated area is performed primarily within County government. Each capital program has different criteria for assessing project needs and priorities; however, a common characteristic of the planning processes is the recognition of the importance of obtaining input from the public and other interested governmental and private agencies. The individual program planning processes provide the guidance necessary for allocating available resources during the capital budget process. A brief description of the various planning processes follows.

Fire Services – The Fire Rescue Department maintains a Capital Facilities Master Plan which details new fire station needs required to meet emergency and rescue service requirements within the unincorporated area. The plan is prepared based on national service response time standards established by the National Fire Protection Association, the Insurance Service Organization and on the relevant goals, objectives and policies incorporated in the County's Comprehensive Plan discussed above.

In developing this plan, which is updated every five years, the response time standards along with current response data are applied to an analysis of the needs of Hillsborough County's current and projected populations and population distribution to identify where and when new fire rescue facilities will be needed. This plan was recently updated and presented to the Board with additional analysis being performed to ensure that current facilities in need of a major remodel are presently in the best locations. This process may result in the relocation of some existing facilities.

Libraries – Library Services gauges the effectiveness of its facilities through a variety of metrics including current and potential use of a facility, state of existing buildings, grounds, and parking, total cost of operation for all facilities, existence and willingness of neighboring partner agencies, distance from population concentrations, and public demand and presents recommendations for potential capital projects to the Library Board. Annually the Library Board evaluates the data and sends a prioritized list of recommendations for funded and unfunded projects to the Board of County Commissioners.

Parks – The strategic vision of the Parks & Recreation and Conservation & Environmental Lands Management

Departments includes the development of goals and objectives to safeguard the inheritance of the County's future generations.

The planning process identifies future developments that may affect expected needs, wants and social environments. It identifies the most critical stakeholders and their major interests and expectations, such as safety and security, high quality experience, well maintained facilities and the preservation of our natural and cultural resources. The tool is evaluated against the current environment in order to develop a Capital Improvement Plan consistent with the vision of Hillsborough County and the values and expectations of our community.

In FY 17, Hillsborough County Parks & Recreation and Conservation & Environmental Lands Management Departments delivered their Master Plans to the BOCC. The Master Plans are long-range planning documents that are meant to help shape the direction, development, and delivery of the County's parks, recreation, and conservation sites. Based on a comprehensive planning approach, these plans take into consideration department goals, existing conditions, and community needs assessments that provide for the framework of recommendations and prioritization strategies. These Master Plans represent the collective vision for the Hillsborough County Parks & Recreation and Conservation & Environmental Lands departments. They serve as a guide for the Department's investments and strategies over the next ten years, shaping the delivery of services in a manner that is consistent with the County's sustainability goals and the community's level of service expectations. The cohesive vision for continually improving parks, recreation, and conservation opportunities in Hillsborough County represents the culmination of the public engagement process. The vision, along with guiding principles and mission statement will guide the implementation of the Master Plans and the future of parks, recreation, and conservation throughout the County.

Solid Waste Enterprise - The Solid Waste Enterprise has an established plan to determine the need to enhance and or change its Capital Improvement Program on an annual basis. This plan calls for information to be gathered from various sources such as staff, stakeholders, public meetings, etc. to identify needs that should be incorporated into the CIP. Management reviews the information and prioritizes each need according to a preestablished ranking system. The ranking system takes into account mandates by Federal and State agencies, health and safety concerns, capacity needs, efficiency, location requirements, population growth and aging infrastructure. **Stormwater** – The County maintains a Watershed Master Plan that incorporates identified needs for each of its 17 watershed basins. The plan is periodically updated as new development and stormwater improvements are completed throughout the County. Under the plan, the entire County (1,072 sq. miles) is divided into 17 watersheds (basins) and further subdivided into 7,000 subbasins. The master plan study looks at water quantity, water quality and the natural watershed system. The plan identifies areas with inadequate conveyance systems or poor water quality and recommends solutions.

Flood control project evaluations take into consideration the following factors: frequency of flooding, the category of the road subject to flooding (local/arterial/collector road), the number of structures flooded, stormwater asset conditions (groundwater table, erosion/siltation and structure) and the potential of available matching funds.

The County also maintains a separate list of non-watershed related neighborhood stormwater needs. Criteria for neighborhood stormwater projects is like the criteria for watershed master plan projects, with the exception that environmental issues and the availability of matching funds are not included in the evaluation.

Water quality or natural system projects are evaluated based on concerns identified by the Florida Department of Environmental Protection (DEP), or the County related to the sub-watershed segment of "impaired waters/water bodies," the concern of water quality parameters and the benefits of a natural system.

Both engineers and environmental scientists within the Stormwater Engineering Services Section of the Public Works Department contribute to this uniform matrix evaluation process.

Transportation - Efficient movement of people and goods is important to the public safety, economic viability, and overall quality of life in Hillsborough County. Planning occurs on several levels. The Hillsborough County Transportation Planning Organization (TPO), working with the County and its three incorporated municipalities (City of Tampa, Plant City and Temple Terrace), and with input from county residents, is responsible by State statute for adopting the Long Range Transportation Plan, a blueprint for comprehensive transportation planning throughout the County. The TPO also consolidates the transportation capital improvement programs of various political jurisdictions constructing transportation projects within the county into an annual Transportation Improvement Program (TIP). The Long Range Transportation Plan and the Transportation Improvement Program are used by the County in prioritizing major capacity projects for funding, determining project impact fee eligibility, and in allocating State and federal grant dollars. These plans can be viewed at the Transportation Planning Organization's website <u>www.planhillsborough.org</u>. Apart from these longestablished processes, the Transportation for Economic Development initiative engaged in a community-wide effort to identify transportation needs and included the County, the Cities and relevant transportation entities.

As previously indicated, the Hillsborough County City-County Planning Commission is responsible for developing and monitoring compliance with the County's Comprehensive Plan. The Commission also reviews proposed developments of regional impact (DRI) proposals (those development proposals that will have significant impact on existing county roads).

Each municipality is responsible for its own transportation planning; however, major roads determined to have countywide significance may be designated as County roads, with the County primarily responsible for their maintenance and improvement. Capital needs associated with these roads, as well as all transportation needs in the unincorporated area of the County are evaluated for inclusion in the annual Capital Budget and Capital Improvement Program.

Planning for the transportation program is performed on a sub-program basis. The sub-programs within the transportation program are roads, intersections, sidewalks and bridges. With the exception of roads, where the County adopts the prioritized list from the Long Range Transportation Plan (LRTP) and adds local road improvements not subject to inclusion in the plan, the County has prepared a master plan for intersections, bridges and sidewalks. While specific criteria used for prioritizing the projects on the plans differ by project type, they encompass public safety, traffic volume, environmental mitigation and other key factors as well as incorporating input received during the public outreach part of the planning process.

Water Enterprise - The Water Enterprise is responsible for providing quality water, wastewater and reclaimed water services to Hillsborough County residents within its designated service area, unincorporated Hillsborough County. This includes the operation and maintenance of these facilities including treatment plants, pumping stations, metering devices and all related transmission piping and above ground appurtenances. The department is also responsible, when operating the above facilities, for complying with all federal, State and local regulatory and permit requirements. The department uses a CIP Delivery Process. This process uses a systematic approach to develop and refine the scope, schedule and budget for existing and newly proposed expansion and renewal and replacement projects. It allows priorities to be determined and uses schedules to ultimately deliver quality projects from conception to project completion. The goal of the CIP Delivery Process is to deliver department projects in an efficient and economical manner.

The objectives of the process are to:

- Economically build and maintain existing system assets;
- Deliver projects on schedule and within budget;
- Allow for the annual update of the CIP;
- Allow for adjustments to the approved CIP due to changing priorities for those projects not yet in the implementation phase;
- Seamlessly coordinate with the County's CIP;
- Permit performance measurement; and
- Provide documentation for management and historical trending purposes.

The Board of County Commissioners policy 03.02.02.06 requires that capital projects be prioritized. The Department's Project Prioritization Model (PPM) is a formal method of documenting and tabulating the results of applying subjective criteria to prioritize the CIP each fiscal year. There are six categories to score a project against other projects within the Department's CIP:

- Compliance
- Health and Safety
- Expansion / Renewal and Replacement
- Long Range Planning
- Community and Environmental Impacts
- Economic / Financial Considerations

The resulting score for each existing or new "planning" project is used at the beginning of the budget process to rank all the projects within the CIP.

Additionally, the Department's Payback Analysis Model (PAM) incorporates several economic factors to estimate the payback period of a given capital project. It determines the payback period by modeling the average monthly revenues generated by the Equivalent Residential Customers (ERC) to be served by the capital project. Generally, the information that is required to be input into the model includes:

- Project Name, CIP Number and Type
- Payback Analysis Period
- Discount Rate
- Debt Service or Pay-As-You-Go
- Expansion Percentage
- Operating, Maintenance and Fixed Overhead Cost

- Capital Cost by Year
- Outside Funding Sources
- ERCs served by the Project
- ERC Connection Schedule
- Rate and Debt Service Information

The information is used to assign a weighted economic criteria number for the project in the earlier referenced Project Prioritization Model (PPM) during each fiscal year budget process.

Finally, the CIP Master Program Schedule is used as a planning tool to lay out each of the project schedules, provide the cash flow requirements of the program as a whole, anticipate project resource needs and provide historical data for future trend analysis. In addition, the Master Program Schedule is also used at the beginning of each fiscal year to facilitate the efficient distribution of work throughout a six year period.

Financial Planning Strategies

Hillsborough County uses a variety of tools to assist in developing long-term financial planning strategies. One tool is the preparation of an annual Pro Forma document. This document is used to put current budget and financial decisions into a longer-term context. Prepared in accordance with Board policy, the Pro-Forma provides a five year projection of revenues and expenditures for major operating funds, and is particularly useful in showing how capital projects, funded in the biennial budget or planned over the next several years, will impact future operating budgets in terms of maintenance, utility and staffing costs.

Another tool used in financial planning is the County's debt management strategy. Credit ratings assigned by the three international rating agencies, Moody's Investors Service, Standard and Poor's Ratings Services, and Fitch Ratings are key factors influencing interest rates paid on local governments' borrowings. Because of the significant impact interest rates have on our overall financial position, Hillsborough County places a great deal of emphasis on its credit worthiness. The County conducts credit updates each year, and notices of any material credit changes are provided to the rating agencies throughout the year.

The County's general credit ratings are Aaa / AAA / AAA on a scale where Aaa / AAA / AAA are the highest ratings. The County's high ratings are an objective indication of sound financial management, recognition that its overall debt profile is characterized by good debt service coverage from pledged revenues and by sound legal provisions ensuring full and timely payment of debt service. These high credit ratings enable the County to meet its borrowing needs at the lowest cost of capital.

To address short-term capital project funding requirements, Hillsborough County uses a Commercial Paper Program. Under this program the Board authorizes short-term borrowings when needed to provide adequate cash flow for active projects. This approach ensures that long-term debt is issued only when needed in appropriate amounts. Furthermore, tax exempt short-term debt tends to be the lowest cost financing tool available to local governments resulting in substantial savings to the County. Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding short-term notes, unless there is an economic advantage in keeping short-term, variable rate notes outstanding. The County issues debt in accordance with its debt policy which governs the type and amount of borrowings that are best suited to achieving its financing objectives. The policy guides the County's borrowings by means of targets and ratios, such as direct debt per capita or general governmental debt as a percent of general fund revenue, that balance the need for flexibility to ensure the availability of capital with the need to ensure continued access to the capital markets.

When it is prudent and in the County's economic interest to do so, infrastructure improvements may be financed by means of public-private partnerships in which private corporations, such as real estate developers, agree to fund a portion of such improvements together with funding from the County, State, and/or federal government. Such partnerships enable the County to construct needed infrastructure, in particular transportation improvements, at a lower cost to taxpayers as a result of leveraging private funding sources.

Finally, the County actively and aggressively monitors market opportunities to refinance its debt to achieve lower debt service costs. When legally and economically feasible, lower interest debt will be issued to pay off outstanding debt thereby making revenues available to fund County services.

Capital Improvement Program Process

The annual Capital Budget and Capital Improvement Program (CIP) update begins in January with a request to the Capital Program directors to review, update and re-prioritize the unfunded capital needs list.

The Capital Budget Team of the Management and Budget Department maintains a comprehensive list of prioritized unfunded capital needs which is used in identifying new projects to be recommended for funding. The list identifies preliminary project information such as name, location, description or scope, the estimated cost and any operating cost impact. The updated Unfunded Capital Projects List is then used to determine which new projects will be added to the new Capital Improvement Program.

During the month of January (in the first year of the biennial budget cycle), the Capital Budget Team conducts training sessions to provide capital project management and staff specific direction relating to the capital budget process. As part of this training, those involved in the capital budget process are given a calendar of key budget cycle dates and written documentation including forms, instructions, and definitions to be used in preparing their capital projects budget including revising current project estimates and submitting requests to add new capital projects.

Another key step in the budget process is a review of capital project cost estimates in the current CIP or new projects added during the current fiscal year. This is to ensure that the next CIP will reflect these revised cost estimates. Departments are asked to review and update project information that will be presented in the Capital Improvement Program.

A specific form – the Capital Project Initiation Request Form - is used to document project changes or new project requests. This form is designed to guide the preparer in providing necessary information including the reason for the project, proposed location and scope, funding requirements by fiscal year, proposed project schedule and completion dates, anticipated operating cost impacts and management approvals.

Using updated information, the Capital Budget Team develops draft documents showing projects that have been completed or are anticipated to be completed by the end of the current fiscal year as well as specific detail project pages (see below for sample) for each project proposed to be included in the recommended budget.

Components for Each Capital Project Page:

Project Title - This is the project's name.

Project No. – This is a unique identification number assigned to the project for accounting purposes.

CIE Requirement – This indicates whether this project addresses a Capital Improvement Element as defined in the Growth Policy in Florida Statutes.

Level of Service Impact – If the project addresses a CIE element, this indicates what impact it has on the level of service:

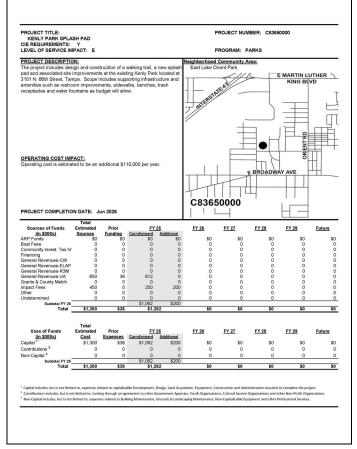

(M) – This indicates a project relates to the repair, remodeling, renovation or replacement of an existing County facility in order to maintain levels of service in the Comprehensive Plan.

(E) – This indicates the construction of a new facility or expansion of an existing facility that will reduce or eliminate deficiencies in the levels of the service in the Comprehensive Plan.

(F) – This indicates the construction of a new facility or expansion of an existing facility is needed to meet levels of service for new development.

(N/A) – This indicates that the project is not covered by the Capital Improvements Element.

Sample Capital Project Detail Page

Program – This indicates the capital program to which this project pertains.

Project Description - This describes the scope of work.

Operating Cost Impact – This is an estimate of the ongoing annual operating and maintenance funding this project will require once completed.

Project Completion Date – This is the estimated date the project will be ready for its intended use.

Neighborhood Community Area – This indicates the area of the county the project will occur. A copy of the Neighborhood Community Area map can be found in the Appendix section of this document.

Sources of Funds – This shows by year the sources of funding. Many projects have multiple sources of funding.

Uses of Funds – This shows by year the planned uses of funds summarized by capital, contributions and non-capital.

These draft documents are distributed to the departments for another review and the opportunity to correct information. Upon completing their review, the Capital Budget Team meets with the appropriate program directors and representatives to resolve outstanding issues and ensure that all are in agreement with the current information.

Budget preparation meetings held with Directors, Executive Team members and budget staff during February through April include discussions regarding capital projects. Decisions made at these meetings are incorporated into the documents and communicated to the appropriate departments.

Final revisions are incorporated into the Recommended Capital Budget and the Recommended Capital Improvement Program (CIP) in mid-May and delivered to the Board of County Commissioners in June or July. Throughout the budget development process, the County Administrator and Management and Budget staff conduct several budget workshops with the Board of County Commissioners to provide them with revenue projection updates and to obtain overall policy guidance.

Once the recommended budget and CIP are delivered to the Board, a series of budget workshops and public meetings are held. During this period, the Hillsborough County City - County Planning Commission also reviews the recommended CIP to ensure compliance with the County's Comprehensive Plan. Two statutorily required public hearings are held in September to gain public input. A separate public hearing is held following the budget adoption to also adopt the CIP.

Final budget documents reflecting the Adopted Budget and Adopted Capital Improvement Program are then prepared and distributed in both hardcopy and electronic formats. Once the Capital Budget and CIP are formally adopted, changes to the budget can only be made in accordance with the budget amendment process defined in BOCC Policy 03.02.02.00 - Capital Budget and Capital Improvement Program, which ensures compliance with budget amendment requirements per Florida State Statute 129.06. The BOCC policy also specifies that the list of projects included in the adopted CIP may only be revised through formal Board resolution.

Funding Sources

Funding for capital projects comes from a variety of sources, but generally falls into one of several categories: ad valorem taxes, the Communications Services Tax, the Community Investment Tax, gasoline taxes, enterprise fees, special assessments, impact fees, mobility fees, grants or financing.

 Ad Valorem (Property) Taxes are taxes levied by the Hillsborough County Board of County Commissioners on property within the County.

There are three ad valorem taxes imposed by Hillsborough County – the countywide property tax imposed on all properties within the county with use restricted to projects providing countywide benefit; the unincorporated area property tax imposed on all properties in the unincorporated area of the county with use limited to projects that benefit the unincorporated area; and the special library property tax, imposed on all properties within the City of Tampa and the unincorporated area of the County with use restricted to library projects. Both Temple Terrace and Plant City maintain their own library systems so properties within these two municipalities are not subject to the special library tax.

Additionally, two voter approved ad valorem taxes are used to pay debt service on the Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP) bonds and on Parks and Recreation bonds.

The Communications Services Tax is a 4% tax imposed on local and long distance telephone calls, cable, fax, pagers and beepers, cellular phone services and other related telecommunication services. The Board of County Commissioners originally designated 1% of this tax for the construction of new fire stations. Beginning in FY 06, the Board increased the allocation by an additional 1/2 %, for a total of 1¹/₂% for the construction of fire stations. However, due to the continuing ad valorem roll back requirements by the State Legislature and the effects of Amendment 1, approved by the voters on January 29, 2008, the amount and the percentage allocated to the construction of new fire stations in FY 09 was reduced to $\frac{1}{2}$ %. The remainder of the $\frac{1}{2}$ % is used to offset a portion of the reduction in property tax revenues funding operating expenditures.

- The Community Investment Tax is a ½% sales tax on the price of taxable goods, as defined by State statute, sold within the County. Approved for a thirty year period by public referendum in 1996, use of this tax is restricted to acquiring, constructing, and improving infrastructure and purchasing equipment with a useful life of at least five years to promote the health, safety and welfare of Hillsborough County residents. This tax expires on November 30, 2026.
- Gasoline taxes used to fund capital projects are the Six Cent Local Option Gasoline Tax, the Voted (Ninth Cent) Gasoline Tax and the Constitutional Fuel Tax. Permitted uses for each of these taxes are defined by statute, and in the case of the Voted Ninth Cent Gasoline Tax, are further restricted by County ordinances.

The Six Cent Local Option Gasoline Tax is limited to transportation expenditures for public transportation operations and maintenance; roadway and right-ofway maintenance and equipment and structures used primarily for the storage and maintenance of this equipment; roadway and right-of-way drainage; street lighting; traffic signs, traffic engineering, signalization and pavement markings; bridge maintenance and operation; debt service and current expenditures for transportation capital projects including construction or reconstruction of roads.

Use of the Ninth Cent Gasoline Tax is restricted by County ordinance to the road resurfacing program.

The Constitutional Fuel Tax collected by the State on behalf of the County is first used to meet debt service, if any, of debt assumed by the State Board of Administration payable from this tax. Any remaining tax proceeds may be used by the County for the acquisition, construction, and maintenance of roads as defined by statute or as matching funds for grants specifically related to these purposes.

- Enterprise fees are charges for services imposed on users of facilities of the two programs funded through enterprise funds - Solid Waste and Water/Wastewater/Reclaimed Water. An annual fee schedule for each enterprise fund is set by the Board of County Commissioners. Use of these revenues is restricted to operating, maintaining or building new infrastructure for the respective service for which the fee is being collected.
- Special assessments are charges levied by statute or ordinance for a specific purpose. One example is the stormwater fee, a non-ad valorem special as-

sessment levied on the annual property tax bill, used to help fund the stormwater capital program.

 Impact fees are fees imposed on new commercial and residential construction to help fund additional infrastructure needed to support the added load on County infrastructure resulting from the new construction. The unincorporated area of the County is divided into zones for each type of impact fee.

Use of impact fees collected within each zone is restricted to projects which add capacity to the respective infrastructure within that zone. There are four types of impact fees: transportation, parks, fire and schools. Impact fees are governed by the County's Consolidated Impact Fee Assessment Program Ordinance.

- Mobility Fees are a one-time charge on new development to pay for offsite transportation improvements that are necessitated by new development. On April 26, 2016, the Board of County Commissioners adopted the Mobility Fee Ordinance that would replace the current transportation impact fees and transportation concurrency. The Mobility Fee Program became effective January 1, 2017.
- Financing is the last source of funding. It includes both long-term and short-term financing. Short-term financing via a commercial paper borrowing program is used to borrow funds when needed in order to keep projects on schedule and to keep financing costs down.

Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding shortterm notes, unless there is an economic advantage in keeping short-term, variable rate notes outstanding.

Uses of Funds

Capital budget expenditures are related to one of the eight capital programs: Fire Services, Libraries, Government Facilities, Parks, Solid Waste Enterprise, Stormwater, Transportation, and Water Enterprise. It also includes the Environmental Land Acquisition and Protection Program (ELAPP) and the Major Repair, Renovation, Replacement and Maintenance (R3M) program. Planned capital project expenditures are summarized into the following categories:

Capital – These are costs incurred as part of delivering the project that will be capitalized with the asset when

the project is complete. Capitalizable development, design, land acquisition, equipment, construction and administration expenditures required to complete the project are examples of capital costs.

Contributions – Contributions represent funding through an agreement to other government agencies, youth organizations, cultural services organizations and other non-profit organizations and won't be capitalized when the project is complete.

Non-Capital – These are costs incurred as part of delivering the project but won't be capitalized with the asset when the project is complete. Building maintenance, grounds and landscape maintenance, non-capitalizable equipment and other professional services are examples of non-capital costs.

Capital Projects Operating Impacts

The Capital Budget and Capital Improvement Program (CIP) are integral elements of the County's biennial budgeting process. The cost of operating new or expanded facilities or infrastructure can be significant and is included in the operating budget in the fiscal year the asset becomes operational. However, in some cases, like the construction of a new jail, the operational impact may be phased-in gradually while the new jail is under construction. This is because as the jail population increases beyond its operational capacity so does the need for additional funds for overtime pay, add new staff, iail and food supplies, and operational equipment, thus spreading the increased operating impact over a number of years rather than impacting the budget all at once when the jail opens. Historically, operating costs of nonenterprise facilities have been funded from property taxes. Consideration of operating costs becomes particularly critical when there are potential property tax restrictions or reductions due to legislative action or recession. In some cases, it may be prudent to defer or cancel construction of a facility because there will be no funds to operate it.

Debt service payments on issued debt for capital projects are also included in the operating budget. The amount of required debt service relative to the size of the annual budget is an important indicator of fiscal obligations. Since debt service expenditures reduce the amount of funds available for other operating or capital uses, it is important that the ratio of debt service to the total operating budget remain at a prudent level.

Issuance of short–term commercial paper to provide adequate cash flow for approved projects does not have an impact on the operating budget. This is because these costs are rolled to subsequent notes until the projects are completed, at which time available cash or long-term debt is used at favorable interest rates to pay off outstanding short-term notes, unless there is an economic advantage in keeping short-term debt.

Specific FY 25 incremental operating cost impacts of capital facilities are discussed below in each program's highlights section. The Recommended Budget for FY 25 includes these operating costs. A full listing of incremental operating cost impacts can be found in the appendix section of this document.

Program Highlights

The following program highlights focus on each program's portion of the FY 25 – FY 29 Recommended CIP. Under annual budgeting, both new funding and any carry-forward funding from the previous year appear in the CIP. As a result, many schedules in this document have separate "Carryforward" and "Additional" columns when presenting FY 25 budget data.

A number of projects that are shown in the program sections appear in the Capital Improvement Program as "Post Construction". These projects have finished their primary construction phases and may have been placed in use; nevertheless, some of these projects still have unspent balances that are earmarked for postconstruction project costs.

Fire Services

The Recommended FY 25 – FY 29 Fire Services Program totals \$153.7 million. The program is funded with Community Investment Tax, fire impact fees, Communications Services Tax, general revenues, grants, financing and American Rescue Plan Act (ARP) funds.

Five new projects are being added to the program as part of the Capital Improvement Program update. The new Sligh/Anderson Road Fire Station is recommended per the Fire Rescue Master Plan to enhance services in the Northwest area of Hillsborough County. This project will construct a new 3-bay station on leased property from the State of Florida Bureau of Lands. Three stations that are at or near the end of their useful lives will be replaced – Brandon Fire Station #11, Midway Fire Station #30 and West Hillsborough Fire Station #20. These stations are dated in their design/features and require increasing operating costs to maintain and keep functioning at the expected service level necessary to protect the citizens of Hillsborough County. The Fire Rescue Unit Additions project will acquire 16 new rescue vehicles that will be located in high demand areas to improve response times.

Important projects approved in prior years continue into the new fiscal year. The Sun City North and Progress Village South Fire Station projects will design and construct new 2 bay stations to enhance service in the South and South-Central areas of Hillsborough County. The PSOC Renovations project will renovate existing PSOC warehouse space to support Emergency Management operations. Some current warehouse functions will be relocated to a different facility. The Comprehensive Communications Plan/Alternate EOC project will implement a technology solution capable of providing top-down management and relief effort coordination tools that will help deliver the fastest and most effective emergency response when dealing with incidents such as hurricanes and the COVID-19 Pandemic. This implementation will also include installation of the communications equipment and tower required to make the alternate EOC site operational. The construction of a Fire Rescue/Emergency Management Warehouse will enable storage of essential supplies used in day-to-day operations and in responding to disasters. Restroom and shower repairs at various locations will be completed as part of the Fire Station Restroom and Showers Renovations project. The HVAC system has reached the end of its life expectancy at Fire Station #36 in Valrico and will be replaced.

Fire Rescue Units

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three fire station replacement projects were created and approved – Armdale Fire Station #10, Gunn Highway Fire Station #13 and Palm River Fire Station #15. These stations are at or near the end of their useful life and will be replaced to increase functionality and operational efficiency. Other projects continuing into FY 25 include replacing Thonotosassa Fire Station #21 at a new location. The Fire Station Hardening project will provide upgrades to additional fire stations to enhance resilience. In order to fund the purchase of important fire and safety equip-Rescue Equipment Replacement. the Fire ment/Modernization project receives \$1.9 million each year from FY 25 through FY 29 from the Communications Services Tax allocated to Fire Rescue. Impact fees were added to this project in FY 19 to fund the purchase of Self-Contained Breathing Apparatus (SCBA) equipment.

Two projects reached substantial completion during FY 24. Drainage issues at the Palm River Fire were addressed and the Fire Apparatus and Equipment for New Fire Stations project, which was established to equip new stations, was completed.

Operating Impact – One project, Fire Station #36 Valrico HVAC Replacement, is scheduled for completion in FY 25. This project is maintenance related so it will not result in any significant change in operating costs. An ongoing project to harden fire stations will result in a minor increase in operating cost related to generator maintenance and testing.

Fire Services Projects	New Positions	Operating Impact (In thousands)
		FY 25
Fire Stations Hardening	0	\$10.0

Government Facilities

The Recommended FY 25 – FY 29 Government Facilities Program totals \$192.7 million. Funding sources for the program are Community Investment Tax, enterprise fees, financing, grants, general revenues, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Eight new projects are being added to the program in FY 25. Funds have been budgeted to design and construct an expansion of the existing Medical Examiner facility to add a full-time cold case unit, on-site warehouse, and additional cooler space to store specimens and decomposed bodies. The Pet Resources Facility project will provide retail adoption space(s) to better serve the growing community. The Sheriff's Headquarters Relocation project will evaluate options to relocate the Sheriff's Operations Center Complex currently in Ybor City. A new project will provide various interior and exterior building and site improvements to meet the Tax Collector's program needs. Four of the new projects are maintenance

related. The County Center and MOSI dome roof will get needed waterproofing. Various parking garage doors will be repaired or replaced, and the Soil and Water Conservation Board facility will have its roof replaced.

Several important projects continue in this Recommended Capital Improvement Program. The African American Arts & Cultural Center project will begin design of a new 44,000 square foot African American Arts and Cultural Center, expandable to 60,000 square feet, to be located on the BOCC-designated County-owned property at 2103 N. Rome Avenue in Tampa (currently known as the West Tampa Resource/Service Center). The existing buildings on the property are anticipated to be demolished and replaced by the new facility. Current onsite social services will be relocated within the property or to other locations. Construction funding is anticipated in the future. The Sheriff's Training Facility project includes the purchase of the existing 60,000 square foot building located at 10210 Windhorst Road and provide hardening improvements for use as a training facility for the Sheriff.

Repairs and renovations will take place at the central energy plant in downtown Tampa and the future Community Based Step-Down Facility. Flooring will be replaced at various County facilities and the Central Fleet Complex along with other locations will be painted. The Museum of Science and Industry will have its chiller and sections of its roof replaced. In downtown Tampa, an ongoing project will modernize elevators in various buildings and the Zack Street parking garage will have its fire pump replaced. Morgue building renovations will replace the four original morgue coolers from 2007 with four updated coolers.

Various projects will enhance existing Court facilities. The Edgecomb Courthouse lighting controls will be replaced. Access controls will be replaced at various courthouse locations and the State Attorney will get an additional conference room. Two judicial chambers and two courtrooms will be built out at the Pat Frank Court Building.

Three projects will make contributions to outside agencies for capital improvements to their facilities. Much needed repairs will be completed at the Historic 1914 School in Plant City. A Contribution will be made to the United Food Bank of Plant City for their capital building project. The Soul Walk African American Heritage Trail -Public Art on Franklin Street project was approved for funding by the Board of County Commissioners.

The Public Defender will have its 6th floor office expanded and 1st floor modified to enhance security. A project will begin in phases to renovate the housing pods at the Falkenburg Road Jail. Additional solar projects will be completed at various County facilities to increase energy efficiency. Land located within the Falkenburg Complex on Columbus Drive will be acquired to accommodate future County facilities such as the Fire Rescue/Emergency Management Warehouse.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, two new Government Facilities projects were created and approved. The Community Based Step-Down Facility - ARP Act 3 Funds project will renovate the former Sheriff's Work Release Center located at 1800 Orient Road to offer comprehensive services for participants exiting the local County jail who suffer from substance abuse and behavioral health related issues. The Outdoor Senior Fitness Zones - ARP Act 3 Funds project installed outdoor senior fitness equipment at various Senior Centers and Adult Day Care Centers to provide opportunities for the County's seniors to exercise safely and remain active when viral disease transmission rates are high.

Solar Panels – Cooperative Extension Office

Several other projects continue in this Recommended CIP with many being maintenance related. Parking lots will be renovated at various County facilities and carpet will be replaced at the County Center. The County Center will continue to have its air handlers replaced along with roof fans in conjunction with the re-roof project. Work around the Falkenburg Warehouse will replace the Clerk's emergency generator, air handler and chiller. Two maintenance projects will replace hurricane curtains at the Roger Stewart Center and renovate buildings at the Human Development Center.

A project will provide for security enhancements at the County Center and other County buildings. Funds have been set aside to help establish a future film studio / film school in the county. Funding is also provided for a new Adult Day Health Services Center to be developed in South County. The La Paloma Head Start Facility Replacement project will replace the existing modular building at 3419 N. Nebraska Avenue, Tampa with a new, expanded block building which will include Head Start as well as Early Head Start classrooms. The ERP System Enhancements project funds a full system upgrade to address improvement opportunities for the Oracle E-Business Suite software.

During FY 19, a bond was issued that supported various governmental, fire and parks facilities projects. Many of the projects were in the Government Facilities program with one still being active. The Emergency Generators at Various Locations project includes engineering and installation of emergency generators and associated infrastructure upgrades at various emergency shelters (such as public schools) and other critical facilities to provide back-up power capability.

Security Enhancements – County Center

The Historic Preservation Matching fund program continues in FY 25 to help preserve historic community assets. The Annual Public Art Plan, as recommended by the Public Art Committee, is included within the appendix section of the Recommended Capital Improvement Program. Current funding is adequate for projects that are in process at this time.

Eleven projects reached substantial completion during FY 24. Carpet replacement projects were completed at the Edgecomb Courthouse and Roger Stewart Complex. The Edgecomb Courthouse had its 4th and 5th floors expanded along with acquiring tech and furniture for the 4th floor. The University Community Resource Center received a new HVAC system. Window canopies were replaced and the parking lot repaved at the Falkenburg Warehouse. The Juvenile Diversion Center was relocated to new offices and work associated with the Hanna Facility Repurpose project was completed. The Northwest Area Head Start facility was also completed.

Contributions were also made to three outside agencies. The Sweetwater Organic Community Farm acquired land to expand their operations. High 5 Inc. refurbished a swimming pool at their facility in Brandon and the funding for the Tampa Museum of Art helped with their capital campaign.

Public Art – Balm Boyette Roundabout

Eight projects should reach substantial completion in FY 25. The County Center roof, roof fans and carpets will be replaced. For the courts, the Edgecomb Courthouse lighting controls project and a conference room for the

State Attorney will be completed. The roof at the Soil and Water Conservation Board facility and hurricane curtains at the Roger Stewart Complex will be replaced. Renovations will be completed at the Human Development Center.

Operating Impact – None of the projects that are scheduled to reach substantial completion in FY 25 will have an impact on operating costs. One ongoing master project to install new emergency generators will result in a small increase in maintenance costs.

Government Facilities Projects	New Positions	Operating Impact (In thousands)
		FY 25
Emergency Generators at Various Locations	0	\$68.0

Libraries

The Recommended FY 25 – FY 29 Library Services Program totals \$69.6 million. The program is funded with ad valorem tax proceeds from the Special Library Taxing District.

John Germany Library

No new projects are being added to the program this year, but many important projects continue into FY 25. Three are maintenance related – the North Tampa and John Germany Libraries will have their chillers replaced and restroom facilities will be renovated at various libraries to update their functionality, fixtures, and finishes. The Sentinel Bulletin Archiving project will preserve and digitize the Sentinel Bulletin historic archive of newspapers which includes 118 bound volumes (1945-2010) that have been housed at the C. Blythe Andrews, Jr. Public Library's Special Collection since 2019. The collection contains approximately 400,000 pages. This is a one of kind collection of the only African American centered newspaper in the Tampa Bay area. Initial funding has been put in place to create a temporary library in Wimauma at the former Bethune Park senior congregate dining site. This project will renovate the existing building, improve the site, and provide furniture and fixtures. In the future, a site will be selected for construction of a permanent library in the Wimauma area.

Initial funding has been put in place to explore site options and project development for a future new library to be located in the Fishhawk area in southeast Hillsborough County. The Libraries Safety and Security Upgrades project will install access control systems, replace proprietary alarm systems and install/upgrade surveillance systems, etc., at various libraries to improve safety and security for library staff and customers. Project development, design and construction will begin on an effort to replace the Thonotosassa Library with a larger and more functional facility at a newly acquired site.

West Tampa Library

The John Germany (Main Library) Various Improvements and Planning Study project includes various renovations to the building and site to meet customer needs. The Burgert Brothers Photo Archive Preservation project will preserve and digitize the prints and negatives of the collection. Landscaping will be improved at various libraries with the Landscape Renovation project.

The Brandon Library Replacement – Phase 2 project provides funds to construct a new 25,000 square foot, expandable to 35,000 square foot, Brandon Library on a site acquired in Phase 1 which was funded separately. The programs and services offered by the library will be determined with citizen input. Interior and exterior renovations of the existing Southshore Library will improve functionality and upgrade finishes and systems. Four projects reached substantial completion during FY 24. Renovations were completed on the Austin Davis, Fendig and West Tampa Libraries and the Ruskin Library had its roof replaced.

There is one project that is scheduled to reach substantial completion in FY 25. The North Tampa Library chiller will be replaced due to its age and condition.

Operating Impact – Since it is maintenance related, there is no incremental operating cost impact for the project listed above that is scheduled to reach substantial completion in FY 25.

Parks

The Recommended FY 25 – FY 29 Parks Facilities Program totals \$194.4 million. The program is funded through a combination of impact fees, Community Investment Tax, general revenues, financing, boat improvement funds, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Progress Village Playground

Eight new projects have been added to the Parks Capital Budget including the Apollo Beach Nature Preserve Recreational Improvements at \$1.7 million, the CELM ADA Hardscape Upgrades and Improvements at \$400,000, the Ed Radice Complex Softball Field Renovations at \$1.8 million, the Palm River Park Improvements at \$1.1 million, the Sports Complexes Improvements at \$1.6 million, Parks Fencing Replacement at \$500,000, Skyway Football Building Roof Replacement at \$300,000 and the Edward Medard All Inclusive Playground at \$900,000. The Edward Medard All Inclusive Playground Project will construct a new accessible playground and supporting infrastructure at Edward Medard Park which will provide a modern design and amenities to encourage outdoor play and socialization while enhancing public safety.

Seven projects were completed in FY 24 including the Alexander Metal Roof Replacement, the All Peoples Annex Metal Roof Replacement, the Countywide Soccer Complex, the Lake Park BMX Track Lighting Replacement, the UACDC Aquatic Center & Community Center Improvements, and the Lettuce Lake Park Playground. The Lettuce Lake Park Playground constructed a new Playground and supporting infrastructure at the park.

Four projects are scheduled for completion in FY 25 including the Skyway Park Trailhead - Fitness Zone, the Veterans Memorial Park/Resource Center Improvements, the Winston Park Splash Pad, and the Emanuel Johnson Park Splash Pad. These last two projects will design and construct a new splash pad at the respective parks which includes supporting infrastructure and amenities such as benches, trash receptacles and water fountains.

Southshore Sportplex

Significant projects in the program are the Branchton Regional Park which will construct a regional park to serve the recreational needs of the community in Northeast Hillsborough County and the Kings Forest Park Splash Pad & Improvements which will design and construct a splash pad and other improvements to the existing Kings Forest Park.

Another significant project in the Capital Budget is the New Tampa Performing Arts Center. This project designed and constructed a new civic building to serve as a cultural/community center as part of the New Tampa Community.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three Park projects were created and The Pickleball Complexes - ARP Act approved. Revenue Recovery Funds project which will design and construct pickleball courts at various locations throughout the County; the Kings Forest Park Splash Pad - ARP Act 3 Funds project which will design and construct a Splash Pad at the park; and the Progress Village Park Improvements - ARP Act 3 Funds project which will design and construct various improvements to the existing Progress Village Park.

Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP)

The Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP) is a voluntary land preservation program based in the Conservation and Environmental Lands Management Department. The ELAP Program is dedicated to the protection and preservation of natural and environmentally significant resources, as well as restoration of natural habitat. Properties preserved through ELAPP are available for recreational uses compatible with the preservation objectives. Some of the criteria used when considering a property for protection are: contains unique or scarce natural habitat for endangered species, protection of water resources, or lands that buffer, link or provide access to existing environmentally sensitive lands.

Historically, funding was secured through an operating and debt service ad valorem millage not exceeding 0.25 mills in any one-year period. A four-year property tax was originally approved by 71% of the voters in 1987 and in 1990 a referendum authorizing \$100 million in bonds was approved by 73% of the voters. In November 2008, nearly 79% of the voters approved the issuance of up to \$200 million in bonds to continue capital funding for the ELAP Program. So far \$124.4 million has been issued of the \$200 million authorized by the voters.

As of October 1, 2022, the County has preserved approximately 63,343 acres at a cost of \$308.1 million, of which \$90.4 million (or 29%) has been funded by other agencies.

New Tampa Performing Arts Center

Operating Impact – The following table identifies the stand-alone projects that are scheduled for completion in FY 25 that have a separately identified operating impact. Ongoing master projects that have an identified operating impact are also listed in the table below.

Parks Projects	New Positions	Operating Impact (In thousands) FY 25
All Peoples Park Expansion	0	\$10.0
EG Simmons / Eco Tourism	0	15.0
Emanuel Johnson Park Splash Pad	0	45.8
Parks Shade Covers (MP)	0	20.0
Winston Park Splash Pad	0	45.8

Solid Waste Enterprise

The Recommended FY 25 – FY 29 Solid Waste Enterprise Program totals \$310.7 million. The Solid Waste Enterprise Program is funded with long-term financing and revenues generated from fees and assessments paid by customers of the enterprise.

The program consists of twelve active projects which concentrate on enhancing the Solid Waste services centers throughout the county. One of these projects is the Northwest Transfer Facility Improvements. This project will design, permit, construct and provide quality assurance for the Northwest Community Collection Center Improvements project. The improvements are necessary to provide a better site configuration thus improving safety, customer traffic flow, efficiency of the operation and improve the overall customer experience while using the facility.

Southeast County Landfill Facility Improvements

There are four projects at the Southeast County Landfill totaling \$121 million. These projects include the Southeast County Landfill Closure, the Southeast County Landfill Facility Improvements, the Southeast County Landfill Leachate Storage System, and the Southeast County Landfill Expansion. The expansion project is projected to construct a new landfill disposal expansion project designated as Section 10 which includes geotechnical engineering, karst evaluation, design, permitting, and construction of the new double lined Class I waste disposal landfill cell. The expansion will increase landfill capacity in order to accommodate the additional waste generation from the growing population within Hillsborough County.

Another project included in the program is the Resource Recovery Facility Fly Ash Separation and Building Expansion at \$15.0 million. The project will expand the Resource Recovery Facility (RRF) to add a fly ash handling, processing, and conveying system. The system will keep bottom and fly ash separate for increased efficiency in metal recycling and for facility environmental compliance and improved facility operations.

One significant project in the program is the Resource Recovery Facility Improvements. The Resource Recovery Facility has four boilers that burn the waste and generate steam for turning two turbines that generate 35-40 Mega Watts of electricity for use by other County Departments and for retail sales that generate revenue for the Division. Three of the Boilers were built in 1989 and one in 2009. This project allows for the evaluation, identification and prioritization of recommended actions for equipment in need of upgrades to increase the performance and safety of the facility. The anticipated improvements include road improvements, auto combustion regulators on boilers to increase combustion efficiency, auto dialer notification, increased environmental protection with separation of stormwater and ash, boiler steam and tube replacement and other upgrades.

Resource Recovery Facility Improvements

Operating Impact – No projects are scheduled to begin incurring operating costs in FY 25.

Stormwater

The Recommended FY 25 – FY 29 Stormwater Program totals \$208.6 million. The program is funded with a combination of Stormwater fees, Community Investment Tax, general revenue, grants, BP oil spill fund and American Rescue Plan Act (ARP) funds.

No new projects are being added to the program as part of FY 25 – FY 29 CIP, but funding has been added to several master projects. The program includes thirteen master projects that provide for the maintenance, rehabilitation, construction and improvement of the Hillsborough County stormwater system.

The Culvert Renewal and Replacement Program replaces or repairs culverts at various locations throughout Hillsborough County. The Watershed Master Plan Updates and Watershed Drainage Improvements projects study the water quantity, and water quality if applicable in various watersheds within Hillsborough County and constructs various regional and intermediate stormwater improvements. The Neighborhood Drainage

Improvements projects alleviate flooding on Countymaintained roadways that do not meet the County's level of service for flood protection. These projects are initiated at the conclusion of a drainage investigation of actual flooding identifying the deficiencies. The Water Quality Improvements and Environmental Program projects implement water quality improvements and alleviate stormwater pollutant loading to surface waters.

Neighborhood System Improvements

To keep pump stations functioning properly, the Stormwater Pump Station Repair & Replacement project provides for the annual renewal and/or replacement of stormwater pump stations throughout the County. The Culvert Upgrade and Enhancement Project will upgrade, enhance and extend stormwater drainage culverts, including design, land acquisition, and construction for individual projects throughout the County. Restorations and improvements to maximize the flow and safety of roadside drainage systems are implemented through the Stormwater System Maintenance project. The Canal Dredging and Preventative Measures project provides grant funding for coastal canal dredge projects that will improve and enhance navigation pursuant to the Board of County Commissioners' Policy #01.31.01.00.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. Three Stormwater projects that continue in this capital budget were funded by that process. Two projects are addressing drainage issues in the Progress Village area. The Stormwater Drainage and Water Quality Improvements project is designing and constructing drainage improvements to alleviate neighborhood flooding at various locations.

Neighborhood Drainage Improvements

The Delaney Creek Water Quality Improvements project, which was ARP funded and addressed pollutant loading and stormwater management for that area, reached substantial completion during FY 24. For FY 25, the Progress Village Local Drainage Improvements project should be completed. Although they are not listed separately, many sub-projects will be completed in FY 25 and will provide benefits to the County.

Operating Impact – New stormwater infrastructure normally does not have explicit additional operating costs beyond additional materials and supplies for maintenance. Ongoing annual maintenance costs for stormwater improvements are estimated at \$2.50 per \$1,000 of project cost. Stormwater infrastructure maintenance requirements include keeping drainage areas free from silt. litter, leaves and debris, mowing and maintaining stormwater ditches, canals and conveyances as well as repairing cracked or broken stormwater pipes, culverts and other stormwater infrastructure. Unanticipated maintenance of new stormwater infrastructure can be absorbed within the operating budget of the various maintenance components of the Public Works Department. However, as more infrastructure becomes operational each year, additional staff and equipment will be needed at some future date to maintain infrastructure at desired levels.

Ongoing master projects with an annual operating cost impact in FY 25 are listed in the table below. In addition, one stand-alone project, Progress Village Local Drainage Improvements, will have an impact on operating costs in FY 25.

Stormwater Projects	New Posi- tions	Operating Impact (In thousands)
		FY 25
Culvert Renewal and Replace- ment Program	0	\$66.7
Culvert Upgrade & Enhancement	0	2.5
Major Neighborhood Drainage Improvements	0	3.5
Neighborhood Drainage Capital Improvements	0	38.7
Neighborhood Drainage Im- provements	0	0.5
Progress Village Local Drainage Improvements–ARP Act 3 Funds	0	1.6
Stormwater Drainage and Water Quality Improvements - ARP Act 3 Funds	0	2.1
Water Quality Improvement & Environmental Program	0	2.7
Watershed Drainage Improve- ments	0	10.8

Transportation

The Recommended FY 25 – FY 29 Transportation Program totals \$478.3 million. The program is funded with a combination of fuel taxes, Community Investment Tax, financing, general revenues, grants, impact fees, mobility fees, BP oil spill fund and American Rescue Plan Act (ARP) funds.

No new projects are being added to the program as part of FY 25 – FY 29 Capital Improvement Program, but one project was added through Board approval during FY 24. The Lithia Pinecrest/CR39 Intersection Improvements project will add additional turn lanes as well as bicycle and pedestrian enhancements to the intersection.

Many important projects continue into this Recommended CIP to make critical infrastructure improvements. As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three Transportation projects were created and approved. The Roadway Pavement Preservation - ARP Act Revenue Recovery Funds project was established after the BOCC directed that \$40 million of ARP dollars be used for resurfacing projects. Roads will be improved at various locations throughout the county. Two sidewalk projects (the Sidewalk Improvements - ARP Act 3 Funds and Sidewalk Improvements - ARP Act Revenue Recovery Funds projects) will repair existing sidewalks

and upgrade sidewalks to be ADA compliant across Hillsborough County.

Bell Shoals Road Corridor Improvements

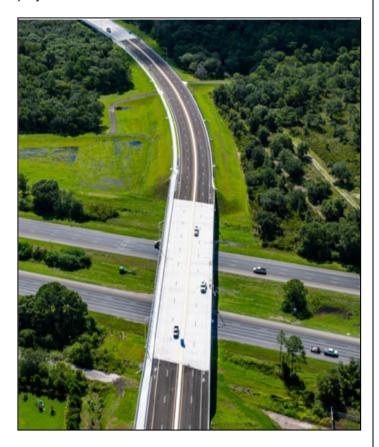

The Big Bend Road Corridor Improvements West - US 41 to Covington Garden Drive project is part of the extensive work that is being done in the I-75 / Big Bend Road area. The project will widen Big Bend Road, a 4lane divided road to 6-lanes from US 41 to Covington Garden Drive. The improvements will include bicycle lanes, bus facilities and enhanced pedestrian safety features, including wide sidewalks, crosswalks and signals. Stormwater drainage will also be improved. The Bay to Bay Boulevard Safety Improvements project will fund improvements to enhance safety in that corridor. The CDBG Roads and Sidewalks Repairs master project will fund various repairs to existing roads and sidewalks within CDBG eligible areas.

The Safe Streets and Roads for All program includes projects funded by the U.S Department of Transportation Safe Streets and Roads for All ("SS4A") Grant. This project will improve safety for pedestrians, bicyclists, transit users, and drivers at approximately 22 locations throughout Hillsborough County.

Key areas in the Transportation Program that continue include corridor improvement projects (Big Bend Road, East 131st Avenue, Lithia Pinecrest Road, South 78th

CAPITAL IMPROVEMENT PROGRAM OVERVIEW

Street and Van Dyke Road), intersection / interchange improvements (Big Bend Road at I -75, various other locations) and roadway improvements (University Area improvements and Sun City Center pedestrian mobility improvements). The Corridor Safety Retrofit Improvements project will provide safety retrofit improvements in high injury crash and high safety risk locations. It includes safety enhancements with major road resurfacing projects.

Apollo Beach Blvd I-75 Overpass

The Safe Routes to School Program includes sidewalks near schools, school safety circulation enhancements, new sidewalks on county roads, new and enhanced pedestrian crossings, signs and pavement markings. Funds have also been allocated for three trails projects (Balm Boyette/Alafia Connector, South Coast Greenway and Upper Tampa Bay) and construction is being managed by Public Works. These trails are in various levels of evaluation, design and construction. The program also includes funding for bridge replacements, bridge repairs, sidewalks, pavement preservation, and safety improvements at various locations.

The Bell Shoals Road Corridor Improvements (Bloomingdale to Boyette) project will complete a new four lane divided county road including enhancements to pedestrian safety features. Turkey Creek Road will be widened from Sydney Road to south of SR 574/MLK Boulevard to provide capacity and intersection improvements.

Sidewalk Repair Program

Five stand-alone projects reached substantial completion during FY 24. The 19th Avenue NE and Bell Shoals Road (Bloomingdale to Boyette) Corridor Improvements projects were completed. The improvements on Turkey Creek Road from MLK Blvd to Sydney Road and the project implementing various intersection improvements along Lumsden Road were also completed. The PD&E for the Tampa Bypass Canal Trail was also completed. Work on two specific master projects ended (Bridge and Guardrail Rehabilitation and Repair and Intersection Operation and Safety Program), but work continues on essential bridge and intersection assets through other master projects.

In FY 25, the Big Bend/I-75 Interchange Improvements and South 78th Street Corridor Improvements (Progress Boulevard to Causeway Boulevard) projects are scheduled to be completed which will enhance traffic flow in those areas. Although not listed separately, many subprojects will be completed in FY 25 and will provide benefits to the County.

CAPITAL IMPROVEMENT PROGRAM OVERVIEW

Operating Impact – While new transportation infrastructure generally has no immediate direct operating costs associated with it, future and ongoing maintenance expenditures are needed to keep the roads, trails and sidewalks up to County standards. Ongoing maintenance costs include pothole patching, lane and crosswalk re-striping, sign and traffic signal replacement, ADA compliance and roadside right-of-way mowing and maintenance. Not including residential street lighting, the County expends approximately \$9,022 annually per lane mile on ongoing maintenance. The County is responsible for maintaining over 6,933 lane miles throughout the county. Note that major road resurfacing is budgeted separately under the capital program. Like stormwater, as more transportation infrastructure continues to become operational, additional staff and equipment will be needed to maintain infrastructure at operational levels. The annual cost to maintain traffic signals is approximately \$6,000 per signalized intersection; \$2,400 for utility cost and \$3,600 for maintenance costs.

Neither of the two stand-alone projects scheduled for completion in FY 25 discussed above has an identified operating cost impact. Ongoing master projects that have an identified operating impact are listed in the table below.

Transportation Projects	New Positions	Operating Impact (In thousands)
		FY 25
Advanced Traffic Management System Improvement Program	0	\$450.0
Intersection Improvement Pro- gram	0	100.0
New & Improved Signalization Program	0	100.0

Water Enterprise

The Recommended FY 25 – FY 29 Water Enterprise Program totals \$2.4 billion. The Water Enterprise Program includes potable water, wastewater and reclaimed water projects and is funded with a combination of longterm financing, impact fees, revenue generated from fees, rates and charges paid by customers of the enterprise, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Two new projects were added to the Water Enterprise Capital Budget including the Northwest AWWTF Structural Eval & Repairs at \$10.0 million and the Falkenburg Improvements at \$114.1 million. This project will construct improvements to the Falkenburg facility and related collection system to accommodate growth in Hillsborough County.

Maintenance Facility (NW Service Area)

The Woodberry Super Station Rehabilitation project was completed in FY 24. The Woodberry Super Station is one of the largest in the County. It is over 20 years old and required rehabilitation including new variable frequency drives, wet well coatings, new pumps, bypass pumping, piping, and other appurtenances. The Woodberry Super Station is critical to transferring wastewater to the Falkenburg Advanced Wastewater Treatment Facility. Allowing the electrical infrastructure to continue to age presents significant financial and environmental risk to the County.

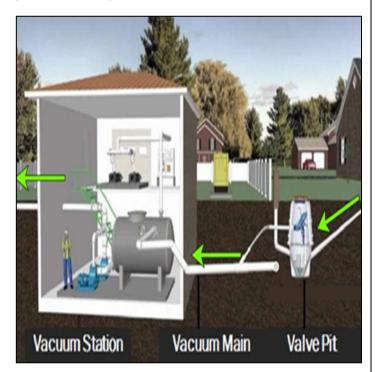

The South County Drinking Water Transmission Main -One Water project at \$141.7 million is scheduled for completion in FY 25. The project will construct approximately 10.7 miles of 42-inch and 48-inch diameter drinking water transmission main that will connect the Lithia Water Treatment Plant to the existing water distribution system at U.S Highway 301. This project will enhance service reliability and improve water pressure in the south service area.

The South County One Water Campus AWWTF at \$467.4 million, will construct a new Regional Wastewater Treatment Facility in the South County Service Area to provide additional wastewater treatment capacity. The new facility is needed to meet increasing wastewater

CAPITAL IMPROVEMENT PROGRAM OVERVIEW

demands due to continuing population growth in the South County Area.

An ongoing project of importance is the South Hillsborough Aquifer Recharge Program (SHARP) at \$20.7 million. In the future, surface water discharges will be limited and/or eliminated due to Total Maximum Daily Loads and Numeric Nutrient Criteria restrictions. Aquifer Recharge is another area where reclaimed water can be used to reduce discharge, can act as a salinity barrier created to limit saltwater intrusion, create a path to the restoration of local water levels and support a long-term and sustainable solution to water management challenges in the Hillsborough County Public Utilities service area. In coordination with the Southwest Florida Water Management District and the Florida Department of Environmental Protection, Hillsborough County embarked on two reclaimed water direct aquifer recharge pilot projects along the coastal county in a non-drinking water portion of the aquifer.

Septic to Sewer Conversion Program

Additionally, the program includes the two University Area Septic to Sewer Innovation Area projects at \$46.7 million. The University Area Septic to Sewer Innovation Area project funding will be used to pay for residential and commercial hook-up charges for water and sewer in the University Area.

South County Water Facility

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22, FY 23 and FY 24 to allocate these funds to projects. As part of that process, five Water projects were created and approved. The projects will address the sewer systems Countywide including Gibsonton, Palm River, Ruskin, Wimauma and the University Area. The Gibsonton Area Septic to Sewer Conversion Program ARP funding project will build a wastewater collection system for existing residents and future developments in the Gibsonton Area.

Operating Impact – No stand-alone projects are scheduled to begin incurring operating costs in FY 25. Ongoing master projects that have an identified operating impact are also listed in the table below.

Water	New	Operating Impact
Projects	Positions	(In thousands)
		FY 25
Public Utilities Telemetry / Data Network and Support Program (MP)	0	\$50.0
Reclaimed Water Transmission Main Extensions to New and Existing Customers (MP)	0	1.2

Major Repair, Replacement, Renovation, and Maintenance Program

During the FY 02 capital budget process, the Board of County Commissioners, concerned about maintaining the condition of County facilities, established the Major Repair, Replacement, Renovation and Maintenance Program (R3M). The program focuses on non-routine repairs, renovations, replacement or maintenance of existing facilities rather than construction of new facilities or infrastructure. Projects included in this program are typically under \$150,000, do not add square footage to an existing facility, and can be delivered within a twelvemonth period. This program is more flexible than the CIP process, allowing the County to react in a more timely manner to facility related emergencies or non-routine repairs and maintenance needs. The projects can be identified, budgeted and completed within a twelvemonth period.

To ensure that funding is available to maintain existing facilities, the Board of County Commissioners sets aside a minimum of 1% of anticipated annual revenues in the Countywide General Fund, the Unincorporated Area General Fund and the Library District Fund. The Recommended FY 25 allocations will generate approximately \$15.0 million at 1.7% for the Countywide General

Fund, \$8.2 million at 2.0% for the Unincorporated Area General Fund and \$842,735 at 1% for the Library District Fund. A list of proposed FY 25 R3M projects can be found in the appendix section of the Recommended Capital Improvement Program document.

Monitoring

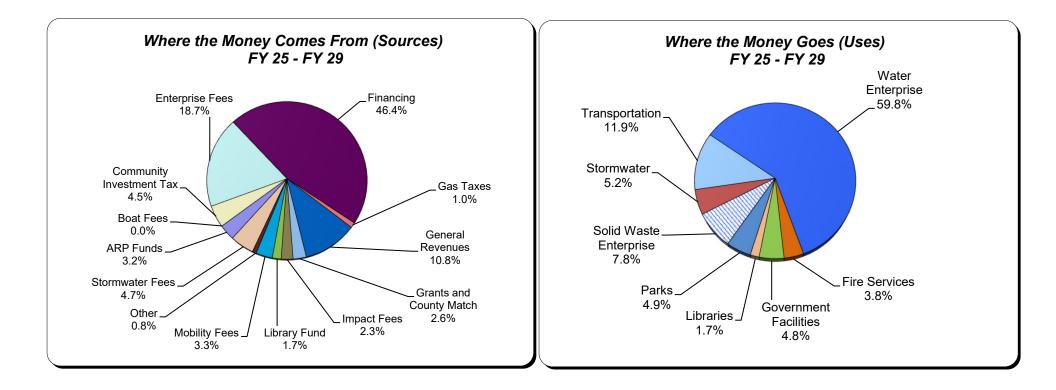

The Capital Budget Team conducts regular reviews of capital project status, allocations and expenditures along with related activities.

The purposes of these reviews are:

- To ensure compliance with applicable statutes, ordinances, County policies and procedures, and sound accounting and budgeting practices.
- To identify projects with excess appropriations that might be subject to reallocation.
- To track impact fee revenues and expenditures to ensure that impact fees are being spent in a timely manner as required by ordinance.

Results of these analyses are communicated to appropriate management and staff for follow-up and corrective action. To assist in the reviews, the Capital Budget Team generates numerous variances and tracking reports from the County's financial system.

PROGRAM: FIRE SERVICES

PROJECT TITLE:

COMPREHENSIVE COMMUNICATIONS PLAN/ALTERNATE EOC CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

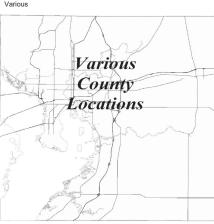

PROJECT NUMBER: C91220000

PROGRAM: FIRE SERVICES

Neighborhood Community Area:

PROJECT DESCRIPTION:

This project will implement a technology solution capable of providing topdown management and relief effort coordination tools that would help deliver the fastest and most effective emergency response when dealing with incidents such as hurricanes and the COVID-19 Pandemic. This implementation would also include installation of the communications equipment and tower required to make the alternate EOC site operational.

OPERATING COST IMPACT:

No significant change in operating cost is anticipated.

PROJECT TITLE:

FIRE RESCUE/EMERGENCY MANAGEMENT WAREHOUSE CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

PROJECT DESCRIPTION:

This project includes design and construction of a 60,000 square foot warehouse facility (as budget will allow) for Hillsborough County Fire Rescue (HCFR) and Emergency Management (OEM) proposed to be located in the Falkenburg Rd/Columbus Drive area. As the County continues to grow, more and more services are required and thus materials and supplies will need to be in place to address increased demand. Executing HCFR and OEM mission in an efficient, effective, and safe manner requires a large warehouse space that can accommodate materials and supplies that are required both during normal day to day operations as well as during large scale disaster responses.

OPERATING COST IMPACT:

PROJECT COMPLETION DATE: Dec 2026

To be determined. There will be incremental facility maintenance and utility costs once complete.

PROJECT TITLE: FIRE STATION HARDENING (MP) CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

PROJECT DESCRIPTION:

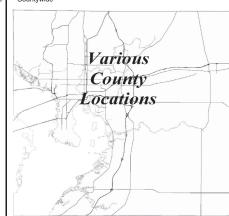

The scope of this project is to provide upgrades to all Fire Rescue Facilities to the extent possible and as prioritized, for the survival and the continued operational ability of the facilities in the aftermath of a major storm. This is to include: access to the facility by staff and the public; the protection of operational functions; the protection of all openings; the structural integrity of the building(s); power, water, sewer and communications support; security of personnel; and the strengthening or removal of potential hazardous elements such as auxiliary buildings, trees and towers.

Additional annual operating cost impact is estimated at \$5,000 per station.

PROJECT DESCRIPTION: Design and construct a new 3-Bay West Hillsborough Fire Station #20 Replacement on current site located at 7020 West Hillsborough Avenue. The station is at or near the end of its useful life and is dated in its design/features and requires increasing operating costs to maintain and keep functioning at the expected service level necessary to protect the citizens of Hillsborough County. The project includes furniture, fixtures and equipment (FF&E).

PROJECT TITLE:

CONSOLIDATED & HARDENED MAINTENANCE FACILITIES - SOUTH SERVICE UNIT CIE REQUIREMENTS: N LEVEL OF SERVICE IMPAGT: N/A PROGRAM: GOVERNMENT FACILITIES

PROJECT DESCRIPTION:

This project forms one of four consolidated and hardened maintenance facilities for Public Works, Public Utilities and Fleet Services to replace the existing 40-50 year old facilities which are nearing the end of their useful lives. The new facilities will provide efficient and secure locations for pre and post disaster response.

The new South Service Unit will be located on County-owned property on the south side of Rhodine Road approximately 200 feet east of US Highway 301 in south/central Hillsborough County. The project includes design/engineering, construction and furniture, fixtures and equipment (FF&E).

OPERATING COST IMPACT:

This project will replace existing facilities which are already being operated. Operating costs to be shared by the departments.

PROJECT COMPLETION DATE: Post Construction

PROJECT TITLE:

EMERGENCY GENERATORS AT VARIOUS LOCATIONS (MP) CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

PROJECT NUMBER: C77841000

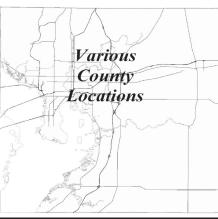

Neighborhood Community Area:

Countywide

PROGRAM: GOVERNMENT FACILITIES

PROJECT DESCRIPTION:

The project includes engineering and installation of emergency generators and associated infrastructure upgrades such as electrical/mechanical, HVAC, fencing, safety/security, protection, etc. at various emergency shelters (such as public schools) and other critical facilities to provide backup power capability. The project is an outcome of post Hurricane Irma analysis conducted by the County.

OPERATING COST IMPACT:

Preliminary maintenance cost estimated at \$68,000 annually. This cost will be refined during implementation.

PROJECT TITLE:

HISTORIC 1914 SCHOOL IN PLANT CITY CAPITAL IMPROVEMENTS

¹ Capital includes, but is not limited to, expenses related to capitalizable Development, Design, Land Acquisition, Equipment, Construction and Administration required to complete the project. ² Contributions includes, but is not limited to, funding through an agreement to other Government Agencies, Youth Organizations, Cultural Service Organizations and other Kon-Profit Organizations ³ Non-Capital Includes, but is not limited to, expenses related to Building Maintenance, Rom-Capitalizable Equipment and other Professional Services.

PROJECT TITLE:

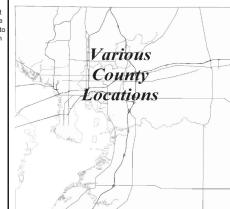

HISTORIC PRESERVATION MATCHING FUND PROGRAM (MP) CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

PROJECT DESCRIPTION:

This project was approved by the Board of County Commissioners as a "challenge fund" to support historic preservation at various locations throughout the county. There is a maximum amount of \$250,000 per grant and matching funds are required for any award. Program procedures have been established and adopted by the Board. A listing of funding awarded to organizations through September, 2023 is included in the appendix section of this document.

OPERATING COST IMPACT: There will be no operating cost impact to the County.

PROJECT TITLE:

PROJECT TITLE: BURGERT BROTHERS PHOTO ARCHIVE PRESERVATION CIE REQUIREMENTS: N LEVEL OF SERVICE IMPACT: N/A

PROJECT NUMBER: C76030000

Various

County

Locations

PROGRAM: LIBRARIES

Neighborhood Community Area:

Countywide

PROJECT DESCRIPTION: Preserve, digitize, and display the prints and negatives of the Burgert Brothers Photograph Collection of the Library. The Burgert Brothers collection is a photographic archive of nearly 15,000 images that chronicle the history of the Tampa Bay area from the 1800's through the 1960s. This one of a kind collection is extremely unusual and important, and was recently appraised at over \$5 million. Preservation efforts have been ongoing and the advent of digital technology has provided an opportunity to ensure the future safety of the collection and expand access to it without compromising the physical items. This project will ensure the preservation of this very valuable and significant resource and provide a display in John Germany Library of the restored collection.

OPERATING COST IMPACT:

No significant change in operating cost is anticipated.

PROJECT TITLE:

CROSS CREEK PARK CONSTRUCTION

PROJECT NUMBER: C80005000

¹ Capital includes, but is not limited to, expenses related to capitalizable Development, Design, Land Acquisition, Equipment, Construction and Administration required to complete the project. ² Contributions includes, but is not limited to, funding through an agreement to other Government Agencies, Youth Organizations, Cultural Service Organizations and other Non-Profit Organizations. Non-Capital includes, but is not limited to, expenses related to Building Maintenance, Grounds & Landscaping Maintenance, Non-Capitalizable Equipment and other Professional Services.

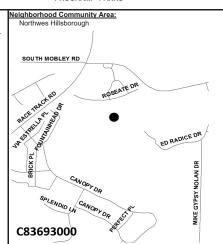

PROJECT TITLE: ED RADICE COMPLEX SOFTBALL FIELD RENOVATIONS CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

No significant change in annual operating costs is anticipated.

PROJECT NUMBER: C83693000

PROGRAM: PARKS

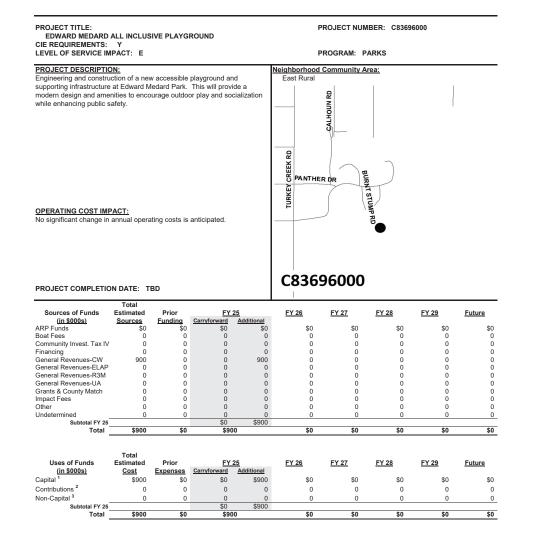

PROJECT DESCRIPTION: The project includes the provision of synthetic turf at two existing softball fields. The scope includes engineering and associated site improvements.

PROJECT COMPLETION DATE: TBD

OPERATING COST IMPACT:

PROJECT TITLE: JAN K PLATT (ELAPP) PROPERTY RESTORATION CAPITAL PROJECT (MP) CIE REQUIREMENTS: Y

LEVEL OF SERVICE IMPACT: F

OPERATING COST IMPACT:

PROGRAM: PARKS

PROJECT DESCRIPTION: This project represents available funds for the restoration of environmentally sensitive and significant lands throughout Hillsborough County that have been approved for preservation through the Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP).

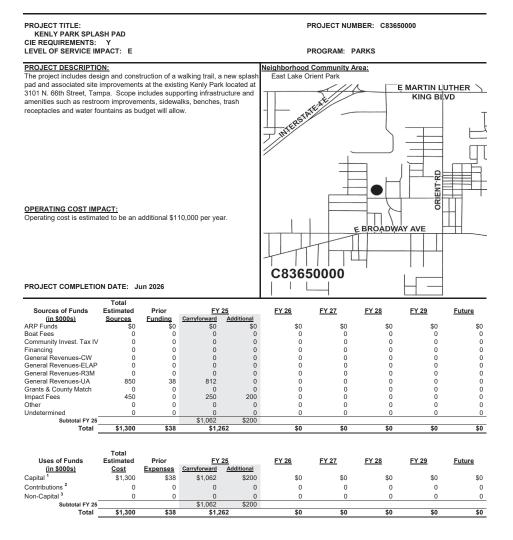

PROJECT NUMBER: C89200000

PROJECT COMPLETION DATE: Ongoing

Operating cost is to be determined based on land acquisition.

PROJECT TITLE: NEW TAMPA PERFORMING ARTS CENTER CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: F

PROJECT DESCRIPTION:

Design and construct a new 20,000 Sq Ft civic building (expandable to 30,000 sq ft in the future) to serve as a cultural/community center as part of the New Tampa Community. The County-owned property is located at the intersection of Bruce B. Downs Boulevard and Hunter's Green Drive and is being developed under a Public Private Partnership (P3) Development. The developer will provide a "pad ready" site with the requisite infrastructure for the Perfoming Arts Center.

OPERATING COST IMPACT:

Operating cost pending agreement with third party.

PROJECT TITLE: PARKS TREE RESTORATION PROJECT (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

PROJECT NUMBER: C83300000

Various

County

Locations

PROGRAM: PARKS

Neighborhood Community Area:

Countywide

PROJECT DESCRIPTION: The purpose of the Park Tree Restoration project is to provide an alternativ The purpose of the restoration of trees or other vegetation removed from a site. Funds received through the ERF fund shall be utilized for acquiring, planting, protecting, and maintaining trees and other vegetation for public purposes within Hillsborough County. Trees and other vegetation acquired shall be suitable to site conditions, freeze tolerant, and representative of the surrounding plant ecology. Funds received through the ERF fund will also be used to complete a mitigation plan in parks to reforest parks with native drought tolerant and diverse species that will benefit the public in the way of shade, aesthetics, heat island effect, and storm water mitigation.

No significant change in annual operating costs is anticipated.

PROJECT NUMBER: C83291000

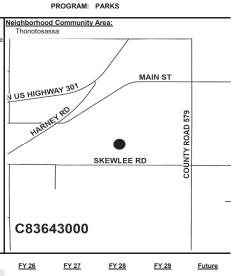

PROGRAM: PARKS

PROJECT NUMBER: C83643000

PROJECT DESCRIPTION:

The purpose of the project is to provide new/expanded sports and recreational amenities for the Thonotosassa Community. The project will be planned in conjunction with a new replacement library on a recently acquired 36-acre property located at 10217 Main Street, Thonotosassa, north of the existing park at 10132 Skewlee road. Additional land acquired for the Park together with redeveloping the existing sports complex at the adjacent elementary school. Various options for the improvements will be considered; a master plan will be developed for shared infrastructure and amenities with the library.

*** Formerly known as Solid Waste Warehouse & Offices

(MP) - Master Project - A listing of sub-projects under this master project will appear in the Appendix section of the CIP document.

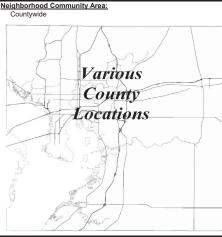

PROJECT TITLE: COUNTYWIDE SOLID WASTE MANAGEMENT FACILITIES R&R (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT NUMBER: C54065000

PROGRAM: SOLID WASTE ENTERPRISE

PROJECT DESCRIPTION:

Provide facility upgrades/rehabilitation and replace fixed assets at various Solid Waste facilities, including but not limited to Transfer Stations, Scale Houses, Scales, Surveillance Equipment, Citizen Convenience Centers, Unattended Scale Equipment, Knuckle Boom Cranes, Yard Waste Sites, Closed Landfills, Southeast County Landfill, Landfill Gas Monitoring Facilities, Leachate Collection and Treatment Facilities, etc. The various projects are intended to extend their service life and maintain the existing level of service or to improve the services provided to the community.

OPERATING COST IMPACT:

No significant change in operating cost is anticipated.

PROJECT TITLE:

RESOURCE RECOVERY FACILITY IMPROVEMENTS (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

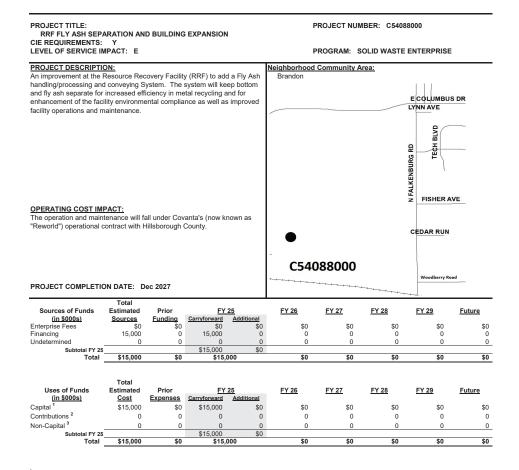

PROJECT NUMBER: C54075000

PROGRAM: SOLID WASTE ENTERPRISE

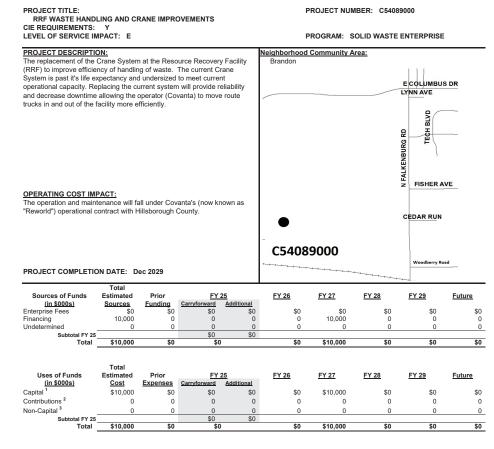

PROJECT DESCRIPTION: Neighborhood Community Area: The Resource Recovery Facility (RRF) has four (4) boilers that burn Brandon municipal solid waste to generate steam for two (2) turbines that generate 35-40 Megawatts (MW) of electricity for use by other County Departments E COLUMBUS DR and for retail sales that generate revenue for the Department. Three of the LYNN AVE Boilers, Units 1 through 3, were built in 1989 and Unit 4 was built in 2009. Anticipated capital costs include - Road Improvements, Auto Combustion Regulators on Boiler Units 1 through Unit 3 (increases combustion efficiency for increase processing of waste); Auto Dialer Notification (automatic notification to power customers for loss of service); Ash/Runoff 8 Diversion (increased environmental protection with separation of stormwate LKENBURG and ash); Boiler Steam and Tube Replacement and upgrade(replacement of tubes with different metal alloys for improved service life.); and facility system improvement to other waste handling and combustion systems; electrical generating capacity and transmission; environmental and safety .⊲ controls. FISHER AVE **OPERATING COST IMPACT:** No significant change in operating cost is anticipated. PROJECT TITLE: CANAL DREDGING AND PREVENTATIVE MEASURES (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

PROJECT NUMBER: C46143000

PROGRAM: STORMWATER

Neighborhood Community Area:

PROJECT DESCRIPTION: The Canal Dredging Grant Program was put in place to provide grant funding for coastal canal dredge projects that will improve and enhance navigation pursuant to the Board of County Commissioners' Policy #01.31.01.00. Applicants may apply to the County to receive up to \$50,000 in funding for qualifying coastal canal dredging projects. Matching funds must be provided by the applicant on a 2 (applicant) to 1 (County) basis, and County funding, if awarded, will be provided on a reimbursable basis.

OPERATING COST IMPACT:

There are no operating or maintenance costs associated with this project.

PROJECT COMPLETION DATE: Ongoing

PROJECT TITLE:

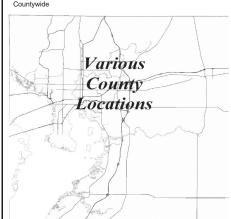

MAJOR NEIGHBORHOOD DRAINAGE IMPROVEMENTS (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

Design and construction activities associated with intermediate and regiona scale stormwater improvement projects to alleviate street flooding and structure flooding. The intermediate scale projects impact or serve multiple local systems and generally require construction in waters of the state. Regional scale projects impact multiple intermediate systems and typically provide watershed or regional-scale benefit. These projects provide flood protection for road systems, either under local or state control. Project implementation will provide improved public safety through reduction of peak roadway flooding and/or reduction of the flooding duration. These projects typically result from the watershed studies. In general, the intermediate and regional projects also provide significant water quality benefits by routing the stormwater runoff to ponding areas, roadside swales or ditches. Sometimes the design may include community recreation benefits.

OPERATING COST IMPACT:

The estimated ongoing maintenance costs for stormwater improvements runs \$2.50 per \$1,000 of project cost.

PROJECT NUMBER: C46188000 PROGRAM: STORMWATER

PROGRESS VILLAGE LOCAL DRAINAGE IMPROVEMENTS - ARP ACT 3 FUNDS CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

Hillsborough County stormwater staff has identified multiple local scale projects that may improve stormwater conveyance within the Progress Village neighborhood. The identified projects range from modification and replacement of existing infrastructure to construction of additional stormwater conveyance infrastructure (storm sewer). The following local drainage improvements are included in this project: 1) Remove, regrade, replace broken, compromised or depressed curb and

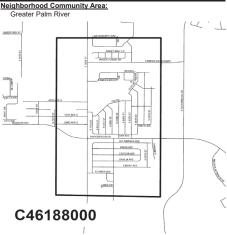

gutter. 2) Reduce nuisance flooding through construction of intersection gutters. 3) Modify speed humps to reduce impedance of stormwater runoff and

reduce ponding. 4) Construct additional stormwater inlets along 79th Street, at Endive Ave and Bahia Ave, to tie into existing stormwater system on 78th Street to

reduce flooding. 5) Construct a cross drain underlying Flower Ave to reduce flooding .

OPERATING COST IMPACT:

The estimated ongoing maintenance costs for stormwater improvements runs \$2.50 per \$1,000 of project cost.

PROJECT TITLE:

PROGRESS VILLAGE REGIONAL DRAINAGE IMPROVEMENTS - ARP ACT 3 FUNDS CIE REQUIREMENTS: Y

LEVEL OF SERVICE IMPACT: E

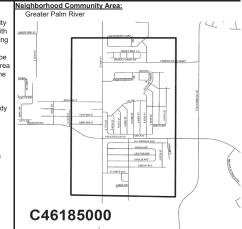

PROJECT DESCRIPTION:

Proposed stormwater storage and conveyance improvements within Progress Village Community will provide flood protection and water quality benefit. An existing 42" RCP crossing at Progress Blvd to be replaced with 60" RCP, the proposed 60" pipe will continue south adjacent to the existing concrete box culverts ultimately discharging into a proposed 2.7 acre stormwater pond south of Endive Ave. Additionally flood reduction shall be provided through the excavation of a proposed 9.7 acres flood storage area adjacent to North Archie Creek. All requisite lands are County owned. The project will provide flood protection and Water Quality benefit.

Significant water quality benefit will be achieved through detention of previously untreated stormwater runoff. The Preliminary Engineering study noted expected Total Nitrogen and Total Phosphorus reduction of 90.63lb/yr. and 39.72lb/yr. water quality for North Archie Creek.

OPERATING COST IMPACT:

The estimated ongoing maintenance costs for stormwater improvements runs \$2.50 per \$1,000 of project cost.

These projects provide local flood protection for road systems which will improve public safety through reduction of peak roadway flooding and/or reduction of the flooding duration. In addition, these projects will also provide water quality benefits by routing the stormwater runoff to ponding areas, roadside swales, or ditches.

These improvements and funding are for the following locations: Bonacker Drive Drainage Improvements, Falkenburg Six Mile Creek Road Drainage Improvements, South Mobley Road Drainage Improvements, Orient Park Ditch Erosion, Gallagher/ Sea Critter Drainage Improvements, South Village Ave at North Albany Ave Drainage Improvements.

OPERATING COST IMPACT:

The estimated ongoing maintenance costs for stormwater improvements runs \$2.50 per \$1,000 of project cost.

PROJECT TITLE: STORMWATER SYSTEM MAINTENANCE (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

PROJECT DESCRIPTION:

The project provides a work plan and schedule of implementation for Countywide roadside drainage system restorations/improvements to maximize the flow function and safety within current Right-Of-Way limits. The project will include assessment of roadside swale/ditch/channel according roadway category, existing condition (sediment/erosion/side slope), flooding condition, and possible impacts of safety; prioritization according cost estimate, and benefit (from assessment); and work plan with schedule of implementation according available resources.

OPERATING COST IMPACT:

No significant change in operating cost is anticipated.

PROJECT TITLE: WATERSHED DRAINAGE IMPROVEMENTS (MP)

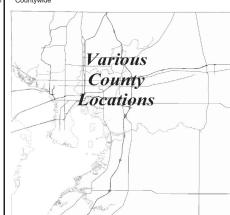

CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

Design and construction activities associated with intermediate and regiona scale stormwater improvement projects to alleviate street flooding and structure flooding. The intermediate scale projects impact or serve multiple local systems and generally require construction in waters of the state. Regional scale projects impact multiple intermediate systems and typically provide watershed or regional scale benefit. These projects provide flood protection for road systems, either under local or state control. Project implementation will provide improved public safety through reduction of peak roadway flooding and/or reduction of the flooding duration. These projects typically result from the watershed studies. In general, the intermediate and regional projects also provide significant water quality benefits by routing the stormwater runoff to ponding areas,roadside swales, or ditches. Sometimes the design may include community recreation benefits.

OPERATING COST IMPACT:

The estimated ongoing maintenance costs for stormwater improvements runs \$2.50 per \$1,000 of project cost.

4.30

PROJECT DESCRIPTION: This ongoing County-wide master project consists of updating the Hillsborough County Watershed Management Plan with more current or accurate LIDAR and other information to reflect land use changes throughout the County resulting from continuously changing residential & commercial developments and new County infrastructure. The update includes data collection, basin re-delineation, input revision, model calibration, model verification, level of service, determination of deficit of conveyance system, alternate analysis, and final recommendation. GIS database updates, 100-year flood plain and 100-year floodway delineations, DFIRM revisions, and future integration of 17 watersheds are also included.

No significant change in operating cost is anticipated.

** Added to the Capital Improvement Program as part of a Budget Amendment in Fiscal Year 2024

" Project includes undetermined funding in the Future column. Future funding to be determined based on project prioritization and available options at BOCC discretion.

(MP) - Master Project - A listing of sub-projects under this master project will appear in the Appendix section of the CIP document.

Note: Some projects have "Post Construction" in the Project Completion Date column. These projects have finished their primary construction phases and may have been placed in use;

nevertheless, these projects still have unspent balances that are earmarked for post-construction project costs.

PROJECT TITLE: 19TH AVENUE NE CORRIDOR IMPROVEMENTS (US 41 TO US 301) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT NUMBER: C69640000

PROGRAM: TRANSPORTATION

Neighborhood Community Area:

Apollo Beach, Ruskin, Sun City Center

PROJECT DESCRIPTION: This project includes Project Development and Environmental Study

(PD&E) for the Enhancement of 19th Avenue NE, a 2-lane undivided road, from US 41 to US 301 including enhanced pedestrian, bicycle and bus facilities. PD&E Only.

OPERATING COST IMPACT:

Impact on annual operating and maintenance costs is to be determined.

PROJECT COMPLETION DATE: Post Construction

PROJECT TITLE:

ADVANCED TRAFFIC MANAGEMENT SYSTEM IMPROVEMENT PROGRAM (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

Project funding for the design and implementation of expansions and enhancements to the County's Intelligent Transportation System (ITS) program, which is comprised of computerized traffic signal control, arterial monitoring and management, and related functions. This includes the Countywide integration of technology upgrades, including realtime communications to signalized intersections and detection to determine travel demands, to be able to provide improved traffic flow, improvements in safety, increased transportation efficiency, enhanced mobility, and reductions in fuel consumption and pollutant emissions. This system uses real-time traffic data from vehicle detectors, intersection controllers, and monitoring video cameras, all routed to one central control system at the County's Traffic Management Center (TMC).

Hillsborough County-Wide annual operating and maintenance costs are estimated to be \$450,000 per year once all project corridors are completed. This cost includes the daily diagnostic management utilizing the Traffic Management Center software packages to monitor the traffic signals, and operations support for communication repairs, traffic signal optimization with signal timing adjustments, and field maintenance and operations activities.

PROJECT TITLE:

PROJECT NUMBER: C69649000 LITHIA PINECREST RD CORRIDOR IMPROVEMENTS (FISHHAWK BLVD TO LUMSDEN AVE) CIE REQUIREMENTS: Y PROGRAM: TRANSPORTATION

LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION: Project Development and Environment (PD&E) Study to evaluate improvements to Lithia Pinecrest Rd. from Fishhawk Blvd. to Lumsden and on Bloomingdale Ave. from Culbreath Rd. to Pearson Rd. Safe mobility for

all roadway users, regardless of mode of travel, will be considered and incorporated into the study and the alternatives evaluated. Alternatives will be generated based on the results of a traffic analysis and feedback provided by the community.

OPERATING COST IMPACT:

Impact on annual operating and maintenance costs is to be determined.

PROJECT COMPLETION DATE: TBD

PROJECT TITLE: SAFE STREETS AND ROADS FOR ALL (MP)

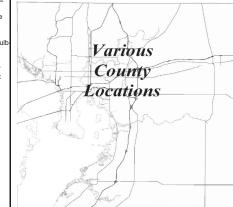

CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

This program includes projects funded by the U.S Department of Transportation Safe Streets and Roads for All ("SSA4") Grant. This project will improve safely for pedestrians, bicyclists, transit users, and drivers at approximately 22 locations throughout Hillsborough County, which has the highest traffic fatality rate per capita amongst large counties in the United States. This project will implement low-cost Proven Safety Countermeasures such as sidewalks, leading pedestrian intervals, curb bulb outs, crosswalk improvements, bicycle lanes, and speed management strategies at locations that are the highest priorities for Safe Routes to School, bus stop pedestrian safety and access, pedestrian corridor safety will also develop Vision Zero Action Plan updates with additional countermeasure toolbox items for safer streets, a lighting management plan, and stakeholder engagement and education.

OPERATING COST IMPACT:

Impact on annual operating and maintenance costs is to be determined.

PROJECT TITLE: UPPER TAMPA BAY TRAIL IV CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION:

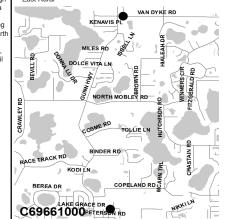

The Upper Tampa Bay Trail is located in residential northwest Hillsborough County. Currently, the trail runs along the west shore of Channel A from a trailhead off Memorial Highway/Montague Street, past Waters Avenue, Linebaugh, and then due north to Gunn Highway, Ehrlich Road and ending at Peterson Road Park. The trail continues north from Van Dyke Road north and then east to the trailhead on Lutz Lake Fern Road, connecting to the Suncoast Trail at the Veterans Expressway. This project includes design, land acquisition, and construction to complete the section of multi-use trail between Peterson Road Park and Van Dyke Road.

Impact on annual operating and maintenance costs is to be determined.

PROJECT TITLE:

VAN DYKE ROAD CORRIDOR IMPROVEMENT - GUNN HWY. TO EAST OF WHIRLEY RD. CIE REQUIREMENTS: Y

PROJECT NUMBER: C69646000 LEY RD. PROGRAM: TRANSPORTATION

LEVEL OF SERVICE IMPACT: E

PROJECT DESCRIPTION: This project will widen Van Dyke Rd, from Whirley Rd to Suncoast Pkwy (approximately 2 miles) from a 2-lane undivided road, to a 4-lane divided facility. Includes enhanced pedestrian, bicycle and bus facilities, and improvements to the associated stormwater drainage. Additional items include: Intersection improvements, enhanced pedestrian safety features such as sidewalks, enhanced crosswalks and signals. A shared-use trail connection from the Upper Tampa Bay Trail to the Northdale Lake Park Trail will also be provided.

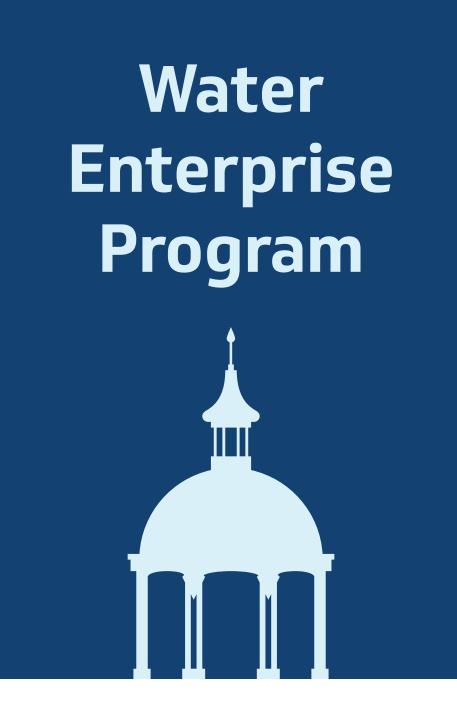

OPERATING COST IMPACT:

Impact on annual operating and maintenance costs is to be determined.

PROJECT COMPLETION DATE: TBD

PROJECT TITLE:

COUNTYWIDE POTABLE WATER TRANSMISSION AND DISTRIBUTION SYSTEM (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M PROGRAM: WATER ENTERPRISE

PROJECT DESCRIPTION:

Design and construction of Countywide water transmission and distribution lines that require replacement or system upgrade. This project includes water distribution projects that improve level of service - pressure, quality, quantity and fire protection. This project will allow for limited line extensions to loop systems or provide fire protection. The County's existing water distribution system has small areas where improvements are required to meet our water quality and pressure goals.

PROJECT TITLE: LPSS SCADA SYSTEM REPLACEMENT (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

PROJECT NUMBER: C10310000

PROGRAM: WATER ENTERPRISE

PROJECT DESCRIPTION:

Replacement of the existing SCADA system currently in use with the Low Pressure Sewer System. The existing system has become obsolete, and is no longer supported. A new replacement system is required to maintain proper communication with the LPSS units located throughout the service area.

OPERATING COST IMPACT:

No significant change in annual operating costs is anticipated.

PROJECT TITLE: RUSKIN AND WIMAUMA SEWER SYSTEM - ARP ACT 3 FUNDS CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: F

PROJECT DESCRIPTION:

Existing LPSS system performs below PUD expectations. PUD will investigate 1) if the LPSS can work with better performance at lower maintenance effort and cost; and, 2) what techniques will be used for wastewater collection. This project will allow PUD to better serve the residents and business at these two locations.

No significant change in annual operating costs is anticipated.

SOUTH HILLSBOROUGH AQUIFER RECHARGE PROGRAM (SHARP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

likely. This is a pilot project using one well and surrounding monitoring

No significant change in annual operating costs is anticipated.

PROJECT DESCRIPTION:

could work.

OPERATING COST IMPACT:

Neighborhood Community Area: In the future, surface water discharges will be limited and/or eliminated due Apollo Beach, Ruskin to TMDLs and/or Numeric Nutrient Criteria restrictions. Aquifer Recharge (AR) is another area where reclaimed water can be used to reduce discharges. Added benefit of AR can be, no new customer required, a

salinity barrier created to limit salt water intrusion, potential groundwater credits, and a wet weather sink for reclaimed water. An existing ASR well located near the Port Red Wing outfall has been proposed to be the test GHWAY well for this project. SWFWMD is onboard with this project and cofunding is wells. The results from this project are to outline the feasibility of additional AR wells and the discovery of regulatory or environmental affects that would not allow AR to move forward, or under what circumstances/ costa that AR 22 S INTERSTATE 7 C10259000

PROJECT NUMBER: C10317000

PROGRAM: WATER ENTERPRISE

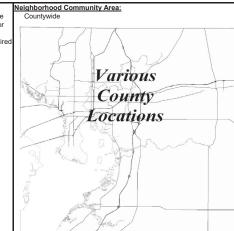

¹ Capital includes, but is not limited to, expenses related to capitalizable Development, Design, Land Acquisition, Equipment, Construction and Administration required to complete the project. ² Contributions includes, but is not limited to, funding through an agreement to other Government Agencies, Youth Organizations, Cultural Service Organizations and other Non-Profit Organizations. ³ Non-Capital Includes, but is not limited to, expenses related to Building Maintenance, Grounds & Landscapital Maintenance, Non-Capitalizable Equipment and other Professional Services. PROJECT TITLE: UTILITY RELOCATION (MP) CIE REQUIREMENTS: Y LEVEL OF SERVICE IMPACT: M

PROJECT DESCRIPTION:

OPERATING COST IMPACT:

Public Utilities owns and operates miles of piping located in County. State and privately owned property. We are required to relocate our facilities for the convenience of the property owner by local, state and federal laws under certain circumstances. This CIP is the funding source for this required effort. Typical projects include relocating pipelines that are impacted by County and FDOT roadway and drainage improvements.

PROJECT NUMBER: C31945000

PROGRAM: WATER ENTERPRISE

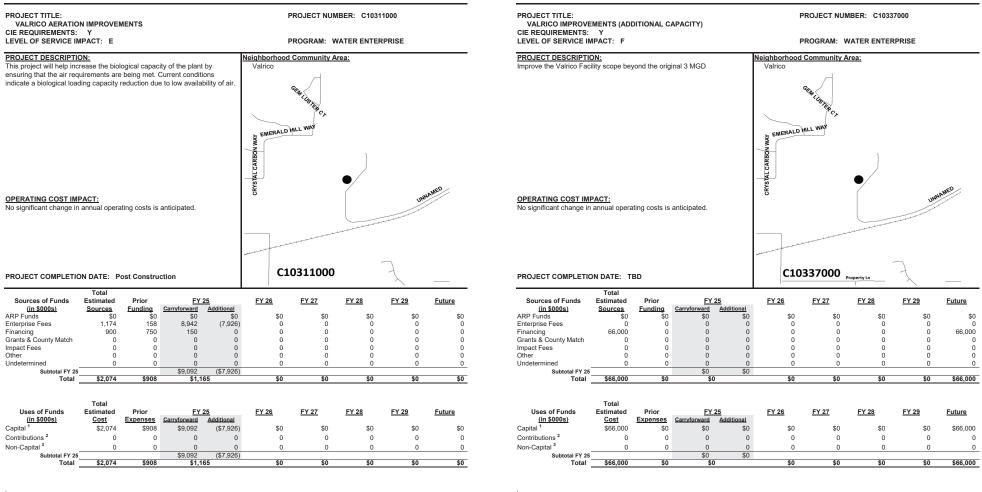

PROJECT COMPLETION DATE: Ongoing

No significant change in annual operating costs is anticipated.

Note: To ensure that funding is available to maintain existing facilities, the Board of County Commissioners sets aside a minimum of 1% of anticipated annual revenues in the Countywide General Fund, the Unincorporated Area General Fund and the Library District Fund. The FY 25, 1% - 2% allocations will generate approximately \$15.0 million for Countywide General Fund, \$8.2 million for the Unincorporated Area General Fund and \$842,735 for the Library District Fund.

PUBLIC ART PROGRAM ANNUAL PUBLIC ART PLAN - FY 25 RECOMMENDED PROJECT LIST AS APPROVED BY THE PUBLIC ART COMMITTEE ON APRIL 12, 2024

TRANSPORTATION PROGRAM SUPPLEMENT DEVELOPMENTS OF REGIONAL IMPACT (DRI) CAPITAL PROJECTS MANAGED BY PRIVATE SECTOR

DRI # Active	Development Name	Project Name	Project Description	Estimated Completion Date (*)
266	Waterset (fka Wolf Creek Branch)	24th St	Extend 2-lane road from 19th Ave to Big Bend Road	Mar-27
		30th St	Extend 2-lane road from 19th Ave to Waterset Blvd	Sep-24
		Avenue A (Covington Garden)	Extend 2-lane road from Waterset Blvd to W project boundary	Completed

(*) The projects related to Developments of Regional Impact (DRI's) are subject to the timing of development within a project. Therefore, dates are estimates only.

ADA – Americans with Disabilities Act. There are projects in this document which specifically address ADA compliance. These projects enable handicapped access to County facilities.

AD VALOREM TAX - A tax levied in proportion (usually millage rates) to the assessed value of the property on which it is levied.

APPROPRIATION - The legal authorization of funds granted by a legislative body, such as Hillsborough County's Board of County Commissioners, to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and time duration. It is the act of appropriation that funds a budget.

BEGINNING FUND BALANCE - The Ending Fund Balance of the previous period. (See Ending Fund Balance definition.)

BOCC - Hillsborough County Board of County Commissioners

BOND - Written evidence of the issuer's obligation to repay a specified principal amount on a certain date (maturity date), together with interest at a stated rate, or according to a formula for determining that rate.

BUDGET FY 25 - Funds authorized by the BOCC for fiscal year 2025.

CAPITAL BUDGET - The financial plan of capital project expenditures for the fiscal year beginning October 1. It incorporates anticipated revenues and appropriations included in the first year of the five or six-year Capital Improvement Program (CIP). The Capital Budget is adopted by the BOCC as a part of the annual County Budget.

CAPITAL IMPROVEMENT PROGRAM (CIP) - The financial plan of approved capital projects, their timing, and cost over a six-year period in the first year of a biennial budget, and over a five-year period in the second year of a biennial budget. The CIP is designed to meet County infrastructure needs in a responsive and efficient manner. It includes projects which are, or will become the property of Hillsborough County, as well as projects that although are not owned by the County, will be part of a joint project agreement.

CAPITAL IMPROVEMENTS SECTION (CIS) - An element of the Comprehensive Plan which identifies the revenues, costs, and location of the six public facility types required by concurrency: Parks, Solid Waste, Stormwater, Transportation, Water, and Wastewater based on service level standards and the land use plan adopted by the BOCC.

CAPITAL PROJECT - Funds budgeted/expended for the acquisition, construction, reconstruction, initial fixtures and equipment, renovation, rehabilitation, and replacement of a facility or a major component of a facility, with a life expectancy of at least five years, and any land, design, feasibility studies, engineering studies, and engineering costs related thereto. To be included in the CIP, a project must have a definite scope of work, timeframe, and cost estimate.

COMMUNITY INVESTMENT TAX (CIT) - A discretionary half cent sales surtax approved by the voters to finance general government, public safety, educational and other facilities in Hillsborough County and the cities of Tampa, Plant City and Temple Terrace.

DEBT SERVICE – Dollars required to re-pay funds borrowed by means of issuance of bonds or through a bank loan. The components of debt service typically include an amount to repay a portion of the principal amount borrowed as well as interest on the remaining outstanding (unpaid) principal balance.

DEFEASANCE - is a financing tool by which outstanding bonds may be retired without a bond redemption or implementing an open market buy-back. Cash is used to purchase government securities. The principal of and interest earned on the securities are sufficient to meet all payments of principal and interest on the outstanding bonds as

they become due. If the defeasance is consistent with generally accepted accounting principles and complies with the outstanding bond document requirements, the bonds will no longer treated as debt for accounting purposes nor for purposes of computing any statutory or constitutional debt limitation.

DEVELOPMENT OF REGIONAL IMPACT (DRI) - A property development of large size which, based on state mandated thresholds, is likely to impact more than one county.

ELAPP – Environmental Lands Acquisition and Protection Program.

ENCUMBRANCE - Legal commitment of budgeted funds set aside for the payments of outstanding contractual obligations.

ENDING FUND BALANCE - Funds carried over at the end of the fiscal year. Within a fund, the revenue on hand at the beginning of the fiscal year plus revenues received during the year less expenses equals ending fund balance.

ENTERPRISE FEES – Enterprise fees are charges for services imposed on users of facilities of the two programs funded through enterprise funds - Solid Waste and Water/Wastewater/Reclaimed Water. Use of these revenues is restricted to operating, maintaining or building new infrastructure for the respective service for which the fee is being collected.

ENTERPRISE FUND - A fund used to account for operations that are financed and operated in a manner similar to private business enterprises wherein the stated intent is that the costs (including depreciation) of providing goods and services be financed from revenues recovered primarily through user fees.

FISCAL YEAR 2025 (FY 25) - The 12-month fiscal period beginning October 1, 2024 and ending September 30, 2025. It can also be referred to or shown as FY 25.

FUND - An accounting entity used to record cash and other financial resources as well as an offsetting amount of liabilities and other uses. The resources and uses are segregated from other resources and uses for the purpose of carrying on specific activities or attaining specific objectives in accordance with special regulations, restrictions, or limitations.

FUTURE - Capital funding requirement identified for a project beyond the CIP FY 25 – FY 29 planning horizon.

GENERAL REVENUES - This revenue category includes funding from ad valorem taxes, communication services tax, state revenue sharing and half-cent local government sales tax.

IMPACT FEES - A type of charge for services which is assessed on new construction in order to support specific new demands on a given type of infrastructure, e.g., transportation, schools, parks, and fire protection.

INFRASTRUCTURE - Infrastructure is a permanent installation such as a building, road, or water transmission system that provides public services.

LEVEL OF SERVICE - An indicator of the extent or degree of service provided by or proposed to be provided by a facility included in the Capital Improvements Section (CIS) of the Comprehensive Plan based on and related to the operational characteristics of the facility. The six public facility types in the Capital Improvements Section of the Comprehensive Plan are: Parks, Solid Waste, Stormwater, Transportation, Water, and Wastewater. The Level of service shall indicate the capacity per unit of demand for each public facility.

LEVEL OF SERVICE IMPACT - Impact on adopted levels of service of the six types of facilities in the Capital Improvements Section (CIS) are coded as follows: (M) the repair, remodeling, renovation or replacement of an existing County facility that will maintain levels of

service in the Comprehensive Plan; (E) construction of a new facility or expansion of an existing facility that will reduce deficiencies in the levels of service in the Comprehensive Plan; (F) construction of a new facility or expansion of an existing facility is needed to meet levels of service from new development; (N/A) indicates the project or facility type is not covered by the CIS.

MASTER ACCOUNT - A Master Account is an account that is funded to repair and or replace equipment at various locations within the Water, Wastewater and Reclaimed Water Programs. The anticipated dollars associated with the repair and replacement of equipment at various facilities are grouped according to types and placed in a master account to allow for a more efficient method of handling repair and replacement needs as they arise. Needs are identified at the beginning of the year and are then prioritized throughout the year to ensure that the system is in good working condition.

MILL - A mill is .001 of one dollar, or 1/10th of one cent per dollar.

MILLAGE RATE - A rate per one thousand dollars of taxable property value which, when multiplied by the taxable value, yields the property tax billing for a given parcel.

MISCELLANEOUS (FUNDING SOURCE) - Revenues other than those received from standard sources such as taxes, licenses and permits, grants, and user fees.

MOBILITY FEES – Mobility Fees are a one-time charge on new development to pay for offsite transportation improvements that are necessitated by new development. On April 26, 2016, the Board of County Commissioners adopted the Mobility Fee Ordinance that would replace the current transportation impact fees and transportation concurrency. The Mobility Fee Program became effective January 1, 2017.

MUNICIPAL SERVICES TAXING UNIT (MSTU) - The taxing district which is comprised of all of the unincorporated area of the County. It provides services typically provided by a municipality (e.g., Sheriff's patrol, paramedic services, fire protection, parks and recreation, code enforcement, and road network maintenance) to the residents and businesses in the unincorporated area. The services are financed primarily by an ad valorem tax levied on all taxable property located in the unincorporated area.

NEW PROJECT - A capital project that has not been previously approved by the Board of County Commissioners.

OPERATING COST IMPACT – Unless otherwise stated the operating cost impact reflected on the project's detail page represents the estimated additional annual recurring cost of maintaining the new facility / infrastructure, including any additional personnel required to operate the new facility.

PD&E - The Preliminary Design and Engineering (PD&E) phase of a project consists of studies that provide a project scope and schedule together with its estimated costs, benefits and alternative analysis. The study includes safety considerations, cost benefit analysis and environmental studies consistent with the County's Strategic Plan and Capital Improvements Section. This project phase includes required public meetings to determine the impact to the community.

PRIOR FUNDING / PRIOR EXPENSES – Column heading used throughout the CIP document. This column contains an estimate of total sources or total expenditures from project inception through September 30, 2024.

PROJECT COMPLETION DATE - This is the date the project will be available to the user for its intended purpose but there may be some outstanding financial issues pending such as outstanding invoices, contractual or legal disputes.

PROJECT DESCRIPTION - Brief explanation of each project's purpose and work scope.

RESERVES AND REFUNDS - Included in this category are funds required to meet both anticipated and unanticipated needs: the balance of anticipated earmarked revenues not required for operation in the budget year; estimated reimbursements to organizations, state, or federal governments for revenues received and not spent, and those required to be set aside by bond covenants.

SWFWMD - Southwest Florida Water Management District

TRANSFERS - Due to legal or other restrictions, monies collected in one fund may need to be expended in other funds. A transfer is accomplished through Transfers-In (a source of funds) for the recipient fund and an equal Transfer-Out (a use of funds) for the donor fund. When a transfer occurs between different funds, it is known as an Interfund Transfer. When it occurs between the restricted and unrestricted portions of the same fund, it is known as an Intrafund Transfer.

USER FEES - Charges for a specific governmental service that cover the cost of providing that service to the user, such as building permits, animal license fees and park fees.
