

Technical Publications Update and Revision Procedures

October 2023

Accommodation Statement

In accordance with the requirements of title II of the Americans with Disabilities Act of 1990 ("ADA"), Hillsborough County will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities. Persons with disabilities who need an accommodation for this document should contact the Hillsborough County ADA Officer at (813) 276-8401; TTY: 7-1-1.

HILLSBOROUGH COUNTY

TECHNICAL PUBLICATIONS UPDATE AND REVISION PROCEDURE

APPROVED

APPROVED:  10/25/2023

Lisa R. Rhea, PE Date
Director, Water Resources Department

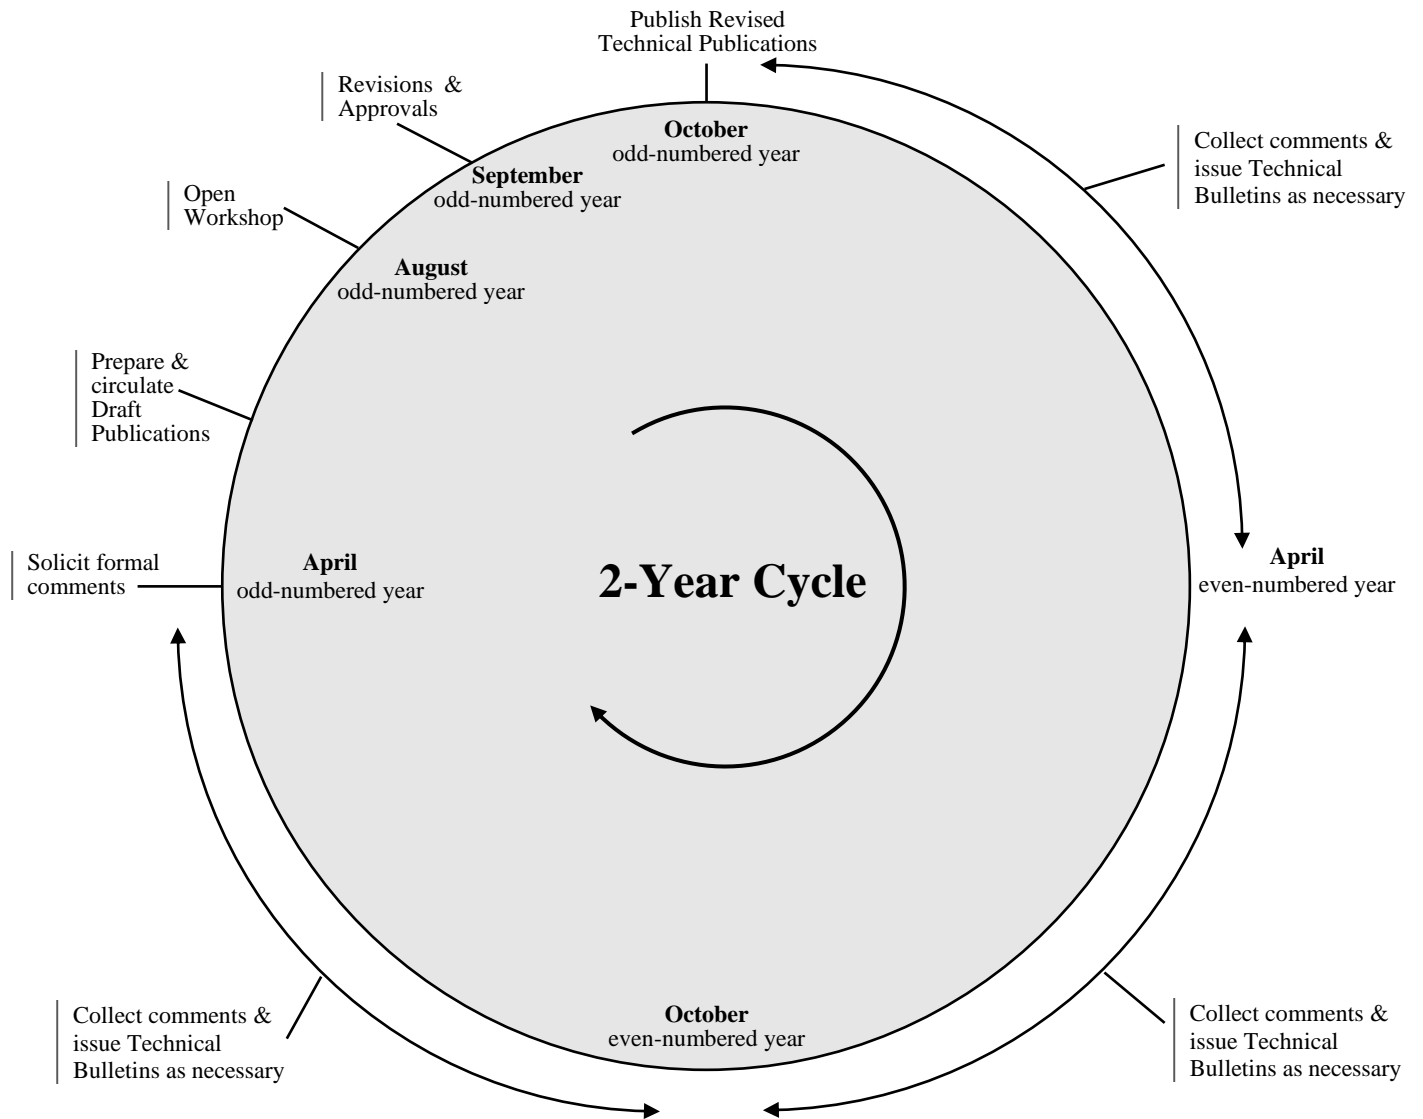

10/25/2023

Michael J. Williams, PE Date
County Engineer

11/01/23

Effective Date

As material specifications, technical criteria and County polices change to meet new needs and changing technology, it will become necessary to revise and update Hillsborough County’s technical publications. All changes will be handled administratively under the direction of the County Engineer or Public Utilities Department Director, as applicable. The County has adopted a two-year cycle for updating its technical publications which is depicted in the following figure.

Technical Publications Update Cycle
(Above dates are approximate.)

LIST OF COUNTY MANUALS

Public Works Administration (PWA)

- Transportation Technical Manual for Subdivisions and Site Development Projects
- Utility Accommodation Guide and Rights of Way Use Procedures Manual
- Utility Coordination Procedures for Construction Projects within County Rights of Way
- Stormwater Technical Manual
- Public Works Standard Specifications for Construction
- Public Works Supplemental Specifications
- Technical Publications Update and Revision Procedures

Public Utilities (PU)

- Public Utilities Technical Manual
- Public Utilities Technical Specifications, including Exhibits

COLLECT COMMENTS & ISSUE TECHNICAL BULLETINS AS NECESSARY (ANYTIME)

The County will review comments and suggestions for changes to the publications through the online “Comment on Public Utilities/Public Works Technical Publications” form located on the County’s [website](#). When ideas or suggestions are received, they will be reviewed by appropriate staff in a timely manner and will be coordinated with other offices affected by the proposed change. Items warranting change will be made in the form of a *Technical Bulletin*.

1.1 Technical Bulletins

Technical Bulletins will be issued as necessary for changes to the technical publications. Bulletins will be numbered based on the two-digit calendar year and bulletin number. Bulletins will go into effect on the date noted within the bulletin. Notices are sent to all users who are registered to receive notification and updates and will remain effective until either:

1. An official technical publication is published (October of each odd-numbered year); or
2. The Bulletin is made void.

1.2 Typographical Revisions

Corrections to any typographical errors that do not materially and significantly affect criteria will not require approval by the County Engineer or Public Utilities Department Director. All corrections of this nature will become effective immediately, will be posted to the website, and electronically distributed to subscribers to the applicable technical publication.

1.3 Statutory and/or Public Health, Safety or Welfare Revisions

Certain technical revisions may be required at times such as those necessary to meet statutory requirements or to protect public health, safety or welfare. All corrections of this nature will become effective immediately, will be posted to the website, and electronically distributed to subscribers to the applicable technical publication.

1.4 Design Exceptions

This manual addresses the procedures for executing revisions to the Hillsborough County technical manuals. A Design Exception is a process for approving project-specific changes to design criteria that vary from Hillsborough County's established design criteria. Therefore, this Design Exceptions section will be removed from this manual in its entirety for the 2023 Cycle Update. The Design Exception process addressing design criteria is explained in Section 1.7 of the Transportation Technical Manual for Subdivisions and Site Development Projects and in Section 1.8 of the Water, Wastewater, and Reclaimed Water Technical Manual.

ELECTRONIC NOTIFICATIONS

Individuals may sign up to receive notifications about technical bulletins and engineering publication updates from Public Utilities and Public Works. All electronic subscribers are solely responsible for providing current and accurate email addresses in order to receive automatic, electronic notification of proposed and final changes to technical publications. Failure of an electronic subscriber to receive electronic notification must not affect the effective date of any revisions that have been approved. Hillsborough County will not sell nor distribute the email addresses of electronic subscribers for financial gain. However, please be advised that Hillsborough County is subject to the Public Records Law which would compel the County to provide email addresses of electronic subscribers upon request. Under the Public Records Law, Hillsborough County may charge a fee for recovering the cost of providing the requested information.

SOLICIT FORMAL COMMENTS (APRIL: ODD-NUMBERED YEAR)

The County will notify all registered users and updates a message announcing the County's intent to update the technical publications in October of each odd-numbered year and announce that comments and suggestions for changes to publications can be made through the online "Comment on Public Utilities/Public Works Technical Publications" form located on the County's website, [HCFLGov.net](https://www.hcflgov.net).

PREPARE & CIRCULATE DRAFT (SPRING/SUMMER: ODD-NUMBERED YEAR)

The County will prepare and circulate the draft technical publications internally. A summary document will be prepared and posted on the County's website describing permissive changes, comments, responses and proposed changes to each technical publication.

OPEN WORKSHOP (AUGUST: ODD-NUMBERED YEAR)

The County will host an Open Workshop to present the revised publications, solicit feedback and answer any questions that the public may have regarding the revised technical publications.

REVISIONS & APPROVALS (SEPTEMBER: ODD-NUMBERED YEAR)

Changes to the manuals will be made and required approval sheets will be signed and included with applicable technical publications.

**PUBLISH REVISED TECHNICAL SPECIFICATIONS
(OCTOBER: ODD-NUMBERED YEAR)**

Complete revised technical publications are adopted and posted to the County’s website in October of each odd-numbered year.

PUBLICATION EFFECTIVE DATE

Each technical publication will include an effective date. All submittals to the County on or subsequent to the effective date of the publication will be governed by that publication. All projects submitted prior to the effective date will be governed by the version in effect upon preliminary submittal unless the submitter voluntarily elects to comply with the more recent revised publication.
