# Transcript

January 31, 2025, 6:03PM

**Jessup, Dean** started transcription

JD **Jessup, Dean** 0:03

The opioid RFA for 2025.
My name is Dean Jessup.
I'm the business manager for Healthcare services department and.
I've been involved with the opioid project since the beginning.
Basically, when you as community members came together as far as putting together an opioid summit that really outlined what the community wanted to see, so.
Even prior to us getting the settlement dollars, Hillsborough County was already working towards looking at the opioid crisis.
So you know, I I wanna congratulate everybody on that.
I know the medical examiner's office has has told us that the overdose is related to opioids is down. So the work that we have been doing.
Has been making a difference and now.
Additional dollars. I I I believe that we're going to be able to make a substantial.
Debt into this crisis.
As Michelle indicated, the meeting is being recorded and I kind of wanted to go over the protocol for this meeting.
We will step through our agenda, which we can bring up.
And I would ask you that if you have any questions.
As it relates to something substantive or it requires interpretation, that you either put it in the chat or that you e-mail it separately, because what we like to do is gather all that information and be able to do an addendum that will be on the website. So.
That's kind of what I wanted to outline.
As far as protocol on the questions is concerned, so let me go ahead and.
Shell do you have the agenda?
You pull that up, please.

JM **Jaromin, Michelle** 2:28

Good thing.
Should be able to see it.

**Jessup, Dean** 2:41
As you all know, we released the RFA on January 22nd and.
Announced that we would have this pre submittal conference today.
The next.
Date that you should be aware of is February 11th and that will be your deadline for submitting any requests for interpretation and those should be emailed to the addresses you see there.
That's my address.
And then a generic opioid settlement.
Address that Michelle, Jeremy and myself have access to Michelle will be shadowing me and helping me throughout this process. So.
So as she can take over at some point in time.
Our next date will be February 16th.
That will be the date that we will post any addendum.
Related to the questions that we receive in February 26th will be the application deadline and it has to be submitted prior to 5:00 PM Eastern Standard Time and that will be through the.
E2 Hillsborough system which?
Don Winship is on the the line right now from RDE, who will discuss that platform.
As well as any requirements for you to be able to enter your information.
Excuse me, March 7th, we will notify.
Applicants as to their qualification or disqualification.
And then March 28th, we plan to have a finalization of the scoring and ranking of the qualified applicants and we'll post those recommendations on our website.
Then April 7th is the final deadline and that will be for any grievances or appeals, and those should also come to me or to the opioid settlement at hcfl.gov.
E-mail are there any questions as to the schedule?
I'm not seeing anyone raising their hands so.
The next part I'd like to go over is the dollar allocations for the RFA.
We have, through the opioid summit and behavioral Health Task force, we had come up with percentages that we wanted to be able to spend in the four different domains that the behavioral Health task force approved.

And those were changed slightly after a meeting with the the board of County Commissioners.
We changed those to from 10% for education and prevention to 15%, which works out to $3,750,000.
Total and those are going to be under two year contracts.
Same with prevention from 10 to 15%.
And that's 3,750,000.
Dollars treatment will be at 45% of the total, which is works out to 11,250,000.
And then recovery is 6,250,000 and that's 25% the total amount that we'll be giving out.
Under this, RFA will be 25,000,000.
Dollars. Are there any questions related to the dollar allocations?

SW **Steven Welch** 6:58
Yeah, that that 25 mill is for two years.

JD **Jessup, Dean** 7:02
Yes, that's for a two year contracting period.
There any other questions?

JM **Jaromin, Michelle** 7:16
I mean, there's a question in chat.

JD **Jessup, Dean** 7:18
OK.

AA **Arnold, Aubrey** 7:22
Dean, this is Aubrey.
I was just gonna say, did you want everyone? All the participants on this call for their for record purposes to put their name and whom they represent in the chat.

JD **Jessup, Dean** 7:34
I think that would be a good idea.
I know we do have.
A.

A list of all the people who had requested.
A link to this meeting, but yeah, this this meeting chat will be available to us, as will the recording, and I believe we'll be able to put that on our website.
So if you could do as Aubrey.
Was suggesting your name and what organization you're with. That would be helpful.
Thanks, Aubrey.
Donald, are you there?

**Donald Winship** 8:19
Yes, I am.

**Jessup, Dean** 8:21
I'm going to turn it over to Donald Winship now, who will discuss the platform that we will be using.
This is the the same platform that the Ryan White program uses.
In their solicitations for RF as so, I will turn it over to Donald.

**Donald Winship** 8:45
Alright. Thank you, Dean. Thank you everyone.
So I'm going to discuss the issue, Hillsborough Portal for RFA submission.
As being mentioned, this is the same platform that was recently used for the Part Arfa, and the features are essentially the same.
That being said, I'm going to assume that everyone is new to the platform.
And you know, give you some guidance on how it's used?
So the first thing that I want to emphasize.
Is.
I'm anticipating that.
Ultimately, each agency will designate one person to complete the submission on their behalf, and you can coordinate with the county team to, you know, indicate who that person is going to be ultimately.
The bare minimum necessary for that person to do is going to be to log into the portal, upload all the documentation that's associated with the submission.
Click the submit button prior to 5:00 PM on the deadline and that's it.
So the vast majority of the work that you do for your applications is going to be

offline.
It's going to be preparing the documents, answering the questions that are posed in the actual RFA.
But once you get to the point where you have everything ready to go, this is the platform that you'll go to actually submit it.
So after you've designated someone as the submitter for your team.
The county team will be setting up accounts in the EU Hillsborough Portal for that individual.
And the application will send 2 emails to that person. The first will list the URL that accesses it.
Now I'm accessing this on a on a development environment, but the production you are.
Will be echo hillsborough.org, but that'll be listed in the e-mail.
Additionally, it will list the username that you've been assigned.
The second e-mail will have a temporary password.
If at any time you forget what your password is, you can also go to the I forgot my password screen and enter in the username and the e-mail address that are associated with your account and.
Bit button and you'll get e-mail. The new temporary password.
So I'm going to log into an account that I have set up on this environment with a temporary password.
So give me one second.
And the first thing you'll be prompted to do is set a new permanent password.
And once you've done that, that is your permanent password.
So the next time you log in, that's what you will be using to access the system.
So for the purposes of this.
Rfa.
There are 4 domains, 1 pot of money, one funding allocation for each.
The system does include some filtering abilities to, you know, reduce the number of.
Individual RFA notices that are shown, but for the purposes of this there's four.
So in practice, you can just go to this browse screen and see each of them listed.
You'll see the funding amount. You can see the deadline.
This is not the real one.
This is just what I've said on a testing environment.
And then the key thing is that there there's a button on the right to either go to the

application screen to start a new application or continue a draft application if you have one or it started.
That'll make it.
Fairly easy if you're coming back to the portal after an extended period of time, you double check what you've done so far for each application.
So if you're starting a completely new one.
The apply button.
Then you click the new entry button to start an application.
Now, if you have already started a draft application in one domain, some information that's relevant only that's related only to your organization will get prefilled.
So documents like.
Say.
The agency background fiscal management scope of services.
Actually I'm not sure about scope of services.
Agency background is a good example.
Those will get duplicated over automatically from.
An application that you already have in draft to the next one that you start, and that's something that you can make it a little easier to complete the process.
You have the ability to override that, so for some reason you decide that the agency background document, for example that you uploaded for one domain is not what you wanna use in the application for another domain.
You can always change it.
OK, so at the top of the application, you'll be asked for your organization name.
The amount of funding that you're requesting and the.
Priority strategies that you intend to employ and these will be different for each domain.
This is this text is taken straight from the RFI.
Once you've selected that, the rest of this is a set of document uploads.
So there's an upload for the cover sheet.
An upload for the signature page, etcetera.
You click the upload button and although you know you can see it OK, sometimes this doesn't. This window doesn't share. So just for reference, you can pick a.
Document off of your computer.
And that particular document is uploaded. You can see what the file name of that document was.

So if you've given the documents meaningful names, you can always tell OK, what did I upload here?

**Reena Lohano** 15:52
Why?

**Donald Winship** 15:57
And if you need to change it, you can click the re upload and the prompt will appear again.
At the bottom of this form below all the uploads there are submission buttons. The 1st is called Save Draft. Save draft will save your progress so far, but it does not submit the application.
So you can come back to a draft application at anytime up until the deadline and make changes.
And you're completely done with it.

**Reena Lohano** 16:35
Please.

**Donald Winship** 16:35
You're confident that this is the version that you wanna submit for review.
You click submit, final version and stack.
Now, once you've saved the draft you if you come back to the application screen, you click continue draft application, you'll see it listed and you can click the add it to go back into it and make further changes.
The other thing to be aware of is all of the fields that are that have red stars to the left of them, which is basically all of them in the application are mandatory and if for some reason you attempt to submit the application you know click the final.
Submit final version button without having completed all of them. The system will let you know.
Missing some information and it will highlight all of the information that's missing.
So that you can take corrective action.
That is basically everything that you need to be aware of.
The only other thing I'll mention is.
Once you you're done with one application or you're done making changes it the

changes that you wanna make to that draft application, you can click the main button to leave and that'll take you back to the browse page and.
That's where you can see all the other dumb all the domains listed.
Additionally, if you wanna log out of the system, there's this button next to your name in the top right and you click the sign out button to sign out of the portal.
As Dean mentioned, there is a hard time deadline.
So it is 5:00 PM on the date of final submission that was noted in the timeline.
Once that passes, the system will not allow you to submit an application.
Oh, you must complete the application.
Then click the submit final version on all of the domains that you wanna apply for prior to 5:00 PM on the deadline.
If you try to do it after 5:00 PM, the system will not allow you to do so.

JD **Jessup, Dean** 19:33
Thank you, Don.
Are there any questions for Donald?

LD **Lynn, Dorinda** 19:43
This is Dorinda.
I actually had two and I was making a note and one of them flew out the window.
My apologies if it comes back to me, I'll ask, but one of them was I just wanted to confirm.
Oh, it just came back to me.
The first one is you said if you started on an application in for example like, I'm making something up, your board of directors of your articles of incorporation. If you upload those they pre populate into the other fields. If you're going to apply for those.
Is do you have to submit one complete application before those pre populate or do they automatically pre populate as you go?

DW **Donald Winship** 20:22
Populate as you go.
So after you've clicked the save draft on one application, the next time you start a new application for one of the other domains, it'll be picked up.

**Lynn, Dorinda** 20:36
OK. And I did forget it again.
And I even wrote down a word so it will come back, I promise.

**Donald Winship** 20:42
It's OK.

**Jessup, Dean** 20:46
There's a a question.

**Donald Winship** 20:46
One thing.

**Lynn, Dorinda** 20:47
I thought of what it is.
My apologies when they do finally submit an application, do they get a confirmatory e-mail that it was submitted and the application specific if they're applying for more than one?

**Donald Winship** 20:49
OK.

**Lynn, Dorinda** 21:01
So if they apply for just, say three out of these four buckets, will they get four different emails that they submitted successfully, 3 different applications?

**Donald Winship** 21:11
Yes, so after the submit final version button is clicked you will get a confirmation e-mail. I forgot to mention that so thank you gerinda for bringing that up.

**Lynn, Dorinda** 21:21
You're welcome.
Sorry, just took me a few minutes to think of it.

**Jessup, Dean** 21:27

So there's a there's a couple questions in the chat. The first one is, are there templates for some of the documents required that we can download or should we pull them from the RFA?

That would be the you would be able to pull that from the RFA that is on the website.

The second question is review the steps to get an E2 Hillsborough account please.

That will be making a a request to me.

Or through the opioid settlement.

Hcfl.

Dot Gov e-mail address.

And I will actually be the administrator that will put your names into the system where you will get the emails from RDE.

So does that does that answer?

The questions from Rosie and Bobby.

OK.

Great. I know that there are a few people who have already requested.

Access to the portal and.

I have replied back to them.

We will not set those up until after this meeting.

There's another question about.

The templates for the budget sheets.

Don't think the RFA has the downloaded downloadable fillable templates? I think they're just, if I'm not mistaken, it's in PDF format so.

You have to recreate unless we're able to get those to you.

Let me ask Onelia.

**Pineda, Onelia** 23:41

Sorry.

**Jessup, Dean** 23:43

Are those the templates for the budget sheets? Are those available?

**Pineda, Onelia** 23:48

Yeah, we have them.
And if you wanna upload them to the website we can do that as well.

**Reena Lohano** 23:54
Oh.

**Pineda, Onelia** 23:54
'Cause, I think that's what Jeremiah and Aubrey usually do.
Any attachment can be found there for them to download.

**Jessup, Dean** 24:02
OK. And I would be remiss in not introducing the staff that are on this phone call.
Onalia Pineda is our fiscal manager.
She will be the the individual that you talked to about the fiscal areas, as I said, Michelle. Jeremy is on and she is going to be working through this with me.

**Reena Lohano** 24:31
I don't know.

**Jessup, Dean** 24:32
So that she will take over at some point in time. We have Aubrey Arnold, who is the program manager for Ryan White, and he is here for moral support, as is Dorinda Lynn, because they've been through this process.
So I'm very appreciative that they're they're on the call.
We also have Jim Roth and Shannon Rhodes, who are part of the contracts team for healthcare services.
And we have Emily Zettle, who is our project manager.
For the department overseeing our data analysis and data team, I believe that's all the staff. If I've missed somebody, please speak up.
Yeah, I guess that's it.
So I I just without without these individuals help.
We would not be where we're at now, so I really appreciate that.
And Don, thank you so much for making time to go over this as well.

**Donald Winship** 25:49

Definitely. And I also wanna thank Reena Lohano who's on here assisting me on this call.
So.

**Steven Welch** 25:56
There's another another question in the chat about OK.

**Reena Lohano** 25:59
Cancel.

**Jessup, Dean** 26:09
OK, the website where you can pull the official RFA and application guidance.
Let me.
I'm gonna put that in the chat right now.
And that should have been in the notice that you received as well.
Or if you saw the legal notice.
So that's the website there.
So if there is no other questions on the the platform.
We can move on.
It's another question.
How should partnering agencies be indicated in the applications if they are not sub recipients?
Just in yes, in the in the scope of services.
You should also include letters of commitment or support.
In that documentation as well.
So no further questions on that. I wanted to go over quickly the the disqualification items and there's really 4.
That.
Are hard and fast, and the first is failure to timely respond, as, as Don noted, 5:00 on the 26th of February. If you have not clicked that submit button.
You're you will not be allowed to to move forward in this process.
Of course, this is for.
To serve the residents of Hillsborough County, so if you fail to propose serving residents of Hillsborough County only, that will also be a disqualification. Failure to apply for one of the eligible funded strategies listed in the RFA.

The RFA has all the categories.
That were approved in our Memorandum of Understanding with the state of Florida as it relates to this settlement.
And so there's probably well over 100 different strategies under the four different domains that are listed.
So and then the final is failure to follow the submission requirements in general terms and you can find that in section C of the RFA.
The last area that I'd like to go over is the evaluations. The evaluation teams that are being set up are. There will be four different teams, one for each domain. So education, prevention, treatment and recovery. It will have a total of 5 members.
On each one of the evaluation teams and two will be from outside agencies.
These three will be from the county.
And then as it says on the agenda, the evaluation criteria is listed in the RFA.
And so the one thing that I did want to point out is there are there is the ability to receive four additional bonus points.
So.
Two of those points will be if you if your program.
Is involving court involved clients?
And then I just Dorinda, you got me.
I just forgot what the other one was.
Let me.

RJ **Roth, James** 31:07
To include the priority strategies, Dean.

JD **Jessup, Dean** 31:10
Yes, priority strategies, I'm sorry.
So there's there's different areas. The priority strategies are those strategies that were voted on at the opioid summit and brought forward to the behavioral Health Task Force.
They're the ones that approved the specific ones.
So if you're providing services.
Related to the.
Priority and those are the ones listed first in the RFA.
You'll get 2 bonus points for those if you have a program that has court involved,

clients. You will also get a two point bonus for that that so with that.
There is a question.
Are we disqualified if we serve residents from Hillsborough County?
In addition to residents of other counties, the disqualification is this program is specifically for Hillsborough County.
These dollars have been set aside for Hillsborough County.
You can certainly serve.
Other residents in other counties, but you cannot utilize the funding from this particular RFA to serve those outside of the county.
So we're looking at Hillsborough County residents only.
Does that answer your question, Amanda?

AS **Amanda Sharp** 33:00
Yes, thank you.

JD **Jessup, Dean** 33:02
OK.
So are there any other questions?
I hope this has been helpful.
And like I said, we will.
I need to talk with our IIO people and see if we can get this recording on the our web page as well as any other information that you guys might need on the web page so.
There is another question for requirements that may be impacted by recent executive orders.
Do you anticipate any revisions or changes to the requirements of this RFA at this point?
I don't believe so, Vance, but.
More more to come on that.
That's something that I think we'll have to to confirm through our County Attorney's office.
That answer your question, Vance?

VC **Vance Coley** 34:22
It does.
Thank you very much.

**Jessup, Dean** 34:24

Great.
And there's a question from Courtney.
Can you confirm if attachments 8:00 and 9:00 summary of funding service unit cost analysis are specific to applicable health and support services?
Not on the entire system entity applying.
Yes, that it should be.
Only towards.
The services that you are proposing to provide.
Amanda ask, can you speak to other new emerging service providers are encouraged.
Oh yes, that that's a definite.
I know that we have.
Providers in the area that have been historically the the providers that have been serving this population, but we are looking to have innovative programs.
And if that is, you know, a new program here in the area that's providing different services as long as they fall within the parameters that we have in the RFA, on the strategies and domains.
You're it's. It's open for anyone.
So.
Hope that answers your question, Amanda.
Vance.
I think the consolidated I'll have to check on this one, so.
And and all these ones that we're answering in here, I will put together.
And have that as part of an addendum so.
Excuse me.
I will have to find out on the audited financial statements for you, Vance.

**Vance Coley** 36:49

Awesome. Thank you so much.

**Jessup, Dean** 36:52

And then there are.
Questions sent ahead of time.

I don't have those available right now, but.
Let me see if I can find them quickly.

**Jaromin, Michelle** 37:13
I mean, I think I can forward that e-mail to you if it's helpful.

**Jessup, Dean** 37:16
I think I actually have.
It pretty readily available.
I just need to.
Here we go.
So.
Heather.
They're worth 5 questions that Heather. No, I guess it wasn't 5.
It was four questions that Heather had sent.
I don't know.
It might be best if that's part of the addendum, Heather.
Or I could actually.
Unless you want to put those on the chat.
Yeah, it probably easier for me to put EM in there.
OK.
So this was the first question from Heather.
It says could we submit an overall application to one bucket treatment?
But we then other themes in a whole person, social determinants of health model.
For example, if we apply under treatment domain but include elements of the other domains, would it be acceptable to identify the funding that would be considered in each of those domains in total?
The answer to that is yes. I think it would be acceptable.
However, we are looking.
Each.
For each domain, if you are submitting to be able to provide services in each domain, you will have to do a separate application for each domain.
And you can in your narrative, you know, explain how you are.
Basically, weaving those whole person social determinants model into into each one of those. But for reporting purposes for us and for.

Being able to track the different domains and the services provided in those, we have to have separate applications.
For those those items, because as you know.
We are obligated to track the dollars that we spend and be able to report that to the state of Florida through their portal system.
So I hope that.
Answers that question.
Then the second question.
I will place in there as well.
Second question is per section 1.1 of the RFA were asked to list all of our organizational services, as is quite extensive, we could list all of our relevant services to the RF AI.
Think that if you list the relevant services to the RFAI think you are you're going to be fine.
You don't.
And Heather, you're from TGH and USF, so I understand.
Your concern about having to put all the services that you guys provide.
So yes, only the relevant.
To the RFA.
And your next question, Heather.
Was.
Submitting a fiscal report.
Not it, of course.
This is for your entire health system you're talking about, but will not reflect the funding support that we currently have to support our addiction treatment goals.
This kind of goes along with Vance's question. I will have to.
Do some research and this will be part of the addendum as well.
Then your final question.
Pertain to the four pages per domain.
And that you need to submit a different RFA per domain.
Yes, you do need to do a different RFA per domain.
An application I should say.
But as Don Donald explain, a lot of that information will carry over.
So the four pages that we're talking about.
Really is to explain that specific domain and what services you're going to be

providing in that domain.
Heather, does that answer your questions?
Alright. Do we have any?
I actually had another.
There was.
A question.
From Courtney that I will place on the chat as well.

**Young, Cortney** 44:04
And Dean, this is Courtney.
Thank you so much.
I believe you answered my question based on my clarifying question. I put in the chat, but you can feel free to share that question because I think that was helpful. If it's on those applicable services for, you know, versus the entire system, that makes it helpful.

**Jessup, Dean** 44:15
OK.
Yes, yes and.
I you know, in looking at the document which is attachment eight that you provided, it talks about the funding source at at the top.
So we were.
We are wanting to get a feel of the funding sources and it's related to the services you're going to be providing.
So whether you're getting state funding for.
Similar type services. If you're getting federal grants, we just want to know what.
You are receiving in those areas that you are going to be providing so that we know.
OK. For us to be able to track.
How much is going towards those services and from what sources?
Does that make sense?

**Young, Cortney** 45:24
Yes, that's very helpful. Thank you.

**Jessup, Dean** 45:29

And those were the only questions that I received prior to this meeting.
So.
Are there any other further questions that we can answer today?
Did I miss anyone's question?

YC **Young, Cortney** 45:50
Dean, this is Courtney again.
I actually just wanted to have if you could just clarify. Amanda asked a question earlier and it went so quickly, I missed it.
But regarding how partnering agencies should be indicated in the applications, if you could just clarify that.

JD **Jessup, Dean** 46:07
I think I think it needs to be emphasized in your narrative.

YC **Young, Cortney** 46:14
OK.

JD **Jessup, Dean** 46:15
Because that's, I mean, for us to be able to give those bonus points, because if you are collaborating and you are, you know doing.
Those priority strategies.
To be able to score you knowing because we are encouraging collaboration between agencies.
So I I think it's important that you highlight any type of collaboration that you're doing.
Amanda has a question as to letters of support and commitment.
You I would encourage you to include that as well as an attachment.
Donald, is there a area where they can provide additional documentation?

DW **Donald Winship** 47:16
There is not.

JD **Jessup, Dean** 47:19
OK.

I'm trying to think I don't know that we had an area.
For.
Letters of support.

**Lynn, Dorinda** 47:33
Donald, this is Dorinda.
Are there any limitations?
Size limitations for any of the attachment areas.

**Donald Winship** 47:42
Have to get back to the team with with the exact limitations.
I think they're fairly generous, but I don't have the exact file sizes in front of me.

**Jessup, Dean** 47:56
Amanda, we'll have to get back to you on that question.
I I I think that that would be.
Would be advantageous for you to have those.
And.
As you said you you talked about the narrative and I think that if you have space that would be a great place to put it.
But let us take a look to see if there's other areas where we can possibly be able to allow you to put that in.

**Amanda Sharp** 48:37
That's fine.
Thank you.
Yeah, I just sent that, you know, and encourage priority to to partner.
I just wanna make sure we have the opportunity to clarify those partnerships.
Within within the application, so thank you.

**Jessup, Dean** 48:50
You're welcome.

**Lynn, Dorinda** 48:50
And Dean, Dean, this is Dorinda. I think too.

Another thing is if you you all can identify a place and identify it so that everybody who's doing it, all those it in the same.
Field so that when the scoring members are looking.
One applicant doesn't have it in one section and one has it in another, you know, identify where I think that would be a a good suggestion is to identify where they should be uploaded so that they're all in the same spot regardless, as to who's applying.

**Jessup, Dean** 49:23
I would say it fits best probably with the agency background and I don't know if what the limitation on that is.
Donald.

**Donald Winship** 49:41
Me and again I would need to check the exact file size limitations. I don't believe that they're set to be particularly tight or constraining.
But I will need you get back to the team as to the exact.
Figures to you know how many megabytes are allowed for each upload.

**Jessup, Dean** 50:02
OK. We will get back to you on this particular item.
To let you know where it should be placed so that way.
The evaluators are not searching everywhere to see if you are collaborating with another agency.
So that'll be forthcoming.
Do you have any other questions?
I.
This is from.
Thaddeus. Thaddeus. I would say that the more detailed that you have the, the better it is for the evaluators.
And evaluating the letter of support because.
As you know, letter support. If it's just general.
Just doesn't give us enough information to know what type of collaboration would be taking place.
With these entities so.

The more specific the I think the better.
Right. We have 5 minutes remaining. If there are no other questions, I really appreciate your time this afternoon.
I hope this was helpful to you.
We will try to get this information out as quickly as possible.
I will not be waiting on.
Other questions I will answer. Make sure that we put an addendum out for the questions that were posed here.
On this.
And get those on our website as quickly as we can.
So thank you very much for your participation and we look forward to working with you and seeing the applications come in.
And I'll give you 5 minutes of your time back.

YC **Young, Cortney** 52:31
Thank you.

AP **Asha Pereyra** 52:32
Thank you.

JD **Jessup, Dean** 52:33
You're welcome.

PE **Patricia Emmanuel** 52:36
Thank you.

JM **Jaromin, Michelle** 53:04
I mean, you may wanna actually click the little down arrow next to leave and end the meeting.
Otherwise, it'll continue to record until everyone actually departs. Or you can just stop the recording.
