Increase of Home Sales in 2021	5.9%
Agricultural product sales - 2017 Census of Agriculture	\$447.6 million
In new Corporate Investments	\$76.3 million

Geography & Demographics

Located midway on the west coast of Florida, Hillsborough County's boundaries encompass 1,048 square miles of land and 24 square miles of inland water for a total of 1,072 square miles. With the largest bay in Florida opening to the Gulf of Mexico, its coast spans 76 miles.

The unincorporated area is 84% of the total county area. The municipalities of Tampa (the county seat), Temple Terrace, and Plant City account for the remainder. According to the latest population estimate from the University of Florida's Bureau of Economic and Business Research, the county's April 1, 2023 total population was 1,541,531 making it the third most populous county in the state. Of this population, 1,066,961 or 69% live in the unincorporated area.

A Rich History

Hillsborough County takes its name from Wills Hill, the Earl of Hillsborough and British Colonial Secretary from 1768-1772. The Spanish first mapped and explored the area in the early 16th century. Between 1559 and 1819, the area now called Florida was under the rule of four nations: Spain, France, Great Britain and, finally, the United States. The United States purchased Florida from Spain in 1821 for \$5 million. In 1845, it was granted statehood. On January 25, 1834, the U.S. Legislative Council for the Territory of Florida approved an act organizing Hillsborough as Florida's 19th county. Its area then was 5.5 million acres and included the present counties of Hillsborough, Pinellas, Polk, Pasco, Manatee, Sarasota, Charlotte, DeSoto, Hardee and Highlands. The civilian non-native population in 1834 was less than 100. Hillsborough County's Board of County

The old courthouse from Franklin Street, circa 1908.

Commissioners held its first meeting on January 25, 1846. The county's first courthouse was a frontier cabin burned during the Second Seminole War in 1836. In 1847, Capt. James McKay built a two story courthouse at a cost of \$1,358. A third structure was erected in 1855 and was used until 1891, when a red brick, domed structure mimicking the architecture of the Tampa Bay Hotel was built, occupying a square block in downtown Tampa. This is the courthouse depicted on today's County seal. The current courthouse was built in 1952 and a new county government administration building, called Frederick B. Karl County Center, opened in 1994.

The County's Economy

Hillsborough County has a diversified economic base including large professional and management services, health services and financial services sectors, as well as a thriving retail sector. In 2018 the four largest employers in the public sector are Hillsborough County School Board followed by MacDill Air Force Base, University of South Florida, and Hillsborough County government. Major private sector employers include Publix Super Markets, Sea World Parks & Entertainment, Amazon, Tampa Electric Company, Bank of America, and JPMorgan Chase.

Port Tampa Bay serves as the closest port in the United States to the Panama Canal. It is also the largest tonnage port in Florida and the twenty-first largest port in the United States with respect to 2017 annual tonnage. Ninety-seven percent of the cargo moving through the port is bulk phosphate, phosphate chemicals, rock, coal, and petroleum products. The Garrison Seaport Center is a \$300 million cruise terminal and entertainment complex. Along with the Florida Aquarium, it is helping spur redevelopment in the area known as the Channel District.

Agriculture remains a significant element of Hillsborough's economy. The 2017 US Census of Agriculture shows Hillsborough County's agricultural product sales were \$447.6 million. Berries accounted for 32% of those sales. Vegetables were the second largest commodity by sales at 25%.

Tourism is another major component of the economy. The number of tourists visiting Florida is expected to continue growing. Busch Gardens of Tampa is one of the leading tourist attractions in the nation. There are numerous other attractions in Hillsborough County such as The Florida Aquarium, the Museum of Science and Industry, Tampa Museum of Art, the Glazer Children's Museum, Zoo Tampa, the New York Yankees spring training facility, the Tampa Bay History Museum, and the Amalie Arena in downtown Tampa. The Florida State Fair is held in Hillsborough County annually. The county is also the home of the Tampa Bay Buccaneers, the 2021 and 2003 Super Bowl Champions, as well as the 2021, 2020, and 2004 National Hockey League Stanley Cup Champions, the Tampa Bay Lightning.

Hillsborough County Fire Rescue's fire engines celebrate "Champa Bay's" sports teams.

Governing the County

A political subdivision of the State of Florida, the County is governed by an elected seven-member Board of County Commissioners.

Bonnie M. Wise, County Administrator

Through partisan elections, three are elected to represent the entire county as a district and four are elected to represent single-member districts. Under a Charter Ordinance effective May 1985, the Board is restricted to performing the legislative functions of government by developing policy for the management of Hillsborough County. The County Administrator, a professional appointed by the Board, and her staff are responsible for the implementation of those policies. The County Internal Auditor and the County Attorney also directly report to the Board.

Board of County Commissioners

The Board of County Commissioners is responsible for functions and services delivered throughout the county, including municipalities, and for municipal services to residents and businesses in the unincorporated area. The countywide responsibilities include such services as local social services, health care for the medically indigent, animal services, mosquito control, consumer protection, and a regional park system. Its responsibilities to the residents and businesses in the unincorporated area include, for example, fire protection, parks, emergency medical services, planning, zoning, and code enforcement.

The Board of County Commissioners also serves as the Environmental Protection Commission. Individual Board members serve on various other boards, authorities, and commissions, such as the Hillsborough Area Regional Transit Authority, Tampa Bay Regional Planning Council, Tampa Bay Water, Aviation Authority,

Expressway Authority, Sports Authority, Arts Council, Drug Abuse Coordinating Council, Metropolitan Planning Organization, Council of Governments and the Economic Development Corporation.

The County Administrator

The Board of County Commissioners appoints the County Administrator, who is responsible for carrying out all decisions, policies, ordinances, and motions of the Board.

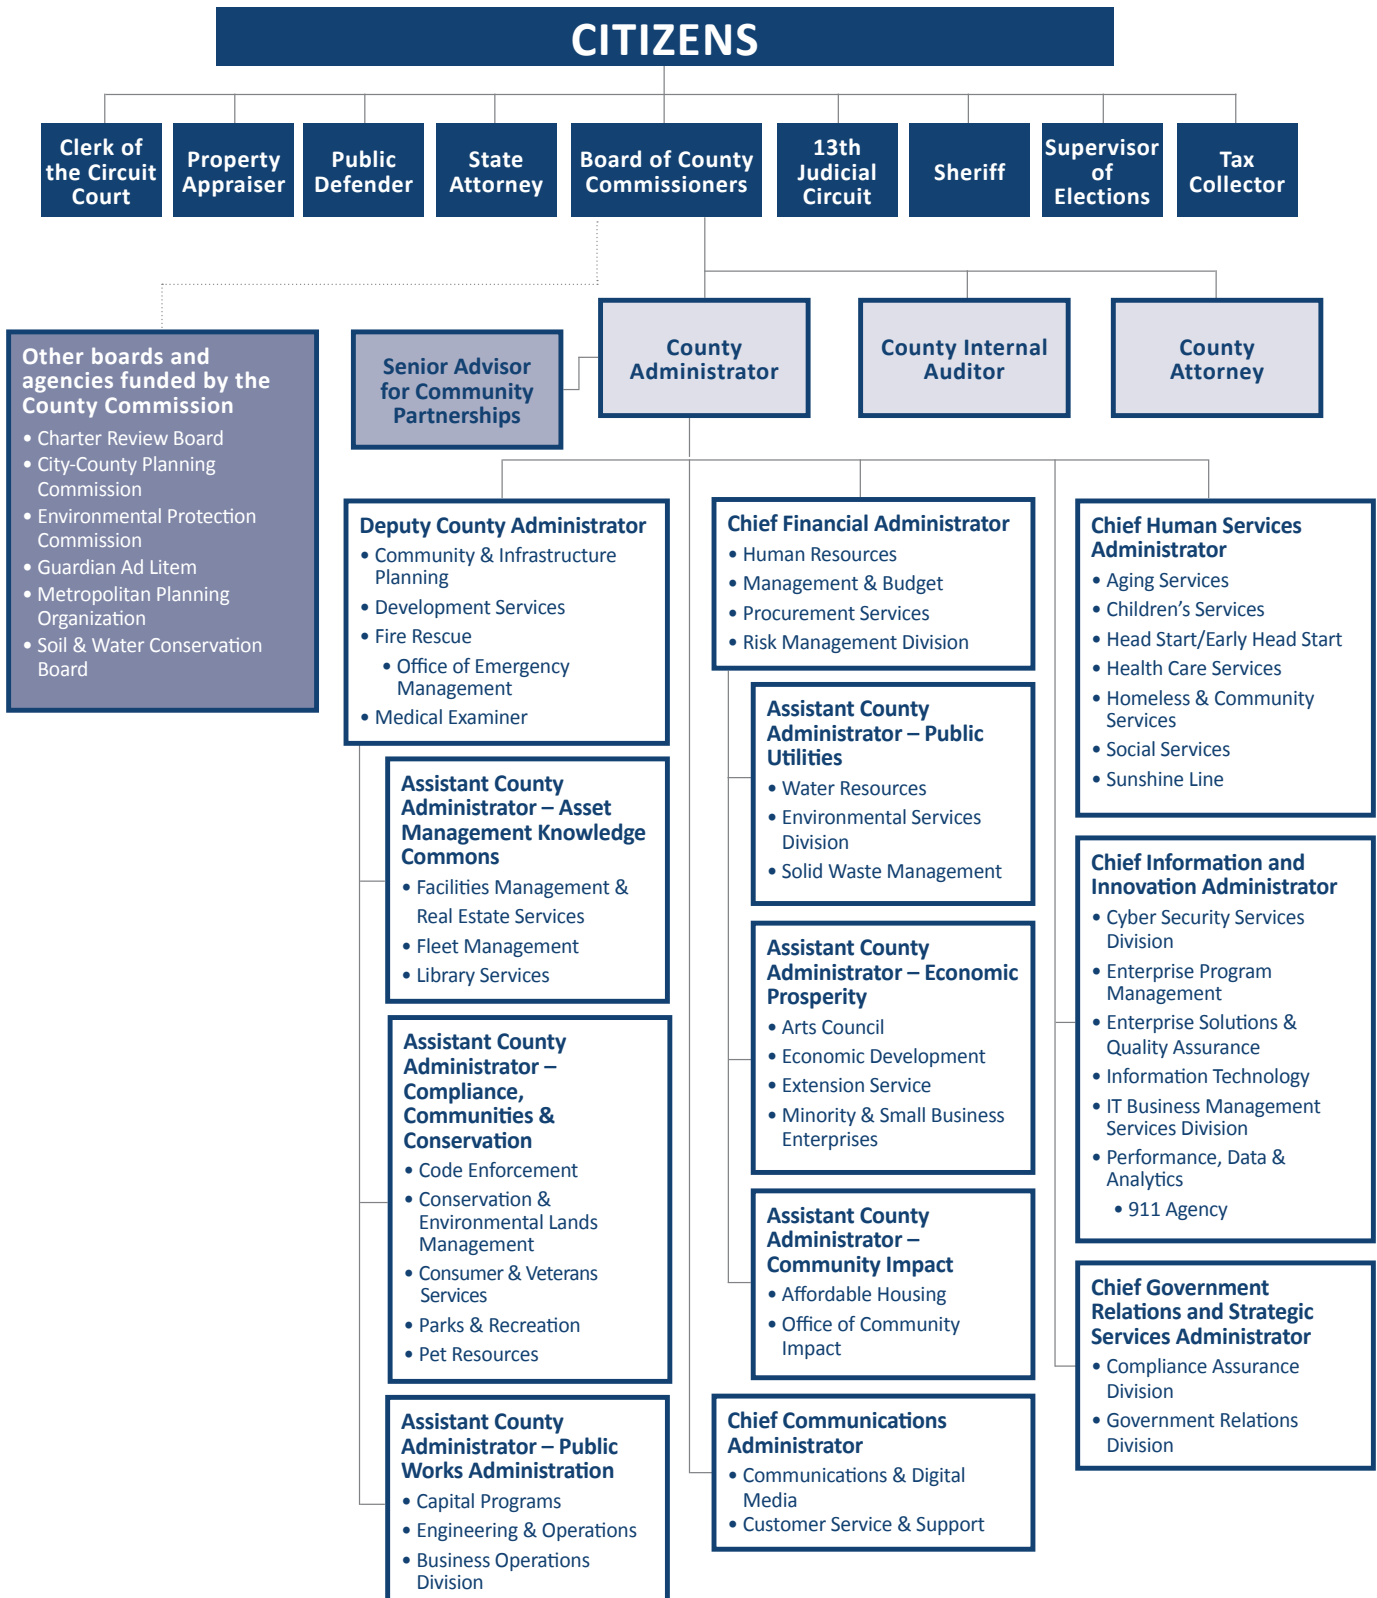

The departments under the County Administrator are responsible for providing services such as social services and public assistance to residents countywide. Departments are also responsible for providing municipal-type services to residents of the unincorporated areas of Hillsborough County such as road construction and maintenance, solid waste disposal, fire and emergency rescue services, parks and recreation, code enforcement and water and wastewater treatment.

Other Government Agencies

Based on the extent of budgetary authority, taxing authority, the ability to obligate funds to finance any deficits and the ability to fund any significant operational subsidies, several other governmental entities also have their budgets reviewed and approved by the Board of County Commissioners. These are the Environmental Protection Commission, the Planning Commission, Soil and Water Conservation Board, Metropolitan Planning Organization and the Law Library Board. The budgets of these offices and the Constitutional Officers are included in the County's budget to the extent of funding by the BOCC.

Hillsborough County Organization Chart

This chart shows the organization of County government entities and their accountability to the electorate. Those directly elected to office by voters are shown directly below the citizens' box. Boards and commissions funded through the Board of County Commissioners, but not otherwise accountable to the Board, are connected by the dotted line.

Our Purpose

The purpose of Hillsborough County Government reflects why we exist and how we operate when we are at our very best. Our purpose motivates our workforce, shapes how we approach our work, and conveys our pride in public service.

“Advance our community’s well-being by maintaining service delivery excellence, practicing fiscal responsibility, and connecting with our communities”

Our Strategic Outcomes

Outcomes are the impacts we facilitate to advance our community's well-being. Community outcomes are external and affect our residents and visitors, while enabling outcomes internally underpin and help us actualize our community outcomes. To achieve these outcomes, our County departments pursue a wide range of strategies and initiatives to fulfill their missions, continuously improve their services, and positively impact the many communities of Hillsborough County (to learn more, please refer to the Department Page Summaries).

Community Outcomes

Health & Safety – Across the spectrum of our services and community assets, we will prioritize activities and investments that safeguard the health and safety of our children, families, friends, colleagues, and visitors.

Economic Opportunity – We will create conditions for achieving financial stability and capitalizing on growth opportunities through the enterprising efforts and ingenuity of our talented, hard-working population.

Community Enrichment – We will provide an abundance of recreational, entertainment, and learning experiences that improve our residents' lives and attract visitors to our region.

Positive Experiences – We will consistently deliver convenient, helpful, courteous, and frictionless experiences that engender the goodwill, support, and trust of those we serve.

Enabling Outcomes

High Performing Workforce – We will attract, develop, and retain skilled and dedicated employees who take pride in reliably and responsively performing the County's functions.

Financial Soundness & Accountability – We will be responsible stewards of taxpayer dollars and other funding sources by operating cost-effectively and maintaining a favorable debt rating and ample reserves to help ensure the County's short- and long-term financial stability.

Quality Community Assets – We will construct our facilities, roads, bridges, parks, and other infrastructure to be safe, resilient, fit-for-purpose, and cost-effective to operate and maintain for years to come.

Our Operating Principles

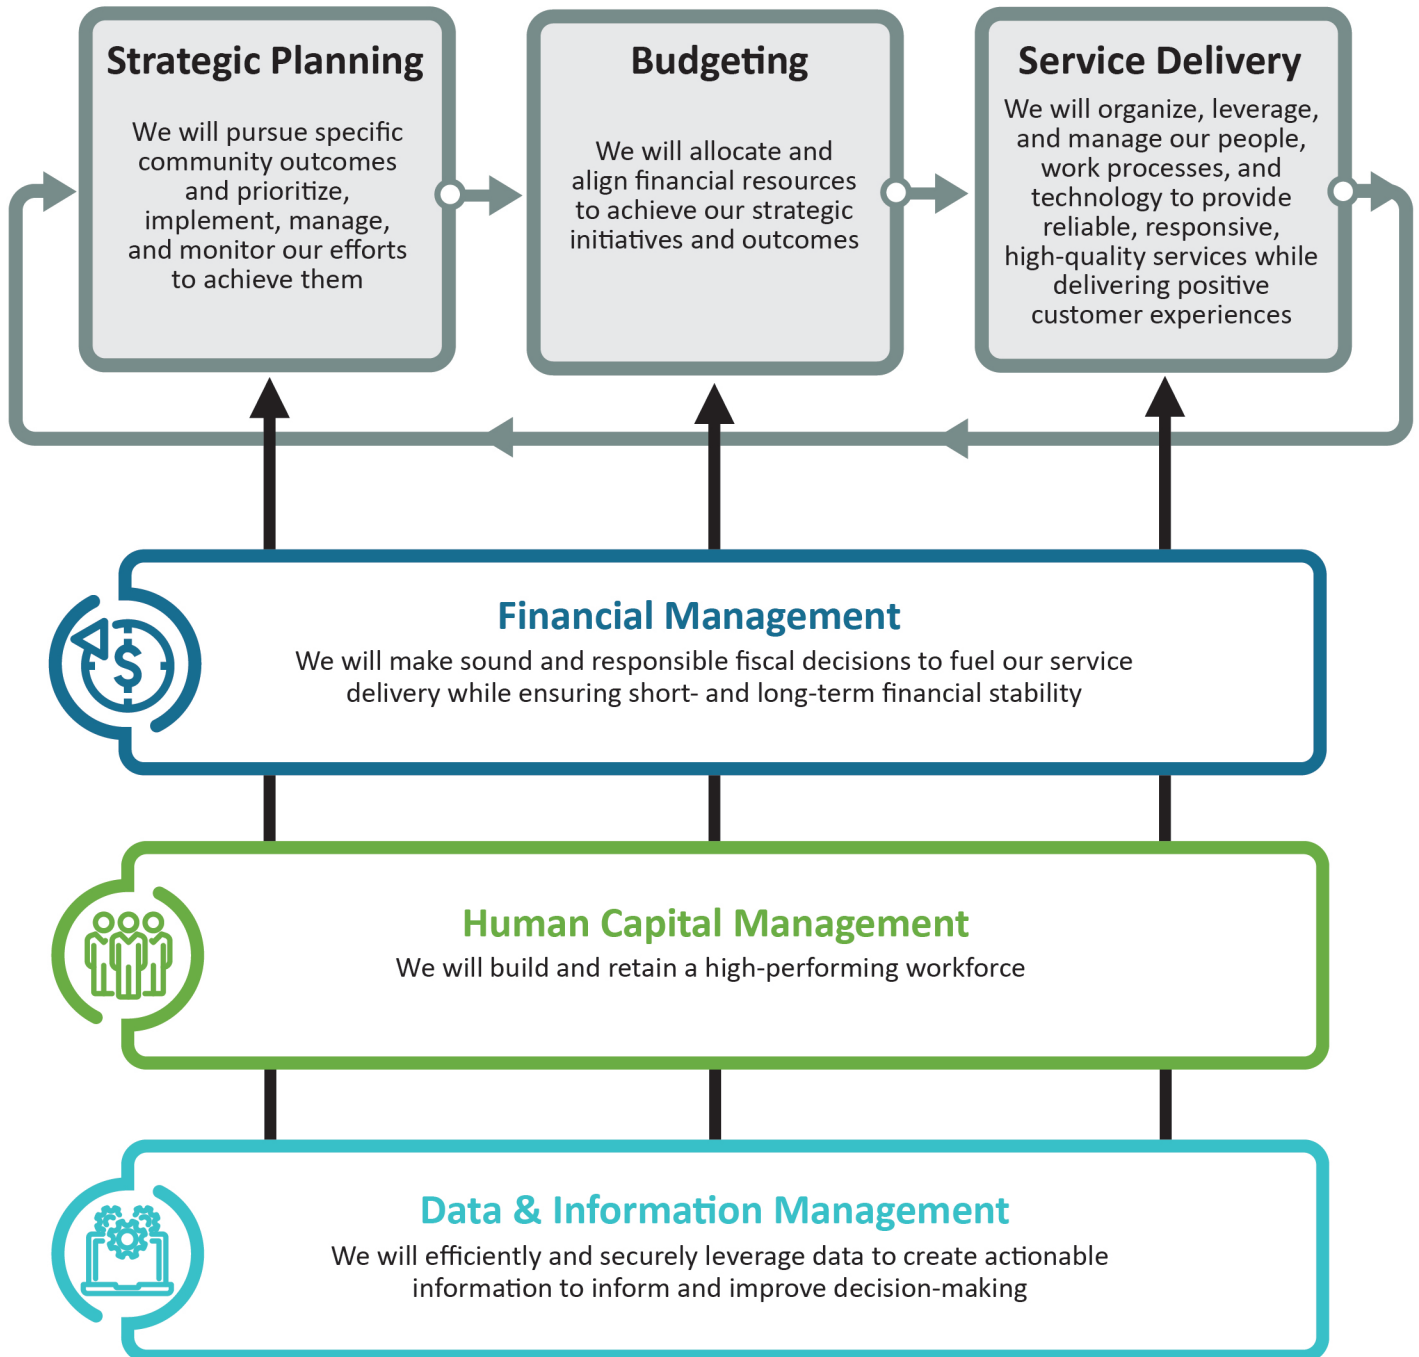

Operating principles convey the behaviors we demonstrate to deliver on our purpose – starting with our leaders and extending to every one of our Hillsborough County employees.

- **Act as One Team** – The County’s departments provide a wide range of important services to our community, from fire rescue services to park programs to animal control (and many more). Though each service is unique, we acknowledge and appreciate that our community’s needs are not always service-specific or defined by departmental boundaries. As such, we will proactively identify global needs and issues and work cross-functionally to address them – as one team with a shared purpose, goals, and objectives.
- **Accountably Achieve Results** – We will demonstrate ownership, deliver on our commitments, and act transparently with the public and our many stakeholders. Accountability for keeping our promises will be more than matched by an urgency to plan and conduct our work with the end in mind, namely, achieving results and downstream outcomes that will positively impact our community. The ‘why’ behind our efforts will always drive the ‘what’ and ‘how’ that follows.
- **Push for ‘Even Better’** – We will create an organizational culture that encourages critical thinking, welcomes challenges to the status quo, and rewards those who identify and implement improvements – from the incremental to the transformative. We will securely source and leverage data to inform decision-making, measure and openly communicate our performance in key areas, be laser-focused on our most pressing challenges, and inject the voice of our customers into our improvement efforts. Day-in and day-out, our teams will ‘push for even better’ for the benefit of those we serve.

Hillsborough County Strategic Planning Cycle

Our strategic planning cycle depicts the process by which we prioritize, budget for, and deliver services to our customers and stakeholders.

Introduction

In 1995 the Hillsborough County Board of County Commissioners (BOCC) adopted a two-year (biennial) budget process for Hillsborough County. During odd-numbered years two separate twelve-month budgets are prepared and approved. The first year of the current biennial cycle was adopted by the BOCC in September 2023, in accordance with State Statute, as the FY 24 budget. At the same time, the BOCC approved a planned budget for the second year, the Planned FY 25 budget. During calendar year 2024, staff and the Board will review the Planned FY 25 budget and adjust revenues and expenditures to accommodate needs that have arisen since the planned budget was prepared in 2023. The Board will adopt the FY 25 Budget in September 2024.

This budget book, as well as other related documents, is designed to be useful to readers with varying interests. The budget book conveys the County's priorities and allocation of resources among those priorities. Readers include financial analysts who invest in long-term securities issued by the County or who may review County finances in order to issue bond ratings as well as residents and business owners seeking a better understanding of county services and revenues that pay for those services. Other readers include researchers interested in comparing the structure of Hillsborough County's finances to other jurisdictions. County staff regularly use the budget book to reference resources allocated to their organizations in pursuit of listed mission and objectives.

The Government Finance Officers Association of the United States and Canada (GFOA) has long recognized this diversity of interest in budget documents. Its website states "The GFOA established the Distinguished Budget Presentation Awards Program (Budget Awards Program) in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting." Hillsborough County is pleased to have regularly received GFOA's Distinguished Budget Presentation Award.

This book reflects the **Adopted Budget for FY 24**. It has five sections: *Executive Summary*, *Operations and Funding Guide*, *Capital Budget*, *Debt Service* and *Supplemental Information*. Financial schedules throughout this book include multi-year information for comparison.

The first section, *Executive Summary*, contains the County Administrator's budget message; information about the process of developing the budget; summary schedules on the

budget, a summary table of funded positions; summary tables of the debt, capital, and department budgets; information on property taxes and major county revenues; and an analysis of local economic conditions.

The second section, *Operations and Funding Guide*, contains detailed information about the various budgetary funds and funding levels. It includes information on appropriations for individual County departments, commissions and boards funded through the Board of County Commissioners. Each department or organization page includes the organization's description, mission statement, major accomplishments, FY 24 core outcome objectives, key projects and their community value, and performance measures as well as a summary budget, a comparison of funded positions and notes explaining changes from year to year. This section also includes detailed information on reserves, non-departmental allotments, funding for non-profit organizations and interfund transfers.

The third section, *Capital Budget*, has information about the County's capital program for FY 24. It contains a narrative describing capital budget highlights as well as summaries showing projects to be started.

The fourth section, *Debt Service*, has information about the County's outstanding debt. This section is only included in the County's Adopted Budget Book.

The Fifth section, *Supplemental Information*, contains information about various salary schedules, a listing of positions and pay grades, a glossary, and an index of departments.

A second book, the **Adopted Capital Improvement Program FY 24—FY 29**, presents detailed information about each project in the Capital Improvement Program.

Persons interested in additional information regarding the **Budget** or the **Capital Improvement Program** may contact the Hillsborough County Management and Budget Department at (813) 272-5890. The mailing address is: Management and Budget Department, 26th Floor, P.O. Box 1110; Tampa, Florida 33601. The Department is located at: 601 East Kennedy Blvd., County Center, 26th Floor, Tampa, Florida 33602. Electronic versions of budget and capital improvement program is also available on the County's website at: www.hcfigov.net.

COUNTY ATTORNEY

Christine M. Beck

COUNTY INTERNAL AUDITOR

Peggy Caskey

To the Hillsborough County Board of County Commissioners and County Residents:

I am pleased to present the Fiscal Year 2024 Adopted Budget. The Adopted Budget focuses on our commitment to maintaining services and assets for our residents, to continued strong financial management, and to our employees who are the key to effective service delivery.

As we prepared our fifteenth biennial budget for FY 24 – FY 25 the economy entered a transition period from rapid growth to more moderate growth, or, perhaps a brief recession. As pandemic challenges receded in 2022, new ones have emerged. During late 2021 and through 2022 the economy rebounded strongly from recession. Home sales and prices surged. Consumer and tourist spending expanded rapidly. As supply chain issues, rapid wage growth and high housing prices stoked inflation in 2022 the United States Federal Reserve began to fight inflation through interest rate increases which have continued through July 2023. Higher interest rates and prices have resulted in a decline in housing sales, softening consumer spending, and concern that a recession might be on the horizon.

These new economic challenges highlight the ongoing importance of maintaining the County’s robust financial position. Hillsborough County sustained a strong financial position throughout the pandemic as evidenced by our healthy reserves and by the affirmation of our “AAA” credit rating by the credit rating agencies. This solid position enabled the County to aggressively respond to economic challenges, as well as the challenges of hurricane response and recovery efforts, and places the County in a good position to meet future challenges.

A prime challenge for today’s public and private employers is attracting and retaining employees in a labor market still characterized by low unemployment rates, numerous job openings, and rising wages. Throughout recent challenges, Hillsborough County employees demonstrated tremendous flexibility and innovation, with a focus on customer service and community collaboration. Our employees are the key to timely, quality service delivery for our residents. In order to retain and recruit employees for this important task, the Adopted Budget includes funding for pay adjustments to meet market challenges and to share in the increasing costs of our employee health plan. During FY 23, we implemented a Paid-Time-Off, or PTO, employee leave system as well as an expanded Tuition Reimbursement Program.

While revenue growth for FY 24 is projected to grow at a slower rate than in recent years, it will remain positive. Revenue growth for the second year of the biennial budget is expected to be more constrained. These moderating revenue expectations combined with the rapid rise in the costs of providing important County services and operations framed our budgetary outlook for FY 24 and FY 25. We must be able to sustain service levels while maintaining a balanced budget in this challenging atmosphere. This budget accomplishes that goal

while also accommodating public safety investments including a new fire station and related staffing, and other capital improvements such as additional funding for roadway pavement preservation, jail maintenance, and a Sheriff's Office training facility funded through the Community Investment Tax.

As we expect a return to more moderate growth, we anticipate continuing budgetary stress on the Unincorporated Area General Fund. This is the fund from which much of parks and recreation and public safety, including law enforcement and Fire Rescue service, is funded. We have also previously funded large parts of our transportation program from this same fund. These are areas where ongoing service deficiencies exist, and we are challenged to fund those deficiencies while keeping pace with rising demand and costs. The difficulty of funding transportation within the Unincorporated Area General Fund or by a dedicated revenue source has hindered our ability to fund transportation improvements to alleviate current deficiencies or meet new transportation demands of expanding population.

These challenges require creative solutions in partnership with the community. We will closely examine master plans and other evaluative tools for these various service areas, and related funding strategies and growth issues. This budget supports those efforts.

I look forward to working with the Board and the community as we move forward.

Respectfully submitted,

A handwritten signature in blue ink that reads "Bonnie M. Wise".

Bonnie M. Wise

County Administrator

Budget Overview

Hillsborough County's Adopted Budget for Fiscal Year 2024 (FY 24) totals \$9.033 billion; by contrast the FY 23 Adopted Budget was \$8.496 billion. This is the first year of the fifteenth biennial budget adopted by the Board of County Commissioners (Board). The FY 24 budget was adopted by the Board on September 21, 2023, for the period of October 1, 2023, through September 30, 2024.

Consistent with past practice, this budget continues a commitment to ensure that Hillsborough County is financially strong and able to influence its destiny by applying efficient and effective policies and practices. The County continues to receive positive feedback. In 2010, Fitch Ratings and Moody's upgraded the County's general credit rating to "AAA" as part of a recalibration of U.S. public finance ratings. Hillsborough County has held a "AAA" credit rating from Standard and Poor's Ratings Services since 2006. All three rating agencies recently reaffirmed these credit ratings for the County.

Guiding Principles

- Adequate reserves were maintained in support of "AAA" credit rating
- Budget decisions were based on data and on a clearly defined core mission
- Level-of-service commitments were strategic and sustainable
- Services and programs were designed cost effectively through collaboration and measurable outcomes
- Productivity and customer service were enhanced through strategic investments in technology and employees
- Capital program was prioritized to support these principles within available resources

The Adopted Budget for FY 24 represents a balanced, equitable plan to provide our residents with vital services. As we move into FY 24, we will continue to seek opportunities to improve the way we deliver service and continue to help grow our economy.

The County's FY 24 budget was developed in a conservative manner and designed with a focus on the following areas: public and employee health and safety, maintenance of critical assets, maintaining reserves, investing in County employees, and funding for critical deficiencies for Fire Rescue, Parks, Water/Sewer, Transportation and Stormwater.

During preparation of the budget, available resources were evaluated to determine the viability of the FY 24 budget. This process identified that overall resources would increase from FY 23. This was based on July 1st

property taxable value growth for FY 24 as provided by the Hillsborough County Property Appraiser. Other revenues, such as sales tax, which recovered strongly in FY 21 and FY 22 from significant FY 20 pandemic-related declines, are expected to grow at a more moderate pace. A possible recession in 2024 could result in even slower FY 25 revenue growth. Economic conditions are also impacting our expenditure expectations with high inflation driving larger annual cost increases than in recent years.

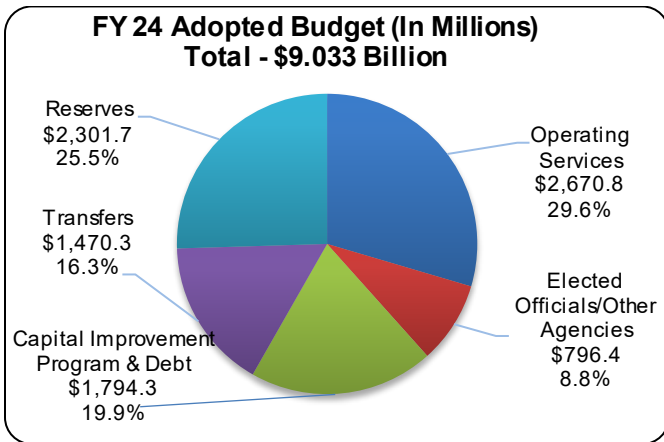

The FY 24 budget is balanced within available resources. The County seeks to identify ways to be more sustainable, and to identify new and increased revenues to address ever increasing service needs created by a growing population. Consequently, the Board has taken actions to maintain and enhance services to residents. Some of these actions include approving mobility fees and park impact fees increases using a phased-in schedule that commenced January 1, 2021. In FY 21 the Board increased the water, wastewater, and reclaimed water service rates by 4% per year for the following four consecutive years. Additionally, in FY 23 the Board approved water, wastewater, and reclaimed water service rate increases of 5% per year for a period of seven years, beginning on October 1, 2025.

Budget in Brief

The County's Adopted Budget for FY 24 totals \$9.033 billion, a \$537.9 million increase over the Adopted FY 23 budget of \$8.496 billion. Some significant changes include:

- \$52.6 million increase in Sheriff's budget to fund service continuation;
- \$12.6 million increase in funding to Constitutional Officers other than the Sheriff;
- \$4.2 million for 24 new Fire Rescue positions for the new Progress Village South fire station and the related operating costs;
- \$2 million in new funding for Affordable Housing;
- \$354.6 million decrease in Capital Outlay due to some projects reaching completion during FY 23 and to other projects experiencing changes in expected time schedules;
- \$152.3 million increase in Grants and Aids. This increase is mainly related to the new Hospital Directed Payment Program;
- \$42.0 million decrease in transfers;
- \$619.6 million increase in reserves. This is mainly related to Enterprise Funds reserves, Indigent & Trauma Health Care Fund reserves, and Internal Service Fund reserves.

Budget Overview

It is the operating budget that is most impacted by changes in the property tax base and sales tax collections, as these are the primary operations funding sources. The FY 24 budget reflects increased revenue levels from Ad Valorem Property Taxes and sales taxes. Estimated FY24 operating property tax revenue is \$588.7 million above the previous peak of FY 07. For many years after FY 07 revenue was very constrained due primarily to the following three events. The first event was legislative action to require a millage reduction and restrict future millage increases. The second event was the voters' approval of Amendment One, increasing homestead exemption amounts and limiting assessed value increases on non-homestead properties to 10%. The third event was the effect of the economic recession and the associated decline in property values brought on by a collapse in the housing market which has rebounded. The following chart reflects these changes and the slow growth.

The County continues to provide services to a growing population. Areas of particular concern include transportation, fire services, affordable housing, and parks. Master planning efforts in these areas have been completed or are underway, and creative solutions will be

necessary to meet identified needs. Recently, most increased revenue has been committed to increases for statutory requirements, agreements, and ordinances, meeting the needs of elected officials, and continuation service needs of County departments. High inflation has increased the effort to sustain continuation service.

A prime challenge for today's public and private employers is attracting and retaining employees in a labor market characterized by low unemployment rates, numerous job openings and rising wages. In order to retain and recruit employees the Adopted Budget includes funding for pay adjustments to meet market challenges. In addition, it includes funding for employee health plan cost increases. During FY 23 the County implemented a Paid-Time-Off, or PTO, employee leave system as well as an expanded Tuition Reimbursement Program.

Operating Budget

The FY 24 operating budget includes \$2,670.8 million for services delivered primarily by County Administrator departments as well as \$796.4 million to fund Elected Officials and Other Agencies.

General fund property tax revenues will continue to increase in FY 24. This recurring increase is helping fund Constitutional Officer increases, statutory mandates, contractual increases, and payments to Community Redevelopment Agencies for incremental ad valorem taxable value growth in designated community redevelopment areas. While property tax revenues and sales tax revenues are expected to continue growing in FY 24, it is expected to be at a slower rate than in recent years.

Capital Budget

The Adopted Capital Budget for FY 24 is \$1,615.1 million while the FY 23 Adopted budget was \$1,954.8 million. This represents a \$339.6 million decrease from the prior year's capital budget. The budget reflects ongoing expenditures of both one-time funding carried forward from previous years, and new FY 24 capital funding in support of sustainable service levels and operations. Additional information can be found in the Capital Budget section.

The FY 24 Capital Budget includes funding for the following:

- \$13.9 million for the new Sun City North and Progress Village South fire stations;
- \$30.1 million for the replacement of Armdale, Gunn Highway, Palm River and Thonotosassa fire stations;
- \$24.4 million for an Emergency Management Warehouse;

Budget Overview

- \$5.0 million for the Public Safety Operations Center (PSOC) Renovations;
- \$4.4 million for the Tampa Bay Water Land Acquisition;
- \$17.0 million for Jail Maintenance;
- \$15.0 million for a new Sheriff Training Facility/PSOC Temporary Housing & Storage Facility;
- \$5.4 million for the African American Art & Cultural Center;
- \$15.3 million for Phase Two of the Brandon Library Replacement;
- \$13.2 million for the Thonotosassa Library Replacement;
- \$66.9 million for ELAPP Land Acquisition and Restoration;
- \$5.8 million for ELAPP Site Access Management and Safety Improvements;
- \$5.3 million for Boardwalk Replacements of various locations;
- \$8.2 million for the Southshore Sportsplex;
- \$18.4 million for Sidewalk Improvements;
- \$66.0 million for Roadway Pavement Preservation;
- \$86.7 million for Intersection Improvements;
- \$556.2 million for Wastewater and Potable Water Improvements;
- \$160.8 million for Solid Waste Improvements;
- \$86.9 million for Stormwater Improvements

Summary of Changes Between Proposed and Adopted Budget

The Recommended FY 24 budget was \$9.122 billion, the Adopted FY 24 budget is 9.033 billion. This represents a decrease of \$88.3 million. Some significant changes include the following:

- \$7.1 million decrease in Operating Expenditures, due to realignments to Grants and Aids;
- \$95.5 million increase in Capital Outlay funding, including carrying forward FY 23 unspent funds and a 56.2 million increase to the Capital Improvement Program for various projects;
- \$78.7 million decrease in Grants and Aids due to realignments and grant carry forward adjustments;
- \$25.1 million increase in debt service costs;
- \$12.7 million decrease in reserves;
- \$111.6 million decrease in transfers, mainly related to Enterprise Funds.

Planning

Rapid revenue growth is unlikely to continue. A return to more moderate growth and continuing budgetary stress

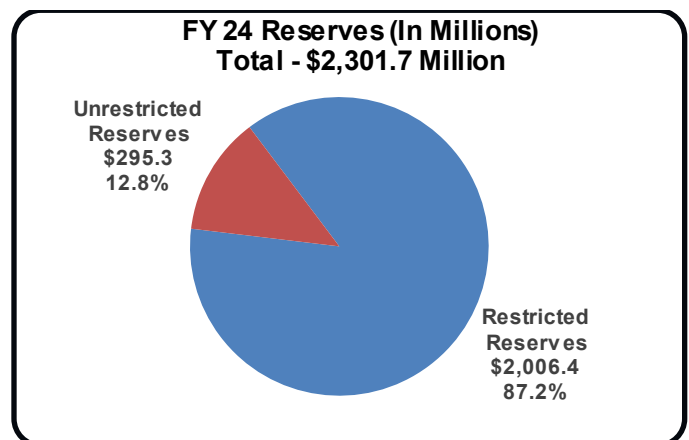

to be experienced by the Unincorporated Area General Fund should be expected. This is the fund from which much of parks and recreation and public safety, including law enforcement and Fire Rescue service, is funded. This fund also previously funded large parts of our transportation program. These are areas where ongoing service deficiencies exist, and the County is challenged to fund those deficiencies while keeping pace with rising demand and costs.

These challenges require creative solutions in partnership with the community. These efforts will closely examine master plans and other evaluative tools for these various service areas, and related funding strategies and growth issues. Workshops have already been held to bring more context and clarity to transportation and other important service areas.

Other Factors Considered in the FY 24 and FY 25 Budgets

Reserves – Our reserve strategy remains sound – the County maintains reserves to meet various objectives, including adhering to best business practices; complying with statutory, bond covenant, actuarial and other requirements; and to provide a safeguard for unexpected circumstances. FY 24 reserves total \$2,301.7 million. Of the FY 24 amount, \$295.3 million represents unrestricted reserves, with the remaining \$2,006.4 million representing restricted reserves.

Restricted reserves reflect amounts that are intended for and must be used to meet a specific purpose. The restriction can be set by legal agreement, such as a bond covenant required debt reserve; statute or other regulation, such as mandatory reserves associated with our various self-insurance programs; or by the nature of the revenue, such as revenues received by the enterprise fund.

Short-Term Factors Affecting The Budget

Debt Service

When financial conditions were appropriate, existing debt has been refinanced or defeased to lower interest expense. Detail on the County's debt capacity and debt obligations appear in a separate section of this FY 24 Adopted Budget document.

Transfers

Transfers are non-economic transactions necessary within a complex accounting system, used to transfer monies from one fund to another. Including them in the budget has the effect of overstating the amount of funds available to provide services. By definition, a transfer reflected as a "source" must have a counterbalancing transfer reflected as a "use." For example, a transfer from the General Fund to a specific grant is a "use" in the General Fund while the grant fund will show a like dollar amount as a "source," both amounts of which are reflected in the total County budget although no new funds are actually available to fund additional services.

Reserves

Reserves reflect funds set aside to meet a variety of Board actions and specific purposes. Some reserves are established as a requirement when the County borrows funds. Others are set aside to meet actuarial requirements – such as in the County's self-insured employee health insurance and workers compensation insurance programs. Some are created to allow the BOCC to fund contingencies that arise during the year – with the full expectation that most or all of these contingency funds could be appropriated during the year.

During FY 99, the BOCC adopted a policy that uses any excess fund balance in the County's two major operating funds to, in part, build reserves for catastrophic emergencies and set aside reserves for previously unfunded liabilities. A third use for excess fund balance was meeting industry fleet replacement standards.

The BOCC adopted a second policy intended to fund a stabilization reserve in each of the two major operating funds that over an 8-year period would be 5% of expenditures (exclusive of other reserves). The 5% stabilization reserve was achieved ahead of schedule as a result of strong growth in revenues and sound financial management.

The BOCC adopted an additional reserve policy on September 6, 2016 which requires total reserves for the combined County-wide General Fund and the Unincorporated Area General Fund be maintained at 20% to 25% of budgeted expenditures. The purpose of this policy is to establish guidelines that allow the County to maintain adequate levels of fund balance in the general funds to mitigate current and future risks such as revenue shortfalls, unanticipated expenditures, natural disasters, other unforeseen circumstances, and to ensure stable tax rates for the taxpayer. An additional purpose is to establish certain sound financial management practices that in combination with the fund balance guidelines will allow the County to maintain the highest possible credit ratings.

Organizational Budgets

The budget presents organizational summaries without differentiating the level of control the BOCC may exercise over individual organizations. Departments and other offices under the County Administrator face the highest level of control through the direct reporting relationship of the County Administrator to the BOCC. Constitutional Officers – particularly the Sheriff and Supervisor of Elections – receive the least BOCC control over their budgets with control being primarily limited to level of funding. The Sheriff, Clerk, Tax Collector and Property Appraiser each maintain independent accounting systems.

Short-Term Factors Affecting The Budget

- The Board of County Commissioners has contracts with four collective bargaining units. The following represent general information on each:
 - **American Federation of State, County and Municipal Employees (AFSCME) Local 167**
Contract start: October 1, 2023
Contract end: September 30, 2025
Departments covered: Animal Services, Code Enforcement, Fleet Services, Facilities Management, Regional Parks Services, Public Utilities, and Public Works.
 - **International Association of Firefighters (IAFF) Local 2294 PARAMEDICS AND TELECOMMUNICATOR UNIT**
Contract start: October 1, 2021
Contract end: September 30, 2024
Departments covered: Public Safety Services - Fire Rescue & Emergency Dispatch/Communications.
 - **International Association of Firefighters (IAFF) Local 2294 SUPPRESSION UNIT**
Contract start: October 1, 2021
Contract end: September 30, 2024
Departments covered: Public Safety Services - Fire Rescue.
 - **International Association of Firefighters (IAFF) Local 2294 SUPERVISORS UNIT**
Contract start: October 1, 2021
Contract end: September 30, 2024
Department covered: Public Safety Services - Fire Rescue.

Operating Expenses reflect costs of supplies, utilities, fuel, rent, professional services contracts, etc. This category also includes funds provided by the County to support outside organizations – primarily non-profits.

- Operating budgets supported by the County’s two major tax funds declined during FY 08 through FY 13 due to Legislative actions and worsening economic conditions. This trend reversed in FY 14, and the FY 14 budget reflected an overall increase in available resources. FY 24 will experience moderating growth in available resources as property taxes grow at a slower rate, coupled with more rapid cost increases in a high inflation environment and tight labor markets.
- The “Grants and Aids” component of Operating Expenses reflects funds that the County receives but passes through to other governments. A notable example are the annual portions of the Community Investment Tax proceeds that the County pays to the School Board, municipalities, and for debt on Raymond James

Stadium. Another example is tax increment district revenue that the County receives but must pass on to the City of Tampa, the City of Temple Terrace, and the City of Plant City to finance their redevelopment projects. A third example is the distribution of the 9th cent gas tax revenue that the County receives from the State and then disburses, in part, to municipalities as required by interlocal agreements. As these revenues have grown in recent years these expenditures have grown as well.

- “Grants and Aids” also includes payments for services to various non-profit service providers. Funding sources include general County revenues, federal Community Development Block Grants and tourist development taxes. In addition, the payments reflect the County’s role as a regional recipient of federal grants (such as Ryan White grants that fund AIDS programs), which are pass-through funds which the County receives and then passes on to providers of services in Pinellas and Pasco Counties.

Equipment reflects costs of fleet, data processing and other equipment such as playground and recreation equipment. High inflation in 2022 and 2023 have resulted in faster growth of equipment costs.

The Capital Budget

A separate summary presenting details on FY 24 projects appears in the back of this document. The entire capital improvement program (CIP) can be reviewed in the volume containing the **Capital Improvement Program FY 24 - FY 29**.

The annual budgeting approach is used to budget capital projects and provides improved transparency in the County’s budget. All appropriated and unspent dollars are rebudgeted each year.

Other key points regarding the capital budget are:

- Bond proceeds are funding transportation projects, new or replacement fire stations, emergency generators, park improvements and four key hardened maintenance facilities to serve as operations centers during disasters.
- Sustainability initiatives are also being funded by bond proceeds and include solar projects and LED lighting at various County facilities and sports fields. Other one-time funds have been used to renovate libraries and sports courts.
- The capital program continues to reflect one percent of ad valorem revenues from the Countywide General Fund being set aside to maintain existing County facilities. For FY 24 two and one-half percent from the unincorporated Area General Fund of ad valorem revenues are set aside for maintenance.

Short-Term Factors Affecting The Budget

The biennial budget process used to develop this document was adopted by the BOCC in 1995. In September 2023 the BOCC adopted the first year of the fifteenth biennial budget for FY 24.

The FY 14 through FY 20 Adopted Budgets reflected a return to revenue growth after deep recession. The FY 21 budget reflected significant economic and revenue impacts of the COVID-19 emergency while maintaining service delivery. The Adopted FY 22 budget continued to recognize the impact of COVID and the gathering economic recovery from COVID as COVID receded. The Adopted FY 23 Budget reflected higher costs as inflation and supply chain issues worsened as an emphasis on investing in County staff. The FY 24 Adopted Budget continues that emphasis on investing in County staff as well as maintaining our assets and financial stability as the economy slows.

ECONOMIC FACTORS

After pandemic lockdowns caused a 28.0% decline in second quarter 2020 US Gross Domestic Product (GDP) growth turned strongly positive, 34.8%, in the third quarter before slowing to 4.2% in the fourth quarter. Average annual GDP fell 2.2% in 2020, the second largest decline since 1946. Economic growth in the 2021 accelerated to 5.8%, the largest increase since 1984. Growth faltered in early 2022, declining 2.0% in the first quarter followed by a 0.6% drop in the second quarter. Higher inflation, the unwinding of pent-up consumer demand and war in Ukraine were restraining factors. GDP growth turned positive, 2.7%, for the third quarter of 2022 and finished 2022 at 1.9%. Growth has since slowed as inflation, though slowing, remains stubbornly high and higher interest rates slow housing and retail markets. Second quarter 2023 growth slowed to 2.1%.

As interest rates climbed and housing and retail sales slowed, recession fears have risen. While many forecasters expected a recession to begin in mid-2023, the economy's resiliency has surprised. Those expecting a recession now foresee it occurring in early or mid-2024. The median forecast from the National Association for Business Economics (NABE) expects a marked slowdown in economic growth with a recession narrowly avoided. NABE is forecasting a modest 1.0% increase in GDP for the fourth quarter 2023. For all of 2023, Moody's forecasts an annual GDP increase of 2.0% followed by growth of 1.1% in 2024. Downside risks are predominant as high interest rate negatively impact slowing housing and retail markets. (See later sections in the Executive Summary entitled "Major County Revenues" and "Economic Indicators" for more detail).

USES OF FUNDS

The Operating Budget

A key component of the budget is the operating budget which includes expenditures on personnel compensation, operating expenses and equipment (also referred to as capital outlay). The operating budget is a primary focus as it funds the cost of day-to-

day services to County residents. The operating budget also includes pass-throughs that now account for an increasing share of the operating budget and a significant share of the annual increase in the operating budget.

With that caveat, it still represents the best focus for comparison of how the budget is changing over time, ignoring the spending down of borrowed funds for projects and the occasional fluctuations in debt service requirements resulting from debt refinancing and other activity.

There are factors that drive up the operating budget even in times of tight resources. One is continuing population growth as shown in the section titled "Economic Indicators." A second is inflation. In some program areas, demand for specific services far outstrips the overall population growth. Increasingly, the County works to improve the collection of performance measures to identify these high levels of demand for County services and to track performance in meeting the demands.

In September 2021 County Administration presented to the BOCC options to use the American Rescue Plan funding received from the Federal Government to aid state and local governments with COVID-19 response and recovery. The approved high-level plan was incorporated in the Adopted FY 22 and FY 23 budgets and continues in the Adopted FY 24 budget.

Personal Services (Compensation) reflects salaries of elected officials, salaried and hourly employees and temporary employees. It includes overtime pay, mandatory contributions to the Florida Retirement System (FRS), social security and Medicare taxes, employee health insurance and life insurance premiums, disability insurance, workers compensation assessments and wage loss payments. These benefits are subject to annual review and revision.

- The challenging labor markets are creating retention and recruiting difficulties for many private and public employers. The Adopted FY 24 budget includes funding for compensation adjustments reflecting a continuing commitment to investing in our County staff.
- The BOCC adopted service standard for Code Enforcement Officers is one Officer for every 18,000 persons in the unincorporated area of the County. The adopted service standard for law enforcement for the unincorporated area, is 1.7 sworn deputies per 1,000 citizens. Neither of these standards is currently being met due to on-going revenue constraints related to recent legislative actions and general economic conditions.

Long-Term Financial Planning

PLANNING FOR SUSTAINABILITY

Hillsborough County employs a variety of long-term financial planning tools with the aim of achieving and maintaining a strong financial management function fostering sustainable County service levels. The implementation and use of these tools were the critical factor enabling the County to not only maintain service levels through the pandemic but to also retain “AAA” general obligation bond ratings from all three major credit rating agencies during that same time. The County continues to employ long-term planning tools to maintain sustainability and secure community prosperity.

LONG TERM FINANCIAL PLANNING

Long-term financial planning tools used by Hillsborough County include the following:

- The local planning agency, the Hillsborough County City-County Planning Commission, produces and periodically updates Comprehensive Plans for unincorporated Hillsborough County and the County’s three municipalities. These are twenty-year plans that serve as a blueprint for future growth. The Hillsborough County plan is used to guide many budget decisions.
- Periodically, certain departments contract for the production of long-range Master Plans. Recent examples of departments producing Master Plans include Parks & Recreation, Fire Rescue, and Animal Services.
- On an annual basis, the County’s Economist produces a Pro Forma Analysis combining current policies and practices with expectations of future economic conditions to project the County’s General Funds financial position five years out into the future. The model also includes sensitivity analysis which allows for changing assumptions. An indicated surplus or deficit in the General Funds frames the budget process for the following fiscal year. The FY 23 – FY 28 five-year Pro Forma with related graphs appears in the Supplemental Information section of this document. The Pro Forma incorporates slower ad valorem revenue growth due to higher mortgage rates and home prices restraining the housing market and slower growing sales tax revenues compared to FY 22 and FY 23 as economic growth moderates or, perhaps, even dips into a brief recession. Revenue in later years is expected to grow at more historical rates. Expenditures are expected to grow with population demands and rising costs which are currently more acute due to high inflation. While the Pro Forma indicates the Countywide General Fund is in a good position to sustain these cost increases, the Unincorporated Area General Fund continues to be under stress to keep pace with demands, particularly in the areas of Fire Rescue, Parks, and Transportation. Each year the Pro Forma frames the beginning of the budget process

and the related availability of funds. As a result, the Unincorporated Area General Fund, particularly, is budgeted with those constraints in mind.

In addition to the County’s operating budget document, the County produces either a five or six year capital budget document annually, depending on whether it is the first or second year of the biennial budget. This document is the result of annually evaluating the County’s capital program and projecting future needs for both sources and uses of funds. The capital budget process also includes a component that requires a projection of the operating budget impact of each active or proposed capital project.

- The County has many Board adopted financial policies which also address long-term financial planning. All of the County’s financial policies are included in a separate section in this budget document. A sample of the policies that address long-term financial planning are as follows:
 - Grants Administration—BOCC Policy 03.01.03.00
 - Capital Budget and Capital Improvement Program—BOCC Policy 03.02.02.00
 - Use of Excess Fund Balance—BOCC Policy 03.02.02.02
 - Pay-As-You-Go Funding of Capital Improvement Projects—BOCC Policy 03.02.02.05
 - Prioritization of Capital Projects—BOCC Policy 03.02.02.06
 - Minimizing the Expense of Financing Capital Projects—BOCC Policy 03.02.02.07
 - Operating Impact of Capital Projects—BOCC Policy 03.02.02.08
 - User Fees and Cost Recovery—BOCC Policy 03.02.02.09
 - Multi-Year Projection of Operating Funds—BOCC Policy 03.02.02.16
 - Reserve for Cash Balance (Stabilization Funds)—BOCC Policy 03.02.02.22
 - Reserve for Catastrophic Emergencies—BOCC Policy 03.02.04.00
 - Debt Management—BOCC Policy 03.02.06.00

LONG TERM PRIORITIES

The County’s long-term priorities are:

- improving our transportation system
- preserving existing County facilities and infrastructure
- public safety

Basis of Budgeting

THE BASIS OF ACCOUNTING

For the most part, governmental accounting and financial reporting are conducted consistent with Generally Accepted Accounting Principles (GAAP).

“Basis of Accounting” refers to the specific time at which revenues and expenditures are recognized in accounts and reported in financial statements. Hillsborough County’s governmental funds use the modified accrual basis of accounting. Revenues are recorded when they become both measurable and available to pay liabilities of the current period. Expenditures are recorded when an obligation to pay is incurred. Proprietary funds use an accrual basis of accounting similar to that used by private businesses. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

THE BASIS OF BUDGETING

The County uses the modified accrual basis of budgeting for both governmental funds and proprietary funds. There is no requirement that the budget be prepared consistent with GAAP. However, the comparison of budget to actual revenues and expenditures in a subsequent *Annual Comprehensive Financial Report* (ACFR) requires a reconciliation of the budgetary basis to GAAP basis. In order to minimize the required reconciliation the budget is prepared largely consistent with GAAP.

Important differences arise when comparing the basis of budgeting used to develop the County’s budget and the basis of accounting used in the ACFR as prepared by the Clerk of Circuit Court. These differences include:

- Budgets for the Sheriff’s Law Enforcement Fund, the Property Appraiser’s Property Assessment Fund, and the Clerk of Circuit Court’s Court System and Accounting Fund reflect transfers of funds from the General Fund and other BOCC funds. The ACFR excludes these transfers.
- On a budgetary basis, the Sheriff’s Law Enforcement Fund and the Clerk of Circuit Court’s Fund includes only the current year’s payments for certain capital leases related to equipment purchases. On a GAAP basis, the full obligation is recognized and the debt service payments are recorded as appropriate.
- On a budgetary basis, cost reimbursement type grant revenues and expenditures in the Sheriff’s Law Enforcement Fund are netted. On a GAAP basis, revenues and expenditures from these grants are presented at gross amounts in the financial statements.

- On a budgetary basis, the distribution of excess fees from the Property Appraiser’s and Tax Collector’s Funds to entities outside the County’s reporting entity is reported as an “other financing use”. On a GAAP basis, these distributions are reported as expenditures due to a reduction in the net financial resources of the County.
- The budget does not disclose the fund structure maintained by the Sheriff, Clerk, Property Appraiser, or Tax Collector, including an unbudgeted Inmate Canteen Fund used by the Sheriff and a fee-based budget maintained by the Clerk which uses funds that do not pass through the BOCC budget. The Property Appraiser and Tax Collector receive revenues directly from other taxing authorities and proportionately disperse unspent funds at year end.
- Proprietary funds, which include internal service funds (such as fleet, employee health insurance, workers’ compensation, and risk management), and enterprise funds (the water and wastewater system and the solid waste system), are presented in the same budgetary format as the governmental funds. This allows various revenues and expenditures to be presented in a consistent format without regard to the fund type and how accounting standards will require them to be presented. The ACFR, however, presents the proprietary funds in a format that breaks out operating revenues and operating expenses to determine operating income prior to considering non-operating revenues and expenses.
- The budget does not include estimates of the annual change in value of investments, nor does it anticipate changes in the accrual of compensated absences including sick and vacation leave.
- The ACFR reflects the adopted budget and final revised budget including amendments occurring after the completion of the fiscal year. The adopted budget is a management plan for financial activity. Budget documents, therefore, typically disclose historical actuals for revenues and other sources, and expenditures and other uses rather than revised budgets.

The Process of Adopting the Budget

Florida law requires an annual budget, including all such funds as required by law, to be prepared, approved and adopted for each fiscal year. The budget shall control the levy of taxes and expenditure of money for all County purposes during the ensuing fiscal year. The budget process must be conducted in accordance with Chapters 125, 129, 200, and 218 of the Florida Statutes, as amended. Additionally, the Hillsborough County Board of County Commissioners (BOCC) has adopted a two year, biennial budget process.

BIENNIAL (TWO-YEAR) BUDGETING

The biennial budget process used to develop this document was adopted by the BOCC in 1995. While Florida Statutes require an annual process to adopt the budget, local governments are not prohibited from developing a budget plan for a second year. In this way, when it is time to legally adopt the second year of the budget plan, the process of preparing the adopted budget requires much less staff time to update the original plan. The update process accommodates necessary changes during each year as unplanned circumstances arise. Opportunities for public input are included in the abbreviated update process. In 2021, the BOCC adopted its fourteenth biennial budget for FY 22 and FY 23.

SPECIFIC LEGAL REQUIREMENTS

While the County employs a biennial budget process, Florida Statutes set forth requirements to adopt the annual budget for the ensuing fiscal year. Primary requirements include:

- By June 1, the Property Appraiser must send an estimate of the total assessed value of nonexempt property for the current year to the Hillsborough County Board of County Commissioners (BOCC).
- By July 1, the Property Appraiser must certify the preliminary taxable value of property within each taxing district. Taxable values for each Tax Increment Financing District must be provided.
- Within 35 days of either July 1 or the date the Property Appraiser certifies the taxable value of property, whichever is later, the BOCC must tell the property appraiser prior year millage rates, proposed current year millage rates, the current year roll-back rate (the millage rate that will generate the same amount of revenue as the prior year for existing construction) as specified by s. 200.065, F.S., and the date, time and place for the first statutorily required public hearing on the proposed budget and millage rates.
- Within 65 to 80 days of July 1 or the date the Property Appraiser certifies the taxable value, the BOCC must hold a public hearing, after 5:00 p.m., to hear public testimony and to adopt a tentative budget and tentative millage rates. The date, time (after 5:00 p.m.) and place for the second required public hearing is set at this time.

- Within 15 days after the first statutorily required public hearing, the County is required to publish two budget advertisements in a newspaper of general circulation in the County. One advertisement notifies county residents of the BOCC's intent to adopt final millage rates and a final budget, identifying any increase in property taxes. The second advertisement summarizes the tentative budget, showing for each budget and for the total of all budgets, the proposed millage rates, balances, reserves, and major revenue and expenditure classifications.
- No earlier than 2 days and no later than 5 days after the advertisements have been published the second statutorily required public hearing must be held to receive public input and to adopt final millage rates and the final budget.
- Within 3 days of the final public hearing, copies of completed ordinances or resolutions adopting the final millages and budget must be forwarded to the Property Appraiser, the Tax Collector, and the Florida Department of Revenue.
- Within 30 days following adoption of the resolution establishing the property tax levy, the BOCC must certify to the Florida Department of Revenue that they have complied with the provisions of Chapter 200, F.S.
- Copies of the adopted budget are filed with the Clerk of the BOCC as public records.

Upon final adoption of the budget, the budget shall regulate expenditures of the County and the budget shall not be amended, except as provided in Chapter 129.06, Florida Statutes. Pursuant to Chapter 129.07, Florida Statutes, it is unlawful for the BOCC to expend or contract for expenditures in excess of budgeted amounts in each fund.

ADOPTING THE FY 24 BUDGET

In addition to complying with specific legal requirements for budget adoption and levying property taxes, the County's budget process consists of four distinct phases.

The Planning Phase began October 1, 2022 with a review of the FY 23 budget process and consideration of comments from the review of prior budget documents by the Government Finance Officers Association (GFOA). The County received GFOA's *Distinguished Budget Presentation Award* for the FY 22 - FY 23 Biennial Budget. The planning phase included the preparation of budget instructions, examples, and training materials.

The Process of Adopting the Budget

The Preparation Phase began with February delivery of budget instructions to departments. The instructions highlighted the County's focus on sustainability. One workshop and two public hearings will be held during this year's budget process. During these workshops and public hearings, as well as during regular meetings, the Board of County Commissioners discusses budget priorities and strategies and goals for the coming fiscal year.

- Although Florida Statutes allow most Constitutional Officers to submit their budgets on June 1st, the Board approved a resolution, as allowed by Florida statutes, requiring the Sheriff, Clerk of the Circuit Court, and the Supervisor of Elections to submit their budgets by May 1st.

The Review Phase consisted of a review of department and agency budget submissions by the County Administrator, the Budget Office, and the Executive Team. This phase also included several meetings with each commissioner to identify their needs and to communicate the needs of County departments and agencies.

The Public Adoption Phase began with the formal presentation of the **County Administrator's Recommended Budget for FY 24** at the BOCC's regular July 12, 2023, meeting. The public process of review, change, and formal adoption will conclude in mid-September. The public hearings in September are

required by State law. Three important milestones will occur during the adoption phase:

- Proposed millage rates for FY 24 were set at the July 27th Board Budget Reconciliation Workshop. The Property Appraiser used these proposed millage rates to prepare Truth-in-Millage (TRIM) notices that were mailed in mid-August. A TRIM notice advises a property owner of how tax rates proposed by local taxing authorities, combined with the current taxable value of that property, will affect the taxes assessed on that property. The TRIM notice is the official notification of the time and place of the first State-required public hearing to adopt the tentative millage rates and tentative budget for each taxing authority.
- The first of two State required public budget hearings was held on September 14, 2023. After hearing public testimony, the BOCC adopted the tentative millage rates and a tentative FY 24 budget.
- The BOCC adopted the FY 24 budget and millage rates at a second public hearing on September 21, 2023. As required by statute, the second public hearing was advertised in the Tampa Bay Times, a newspaper of general circulation with a published notice containing detailed information of the tentative millage rates and the tentative budget.

The Process of Adopting the Budget

BUDGET PROCESS MILESTONES

Planning

- **October - December 2022** - Staff reviews the previous biennial budget process, comments from GFOA reviewers, and Board policies.

Preparation

- **March 2023**—Budget submissions due from all organizations except Constitutional Officers
- **May 1, 2023**—Budget submissions due from Sheriff, Clerk, and Supervisor of Elections
- **May 10, 2023**—Budget Workshop - Budget Overview
- **June 1, 2023**—Budget submission due from Property Appraiser
- **June 8, 2023**—Budget Workshop Budget - Overview Water Resources, Solid Waste and Stormwater
- **July 25, 2023**—Budget Workshop -Transportation and Public Safety

Review

- **February-June**—County Administrator review of proposed budgets and decision units with Management and Budget Department staff and Departments
- **April-May**—Budget meetings with commissioners to discuss budget priorities.
- **June 1, 2023**—Preliminary tax roll information from the Property Appraiser's Office available.

Public Adoption

- **July 12, 2023**—County Administrator delivered the **Recommended Budget for FY 24** and the **Recommended Capital Improvement Program FY 24 - FY 29** to the Board of County Commissioners.
- **Budget Workshops During Adoption Phase:**
July 27, 2023—Budget Reconciliation and Setting of TRIM millage rates
- **Mandatory Public Hearings**
September 14, 2023—First State Required Public Hearing to adopt tentative millage rates and a tentative budget.
September 21, 2023—Second State Required Public Hearing to adopt final millage rates and the FY 24 operating and capital budgets.

Procedures for Amending the Budget

For a full discussion of the County's budget process, see **The Process of Adopting the Budget** section in this budget document.

After formal adoption of the budget each September by the Board of County Commissioners (BOCC) for the fiscal year beginning October 1st, changes may only be made to the adopted budget with a budget amendment. An amendment is a BOCC agenda item processed to increase or to decrease an existing budget. When a budget is amended, an offset is required to ensure that the budget remains in balance. At no time can the budget be amended so that it is no longer balanced.

Items requiring action by the BOCC are initiated by the individual department or agency requesting the action item. Action items are documented on an Agenda Item Cover Sheet Form. Action items for BOCC action fall into one of two categories: actions that have no impact on the adopted budget, and actions requiring an amendment to the adopted budget. In requesting a budget amendment, the following additional information is required:

- The subject section of the Agenda Item Cover Sheet Form must state "Request for Budget Amendment Resolution" and identify the subject of the amendment and the fiscal year impacted.
- The recommendation section of the cover sheet must state where funds are coming from and where funds are going; justification on why the action is needed; and the amount of the increase or decrease.
- The financial impact section of the cover sheet must state the impact of the change on the current year's budget as well as any recurring impact on future years' budgets. Any change to reserves reflect the balance of the reserve both prior to and subsequent to the changes requested in the budget amendment.
- A separate form entitled Line Item Detail showing the specific line item accounts affected must accompany the Agenda Item Cover Sheet Form.
- Each department director is responsible for initiating agenda items, via an electronic agenda workflow system, that affect their department's activities or budget. The completed Agenda Item Cover Sheet Form with the Line Item

Detail Form, including the estimated impact on the next fiscal year and any other appropriate information, is electronically signed by the department director and then forwarded for review through the organization. Electronic review and signature is performed in the following sequence:

- Department Director
- Management and Budget Department
- County Attorney's Office (concurrent with review and approval by Management and Budget)
- Administrator (required for departments under the County Administrator).

All budget amendments, approved by the above referenced organizations/staff, are processed by the Administrative Services Section of the County Administrator's Office for final coordination and preparation of the BOCC's agenda. Copies of all budget amendments are electronically forwarded to the Clerk of the Circuit Court's Finance Department to facilitate pre-audit of the proposed budget revisions.

As part of the overall review process, the Management and Budget Department reviews the proposed budget amendment for accuracy, availability of funds, completeness, compliance with BOCC Policies and other matters considered appropriate for good financial management. If changes or corrections to a budget amendment are required, the item is electronically rejected back to the originating department for revision and resubmitted for electronic approval.

In accordance with BOCC Policy 03.02.05.00, any budget amendment that requires a drawdown on the reserve for contingency in either the Countywide General Fund or the Unincorporated Area General Fund must be approved by a super majority vote of the BOCC.

Upon final approval by the BOCC, the budget amendment is posted to the financial system, a budget resolution is prepared by the Clerk to the BOCC, signed by the Chairman of the BOCC and forwarded to the Clerk's Office for inclusion in the Board's official records.

Budget Summary

Fiscal Year	FY 22 Actuals	FY 23 Adopted	FY 24 Adopted	FY 25 Planned
PROPERTY TAX RATES (In Mills)				
Countywide ⁽¹⁾	5.7913	5.7913	5.7913	5.7913

Carryforward ⁽¹⁰⁾	0.0	0.0	0.0	1,210.0
Total Capital Budget	\$ 274.2	\$ 1,954.8	\$ 1,615.1	\$ 1,903.1

Detail may not add to totals because of rounding.

- ⁽¹⁾ See the pages entitled Millage Comparison for an explanation of countywide millage rates. Countywide includes millage levy for Environmental Land Acquisition General Obligation millage.
- ⁽²⁾ Assessed on properties within the City of Tampa and the unincorporated areas of the County only.
- ⁽³⁾ Assessed only on properties in the unincorporated area - includes Parks General Obligation millage.
- ⁽⁴⁾ Based on taxable assessed values as of July 1.
- ⁽⁵⁾ Excludes interfund transfers, which represent accounting entries to move monies from one fund to another.
- ⁽⁶⁾ Reflects budget for capital projects included in the County Capital Improvement Program. These amounts can include both capital and operating expenditures, and may differ from total capital expenditures shown in other schedules.
- ⁽⁷⁾ Debt service amount reflects debt service capital and interest payments only; it includes other expenses associated with debt.
- ⁽⁸⁾ Reserves are budgeted but not expended. Actual expenditures for the operating budget, capital budget, or debt service may include drawdown of reserves. Actual expenditures shown in previous years reflect refunds.
- ⁽⁹⁾ Reflects expenditures that are not allocable to a single department.
- ⁽¹⁰⁾ Reflects projects balance carried forward from prior year.

1. Other financing sources are net of a 5% reduction of revenues as required by Florida Law. These reductions will offset other financing sources, and in certain funds, result in a negative number in this category.

2. This category includes Unincorporated Area Special Revenue Funds, Library Tax District Special Revenue Funds, Discretely Presented Component Unit Funds (City-County Planning Commission), Debt Service Funds, Capital Project Funds, BOCC General Agency Funds and Local Assistance Program Fund.

3. Debt Service as shown on this schedule reflects only costs charged to a debt account as defined by the Florida Uniform Accounting System. It excludes debt related costs charged to operating expense accounts, such as consulting fees.

4. Includes Transportation Surtax.

5. Due to new definitions for Fiduciary and Agency Funds, some funds previously identified as Agency Funds are reported in Water/Wastewater Resources Funds.

1. Includes only costs included in the Capital Improvement Program(CIP). Excludes capital funding not associated with a CIP project.
2. Includes all costs related to debt service, not only costs associated with interest and principal payments, and includes consulting fees and other costs not classified as Debt Service under the Florida Uniform Accounting System.
3. This category includes Unincorporated Area Special Revenue Funds, Library Tax District Special Revenue Funds, Discretely Presented Component Unit Funds (City-County Planning Commission), Debt Service Funds, Capital Projects Funds, BOCC General Agency Funds, and Local Housing Assistance Program.
4. Includes Transportation Surtax.
5. Due to new definitions for Fiduciary and Agency Funds, some funds previously identified as Agency Funds are reported in Water/Wastewater Resources Funds.

Detail may not add to totals because of rounding.

1. Other non revenues include debt proceeds for Enterprise Funds, unspent funds returned by Board funded Constitutional Officers, and 5% statutory reductor

2. Excludes certain debt issuance related costs not categorized as debt under the State of Florida Uniform Accounting System.

Budget Sources and Uses of Funds

Note: Sources and Uses shown above exclude \$1,470.3 billion in Transfers In and Transfers Out, respectively. With the exception of Fund Balance, Other Non-Revenues, and Transfers In many of the other revenues are subject to a statutory 5% reduction. Totals may not add up to 100% due to rounding.

Summary of Funded Full-Time Equivalent Positions and Funded Positions

Organization	FY 20 Adopted	FY 21 Adopted	FY 22 Adopted	FY 23 Adopted	FY24 Adopted	Changes FY 23 to FY24

Budget by Program

The following charts provide a graphic presentation of the County's budget by program. Program categories reflected in this document are defined by the State of Florida, and those definitions have been redefined somewhat over time. To the extent they are similarly applied by local governments, they provide information that can be compared from jurisdiction to jurisdiction. A breakout of the budget by program allows an assessment of the priorities that are reflected in this budget. Such a presentation allows the reader to see how much of the budget has been allocated to a particular purpose regardless of which organization provides the service.

The first chart provides an overview across all funding sources. While it portrays the most global picture of priorities, the Board of County Commissioners may have little or no discretion in how some funding sources are allocated to programs. For example, gasoline tax revenue may be only allocated to the transportation program. A grant for services to the elderly may be only allocated to human services. Self-funded operations such as the County's water/wastewater enterprise and solid waste enterprise pay their way through user fees and charges. The revenue generated by these "physical environment" services is not available for any other use.

The remaining charts provide an overview for a smaller portion of the budget: the two major operating funds – each of which relies primarily on property taxes. These funds are the Countywide General Fund and the Unincorporated Area General Fund.

- ✓ *The **All Funds** chart provides a picture of total existing program funding.*
- ✓ *The **Countywide General Fund** chart and the **Unincorporated Area General Fund** chart each provide information on where tradeoffs may be most easily made between programs. A reallocation of these discretionary funds would subsequently change the **All Funds** chart to reflect the new priorities.*

In preparing the charts, certain components of the budget have been excluded. All charts exclude reserves. Reserves are non-recurring components of the budget that cannot be used to meet

recurring program needs. Reserves are required for several reasons: for bond financing requirements, to accumulate funds for repair and replacement of existing assets, or to provide stop-gap funding in the event of a revenue shortfall or unanticipated cost.

All charts also exclude administrative or "general government" costs. Some of these costs are legally required while others are discretionary. Legal requirements include the commission paid to the Tax Collector for collecting County taxes, County Commissioners' salaries, the Property Appraiser's budget approved by the Florida Department of Revenue, and funding to other governments required by the referendum that approved the Community Investment Tax (a local option sales tax). Major components of general government are presented in the tables that follow the charts. Both discretionary and legal requirements are needed to support the direct services to citizens reflected in the various programs shown in each chart.

The presentation in these charts is not intended to suggest that changes cannot be made in administrative (general government) areas of the budget, but such changes may impact the delivery of numerous direct services in other program areas. For example, a reduction in the allocation of funding to financial services in order to shift funding from the general government program to the transportation program could result in slower payment processing to not only the expanded transportation program, but also to all other existing programs. A shift in property tax funding from, for example, an economic environment program to transportation is more feasible, since it would be unlikely to impact any other programs.

*Because of the difference in dollar value of the three charts, a re-allocation of priorities in either of the tax funds charts would have a smaller impact in shifting priorities in the **All Funds** chart.*

For example, to increase the allocation to economic environment and housing in the **All Funds – FY 24** chart by one percentage point would require an added \$42.8 million increase in funding. A \$42.8 million shift to economic environment and housing in the **Unincorporated Area General Fund** would require an 8.36 percentage point shift in priorities from one or more other program areas because each percentage point shift in that fund equals only \$5.1 million.

Program Descriptions

The Budget by Program schedules in the following pages reflect expenditures by major State of Florida Uniform Accounting System (UAS) classifications. The classification descriptions below will assist the reader in understanding what major County services and functions are included within each classification. They appear in the same order in which they appear in the detailed schedules. For those interested, the complete State of Florida Uniform Accounting System Manual is available as a downloadable file from the State of Florida website.

Public Safety – services related to the security of persons and property. These include:

- **Law Enforcement** – expenditures related to enforcement of applicable laws by the Sheriff's Office and other law enforcement agencies.
- **Fire Rescue** – expenditures related to both fire control and ambulance and rescue services.
- **Detention/Corrections** – expenditures related to confinement of prisoners, sentenced or otherwise, and rehabilitation of offenders. These include costs associated with the County jail, parole and probation services, juvenile homes, work release programs and other related expenses.
- **Public Safety Protective Inspections** - expenditures related to provision of inspections relevant to issuance of a license, permit or certificate relating to public safety not included elsewhere. These include costs relating to code enforcement inspections, childcare facility inspections and building and zoning inspections.
- **Emergency and Disaster Relief Services** - expenditures related to defense against and relief from disasters. These include costs associated with County emergency management, including operating the Emergency Operations Center, certain Fire Rescue operations and other emergency preparation and relief costs.

Physical Environment – services for achieving a satisfactory living environment by controlling and utilizing elements of the environment. These include:

- **Solid Waste** – expenditures related to collection and disposal of garbage, refuse and solid waste.
- **Water/Sewer Combination Services** - expenditures related to provision of water and sewer services as a combined unit operation.

- **Conservation and Resource Management** - expenditures related to conservation and management of natural resources. These include costs relating to environmental protection, aquatic plant control, programs run by the Extension Department, the County Environmentally Sensitive Land Acquisition Program, review of development plans for determination of environmental impact and other related costs.
- **Flood Control** – expenditures related to flood control programs and facilities, primarily encompassed in the County stormwater program.
- **Other Physical Environment** – all other expenditures related to the physical environment not provided for above. These costs primarily include review of development plans for environmental impacts.

Transportation – services for provision of safe and adequate flow of vehicles, travelers, and pedestrians. These include:

- **Road and Street Facilities** – expenditures related to provision and maintenance of road and street facilities and ancillary facilities such as bridges, viaducts, sidewalks, traffic control devices, street lights, right-of-way, shoulders and other facilities incidental to the proper movement of traffic.
- **Transport Transit Systems** – expenditures related to the provision of mass transit systems. This consists primarily of funds provided to the Hillsborough Area Regional Transit Authority (HART) from transportation impact fee revenues.
- **Other Transportation** – all other transportation related expenditures not provided for above.

Economic Environment – services related to development and improvement of the economic condition of the community and its residents. These include:

- **Industry Development** – expenditures related to promotion and encouragement of industry development which will directly or indirectly benefit the community. This includes promotion of tourism as well as encouragement of a desirable firm or industry to relocate to the County.
- **Veterans Services** – expenditures related to the provision of services including counseling, assistance in attaining educational and financial benefits, housing, and employment opportunities to eligible veterans. These costs also include the County's expenditures for the ad valorem tax relief program for veterans.

Program Descriptions

- **Housing and Urban Development** – expenditures related to the provision of public housing and other urban development projects. These costs include affordable housing, Section 8 housing, and Community Development Block Grant fund expenditures.
- **Other Economic Environment** – all other costs primarily related to the economic environment not already provided for above. These costs include the impact fee waiver program implemented to encourage development in targeted areas of the County, and grants to non-profit agencies providing tourism or economic development related services.

Human Services – services for care, treatment and control of human illness, injury or handicap; and for the welfare of the community as a whole and its individuals. These include mental health, physical health, public assistance programs, indigent health care, and programs to assist developmentally disabled persons. These include:

- **Health – expenditures** related to the provision of nursing, dental, diagnostic, rehabilitation and other services for the care and treatment of the sick, and for the control and prevention of disease. These costs include the County indigent health care program, mosquito control, physical health and well-being services provided by the Health and Social Services Department, certain animal services costs and the County's annual contribution to Tampa General Hospital.
- **Mental Health** – expenditures related to diagnosis and treatment of mental illnesses, and the provision of mental health services for public use. These costs primarily consist of mental health services provided by the Health and Social Services Department.
- **Human Services Public Assistance** – expenditures related to the provision of economic assistance to the indigent residents of the County, including case management, counseling, general assistance, and indigent burial services.
- **Other Human Services** – expenditures related to the provision of other human services that cannot reasonably be classified into one of the above classifications. These include services to the aging, children's services, Head Start and Early Head Start, respite care programs, transportation assistance, food programs, education and counseling programs and grants to non-profit agencies providing rehabilitation and care programs.

Culture/Recreation – services related to the provision and maintenance of cultural and recreational facilities and activities for the benefit of citizens and visitors. These include:

- **Libraries** – expenditures related to the provision, maintenance and operation of library facilities and services.

- **Parks and Recreation** – expenditures related to the provision and operation of recreational facilities and activities for both participant and spectator involvement, including parks and recreational facilities, but excluding stadiums, auditoriums, civic centers, and marinas.
- **Cultural Services** – expenditures related to the provision and maintenance of facilities and services for citizen involvement in activities of a cultural nature. These include any County funding for the Museum of Science and Industry, the Lowry Park Zoo, the Tampa Aquarium, and the Performing Arts Center.
- **Special Recreation Facilities** – expenditures related to the provision and maintenance of special purpose facilities such as stadiums, auditoriums, civic centers, and marinas. These costs include funding provided to the Tampa Sports Authority relating to the County's share of operating deficits and ad valorem taxes for the Raymond James Stadium, Legends Field, and the St. Petersburg Times Forum and debt service related to certain stadium related bond issues.
- **Other Culture/Recreation** – expenditures related to the maintenance of other cultural or recreational services not otherwise classified above. These include funds provided for historic landmark preservation, the public art program and funding provided to non-profit agencies providing cultural or recreational services to County residents.

Courts – expenditures for State mandated County payments for the Judicial Branch, State Attorney, Public Defender, Conflict Counsel and Guardian Ad Litem facilities and technology.

General Government Services – non-court related services provided by the legislative and administrative branches of the County for the benefit of the public and the governmental body as a whole. This does not include administrative services provided by a specific department in support of services including in another classification above. These include:

- **Legislative** – direct costs charged for the performance of the Board of County Commissioners' primary and subsidiary activities.
- **Executive** – expenditures related to the provision of executive management and administration as provided by the County Administrator and other staff in the County Administrator's Office.
- **Financial and Administrative** – expenditures related to the provision of financial and administrative services including budgeting, accounting, auditing, property appraisal, tax collecting, personnel, purchasing, pension administration, communication, printing, stores, property control and grants development.

Program Descriptions

- **Legal Counsel** – expenditures related to the provision of legal services by the County Attorney's Office.
- **Comprehensive Planning** – expenditures related to the provision of master planning, zoning and development.
- **General Government Debt Service** – expenditures related to principal and interest payments and other non-proprietary fund debt associated costs.

Other General Government – expenditures related to other general government services not otherwise classified above. These include capital and maintenance for general government facilities not associated with one of the classifications previously discussed, including fleet management, communications, the County self-insurance programs, legislative delegation, procurement services, non-project specific real estate surveying, acquisition, and maintenance, maintenance and operation of parking facilities and security services.

Nonexpenditure Disbursements – Use of funds that do not represent expenditures for operating or capital purposes. Includes inter- and intrafund transfers and reserves and refunds.

- **Transfers** – represent transfers from one County fund to another, which are not repayable and do not constitute payment or reimbursement for goods provided or services performed, and do not represent an expenditure of the County as whole.
- **Reserves and Refunds** – reserves represent non-spendable budgetary appropriations. Before reserves can be expended, they must be appropriated for a specific use by the Board of County Commissioners. Reserves are used to provide a mechanism to meet unanticipated costs relating to normal operations or disasters, to provide a cushion against revenue shortfalls, or to set aside funding for future use. Certain types of reserves may be required by bond covenants or other agreements. Refunds relate to reimbursements by the County in the current fiscal year to payors for revenues received in a prior fiscal year.

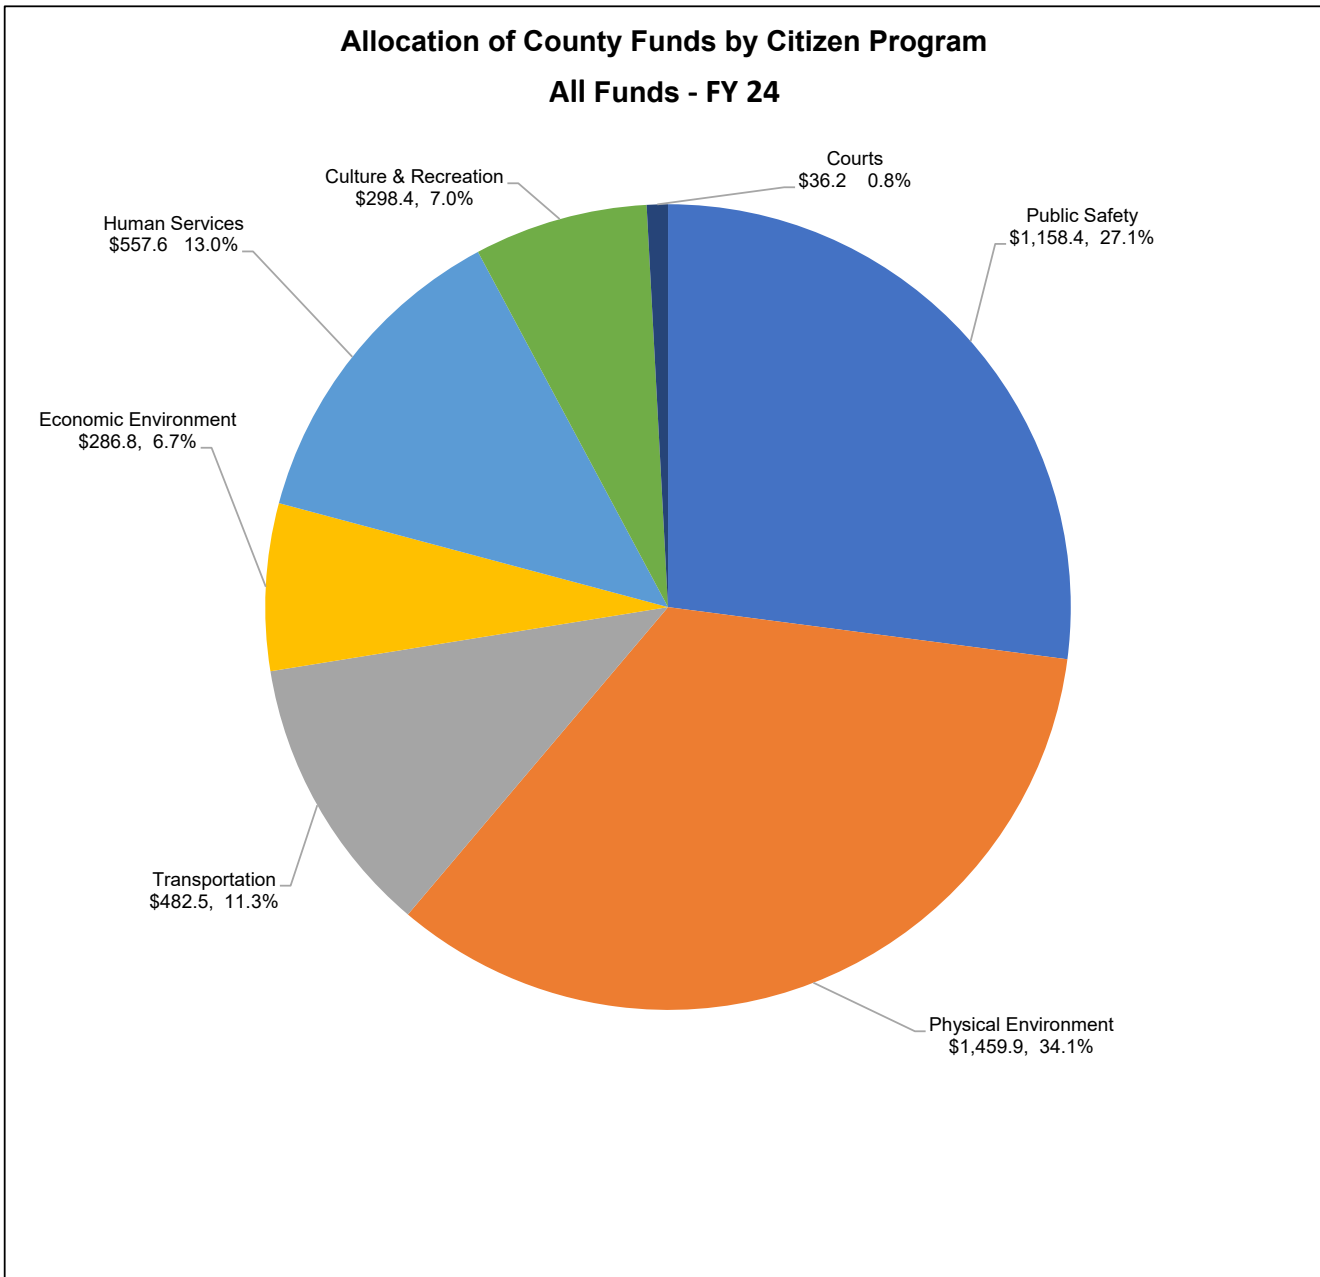

Other Nonoperating Costs – payments by proprietary funds (enterprise funds) other than those for operating purposes. These consist primarily of budgeted interest and principal for debt service on enterprise fund commercial paper and long-term debt.

Notes:

¹ Amounts shown include Special Assessment debt but do not include County contributions to the Tampa Sports Authority for debt service on the outstanding bonds of the Authority.

² Includes fees paid for trustees, paying agent and registrar services, remarketing and Letter of Credit fees.

³ The principal amount of outstanding bonds placed in irrevocable escrow for payment when due or callable. Does not include principal payments made from Commercial Paper rollover notes which are shown separately below.

⁴ Includes debt issuance costs, tax liability consultant services and assessment collection services. Under Florida Uniform Accounting Standards (UAS), these costs are not classified as debt service, but as operating costs. They are shown here to provide full disclosure of all debt related costs.

Major County Revenues

Hillsborough County relies on a several revenue sources to finance ongoing operations and construction activities. These sources of revenue include various taxes, special assessments, fines and forfeitures, fees, shared intergovernmental funding, federal, state, local and private grants, and charges for services (fees). Of these, the major revenues consist of ad valorem (property) taxes, federal and state grants, user fees funding the County's solid waste and water and wastewater utilities, fuel taxes on gasoline and diesel fuel to help fund roadway construction and maintenance, permit fees to pay for building permit and inspection programs, sales tax and other revenue shared with counties by the State of Florida, business license fees, and parks and recreation fees.

Various factors impact revenues from year to year. These include changes in overall county-wide and unincorporated area population, changes in specific service populations and associated demand for related services, overall economic trends which can contribute to increases or decreases in real disposable income (which measures residents' after-tax buying power, adjusted for inflation), changes in taxable property values, and inflation. State legislative action can also significantly impact revenues.

Economic downturns decrease real disposable income, making it more difficult for residents to pay property taxes, and results in consumers and businesses buying fewer goods which reduces revenue from sales taxes. Less real disposable income and/or higher gas prices can result in fewer miles being driven by residents, which reduce fuel tax revenue. Less disposable income negatively impacts home sales, reducing both demand for new construction and existing home resales, lowering County revenue associated with these activities. Lower real disposable income can also reduce revenues associated with tourism, as there are fewer out-of-state visitors, and those that do visit stay for shorter periods of time. Fewer visitors negatively impact revenue sources such as the tourist development tax, sales taxes and fuel taxes.

Each March and August, the Florida Legislature's Office of Economic & Demographic Research (EDR) publishes statewide revenue projections from the Florida Revenue Estimating Conference (REC). The REC provides estimates of revenue and/or the tax base for the Local Government Half-Cent Sales Tax, Indigent Care Surtax, Community Investment Surtax, Communications Services Tax, Tourist Development Tax, various State collected fuel taxes, and the State's County Revenue Sharing program (which is based on the sales tax and a cigarette tax). Early statewide REC estimates are provided on the State's fiscal year basis (July 1 – June 30). These are converted by staff to the County's fiscal year (October 1 – September 30), and are then applied to local revenues.

Projecting County revenues based on State forecasts is just one of several forecasting methods used to project County revenues. In addition to using the REC estimates, Management and Budget

Department staff forecasts revenues using various trend forecasting methods including moving average models, year-to-date rate of growth trend, year-to-date monthly averages, regression analysis models, and calculating the average of the various estimates generated by these methods.

In addition to the Revenue Estimating Conference's state-wide forecasts, during mid- to late summer each year the Florida Department of Revenue (DOR) provides specific local guidance on revenues and/or the tax base for the Local Government Half-Cent Sales Tax, Indigent Care Surtax, Community Investment Surtax, Communications Services Tax, Tourist Development Tax, various State-collected fuel taxes and the State's County Revenue Sharing program. When appropriate, County revenue forecasts are updated using these localized DOR estimates, and normally serve as the basis for final revenue estimates for the budget adopted in September.

Estimates of revenues are gathered from a variety of sources, including professional organization forecasts, state forecasts, and federal forecasts. Operating departments, agencies, and Constitutional Officers provide estimates of revenue from program related fees (charges for services), state and federal grants, licenses and permits, fines, and assessments. Their forecasts are based on past trends, current conditions, and forecasts of future conditions.

In preparing the FY 24 budget, staff noted a small range among revenue forecast results from the various forecasting methods and consequently used the average of the various forecasts, after dropping the high and low forecast estimates for most non-grant major revenues such as sales tax-based revenues and fuel tax revenues. FY 24 estimates generally reflect improving economic activity that is expected to continue through 2025.

Discussion of various economic factors impacting revenue forecasts can be found in the Economic Indicators section of the Executive Summary.

Ad Valorem Taxes

In modern times, property taxes, also called *ad valorem* taxes, have traditionally been the major source of revenue for local governments.¹ In Hillsborough County these taxes comprise the single largest component of all current year's revenues – 37.2% in FY 24.

Ad valorem property tax revenues depend upon two components - the ad valorem tax rate, expressed as a millage rate (a mill is \$1 per \$1,000) set by each taxing authority, and the *taxable* value of property, established by the Property Appraiser.

¹ Section 9(a), Article VII, Florida Constitution

Major County Revenues

Taxable value is the assessed value of real and personal property less any exemptions, such as a homestead exemption or a senior exemption. By statute, the County can assess no more than 10 mills for countywide purposes and 10 mills for services in the unincorporated area. Millages required to pay debt service on voter approved debt do not count against these caps.

Hillsborough County levies a property tax on all property within the County, including property within municipalities, for services provided countywide. This tax, referred to as the *Countywide Ad Valorem Tax*, is deposited in the County's Countywide Operating General Fund to fund programs having countywide benefit. Examples of Countywide tax funded programs include services to children and the elderly, emergency management and emergency dispatch functions, jail operations provided by the Sheriff's Office, Medical Examiner, economic development, and animal control and spay/neuter services. With a non-debt related countywide millage rate of 5.7309 mills, FY 24 revenue prior to the 5% statutory reduction is projected to be \$901 million.

Hillsborough County also levies a *Municipal Services Taxing Unit (MSTU) Ad Valorem Tax* to fund municipal type services provided in the unincorporated area of the County. This tax is only assessed on property in unincorporated areas of the County and is deposited in the Unincorporated Area General Fund. Proceeds from this tax may only be used to provide services in the unincorporated area of the County.² Examples of MSTU tax funded services are unincorporated area fire rescue and ambulance services, law enforcement services provided by the Sheriff's Office, and code enforcement services. Since the three municipalities assess their own property tax to provide municipal services, including fire rescue and police services, within their own boundaries, the County only assesses residents outside of the municipalities for these and other unincorporated area services. With a non-debt related unincorporated area (Municipal Services Taxing Unit, or MSTU) millage rate of 4.3745 mills, FY 24 revenue prior to the 5% statutory reduction is projected to be \$410 million.

To fund operations of the city-county library system, the County levies a third property tax called the *Special Library District Ad Valorem Tax*. This tax applies only to property in the City of Tampa and in unincorporated areas of the County. The Cities of Temple Terrace and Plant City operate their own libraries, although they receive funding from the County system to establish a coordinated system for all County residents. With a library services millage rate of 0.5583 mills, FY 24 revenue prior to the 5% statutory reduction is projected to be \$84 million.

The County also levies separate property taxes to meet annual debt service requirements for payment of voter approved general obligation bonds. This millage does not count against the ten mill

caps previously discussed. The FY 24 budget includes a countywide millage of 0.0604 mills for voter approved general obligation debt for the acquisition of environmentally sensitive land and an unincorporated area millage of 0.0259 for voter approved debt for additional park facilities located in the unincorporated area. FY 24 combined revenue prior to the 5% statutory reduction is projected to be \$12 million

In addition to the Hillsborough County Board of County Commissioners (BOCC), other jurisdictions in the County have independent authority to levy property taxes. Non-BOCC taxing authorities include the cities of Tampa, Temple Terrace, and Plant City, the Hillsborough County School Board, the Hillsborough Area Regional Transit Authority, the Southwest Florida Water Management District, the Tampa Port Authority and the Children's Board. These taxing authorities are all authorized by the state to levy their own ad valorem taxes, over which the Board of County Commissioners has no input or authority.

As a separately elected constitutional officer, the Hillsborough County Property Appraiser is responsible for assessing property values and establishing taxable values for all property in the County. By statute, assessed values are based on property values as of the preceding January 1st. The Property Appraiser is required to provide taxing authorities initial taxable values by June 1st of each year, followed by Preliminary Taxable Values by July 1st of each year. State law mandates that these preliminary taxable values be used to forecast ad valorem tax revenue for the adopted budget. The taxable values delivered each July 1st are considered preliminary as they are subject to change based on property owner appeals to the Value Adjustment Board, which is authorized to make taxable value decisions that could change a property's value. Once all appeals are heard and decisions rendered, the taxable values become final. The historical annual impact of Value Adjustment Board changes on ad valorem tax revenues has been well below 1%.

Each August, the Property Appraiser mails a Truth in Millage (TRIM) notice to property owners showing tentative millage rates that each taxable authority proposes for the year. By statute, each taxing authority must adopt its tentative millage(s) for the TRIM notices by July 31st. Once these tentative millage rates are adopted, they may only be lowered at the final statutory public hearing in September unless a revised TRIM notice is mailed to each taxpayer at the taxing authority's expense.

Each taxing authority adopts its final millage rates at a mandated public hearing in September. These rates are then used by the Tax Collector for the consolidated tax bill mailed to taxpayers in early November.

² Section 125.01(1)(c), Florida Statutes

Major County Revenues

Discounts are offered for early payment of ad valorem taxes: 4% if paid by November 30th, 3% if paid by December 31st, 2% if paid by January 31st, and 1% if paid by February 18th (February 29th for leap years). Ad valorem taxes and non-ad valorem assessments on the tax bill are considered delinquent if not postmarked by March 31st, after which an interest rate of 18% per year (1.5% per month) plus any advertising costs are charged.

For those properties for which property taxes were not paid on time, the Tax Collector holds an auction of tax certificates by June 1st. Bids are offered on an interest rate to be earned by the purchaser, and the lowest interest rate bid wins the auction. Winners are required to pay the full tax bill amount; interest associated with the interest rate they bid becomes what they earn if a property owner subsequently pays what is owed. Property owners are required to pay the certificate holder both the amount of the tax bill plus accrued interest. If a tax certificate is not redeemed within three years, the tax certificate holder can file with the court to take the property.

Several factors constrain annual growth in assessed property values:

- Amendment 10 of the Florida Constitution, known as the Save Our Homes (SOH) constitutional amendment, was approved by voters in 1992. This amendment took effect January 1, 1995 and limits annual increases in assessed values for homesteaded properties to the lesser of 3% or the rise in the Consumer Price Index. The FY 23 SOH limit is 3.0%.
- A state mandated roll-back of property taxes starting in FY 08, and an approved constitutional amendment both increasing exemptions on homestead properties and capping the percentage that taxable values of non-homestead properties can increase each year have decreased ad valorem revenue on an ongoing basis.
- Additional tax reform measures approved by the State and by voter referendum since 2007 further limit increases in taxable values and millage rates which can be assessed by local authorities and impact the taxable values not only for homesteaded properties but for residential and commercial property as well. These regulatory constraints will limit growth of property tax revenue for the foreseeable future.

For a given ad valorem tax rate (millage), an increase in taxable values will result in higher County ad valorem tax revenues. Conversely, a decrease in taxable values will result in lower ad valorem revenues. As the chart below shows, taxable values fluctuate over time – the sharp decline from 2007 to 2009 reflects a combination of factors – new State legislation and voter approved referenda capping growth in assessed values, a collapse in real estate prices, and the resulting weakening economy. It is only since 2013 that taxable values have rebounded; 2013 taxable values increased 2.88% from 2012, and FY 15 values increased an additional 8.5%. FY 16 taxable values increased by 7.7%, and FY 17 values increased an additional 7.6%. FY 18 taxable values increased by 8.9%, with FY 19 taxable values increasing by

10.2%. FY 20 taxable value increased 9.2%, FY 21 taxable values increased 9.1% and FY 22 taxable values increased 7.3%. FY 23 Taxable values increased 16.1% and FY 24 taxable values increased 10.2%.

Projections of ad valorem tax revenues used for the budget are continuously updated throughout the budget process by staff as revised information on economic activity and the tax roll became available. While the adopted budget is based on taxable values provided by the Property Appraiser each July 1st, earlier estimates are based on key forecasting tools including state forecasts, trend analysis, preliminary data from the Property Appraiser, building permit activity, and expert knowledge.

The chart on Current Ad Valorem Taxes shows the changes in the County's ad valorem tax revenues for the Countywide, MSTU, and Library District ad valorem taxes since 2008. Strong growth in taxable values through FY 09 allowed the County to reduce total BOCC millage each year during that period while maintaining ad valorem revenues needed to fund County needs.

Major County Revenues

(Note: All graphs show FY 07 – FY 22 actual revenue and budgeted FY 23– FY 25 revenue

Total BOCC millage rates and associated budgeted ad valorem taxes were reduced from FY 08 through FY 13 due to mandated millage rollback and property tax reforms previously discussed. Starting in FY 14, ad valorem tax revenues started to increase due primarily to the recovery in the economy and the real estate markets. There have been no millage increases during this period.

Non-Ad Valorem Taxes

Non-ad valorem taxes include receipts from non-ad valorem sources such as certain types of locally imposed fuel and sales taxes, the Communications Services Tax, certain lawyer and occupational license taxes, and Tourist Development Taxes. Non-ad valorem taxes account for 12.6% of FY 24 revenues.

Local Government Infrastructure Surtax - On September 3, 1996, voters of Hillsborough County approved the levy of a 0.5% sales surtax for a thirty-year period, effective December 1, 1996. The proceeds from this “*Community Investment Tax*”³ are used to acquire, construct and improve transportation, stormwater, general government, public education and public safety infrastructure to promote the health, safety and welfare of Hillsborough County residents. This tax is due to sunset on November 30, 2026.

By agreement, several other governmental entities share in the proceeds of this tax. The Hillsborough County School Board receives 25% of gross revenue, distributed monthly. Annual debt service on a \$318 million bond issue that financed Raymond James Stadium is also paid from gross revenue. The stadium is used by the University of South Florida football team, the Tampa Bay Buccaneers of the National Football League, and multiple special events annually. The remaining Community Investment Tax proceeds are shared by the County and its three municipalities using the same population-based distribution formula that applies to the regular Local Government Half-Cent Sales Tax.

³ Section 212.055(2), Florida Statutes

As previously discussed, staff prepares short and long term projections of sales surtax revenues based on various trend analyses, state forecasts, and economic conditions. The FY 24 estimates reflect the average of the various forecast results after dropping the high and low results.

Surtax for Transportation Improvements – on November 7, 2018 the voters of Hillsborough County approved a 1% sales surtax to fund transportation improvements throughout Hillsborough County, including road and bridge improvements; the expansion of public transit options; fixing potholes; enhancing bus service; relieving rush hour bottlenecks; improving intersections; and making walking and biking safer. On February 25, 2021 the Transportation Surtax was ruled unconstitutional by the Florida Supreme court.

Indigent Care and Trauma Center Sales Surtax - The Indigent Care and Trauma Center Sales Surtax⁴ funds Hillsborough County’s nationally acclaimed Indigent Health Care Program and was initially authorized by the State in 1984. Extended twice, the sunset provision was permanently removed in 2003.

The chart for this tax reflects revenues since FY 07. Since the tax is assessed similarly to the Local Government Infrastructure Surtax (CIT), revenue trends, barring rate changes, other structural tax changes and audit adjustments, will mirror the CIT.

⁴ Section 212.055(4), Florida Statutes

Major County Revenues

Fuel Taxes - This tax classification includes two County levied fuel taxes, the Voted (9th Cent) Fuel Tax⁵ and the Local Option (6 Cents) Fuel Tax⁶. Two other fuel taxes – the Constitutional Fuel Tax and the County Fuel Tax – are levied by the State with proceeds distributed to the County and are discussed below in the Intergovernmental Revenues section.

The Voted (9th Cent) Fuel Tax was extended through December 31, 2031, while the Local Option (6 Cents) Fuel Tax is scheduled to sunset on December 31, 2042. The sunset dates of these taxes can be extended by a resolution approved by the Board of County Commissioners. Staff used the average of the various forecasts previously discussed, less high and low fuel tax estimates, for the budget.

Fuel taxes levied by the County are shared among the County and its three municipalities. These taxes reflect a fixed assessment per gallon of fuel; therefore, associated revenues correlate strictly to the number of gallons of fuel sold, not to the price of fuel. When fuel prices increase, demand, along with associated revenue from these fuel taxes, tends to decline. Conversely, when fuel prices decline, demand, along with associated revenue, tends to increase. Over time, revenue increases due to higher demand are mitigated by the replacement of older vehicles with more fuel-efficient vehicles.

Fuel taxes are the primary source of funds for road maintenance and road resurfacing. In general, fuel tax revenues are not subject to large fluctuations from year to year, as reflected in the graphs below.

Local Option Tourist Development Tax⁷ - This tax, authorized by the State and levied by BOCC vote, is imposed primarily on tourist related resorts and facilities and provides funding for tourism and economic development. Proceeds are used to fund debt service and capital improvements for Raymond James Stadium, home to the Tampa Bay Buccaneers. In October 1995, an additional one percent was added to finance the Amalie Arena, an indoor sports and entertainment arena constructed in downtown Tampa, bringing the total tourist development tax to 5%. Hillsborough qualified as “high tourism impact” County in FY 19 as sales subject Tourist Developments Taxes (TDT) exceeded \$600 million in FY 18. The BOCC voted an additional 1% in June 2019.

Reflecting projections of continued varying fuel prices through the end of 2024, FY 24 fuel tax revenue is projected to decrease 4.7% below FY 23.

As the graph below illustrates, tourist tax revenues can vary widely from year to year, depending on the state of the economy and the success in attracting large conferences, national sports events,

⁵ Section 336.021(1)(a), Florida Statutes

⁶ Sections 206.41(1)(e), 206.87(1)(c), and 336.025, Florida Statutes

⁷ Section 125.0104, Florida Statutes

Major County Revenues

and other national events to the County. This is reflected in the chart below.

Based on forecasts provided by the Economic Development Department, tourist development tax revenue is projected to increase 25.2% in FY 24 as increased national economic conditions and increased tourism support more travel and improved local occupancy rates.

Communications Services Tax – In 2001 the State of Florida established the Communications Services Tax (CST)⁸ in order to simplify taxes on telecommunications, cable television, direct-to-home satellite, and related services. The law replaced and consolidated various taxes with a single tax comprised of two parts: the Florida communications services tax and the local communications services tax. Communications services subject to the tax include voice, data, audio, video, or any other transmitted information or signals, including cable services that are transmitted by any medium that originate and terminate in the state, or originate or terminate in the state and are billed to an address within the state.

The 2001 legislation established a default rate for each locality so that the new law was revenue neutral, however it allowed each local taxing jurisdiction to levy its own tax rate up to 5.22% on communications services rather than use the default rate. The tax replaced various franchise fees previously assessed. Hillsborough County currently levies only 4% of the authorized 5.22%.

A percentage of the revenue is allocated each year to support fire rescue construction and capital equipment acquisitions. The percentage dedicated for this purpose has been 37.5% since FY 10. Communication Services Tax backed debt was issued in 2016 to fund a new Public Safety Operations Center and fire station renovation and replacement at several locations.

Communications Services Tax revenue continues to reflect the rapid change occurring in the communications industry. New technologies, such as mobile phones, internet and wireless, are changing the way we use telephones, computers and television.

Some of these technologies and arrangements are not currently taxable, and some, such as Voice over Internet Protocol (VOIP), and internet streaming of television programs and movies, continue to supplant taxable services. As the chart below reflects, revenues have been declining annually since FY 11. FY 24 revenue is projected to increase by 2.1%.

The County only collects revenue from this tax from residents in the unincorporated area, and the revenue is used to fund services provided only in the unincorporated area. The three municipalities levy their own communications services taxes from residents within their borders, so the County's revenue is not subject to sharing.

The FY 24 estimates reflect the average of the various forecast results after dropping the high and low results.

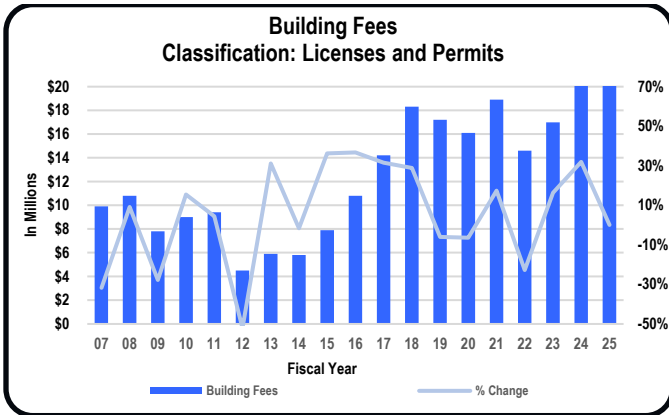

Licenses and Permits

Fees from licenses and permits will provide 9.2% of total FY24. Although contributing only a small amount to County revenues, these fees merit mention due to their relationship to the regulatory functions of County government and their usefulness in helping gauge activity of growth in related segments of the County's economy.

Building Permit Fees - Building Permit Fee revenue generally parallels the general health of the local building industry and is tied closely to economic conditions. In response to higher interest rates, residential building permits fell 32.2% in FY 07, with associated revenue falling 31.7%. In 2007, in recognition of increased permit application processing costs, the Board of County Commissioners approved an increase in permitting fees.

⁸ Section 202.19(1), Florida Statutes

Major County Revenues

Despite permit activity falling another 28.2% in FY 08 due to the continued backlog of unsold existing and new homes, revenue increased 9.1%, realizing a full year of revenues based on the increased fee structure. Actual year-end FY 09 revenues fell 27.8%, or almost \$3 million, from FY 08 revenues, reflecting the weak economy and decline in the real estate markets. FY 10 revenue rose 15.4%, reflecting the improving economy and rebound in construction. FY 11 revenues were \$9.4 million, a 4.4% increase over FY 10.

FY 12 revenue was \$4.5 million, reflecting a temporary 50% decrease in permit fee rates approved by the Board of County Commissioners on September 8, 2011. The reduction was intended to help encourage economic development and applied to construction related permit applications and applications for service filed between October 1, 2011 and December 31, 2012. Rates returned to FY 11 levels on January 1, 2013, resulting in higher revenue. Revenues increased to \$8.4 million for FY 14 due to the continued improvement in the economy and a decrease in the inventory of homes for sale from a high of 15 months to 4 months in mid-FY 13. FY 15 revenues declined to \$6.8 million, a 20.1% reduction, despite BOCC approval to lower permit fee rates to draw down excess reserves, strong permitting demand was reflected in FY 15 revenue, which grew by 36.2% to \$7.9 million. FY 16 revenues increased to \$10.8 million, or 36.7%, with FY 17 revenues increasing to \$14.2 million, or 31.5%. FY 18 revenues increased to \$18.3 or 29% and FY 20 revenues decreased by 6.4%. FY 21 Permit fees increased 17.4%. FY 22 Permit Fees decreased by 22.8%. FY 23 Permit Fees are projected to increase 16.3%. The FY 24 revenues are projected to increase 31.9%, forecasts are based on the expert judgment of Development Services staff regarding projected permitting activity and an anticipated rate increase.

Impact and Mobility Fees - Impact fees on new construction were implemented in June 1985 to finance capital facilities needed to maintain service levels in areas of growth. The first of these fees was for roads and parks, while the right-of-way portion of the roads impact fees was implemented in February 1986. School impact fees followed in August 1986, with fire impact fees implemented in June 1988. Originally, all impact fees were collected

only in the unincorporated areas of the county. However, on January 1, 1993, school impact fees began to be collected in both incorporated and unincorporated areas of the county.

In July 2006, the Board voted to increase school impact fees beginning November 2006. School impact fees are remitted directly to the Hillsborough County School Board for use in constructing new schools. In FY 18, school impact fees represent 59.5% of impact fee revenue. In April 2016 the Board of County Commissioners voted to phase out roadway (transportation) impact fees and implement mobility fees effective January 1, 2017.

In July 2019 the Board voted to increase the Fire Impact fees for use in building new fire stations and reducing response time.

Mobility fees, unlike impact fees, can be spent on projects such as trails, sidewalks, bicycle lanes, and transit stops, in addition to intersections and road capacity improvements. Mobility fees are based on how far the new development is to various activity centers. The further out the development, the larger the fee, as people would have to travel more miles on roadways to get to the activity centers.

Mobility fees apply to any development for which a completed building permit application is submitted. Completed building permit applications submitted prior to the effective date of January 1, 2017 are grandfathered in and are subject to paying roadway impact fees. Only roadway impact fees are being replaced by mobility fees; development will still be subject to Fire, Parks and School impact fees. Mobility fees are projected to generate \$28.7 million in FY 24.

As shown in the chart above, impact fee revenues from FY 07 to FY 10 were adversely impacted by the weak real estate market. Revenue rebounded slightly in FY 11, and then showed strong growth in FY 12 and FY 13, reflecting the strengthening economy and real estate markets. FY 14 amounts reflect a slowdown in building permit activity and associated revenues, with FY 15 through FY 21 reflecting an anticipated rebound in new construction. Fees are estimated by staff based on forecasts of new construction and expert staff judgment.

Major County Revenues

Stormwater Assessments - On June 22, 1989 the Board of County Commissioners approved a stormwater assessment on developed properties within the unincorporated area of Hillsborough County. This assessment pays for costs associated with the Hillsborough County stormwater system, including capital improvements. The assessment applies to roofed and paved parcels of land within areas that cannot absorb water. The stormwater assessment is placed on the tax bill as a non-ad valorem assessment.

In 2015, wanting to address the growing backlog of needed stormwater improvements, the Board of County Commissioners approved the first rate increase since the fee was implemented in 1991. The rates, effective in FY 16, were increased by 150%. The proposed rates for CY 23 for the annual assessment for a small single family residential is \$47.57 per year, a medium single family residential is \$86.49 and a large single family residential is \$132.33. Other residential parcels, such as apartment complexes and condominiums, are assessed \$28.54 per dwelling unit on the parcel. For non-residential parcels the assessment is \$.0203 for each square feet of area which cannot absorb water.

FY 24 revenues are expected to increase 2.9%. Forecasts are based on property tax roll data provided by the Property Appraiser and Public Works staff projections.

Intergovernmental Revenues

The County is projected to receive 13.7% of FY 24 revenue from intergovernmental sources such as federal and state grants and State levied taxes shared with local governments. The two largest components of this category are Federal Grants, which represent 33.7% of intergovernmental revenues and the Local Government Half-Cent Sales Tax, which represents 30.7% of intergovernmental revenues. Other revenues in this category include county revenue sharing and various restricted revenues collected by the State and shared with local jurisdictions.

Grants - Major grants are received by the county to help fund head start and early head start, children and elderly food programs, anti-drug abuse programs, environmental issues, and Housing and Urban Development grants for community development and housing rental. Most grants require the County to provide matching funds, generally 10% to 20% of the grant amount. Grant amounts fluctuate significantly from year-to-year, based on grantor funding decisions and availability of funds.

The County's largest grants are for Head Start/Early Head Start Programs. These programs provide services designed to enhance children's physical, social, emotional and intellectual development. Early Head Start serves low-income pregnant women and families with infants and toddlers. Head Start provides preschool services for three and four year old children from low income families in Hillsborough County. Young children with disabilities or developmental delays are also served. The centers are located throughout the County and transportation is provided for all participating children. Participating families also receive health, dental, and preventive mental health services as well as parent involvement opportunities.

On December 1, 1992, the Hillsborough County Board of County Commissioners was designated as the grantee agency for the Ryan White CARE Act of 1990 for Title I funds to be allocated among service providers for HIV+ individuals in the Tampa-St. Petersburg area, comprised of Hillsborough, Pinellas, Pasco, and Hernando Counties. On June 18, 1997, the County was designated to administer Ryan White Title II funds in Hillsborough, Pinellas, Pasco, Hernando, Polk, Highlands, Hardee and Manatee Counties. Both Ryan White grants are administered by the Health Care Services Department in accordance with allocations of the Ryan White Care Council.

The chart above reflects actual grant revenue received through FY 22 and forecast revenue for FY 23, FY 24 and FY 25.

State Shared Revenues - Two State shared revenues are important sources of funding for the County. The *Local Government Half-Cent Sales Tax*⁹ levied by the State has been a major source

⁹ Section 212.20(6)(d)2, Florida Statutes

Major County Revenues

of revenue for the County since its inception in FY 83 and has historically been the largest state shared revenue. The impact of the recession and lower consumer spending can be seen starting in FY 08 and continuing into FY 10, during which period annual revenue declined a total of 20.1%.

As consumer spending rose with a stronger economy and renewed job growth, half-cent sales tax revenue has risen each year since FY 11. FY 14 reflects a one-time audit adjustment associated with an accounting change, resulting in a one-time increase of \$7.3 million. Excluding this adjustment, FY 15 revenue increased 5.7% above FY 14. Continuing economic growth increased half-cent growth by 18.4% in FY 21 and 15.9% in FY 22. Projections call for a decline of 6.3% in FY 23, but a 8.2% increase in FY 24. Forecasts were developed using the average of the various forecast techniques after dropping the high and low forecast results.

The second important State revenue source is the State Revenue Sharing Program¹⁰. This revenue is comprised of proceeds from a one-cent State cigarette tax and 2.25% of State sales tax revenue. State Revenue Sharing projections closely track half-cent sales tax forecasts.

A weakening economy, with its associated impact on consumer spending, resulted in reductions in revenue from FY 07 through FY 10. Increased spending associated with an improving economy is evident starting in FY 11, when state revenue sharing revenue increased 3.3%. FY 15 actual revenue rose 9.3% over FY 14. FY 16 actual revenue exceeded FY 15 revenue by 3.7%, while FY 17 reflected a 5.4% increase. FY 20 reflected a decline of 4.4% while FY 21 increased 17.2%. FY 22 increased by 28.6%, but FY 23 is projected to decrease 20.4%. A strengthening economy in FY 24 is expected increase revenue by 12.3%,

The *Constitutional Fuel Tax*¹¹ is a two cent per gallon of motor fuel State levy shared only with counties. Eighty percent of the revenue can be used for debt service and is managed by the State Board of Administration. Any remainder of the 80 percent portion not needed for debt service is then distributed to the County for use in meeting transportation needs. The County has no current debt funded by this portion, so receives the entire 80%. The other 20 percent is given to the County for the acquisition, construction and maintenance of roads.

As the associated chart shows, revenues from this tax have remained within a relatively narrow range since FY 06. The increase in FY 15 was the result of a one-time accounting adjustment. FY 16 revenue decreased 2.4%, and FY 17 increase by 3.0%. FY 18 revenue reflects growth of 1.1%. FY21 revenues increased 6.6% and FY 22 revenue increased by 3.6%. The FY 24 Projection reflects a decrease of 4.9%. The forecasts were developed using the average of the various forecast techniques previously discussed after dropping the high and low forecasts.

The *County (7th Cent) Fuel Tax*¹² is a one cent per gallon of motor fuel tax considered a State Shared Revenue since its distribution is based on a State-set formula not based solely on total collections within the county of collection. This revenue, along with other

¹⁰ Sections 210.20(2), 212.20(6) and 218.20, Florida Statutes
¹¹ Section 9(c), Article XII, Florida Constitution

¹² Section 206.41(1)(b), Florida Statutes

Major County Revenues

gasoline taxes and road network impact fees, is used to support road network maintenance and improvements.

This fuel tax generally mirrors the Constitutional Fuel Tax, and the revenue outlook is similar. FY 22 revenue was \$5.6 million, and FY 23 revenue is forecast to be \$5.8 million. FY24 revenue is projected to be \$5.5 million. The forecast was developed using the average of the various forecast techniques previously discussed after dropping the high and low forecasts.

Charges for Services

Charges for Services comprise 23.9% of FY 24 budgeted revenue, the largest component is water/wastewater and solid waste utility user charges, which represent 61.8% of total FY 24 charges for services. Internal service charges for services rendered by a central service department to other departments represents another 5.9% of FY 24 charges for services. Examples of internal service charges include charges for fleet services and allocation of central service department costs funded from the countywide general fund to all other funds. Other charges are assessed for such services as ambulance transports, special recreation programs, fees for housing federal prisoners, various inspections, environment and physical resource fees, health and human services fees, and a myriad of other fees that generate relatively small amounts of revenue. In preparing the County's annual budget, departments whose operations are supported by these fees provide estimates of anticipated revenue. Departments rely upon past trends and their accumulated expert knowledge to project revenues.

One example of this type of revenue is *EMS Ambulance Service Fees*. As the graph illustrates, these fees have been a steady source of revenue since FY 06. FY 15 through FY 18 actuals reflect an increase in ambulance rates approved by the Board of County Commissioners in 2014. FY21 actual reflects a growth of 31.1%. FY 22 increased by 21.0% but FY 23 is projected to decline by 15.8%. FY 24 is projected to increase 7.6%. Annual growth is associated with continued strong population growth in the County. Revenue estimates are provided by the Fire Rescue Department and are based on a five-year trend analysis and expert judgment.

Water and Wastewater Utility User Charges - The primary source of revenue for the Hillsborough County Water and Wastewater utility system is the monthly charges to its customers. These charges are composed of three parts – Base Facility Charges, Volumetric Charges and a Customer Service Charge. The rates were increased effective October 1, 2023, resulting in the following rates: a Residential Base Facility Charge for Potable Water of \$11.70, a Residential Base Facility Charge for Wastewater of \$11.70, and a Customer Service Charge of \$5.63. These base charges are in addition to Volumetric Charges, which are tiered as follows: \$0.96 for each 1,000 gallons up to 5,000 gallons, \$2.66 for each 1,000 gallons from 5,001 to 15,000 gallons, \$4.47 for each 1,000 gallons from 15,001 to 30,000 gallons, and \$6.66 per 1,000 gallons over 30,000 gallons. In addition, customers are charged a Purchased-Water Pass-Through Charge of \$3.02 per 1,000 gallons. Wastewater billable flow is charged at \$6.09 for each 1,000 gallons.

To ensure that rates are sufficient to meet financial needs of the County's Water and Wastewater System, and to satisfy debt covenants, a rate study is conducted by the Public Utilities Department every two years to set the rates for the biennial budget. Each completed study is validated by an independent consultant. This study, except for the "Purchased-Water Pass-Through" consumption charge, is the basis for the monthly user charges for the next two years. The "Purchased-Water Pass-Through" consumption charge is set to recover the cost of all retail and bulk potable water purchases and is recalculated annually. Increased demand, coupled with the need to reduce reliance on ground water pumping, have required Tampa Bay Water to construct additional water projects, including a water desalinization plant, which have increased the cost of bulk water purchased.

The Water/Wastewater chart shows that overall revenues from user, base and service charges remained relatively flat from FY 06 through FY 10. Reflecting the improving economy and associated growth in the housing market, revenues from FY 11 through FY 14 increased an average of 6.0% per year. FY 15 revenue increased a slight 1.4% increase from FY 14; with FY 16 growth of 4.2% and FY 17 growth of 5.0%. Both FY 20 and FY 21 revenues

Major County Revenues

increased by 11.2% and 5.7%. FY 22 increased by 9.8%. While FY 23 and FY 24 revenues are projected to grow by 4.1% and 6.8%, reflecting both population growth and annual rate indexing that went into effect on June 1, 2015. Estimates are provided by Public Utilities based on a rate model which is validated by an independent consultant.

Solid Waste Residential Assessments - These non-ad valorem assessments appear on the ad valorem tax bill, and fund residential solid waste collection and disposal while providing a stable revenue source to pay debt service on Solid Waste Management System bonds. Since FY 98 there have been two separate assessments, a collection assessment and a disposal assessment. Both assessments are collected only in the unincorporated area of the County. Solid Waste collection and disposal rates are reviewed annually and revised as needed to pay expenses and comply with debt service coverage requirements defined in bond covenants.

The solid waste collection and disposal assessments were initially approved by the Board of County Commissioners (BOCC) on November 13, 1996 and went into effect on October 1, 1997. The assessment replaced the annual fee residents previously paid directly to collectors for curbside service. Franchise collectors are now paid directly by the County. Bond covenant requirements dictate that the collection rate be reviewed annually. As of October 1, 2023, the residential curbside collection rate was \$284.88; it is anticipated that the rate will remain unchanged through FY 24.

Residents are also assessed a solid waste disposal assessment on the ad valorem tax bill. These assessment fees replace the tipping fee previously charged by disposal facilities for residential refuse disposal, whether transported by the residential user or a commercial service. As of January 1, 2023, the residential disposal rate was \$152.63; it is anticipated that the rate will remain unchanged through FY 24. Refuse originating from non-residential sources is subject to a tipping fee per ton at the time of disposal, the fee being based on the type of refuse being tipped.

Revenues for FY 20 increased 3.7% primarily to population growth and disposal rate increase. FY 21 revenues increased 20.2%,

while and FY 22 revenues increased 23.9%, the FY 23 and FY 24 revenues are projected to increase 24.8% and 0.6%. Estimates are provided by the Public Utilities Department based on a detailed rate model that incorporates expert staff judgment and existing property tax rolls.

Sheriff's Office Fees – The Sheriff is a separately elected constitutional officer whose office receives its funding from the BOCC. There are fees generated by the Sheriff's Office that are budgeted for and collected by the BOCC. These fees represent charges for services provided by the Sheriff's Office. Examples of these fees include the cities' reimbursements for School Crossing Guards and payments from the School District for half of the costs for the School Resource Deputy program.

Court Costs and Surcharges – Prior to FY 05, court revenues were composed of civil court filing fees, criminal court cost charges, and special surcharges designed to aid in the funding of the court system. These revenues were budgeted by the BOCC. Effective July 1, 2004, most court related fees and fines now accrue to the Clerk of the Circuit Court to pay for the Clerk's court related duties. To help the BOCC offset that revenue loss, three new fees were allowed by the Legislature and adopted by Hillsborough County. The first is a traffic court surcharge used to fund court facilities; the second is a document recording fee to fund court technology; and the third is a criminal court surcharge used to fund the court innovations, a law library, legal aid, and teen court/juvenile diversion programs. In return, the County was required to fund technology and facility costs for the 13th Judicial Circuit Court out of these revenues. These costs had previously been funded by the State. Revenues from these sources have not been sufficient to fully fund the mandated costs, requiring an increasing allocation from County general revenue to fund budget requests.

Major County Revenues

The Clerk of the Circuit Court develops the estimates for these fees using state forecasts and expert judgment, along with a five year trend analysis of similar fees. In the 2008 legislative session, the Legislature repealed the Documentary Stamp Tax Return requirement. The associated 1% administrative fee was no longer assessed as of FY 09. This factor, combined with a weakening real estate market, resulted in weaker revenues since FY 08. Annual fluctuations in transactions subject to these fees between FY 11 and FY 16 are reflected in annual revenue collected. The increase in FY 17 is attributable to 3 new court fees initiated by the Florida Legislature in 2016. FY 21 revenues increase by 6.1% and FY22 Revenues increased 2.3%. FY 23 Revenues are projected to increase 9.9%. FY 24 revenues are projected to grow 4.3%.

Court fee estimates were provided by the Clerk of the Circuit Court.

Fines and Forfeitures

Fines and Forfeitures comprise only 0.2% for FY 24 projected revenues. Prior to July 1, 2004, these revenues consisted mainly of court, local ordinance and library fines. However, State legislation related to Article V implementation redirected court fines to the Clerk of the Circuit Court to carry out court-related functions. This resulted in an estimated ongoing annual revenue reduction of over \$1.0 million.

Miscellaneous Revenues

Miscellaneous Revenues account for 3.0% of projected FY 24 revenues. While still at near historical lows, improving interest rates for FY 24 will result in increased interest revenues as reflected on the chart below. In addition to interest, this category also includes rental income, reimbursement of prior year expenditures, sale of surplus equipment, property and land, and contributions and donations. Prior year actuals also reflect the net change in the fair value of investments, as required by governmental accounting standards. The County does not currently budget for unrealized changes in the value of its investments, but they are reflected in its financial statements, and they impact future budgets through changes in the fund balance brought forward each year.

Interest Earnings – Although a very small component of total County revenues, interest revenue is the largest component of Miscellaneous Revenues and affects every county fund. As the chart below shows, there is a great deal of fluctuation in interest earnings from year to year due to changes in interest rates and changes in investment term structure.

County projections on interest earnings are 300 basis points (3.0%) in FY 24 as compared to 75 basis points (0.75%) in FY 23. FY 24 interest revenues are projected to be \$75.1 million.

Management and Budget staff combines national interest rate forecasts with a three-year average cash balance model to derive forecasts for interest earnings in each fund.

County Revenues by Source

	FY22 Actual	FY23 Adopted	FY24 Adopted	FY25 Planned	% Total FY24
Taxes					
Ad Valorem Taxes	\$ 1,056,118,163	\$ 1,265,132,222	\$ 1,411,266,723	\$ 1,530,488,936	37.2%

Basic Information on Property Taxes

The calculation of assessed value of real and tangible personal property and how much of this value is subject to ad valorem taxation varies from state to state. In Florida, each county has an elected Property Appraiser whose office supervises the valuation process following the appropriate state laws, regulations and professional guidelines.

EXEMPTIONS

Florida law provides specific exemptions to reduce the value of property subject to taxation. Some of the more common exemptions are:

Homestead—For all permanent residents of Florida, the first \$25,000 of the assessed value of an owner-occupied residence is exempt. Certain elderly low-income homeowners may also qualify for an additional exemption called the *Senior Homestead Exemption*. The Board of County Commissioners has set this additional exemption at \$50,000.

Second Homestead—For all permanent residents of Florida, the assessed value from \$50,001 to \$75,000 of an owner-occupied residence is exempt. This exemption applies only to non-School Board levies.

Government—Government owned property is exempt.

Widows—An additional \$500 in value is exempt if the resident-owner is a widowed permanent resident.

Disability—In addition to any other exemptions, an additional \$500 in value is exempt for totally and permanently disabled or blind residents.

Institutional—All properties of non-profit organizations used for literary, scientific, educational and charitable purposes are exempt.

COMPUTING PROPERTY TAXES

To compute the property tax on a parcel, you must know three factors: the assessed value as determined by the Property Appraiser; the amount of the value which is not subject to the tax due to the application of exemptions; and the millage rate authorized by a taxing authority.

Example:

Assessed Value of Property	\$165,000
Minus Exemptions:	
First Homestead Exemption	-25,000
Second Homestead Exemption	-25,000
Equals Taxable Value of Property	\$115,000
Divide the Taxable Value of Property by \$1,000	\$115
Multiply \$115 by the FY 24 adopted county-wide millage rate	5.7309
Equals the amount of countywide property tax levied on property	\$659.05

THE AGGREGATE ROLLED-BACK RATE

In recent years, much of the legislation in Florida governing the setting of millage rates has been centered on the concept of the "rolled-back rate". The "rolled-back rate" is that millage rate which when applied to the total amount of taxable value of property (excluding new construction and dedicated tax increment value) adjusted for payments to tax increment financing districts produces the same amount of revenue as the previous year.

The "rolled-back rate" is used as a standardized point of comparison to show how millage rates are changing from one year to the next. The purpose of the "rolled-back rate" calculation is to allow local governments in Florida to identify when they are drawing more tax revenue from existing property. For example, an increase in the assessment of existing property draws more tax revenue for governments even when those governments keep the same millage rates as the previous year. The aggregate "rolled-back rate" varies significantly from the total millage rate because the combined ad valorem revenue from the General Revenue Fund, MSTU, and Library Fund is divided by the countywide taxable value in calculating the "aggregate rolled-back rate" even though ad valorem revenue from the Special Library District millage and the MSTU millage is generated from smaller tax bases.

At the public hearings in September, the County is required to show how proposed millage rates compare to the "aggregate rolled-back rate" and to identify why the proposed rate differs from the "aggregate rolled-back rate."

During the 2007 session the legislature passed a bill which mandating millage rates that, in combination, generate revenue 5% lower than that generated from the FY 07 aggregate rolled-back rate. Starting in FY 09, the bill also mandated that the maximum allowable property tax levy is the rolled-back rate plus the growth in the Florida per capita personal income. Then, in January 2008, voters approved a constitutional amendment that further restricts growth in taxable values. The provisions include a second homestead exemption previously discussed that applies only to non-School Board levies, a new portability provision allows owners of homesteaded properties to transfer of up to \$500,000 of accumulated Save Our Homes savings to a newly purchased home if the new home is purchased within 2 years of the sale of the previous home, a new \$25,000 exemption on tangible property and a new cap of 10% on the amount non-homesteaded property values can increase in a single year.

The following **example** demonstrates how to compute the "aggregate rolled-back rate", the millage rate that will generate the same ad valorem tax revenues on existing property exclusive of payments to tax increment financing districts (TIF) and new construction, major additions to structures, etc.

Basic Information on Property Taxes

EXAMPLE OF CALCULATION OF THE ESTIMATED AGGREGATE ROLLED-BACK RATE ¹

Amount of Property Taxes Assessed in the Previous Year for the General Revenue Fund, MSTU, and Library District Less Payments to Tax Increment Financing Districts = \$1,222,453,837

Divided by

Amount of Taxable Value of Countywide Property Less New Construction and Less Dedicated Tax Increment Values in the Current Year = \$148,240,006,761

The result of this calculation is the Aggregate Rolled-Back Rate of 8.2465 Mills or \$8.25 per \$1,000 of Taxable Value

HILLSBOROUGH COUNTY AD VALOREM OPERATING MILLAGES (FY 16 and FY 17 reflect a .0017 mill reduction from FY 15)

¹ Florida Statutes require the budget estimate be based on the Property Appraiser's July 1 preliminary certification. Due to taxable value adjustments made after July 1st by the Property Appraiser and Value Adjustment Board, actual property taxes collected will differ from estimated collections used for budget purposes.

Changes in Taxable Values by Property Classification

**Percentage Change in Property Value Growth
Single Family Residential and Commercial**

Each year represents the percentage change from the previous year.
Based on data provided each July 1st by the Property Appraiser's Office.

Notes:

* Not a tax levy, assessment, or fee of the Hillsborough County Board of County Commissioners (BOCC).

** Homeowners residing within the municipalities of Tampa, Temple Terrace, or Plant City pay city taxes instead of MSTU

The Hillsborough Area Regional Transit Tax is not levied in Plant City. The Library Tax is not levied in Temple Terrace or Plant City.

Starting in FY 09, the taxable value for School Board taxes is \$140,000 because the second \$25,000 homestead exemption approved by voters in January 2008 does not apply to the School Board assessment.

Assumptions:

Excludes any exemption other than the homestead exemptions.

Excludes any other special district assessment (i.e., street lighting tax district or maintenance district).

+ For the purposes of consistency, the Hillsborough River Basin was selected. Other basins may have different tax rates.

Economic Indicators

The Hillsborough County budget is affected by various economic variables that are significant drivers of demand for County services and of major revenues. The following is a brief discussion of past and projected trends for key economic indicators including jobs, population, income, housing, and taxable sales.

After pandemic lockdowns caused a 28.0% decline in second quarter 2020 US Gross Domestic Product (GDP) growth turned strongly positive, 34.8%, in the third quarter before slowing to 4.2% in the fourth quarter. Average annual GDP fell 2.2% in 2020, the second largest decline since 1946. Economic growth in the 2021 accelerated to 5.8%, the largest increase since 1984. Growth faltered in early 2022, declining 2.0% in the first quarter followed by a 0.6% drop in the second quarter. Higher inflation, the unwinding of pent-up consumer demand and war in Ukraine were restraining factors. GDP growth turned positive, 2.7%, for the third quarter of 2022 and finished 2022 at 1.9%. Growth has since slowed as inflation, though slowing, remains stubbornly high and higher interest rates slow housing and retail markets. Second quarter 2023 growth slowed to 2.1%.

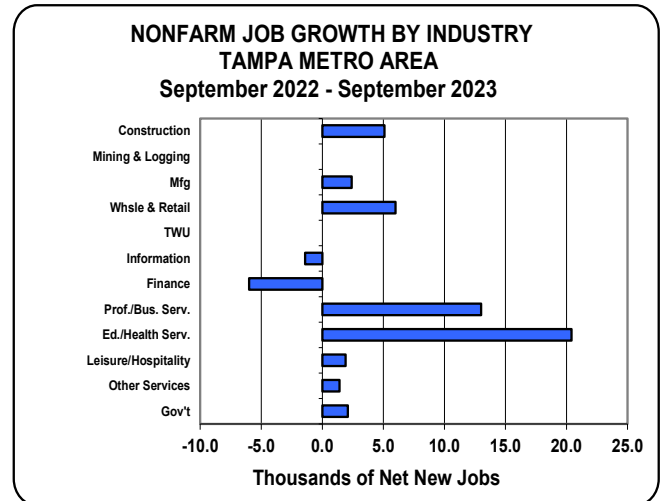

In early 2022, the Federal Reserve began to raise interest rates to fight high inflation. This has restrained growth as well as inflation. Higher prices and interest rates have reduced the pace of consumer spending and home sales.

As interest rates climbed and housing and retail sales slowed, recession fears have risen. While many forecasters expected a recession to begin in mid-2023, the economy's resiliency has surprised. Those expecting a recession now foresee it occurring in early or mid-2024. The median forecast from the National Association for Business Economics (NABE) expects a marked slowdown in economic growth with a recession narrowly avoided. NABE is forecasting a modest 1.0% increase in GDP for the fourth quarter 2023. For all of 2023, Moody's forecasts an annual GDP increase of 2.0% followed by growth of 1.1% in 2024. Downside risks are predominant as high interest rate negatively impact slowing housing and retail markets.

Employment suffered greatly in the shutdowns with record unemployment compensation claims as a result. The US lost 1 million nonfarm jobs in March 2020 compared to February, followed by a further loss of 20 million jobs in April 2020. US nonfarm jobs quickly rose as states began to reopen their economies in May 2020 and rose strongly through early 2023. The very strong labor market has resulted in retention and recruiting difficulties which is also resulting in higher wage increases. The labor market has shown some signs of moderation in mid-2023 as slower economic growth has slightly dampened labor demand. The NABE median forecast expects job gains will also slow, as economic growth slows, from monthly gains of 399,000 in 2022 to 190,000 in 2023 and 64,000 in 2024.

Metro Tampa job losses during March to April 2020 totaled 162,200 followed by a gain of 44,100 in May 2020. Job gains have continued through September 2023 with Metro Tampa jobs about 147,000 jobs above 2019 levels. Job growth during 2021 and 2022 was broad based and led by the tourism and hospitality industry. Retail Trade, Education and Health and

Professional/Business Services also posted strong gains. Metro Tampa's September 2022 to September 2023 3.0% job gain compares to the US gain of 2.1%. Florida jobs posted a 3.0% increase. Job growth is slowing and weakness in finance and information industries is now appearing. The University of Central Florida forecasts 2.8% job gains for Tampa Bay in 2023 followed by 2.7% decrease in 2024 due to a slowing economy.

Source: Florida Department of Economic Opportunity, Labor Market Statistics Center

Source: Florida Department of Economic Opportunity, Labor Market Statistics Center and Institute for Economic Competitiveness, University of Central Florida

Unemployment rates declined since the end of pandemic lockdowns through mid-2023 and remain very low even as they show signs of modestly increasing. Hillsborough County's August 2023 rate is 3.1%, compared to 2.9% in August 2022. August 2023's Florida rate is 3.1%. The US rate is 3.9%.

Long-term job growth in Metro Tampa, and, indeed, Florida and the nation, is concentrated in services industries. In 2022 services industries accounted for 48% of existing jobs in Metro Tampa and Florida. Services industries include high wage industries such as finance, insurance, legal services, engineering services, computer design, and health.

Economic Indicators

Wholesale and retail trade accounted for about 15 to 16% of all jobs. Most of Hillsborough's ten largest employers in 2022 are government or health related.

Note: TWU = Transportation, Warehousing & Utilities

While job growth is perhaps the single most important and visible economic indicator for a local area, other indicators play important roles as well. The University of Florida's Bureau of Economic and Business Research (BEBR) reports that Florida and Hillsborough population growth has accelerated since dramatically slowing in 2008 through 2011. After average annual population growth of 26,300 in Hillsborough County during 1997-2007, BEBR estimated Hillsborough's population rose at an annual rate of only 11,100 during 2007-2011. Recovering population growth averaged 25,100 annually during 2011-2021. BEBR estimated Hillsborough gained 30,100 residents in 2022. BEBR forecasts Hillsborough population growth during 2022-2025 will average 25,900 annually.

Source: Bureau of Economic and Business Research (BEBR)

Source: Bureau of Economic and Business Research (BEBR)

Population growth is, in turn, a primary factor driving housing markets and retail sales as well as job growth. Greater Tampa Association of Realtors (GTAR) reports 2022 home sales fell 12.5% amid high prices and rising mortgage rates. Sales for the first nine months of 2023 have dropped 1.9% compared to 2022. September 2023 average home sales price rose only 2.7% above September 2022, falling well below 15% to 25% gains during 2021 and 2022. Sales are likely to continue lag year ago figures.

Economic Indicators

Source: Greater Tampa Association of Realtors

Low inventories and months of supply combined with continuing in-migration of workers as well as retirees will continue to drive long term home price gains in Florida and Hillsborough but at a moderating pace.

Source: Hillsborough County, Florida Comprehensive Annual Financial Report, Fiscal Year Ended September 30, 2022

Pandemic shutdowns hit consumer spending severely in the spring of 2020. Taxable Sales in Hillsborough County rose on a year ago basis from 2010 before falling 17.6% in April 2020 and 24.8% in May 2020. Sales rose strongly through 2022. Taxable sales growth in 2023 has moderated. FY 21 taxable sales grew 17.5%, followed by an FY 22 gain of 16.2%. FY 23 gains have slowed to 6.0%. High inflation and interest rates, and lower consumer confidence appear to be impacting the pace of sales growth. The University of Central Florida expects taxable sales to continue to level off for 2023 and 2024.

US inflation jumped to 4.7% in 2021 and rose again to 8.0% for 2022. High consumer demand, chronic supply chain problems and high fuel prices have driven persistent inflation and caused the Federal Reserve to combat it with higher interest rates. While the rate of inflation peaked at 9.1% (not seasonally adjusted) in June 2022 and declined to 3.7% in September 2023 it remains persistently higher than the Federal Reserve's

target of 2.0%. The National Association for Business Economics expects inflation to drop to 4.1% for 2023 before falling to 2.6% for 2024.

Financial Policies and Procedures

The County Administrator has explicit responsibility for all financial planning for the Board of County Commissioners (BOCC) including operating, capital and debt service budgets; and for the allocation of resources to facilitate accomplishing BOCC goals. The County Administrator is also responsible for developing long-range financial planning strategies, including reserve policies and forecasting. These functions are performed by the various team administrators and the Management and Budget Department.

To execute these responsibilities and to maintain sound financial management practices, it is important to have financial policies and related procedures that complement the statutory requirements and professional standards which establish local governments' financial management framework. To this end, the Management and Budget Department is involved in the ongoing effort to research, document, publish and update financial policies and guidelines.

The Board of County Commissioners has adopted a series of financial policies, presented in this section, as a major effort towards documenting a comprehensive approach to financial management. In some cases, written policies replaced informal rules that had been in place for years, but had not been previously documented and formally approved. Given the structure of county government in Florida, with most accounting functions residing with the elected Clerk of Circuit Court, and the budget function residing with the County Administrator who reports to the elected Board, the documentation and approval of policies have particular importance. All BOCC policies can be found at: <http://www.hcflgov.net/en/government/board-of-county-commissioners/board-policies> and require Adobe Reader to view.

The policies were developed over a period of time, during which draft policies were distributed to bond rating agencies and during which County staff reviewed recommended budget practices developed by the **National Advisory Council on State and Local Budgeting (NACSLB)**. Several of the policies are intended to directly address NACSLB recommended budget practices.

It should be noted that the policies listed here reflect those adopted by the Board of County Commissioners. Other financial policies adopted by the Clerk of Circuit Court in his or her capacity as Chief Financial Officer for the Board, which do not require Board approval, do not appear here.

There are two key Florida Statutes regulating local government budget development and implementation, Chapters 129 and 200. Chapter 129, entitled "County Annual Budget," establishes a system for controlling finances of county boards of commissioners throughout the state. Chapter 200, "Determination of Millage," defines the duty of the county commissioners in setting the rate of taxation. These statutory provisions set the framework for the budgetary process. In addition, Generally Accepted Accounting Principles (GAAP) for state and local governments as set forth by the Governmental Accounting Standards Board (GASB), provide professional standards that guide public financial management and reporting.

Board Policies are reviewed and revised on an as-needed basis. Staff periodically identifies policies that may need revision or rescission, as well as the need for a new policy. These changes are often driven by new or changed intergovernmental mandates, issues of continuing policy relevance, and Board direction.

POLICIES AND GUIDELINES

The following policy statements guide the annual budget development and monitoring functions of the County. They correspond closely to explicit provisions found in the statutes and complement professional standards established by GASB.

1. **Chapter 129.01(2)(b), Florida Statutes:** The budget will be balanced by fund, that is, the estimated revenues including balances brought forward will equal the total of the appropriations and reserves.
2. **Chapter 129.01(2)(b), Florida Statutes:** Budgeted reimbursements are considered anticipated receipts and as such will be budgeted at 95% of the estimated fiscal year total.
3. **Chapter 129.01(2)(c)1, Florida Statutes:** Reserves for contingencies may be established for each fund during the annual budget development process, and when established, will be in compliance with Florida Statutes requiring that reserves for contingencies not exceed ten percent of the total budget.
4. **Chapter 129.01(2)(d), Florida Statutes:** A reserve for reappropriation will be provided in each fund as necessary to provide for the payment of vouchers which have been incurred in the year(s) prior to the fiscal year for which the budget is being prepared.
5. **Chapter 129.06(2)(a), Florida Statutes:** Budget changes may be made through the budget amendment process.
6. **Chapter 129.06(2)(d & e), Florida Statutes:** Fund revenue and expenditure totals may be increased or decreased by formal action of the BOCC: a) following appropriate public notice and public hearing, b) in the event new revenue is received from an unanticipated source, or c) in the County's enterprise funds.
7. **Chapter 129.06(3)(b), Florida Statutes:** Interfund transfers are fixed when the budget is adopted.
8. **Hillsborough County Ordinance 08-06: Investment Policy.** The highest priority in the handling of investments for the County is safety of principal. Each investment

Financial Policies and Procedures

avoided, whether they be from securities, defaults, or erosion of market value. Investments shall be diversified to the extent practicable to control risk of loss resulting from over concentration of assets in a specific maturity, issuer, instrument, dealer, or bank through which financial instruments are bought and sold. From time to time, securities may be traded for other similar securities to improve yield, maturity, or credit risk. For these type transactions, a loss may be incurred for accounting purposes, provided any of the following occurs with respect to the replacement security:

- Yield has been increased
- Maturity has been reduced
- Quality of investment has been improved
- A positive blend for arbitrage purposes has been accomplished

9. Hillsborough County Ordinances 08-06: Reverse repurchase agreements are specifically prohibited.

10. Grants Administration—BOCC Policy 03.01.03.00: It is the policy of the Board of County Commissioners that the County will seek grant funding for activities and assets that are determined to further core County functions, or that provide for activities and assets that are in the best interest of the County and its residents. Unless exempted by Board action, all organizations directly funded by the Board shall participate in a uniform grants administration program under the direction of the County Administrator that will adequately assess grants prior to submittal and ensure that grant award functions follow the highest standards of the grantor or the County.

Grants Identification, Application, and Tracking: Grants pursued by the County must be consistent with the County's mission, strategic priorities, or adopted business plans, and no grant shall be submitted without signature approval of the County's authorized organizational representative or designee; therefore, the submission of grant proposals shall be coordinated by a central authority designated by the County Administrator so that the effects on the County can be reviewed and understood beforehand and the authorizing signatures obtained; and grant applications shall provide reasonable and realistic outcomes that are based on information that will help to best assess the impact and efficacy of grant activities. Individuals planning to apply for an external grant should notify the grants management office a minimum of fifteen business days prior to the submission date on a form established under the direction of the County Administrator. All grants will be recorded and tracked in a manner that assures transparency and accountability to the Board, grantors, and the public.

Funding Analysis: Grants that align with the strategic priorities of the County shall be analyzed to examine the total effects and costs to the County due to matching requirements or new operating costs; allowance of indirect costs; whether General Revenue is necessary to cover the

gap between cash expended and revenues received; and whether General Revenue is necessary to support the project after the expiration of the grant.

Analysis of Grant Renewals and Continuations: At the end of the initial grant period, all grants shall be evaluated to determine the extent to which the grant project has produced desired benefits. Such an analysis shall include a review of actual costs to determine whether using General Revenue associated with the grant could be better used for other purposes that are better aligned with the County's mission, priorities, and business plans. Grants awarded on a multi-year basis shall be evaluated through a cost effectiveness analysis that relates the project costs to its key outcomes or benefits, to determine the extent to which they have produced positive, meaningful outcomes that provide cost effective services or improvements.

Provision of Administrative and Operational Support: In a manner specified by the County Administrator, the County shall develop procedures that ensure a detailed understanding of the regulatory and financial requirements of grant awards and that specify how grants shall be implemented and monitored.

Purpose: Grants are an exceptional way to fund County projects; however, they come with the expectation that all work including the management of the grant award will follow the highest standards of the regulatory and budgetary requirements of the grantor and the County. Failure to comply with such requirements can lead to a loss of goodwill and the return of funds. Inadequate review of grant proposals or grant awards may lead to the County spending General Revenue funds to support a grant project inconsistent with overall strategic direction, or may commit the County to General Revenue spending beyond the grant period. The purpose of this policy is to set forth guidance for the application of grant proposals and the administration of grants awarded to the County that ensure the efficiency and impact of grant funded programs, services, and capital improvements; increase grant revenues; limit the County's exposure to grant related legal liability; and assure grantors and the public that the County shall discharge its responsibilities with the highest of standards.

Responsibility: It is the responsibility of the Strategic Planning Division under the direction of the County Administrator to implement this policy and to provide procedures that detail the grant proposal seeking process and the proper execution, management, and close-out of the County's grant awards; and report on the submission and status of grants in a manner that assures transparency and accountability to the Board, grantors, and the public.

11. Acceptance of Credit Cards, Charge Cards, and Debit Cards for Payment of County Fees and Charges for Service—BOCC Policy 03.01.04.00: Departments under

Financial Policies and Procedures

the authority of the Board of County Commissioners have the option of allowing the public to pay fees and charges for services with credit cards, charge cards, and debit cards. A department opting to allow the public to use credit cards will meet all the following conditions:

- Use the County's approved credit card service vendors to process the charges.
- Adhere to agreements with the approved credit card service vendors.
- Not charge a person using a credit card, charge card, and debit card a surcharge or fee for using the card.
- Explicitly budget in its operating budget the cost of paying credit card service vendors' fees. This budgeting will begin in the fiscal year the department starts to accept credit cards.
- Budget the cost of equipment, software, and professional services needed to implement the acceptance of credit cards, charge cards, and debit cards. This budgeting will also begin in the fiscal year the department starts to accept credit cards, charge cards, and debit cards.
- Because these cards can be considered a substitute for cash, the department will develop policies and procedures in concert with the Clerk of the Circuit Court to insure prudent management and accountability of card charges, chargebacks, and card account number security.
- Pursuant to Chapter 215.322(5) of the Florida Statutes, individual credit card, charge card, or debit card account numbers are confidential and are exempt from the provisions of Chapter 119.07(1) of the Florida Statutes.

Purpose: To allow departments under the Board of County Commissioners to have the option of accepting credit cards, charge cards, and debit cards from the public for payment of fees and charges for services. The acceptance of credit cards is authorized by Chapter 215.322 of the Florida Statutes.

Responsibility: It is the responsibility of each department opting to allow the public to use credit cards, charge cards, and debit cards to implement the above policy.

- 12. Bids for Capital Improvement Projects 10% or More in Excess of Estimated Construction Costs—BOCC Policy 03.02.01.00:** It is the policy of the Board of County Commissioners that in instances where the low bid on a Capital Improvement Project amounting to \$50,000 or more exceeds the estimated construction costs by ten percent (10%) or more, the County Administrator shall appoint a committee to review the low bid.

Purpose: The purpose of this policy is to establish a uniform system for review of capital improvement project bids exceeding the estimated construction costs by 10% or more.

Responsibility: It is the responsibility of the County Administrator to instruct the Chairman of the Review Committee to set a time for review of the project bid. The review shall consist of, but not be limited to, the plan quality, unit quantities, current unit cost, escalation clauses, if any, and other items pertinent to the project. The Committee shall present recommendations to the County Administrator on whether to accept or reject the low bid.

- 13. Capital Budget and Capital Improvement Program—BOCC Policy 03.02.02.00:** During the first year of the County's biennial budget Hillsborough County will develop and implement a comprehensive Capital Budget and a six-year Capital Improvement Program. The first two years of the Capital Program will represent the Capital Budget with the remaining four years representing the Capital Plan. During the second year of the County's biennial budget there will be a one-year Capital Budget and a four-year Capital Plan.

The Planning Commission, Constitutional Officers, Environmental Protection Commission, County Administrator and their departments, other agencies which provide services to Hillsborough County residents, and organized citizen groups, will have the opportunity to provide input to the Capital Improvement Program process. Capital project financing will be derived from various funding sources including, but not limited to, bonds, short term loans and notes, fuel taxes, federal and State grants, community investment tax (Local Government Infrastructure Surtax), enterprise revenue, impact fees and the levy of ad valorem taxes and non-ad valorem assessments as determined by the Board of County Commissioners.

The Capital Improvement Program will comply with the Laws of Florida, (specifically Florida Statute 125.85(2) Florida Statutes), the Florida Administrative Code, Generally Accepted Accounting Principles (GAAP), necessary to assure proper accounting and fiscal management techniques and any County Ordinance, Policy and Procedure which relates to Capital Improvements and does not prohibit or restrict compliance with Section 218.33, Florida Statutes.

A list of priority categories for the Capital Improvement Program will be established by the Board of County Commissioners. This list will determine initial consideration of proposed projects for the Capital Improvement Program and provide a basis for evaluation and subsequent funding. Conformance with Board priority categories will aid in assuring the worthiness of a capital improvement project in relation to factors such as public health, safety, welfare, impact on the operational cost for government services and the implications for concept of growth management.

Financial Policies and Procedures

Additions or deletions of projects in the adopted Capital Improvements Program shall be by a Resolution of the Board of County Commissioners amending the Capital Improvements Program Resolution. Such additions or deletions shall be submitted to the Planning Commission for review of the change's impact upon the adopted level of service at least ten calendar days prior to the Board of County Commissioners' meeting at which the amendment is to be considered.

Changes in the cost of a current year project, advancing projects into the current year or delaying them from the current year to a future year in the adopted Capital Improvements Program shall be handled pursuant to the budget amendment procedure contained in Section 129.06, Florida Statutes.

Changes in the cost of a current year project that are less than 10% or less than \$100,000, whichever is least, of the project's all years budget (including all funding sources), can be adjusted with the approval of the County Administrator under the Administrative Budget Amendment process. The Board of County Commissioners will be provided with a quarterly report of all such administrative adjustments.

Emergency additions to the Capital Improvements Program shall be made pursuant to the County Administrator's emergency purchasing authorization in the Hillsborough County Purchasing Manual with appropriate amendments to the Capital Improvements Program to be made as soon as reasonably possible thereafter.

In addition to the Capital Budget and the Capital Improvement Program, an annual update will be prepared, as identified in the Comprehensive Plan for Unincorporated Hillsborough County. Specifically, an annual update will be provided for:

- a. public facilities requirements related to standards set for potable water, sanitary sewer, solid waste, stormwater management, parks and recreation facilities, and arterial and collector roads; and
- b. revenue forecasts and analysis of financial capacity, as related to the above-listed public facilities.

Definitions: For the purpose of the Hillsborough County Capital Improvement Program:

- 1) **A Capital Project** is a set of activities, with related expenditures and schedule which includes one or more of the following:
 - a) delivery of a distinct asset or improvements to an existing asset, which will become an asset owned by Hillsborough County and be recorded on the financial records of the County as a capital asset under generally accepted accounting principles,
 - b) any contribution by Hillsborough County to other governmental or not-for-profit entities for the purpose of delivering a capital improvement. In situations where the improvement is not nor will it

become an asset of the County, it will be included in the Capital Improvement Program as a contribution,

- c) any project, including equipment, which is funded from the Community Investment Tax (CIT),
- d) any engineering study or master plan necessary for the delivery of a capital project, and
- e) major repair, renovation or replacement of existing facilities.

The cost and timing of these Capital Improvements are to be identified in the Capital Improvement Program. The project scope, schedule, and costs approved by the Board of County Commissioners. A Project Manager is identified for managing each capital project.

- 2) **A Major Repair, Renovation or Replacement Capital Project** is a project which is primarily intended to preserve or enhance the operational condition of the existing facility and may increase the capacity of the facility. Facilities undergoing major repair and replacement may include existing buildings, roads for resurfacing purposes, wastewater treatment facilities, etc. A project will be considered for the Major Repair, Renovation or Replacement Capital Project category if it has an estimated cost of \$100,000 or greater, or extends its useful life by at least five years, or adds capacity or square footage to an existing facility, or will require more than a twelve-month period to deliver. A project which does not extend the useful life of the asset by at least five years, or does not add capacity or square footage to an existing facility and will be delivered within a twelve-month period will be included in the County's routine repair and replacement program.
- 3) **The Capital Improvement Program** is the Board's approved financial plan of Capital Projects. The Capital Improvement Program will include "new" Capital Projects and Major Repair, Renovation or Replacement Capital Projects. "New" Capital Projects include the acquisition of new capital facilities through either purchase or construction, or assets acquired through public/private partnerships. The Capital Improvement Program should include any new facility or any existing facility which is being changed to either extend the useful life by at least five years, increase capacity, increase square footage, increase the level of service to the community, or change the function of the facility.
- 4) **Project Costs** represent the purchase price or construction costs of a project, including other capitalizable costs incurred such as feasibility studies, cost-benefit analysis, site acquisition, legal and title costs, appraisal and surveying fees, architect and accounting fees, design and engineering services, initial fixtures and equipment, and transportation charges necessary to place the completed asset in its intended location and condition for use.

Financial Policies and Procedures

BOARD OF COUNTY COMMISSIONERS PRIORITY CATEGORIES FOR THE CAPITAL IMPROVEMENT PROGRAM - The following criteria, which is not presented in any sequence, will be used to establish priority for making decisions related to capital projects to be funded in the Capital Improvement Program:

- Projects which are necessary to conform to state or federal laws or court rulings.
- Projects eligible for restricted revenues such as state and federal grants.
- Projects necessary in carrying out Hillsborough County's Comprehensive Plan for unincorporated Hillsborough County.
- Major repair and replacement capital projects.
- Projects which reduce future operating costs or improve effectiveness of operation of county services.
- Projects which are essential to the health, safety and welfare of the community.
- Projects which stimulate private investment or otherwise affect measurable neighborhood and economic improvement.
- Projects which involve inter-agency cooperation.
- Projects which will improve the cultural and recreational activities of the community.
- Projects which provide measurable environmental benefit.
- Projects which improve accessibility to County facilities to all citizens.

Purpose: The purpose of this policy is to establish Board of County Commissioners guidelines and requirements for the submission of an annual Capital Budget and the biennial development of a Six-Year Capital Improvement Program (CIP) that will be county-wide in scope and administer the implementation framework for an adequate capital projects foundation to serve the needs of the residents of Hillsborough County. The CIP is designed to balance the need for public facilities and infrastructure as expressed by the County's Comprehensive Plan with the fiscal capability of the County to meet those needs. The CIP serves as a general planning guide for the construction of general purpose and utility facilities in the County. The CIP process provides a framework for careful development of reliable capital expenditure and revenue estimates and the timely scheduling of short- and long-term debt issues.

Responsibility: It is the responsibility of the Management and Budget Department under the direction of the County Administrator to prepare and submit to the Board of County Commissioners for its approval and adoption:

The Management and Budget Department is also responsible for preparing and submitting the annual update for the unincorporated area.

- 1) a Capital Improvement Budget; and
- 2) a Capital Improvement Program for Hillsborough County.

14. Budget Submissions—BOCC Policy 03.02.02.01: It is the policy of the Board of County Commissioners (BOCC) that all government organizations funded in whole, or in part, by the BOCC submit budget requests for the upcoming year (or in the case of a two year budget process, for two years) in accordance with the budget instructions distributed annually by the County Administrator, as designated Budget Officer.

Purpose: The purpose of this policy is to provide consistent disclosure of the budgets requested by organizations funded by the Board of County Commissioners (BOCC).

Responsibility: It is the responsibility of each organization requesting funds to comply with this policy. The County Administrator, as designated Budget Officer, will advise the BOCC if any organization fails to provide the necessary detail.

15. Use of Excess Fund Balance—BOCC Policy

03.02.02.02: It is the policy of the BOCC that upon completion of the annual financial audit, any excess fund balance in the General Fund and General Purpose MSTU Fund will be appropriated by budget amendment pursuant to Section 129.06, Florida Statutes, as follows:

- Twenty-five percent (25%) will be transferred to a fleet replacement account in the Fleet Services Fund for the replacement of vehicles including annual rental costs until the County's fleet replacement account for each fund has attained industry replacement standards, as identified by the Fleet Maintenance Department; and
- Twenty-five percent (25%) will be transferred to a designated reserve in the Self Insurance Fund for unbudgeted litigation or judgment expenses until the reserve in that account equals one percent of the combined General Fund and General Purpose MSTU Fund; and,
- Fifty percent (50%) will be appropriated to the catastrophic emergency reserve in the Self Insurance Fund until reserves in that account match eight percent of expenditures in the General Fund and General Purpose MSTU Fund; and any additional funds remaining as a result of meeting the required thresholds identified in (1), (2) or (3) will be split in the same ratio to meet the remaining threshold(s).

Once the standards are met for fleet replacement, unbudgeted litigation and judgments, and catastrophic reserves, excess fund balance in either fund may be appropriated in the next adopted budget for any legal purpose.

Excess fund balance is defined as both, (1) under-expenditures which may be realigned in the budget in which it was appropriated pursuant to Section 129.06(2)(a), Florida Statutes and, (2) unanticipated revenue which may be appropriated pursuant to Section 129.06(2)(f), Florida Statutes, that combined exceed the budgeted beginning fund balance for the

Financial Policies and Procedures

next fiscal year.

Purpose: The purpose of this policy is to provide for prudent use of any excess fund balance to improve the County's financial security.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator as Budget Officer, to implement this policy.

16. Earmarking of Funds—BOCC Policy 03.02.02.03: It is the policy of the BOCC that the budget avoid "earmarking" of available revenues that would unnecessarily restrict the full range of potential uses of such revenues. The use of various funds, however, will be consistent with generally accepted accounting principles and Florida Statutes, Section 129.02.

Purpose: The purpose of this policy is to provide the BOCC maximum discretion in the use of its funds.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

17. Self-Insurance Fund—BOCC Policy 03.02.02.04: It is the policy of the BOCC that the County's self-insured programs are fully funded, including reserves for incurred-but-not-reported (IBNR) claims, through annual assessments to covered departments and agencies. Unrecovered costs in one year may be recovered in a subsequent year through adjustments to charges.

Purpose: The purpose of this policy is to ensure that all programs managed through the Self Insurance Fund are fully funded through the fees recovered through covered departments and agencies, including administrative costs and reserves. Covered programs include: health insurance, worker's compensation, auto liability, and general liability.

Responsibility: It is the responsibility of the Management and Budget Department, the Procurement Services Department, and the Human Resources Department, under the direction of the County Administrator, to implement this policy.

18. Pay-As-You-Go Funding of Capital Improvement Projects—BOCC Policy 03.02.02.05: It is the long-term policy of the BOCC to use at least one percent of the County's unrestricted General Fund revenues and one percent of the County's unrestricted General Purpose MSTU Fund revenues to provide pay-as-you-go funding for the general government capital improvement program (CIP) for renewal, replacement and/or improvement of County facilities. For the purpose of this calculation, fund balance, transfers and other non-revenue sources will not be considered.

Purpose: The purpose of this policy is to establish a long-term target for financing a portion of the County's general government capital improvement program through pay-as-you-go funding, in order to provide adequate funding for minor projects, rehabilitation and renovation of existing assets, and front-end funding of other projects for which total project cost has not been calculated.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

19. Prioritization of Capital Projects—BOCC Policy 03.02.02.06: It is the policy of the BOCC that capital projects be prioritized based on standards established for each program. Within the prioritization process, capital maintenance of existing infrastructure will be given a higher priority than new construction. New construction projects will be prioritized based on standards established for each program, including comprehensive plan standards and impact fee standards.

Purpose: The purpose of this policy is to ensure that prioritization of capital projects reflect established community standards, and that the County maintains its existing infrastructure investments.

Responsibility: It is the responsibility of the Management and Budget Department, using input from the Planning and Growth Management Department, under the direction of the County Administrator, to implement this policy.

20. Minimizing the Expense of Financing Capital Projects—BOCC Policy 03.02.02.07: It is the policy of the BOCC that short-term or long-term financing for capital projects be based on anticipated cash requirement so as to borrow only when funds are needed, and to fully comply with federal tax code in regard to arbitrage rebates. That is, funds shall not be borrowed for future phases of a project, if those funds will not be needed within the next twelve months and the County will incur additional interest expense or operating impacts as a result of such action.

As necessary, the County will employ the use of bond anticipation notes (BAN's), pay-as-you-go financing until an accurate project cost can be determined, and/or breaking a bond issue into phases.

Purpose: The purpose of this policy is to minimize the financing (interest) expense and operational impacts that may result from borrowing funds for future capital project requirements.

Responsibility: It is the responsibility of the Management and Budget Department, and the Debt Management Department, under the direction of the County Administrator, to implement this policy.

Financial Policies and Procedures

21. Operating Impact of Capital Projects—BOCC Policy

03.02.02.08: It is the policy of the BOCC that all capital projects considered for funding by the County include information on the potential impacts on maintenance, as well as any cost of operating the project. Such information will include any savings resulting from the project, as well as any new costs. The operating impact information shall be provided for the period covered in the County's current six year Capital Improvement Program. No capital project shall be funded unless operating impacts have been assessed and the necessary funds can be reasonably assumed to be available, when needed.

Purpose: The purpose of this policy is to assess the impact of capital projects on the need for operational funding. Such assessment should prevent the County from building or acquiring a project that the County cannot afford to operate and/or maintain.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

22. User Fees and Cost Recovery—BOCC Policy

03.02.02.09: It is the policy of the BOCC that the County may from time to time establish or update fees for services provided by the County (user fees). The County will identify the full cost of providing a service for which fees are charged. Wherever practical, the County shall identify cost recovery goals for each fee and authorize automatic adjustment so that the fee can be updated to recover the same portion of the County's cost over time. The calculation of cost will include all reasonable and justifiable direct and indirect cost components.

Purpose: The purpose of this policy is to identify the full cost of services for which user fees are charged and to establish, over time, specific cost recovery goals for these services that can be maintained as costs change.

The calculation of the full cost of providing a service does not suggest that user fees should fully recover the cost, only that the public should know what portion of the cost is being recovered through user fees, and such recovery rate should be maintained unless the Board acts to increase or reduce a cost recovery goal.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

23. Recovery of Indirect Costs—BOCC Policy 03.02.02.10:

It is the policy of the BOCC that for the calculation of the value of indirect services provided to a department (exclusive of any grant-funded programs), the County use the most current, "full-cost" cost allocation plan.

- Enterprise operations - Each County enterprise operating shall reimburse the General Fund for the Calculated Value of indirect services provided to the

enterprise. These costs should be incorporated into service charges levied by the enterprise. The amount actually charged should be based on the amount derived during the budget process.

- Internal service operations - Each County internal service operation shall reimburse the General Fund for the calculated value of indirect services provided to the internal service department. These costs should be incorporated into service charges levied by the internal service fund.
- Building Division - The Building Division of the Planning and Growth Management Department shall reimburse the General Fund for the calculated value of indirect services provided to the Building Division. These costs should be incorporated into permit and licensing fees levied by the Division.
- Special Library District - The Library Services Department, which is funded through the Special Library District, shall reimburse the General Fund for the calculated value of indirect services provided to the Library Services Department. These costs should be incorporated into the annual budget, and should be covered by the millage levied for the Special Library District Fund.
- Other Funds - As appropriate, other operating funds such as the General Purpose MSTU Fund and the Transportation Trust Fund will reimburse the General Fund for the calculated value of indirect services provided to departments funded from those funds. The Management and Budget Department should determine where such charges are appropriate. These costs should be incorporated into the annual budget, and should be covered by the revenues available to those funds.

Purpose: The purpose of this policy is to establish how indirect cost charges are assessed to recover a portion of the General Fund costs for central service departments from other funding sources.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

24. Anticipated Revenue Shortfalls—BOCC Policy

03.02.02.11: It is the policy of the BOCC that in the event a significant revenue shortfall is within an operating fund, the County will develop a plan to reduce expenditures, use reserves, or take other appropriate actions to maintain the financial integrity of the County.

Purpose: The purpose of this policy is to ensure that a measurable reduction in revenues results in actions to reduce expenditures. Budget control is based on budgeted revenues. In the event actual revenues are anticipated to fall short of budget, expenditures should be reduced to ensure that a shortage of funds or a drawdown of fund balance does not occur.

Financial Policies and Procedures

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

- 25. Fleet Maintenance—BOCC Policy 03.02.02.12:** It is the policy of the BOCC that the Fleet Maintenance Department operate within an internal service fund. The internal service fund shall recover, over time, the full cost of providing fleet maintenance services to customers, as well as the projected replacement cost (net of salvage value) for vehicles owned by Fleet Maintenance and rented to departments and agencies. The Department will develop a fleet replacement schedule and update that schedule annually.

Within this internal service fund, there will be maintained a fleet replacement reserve, the purpose of which is to accumulate the funds necessary to replace County vehicles when they meet County standards for replacement. Fleet replacement standards shall be reviewed annually to ensure rental rates are set to recover sufficient funds to replace vehicles.

Purpose: The purpose of this policy is to operate the Fleet Maintenance Department in a self-sufficient manner, reflecting both maintenance of County vehicles and replacement of vehicles.

Responsibility: It is the responsibility of the Fleet Maintenance Department, under the direction of the County Administrator and with the assistance of the Management and Budget Department and the Debt Management Department, to implement this policy.

- 26. Pay Comparability with Public and Private Employers—BOCC Policy 03.02.02.13:** It is the policy of the BOCC that pay ranges for all employees be targeted to the 50th percentile in a comparison of pay with public and private employers. As a targeted goal for comparison purposes, the midpoint of each County pay range should represent the imputed market value of a job and should be set so that one-half of comparable employers pay lower (the basis for a 50th percentile) and the other one-half pay higher. However, as the BOCC considers the targeted percentile along with the total employee compensation package, it will be the BOCC discretion in determining where the actual pay ranges shall be established.

Purpose: The purpose of this policy is for the County to be a competitive employer.

Responsibility: It is the responsibility of the Management and Budget Department and the Human Resources Department, under the direction of the County Administrator, to implement this policy.

- 27. Performance Pay—BOCC Policy 03.02.02.14:** It is the policy of the BOCC that the budget include an annual pay

adjustment for employees, with each employee's actual pay adjustment based on an assessment of job performance.

Purpose: The purpose of this policy is for the County to maintain a pay system for employees under the County Administrator that ties pay increases to performance as an incentive for employee performance.

Responsibility: It is the responsibility of the Management and Budget Department and the Human Resources Department, under the direction of the County Administrator, to implement this policy.

- 28. Performance Measurement—BOCC Policy 03.02.02.15:** It is the policy of the BOCC that performance measures be developed for all organizations to provide information on workload, efficiency and effectiveness. Comparative information should be provided in budget documents for a minimum of three or four years - the previous year, the current year, and the upcoming budget year or years. Selection of measures shall reflect quantifiable key objectives for each organization, industry standards, and the availability of data.

Purpose: The purpose of this policy is to provide the public with quantifiable objectives for each organization and statistics on performance that can be compared over time, and against similar organizations in other jurisdictions. Objectives and measures provide the public with information on outcomes resulting from the investment of public funds in an organization's operations.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

- 29. Multi-Year Projection of Operating Funds—BOCC Policy 03.02.02.16:** It is the policy of the BOCC that the County annually prepare a Pro Forma projection of revenues and expenditures for the General Fund and Unincorporated General Fund that builds on the adopted current year budget and extends that budget five years - consistent with the period covered by the County's capital improvement program. The projections should include the anticipated operating impacts of the adopted capital improvement program. Major assumptions should be outlined and sensitivity analysis should be provided for alternate assumptions. In addition to the financial projections, the County will prepare a financial plan outlining how the County can address any shortfalls identified in the projections.

Purpose: The purpose of this policy is to establish multi-year financial planning as a strategic planning tool for major operating funds that receive ad valorem tax revenue. A model can be used with trend analysis to project future revenues and expenditures using alternative economic, planning and policy assumptions. The model can be used, in turn, to develop a financial plan of action to address any identified needs.

Financial Policies and Procedures

The financial planning process helps shape decisions and permits necessary and corrective action to be taken before problems become more severe. A financial forecast and the associated financial plan is not a forecast of what is certain to happen, but rather a device to highlight significant issues or problems that must be addressed if goals are to be achieved, and a plan to address those issues or problems.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy by preparing an annual report by February 1.

30. Budgetary Position Control—BOCC Policy 03.02.02.17:

It is the policy of the BOCC that the total number of permanent full-time, and part-time positions approved in the adopted budget for each department, agency or office funded by the BOCC may not be exceeded without prior approval of a change in the authorized staffing level. The County Administrator as designated Budget Officer, may authorize position realignments between departments, agencies and offices with the consent of any affected appointing authorities, so long as the re- alignment is not inconsistent with the work program in the approved budget. For departments and agencies that report to the BOCC, this also applies to temporary positions.

Additions to the approved number of total positions (i.e., permanent full-time, part-time, and temporary) in all organizations funded by the BOCC will require BOCC approval.

The following applies to departments and agencies that report to the BOCC:

Approved positions that have remained vacant for greater than one year will be eliminated along with related budget appropriation unless continuation of the position(s) is approved by the BOCC. For purposes of this policy, a position is not considered to be vacant if it is associated with an employee that is on an approved leave of absence. A position becomes vacant on the date that staff in the position terminated employment based on the effective date in an approved personnel action. Newly established positions are considered to become vacant from the effective date of the position as determined through Civil Service Board approval up until such time as the position becomes filled with a new employee.

Positions that are not established through either the Human Resources Department (unclassified positions) or the Civil Service Office (classified positions) within six months after BOCC approval will be eliminated along with related budget appropriation and reported to the BOCC through an agenda item.

Costs associated with the use of temporary employees will be controlled through standards documented by the Human Resources Department. At a minimum, these standards will address the use of temporary agencies, compensation, promotional opportunities, and recruitment.

The term of employment for temporary staff shall not exceed 180 days.

Purpose: The purpose of this policy is to control expenditures on personnel through control of the number of positions each organization is authorized to fill.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

31. Budget Override Authority—BOCC Policy 03.02.02.18:

It is the policy of the BOCC that a procedure exist to permit the County Administrator, as designated Budget Officer, to provide authorization to the Clerk of Circuit Court, as Chief Financial Officer, to bypass or override established budgetary controls when there are no appropriations or insufficient appropriations with a designated department or agency funding source. To address the immediate operational requirement, such override will be requested only in situations when it is absolutely necessary and when a budget amendment has been prepared for approval by the BOCC at any of their next scheduled meetings, and when the County Administrator is not aware of any reason why the BOCC would reject approval of the budget amendment. At no time shall the fund be overexpended. The authority to prepare the budget amendment and coordinate the override with the Clerk of the Circuit Court may be delegated to the Budget Director.

In addition, this policy also authorizes the Clerk of Circuit Court to automatically process overrides on statutory payments (i.e., payroll, payroll benefits, and workers compensation payments), accounting system interfaces, and accounting corrective action when such processing is in the best interest of the County.

Budget amendments to correct such overrides become the responsibility of the department or agency through their routine budget monitoring process.

Purpose: The purpose of this policy is to provide for temporary bypass of normal budgetary controls when, in the conduct of normal business, a department or agency has expended its approved budget or has incurred unanticipated expenditures and it becomes necessary to issue warrants or process purchase orders or requisitions prior to having the Board of County Commissioners (BOCC) approve additional appropriations through a budget amendment.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

32. Balanced Budget—BOCC Policy 03.02.02.19:

It is the policy of the BOCC that the County adopt a balanced budget for all funds. The County will avoid budget and accounting practices that balance the budget at the expense of future budgets. The budget will not use one-time (non-recurring) sources to fund continuing (recurring)

Financial Policies and Procedures

uses, postpone expenditures, intentionally underestimate expenditures or overstate revenues, or use external borrowing for operational requirements.

Purpose: The purpose of this policy is to establish professional standards for the balancing of the annual budget that are consistent with a goal of long term financial health for the County.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

33. Budgetary Control—BOCC Policy 03.02.02.20: It is the policy of the BOCC that the budget be controlled at the level of character of expense within a fund, by department or agency.

Purpose: The purpose of this policy is to formalize the County's level of budgetary control.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

34. Fiscal Year—BOCC Policy 03.02.02.21: It is the policy of the BOCC that County programs be operated on a fiscal year period beginning each October 1, and ending the following September 30, except where such timing is inconsistent with federal or state programs. Operating contracts will include language that funding in future fiscal years will be subject to the availability of funds.

Purpose: The purpose of this policy is to conform the timing and reporting of County-operated programs to the fiscal year established for counties under Florida Statutes, Section 129.04, except where such timing would be inconsistent with federal or state programs. Consistent timing of program years with the fiscal year will allow reconciliation between program reporting and existing requirements for financial reporting. In general, this impacts non-grant programs where program reporting will be inconsistent with financial reporting unless both follow the same reporting period.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

35. Reserve for Cash Balance (Stabilization Funds)—BOCC Policy 03.02.02.22: It is the policy of the BOCC that the County budget an ending fund balance for an upcoming fiscal year equal to a minimum of 5 percent of expenditures. The calculation will be based on expenditures in the most recent year for which audited actuals are available. For example, in preparing the budget for FY 08, an ending fund balance will be budgeted equal to 5 percent of FY 06 audited expenditures, since the budget

for FY 08 will be prepared during FY 07. If a budget for FY 09 is also budgeted as a part of a biennial budget process, it will also be based on FY 06 expenditures, since that will still be the most recent year for which audited expenditures are available.

For the purpose of this calculation, expenditures will include transfers to Constitutional Officers but exclude interfund transfers.

This policy applies to the following operating funds: General Fund, Unincorporated General Fund (MSTU Fund), and Special Library District Fund.

Recognizing that the minimum 5 percent target may not be accomplished immediately, the County will move toward that level through the following interim objectives:

- FY 00 a minimum of 0.625 percent
- FY 01 a minimum of 1.250 percent
- FY 02 a minimum of 1.875 percent
- FY 03 a minimum of 2.500 percent
- FY 04 a minimum of 3.125 percent
- FY 05 a minimum of 3.750 percent
- FY 06 a minimum of 4.375 percent
- FY 07 a minimum of 5.000 percent

Purpose: In order to be fiscally prudent, current revenues should pay for current expenditures. One-time sources such as beginning fund balance should be allocated only to one-time uses or carried forward. A reserve for cash balance to be carried forward as authorized by Section 129.01(2)(C)2. Florida Statutes should be budgeted each year at an adequate level to insulate the County against unanticipated revenue shortfalls and/or unanticipated expenses in the upcoming year and to ensure that sufficient cash is available in the following year to meet the County's obligations until revenues are anticipated to be available.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

36. Fact Based Decision Making—BOCC Policy 03.02.02.23: It is the policy of the Board of County Commissioners that departments and organizations engage in the collection and use of data in making decisions. Such a process will ensure the financial stability of the County is maintained, and county residents and businesses are well-served through effective decision-making.

Purpose: The purpose of this policy is to establish that Hillsborough County government should incorporate the review of facts underlying an issue prior to making decisions. This pertains to decisions made both by staff and by the Board of County Commissioners. The facts used may include financial data, legal precedents, engineering statistics and other forms of data.

Responsibility: It is the responsibility of each department and organization to comply with this policy.

Financial Policies and Procedures

37. Service and Program Delivery—BOCC Policy 03.02.02.24: It is the policy of the Board of County Commissioners (BOCC) that each department and organization funded by the BOCC continually measure the efficiency and effectiveness of services and programs and benchmarks.

Purpose: The purpose of this policy is to establish that services and programs provided by the County are evaluated to ensure that the best approach for delivery is selected which is both efficient and effective. Programs and services are the methods by which a government addresses priorities created through its policies and plans.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

38. Budget Adjustment For Turnover Savings—BOCC Policy 03.02.02.25: It is the policy of the Board of County Commissioners that in preparing the budget, the County Budget Officer may budget less than the calculated annual cost of personnel based on an analysis of historical expenditure trends which reflect the savings that result from turnover resulting from resignations, terminations, retirements, promotions, and transfers. In the event this policy is utilized, a minimum of 25% of the amount that is subtracted from the budget to reflect such turnover savings will be placed in a reserve within the respective fund and be available only for appropriation to meet personnel costs for budgeted positions. This reserve shall not be used to hire new employees or to meet other operational requirements. The funds placed in reserve may be used to meet unanticipated personnel requirements of any organization in which a reduced level of personnel funding was budgeted as a result of the application of this policy. Any reserve balance remaining at year-end will be available for appropriation in the subsequent year.

Amounts subtracted from the personnel budget and not reserved will be available for appropriation in the current fiscal year.

In implementing this policy, provisions should be made to exempt organizations with less than 25 positions, and this policy does not apply to the budgets of Constitutional Officers.

Purpose: The purpose of this policy is to allow the budget to reflect anticipated year-end personnel expenditures while ensuring that adequate funds are available to fund all positions throughout a fiscal year. Budgeting the cost of positions based on historic knowledge of savings that result from turnover resulting from resignations, terminations, retirements, promotions, and transfers (also known as budgeting for attrition) better reflects what will actually be spent on personnel costs. At the same time, provision must be made if turnover savings is less than anticipated, and to recognize the potential problems for organizations with few employees.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator as County Budget Officer, to implement this policy.

39. Use of Capital Project Appropriations—BOCC Policy 03.02.02.26: Appropriations for a capital project deemed not needed to complete that project should be appropriated in the following order.

- 1) In accordance with bond covenants, grant contracts, statutory provisions, or other legal requirements, maintain a contingency balance within each fund sufficient to allow completion of currently approved capital projects. This contingency balance (the sum of Allocated Funds for Future Capital Projects, Allocated Funds for Future Land Acquisition and Reserve for Future Capital outlay) shall be computed as follows:

On an all years basis, the contingency balance for capital projects within any subfund shall equal at least 10% of the subfund's total all years appropriation less the sum of actual all years expenditures, all reserves, and all years appropriations for allocated funds for future land acquisition and future capital projects.

- 2) Once contingency balance requirements have been met, remaining capital project appropriations may be used to reduce outstanding debt within the applicable program if permitted by bond covenants and if doing so does not create an economic or financial loss.
- 3) If the requirements in 1) and 2) above have been met, remaining funds may be used to initiate new projects.
- 4) Depending on the original funding source, if no unfunded needs currently exist, if no other requirements are specified under bond covenants, grant contracts, statutory provisions or other legal requirements, excess funds shall be added to Reserve for Future Capital Outlay. If the funds were originally transferred from a tax fund then remaining appropriations may be returned to that tax fund.

Note that any time a budget amendment (either administrative or Board agenda item) is submitted to reduce the total funding for a given project, the amount of the proposed reduction will be deemed to be "remaining" appropriations subject to this policy. Appropriations associated with projects from general allocations for a type of project (i.e., the annual appropriation for road resurfacing, sidewalks, intersection improvements, median barriers, school flashers, etc.) will be returned to the allocated funds account established for that purpose and will not be subject to these requirements.

Financial Policies and Procedures

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator as County Budget Officer, to implement this policy.

40. Budgetary Reappropriations—BOCC Policy

03.02.02.27: It is the policy of the BOCC that the portion of any year's budget that is attributed to the carryover or reappropriation of a prior year's financial commitments be limited to items meeting at least one or more of the following criteria:

- 1) Operating expenses within restricted funds may be adjusted (added to or subtracted from) for any actual fund balance in excess of or below that budgeted. Use of excess balances will be determined during the review of reappropriation requests.
- 2) Operating expenses relating to an encumbrance that is limited to one-time costs budgeted in a prior fiscal year with an obligation to pay carried into the subsequent year. The expenses must be necessary and material in amount in relation to the department's budget (e.g., the balance of a professional services contract that cannot be absorbed within the current fiscal year budget). Eligible items should come primarily from encumbrances within objects 031 Professional Services and 034 Other Contractual Services. Encumbrances for "supplies" typically do not meet the eligibility criteria for reappropriation. All reappropriation requests must be specifically documented and supported by a valid purchase order or encumbered contract.
- 3) Grants and aids and capital items where a purchase order was issued and funds encumbered in a prior fiscal year, but payment was not made prior to the close of that fiscal year.
- 4) Grants and aids and capital items for which the Procurement Services Department received a valid purchase requisition and a pre-encumbrance was posted in FAMIS but the actual purchase order was not issued prior to the end of a prior fiscal year. This eligibility criterion, as it relates to capital items, is intended to accommodate the purchase of capital equipment that has a long purchasing cycle, including the development of specifications and bidding. Individual pre-encumbrances will be reviewed for eligibility based upon the date the requisition was initiated, type of equipment, and whether the specific capital outlay was part of an approved BF-105 in the department's prior year budget submittal or a mid-year budget amendment.

The County Administrator may add additional eligibility criteria to further restrict items eligible for re-appropriation based on an assessed need for tighter budgetary control or funding limitations.

The County Administrator's recommendations for reappropriation must be approved by the BOCC through the budget amendment process.

Purpose: The purpose of this policy is to control which

financial commitments (from a prior fiscal year) are eligible to be rebudgeted and reappropriated in a new fiscal year.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

41. Method of Funding Citizen Initiated Localized Capital Projects or Services—Board Policy 03.02.02.28:

It is the policy of the Board of County Commissioners that it will use non-ad valorem assessments to fund the full cost of citizen initiated capital projects or services that will benefit limited areas within the unincorporated area, that exceed the current general levels of services provided to residents of unincorporated area by Hillsborough County and have not been previously provided by the County. These non-ad valorem assessments will be imposed through Municipal Service Benefit Units (MSBU) the BOCC may establish under Chapter 125.01(1)(q) of the Florida Statutes.

- 1) The area to be included in an MSBU is compact and amenable to the efficient and effective delivery of service.
- 2) A fair and reasonable methodology can be developed to apportion the full cost of the capital project or service to those properties benefiting.
- 3) The citizen initiated project or service is not the remediation of a tangible action of the Hillsborough County Charter Government.

This policy does not apply to the County's existing MSBU programs such as residential streetlighting, reclaimed water, transportation impact fee assessment units, water and sewer capacity fee assessment units, or infrastructure assessment units, etc. It also does not apply to existing localized programs that are available through established processes to all unincorporated area communities such as residential and neighborhood traffic control or the neighborhood minigrant program.

Additionally, if the BOCC uses grants or other funds from intergovernmental and/or private agreements to pay all or part of a localized capital project or service that conforms to #1 above, this action does not obligate the BOCC to fund all or part of the future costs of projects or services of this type or service level with ad valorem taxes or other local non-grant resources.

Purpose: The purpose of this policy is to establish guidelines regarding the method of funding citizen initiated projects or services that benefit limited geographic areas within the unincorporated area, that exceed the current general level of service provided to residents of unincorporated area by Hillsborough County and have not been previously provided by the County.

Responsibility: It shall be the responsibility of the County Administrator to manage compliance with this policy.

Financial Policies and Procedures

42. Environmental Land Acquisition Program (ELAP) Fund—BOCC Policy 03.02.03.00: It is the policy of the Board of County Commissioners that general obligation bonds for ELAP not be issued this fiscal year in order to save issuance and interest costs. Further, it is the policy of the Board that .25 mills be levied in September 1991 to continue the ELAP program and to further adopt an ordinance or to amend the existing ordinance to declare the levy in September 1991, the first year of the 20 year period.

Purpose: The purpose of this policy is to clarify the financing of the Environmental Land Acquisition Program (ELAP) for 1991-1992 as it pertains to a referendum approved by voters on March 3, 1987, and a referendum approved by voters on October 2, 1990. The 1987 referendum authorized a tax levy of up to .25 mills for a period not to exceed four years. The 1990 referendum authorized general obligation bonds payable from ad valorem taxes at a rate not exceeding .25 mills in any one year for a period not to exceed 20 years from the first levy.

Responsibility: It is the responsibility of the Municipal Services Team under the County Administrator to be the coordinating agency for this policy.

43. Reserve for Catastrophic Emergencies—BOCC Policy 03.02.04.00: It is the policy of the (BOCC) to maintain a Catastrophic Emergency (“Rainy Day”) reserve within the County’s Self Insurance Fund for events of such magnitude that they could not otherwise be covered by available, budgeted funds. This reserve shall be used only for one or more of the following events:

- Local disaster recovery requiring County expenditures;
- Unanticipated County liability;
- Major County revenue shortfall.

Expenditures or revenue of the County’s enterprise operations are excluded. Use of this reserve requires approval by a super majority vote of the BOCC, and the prior drawdown of all available, and appropriate, contingency reserves.

Purpose: The purpose of this policy is to maintain emergency reserves that will provide for unanticipated financial impacts on the Board of County Commissioners.

Responsibility: It is the responsibility of the County Administrator and the Management and Budget Department to advise the BOCC when it may be necessary to draw down this reserve, identifying the criterion which has been met. A final determination that use of the reserve is appropriate shall be made by the BOCC.

44. Reserve for Contingency—BOCC Policy 03.02.05.00: It is the policy of the Board of County Commissioners (BOCC) to reduce the draw downs on the Reserve for Contingencies to only those requests that meet one or more of the following criteria:

- 1) could not be reasonably anticipated during the budget

process for the current year and without funding would result in material financial penalty or detriment to the County;

- 2) are the result of new unfunded/federal mandates that require immediate funding;
- 3) would not be part of any County competitive funding program in the following year, and/or;
- 4) are offset by unbudgeted revenues that cannot be appropriated in the current year.

All requests will require detailed justification including a statement as to why these requests could not wait until the next budget cycle, and will require a supermajority vote of the BOCC for passage with the following exception: if funding is appropriated in the current year’s budget for the Fallen Heroes Fund program, a supermajority vote is not required to increase the appropriation of funding in that General Fund program to a maximum of one million dollars for the fiscal year.

Purpose: The purpose of this policy is to provide a clear guideline restricting the use of the Reserve for Contingency within the unrestricted General Fund and within the unrestricted General Purpose MSTU Fund.

Responsibility: It is the responsibility of the County Administrator and the Management and Budget Department to advise the BOCC when it may be appropriate to draw down this reserve, identifying the criterion which has been met. Proposed budget amendments that appropriate contingency reserves in the General Fund or General Purpose MSTU Fund will be placed on the regular section of the BOCC agenda of a regularly scheduled meeting for BOCC discussion.

Any deviation to this policy shall require a super-majority vote of the BOCC prior to consideration of the budget amendment.

45. Debt Management—BOCC Policy 03.02.06.00: It is the policy of the Board of County Commissioners: (a) to periodically approve the issuance of Debt Obligations on behalf of the County to finance the construction, acquisition and/or equipping infrastructure and other capital assets to meet its governmental obligations to its residents; (b) to approve the issuance of Debt Obligations to refund outstanding debt when indicated by market conditions or management considerations; (c) that such Debt Obligations are issued and administered in such a manner as to ensure and sustain the long-term financial integrity of the County, to achieve the highest possible credit ratings and to preserve and enhance the quality of life, safety and welfare of its residents; (d) that such Debt Obligations shall not be issued or debt proceeds used to finance current operating expenditures of County government except as provided for herein; and, (e) to issue or guarantee, if necessary, Debt Obligations on behalf of independent authorities and agencies of the County to finance the construction, acquisition and/or equipping of infrastructure and capital assets which serve a public purpose and further the goals of County government.

Financial Policies and Procedures

[The term "Debt Obligations" shall mean bonds, notes, letters and lines of credit, or other securities issued by the County to fund a capital project providing a public benefit and secured by a pledge on a specific revenue source or a covenant to budget and appropriate specific revenues.]

Purpose: To establish parameters and guidance for the issuance, management, monitoring, assessment and evaluation of all Debt Obligations (defined below) issued by Hillsborough County.

Responsibility: It is the responsibility of the Debt Management Department, under the direction of the County Administrator and with the advice of the Finance Committee, to implement this policy.

46. Policy Concerning Conduit Private Activity Bond Issuance—Board Policy 03.02.06.01: - All requests for County approval of PAB's proposed to be issued by a Conduit Issuer or issued directly by the County on behalf of a Borrower must comply with the policies, guidelines and procedures described in the attached Borrower Application Forms.

Furthermore, Conduit Issuers and Borrowers shall use the County's bond counsel, and the County Attorney's Office shall serve as General Counsel to all Conduit Issuers whose members are appointed by the County Commission. Finally, fees payable to the Hillsborough County Board of County Commissioners by the Borrower are established as follows: (1) a non-refundable \$2,000 application fee, (2) a fee in the amount of ½ of 1% of the total par amount of bonds issued, payable from bond proceeds (minimum fee of \$25,000), and (3) a surcharge of \$2,500 for expedited review of completed applications received less than 31 days prior to the desired date of presentation to the Board.

Purpose: The purpose of this policy is to ensure that the County's review of applications for Board approval of Conduit Private Activity Bond issuance is conducted efficiently and effectively while accomplishing the following objectives: (1) ensuring that the County's interests are protected, (2) ensuring compliance with the County Commission's policies and goals, (3) instituting standardized procedures and guidelines for the evaluation and issuance of Conduit Private Activity Bonds, and (4) imposing application and review fees to be paid by the Borrower.

For the purpose of this policy, the following terms have the indicated meanings:

- 1). Conduit Issuer means any city, county, or in- dependent governmental authority established by statute excluding, however, the Hillsborough County Housing Finance Authority and the Hillsborough County Industrial Development Authority.
- 2) Conduit Private Activity Bonds (PAB's) mean a type of revenue bond, issued by a Conduit Issuer on behalf of a Borrower, specifically authorized by statute and by

the U.S. Tax Code of 1986, as amended, and the proceeds of which are used to fund eligible capital projects. PAB's are payable solely from revenues derived from loan, lease or installment sale payments made by the Borrower.

- 3) Borrower means a not-for-profit entity, or other entity permitted by the U.S. Tax Code of 1986, as amended, to utilize Private Activity Bond financing.

Responsibility: Debt Management Department.

47. Water and Wastewater Financial Policy—BOCC Policy 03.03.01.00:

Hillsborough County intends to operate its water and wastewater system in a businesslike manner using financial procedures which are consistent with those used in standard utilities operations. The Water Department shall be an enterprise fund department existing solely on its own revenues (i.e. monthly service revenues and fees, grants, interest income, bond sale proceeds, etc.) and such revenues are expended only for use of the Water Department. Further, monthly water and wastewater service revenues shall be used, to the greatest extent possible, to provide for the operation and maintenance of the utilities system, renewal and replacement, debt service (except for the portion eligible to be paid by capacity fees), and any capital rehabilitation related to service of existing customers.

In addition, the funds to expand the utilities system to service new customers shall be obtained through capacity fees, past earnings of the system, grants (including Community Investment Tax), proceeds from bonded Capacity Assessments Units (CAU's), and un-bonded CAU's. Provided, however, that any Water Department funds may be used to meet cash flow requirements to expand the utilities system with a return of those funds used in lieu of capacity fees. Capacity fees and CAU's shall be accounted for as set forth in appropriate county ordinances and bond covenants. Also, these fees and all other Water Department fees, rates and charges shall be reviewed on an annual basis to determine their sufficiency for providing service in compliance with the bond resolution.

Purpose: The purpose of this policy is to insure that the Hillsborough County Water Department utilizes a financial program using acceptable and sound procedures consistent with standard criteria for operating utilities and that the Water Department shall be an enterprise fund existing solely on its own revenues and that such funds are utilized only for the use of the Water Department.

Oversight Responsibility: The Water Department under the direction of the County Administrator will establish and execute procedures necessary and comply with existing ordinances and bond covenants to accomplish the appropriate financial planning, accounting and review for the operation, maintenance and expansion of the utilities system.

Financial Policies and Procedures

48. Community Investment Tax Financial Policies—BOCC Policy 03.03.05.00: The Board of County Commissioners is committed to the efficient delivery of projects to be funded by the Community Investment Tax. The Board recognizes that during the delivery period, the costs of the projects may change and opportunities to expedite projects may arise. The policy is summarized below and is described in more detail in the attachment.

A reserve is established to cover unanticipated costs of projects funded by the Community Investment Tax. The County Administrator may use the reserve to cover contingencies and cost increases which are within 10% or \$100,000 (whichever is less). If cost increases are over 10% or \$100,000, then the County Administrator may recommend a funding alternative which may include the reserve. If a project cost is lower, its scope is reduced, or it is not feasible to implement, then funds originally allocated to the project will be allocated to the reserve. If the reserve is sufficient to cover contingencies in a given year, the County Administrator may recommend expediting a project programmed for funding in future years. In the event a project programmed for future years becomes needed sooner than anticipated, the County Administrator may recommend using the reserve, detaining a current project, or consider financing. Financing may be recommended if the following conditions are met: the reserve is insufficient; there is a cost savings or other economic reason, and there are sufficient staff resources to implement the project.

Purpose: To establish financial parameters and guidance for the implementation of projects funded by the Community Investment Tax.

Responsibility: It is the responsibility of the Management and Budget Department and the Office of the Capital Program Administrator, under the direction of the County Administrator, to implement this policy.

49. Guidelines for Use of Phosphate Severance Taxes—BOCC Policy 03.04.24.00:

- It is the intent that phosphate severance tax revenue be separately accounted for in the County's accounting structure so that a clear record of receipts, balances, interest earnings, and uses may be maintained. Under the County's accounting structure, this requires maintaining revenues and recording expenditures within a separate fund.
- While several uses have previously been identified as eligible uses of this tax, it is the policy of this Board that the funds be used for phosphate-related purposes. Pursuant to this policy, phosphate-related purposes shall consist of or be similar to such uses as restoration of phosphate lands for appropriate and lawful public reuse, mitigation or remediation of environmental damage or harm caused or likely to be caused by phosphate mining or its related and intended activity, or repair or improvement of public infrastructure directly damaged or likely to be

damaged from such phosphate activities. Any expenditure of phosphate severance tax revenue not covered by the above definition will require a supermajority vote of the Board of County Commissioners.

- To prevent any abuse of these funds and interest thereof, any new use of phosphate revenue, will be reviewed by the County Attorney's Office and then presented to the Board of County Commissioners as a County Administrator recommendation in a staff report on the regular agenda for Board concurrence. No new use will be included in any recommended budget or budget amendment presented to the Board without prior approval.

Purpose: Hillsborough County receives from the State of Florida a portion of the taxes paid by phosphate mining companies for mining activities within Hillsborough County. Florida Statutes provide certain constraints on the use of phosphate taxes by Hillsborough County, limiting their use to phosphate-related expenditures. The purpose of this policy is to establish parameters for the use of those taxes.

Responsibility: It is the responsibility of the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

50. Budget Preparation and Limitations—BOCC Policy

03.05.07.00: It is the policy of the BOCC that, commencing with the preparation of the proposed annual budget for the 2008 Fiscal Year and each fiscal year thereafter, in preparing the annual budget for submission to the BOCC, the County's Budget Officer shall insure that, except as otherwise directed by this policy, the proposed amounts budgeted for the Countywide General Fund and the Unincorporated Area General Fund do not exceed the amount budgeted for each of the respective funds in the adopted annual budget for the prior fiscal year plus amounts for inflation and population growth based upon price and population indices adopted by the County's Budget Officer. With respect to the preparation of the proposed annual Budget for the 2008 Fiscal Year, the adopted annual budget for the prior fiscal year shall mean the adopted annual Budget for Fiscal Year 2007 as amended as of the approval of this policy by the BOCC.

The limitation provided in this policy, shall not apply to the proposed amounts to be budgeted for each of the respective funds for: mandates imposed by the State of Florida or the Federal Government; funding directly provided to the Clerk of the Circuit Court, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector; or funding necessary to satisfy all contractual obligations and commitments approved by the BOCC prior to the approval of this policy by the BOCC.

Any deviation or amendment to this policy shall require a supermajority vote of the BOCC after a duly noticed public hearing prior to consideration of such deviation or amendment.

Purpose: To establish a fiscal policy of the Board of County Commissioners ("BOCC") that will restrict future

Financial Policies and Procedures

growth in the areas of the proposed annual Budget that are primarily funded with ad valorem taxes.

51. Recording of Infrastructure Assets – Board Policy:

03.05.08.00: Infrastructure assets are defined as long-lived capital assets that are normally stationary and can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure assets are bridges, streets, sidewalks, streetlights, water mains and wastewater collection systems. Land is not an infrastructure asset. Infrastructure assets may be (a) purchased and/or constructed by the County or (b) purchased and/or constructed by a private entity and contributed to the County such as when land is platted and improved in accordance with the County's Land Development Code. Contributed infrastructure assets will be recorded at their fair market value as of the date of acceptance plus any ancillary costs incurred by the County necessary to place the asset in service. Examples of ancillary costs include items such as attorney fees, engineering fees and permit fees. Notification to the Clerk of Circuit Court's Finance Department made by the Department acquiring an infrastructure asset will include documentation of the fair market value of the asset.

County staff will promptly and accurately record infrastructure asset acquisitions, sales or other dispositions throughout the fiscal year as the County receives or relinquishes ownership of infrastructure assets. The Department acquiring or disposing of an infrastructure asset will be responsible for promptly notifying the Clerk of Circuit Court's Finance Department in a form and manner specified by the Clerk's Office for presentation to and approval by the BOCC. Infrastructure Assets that are part of an enterprise for which an enterprise fund has been established will be accounted for through that fund.

Purpose: To assure that the addition and/or deletion of infrastructure assets are properly and timely recorded in the County's financial records. It is important that such assets are recorded appropriately to ensure that the County's records are complete and accurate and in compliance with Government Accounting Standards Board Statement Number 34 and other applicable accounting standards.

Responsibility: Notification of the Clerk of Circuit Court's Finance Department will be the responsibility of Planning and Growth Management, Public Works, Real Estate, and Water Resource Services, as appropriate.

The Management and Budget Department will be responsible for periodically monitoring departments' compliance with this policy and ensuring that each department maintains appropriate procedures to implement the Policy.

52. Fund Balance and Sound Financial Management Practices—BOCC Policy: 03.05.10.00

Policy: It is the policy of the BOCC that combined fund balance in the countywide and unincorporated area general funds will be budgeted at a level necessary to maintain general fund budgeted reserves between a minimum of

20% and a maximum of 25% of general fund expenditure appropriations, or as otherwise required by applicable law. The Government Finance Officers Association <http://www.gfoa.org/> (GFOA) recommends, at a minimum, that general-purpose governments, regardless of size, maintain unrestricted budgetary fund balance in their general fund of no less than two months of regular general fund operating revenues or regular general fund operating expenditures. However, the GFOA also provides that the adequacy of unrestricted fund balance general funds should take into account each government's own unique circumstances. The unrestricted fund balance and reserve levels established by this policy exceed the minimum level recommended by the GFOA based on the following factors:

- Maintaining a AAA general credit rating from all three rating agencies
- Susceptibility to natural disasters (hurricanes and flooding)
- Risks of unanticipated changes in general fund budgets associated with Constitutional Officer annual budget requests, one-time needs, and new State and Federal mandates
- Maintaining stable and/or decreasing tax rates
- Commitment to sound financial management practices

Under certain circumstances, there may be a temporary need to use fund balances to meet a need(s) that require a fund balance draw down resulting in noncompliance with minimum funding levels identified in this policy. Examples of these circumstances may include, but are not limited to the following:

- Unanticipated revenue shortfalls due to unforeseen circumstances including a significant and prolonged downward trend in an economic cycle
- A natural disaster of significance
- New federal and state mandates/legislation
- Immediate capital needs

If such a need is addressed as part of the County's annual budget process, the County's Budget Officer will communicate the need to the Board at a Budget Workshop or Public Hearing and will present a plan and timeline to replenish fund balance to levels consistent with this policy. The plan may include one-time or recurring expenditure reductions, budget surpluses, transfers from other funding sources, etc. The plan of replenishment should not extend beyond a three year planning horizon as recommended by the GFOA.

Usage of fund balance/reserves during a fiscal year are governed by Board Policy 03.02.05.00 – Reserve for Contingency.

Sound Financial Management Practices It is the policy of the BOCC to employ sound financial management practices resulting in the highest possible general credit rating and stable finances allowing for consistent, efficient, and value driven delivery of service to County residents. The financial practices shown below shall be employed by County Administration in management of the County's budget and finances:

Financial Policies and Procedures

- External Financial advisory services will be contracted when appropriate to engage expert specialized services.
- Decisions made in the County's annual budget process will be service driven and based on existing Community Standards and performance metrics.
- County reserve levels will be set according to this Board policy
- The County will maintain debt service coverage at levels necessary to maintain the highest possible credit rating.
- The County will annually strive to achieve a structurally balanced budget consistent with guidance provided by the GFOA.
- Bond issues will be continually monitored to identify and act on any refunding opportunities.
- The annual Operating and Capital budget documents will be prepared consistent with GFOA guidelines and state law.
- The County will employ sound long-term financial planning strategies and will annually prepare a five-year pro forma analysis.
- The County will follow its other adopted financial policies not specifically identified in this policy. Those policies are also designed to operate using sound financial management practices.

Purpose: This policy establishes guidelines that allow the County to maintain adequate levels of fund balance in the general funds to mitigate current and future risks such as revenue shortfalls, unanticipated expenditures, natural disasters, other unforeseen circumstances, and to ensure stable tax rates for the taxpayer. An additional purpose is to establish certain sound financial management practices that, in combination with the fund balance guidelines, will allow the County to maintain the highest possible credit ratings.

Responsibility: It is the responsibility of the County Budget Officer, assisted by the Management and Budget Department, to ensure that adequate levels of fund balance are maintained during the budgeting process. Any deviation or amendment to this policy shall require a supermajority vote of the BOCC.

53. Budget Development and Monitoring Controls—BOCC

Policy: 03.05.11.00 It is the policy of the BOCC that the County's proposed annual tentative budget for presentation to the BOCC (the "Budget") will be developed based on a set of industry recognized best practices. Those practices are as follows:

- The Budget process will be consistent with Florida Statutes and other applicable laws and regulations.
- The Budget process will be in compliance with Truth-In-Millage requirements.
- Revenue estimates and projections will be developed using appropriate sources (including state estimates), historical analysis, comparison techniques, modeling, and other methods.
- Each year a five-year general fund proforma analysis will be completed in order to assure that the following

year's Budget is consistent with long-term planning objectives.

- The BOCC will annually establish service priorities and levels of service standards ("community service standards") to guide the budget development process and resource allocations.
- The Budget will be structurally balanced so that recurring revenue sources are matched with recurring expenditures.
- Budgeted general fund reserves will be set according to BOCC policy to allow the County to achieve the highest possible credit ratings.
- Each annual Budget process will include an exercise to identify budget efficiencies and other business opportunities.
- Each annual Budget process will include an exercise to review vacant positions in an effort to identify possible Budget efficiencies.
- All County funded agencies must submit annual funding requests to justify any changes to their continuation level budget.
- Any approved Budget request must be supported by performance data/metrics and be consistent with the County's community standards.
- Budget decisions must be consistent with the BOCC's strategic planning focus.
- Commissioner budget requests must provide a justification, indicate if they are recurring or one-time, comply with this policy, reflect community service standards, and be approved by a simple majority vote of the BOCC.
- A quarterly budget to actual financial report will be placed on the BOCC's consent agenda.
- A regular staff agenda item will be placed on the BOCC's agenda when there is a change greater than \$100,000 in a reserve for contingency balance in the general funds.

Purpose: This policy establishes annual budget process guidelines resulting in an annual adopted budget based on sound fiscal principles which delivers valuable services to County residents in an efficient manner.

Responsibility: It is the responsibility of the Management and Budget Department to ensure that the tentative budget is developed in accordance with this policy. Any deviation or amendment to this policy shall require a supermajority vote of the BOCC.

54. Capital Funding for Outside Agencies—BOCC Policy:

04.05.00.00 It is the policy of the BOCC that, in recognition of the need to ensure that county citizens are well-served through effective use and administration of county funds, the Board does hereby establish and adopt a uniform procedure for submission, review and approval of capital funding requests from applicable outside agencies and for administration of such funding, if approved by the Board.

Applicability: These procedures are applicable whenever any request for capital funding from outside, non-County, non-governmental agencies are made to the County. Applicable agencies include but are not be limited to private, not-for-profit corporations. This policy does not apply to projects funded by Tourist Development Taxes,

Financial Policies and Procedures

economic development projects pursuant to Section 288.075 Florida Statutes or projects that are governed by other applicable Board Policies or Agreements.

Procedures:

4.1 Placement on Regular Agenda: All actions by the Board related to applicable capital funding requests (including funding decisions, agreements, modification agreements, license agreements, leases, etc.) shall be placed on the Regular agenda or on a public hearing agenda, but not on the Consent agenda.

4.2 Submission, Review and Approval of Request: Prior to Board consideration, any applicable request for capital funding must be accompanied by appropriate documents in order to provide the Board specific information regarding the request and assurance of the public purpose of the request. These documents are as follows:

1. A Completed Capital Funding Request Information Form: The form shall be available on the Department of Business and Support Services website and will require the following information:

- a) A complete project description.
- b) A discussion of the project justification and benefits that the completed project will provide to the citizens of Hillsborough County.
- c) A discussion of why the funds are necessary and how the funds will be spent.
- d) An indication of whether the project will help the Board meet its Strategic Plan objectives, and if so, which objective.
- e) The proposed project location.
- f) A complete project cost estimate, (including any non-County funding sources anticipated) with costs estimated by year in which they will be incurred.
- g) A discussion on how the project cost was determined.
- h) The estimated project schedule, including construction start and completion dates.
- i) An estimate of annual operating and/or maintenance costs once the project is completed.
- j) A discussion on how the annual operating and/or maintenance costs were determined.
- k) The signature of the agency head or chief financial officer attesting to the accuracy of the information.

2. A Business Plan: The Business Plan will include a discussion of how the agency proposes to meet annual operating and maintenance cost requirements, and will provide a sensitivity analysis for the agency's anticipated ability to meet ongoing cost commitments at various revenue levels. It should identify any other anticipated funding sources (actual or proposed) and the estimated amount from each source. The Business Plan should also include a discussion of the intended ownership of the capital asset – whether the agency will retain ownership or will

turn it over to the County once completed. The Business Plan format shall be available on the Department of Business and Support Services website and will include the following:

- a) Table of Contents
- b) Executive Summary (no more than 2 pages)
- c) Organization Profile
- d) Community Need
- e) Scope of Service
- f) Program Goals and Objectives
- g) Evaluation Plan
- h) Project Management
- i) Leverage of Other Funds
- j) Financial Capabilities
- k) Budget Information

4.2.2 Capital funding requests from Board members for applicable agencies shall be referred to the County Administrator for staff review. After review, the County Administrator shall present a report to the Board concerning the request and a recommended source of funding.

4.2.3 As part of the process of approval of the capital funding request, the Board shall make a finding on the public record by Resolution that the capital funding request, the business plan, funding sources, and ownership issues meet all requirements for funding under the specified revenue source and the funding serves a public purpose.

4.2.4 A capital funding request budgeted prior to the completion of the requirements of sections 4.2.1 through 4.2.3 shall be considered conditional funding subject to completion of those requirements. No agreement or disbursement of funds shall be authorized prior to meeting these requirements.

4.2.5 If the capital funding request is approved by the Board, then pursuant to Board Policy 03.02.02.00, the capital funding request shall be included in the Capital Improvement Program (CIP).

4.3 Monitoring and Agreement for the Capital Funding/Project

4.3.1 Capital project funding and construction for applicable agencies shall be monitored by designated County staff to ensure the proper use of County funds.

4.3.2 Prior to disbursement of any County funds, an Agreement with the applicable agency shall be approved by the Board. Specific responsibility shall be assigned to designated County staff to review and approve capital funding agreements for compliance with County policy, procedures and sound business practices. Specific responsibility shall be assigned to designated County staff to monitor and review the project as well as to ensure that payments are made accordance with the Board-approved Agreement.

4.3.3 In addition to other appropriate conditions, the Agreement with the applicable agency shall include the following specific provisions:

Financial Policies and Procedures

1. Definition and limitation of the use of County's funds;
2. Stipulation concerning the County's rights to use the facility;
3. Stipulation that the County is to be repaid its funding portion if the property or facility is later transferred to another party, unless the sale proceeds are to be used for a specifically approved purpose by the Board of County Commissioners;
4. Stipulation that the County is to be repaid its funding portion if the use of the property or facility substantially deviates from original funding agreement without approval of the Board of County Commissioners;
5. Reference to building plans and estimates showing how dollars will be spent;
6. Stipulation that changes to scope, budget and schedule shall be subject to Board approval;
7. Stipulation that the project design, the construction and the associated costs shall be consistent with County standards; that the project shall be durable and functional and that County funds shall not be used for non-functional/non-essential embellishments, as determined by County standards;
8. Stipulation that the funding will be on a reimbursement basis subject to receipt and review of paid invoices for authorized expenditures; require detailed documentation such as copies of checks bank statements and other appropriate documents to confirm payments;
9. Stipulation to maintain a separate bank account for County funds in order to segregate County funds from other funding sources;
10. Stipulation of County's right to monitor entire project for all funding sources, including but not limited to monitoring for project overfunding;
11. Should there be any funding restrictions dictated by funding source, it shall be addressed in the Agreement.
12. Stipulation that only costs incurred after the execution of the agreement by both parties may be reimbursed. Costs incurred prior to the execution date of the agreement shall not be reimbursed.

Purpose: To establish a uniform procedure for submission, review and approval of capital funding requests from applicable outside agencies and for administration of such funding, if approved.

Responsibility: It is the responsibility of the Management and Budget Department, the Fiscal and Support Services Department – Infrastructure and Development Services and the Fiscal and Support Services Department – Public Safety and Community Services using input from other appropriate departments under the direction of the County Administrator, to implement this policy.

55. Disposal of Surplus Fleet Vehicles and Related

Equipment—BOCC Policy 08.01.01.02: It is the policy of the BOCC that vehicles and related equipment disposed by the County be sold at fair market value with the proceeds returned to the appropriate funding source. Salvage value for surplus vehicles and equipment is a funding source for replacement vehicles. Restricted funding sources such as grants, enterprise funds, and internal services funds generally require the proceeds from surplus vehicles and equipment be returned.

The BOCC has the discretion to classify as surplus any of its property not otherwise lawfully disposed of that is obsolete, that is uneconomical or inefficient to use, or that serves no useful purpose.

At the direction of the BOCC, a direct sale at fair market value can be made to another government unit or political subdivision. Donations will not be made to any person or to any civic, charitable or nonprofit organization.

Purpose: To reduce the County's cost of replacing vehicles and related equipment by establishing guidelines for disposal of surplus fleet vehicles and related equipment, by ensuring restricted funding sources recover revenue based on the fair market value of such vehicles and equipment and by facilitating partial funding of replacement vehicles and related equipment from such revenue.

Responsibility: It is the responsibility of the Fleet Management Department and the Management and Budget Department, under the direction of the County Administrator, to implement this policy.

56. Funding Reclaimed Water Improvement Unit (RWIU)

Projects—BOCC Policy 09.07.07.00: For Hillsborough County to provide Reclaimed Water Improvement Unit (RWIU) Projects to residential subdivisions, two-fold funding will be required:

- a. Reclaimed Water Facilities – Transmission. These will be funded from existing Utility Enterprise Fund Bond proceeds through specific Capital Improvement Program (CIP) projects. If bond proceeds are not sufficient, other Utilities Enterprise funds may be used upon BOCC approval.
- b. Reclaimed Water Facilities – Distribution. The initial funds to design and construct these may come from either:
 - Utility System Rate Stabilization Fund;
 - Short-term bond anticipation notes (BAN) and/or,
 - Other Utility Enterprise funds approved by the BOCC.

A budget amendment will be presented to the BOCC to appropriate the initial amounts from the above-referenced funds (#2) and thereafter if necessary.

The Utility System funds and BAN may be refinanced with long-term, fixed rate assessment district bonds. Funding, regardless of its source, will be repaid from assessments

Financial Policies and Procedures

on property within the RWIU. The choice of financing alternatives will be determined on a case-by-case basis depending upon the economic feasibility to the homeowners and the economic and credit impact on the Utility Enterprise System.

Purpose: The purpose of this policy is to establish guidelines for the funding of the Reclaimed Water Improvement Unit (RWIU) Projects.

Definitions:

- a. Reclaimed Water Improvement Unit (RWIU). A legal mechanism for establishing a special assessment district to finance the design and construction of a reclaimed water distribution system within a subdivision.
- b. Reclaimed Water Facilities – Transmission. Those pipes, valves, fittings, and appurtenances used to convey reclaimed water from a wastewater treatment plant or pump station to reclaimed water distribution facilities.
- c. Reclaimed Water Facilities–Distribution. Those pipes, valves, fittings, service connections, and appurtenances used to convey re- claimed water transmission facilities to customers within a subdivision.

Responsibility: It is the responsibility of the Public Utilities Department, under the direction of the County Administrator, to be the coordinating agency for this policy to ensure compliance.

57. The Clerk is hereby authorized to invest public funds on hand at prevailing market rates in:

- investments outlined in Chapters 125.31 and 218.415, Florida Statutes;
- Standard and Poor’s “Qualified Investments for ‘AAA’ Financing,” subject to collateralization requirements of Chapter 280, Florida Statutes;
- shares of the Florida Counties Investment Trust (FCIT) Government Fund or any other FCIT investment fund, the assets of which are restricted to investment instruments authorized by Section 125.31, Florida Statutes or by ordinance of the County, subject to execution of necessary documents; and
- other investment vehicles authorized by BOCC resolution.

58. **Fallen Heroes Program—BOCC Policy 10.06.00.00:** It is the policy of the Board of County Commissioners that a Fallen Heroes Program (Pro- gram) be established to provide monetary benefits for the support, and maintenance of the beneficiaries of specified fallen First Responders who have died while in the performance of their duties to the citizens of Hillsborough County, which Program shall be administered pursuant to the requirements of this Policy as described below. County funding for the Program will be provided in the form of an annual General Fund non-departmental appropriation with provisions for total annual funding not to exceed one million dollars.

Definitions:

A. First Responder:

A First Responder includes:

- 1. A law enforcement or correctional officer as defined in §943.10, F.S.;
- 2. A firefighter as defined in §633.30, F.S.; or
- 3. An emergency medical technician or a paramedic as defined in §401.23, F.S., who is employed (including full-time, part-time, or volunteer) by Hillsborough County or one of the municipalities of Tampa, Temple Terrace, and Plant City.

B. In the Line of Duty:

In the Line of Duty means a First Responder who at the time of death, or an injury that is the direct and proximate cause of death, is in the course of actually:

- 1. Engaging in law enforcement;
- 2. Performing fire suppression and prevention related activity;
- 3. Responding to a hazardous-material emergency;
- 4. Performing rescue activity;
- 5. Providing emergency medical services;
- 6. Performing disaster relief activity;
- 7. Otherwise engaging in emergency response activity; or
- 8. Engaging in a department or agency authorized training exercise related to any of the above events or activities; and the employing public agency legally recognizes him or her to have been in such course at the time of the event directly and proximately causing the death or injury. A heart attack or stroke which causes death, or causes an injury resulting in death, must occur within 24 hours of one of the above events or activities and must be determined to have been directly and proximately caused by the event or activity.

C. Beneficiary

Benefits shall be paid to surviving beneficiaries in the following descending order:

- 1. The beneficiary designated in writing by the First Responder on the form approved by the Fallen Heroes Program Administrator, which form has been filed with the employing agency prior to the death or injury;
- 2. The First Responder’s surviving children and spouse in equal portions;
- 3. The First Responder’s surviving parents; or
- 4. If none of the above is applicable, the First Responder’s estate.

D. Fund Administrator

The Fund Administrator is the staff of the Hillsborough County Management and Budget Department.

Fallen Heroes Program: The Hillsborough County Board of County Commissioners hereby establishes the Fallen Heroes Program for the purpose of providing monetary benefits to the beneficiaries of First Responders who have died, or suffered an injury resulting in death, while In the Line of Duty, serving and protecting the citizens of Hillsborough County. County funding for the Program, including any mid-year supplemental appropriations, will be provided in the form of an annual General Fund non-

Financial Policies and Procedures

departmental appropriation with provisions for total annual funding not to exceed one million dollars. The amount of County monetary benefits paid to the Beneficiary, as defined above, of a fallen First Responder shall be up to \$100,000. County monetary benefits paid under the program may be supplemented by private and/or outside donations through the establishment of a temporary escrow account within the County's financial system. Except as otherwise provided in this Policy, the Clerk of the Circuit Court (Clerk) is authorized through adoption of this policy to establish and account for such escrow account upon the request of the Program Administrator for ninety (90) days from the time of the death of an eligible First Responder for the purpose of paying such additional benefits that are funded by such private and/or outside donations. The Clerk is also authorized to issue payment(s), at the direction of the Program Administrator, without further action of the Board of County Commissioners, to eligible Beneficiaries, as defined above, in shares proportionate to the distribution of the County funds.

Line of Duty Determination and Request for Benefits:

The employing agency shall be responsible for determining whether the death or injury resulting in death occurred in the Line of Duty and shall submit to the County Program Administrator sufficient documentation from its investigation of the event to support its determination. The employing agency shall be responsible for submitting an approved request for benefits form to the County Program Administrator on behalf of the Beneficiary, as defined above.

Benefits Paid Due to a Catastrophic or Terrorist Event:

The Board of County Commissioners reserves the right to adjust the amount of County benefits paid under the Program to a Beneficiary, as defined above, due to the occurrence of a catastrophic (natural or manmade) or terrorist event, which results in multiple deaths or injuries resulting in death in order to ensure annual County appropriations do not exceed one million dollars.

Termination: This Policy, and the Fund established by it, shall continue from year to year subject to an annual appropriation by the Board.

Delivery of Funds to Beneficiaries: When reasonably possible, funds from this Program shall be delivered personally to each Beneficiary. It is the responsibility of the Chairman of the Board of County Commissioners to designate a Board member or member of the County Administrator's staff to deliver the funds on behalf of the County.

Responsibility: It is the responsibility of the County Administrator, through the Management and Budget Department, to implement this Policy and to establish procedures for its administration. The Management and Budget Department shall be the Program Administrator. The Program Administrator shall be responsible for collecting, receipting, depositing, and acknowledging private and outside donations.

Purpose: To provide financial assistance to the beneficiaries of county and municipal First Responders whose death occurred in the Line of Duty on behalf of Hillsborough County. The Board finds that this policy serves a public purpose to assist in the support of the beneficiaries of Hillsborough County First Responders who have died while in the performance of their duties to the citizens of Hillsborough County.

Estimating the County's Ending Fund Balance

Fund balance reflects the net financial resources of a fund – the difference between assets and liabilities. In simpler terms, fund balance reflects what is available to spend for a fund.

In estimating ending fund balance, the County's practice is to appropriate all beginning fund balances and all revenues and other sources. As a result, it appears that the County intends to end the fiscal year with no remaining funds. This is not the case.

The County's estimation of a fund's fiscal position at fiscal year-end can be looked at in two ways - on a budgetary basis and on a projected year-end basis.

On a budgetary basis State law requires a balanced budget, so a significant portion of the adopted budget is placed in reserves. Since these adopted reserves cannot be expended until they are first appropriated by amendment of the adopted budget, the reserves reflect an assumption of ending fund balance. In fact, sufficient reserves are included to ensure adequate funds are available at the beginning of the next fiscal year to meet payments. A schedule of reserves by fund is located in the operations section of this document. FY 24 reserves total \$2.3 billion.

On a projected year-end basis, the County projects how much of appropriated funds in the adopted budget will actually be spent. Staff bases projections on past experience and current year-to-date trends. The remaining (unspent) appropriations will increase ending fund balance. Similarly, by projecting excess revenues, the second component of ending fund balance can be established.

Excess revenues for local governments in Florida often result from a statutory requirement that governments only appropriate 95% of anticipated revenues. While a 95% factor may be reasonable for ad valorem collections, where adjustments to the tax roll and discounts for early payment result in collections of about 95%, it frequently results in understatement of collections from other revenues. Actual revenues received in excess of the budget will also increase the ending fund balance.

A multi-year projection of fund balances for three major operating funds is included in an annual five-year Pro Forma budget document.

The following table presents a simplistic fund-by-fund estimate of ending fund balance.

The first column reflects the budgeted beginning fund balance. The second column reflects anticipated revenues and other sources (no 95% factor is applied) and may differ from budgeted

revenues. The third column reflects estimated expenditures and other uses, excluding reserves. All authorized positions are budgeted at 100% for the year. However, due to a variety of factors, chiefly turnover, not every department will use their entire Personal Services budget.

Operating and Maintenance is budgeted at 100% for the year. Again, due to a variety of factors, not every department will use their entire Operating and Maintenance budget. The unspent balance will flow to year-end fund balance and an estimate of the unspent balance is reflected in the expenditure column.

Grants and Aid from the County to other governments and non-profit agencies are budgeted at the full allocation. However, most of these grants are structured as reimbursements for services provided with a maximum that equals the allocation. Not all agencies provide the levels of service allowing them to receive the maximum allocation by fiscal year end, so there is normally a balance remaining, reflected in the expenditures shown.

Contracts for Services and Capital Equipment are budgeted at the full estimated amount so the contract or purchase order can be awarded. However, there are always some contracts where not all of the work is completed by year end, again resulting in unexpended budgeted funds that flow into year-end fund balance.

The final column, which reflects a somewhat conservative projection of ending fund balance at September 30th is column one plus column two, less column three. The total for all funds is \$3.5 billion for FY 24.

Best budget practices require disclosure when there is a significant change in fund balance (defined as an increase or decline by more than 10%) in a major fund or in the aggregate fund balance total for nonmajor funds.

As defined in the Annual Comprehensive Financial Report (ACFR) for Hillsborough County, the County's major funds include the Countywide General Fund, the Unincorporated Area General Fund, the Sales Tax Revenue Fund, the Intergovernmental Grants Fund, the County Transportation Trust Fund, the Infrastructure Surtax Fixed Project Fund, the Water Resource Services System Fund and the Solid Waste Resource Recovery Fund. All other funds shown in the following schedules are classified as non-major, and each year's aggregate change in fund balance for non-major funds is indicated at the end of each year's discussion.

Estimating the County's Ending Fund Balance

For FY 24, the following major funds are estimated to have an actual fund balance change of more than 10% (as indicated on the schedule following this narrative):

- Unincorporated Special Revenue Fund – During FY 24, the fund balance is projected to decrease by \$18.2 million, or 17.3%.
 - This decrease is partially driven by Stormwater improvements, such as culvert renewal and drainage improvements.
- Library District Fund – FY24 anticipates a decrease of \$15.1 million or 18.6%. The decrease is primarily due to various capital improvements.
 - \$15.2 million in capital costs for the Brandon Library Replacement Phase 2.

- Water & Wastewater Funds – FY 24 anticipates a decrease of \$99.8 million Or 12.8%.
 - Funding for new and replacement equipment and carry forward of construction in progress.
- Solid Waste System Enterprise Fund – FY 24 anticipates a decrease of \$28.9 million or 12.1%. The primary driver is closure of County landfill..
 - SE County Landfill Closure \$35.9M
- Fleet Service Fund – FY 24 anticipates a decrease of \$32.3 million or 39.5%. This drawdown primarily represents an increase in budgeted fleet replacement costs and fuel costs.

The aggregate fund balance for non-major funds is estimated to increase by 0.3% in FY 24

FY 24 Estimated Ending Fund Balance

Funds that are primarily capital projects, grants, or debt service are represented by an N/A in the Percent Change column.

Notes:

(1) - See accompanying narrative for explanation of planned fund balance change.

(2) - Reductions are due to planned expenditures of one-time funding for associated capital projects or grant funded programs.

(3) - Debt service fund changes primarily reflect carryover of unexpended proceeds and annual reserve adjustments required under bond covenants.

Budget by Fund

The Budget by Fund section of the Operations and Funding Guide provides an overview of the County budget at the fund type, fund, and subfund level. Presented first is a brief narrative which provides information on the budgetary and accounting basis used by Hillsborough County for each fund type.

Next follows the Budget Summary by Fund schedule which shows budget figures for each fund within its respective fund type. The next schedule is the Fund Summary by Type of Expenditure which reflects data by characters of expense entitled Personal Services, Operating Expenditure/Expense, Capital Equipment, Capital Projects, Debt Service, and Grants and Aids. The character of expense entitled *Other Uses* is not shown in the aggregate but rather as a breakdown into objects classified as Transfers, Budgeted Transfers to Constitutional Officers, and Reserves and Refunds. The schedules that follow provide, by fund, an explanation of the purpose of the fund and a four-year comparison of revenues and appropriations. Revenues are presented according to classifications set by the State of Florida and appropriations are presented by major organization. Each table presents actuals for FY 22, the FY 23 adopted budget, the FY 24 adopted budget, and the FY 25 planned budget.

The Budget by Fund schedule follows next. Funds allow County staff to separate, for example, the transportation impact fees collected in each of ten geographic zones, so they may be used exclusively within those zones for the benefit of those who paid

the fees. The budget is balanced within each of the funds presented since each fund has unique sources and uses. Interest is earned, fund balances are estimated, and reserves are established, as needed. Funds which are marked with an asterisk are coded as "all years" in the County's financial system. All years budgeting is the method of budgeting and reporting grant and capital project appropriations and expenditures from grant or project inception through the reporting period, as opposed to budgeting and reporting on a fiscal year basis. With all year's budgeting, each year's budget only reflects that specific year's changes in funding.

The numbers that precede fund titles are primarily presented for the benefit of County staff that may use the table to identify funds in automated accounting reports and budget reports.

Information by department/agency immediately follows the Budget by Fund section. These summaries include department descriptions, summary budgets, and funded position comparisons for each individual department and various other organizations funded by the Board of County Commissioners.

For questions regarding the statutory authority of specific County services, please contact the County Attorney's Office at 813-272-5670 or the Management and Budget Department at 813-272-5890.

Hillsborough County Major Funds

Hillsborough County's funds follow the structure defined in the State of Florida's Uniform Accounting System (UAS). The County's major funds are:

Governmental Funds

General Funds—To account for all financial resources of the general government except those required to be accounted for in other funds. The County's General Fund is subdivided into the Countywide and Unincorporated Area Funds.

General Fund—Countywide—To account for the revenues and expenditures of the countywide portion of the General Fund—which are activities that benefit all County residents. Countywide activities include Administration, Management and Budget, Pet Resources, Consumer and Veterans Affairs, County Attorney, Economic Development, Emergency Management, Aging Services, Parks and Recreation, Conservation and Environmental Lands Management, Engineering and Operations, Facilities Management, Procurement Services, the Environmental Protection Commission, and certain payments to the court system, Constitutional Officers, and nonprofit agencies.

General Fund—Unincorporated Area—To account for the revenues and expenditures of the Unincorporated Area portion of the General Fund—which are activities that benefit County residents who do not live in the three municipalities (Tampa, Plant City or Temple Terrace). Unincorporated Area activities include Affordable Housing, Code Enforcement, Fire Rescue, Development Services, Parks and Recreation, and certain payments to Constitutional Officers.

Countywide Special Purpose Revenue Fund—To account for special purpose revenues used to provide services for residents throughout the County. The revenues in these funds are restricted to specific uses by statute, resolution, or other constraints. Examples include funds for state revenue sharing, the discretionary sales surtax for indigent health care, the 911 emergency telephone system, pollution settlement and recovery, and state contraband forfeitures.

Sales Tax Revenue Fund—To account for the local government infrastructure discretionary sales surtax known as the Community Investment Tax, the local government half-cent sales tax distributed by the state of Florida (which is transferred to other funds for various program expenditures); the various tourist development taxes designated to promote tourism in the County; and the professional sports franchise sales tax revenues.

Intergovernmental Grants Fund—To account for federal, state, local government, or other grants for programs including aging services, children's services, social services, transportation, public assistance, housing, public safety, physical environment, and capital projects.

County Transportation Fund—To account for motor fuel taxes, state revenue sharing, and various grant funds designated to finance road and street construction, maintenance, and other transportation projects.

Local Housing Assistance Program Fund—To account for State Housing Initiatives Partnership (SHIP) program moneys received from the state of Florida. This program makes loans to low and moderate income persons, first time home buyers,

builders and others for funding home purchases, new home construction, existing home renovation, and for the payment of matching funds needed to obtain grants.

Infrastructure Surtax Projects Fund—To account for use of the County's share of the voter-approved local government infrastructure discretionary sales surtax levied per Section 212.055, Florida Statutes. This sales tax, commonly known as the Community Investment Tax, may be used to purchase or construct equipment or infrastructure related to jails, criminal justice computer systems, fire stations, roads and traffic intersections, stormwater systems, parks, and libraries. This tax is shared with the Hillsborough County School Board, the Tampa Sports Authority, and the three municipalities located in the County.

Proprietary Funds

Water Enterprise Fund—To account for the operations of the Water Enterprise Fund, a division of the Water Resources Department, which provides water and wastewater-related services in the unincorporated areas of the County. Water and wastewater fees are determined annually by rate studies and are set at levels to recover operating expenses, including debt service, in a manner similar to private business enterprises. Activities necessary to provide water and wastewater service are accounted for in this fund, including customer service, engineering, operations, and maintenance.

Solid Waste Enterprise Fund—To account for the operations of the Solid Waste Enterprise Fund, a division of the Solid Waste Department, which provides solid waste disposal services on a countywide basis. Refuse generated in the unincorporated areas of the County is collected by franchised and non-franchised collectors serving residential and commercial customers and by private companies serving their own customers. Refuse dumping fees are reviewed annually and are set at levels sufficient to recover operating and debt service expenses, and to also account for landfills owned and operated by the Solid Waste Fund as well as monitoring closed landfills.

The following pages provide detailed information about each of the above major funds, as well as other non-major funds.

Fund Accounting

The operations of the County are recorded in the following fund types for FY 22 actuals, FY 23 adopted budget, FY24 adopted budget, and FY 25 planned budget:

Governmental Funds

Most of the County's basic services are reported in governmental funds, which focus on how money or other spendable resources flow into and out of those funds and the level of balances remaining at year-end that are available for expenditure. The following are the County's governmental fund types:

A—General Fund

The general fund is the primary operating fund of the County. It is used to account for all financial resources of the general government except those required to be accounted for in other funds.

B—Special Revenue Funds

Special revenue funds are those used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to specified purposes.

C—Debt Service Funds

Debt service funds are used to account for the accumulation of resources for, and the payment of general long-term debt principal, interest, and other debt related costs.

D—Capital Projects Funds

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Proprietary Fund Types:

Proprietary funds are used to account for activities that are similar to those often found in the private sector. The measurement focus is on the determination of net income and capital maintenance. The following are the County's proprietary fund types:

A—Enterprise Funds

Enterprise funds are used to account for operations that are financed primarily through user charges, or where the governing body has concluded that the determination of net income is appropriate.

B—Internal Service Funds

Internal service funds are used to account for goods or services provided by one County department to other County departments or agencies on a cost-reimbursement basis.

Countywide General Funds

This general fund accounts for all financial transactions except those required to be accounted for in other funds. The fund's resources, ad valorem taxes and other revenues, provide services for the benefit of all residents of Hillsborough County. Effective FY 91, all restricted revenues and expenditures were moved into the Unincorporated Area Special Purpose Fund. Effective FY 12, Communications Services Tax revenues were also moved into the Unincorporated Area Special Purpose Fund to allow segregation of the CST revenues that will be committed to pay debt service on new Public Safety Operations Complex bonds. This separation provides a better picture of the use of unrestricted and restricted County funds.

Unincorporated Area General Funds

This general fund accounts for ad valorem taxes and other revenue sources that provide services for the benefit of the residents of the unincorporated areas of Hillsborough County only. The services provided by this fund include fire suppression, law enforcement, stormwater, parks and recreation, planning and growth management, survey/mapping, code enforcement, and emergency services. Effective FY 91, all restricted revenues and expenditures were moved into the Unincorporated Area Special Purpose Fund. This separation provides a better picture of the use of unrestricted and restricted County funds for unincorporated area services.

Unincorporated Area Special Revenue Funds

This special revenue fund accounts for all restricted revenue sources that provide services for the benefit of the residents of unincorporated Hillsborough County. Services provided from this fund include building permitting and inspection and construction associated with impact fees. Included within the revenue sources are an annual Stormwater Assessment on developed properties and a distribution from the State of the Phosphate Severance Tax.

Transportation Trust Funds

This special revenue fund accounts for motor fuel taxes, impact fees and other revenues designated to finance construction and maintenance of roads, bridges, sidewalks, and drainage. Included in this fund are the proceeds of the road impact assessment fees, six-cent local option gas tax, the County share of the Local Transportation Gas Tax Trust Fund (9th cent), constitutional gas tax, and the residual of the County (7th Cent) gas tax after covering the debt service requirement of the Road Improvement Refunding Bonds 1998 Sinking Fund.

Community Investment Tax Special Revenue Fund

This fund is to account for the County share of a discretionary half-cent sales surtax approved by the voters to finance general government, public safety, and educational facilities in Hillsborough County, and capital expenditures for the cities of Tampa, Plant City, and Temple Terrace. This fund was created as a result of the closeout of the Sales Surtax Fixed Capital Outlay Fund in FY 97.

Sales Tax Revenue Funds

This special revenue fund accounts for the collection of the Tourist Development Tax, the Local Government Half-Cent Sales Tax, and the Local Government Half-Cent Infrastructure Surtax. The Tourist Development Tax is a 5% local option tax levied on all transient lodging for the broad purpose of stimulating tourism. The Local Government Half-Cent Sales Tax is an allocation by the State to the County and its three municipalities on the basis of population. This tax may be used for most governmental fund purposes, with a disproportionate share to the County to be used for countywide purposes. The Local Government Half-Cent Infrastructure Surtax (Community Investment Tax) was approved by voters to finance general government, public safety, and educational facilities in Hillsborough County and capital expenditures for the cities of Tampa, Plant City, and Temple Terrace.

COVID Relief Funds

The COVID Relief Funds account for the proceeds of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Coronavirus Response and Consolidated Appropriations Act, as well as the American Rescue Plan Act. These funds were an economic stimulus in response to the economic fallout of the COVID-19 Pandemic.

General Obligation Bonds Sinking Funds

This debt service fund group accounts for the payment of principal, interest and other debt servicing costs on the County's outstanding general obligation debt which includes the Series 2002 General Obligation Refunding Bonds (Unincorporated Area Parks and Recreations Program), the Series 2019A and B General Obligation Bonds (Environmental Lands Acquisition and Protection Program), and the Series 2023 General Obligation Bonds (Environmental Lands Acquisition and Protection Program). The Series 2002 Bonds refunded two earlier bond issues (the Series 1993 and Series 1996 General Obligation Bonds) for interest rate savings and will reach final maturity on July 1, 2025. The Series 2019A Bonds refunded the Series 2009B General Obligation Bonds for interest rate savings and will reach final maturity on July 1, 2039. The Series 2019B Bonds were issued in order to provide funding for the purchase of additional environmentally sensitive lands through the Jan K. Platt Environmental Lands Acquisition and Protection Program and will reach final maturity on July 1, 2049. The Series 2023 Bonds were also issued in order to provide funding for the purchase of additional environmentally sensitive lands through the Jan K. Platt Environmental Lands Acquisition and Protection Program; the 2023 Bonds will reach final maturity on July 1, 2053.

Revenue Bonds Sinking Funds

This debt service fund group accounts for the payment of principal, interest and other debt servicing costs on the County's outstanding governmental revenue debt. More than ten debt issues comprise this fund group and include both original debt issuances as well as refunding debt issuances. All proceeds were originally obtained and used to fund a variety of capital improvement projects undertaken by the County. The debt issues in this group include the: Series 2012A and B Community Investment Tax Refunding Revenue Bonds (final maturity will occur on November 1, 2025), Series 2012 Capital Improvement Program Revenue Bonds (final maturity will occur February 1, 2026), Series 2015 Communications Services Tax Revenue Bonds (final maturity will occur October 1, 2045), Series 2015 Community Investment Tax Refunding Revenue Bonds (final maturity will occur on November 1, 2025), Series 2016 Capital Improvement Program Refunding Revenue Bonds (final maturity occurs on August 1, 2024), Series 2016 Fifth Cent Tourist Development Tax Refunding Revenue Bonds (final maturity occurs on August 1, 2024), Series 2017A and B Fourth Cent Tourist Development Tax Refunding and Improvement Bonds (final maturity of the A Bonds occurs on October 1, 2035 and final maturity of the B Bonds occurs on October 1, 2046), Series 2017 Capital Improvement Non-Ad Valorem Refunding Revenue Note (final maturity occurs on July 1, 2028), Series 2017 Capital Improvement Program Revenue Note (final maturity occurs on August 1, 2026), Series 2018 Community Investment Tax Refunding Revenue Bonds (final maturity will occur on November 1, 2025), Series 2019 Capital Improvement Non-Ad Valorem Revenue Bonds (final maturity will occur on August 1, 2049), and the Series 2021 Capital Improvement Non-Ad Valorem Revenue Bonds (final maturity will occur on August 1, 2051). In addition to the bond issues described above, several commercial paper funds are included in this governmental revenue debt group and each note is on a budgeted repayment plan.

Commercial Paper Sinking Funds

This debt service fund group accounts for principal, interest and other debt servicing costs on the County's outstanding commercial paper notes being repaid with special revenues. Commercial paper notes serve as part of the County's overall project financing strategy, and are typically issued as a form of short-term, interim financing or to fund certain projects for long-term financing is not appropriate. There is no pre-determined debt repayment schedule associated with the commercial paper program as a whole although each note is on a budgeted repayment plan.

Direct Borrowing and Placement Note Sinking Funds

This debt service fund group accounts for the payment of principal, interest and other debt servicing costs on the County's direct placement notes, including the Series 2015 Arena Refunding Revenue Notes and the Series 2015 Court Facilities Refunding Revenue Note. Both Notes were issued to fully refund earlier bond issues (the Series 2005 Tampa Bay Arena Refunding Revenue Bonds and the Series 2005 Court Facilities Refunding Revenue Bonds, respectively) for interest rate savings. The final maturity date of the Series 2015 Arena Refunding Revenue Note is October 1, 2026 and the final maturity date of the Series 2015 Court Facilities Refunding Revenue Note is November 1, 2026.

Commercial Paper & Credit Capacity Fund

This capital projects fund accounts for capital improvement costs associated with Raymond James Stadium, Amalie Arena, and various other capital programs that utilize the County's commercial paper facility as a form of short-term interim financing. The County's commercial paper program provides a low-cost interim financing alternative and allows for the encumbering of capital contracts prior to the issuance of long-term fixed debt.

Public Works Solid Waste Resource Recovery Funds

This capital projects fund accounts for capital improvement costs associated with Raymond James Stadium, Amalie Arena, and various other capital programs that utilize the County's commercial paper facility as a form of short-term interim financing. The commercial paper program provides a low-cost interim financing alternative and allows for the encumbering capital contracts prior to the issuance of long-term fixed debt. Prior to FY 21, this fund also accounted for the payment of principal, interest, and fees for the related commercial paper notes; however, debt service for these notes is now budgeted separately in debt service funds.

Public Utilities Water/Wastewater Funds

This enterprise fund accounts for the operations of the water and wastewater system in the unincorporated areas of the County. Water and wastewater fees are determined annually by rate studies and are set at levels to recover the expenses of operations, including debt service, in a manner similar to private business enterprises. Activities necessary to provide water and wastewater service are accounted for in this fund, including customer service, engineering, operations and maintenance.

Fleet Management Fund

This internal service fund accounts for the revenues and expenses of the repair and maintenance of the County's motor vehicle fleet, equipment repairs, and fuel purchases. Through FY 95 this program was accounted for in the General Revenue (Special Use) Fund and subsidized by the General Revenue (Countywide) Fund. Since FY 96 the services are fully supported by charges for services and sales of fuel to the operating departments.

Self-Insurance Funds

This internal service fund accounts for the revenues and expenses of the County's risk management and employee group health insurance programs. Risk management includes workers' compensation, automotive and general liability, and catastrophic disaster recovery programs. Employee group health insurance is a self-insurance program funded by employee payroll deductions and employer contributions. Prior to FY 94, this fund only included the workers' compensation program. In FY 94, Employee Group Life, Health and Accidental Death & Disability were added to the self-insurance program along with general liability operations and the County "Catastrophic Disaster Recovery" fund. Assessments to the participants of the program, recovered costs from third parties, and interest earnings are used to reimburse the fund for costs and claim payments.

Noncommitment Debt Service Funds

This debt service fund group accounts for the payment of principal, interest and other debt servicing costs on the County's Special Assessment Revenue Bonds and Notes. These issuances were undertaken in order to provide funding for certain capital improvements to the Public Utilities Water/Wastewater System.

Department Summaries

DEPARTMENT SUMMARIES

The Departmental Summaries that follow in this section include department descriptions; department accomplishments; performance measures; summary budgets; and funded position comparisons for each individual department and various other organizations funded by the Board of County Commissioners.

MATRIX OF COUNTY SERVICES

Hillsborough County is a general-purpose government which performs many tasks and a wide range of services for the health, safety, and welfare of its citizens. The current list reflects organizational changes as well as refinements by the departments that are the direct result of the 'mapping' of specific performance measures to each service or program. The matrix is intended to be used as additional reference material for reviewing the

budget. Some services contracted by Hillsborough County as well as services provided by other taxing authorities are not included (e.g., Hillsborough County's three cities, the School Board, the Children's Board, the Hillsborough Area Regional Transit Authority, the Port Authority, independent special districts, and the Southwest Florida Water Management District). There may be some embedded programs within the list that could be identified separately.

For questions regarding the statutory authority of specific County services, please contact the County Attorney's Office at 272-5670 or the Management and Budget Department at 272-5890.

Board of County Commissioners

There are seven members of the Board of County Commissioners. Voters elect four commissioners to serve single-member districts and three for countywide representation. The Board approves the County's operating and capital budgets, and the County's Capital Improvement Program. County Commissioners develop the policy for the management of Hillsborough County and provide direction to the County Administrator for the improvement of the county and the welfare of its residents. The Board serves as the Environmental Protection Commission, and individual commissioners serve on various other boards, authorities, and commissions.

Standing, from left: Ken Hagan, Chair (District 2), Joshua Wostal (District 7, Countywide), Pat Kemp, (District 6, Countywide), Donna Cameron Cepeda, Chaplain (District 5, Countywide), Michael Owen (District 4). Seated, from left: Gwen Myers, Vice Chair (District 3), Harry Cohen (District 1)

FY 22 and FY 23 Accomplishments:

- The Board effectively allocated American Rescue Plan Act funds from the federal government to help residents, businesses, and other organizations impacted by the pandemic.
- The Board provided funding to significant public safety capital projects in the Adopted FY 23 Budget. Among these projects are a new Sun City North Fire Station, a new Fire Rescue/Emergency Management Warehouse for essential supplies, and improvements at the County Jail.

FY 24 and FY 25 Core Goals:

- The Board will adopt a balanced budget that is linked to its strategic objectives, incorporates strategic uses of funding, and ensures transparent and stable government operations.
- The Board will continue a history of making budget decisions consistent with sound financial management practices, resulting in the maintenance of the County's AAA general credit rating from all three credit rating agencies.
- The Board will continue to respond

to resident requests to maximize two-way dialogue between the public and their government.

FY 24 and FY 25 Key Projects:

- The county's population is growing rapidly, with a projection of more than 500,000 new residents within the next 20 years. To properly plan for this growth, the Board has been working with County administration in the development of master plans for Fire Rescue, Parks, Stormwater, and Affordable Housing. Identification of creative funding solutions is a key goal.

Board of County Commissioners

Appropriations	FY22 Actual	FY23 Adopted	FY24 Adopted	FY25 Planned
Personnel Services	\$ 2,979,518	\$ 3,274,255	\$ 3,616,723	\$ 3,616,723

BUDGET CHANGES AND OPERATIONAL IMPACT

FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of insurance assessments.

County Internal Auditor’s Office

The County Internal Auditor’s Office performs independent and objective reviews and evaluations of all departments, offices, boards, activities, functions, and agencies under the control of the Board of County Commissioners. These reviews may include performance, operational, compliance, management, and other audits conducted in accordance with applicable professional auditing standards, such as those provided by the U.S. Government Accountability Office and the Institute of Internal Auditors. As a business partner, the County Internal Auditor’s Office provides an advisory role in addition to its routine audit and assurance responsibilities.

FY 22 and FY 23 Accomplishments:

- The Internal Auditor’s Office reviewed and evaluated activities to improve County operations. It assisted the Board of County Commissioners with achieving economical, efficient, and effective administration of its areas of responsibilities to residents.
- The Office informed the County Administrator of emerging risks and situations that would have had a material and negative impact on County operations or programs, and it served in an advisory capacity in the development of controls.
- The Office assisted management by identifying process improvement opportunities that resulted in higher control maturity levels for County operations and decreased risk factors.

FY 24 and FY 25 Core Goals:

- Provide assurance, advice, and value for the money. Serve in an advisory capacity in the development of controls.
- Align products and services to the Board of County Commissioners’ strategic goals and objectives.
- Identify and review emerging risks before they become problematic. Keep the County Administrator informed of emerging risks and situations that may have a material negative impact to County operations and programs.

FY 24 and FY 25 Key Projects:

- Perform independent assurance, and audit and consulting services. Monitor management corrective action plans and consulting services. Procure and manage contracted audited services on behalf of management, special reviews, cone-of-silence investigations, annual risk assessment and planning, and management assistance services.
- Provide: reasonable assurance of economy and efficiency of resources deployed; consistency between operations and programs with their established objectives; reliability and integrity of financial and operational information; overall compliance between policies, plans, and procedures with written guiding principles, grants, and contracts; and adequacy of controls.

Innovation:

During this past year, the County garnered inspiration from audit report recommendations that outlined and steered the strategic direction of key projects.

For example:

- Building Services - Provided advice to modernize the vertical process by adopting practices to optimally meet customer expectations. RESULT: management implemented Accela, digitized intake and permit processing, automated permit application routing, streamlined inspector assignments, implemented performance measures, kicked off a fee schedule study, and enhanced record storage and security.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of an increase in additional software licenses.

County Attorney's Office

(813) 272-5670

The County Attorney's Office provides legal counsel and representation to the Board of County Commissioners (BOCC), the County Administrator, and County departments on all matters pertaining to the business of Hillsborough County. Duties include participation in all litigation, and providing legal counsel and advice on issues affecting overall County administration, including innovative legal solutions. In addition, the County Attorney's Office provides legal representation to certain Constitutional Officers and various Hillsborough County agencies at the direction of the Board of County Commissioners.

The County Attorney's Office gathers to recognize and celebrate employees during a holiday luncheon.

FY 22 and FY 23 Accomplishments:

- Provided preventative legal advice to all clients, which reduced liability risks and defended all lawsuits filed against Hillsborough County.
- Maintained Florida Bar Board Certification for 37% of the attorneys in the office and maintained paralegal certification or Florida Bar registration for 29% of the paralegals.
- Coordinated 6,310 public records requests in Calendar Year 2022.
- Managed the registration of 140 lobbyists in Calendar Year 2022.

FY 24 and FY 25 Core Goals:

- Continue to enhance in-house training programs to provide quality training and cost effective continuing legal education (CLE), which will further improve staff members' abilities to perform their jobs with increased professionalism while fostering the development of exceptional lawyers and support staff.
- Continue to promote Board certification by allocating funds to support staff attorneys who are seeking certification. This is accomplished by paying for

the training and certification process while recognizing that it is a capstone accomplishment of a legal career requiring a peer review process, extensive practical experience, and passing a test to demonstrate knowledge in a specialized area of law.

FY 24 and FY 25 Key Projects:

- Continue to emphasize customer service for clients (BOCC, County departments and agencies) and the public in order to create an atmosphere of cooperation with clients and to assure consistency with the BOCC and County Administrator's objectives.
- Continue to enhance professionalism and excellence in legal services to the client as quality legal services are the foundation of a successful law office.
- Maintain standards of practice for both attorney and non-attorney personnel to reinforce the responsibility of all staff to conduct themselves consistently and within the expectations associated with their professions.

Innovation:

The County Attorney's Office efficiently uses office resources in a manner that delivers legal services not only within but under planned budgets. The office has analyzed numerous areas to determine if innovative thinking can achieve efficiencies. The County Attorney's Office has shifted duties which has created a considerable savings, while utilizing existing in-house resources to continue to provide a high level of service. Despite a constant increase in the volume and complexity of the workload, the total Office staff of 59 is 37% below the 94 funded positions prior to the recession. By taking on the additional duties of representing CareerSource, the Charter Review Board, and the Planning Commission at no additional cost, the office has achieved savings for the County.

Honoring Marva Taylor, Senior Assistant County Attorney, as she enters retirement after 16 years of dedicated service.

Chief Assistant County Attorney Rick Tschantz gives recognition to his division for all the exceptional legal services provided throughout the past year.

Hillsborough County Population vs. County Attorney's Office Staff

Lis Mendez, Legal Secretary, is recognized for 20 years of service with the County Attorney's Office.

Left graph: Although the population in Hillsborough County has grown, the Hillsborough County Attorney's Office has managed to decrease its staff numbers after former employees have retired by utilizing technology and encouraging current staff to work in a more efficient manner.

Affordable Housing Services

(813) 612-5397 | HCFLGov.net/AffordableHousing

Affordable Housing Services enhances the quality of life for Hillsborough County residents by helping low- and moderate- income families retain or find safe, quality affordable housing, and improves lives in low- to moderate- income areas using federal and state funding. Each year, the department effectively manages the HOPE Funds, Housing, Urban Development, and State grants: Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), Emergency Shelter Grant (ESG), and State Housing Initiative Partnership (SHIP). The department actively fosters housing development through public/ private partnerships and by creating incentives and impact fee waiver programs that support the overall goals to preserve existing affordable housing, provide rehabilitation assistance for lower income households, and fund the development of single-family and multifamily affordable housing units.

All 12 new homes built in the Silvio Palms neighborhood of Temple Terrace have attached garages.

The New Life Village has 16 rental townhomes that will provide affordable housing for more than 60 residents.

FY 22 and FY 23

Accomplishments:

- Affordable Housing helped increase accessibility and sustainability of housing for more than 135 people by providing down payment assistance, new constructions, and rehabilitation of homes for low- to moderate-income clients.
- The department improved quality of living and community development for 4,214 low- to moderate- income households through the renovation and improvements to several public services and public facilities/ infrastructure projects. These include facilities for people with disabilities, homeless people, neighborhood facilities, parks, and recreational facilities.
- Affordable Housing accessed and preserved housing units for 20,349 households through multifamily development support, rapid rehousing, shelter, and rental/mortgage assistance.

FY 24 and FY 25

Core Goals:

- Affordable Housing will increase and sustain decent, affordable housing opportunities for low-income families.
- The department will create long-term housing opportunities.
- Affordable Housing will preserve decent housing opportunities with improved accessibility and sustainability.

FY 24 and FY 25

Key Projects:

- Hillsborough County provided Habitat for Humanity of Hillsborough County HOME funds in the amount of \$510,000 for land acquisition located in

Mercy Oaks is a 20-unit apartment complex with one-, two-, and three-bedroom apartments.

Temple Terrace. The subdivision, Silvio Palms, was subdivided into 12 plots to construct energy star certified single-family homes with attached garages.

- Hillsborough County provided Catholic Charities Diocese of St. Petersburg, Inc. HOPE funds in the amount of \$2,443,250 for 20 of affordable housing rentals for low-to moderate- income level clients. Mercy Oaks is located off Florida Avenue in Tampa.
- Hillsborough County provided HOME funds in the amount of \$1,736,820 to New Life Village

to build 16 new rental townhome units that will provide affordable housing for more than 60 residents and their families, specifically at-risk youth affected by trauma and/ or the foster care system.

Innovation:

In partnership with Children’s Home Network (CHN), Affordable Housing Services provided \$957,293 in Community Development Block Grant funding for construction improvements to their facility, located at 10909 Memorial Highway,

Tampa, FL 33615. The campus improvements included the removal of an old standing structure and replaced it with an in-kind building. The in-kind building is now home to CHN’s Donation Center, which allows foster youth to shop for new clothing, school supplies, personal hygiene items, home decor, recreational items, etc. Oftentimes, foster kids arrive at the facility without any personal belongings. The Donation Center will give the foster youth living on the campus a sense of normalcy, independence, and self-confidence.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

Aging Services

(813) 272-5250 | HCFLGov.net/Aging

Aging Services promotes independence and prosperity for older adults by coordinating essential health and wellness services. These services include intake and screening assessments, individualized information and referral, case management, home delivered meals, adult day services, congregate dining, personal care, homemaking, caregiver respite, nutrition counseling, consumables, emergency alert response buttons with lock box option, transportation, pest control services, and the customer care line. Active senior programming offers field trips, exercise classes, seminars, and group activities with an evidence-based focus aimed at preventing the need for long-term care services. Services are provided directly by the department, as well as through contracted vendors, volunteers, and community partners.

Senior prepares a meal from the department's first cookbook titled, "Recipes Aged to Perfection."

FY 22 and FY 23 Accomplishments:

- During FY 22, Aging Services provided 884,813 meals to 3,107 seniors. The department continues to enroll seniors in its meal programs daily.
- In collaboration with the Communications department, Aging Services published its first cookbook, "Recipes Aged to Perfection." It's filled with special family recipes from the seniors and staff. Aging Services will host cooking competitions and encourage seniors to prepare meals from the cookbook and take pictures to be included in future editions.
- In addition to resuming in-person services at all center locations, the department opened and began providing services from the newly constructed Wimauma Senior Center. This center is a first of its kind in the county as it is co-located with a medical facility, Suncoast Community Health Centers, Inc., and the County's

Health Care Services Healthy Living programs.

FY 24 and FY 25 Core Goals:

- Provide additional support to caregivers in need by offering weekend respite care on a quarterly basis, allowing caregivers time off on a weekend to relax, run errands, practice self-care, and publish and disseminate a quarterly healthcare education newsletter. This newsletter will go directly to the caregivers, clients, and community members.
- Initiate a departmentwide fall prevention program intended to decrease falls significantly utilizing the STEADI (Stopping Elderly Accidents, Deaths, and Injuries) program and a nationally recognized evidence-based program, "A Matter of Balance" (MOB)-Managing Concerns About Falls.
- Staff will seek center accreditations and case manager certifications to further enhance the alignment of the department's programs with nationally recognized standards that strengthens the overall department's operations and affirms the programs commitment to quality by providing a more client-centric, coordinated model of care.

FY 24 and FY 25 Key Projects:

- Aging Services is collaborating with the Communications department to survey the community at-large regarding the department's facility-based services. Survey results from this community engagement opportunity will assist the

department and providers throughout the state to better serve and reach seniors in need.

- The department is partnering with the Florida Museum of Photographic Arts (FMOPA) to teach seniors throughout Hillsborough County basic photography techniques and place professional cameras in the hands of seniors, giving them a tool for creative expression. FMOPA will host a photography exhibition, which will be open to the public, displaying seniors' photographs.
- Aging Services will identify a vendor to pilot a GPS tracking wanderer device program. It will be made available to Alzheimer's disease and related dementias at-risk caregivers with limited resources. This program will provide caregivers peace of mind to easily locate loved ones while reducing the amount of community resources needed for reunification.

Innovation:

The department will initiate an online payment system to allow clients and caregivers to make co-payments and donations via credit card or ACH, which will contribute to timely payments and an increase in donations. Staff will provide technological training on the new system for seniors at various department centers. Go live date is scheduled for April 26, 2023.

During the Adult Day Care Annual Caregiver Workshop "Caregiving Happens," several caregivers took the opportunity to visit the Alzheimer's Association Brain Bus.

County officials participate at a Wimauma Senior Center ribbon cutting.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- Changes in operating expenditures are primarily the result of fluctuations in grant appropriations.
- The increase in operating expenditures is primarily the result of increased insurance assessments and an increase in the service rate paid to contracted vendors.

CAPITAL AND OTHER EXPENDITURES:

- The decrease in other expenditures is primarily the result of projects requiring one-time funding reaching completion.

Arts Council

(813) 571-6991 | HillsboroughArts.org

The Arts Council Division supports, promotes, and advances arts and culture in Hillsborough County. As the designated local arts agency by the State of Florida, the Council provides a unified voice for all cultural organizations and activities in the Tampa and Hillsborough County region. The division promotes the good news about the cultural vitality of the community to a national audience while providing grants, coordinated marketing efforts, research, and advocacy to help the entire Hillsborough County cultural community to thrive.

Claire May attended the Council's Business Side of Art series, which supports local artists by giving them business skills to improve sales, marketing, bookkeeping, and much more.

FY 22 and FY 23 Accomplishments:

- For FY 23, grant funding was awarded to 38 local cultural organizations and 18 working artists. These grants support community prosperity by providing professional development opportunities to local small business arts entrepreneurs. Additionally, this funding helps maintain important community programming through a variety of nonprofits.
- The Arts Council has worked steadily throughout FY 23 to complete the Arts & Economic Prosperity 6 Study, which evaluates the local creative economy and determines revenue derived through jobs, taxes, tourism, and more.
- As a continuing effort in workforce development, the Arts Council hosted a workshop for local artists about better positioning their business to prepare for tax season and taking advantage of appropriate business deductions. Educating artists on available resources and effective methodologies enables them to navigate managing a small business more effectively.

FY 24 and FY 25 Core Goals:

- As the Council completes an economic impact study, it will focus on sharing data about the nonprofit cultural sector in Hillsborough County and the highlights of the region as an arts destination. Data that provides evidence that Hillsborough County is a creative community in which to live, work, and play also serves to encourage relocation, tourism, and business development.

- The Council will continue to implement initiatives to ensure that every resident in Hillsborough County has equitable access to arts and culture by broadening awareness of existing and emerging opportunities, eliminating participation barriers, reaching underserved populations, and providing opportunities for residents to engage in local culture.
- The Arts Council will start cultural asset mapping to identify cultural spaces throughout the county and begin the process of leading a needs assessment to more effectively identify unmet community needs in the local cultural sector. These initiatives will position the community to identify a long-range planning process for the future of the County's cultural assets.

FY 24 and FY 25 Key Projects:

- Develop a cultural assets map that identifies arts organizations, arts businesses, artists, public art, and more.
- Utilize nationally recognized mapping software to benchmark Hillsborough County compared to other similar communities to understand how well the County is meeting established objectives.
- Further evaluate the local creative economy by continuing to aggregate data, including data about the for-profit creative businesses in our community, to help understand needs and develop goals for long-range planning.

Innovation:

As of March 3, 2023, the Cultural Assets Commission became part of the Arts Council Division. Accompanying this change, the Arts Council now manages the Special Event Partnership Grant program with an additional grantmaking budget of more than \$2 million.

This is an important new role for the Arts Council to play in supporting the cultural sector's many festivals and events, which take place throughout the entire county and will provide greater capacity for benchmarking outcomes.

Beginning in FY 23, the Arts Council now supports festivals and events in the community via the Special Events Partnership Grant program.

Fledgling at Hillsborough Community College is an example of the Community Arts Impact Grant at work. This bicycle project takes arts and food education to the local community to teach residents both of these skills.

Rudram Dance teaches traditional Indian dance supported by the Cultural Development Grant program. This program provides broad support to many cultural institutions in the area.

Local artist Nneka Jones' work has appeared in Time, The Washington Post, and most recently, a new Marvel film. She is an FY 23 Professional Development for Artists Grant recipient.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Position transfers between the Arts Council Division and Economic Development result in one additional position.

OPERATING EXPENDITURES:

- Changes in operating expenditures are primarily the result of fluctuations in grant appropriations.

CAPITAL AND OTHER EXPENDITURES:

- Continuation budget.

Capital Programs

(813) 635-5400 | HCFLGov.net/PublicWorks

Capital Programs oversees the project development, design, and construction of the County's Capital Improvement Program for transportation, stormwater, and facilities such as parks, libraries, and fire stations. The department is also responsible for the inspection of developer construction, including subdivision infrastructure, public-contributed assets in County right of way, and commercial property improvements.

FY 21 and FY 22

Accomplishments:

- Successful delivery of the Transportation, Stormwater, and Architecture Services Capital Programs, including \$191 million in expenditures in FY 22 on projects providing for improved transportation facilities, government facilities (including a library and parks), sidewalks, bike lanes, and stormwater drainage systems.
- Successfully completed the construction phase of \$25.6 million Apollo Beach (Paseo Al Mar)/I-75 Extension on Aug. 26, 2022. The project included

constructing a new overpass over I-75 (connecting U.S. 41 with Paseo Al Mar Boulevard) and new bridge over Bullfrog Creek, roadway approaches, drainage improvements, highway lighting, and sidewalks.

- Completion of over 45 architectural capital improvements totaling \$110 million in value, including the Consolidated & Hardened Maintenance Facilities at Sheldon Road, the new Traffic Operations Center, solar panels at various facilities, new fire stations in Apollo Beach, Central Brandon, and Rhodine Road, and the New Tampa Performing Arts Center.

A community of over 116,000 residents and hundreds of businesses now has a new, modern fire station calling Central Brandon home.

FY 22 and FY 23

Core Goals:

- Ensure on-time and within budget delivery of projects to address the needs of the community.
- Improve infrastructure safety assets that would help achieve the County's Vision Zero goals.
- Provide timely and accurate response to inquiries from residents about active Capital Improvement Projects.

FY 22 and FY 23

Key Projects:

- Commence and complete construction of the Progress Village regional stormwater improvements, Collins Elementary School circulation improvements, and the 70th Street South bridge replacement over Delaney Creek.
- Commence and complete transportation improvement projects such as widening Bell Shoals Road between Bloomingdale Avenue and Boyette Road from a two-lane, undivided rural road to a four-lane, divided urban facility, and several intersection safety improvement projects that will provide enhanced infrastructure to help reduce congestion and increase safety.
- Complete Waterset Sports Complex, synthetic turf fields, Branchton Park, and splash pads at Kenly, Winston, and E.P. Johnson Parks. Complete design and permitting of three new American Recovery Plan-funded fire station replacements at Armdale, Gunn Highway, and Palm River. Complete design of the New Brandon Library and the proposed new African American Arts & Cultural Center.

Innovation:

Implementing a capital program delivery management solution that will improve integration of project information, streamline workflows, and enhance reporting. The management solution will improve risk mitigation, transparency, and accountability.

The New Tampa Performing Arts Center includes a 348-seat theatre/multipurpose venue with a stage, catwalk, orchestra pit, four studios/multipurpose rooms, a catering/serving kitchen, concession area, box office, main lobby, and parking for 215 vehicles. The space provides flexibility for conducting theater, dance, and arts events, including educational programming for residents of all ages.

At the entrance of Pebble Park is the new Riverview Roundabout, which features a bronze sculpture honoring the Seminole Native American Tribe.

The Apollo Beach Boulevard (Paseo Al Mar Boulevard) I-75 Overpass provides connectivity between U.S. 41 and U.S. 301 – a vital east-west corridor in the South Hillsborough County area.

The Bell Shoals Road Widening Project between Bloomingdale Avenue and Boyette Road will convert the existing two-lane, undivided rural road to a four-lane, divided urban facility. The 3.1-mile corridor will have two vehicle lanes, a bike lane, and a sidewalk in both directions.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Repair sidewalks (linear feet) to increase pedestrian safety	37,561	60,000	50,000	30,000

Funded FTE Positions	72.00	72.00	71.00	71.00

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, overtime for inspection team, and short-term disability are budgeted.
- Position transfers between Parks and Recreation and Facilities result in one fewer position.
- In FY24, two Project Managers positions are established to address an increase in department responsibility.
- During FY23, two positions were eliminated due to remaining vacant for longer than one year.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments and fleet expenditures.
- In FY24, one-time funding is included to assist Architecture Services in digitalizing critically important paper files.

Children's Services

(813) 264-3807 | HCFLGov.net/Children

Childcare Licensing: (813) 264-3925 | HCFLGov.net/ChildCareLicensing

Children's Services administers the highest-quality, evidence-based treatment services designed to empower and protect children, youth, and families in Hillsborough County. The department provides therapeutic, residential respite, and outpatient counseling services, as well as licensing and regulatory services to child daycare facilities/homes. The department's primary goal is to promote self-sufficiency, reduce juvenile crime, and support residents.

FY 22 and FY 23

Accomplishments:

- As part of the implementation of the Family First Prevention Services Act (FFPSA), the department has enhanced prevention services for Hillsborough County youth and families. This also includes the department's aftercare program.
- Through collaboration with key community stakeholders, the department reduced the amount of youth entering out-of-home care and introduced early intervention to help identify and support families and youth at risk.
- Established a Safety Action Team (SAT) that will serve as the focal point for the department's Occupational Safety & Health Program. This team has representation from across the department and will review safety initiatives put in place to promote and ensure organizational safety.

FY 24 and FY 25

Core Goals:

- Continue to have open dialogue with the new community-based care provider, as well as other

nonprofit agencies that are providing foster care services in the community. These services will benefit the community by intervening, stabilizing, and preventing families from being separated, resulting in positive reintegration of youth back into families and communities.

- Increase revenue and/or identify reduction in costs to maintain a sustainable and financially viable business model. Financial viability increases community confidence in the program's ability to identify and maximize business efficiencies.
- Oracle Learning Management System Training software will enhance employee engagement through training, provide greater agility in responding to contractual requirements, reduction in reliance on paper, and strengthen program practices.

FY 24 and FY 25

Key Projects:

- Continue Duffels of Dignity program to provide foster care children, youth in the department's care, and those

escaping domestic violence with a new or gently used suitcase or duffle bag. Build partnerships with groups and organizations and distribute items for those in need.

- Digital and technology-based solutions to support faster interventions for families, better responsiveness to customer needs, greater agility in responding to contractual requirements, reduction in reliance on paper, and enhance employee engagement through training. These solutions will strengthen program practices and improve how residents experience services.
- Provide analytical data that demonstrates year-end efforts to improve safety measures and reduction in injuries, incidents, and accidents to Hillsborough County employees, clients, and visitors.

Innovation:

Children's Services will continue to add security for client information. This is being accomplished through the department's Note Active platform, which will give Children's Services the ability to do screenings and intakes on the platform, as well as store client files across residential and non-residential programs.

Assistant County Administrator Cheryl Howell and the Affordable Housing department dropped off donations for the Duffels of Dignity program.

Children's Services Coordinator Craig Jewesak delivers donations from Duffels of Dignity to the Children's Network of Hillsborough County.

The members of St. John's Episcopal Church held a donation drive for the Duffels of Dignity program.

Nurses from St. Joseph's Hospital dropped off donations for the Duffels of Dignity program.

FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, 27 positions were eliminated due to remaining vacant for longer than one year.
- In FY24, 17 Child Daycare Licensing grant positions are eliminated.
- Position transfers between Children's Services, Non-Departmental Allotments, and Social Services result in four less positions.

OPERATING EXPENDITURES:

- Changes in operating expenditures is primarily the result of eliminating the Child Daycare Licensing grant.

CAPITAL AND OTHER EXPENDITURES:

- Changes in grants and aids expenditures are primarily the result of eliminating the Child Daycare Licensing grant.

Code Enforcement

(813) 274-6600 | HCFLGov.net/Code

Code Enforcement consists of three sections: Code Enforcement Division, Animal Control Division, and the Regulatory Compliance Section. The department works to provide stellar customer service while protecting the health, safety, comfort, and well-being of communities, and creating a conducive atmosphere for private investment and a growing local economy.

FY 22 and FY 23 Accomplishments:

- Provided comprehensive support, sheltering assistance, and field damage assessment to Emergency Operations Center operations before, during, and after Hurricane Ian.
- Fully deployed body-worn cameras to Animal Control personnel to document and enhance investigations, support victims, and identify training opportunities.
- Surveyed sales of delta-8 products and facilitated merchant compliance and resident awareness.

FY 24 and FY 25 Core Goals:

- Support and preserve public safety, health, and welfare through the enforcement of the County's Land Development, Property Maintenance, Animal Protection, and Business Regulations.
- Protect property values and foster community responsibility and pride.
- Assist first responders.

FY 24 and FY 25 Key Projects:

- Merchant and public outreach related to the dangers of youth/teen vaping in anticipation of establishing distance separations between retail product sales and schools.
- Collaboration with the Pet Resource Center and County Attorney's Office to revise the County's Animal Ordinance.
- Shepherding completion of adjustments to maximum towing rates and work with the industry and County Attorney's Office to update association regulations.

Innovation:

Pet owners who are cited for having a dog with aggressive propensities are required by ordinance to undertake remedial instruction. Code Enforcement replaced its 2004 VHS video that required visiting the Animal Control office in person with an updated, online Vicious Animal Citation interactive video that allows the respondent to complete the mandatory training virtually.

Code Enforcement Community Outreach officers attend the annual Public Safety Fair in Northdale.

Code Enforcement's Rapid Response Team during the Gibsonton Fight the Blight.

Judge Monique Scott provides training to Animal Control personnel at the Plant City Courthouse.

A Code Enforcement Officer informs residents of department services at the Town 'N Country Civic Association.

East Side Code Enforcement personnel educate students at Eastside Preparatory Academy.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, two positions are established to address an increase in department responsibility.
- Position transfers between Code Enforcement, Conservation and Environmental Land Management, Consumer and Veteran Services, and Parks and Recreation result in net zero positions.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased indirect administrative costs, insurance assessments, and fleet costs.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of vehicles necessary for new positions.

Communications & Digital Media

(813) 272-5314 | [HCFLGov.net/Media](https://www.hcflgov.net/Media)

Communications & Digital Media (CDM) provides residents, businesses, and community partners with timely, accurate information related to County government programs, services, and emergency matters. Its expertise fosters two-way communication that is meaningful, clear, and concise. It engages the community using both traditional and digital channels, emerging media, printed material, the County's website, social media, and the award-winning television station, HTV. The department's work supports the County's vision and all its aspects by raising awareness of the programs and services available to residents and helping them access tools to improve their quality of life, grow businesses, and learn about County government.

FY 22 and FY 23 Accomplishments:

- The department launched "Mindful Mondays" ([HCFLGov.net/MindfulMondays](https://www.hcflgov.net/MindfulMondays)), a hub for mental health resources. "Mindful Mondays" works with County staff and community partners – including the Crisis Center of Tampa Bay, Tampa General Hospital, and licensed mental health professionals – to bring no-cost wellness resources

to Hillsborough residents. To date, "Mindful Mondays" hosts 35 articles and 29 videos. The videos have nearly 6,000 views on YouTube, as well as 66,700 impressions and 5,321 unique page views on [HCFLGov.net](https://www.hcflgov.net).

- CDM partnered with many other County departments to ensure that all public meetings remain easily accessible to residents. CDM offers comprehensive, easy-to-use resources to facilitate meetings of various sizes. Utilizing Surface

Hubs and other technology, creating unique and innovative workflows, and dedicating time and resources specifically toward solutions for public meetings, the department provided convenient access to all public meetings. The department aided in conducting 337 hybrid, in-person, and virtual meetings. Of those, 214 are hosted on the Hillsborough County Meetings YouTube channel.

- Residents have found that the "Hillsborough County Education & Engagement" hub (publicinput.com/HCEngage) is the best place to learn about and provide input for upcoming County projects while in their planning phases. The hub is also the place to go for County surveys, polls, and social posts from various County platforms. This year, Communications & Digital Media hosted 37 virtual public engagement opportunities for public projects on the "Hillsborough County Education & Engagement" hub. Over 75,000 people have participated in projects since its inception, providing more than 2.2 million responses. The hub has over 50,000 subscribers.

FY 24 and FY 25 Core Goals:

- Establish quality partnerships with key stakeholders through intentional collaborations.
- Strengthen Hillsborough County's reputation and brand through open two-way communication across various platforms that create public trust and confidence.
- Invest time and energy in research to foster results-driven, strategic communications efforts.

Members of Communications & Digital Media's HTV team work during a hurricane training exercise at the Public Safety Operation Complex. Emergency response communications are a key part of the department's role.

FY 24 and FY 25 Key Projects:

- “Hello Hillsborough” is a podcast by Hillsborough County Government aimed at connecting residents to resources, activities, and programs available throughout the county while introducing them to the County employees who help make Hillsborough a wonderful place to live. Creating a new platform to engage with residents will help Hillsborough County continue to enhance existing relationships as well as create new ones. “Hello Hillsborough” will be aimed at reaching a diverse audience across Hillsborough County and beyond.
- Communications & Digital Media is leading the way for planning and implementing big improvements to Public Safety Operations Complex this year. Recent emergency activations have exposed areas for improvement to internal communications and technology. This project will increase connectivity between

meeting spaces and allow streamlined processes when sharing vital information. Activated employees will be able to share and receive information from nearly any workstation in real time throughout the facility. More meeting spaces will now be hybrid, allowing for virtual and in-person attendance. These improvements will allow emergency managers to focus on the emergency and will clear away barriers to communication. Improvements to the HTV control room will increase the ability and speed in getting information to residents, as well as media, via live and recorded interviews, edited video, remote-activated emergency crawls, and social media.

- To consolidate all process documentation and departmental best practices into one location, Hillsborough County is utilizing the “ServiceNow” platform and creating a series of knowledge portals to facilitate quick and easy access to information. These portals host content for both internal County associates

looking to assist customers and residents who wish to self-service without making a phone call to Hillsborough County Customer Service & Support. At present, the knowledge bases provide over 200 unique articles, categorized so their location is easy to access.

Innovation:

Hillsborough County Communications & Digital Media is developing a new public-facing website. The new site is based on best-in-industry solutions that will enhance and personalize the customer experience, allowing information-seekers to find what they are looking for more quickly and efficiently. Residents expect robust digital solutions from their government, and the new site will deliver that. With a clean design, improved accessibility features, all new platforms and hosting infrastructure, and a vastly improved search function, the website is being rebuilt to be better from the ground up to make it easier to navigate and access county programs and services.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Provide information about Hillsborough County services and programs, measured by the amount of new, original programming created by HTV, other than coverage of meetings. Original programming includes special events coverage, community outreach, and public service productions.	108	130	130	150

Funded Positions	49	49	51	51
Funded FTE Positions	48.50	48.50	51.00	51.00

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, one position is changed from a part-time position to a full-time position.
- Position transfers between Communications & Digital Media and Customer Service & Support result in two additional positions.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments and planned technological improvements.

CAPITAL AND OTHER EXPENDITURES:

- The decrease in capital expenditures is primarily the result of projects requiring one-time funding reaching completion.

Community & Infrastructure Planning

(813) 635-5400

Community & Infrastructure Planning combines key principles of land use planning and infrastructure planning to meet the needs of Hillsborough County's existing and growing communities. The department is comprised of two divisions: Strategic Infrastructure Planning and Community Planning. Both divisions work in tandem to achieve a shared goal of ensuring high-quality infrastructure investments. Operationally, the Strategic Infrastructure Planning division foresees potential growth, identifies infrastructure opportunities, and optimizes land use to support anticipated growth. Community Planning seeks to optimize infrastructure by identifying redevelopment opportunities countywide for long-term community prosperity.

Community & Infrastructure Planning won the 2022 Institute of Transportation Engineers Project of the Year Award.

FY 22 and FY 23

Accomplishments:

- Community & Infrastructure Planning updated the county's 2008 Local Functional Classification Map in coordination with several County departments and agencies. This includes 7,250 miles of County-owned roads, state roads, and Tampa Hillsborough Expressway Authority roadways. This map plays a pivotal role in designing roadways, maintenance, and enforcement of land development regulations and is in the process of being adopted.
- The Targeted Redevelopment Program has been created by the BOCC to assist property owners, business owners, developers, and real estate brokers in bringing underutilized land back into productive use. To further the goals, an infrastructure assessment was completed with job creation in mind. This enables the County to pursue grants and other funding opportunities.
- Community & Infrastructure Planning completed the Wimauma Action Plan, which lays the

groundwork for the revitalization of downtown Wimauma. This document created the framework used by community organizations and the County to direct the implementation of the Wimauma Village Community Plan adopted by the BOCC in 2021.

FY 24 and FY 25

Core Goals:

- Community & Infrastructure Planning will develop infrastructure investment strategies, such as coordinated transportation, water, and wastewater projects that further the economic development goals of Hillsborough County's neighborhoods and business centers.
- The department will reinforce community values through context-sensitive roadway planning and design, proactive land use regulatory strategies, and targeted incentives.
- Community & Infrastructure Planning will build and maintain productive collaborations with the Metropolitan Planning Organization, the Planning Commission, HART, the Florida Department of Transportation, and all other agencies whose responsibilities link land use, infrastructure, and community building.

FY 24 and FY 25

Key Projects:

- Community & Infrastructure Planning will focus on the Multimodal Corridor Preservation Plan. This plan will update the Current Corridor Preservation Plan to include a network supporting all modes of transportation beyond the buildout year of the County's long-range plans.
- The department will focus on

the Greenways Master Plan Update. This plan will update the 1995 Greenways Master Plan to incorporate best practices and implementation strategies for a complete greenways and trails network.

- Community & Infrastructure Planning will focus on the Ten-year Transportation Plan. This plan will develop a strategic, multimodal transportation investment plan for the next ten years that helps to direct growth, build communities, and improve the safety and operation of the entire Hillsborough County transportation system.

Innovation:

Community plans have been traditionally looked at as long-range vision documents with goals, objectives, strategies, and in some cases, land development code changes. The department created the Action Plan for Wimauma Community Plan. This is the first time that the County has created a plan that lays out actionable implementation strategies with a timeline. This plan could be a template used by other communities in Hillsborough County.

Community & Infrastructure Planning won the 2022 Institute of Transportation Engineers Project of the Year Award.

Community & Infrastructure Planning staff attended the Greenways Master Plan Update Meeting.

BUDGET CHANGES AND OPERATIONAL IMPACT

FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of insurance assessments.

Conservation & Environmental Lands Management

(813) 635-3547 | HCFLGov.net/Conservation

Conservation parks and nature preserves are an essential component of every community. There are proven correlations between the presence of parks and preserves and enhanced environmental, economic, health, and social conditions. The Hillsborough County Conservation & Environmental Lands Management (CELM) department provides outdoor recreational opportunities for residents and visitors. It oversees the management of all conservation lands, often referred to as ELAPP (the Jan. K. Platt Environmental Lands Acquisition and Protection Program) preserves, as well as the County's regional conservation parks system. The department manages 84,000 acres of park and preserve lands, serving over 2.8 million visitors annually.

FY 22 and FY 23 Accomplishments:

- Collected \$2,698,714 in conservation parks revenue during FY 22. This resulted in a 45.6% cost recovery for conservation park operations, thereby allowing all parks to remain open seven days a week.
- Completed and opened Pebble Park in Riverview. This 27-acre conservation park is located on the Alafia River and offers two large picnic pavilions, restrooms, and

both paved and unpaved hiking trails. Current visitation rates are estimated to be more than 100 people per day, making it one of the most visited parks in the area. A river overlook will be installed in FY 23.

- After two years in development, the CELM department unveiled the CELM Training Academy for all department staff. The academy focuses on the department's mission, employee roles and responsibilities, and equipment training. To date, all staff have

attended the one-day "core" training module and are working their way through equipment utilization and related trainings.

FY 24 and FY 25 Core Goals:

- Achieve a 90% customer satisfaction rating within the CELM department's system of conservation parks and ELAPP preserves to better serve the public and meet County customer service objectives.
- Provide an average cost recovery of approximately 25% to offset annual conservation park operational costs, thereby allowing all parks to remain open seven days a week.
- Reduce vegetation and overall fuel loads over 9,142 acres of CELM-managed preserve lands by using prescribed fire and mechanical treatment methods. These techniques reduce the overall wildfire threat on preserved lands by approximately 25% per year, while enhancing a variety of native upland and wetland habitats.

FY 24 and FY 25 Key Projects:

- Complete site improvements for a new Lithia Springs Conservation Park playground at a cost of \$900,000. This playground will be ADA-accessible and provide a modern playground design with creative amenities to encourage outdoor play and socialization for children of all ages and abilities.
- Complete all planning, design, and permitting for boardwalk renovations and replacement at Lettuce Lake and John

Environmental Lands Management staff apply prescribed fire to maintain healthy habitats and reduce the risk of wildfire.

B. Sergeant Conservation Parks. Funding for construction is estimated at \$5.3 million and provided in the FY 23 Parks CIP budget. Once completed, these boardwalks will provide full ADA access, while using sustainable materials to reduce maintenance costs.

- Expend remaining ELAPP bond proceeds to acquire approximately 1,000 to 2,000 acres of new preserve lands within approved ELAPP site boundaries. The County is in active negotiations with several property owners to achieve this objective by the close of 2024.

Innovation:

During 2022, the CELM department initiated discussions with the Oregon Climate Trust to develop a Phase II emissions reduction project that focuses on the reforestation of certain ELAPP preserves and the generation of future revenue to fund habitat restoration efforts over multiple preserves. Unlike the Phase I project that focused on improved forest management at the Lower Green Swamp Preserve, Phase II will involve planting more than 2,225,000 native South Florida slash and longleaf pine trees across 3,000 acres of targeted ELAPP restoration units. As the trees grow, they are expected to remove approximately 268,629 cubic tons of carbon dioxide, which can be sold on the voluntary carbon market to companies interested in lowering their carbon footprint. Also, the pine forests will reduce invasive plant infestations and provide revenue through future pine straw and timber harvesting. Negotiations with the Climate Trust for Phase II are ongoing and the CELM department expects to have a draft agreement ready for County review by mid to late 2023 and consideration by the BOCC in 2024.

CELM department maintenance staff rebuilt the floating boat docks at the Riverview Civic Center Boat Ramp located on the Alafia River.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, two positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The decrease operating expenditures is primarily the result of indirect administrative costs.

CAPITAL AND OTHER EXPENDITURES:

- Capital outlay reflects funding for new and replacement equipment.

GRANTS AND AIDS:

- Continuation budget.

Consumer & Veterans Services

(813) 635-8316 | [HCFLGov.net/Veterans](https://www.hcflgov.net/Veterans) | [HCFLGov.net/Consumer](https://www.hcflgov.net/Consumer)

Consumer & Veterans Services aims to ensure the fair and proper treatment of community military veterans and consumers through various educational, mediation, and administrative activities. Three distinct teams deliver community outreach programs to maximize awareness of services and benefits available to Hillsborough County veterans and all residents as consumers. The Veteran Services team provides military veterans, their dependents, and survivors with assistance in accessing federal, state, and local benefits. Veterans Services coordinates all activities at Veterans Memorial Park and acts as the single point of contact for other governmental jurisdictions and private agencies concerning veterans' benefits. The Consumer Protection team investigates complaints from residents regarding deceptive trade practices, theft, fraud, or lost wages. Mediation may be offered to provide resolution and superior customer service. Consumer Protection also oversees lien settlements and Citizen Board Support, ensuring residents' due process by preparing and sending legal notices of hearings for code violations. Consumer & Veterans Services demonstrates superior agility by offering in-person and virtual assistance for a wide range of community needs. Veterans Memorial Park continues to grow in popularity as a regional destination for reflection, patriotic events, and community gatherings.

A new amphitheater and gazebo at Veterans Memorial Park provide a wonderful venue for outdoor events.

FY 22 and FY 23

Accomplishments:

- 34,694 clients received free expert assistance from Veteran Services, with an economic impact of \$794 million annually. Hillsborough County remains the No. 1 veteran-populated county in Florida, with 93,257 veterans.
- 13,924 clients received free expert assistance from Consumer Protection Services, which conciliated or mediated 1,089 cases, returning a total of \$517,949 in economic recovery to consumers. Additionally, the Citizen Board Support team assisted the Code Enforcement Board with 2,336 cases.
- In observance of National Consumer Protection Week, the 7th annual "Shred Fest" helped residents safely thwart identity theft by recycling or shredding more than 12,760 pounds of paper and in excess of 2,000 pounds of electronics holding sensitive information during a drive-through event.

FY 24 and FY 25

Core Goals:

- As the county's military community grows, the demand for VA-related services increases. Continued commitment to increasing awareness of the PACT Act (Promise to Address Comprehensive Toxic Act of 2022) and connecting eligible veterans to these earned benefits is a priority. PACT has introduced 23 new presumptive conditions related to burn pits and other toxic substances.
- As a low-cost alternative to the court system and key law enforcement partner, Consumer Protection's core mission is

to resolve disputes, recover losses, advocate for consumer protection laws, and ensure the safety and welfare of residents. Consumer Protection’s goal is to improve effectiveness in reaching consumers and increase the frequency and delivery of important services.

FY 24 and FY 25

Key Projects:

- Complete improvements to a new outdoor amphitheater on the grounds of Veterans Memorial Park & Rear Admiral Collins, Jr. Veterans Museum, including shade panels and seating enhancements.
- Implement the University of South Florida Master Study Plan in Veterans Memorial Park.
- Gov. Ron DeSantis and the Florida Department of Economic Opportunity awarded the County \$1.65 million to expand the Veteran Resource Center and add the Veterans Educational and Cultural Center.

Innovation:

In partnership with the County’s Information & Innovation Office, the department successfully implemented a new software – Entellitrak – to improve efficiency and productivity in providing vital services to veterans and their family members while allowing seamless interface with state and federal partners.

The iconic Doughboy infantryman greets visitors to the WWI monument at Veterans Memorial Park, which is free and open to the public daily.

The Veterans Resource Center on the grounds of Veterans Memorial Park offers free services for veterans and their families seeking VA benefits.

Veterans Freedom Trail at Veterans Memorial Park features a series of outdoor fitness stations donated by the Armed Forces Families Foundation.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Position transfers between Code Enforcement and Consumer & Veterans Services result in one fewer position.

OPERATING EXPENDITURES:

- The decrease in operating expenditures is primarily the result of transferring False Alarm processing duties to Consumer & Veterans Services from Code Enforcement.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of a multipurpose room upgrade project.

County Administrator

The County Administrator and her immediate staff are the senior executive leadership for all Hillsborough County government operations and programs under the authority of the Hillsborough County Board of County Commissioners. The County Administrator implements and manages all the Board's policies to provide sound administration of County programs and finances, as evidenced by comparisons with other local governments, and provides opportunities for the public to interact with the Board.

Hillsborough County Administrator Bonnie M. Wise during a BOCC meeting.

FY 22 and FY 23 Accomplishments:

- The County continued to maintain its AAA credit rating from all three rating agencies. Hillsborough County is one of only three counties in the State of Florida to hold this distinction.
- The County allocated federal American Rescue Plan Act (ARPA) funding for infrastructure improvements, including roadway pavement, sidewalk

improvements, fire station replacements, and water/wastewater improvements. The County also allocated ARPA funds to affordable housing, food service delivery, and nonprofit support.

FY 24 and FY 25 Core Goals:

- The County Administrator will submit a balanced recommended FY24 – FY25 budget incorporating transparency and

fiscal sustainability within the current economic climate of high inflation and challenging labor markets. Budget decisions will be consistent with sound financial management practices, and the maintenance of the County's AAA credit rating.

FY 24 and FY 25 Key Projects:

- The County Administrator will develop a new strategic plan.
- The County Administrator will continue to work with the Board to effectively implement American Rescue Plan Act projects.

County Administrator

Funded FTE Positions	14.00	14.00	13.00	13.00

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, one position was eliminated due to remaining vacant for longer than one year.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments.

Customer Service & Support

Customer Service Center (813) 272-5900 | [HCFLGov.net/AtYourService](https://www.hcflgov.net/AtYourService)
Neighborhood Relations (813) 272-5860 | [HCFLGov.net/Neighborhoods](https://www.hcflgov.net/Neighborhoods)
Customer Service & Support Administration (813) 307-1700

Customer Service & Support (CSS) provides public customer service and connects the community with County government and services. CSS monitors customer service and provides strategy to affect positive change resulting in quality customer experiences. The department manages the County's customer service contact center, which handles general calls for government information and basic services provided by Public Works, Pet Resources, and Code Enforcement. The department also standardizes the organization's public engagement activities for all departments under the County Administrator by strategizing outreach to neighborhoods regarding programs, projects, and policies that may affect them. Additionally, Neighborhood Relations administers grants and initiatives, such as the Annual Neighborhoods Expo and the Hillsborough County Backstage Pass leadership program, to foster neighborhood improvements and strengthen Hillsborough's unique communities.

FY 22 and FY 23 Accomplishments:

- The Neighborhood Awards program recognizes neighborhood organizations that create healthy, safe, and engaged communities. The awards were previously given at the annual Neighborhoods Conference. Neighborhood Relations is now bringing the award to the winning neighborhoods by presenting it at monthly board meetings, making the occasion personable and convenient for the community.

- The Customer Service division is partnering with the Information & Innovation Office to support the launch of the County's new customer service ticketing system and related training. This initiative involves in-depth sharing of process knowledge, strategic transfer of content, and careful testing to ultimately create a better experience for both customers and staff.
- The Customer Service division partners with several departments to keep their phone menu options and recorded messages current

Customer Service and Information Technology teams work together to implement the new CRM platform, ServiceNow.

and relevant to callers' needs. A project of note was the separation of the Pet Resource Center's phone number and recorded messages from those of Animal Control, resulting in a better experience for callers.

FY 24 and FY 25 Core Goals:

- Continue to transform both internal and external customers' experiences by implementing technology that enables them to engage easily via their channels of choice and reduce the perception of departmental silos. This also will help staff to provide quality customer service and harness data to drive business decisions based on customer needs and priorities.
- Handle the County's simple, repeatable customer interactions within the Customer Service & Support department rather than in many departments with varying processes. This will make the customer experience more consistent and will lessen partner departments' workload, enabling them to focus on delivery of their core services and more complex customer needs.
- Neighborhood Relations will launch a campaign that encourages neighborhood organizations to sign up for the County's Neighborhood Listing, allowing them to participate in many programs and initiatives. In addition, the team will create an educational series that encourages year-round learning about County government and its programs and services.

FY 24 and FY 25 Key Projects:

- In continued partnership with the Information Technology department, the Customer Service division will transition to cloud-based software systems that allow customers to request services, get information, and receive timely status updates via multiple channels such as phone, website, chat, mobile app, email, and social media.
- The Customer Engagement division will continue implementing Neighborly Software to include the Tree and Low Volume Irrigation Mini-Grant programs that Neighborhood Relations administers. The software eliminates extensive manual processes, improves accountability, and increases accuracy for grant applications, scoring, budget tracking, and auditing.
- The Customer Engagement division will simplify the tools County departments use to request sign posting services and partner with the Performance Data and Analytics department to create a dashboard. These initiatives will make it easier to plan sign posting projects, improve operational efficiency and accuracy, and will support cost effectiveness in decision making.

Innovation:

Customer Service & Support implemented Neighborly Software to streamline the Neighborhood Mini-Grant and Neighborhood Awards programs. The previous process was cumbersome and required detailed standard operating procedures to keep the programs running smoothly and the files organized. The new software allows staff to easily manage multiple grants and awards, and quickly perform previously burdensome tasks, such as cross referencing an approved budget to approve a grantee's reimbursement or purchase request. With this innovation, the accuracy of applications has improved, scoring the applications is easier, grant management tasks are simpler, and grantee documentation is saved in one platform.

Bay Port Colony was thrilled to be the inaugural recipient of the Hillsborough County Neighborhood of the Year Award for their Engaged Through Volunteerism submission.

Symphony Isles Master Association was awarded a Neighborhood Mini-Grant for their beach nourishment and volleyball project.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY 23, two positions were transferred to Communications & Digital Media Services.

OPERATING EXPENDITURES:

- The decrease in operating expenditures is primarily the result of a reorganization the department will no longer have indirect administrative cost assessments.

Cyber Security Services

(813) 272-5464

Cyber Security Services (CSS) protects and defends the County against cyberattacks, which can be very costly to the County and impact vital services to the residents. CSS actively looks for possible risks and threats, and establishes and maintains the organization’s cyber security vision, strategy, and program to protect information assets and technologies. The division publishes a monthly newsletter with tips and insights into cyber security issues to help employees understand that they are the best line of defense.

FY 22 and FY 23 Accomplishments:

- Education Initiatives: Designed to reinforce safe data handling practices and help employees understand their role in helping combat information security breaches.
- Account Initiatives: Improved the County’s security posture in key areas to increase accountability and reduce the impact of an incident.
- Participated in Polk State College’s Cybersecurity Analyst Apprenticeship Program to provide the County with an affordable, quality solution to upskill qualified employees with self-paced, online, and structured on-the-job cybersecurity training.

FY 24 and FY 25 Core Goals:

- Catalog the County’s technology vendors and identify risk reduction,

consolidation, and standardization opportunities. This will save the County money and improve the County’s security posture.

- Act as a business partner and internal consultancy. CSS aims to collaborate with departments to conceive of, design, and implement solutions that ensure security for the good of departments and, by extension, County residents.

FY 24 and FY 25 Key Projects:

- Enhance the County’s security posture and establish governance and policies for the future to ensure continuous improvement of the County’s technology security environment.

Innovation:

Registered the domain hcfl.gov. A .gov domain signals trust and credibility. It makes it easy for residents to recognize official communication.

Tales From the Dark Web

Credential Stuffing

You’ve heard about password leaks and how websites are compromised, exposing databases with millions of usernames and passwords. Malicious operators will buy lists of usernames and passwords from these breaches on the Dark Web and, using automated means, run them against popular websites such as PayPal or eBay, hoping that a user was using the same username and password on these sites. They also try these passwords to get into the County.

This is what is known as “credential stuffing”.

How can you protect yourself from credential stuffing? Easy!

Always use a different password on every account. If multifactor authentication (MFA) is available for the account, use it. MFA renders credential stuffing attacks useless, as the attacker does not have access to your authentication device.

Vac Attack!

If a loved one gave you a vacuum cleaner for Valentine’s Day, please don’t bring it to work

An alert is generated if someone connects an unapproved device to the County’s network. The Cyber Security team sees alerts for all sorts of devices, as you might expect but imagine our surprise when we found a “smart” vacuum cleaner trying to scan the network!

Cyber Security Services provides a monthly newsletter to increase employee awareness.

Development Services

(813) 272-5600 | [HCFLGov.net/Development](https://www.hcflgov.net/Development)

Development Services administers the Hillsborough County Land Development Code and provides planning, zoning, development review, permitting, and building inspection services for unincorporated areas of Hillsborough County. The department helps to ensure the prosperity of the county, as well as the safety of those who reside within its borders. The department reviews and processes rezoning requests and applications for other development orders. It also performs review and permitting of site development plans and proposed subdivisions of land to include the preservation of natural resources. Development Services administers and enforces the Florida Building Code, which includes issuance of building permits, inspection of permitted work, and administration of the impact fee program.

The customer service team for Development Services stands at the ready to assist clients with a variety of issues, including familiarization with the online permitting portal, HillsGovHub.

Development Services inspectors partner with construction professionals to ensure they meet minimum safety requirements to keep their projects on track.

FY 22 and FY 23

Accomplishments:

- Development Services conducted multiple public webinars providing real-time demonstrations of processes within the HillsGovHub portal. These webinars shared tips and best practices to avoid delays and pitfalls during the permitting/inspection/certificate of occupancy (CO) process.
- The department adjusted Natural Resource Code Enforcement processes by providing additional training to create more knowledgeable inspectors and streamlining communications between violators and inspectors. This has resulted in an increase in the rate of enforcement cases coming into compliance, allowing for enhanced protection of Hillsborough County's natural resources.
- Development Services revised rezoning application review procedures and submittal requirements to create a new application sufficiency review process. This revised process provides enhanced clarity in the application submittal requirements. It also provides quicker feedback on the formal application submittal to applicants. This improves communication, review quality, and timeliness.

FY 24 and FY 25

Core Goals:

- Development Services will enhance and expand HillsGovHub to incorporate remaining site, subdivision, and zoning operations. This will lead to more consistency between all processes in the department, allowing for added staff efficiencies via the use of a single touchpoint.
- The department will evaluate Land Development and Zoning Fees relative to service delivery costs. It will continue to analyze all departmental fees to ensure the continued level of service delivery expected by clients.
- Development Services seeks opportunities to increase accessibility and transparency for processes, data, records, and information for residents through continued web innovations.

FY 24 and FY 25

Key Projects:

- Development Services will complete the expansion of HillsGovHub to incorporate remaining site and subdivision processes. Implementing these processes will lead to more consistency between the land development and vertical building processes. It will reduce customer confusion, while also improving staff efficiency and review times due to no longer operating in two separate permitting systems.

Recent innovations in maps and dashboards help tell the visual story of development activity in unincorporated Hillsborough County.

- The department will develop the infrastructure needed to expand the usage of virtual inspections and increase the percentage of applicants utilizing virtual inspections rather than on-site inspections. Virtual inspections increase customer flexibility by allowing inspections to be completed by staff at any time, rather than during an on-site inspection during a specific timeframe.
- Development Services will establish a method to bring historical documents and records currently found in other databases into the HillsGovHub portal. This will streamline the research

process for the public and staff by providing one centralized records database containing both current and historical records.

Innovation:

In collaboration with Performance Data and Analytics (Geospatial Services), Development Services launched interactive dashboards and maps showing development activity within unincorporated Hillsborough County. These tools allow citizens to visualize permitting activity and additional project information, such as those requested for building permitting, site development, and subdivision development.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- One position was eliminated.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increases in contractual services, fleet related costs and indirect administrative costs.

CAPITAL AND OTHER EXPENDITURES:

- Continuation budget.

Economic Development

(813) 272-7232 | [HCFLGov.net/EconDev](https://www.HCFLGov.net/EconDev) | [HCFLGov.net/ECC](https://www.HCFLGov.net/ECC) | [HCFLGov.net/EDi2](https://www.HCFLGov.net/EDi2)

The Economic Development department takes a proactive, inclusive, and sustainable approach to supporting the 10 drivers of prosperity: competitive sites and redevelopment; technology and innovation; entrepreneurial and small business ecosystem; infrastructure; economic gateways; quality places; targeted industries; conventions, tourism, and sports; workforce and knowledge infrastructure; and competitive positioning. While the department engages directly in support of several of the drivers, many of the driver goals are achieved through interdepartmental teams, contractual relationships, and partnerships.

Hillsborough County's no-cost Self-Employment Workshop Program (SEWP) graduated nine students in 2022. The program provides in-depth business training to lower-income individuals who want to be self-employed.

FY 22 and FY 23 Accomplishments:

- Economic Development continues to foster the tech startup and innovation entrepreneurial ecosystem by hosting events, like the 2022 Annual Summit which creates a national stage for the most amazing rising, early-stage companies from coast to coast. The event brought over 60 venture capital funds and over 80 startups to compete for the Startup of the Year award.
- Economic Development, with its partner organizations, has provided 2,883 residents and students with hands-on training

and knowledge ranging from manufacturing and engineering technologies to video production and vocational training, among others. These programs will provide residents with meaningful educational and practical opportunities for a brighter career.

- The department's Entrepreneurial Services and Entrepreneur Collaborative Center (ECC) teams had a tremendous impact to small businesses with nearly 2,702 events, hosting over 20,000 attendees for workshops, one-on-one consulting, and other programs through the collaborative efforts of more than 100 community partnerships.

FY 24 and FY 25 Core Goals:

- Economic Development will work with its partners to bring meaningful workforce training programs and paid work experience to struggling residents, preparing them for and connecting them to in-demand job opportunities, providing upward mobility.
- The Economic Development department will advance, identify, and secure targeted industry development projects, in collaboration with partners such as the Tampa Bay Economic Development Council, to grow higher-wage job opportunities in targeted industries, increase capital investment, and diversify the tax base.
- The department will build a stronger, sustainable, and more equitable community through historic preservation, redevelopment, and cultural initiatives that leverage private sector investment, attract and retain targeted industry jobs and businesses in the community, and improve the aesthetics of the built environment.

FY 24 and FY 25 Key Projects:

- Economic Development will leverage the State of Florida's Florida Job Growth Grant Fund and other infrastructure grants to meet the infrastructure needs of our community. Through the use of these grants, the department's Redevelopment section will seek to promote job growth and the addition of future businesses

in Hillsborough County's Redevelopment Areas.

- Economic Development's Corporate Business Development section will seek to develop a program with the retained income from EPA's Brownfield Cleanup Revolving Loan Fund Grant to facilitate the cleanup of Hillsborough County's brownfield sites. This will lead to future development in areas, such as affordable housing or business creation in qualified targeted industries.
- The department will continue its momentum through engaging the private sector in meaningful redevelopment and competitive sites projects that result in targeted industry job growth. Through the use of an award-winning redevelopment tool kit, the department will leverage private investment in some of the most underutilized areas of the county to promote reuse.

Innovation:

The Economic Development Department with input from staff, non-profit partners, and awardees strategically updated and revised the Cultural Assets Commission's Special Events Grants Program to enhance efficiency and streamline the payment process which has resulted in a 50% increase of successful events completed.

Onward to Opportunity, an organization that serves active duty service members transitioning into the civilian workforce, hosts a quarterly program at the ECC. They assist with job placement at the end of the eight-day intense course.

Prospera hosted their annual Tech Academy program at the ECC. 38 Hispanic participants graduated from the 4-part intense program in 2022. A huge fertilizer tank is slated to be redeveloped into an office building.

A new 33,700 sf industrial space was constructed on vacant land in the Orient Road Industrial Park. The total capital investment for the project totaled more than \$3.5 million.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Number of announced jobs in assisted projects	7,708	6,888	7,000	7,500

Funded FTE Positions	34.00	27.00	28.00	28.00

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Position transfers between the Economic Development and Arts Council Division result in one fewer position.
- In FY24, two positions are established to address an increase in department responsibility for emergency disaster relief efforts and Historic Preservation efforts across the County.

OPERATING EXPENDITURES:

- The decrease in operating expenditures is primarily the result of the transfers of four UACDC programs from Economic Development budget to non-profit cost centers and indirect administrative costs.
- Additional changes in operating expenditures are the result of fluctuations in the funding for Florida Qualified Target Industries Tax Refund Program.

CAPITAL AND OTHER EXPENDITURES:

- Changes in grants and aids expenditures are primarily the result of fluctuations in current revenue projections and carryforward of the Cultural and Attraction Based Capital and Infrastructure expenditures from FY23.

Engineering & Operations

(813) 635-5400 | HCFLGov.net/PublicWorks

The Engineering & Operations department operates, maintains, manages, and engineers county roadway systems and rights of way to provide: 1) functional roads, sidewalks, and trails for safe travel, 2) stormwater systems to convey runoff and reduce flooding, and 3) mosquito management to protect public health. The department is responsible for maintaining more than 3,450 centerline miles of roadway, or 7,400 traffic-lane miles; 279 bridges; 1,400 miles of pipes; 1,224 miles of ditches; 41,545 drainage structures; 40 pump stations; 17 watersheds (1,244 square miles, 897 square miles in unincorporated Hillsborough County); more than 500 acres of wetland mitigation; 143 miles of channels; 570 traffic signals; more than 149,000 traffic signs; and over 16,000 mosquito production sites. The department operates from its main office in downtown Tampa and seven satellite facilities to provide timely response for transportation and stormwater maintenance.

FY 22 and FY 23 Accomplishments:

- Improved transportation safety and reliability for roadway travelers by: 1) completing over 2,500 traffic safety investigations and 3,100 safety reviews, 2) ordering over 67 miles of major road safety lighting, and 3) studying over 110 miles of school walking routes and 10 pedestrian corridor projects.

Placed eight new traffic signals into service and completed 3,170 signal repairs.

- Improved flood protection and awareness by completing over 1,465 investigations and work orders for 197 culvert projects, 42 structure/pipe repairs, 83,260 feet of ditches, and 37,902 feet of pipes. Developed 421 new flood protection capital projects and connected 20 stormwater

Cory Lake Boulevard was resurfaced, and the right of way was used to create a right-turn lane to reduce rear-end collisions and congestion.

pump stations with secure SCADA infrastructure network.

- Controlled mosquito-borne diseases by conducting multiple aerial larvicide missions, resulting in over 225,000 acre-days of larval control. Distributed over 11,000 extended control larvicide briquettes in catch basins located in highly urbanized areas. Distributed 17,200 mosquito fish to citizens at nine mosquito fish distribution and outreach events.

FY 24 and FY 25 Core Goals:

- Engineering & Operations aims to develop transportation and stormwater infrastructure projects for advancement to design and construction, thereby supporting the annual capital improvement program, improving safety and mobility, reducing vulnerability, and preserving transportation and stormwater infrastructure assets.
- Mosquito Management Services aims to continually expand the department's operations and productivity in the field, office, and through public education in order to better serve Hillsborough County citizens. The department's unit aims to increase efficiency, safety, and morale through communication and teamwork.
- Successfully report and maintain more than 75 new acres of newly created wetland mitigation near the Citrus Park and Paseo al Mar, and connect an additional 20 stormwater pump stations to the secure SCADA network.

FY 24 and FY 25 Key Projects:

- Continue to work toward reducing severe and fatal crashes through safety enhancements, such as school speed zone upgrades, low-cost safety retrofits, power outage emergency beacons, technological upgrades which includes smart traffic network, smart work zone initiative, connected vehicles, priority and preemption, and developing CIP projects for primary walking routes to schools.
- Engineering & Operations wants to focus on remote flood-monitoring system and web viewer to capture real-time flood stages in flood-sensitive areas across the county, the use of innovative methods to forecast flood stages based on local weather forecasts, and support effective community education and outreach initiatives.
- The department aims to roll-out the upgraded computerized maintenance management software, including training, SOPs, and reports to provide advanced spatial and data analytics tools for more efficient, data-driven labor, equipment, and material work planning.

Innovation:

Mosquito Management Services recently purchased and deployed specialized right-hand drive jeeps that allow for one inspector to drop a larvicide briquet into catch basins to continuously treat that water for 150 days. The Urban Larvicide Program focused larvicide treatment in urban neighborhoods to target popular mosquito breeding sites.

Top: Eastern Mosquito Fish, *Gambusia holbrooki*, are raised and distributed during peak mosquito season.

County engineers installed Supervisory Control and Data Acquisition (SCADA) to provide real time operations monitoring at a select few stormwater pump stations.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Conduct stormwater maintenance (linear feet), including ditch maintenance, pipe repair, and replacement	575,000	650,000	650,000	650,000
Localized roadway pavement repairs (lane miles)	14	13	13	13
Mosquito fish distributed	17,200	18,500	19,000	20,500
Catch basin larvicide treatments (briquettes).	11,188	25,000	30,000	35,000

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, nine positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments and utility expenses.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of a vehicle necessary for a new position.

Enterprise Program Management Office

(813) 274-6531

The Enterprise Program Management Office (EPMO) serves as an advisor by partnering with departments and external stakeholders to plan, manage, and deliver customer-centric solutions that transform government services through innovative consultative and project management services. The department's Technology Service Delivery Teams partner with other departments to establish technology roadmap solutions, in addition to implementing and supporting business applications and enterprise systems. The EPMO evaluates and prioritizes project requests, manages resources, and executes enterprise projects and programs via project management best practices to ensure alignment with County strategic outcomes and overall successful delivery.

EPMO partnered with Solid Waste to conduct testing prior to the implementation of credit card acceptance at Scale Houses.

FY 22 and FY 23

Accomplishments:

- Implemented a Capital Programs Delivery Solution for the Capital Programs and Water Resources departments to automate project scheduling, resource management, project data reporting, and project financial management. The platform reduces manual project efforts, automates processes, and enables data-driven decision-making using real-time, project data analytics.
- Implemented an Enterprise Payment Platform, which provides citizens and customers secure E-payment collections and processing services, in addition to expanding the acceptance of credit cards and electronic checks countywide. The solution centralized the refund process in alignment with County policy and automated enterprise financial reporting.
- Conducted an assessment to determine where internet connectivity disparities are present, develop an action plan to provide increased, equitable, and effective broadband internet service coverage throughout the county, and improve digital equity throughout the county. The Hillsborough County Broadband Program supports activities and initiatives of the State of Florida.

FY 24 and FY 25

Core Goals:

- Enhance Project and Program Portfolio Management (PPM) capabilities through the development and publication of demand and project management processes, guidelines, and policies. Implement a PPM solution to effectively track, manage, and communicate

enterprise project and program status, metrics, and portfolio investments.

- Innovate process-driven technology solutions to improve, digitize, and/or transform government services to modernize the customer experience, provide self-service options, and reduce wait times, in accordance with technology standards and cyber security requirements.
- Implement a modern enterprise Cloud-based Computerized Maintenance Management System (CMMS) to improve warehouse inventory management, work order management, data analytics and reporting, and asset condition and risk data assessments.

FY 24 and FY 25 Key Projects:

- Develop and implement a broadband expansion strategic plan, in partnership with the Florida Department of Economic Opportunity Office of Broadband, to expand high-speed internet service to underserved areas throughout the county, increase internet use knowledge, and establish community training programs by utilizing established federal and state funding sources.

HillsGovHub

HillsGovHub, a digital plans review and permitting solution, provides customers the ability to submit and process permit applications online.

- Expand site and subdivision, code enforcement, and zoning processes in HillsGovHub, and implement virtual building inspection capabilities, a mobile inspection application in the field to streamline processes, interdepartmental workflows, and improve customer experience by reducing turnaround times.
- Partner with Engineering & Operations and Water Resources departments to implement a modern Cloud-based asset management solution to replace the current on-premises legacy software. The new solution will bring improvements to warehouse inventory management, work order management, data analytics and reporting, asset condition, and risk data assessment.

Innovation:

Implemented HillsGovHub, a scalable cloud-based digital plans review and permitting solution, inclusive of inter-departmental workflows, automated customer email notifications, electronic collaborative plans review, and text to schedule or receive inspections results. The platform provides 24-hour online self-services, transparency, user friendly text capabilities, and secure PCI-compliant electronic payments. In addition, the platform digitizes paper processes, improving application turnaround times and enhancing the customer experience.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of implementation of software support systems.

Enterprise Solutions and Quality Assurance

(813) 272-6671

Enterprise Solutions & Quality Assurance (ESQA) supports the County's Enterprise Resource Planning (ERP), Human Capital Management (HCM) systems, and related data/software integrations. The ERP/HCM systems support transactions, processes, reporting, and informational dashboards required by core business activities including financial, procurement, and human resources. ESQA customers include internal business process owners, leadership, and employees within BOCC Departments and County Agencies. ESQA works in collaboration with Clerk of the Circuit Court staff who share use of the ERP/HCM systems. ESQA serves as an internal adviser providing guidance, training, and reporting/dashboard services for financial and administrative functions. ESQA serves as a centralized fiscal support provider for smaller departments.

FY 22 and FY 23 Accomplishments:

- A Kronos cybersecurity event during FY22, caused the County's timekeeping system to be unavailable for six weeks/three pay periods. ESQA executed their business continuity plan supporting BOCC departments and 12 agencies with guidance, templates, quality reviews, and functional/technical support to ensure more than 7,500 employees continued to get paid accurately and on-time.

- ESQA led a two year, multi-agency collaborative effort to modernize the ERP and HCM systems. Oracle Cloud went live in two phases beginning in October 2023. Oracle Cloud is highly secure; it is FedRAMP certified. The modernized system resulted in reduced software costs and avoided an additional costly re-implementation.
- 1095-Cs were available electronically for the first time to current and former employees,

which was phase one of ADP Health Compliance resulting in the timely printing/reporting of 1095-Cs/1094-C; avoiding costly fines to the County for non-compliance. Phase two is in progress and will result in daily updates to ADP thus resulting in enhanced, timely, and proactive processes.

FY 24 and FY 25 Core Goals:

- ESQA is working to improve processes and implement functionality to provide real time access to accurate payment information for leadership review. These efforts, after an ERP upgrade, focus on stabilization and will ensure system reliability, efficiency, and transparency to enhance end-user productivity for County staff in the delivery of core services to citizens.
- ESQA will enhance all existing Oracle training offerings, in addition to developing new training to support end users in the new Cloud environment. New functionalities available in Oracle Cloud will allow the deployment

ESQA Management team discussing Oracle Cloud implementation and stabilization status.

of on-demand training to support business processes, utilize Oracle Guided Learning, and deliver more robust and timely reporting.

- BOCC and Clerk teams are working together to reduce vendor payment times and increase accuracy with employee payroll. The teams will increase use of automation and reporting, improve communication, and provide timely access to information. Payroll reviews include union contract and benefit changes, merit increases, miscellaneous time/pay rate changes, and absence accrual plans.

FY 24 and FY 25 Key Projects:

- ESQA is managing a project to ensure the ERP's Sourcing Module is configured to meet the Procurement Department's requirements to deliver functionality for internal users and suppliers. Implementation is scheduled to begin in FY 2024 and will result in streamlined procurements, accurate and timely reporting, and elimination of costs for a third-party software system.
- Partnering with Human Resources, ESQA will lead a project to implement Performance

Management functionality by configuring HCM Cloud and providing testing and training. Integrated with HR modules already implemented, the roll-out will replace a custom-built and internally maintained application, increasing efficiency, and taking advantage of HCM Cloud integrations and report.

- ESQA will reconfigure a benefits package in Cloud HCM resulting from a Benefits solicitation (RFP) scheduled for submission by Human Resources. This project will include reconfigurations to employee self-service, benefit provider interfaces, technical customizations, and reporting. Additionally, a new Benefits Open Enrollment will need to be configured and implemented.

Innovation:

In partnership with the IT department and other agencies, with the launch of Oracle Cloud ERP, Single Sign-On was implemented with the County's active directory and multi-factor authentication, providing secure, web-based and mobile-capable access. The new quarterly update schedule keeps the system abreast with latest patches for security vulnerabilities and newer functionalities.

The County implemented Intelligent Document Recognition (IDR) in November 2022 through the Oracle Cloud, ERP Modernization project. This functionality dramatically reduces manual entry of invoice information, improving accuracy and efficiency in the processing of supplier (AP) invoices - enabling the reduction of payment processing times; and provides real-time visibility to leadership and suppliers throughout the process.

Gillian Kilbride developing reports through Oracle Business Intelligence for use throughout the County.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, four positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of higher professional services and general liability insurance assessments costs.

GRANTS AND AIDS:

- Changes in grants and aids expenditures are primarily the result of fluctuations in grant appropriations.

Environmental Services

(813) 209-3073

The Environmental Services division supports multiple departments in meeting their regulatory compliance mandates. These are often required by state- or federally issued permits or set by board policy. Some of the many regulatory activities supported by the division include potable water and wastewater treatment, the disposal of solid waste, and surface water quality monitoring and compliance. The division's certified environmental laboratory provides state-of-the-art testing for the County's water and wastewater systems, and it supports compliance and monitoring testing for other solid waste, stormwater, and regulatory permit oversight programs. Additionally, the division oversees compliance with the County's National Pollutant Discharge Elimination System (NPDES) stormwater permit, and it provides environmental community outreach and customer programs for water conservation, stormwater protection, and the prevention of wastewater system blockages from fats, oils, grease, wipes, and other items that shouldn't be flushed. As part of a long-term initiative to ensure the stability of critical County services, the division manages innovation and resiliency objectives for County operations and the Local Mitigation Strategy, a unified multi-jurisdictional mitigation planning process for Hillsborough County, which provides coordination and partnership among governmental units, commercial enterprises (industry partners), and resident groups.

FY 22 and FY 23

Accomplishments:

- The division's environmental laboratory continues to ensure safe, clean drinking water for Hillsborough County residents. Laboratory staff working in coordination with multiple departments collected, analyzed, and reported over 75,000 samples.
- The County received additional certifications from the National

Environmental Laboratory Accreditation Program to perform testing on water and wastewater samples. This certification allows the County to complete more in-house testing. This allows for better quality assurance/quality control, as well as reduces costs.

- Environmental Services assisted departments and the three cities within the County in obtaining over \$8,000,000 in grants for Hazard Mitigation Projects.

FY 24 and FY 25

Core Goals:

- Propose for adoption by the Board of County Commissioners policies recommended in the Tampa Bay Regional Planning Council's Regional Resiliency Action Plan. The intent of the document is to offer model policies for local governments that will provide for resiliency in terms of sea level rise and potential impacts from climate change.
- Review and revise existing County requirements for reclamation of mined land. The science of reclamation ecology has expanded considerably since the County's reclamation manual was written. It is staff's intent to improve the requirements so that reclaimed lands are more sustainable and ecologically viable.
- Develop new public education and outreach messages and strategies for water conservation, fats, oils and grease reduction, and stormwater quality improvement programs. The division will continue evaluation and adaptation of new virtual resources deployed to reach residents and businesses during the pandemic. These programs have historically saved water and protected County infrastructure.

FY 24 and FY 25

Key Projects:

- Complete revisions to the County's reclamation manual for mined lands. The manual will be based on researchers' better understanding of natural systems and the interrelated factors that make up these complex systems.
- Environmental Services, in conjunction with Water Resources, is a member of Tampa Bay

Water's Water Wise Program. This project is actively working to reduce potable water use in the region. Water is a limited resource, and County staff is working with regional partners to conserve and protect it.

Innovation:

Environmental Services is completing a study using drones, coupled with advance multispectral-band photography, to identify native and non-native plant species. If successful, the technology would significantly reduce field time for staff. The technology also could improve the County's ability to remove non-native vegetation, assist field efforts, and improve safety, allowing staff to avoid entering wetlands or areas with dense vegetation.

A floating wetland treatment system is installed in a South County stormwater pond.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Environmental Laboratory will continue to track the number of analytical tests completed each month.	6,819 per month	6,000 per month	6,000 per month	6,000 per month
Environmental Services will complete regulatory actions that include assisting Water Resources and Solid Waste Services with regulatory compliance	368 per month	300 per month	300 per month	300 per month
Environmental Services will continue to perform federal- and state-required monitoring of the County's stormwater management systems. These actions include water quality sampling and inspections.	61 per month	100 per month	100 per month	100 per month

Environmental Services Division

Appropriations	FY22 Actual	FY23 Adopted	FY24 Adopted	FY25 Planned

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, five positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of higher contract and minor equipment costs.

CAPITAL AND OTHER EXPENDITURES:

- Capital outlay reflects funding for new and replacement equipment.

Extension Service

(813) 744-5519 | HCFLGov.net/Extension

Hillsborough County Extension Service (UF/IFAS Site): Hillsborough.ifas.ufl.edu

University of Florida Institute of Food and Agricultural Sciences: ifas.ufl.edu

UF/IFAS Extension: SolutionsForYourLife.ufl.edu

Hillsborough County Extension Service is a partnership of Hillsborough County government and the University of Florida Institute of Food and Agricultural Sciences. The objectives of Extension Service are to strengthen communities, sustain agriculture and natural resources, promote healthy families and individuals, and enhance personal and community quality of life. The Extension Service accomplishes these objectives with practical, research-based education in agriculture and natural resources, urban and commercial horticulture, family and consumer sciences, and 4-H youth development. These resources are available to all Hillsborough County residents.

FY 22 and FY 23 Accomplishments:

- In 2022, the Hillsborough County Extension Service provided 72,181 educational contacts engaging county residents to improve their lives and communities through research-based educational programming from the University of Florida for individuals, families, businesses, and organizations.
- The application of practices or recommendations learned and professional certifications earned through Extension Service provided an estimated economic value of \$19,011,073 to participants in 2022.
- Water conservation educational programs such as Florida Friendly Landscaping, Water Wise, and Rain Barrel Water Harvesting resulted in an estimated annual water savings of 129,252,068 gallons.

FY 24 and FY 25 Core Goals:

- To measure the effectiveness of Extension Service educational programs. The organization will determine the percentage of program participants who indicate an increase in knowledge or improved quality of life as a result of Extension programs.
- Extension Service education programs will provide economic value to customers based on their application of practices or recommendations learned from those programs.
- Extension shall leverage the use of trained volunteers to enhance the capacity to carry out the department's mission, which is to educate and improve the lives of Hillsborough County residents through Extension Service programs.

Extension improves the competitiveness of the production agriculture industry in Hillsborough County by providing research-based technical and educational resources.

FY 24 and FY 25 Key Projects:

- While many people recognize the 4-H and agricultural program components of Extension Service, the department has much more to offer residents. Staff will work closely with the County's Communications staff and the University of Florida Institute of Food and Agricultural Sciences to market available services.
- Extension Service will continue to collaborate with and provide services to other County departments. Examples include providing workshops through

Nutrition education programs teach healthy eating habits, resulting in improved lifestyle and food cost savings.

Below: Extension Service teaches the principles of Florida-Friendly Landscaping to conserve water, reduce waste and pollution, create wildlife habitat, and prevent erosion.

the County Wellness Program, Green Industry Best Management Practices training to County landscape maintenance crews, and horticulture programming for Hillsborough County Libraries.

- Staff will collaborate with other County departments to determine if Extension Service educational programs and University of Florida resources could provide benefits to other County departments and their customers.

Facilities Management & Real Estate Services

(813) 272-5810 | HCFLGov.net/REFS

The Facilities Management & Real Estate Services (FMRES) department provides a full range of services, including facility maintenance, custodial, parking, energy programs, security, leasing, major building repairs, and property management for Hillsborough County-owned facilities for all Board of County Commissioner (BOCC) departments, agencies, Courts, Constitutional Officers, and 501c3 nonprofit partners. In addition, the department manages the County's surplus assets and performs records management. The Real Estate Division in the department is full-service and provides all technical and transactional support for County departments and agencies. The department has been certified by the national American Public Works Association (APWA) since 2014.

R3M installed a 122kW solar panel system on the roof of the Cooperative Extension Office for continued sustainability efforts.

FY 22 and FY 23 Accomplishments:

- Repair, Renovation, Replacement and Maintenance (R3M) installed a 122kW solar panel system on the roof of the Cooperative Extension Office for continued sustainability efforts. Over the past three years, this brings a total of 2,035 kW (2MW) of solar energy capacity, an estimated total savings of \$173,585 in utilities and about 1.5 MT of CO2 saved from reaching the environment.
- Real Estate completed the acquisition of the right-of-way necessary for seven Capital Programs department projects and one Water Resources department project that will significantly reduce vehicle and pedestrian accidents. The team also supported Conservation & Environmental Lands Management (CELM) in acquiring 104 acres within the Alafia North Prong and Bahia Beach Coastal Preserves.
- FMRES plays a vital role in Emergency Management shelter generator preparedness.

Preparations include load bank tests and physical assessment of the generators, allowing a quick transfer of utility power to generator power, if needed. During Hurricane Ian, FMRES was able to supply emergency generators for six special needs and 34 general population shelters in 72 to 96 hours.

FY 24 and FY 25 Core Goals:

- Ensure the County's facilities and related assets are properly maintained and operational for staff and for effective, efficient, and enhanced service delivery to the residents of Hillsborough County. Proper care of facilities extends their life, thus helping to keep costs down for taxpayers.
- Implement and facilitate throughout the County options that allow departments and partners in County facilities to efficiently utilize allocated space safely, securely, and sustainably.
- Ensure on-time and within-budget delivery of services and projects in order to address the needs and expectations of County government staff and the community. Provide real property services to the County departments, partners, and others as required on time and in an efficient matter.

FY 24 and FY 25 Key Projects:

- Operations and Maintenance will install electric vehicle chargers at seven sites to support the Fleet Management purchase of 13 electric vehicles. Each electric vehicle is estimated to operate 20,000 miles annually. During fuel

shortages or extreme emergency conditions, these EV chargers can be powered by generators, which will allow vehicles to continue to operate.

- Complete the land exchange agreement with Tampa Bay Water for a 27.4-acre site on Columbus Drive directly opposite the Public Safety Operations Center. Part of the site will be used for a new Emergency Management warehouse, improving the public safety response in all areas, including the rapid activation of over 56 shelters during a major storm emergency.
- R3M will focus on high-priority HVAC projects, including redesigning the Medical

Examiners' HVAC system to reduce energy consumption as part of its scheduled life cycle replacement. Major scheduled maintenance and replacement of aging components will be performed on the downtown central energy chiller plant.

Innovation:

FMRES continues to focus on the safety and security of County-owned buildings and property. A countywide CCTV system was created to connect all CCTV systems into one user interface for optimum access and management, combining cloud-based and on-premises video into a single, secure environment. This enables security and operational

managers to view sites to assess security concerns remotely. The project includes working with the Hillsborough County Sheriff's Office (HCSO) to grant access to the County Center CCTV through their Fusus platform for emergencies. The team also conducted a successful pilot for the mobile CCTV trailers deployed to County sites experiencing security issues, as well as after Hurricane Ian. Additionally, FMRES initiated specialized training for the County Center security team to identify suspicious individual indicators and prevent attacks.

Sheriff's deputies monitor closed-circuit TV in County Center.

R3M replaced the tennis courts with a new multipurpose court at Town & Country Park as part of lifecycle replacement.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Keep costs to operate facilities (cleaning, maintenance, utilities, security) equal or less than annual International Facility Management Association (IFMA) industry standard of \$10.65 per square foot.	\$7.11 per square foot	Equal to or less than annual IFMA industry standard of \$10.65/SF.	Equal to or less than annual IFMA industry standard of \$10.65/SF.	Equal to or less than annual IFMA industry standard of \$10.65/SF.
Maintain a good Facility Condition Index (FCI). The goal is to stay below 0.05, which is good. Anything above 0.1 is poor.	0.04	0.05	0.05	0.05
Services satisfaction index: Obtain a goal of 3 out of 5, or meets customer expectations.	Obtained a 4.74 customer service satisfaction rating.	Obtain a goal of 3.75 out of 5, or meets customer expectations.	Obtain a goal of 3.75 out of 5, or meets customer expectations.	Obtain a goal of 3.75 out of 5, or meets customer expectations.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Position transfers between Environmental Services and Capital Programs result in three fewer positions.
- In FY24, one position was established to provide dedicated management of the County's security system.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments, electricity, and increased contractual costs related to lawn maintenance, janitorial and security services.

CAPITAL AND OTHER EXPENDITURES:

- The decrease in capital expenditures is primarily the result of purchases requiring one-time funding being completed.

Hillsborough County Fire Rescue

(813) 272-6600 | HCFLGov.net/FireRescue

Hillsborough County Fire Rescue (HCFR) preserves and protects life and property by providing quality, timely emergency services and by enhancing public safety through public education, fire prevention, and emergency planning. It is the largest fire rescue department on the West Coast of Florida, and the fourth largest in the state. Personnel responded to more than 139,000 emergency calls last year from 46 fire rescue stations in the unincorporated areas of Hillsborough County. The response area of 909 square miles includes residential and commercial properties in dense urban, urban, suburban, and rural areas. Fire Rescue provides fire suppression, advanced life support, ambulance transport, vehicle extrication, hazardous materials response, technical rescue, fire and life safety inspections, construction plan review, public education, emergency dispatch services, and emergency management operations.

Fire Rescue opens Fire Station #45 in Central Brandon.

Fire Rescue provides EV charging stations.

FY 22 and FY 23

Accomplishments:

- Station alerting system was completed and will improve dispatch alerting time, decrease response times, increase successful rescues of citizens, and reduce property damage due to fire. The new innovative design will also help reduce stress on firefighters by utilizing clear automated language simultaneously with ramp-up tones and lighting in firehouses.
- The department completed construction and opened two new operational stations in modern permanent structures. Apollo Beach station was completed providing enhanced response capabilities. HCFR placed two additional rescue ambulances in service. Additionally, the department expanded the capabilities of the fleet assets with more versatility, which provides a more rapid and efficient emergency response.
- Initiated and delivered professional leadership development to over 90% of promoted officers. This training delivered by senior staff members and managers provided insight into the daily operation of Fire Rescue and included a behind-the-scenes look at how and why leadership decisions are made.

FY 24 and FY 25

Core Goals:

- Continue to remain fiscally responsible by managing expenditures and increasing collections for inspections and ambulance fees. Continue to leverage the State program, which allows for additional cost recovery for ambulance transports, and Federal and

State grants to fund personnel, equipment, and programs.

- Update and implement Fire Rescue’s Master Plan, which includes the addition of over 20 new stations. The Master Plan projects current and future facility needs from 2024 to 2034, identifying and prioritizing new fire station demands to support the current and projected populations of unincorporated Hillsborough County.
- Emergency Management will continue to enhance operational effectiveness and improve the delivery of Emergency Management services to a more diverse, at-risk population. To address the growing public safety needs of County residents, consolidation and implementation of a logistics and inventory management solution is required.

FY 24 and FY 25 Key Projects:

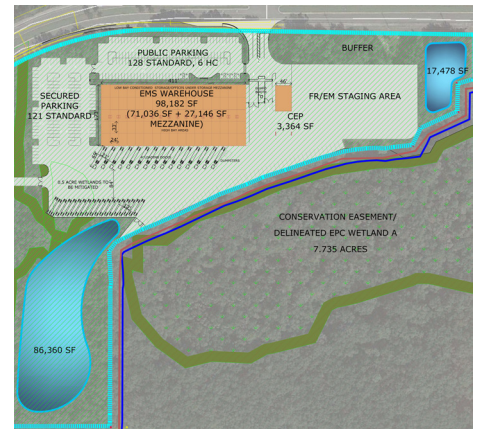

- Partnering with Traffic Management in procuring a traffic signal priority and

preemption system. The system will proactively clear traffic at intersections, allowing Fire Rescue vehicles to respond quickly and efficiently in a safer manner. The technology will reduce response times to emergencies in Hillsborough County.

- Develop and implement a comprehensive warehouse solution that will support efficient and effective logistical support of Emergency Management activities and public safety operations in the event of a disaster.
- (American Rescue Plan Act) ARPA funds of \$18 million have been designated to rebuild three outdated stations, each over 50 years old.

Innovation:

Deploying EV technology in Fire Rescue fleet to enhance sustainability with quieter, cleaner, and greener vehicles. These vehicles reduce carbon emissions, minimize fuel consumption, and produce less noise. Charging stations have been installed in five locations.

Fire Rescue provides plans for a new warehouse site.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Twenty-four positions are added for the new Progress Village South fire station.
- Three additional part-time Telecommunicator positions are added.
- Two additional positions are added for Emergency Management.
- Position transfers between Fire Rescue and Information Technology result in one fewer position.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily related to an increase in insurance assessments, fuel, fleet vehicle rental cost, additional operating needs, and operating expenditures for the new Progress Village South fire station.

CAPITAL AND OTHER EXPENDITURES:

- Capital outlay includes funding for a new rescue unit.
- The decrease in capital expenditures is primarily the result of one-time funding for equipment purchases in FY23.

Fleet Management

(813) 744-5580 | HCFLGov.net/Fleet

Fleet Management provides the core services of: 1) asset management, 2) fuels management, and 3) policy development for a county fleet of 3,380 vehicle and equipment assets valued in excess of \$193 million supporting 30 BOCC departments, County constitutional offices, and various non-County and State of Florida agencies. The department provides certified professionals to maintain and manage assets in a condition that: 1) optimizes replacement cycles, 2) enhances efficient operations, and 3) creates a safe work environment. Fleet provides best value support to County customers by focusing on quality services, timely support, and optimizing total costs of ownership. The department's core values include customer commitment, teamwork, organizational excellence, mutual respect, and integrity.

FY 22 and FY 23 Accomplishments:

- Fleet was awarded #2 Fleet in North America for 2022. Annually, over 34,000 fleets are eligible to compete in the "100 Best Fleets" competition that is sponsored by the National Association of Fleet Administrators. The competition is judged based on 12 criteria for excellence, all of which encompass the qualities of a high-performing fleet.
- The department earned the National Institute for Automotive Service Excellence (ASE) Blue Seal distinction for 2022 by ensuring at least 75% of assigned technicians were ASE certified. Additionally, the department ensured that each service area had an ASE certified technician and certified emergency vehicle technician assigned.
- Fleet achieved national re-accreditation from the American Public Works Association for meeting industry standards in 185 measured areas to include strategic planning, finance,

maintenance, safety, emergency management, asset management, and environmental management. This distinction is held by less than 10% of public fleets in America.

FY 24 and FY 25 Core Goals:

- Achieve a 92% or higher availability rate for Fire Recue apparatus, heavy truck/heavy equipment, and 95% for automotive/light trucks. This ensures County customers have sufficient resources to support their core duties. Fleet uses Lean Six Sigma principles to help achieve these rates by improving processes, reducing waste, and enhancing repair capacity.
- Achieve a 25% or higher return of sale for surplus sedans, light/medium trucks, vans, and SUVs by proper pre-auction preparation actions and maintaining a reliable fleet that drives aftermarket demand. This outcome helps the County maintain a financially strong replacement fund and

Fleet Technician Okungbowa repairs ambulance door.

demonstrates the desirability of County assets to aftermarket customers.

- Achieve an 80% or higher technician productivity rating as compared to an industry standard of 75%. Productivity measures the amount of time a technician is directly supporting vehicle repairs versus indirect functions, such as training, holidays, and vacation. Higher productivity ratings increase the department's capacity to support customer requirements.

FY 24 and FY 25 Key Projects:

- Fleet will support the upgrade of its vehicle management information software system in order to improve database reliability, decrease processing time, and provide additional customer features. One feature of interest is on-line scheduling for vehicle repairs that will provide customers more flexibility to meet their internal workload schedules.

- Fleet will evaluate maintenance, repair, and customer support processes and procedures using Lean Six Sigma principles to improve overall effectiveness and efficiency. These actions can lead to a reduction in repair charges, reduction in asset down time, enhanced safety, higher technician productivity rates, and higher customer satisfaction.
- Fleet will complete the relocation into a new repair and fuel site for the department's West County Satellite customer location in mid-calendar year 2023. The new interior four-bay maintenance facility will improve daily and contingency responsiveness to countywide customers while increasing fuel capacity by 26,000 gallons.

Innovation:

Fleet focuses on exceeding customer's requirements by providing 1) timely service, 2) affordable service, and 3) quality service in support of the department's core functions of asset management, fuels management, and policy development. Through work force empowerment, the department continued to make quality of life, infrastructure, and process improvements to increase efficiency of operations while supporting over 80,000 repair jobs, issuing over 58,000 parts, and providing over 2.4 million gallons of fuel. One example of Fleet's innovation was the ability to effectively respond to Hurricane Ian (Sept. 2022, Major Category 4 Hurricane) customer needs by topping off fuel tanks, dispersing assets, repairing priority assets, stocking up on supplies, etc.

Fleet Central Technician Team pose in front of new Wall of Fame.

Fleet Technicians Topping and Perea install truck belt.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY 24, two positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditure is primarily the result of vehicle maintenance parts, fuel, and insurance assessments.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of vehicles for replacement, new fleet assets, fuel tanks, fuel monitoring hardware and software, and EV charging stations.

Government Relations & Strategic Services

(813) 276-2640

Government Relations & Strategic Services provides an array of important functions to the citizens of Hillsborough County, from advocating for state and federal resources that benefit the community to ensuring compliance with key civil rights protections, oversight of strategic operational functions and projects, and administration of citizen-led boards and councils.

FY 22 and FY 23 Accomplishments:

- Successfully advocated for needed resources at the state and federal government levels for community essentials, while protecting home rule authority and flexibility.
- Led the implementation of significant operational improvements to ensure greater quality service delivery to internal clients and the broader community.
- Enhanced investigative services capacity and capabilities to better serve clients and uphold vital civil rights protections.

FY 24 and FY 25 Core Goals:

- Further enhance government advocacy efforts to better provide for community needs and services.
- Improve strategic service offerings that strengthen collaboration with County service teams, resulting in improved outcomes.
- Enhance communication and interaction with communities and constituencies to share ideas and better understand needs.

FY 24 and FY 25 Key Projects:

- Continuous and comprehensive examination of GRSS services to ensure alignment with strategic goals and performance delivery in the most effective and efficient manner.
- Successful implementation of identified priority projects to meet community needs.

Innovation:

GRSS developed key solutions to enhance internal processes that resulted in greater efficiencies and cost savings, and improved access to services for Hillsborough County residents.

Head Start

(813) 272-5140 | HCFLGov.net/HeadStart

Hillsborough County's Head Start/Early Head Start programs provide early childhood development services and education, and medical, dental, mental health, nutrition, and parental involvement/engagement opportunities for families to contribute to the development of their children. The program also provides family support services for men, women, and expectant mothers. The program targets low-income families with children from birth through age 5, including those with special needs. Children are screened using various assessment tools to determine their overall level of development and make ongoing assessments to monitor each child's progress. Each child is provided with experiences that will maximize his or her development. Residual effects of the COVID-19 pandemic continues to impact the program as the program adjusts its strategies and approaches to meet enrollment mandates and respond to nationwide labor and contractor shortages.

FY 22 and FY 23 Accomplishments:

- Improved and maintained technology-driven family engagement strategies in response to COVID 19. These strategies allowed the department to maintain communication with children and families, constantly assessing and responding to their needs throughout the crisis. Over 600 computers were purchased by Hillsborough County Board of County Commissioners' Head Start department and its sub-recipient partners.
- Achieved 85% completion of construction project to add two new Head Start and two new Early Head Start classrooms. The program continued with major upgrades to the playgrounds and green areas of the properties to improve the learning environment and the general appearance.

- Upgraded the education curriculum for both Head Start and Early Head Start, changing from Creative Curriculum to Frog Street. This offers improved transition between Early Head Start and Head Start and better alignment with Head Start Early Learning Outcomes Framework. Successfully implemented an online parenting curriculum (ReadyRosi).

FY 24 and FY 25 Core Goals:

- Hillsborough County Head Start/Early Head Start (Hillsborough One) will be recognized among the nation's leading early childhood education services providers, developing the social and emotional skills of the program's children and families to ensure their transition to the elementary school system, ready to learn, and attain self-reliance and community prosperity.

- Hillsborough One will develop and maintain high-quality learning environments and facilities that will serve as models for all Head Start programs nationally, and will ensure that service sites are strategically located in geographic areas of the county that are easily accessible to the children and families who need them.
- Hillsborough One will implement core business strategies that will support industry-leading administrative, fiscal, and technology-driven systems that will track and ensure outcomes and accountability to all stakeholders.

FY 24 and FY 25 Key Projects:

- Establish partnership with BayCare Health Systems with the primary goal of improving coverage and statistical outcomes on Health Care assessments and services for children and families, and establish a new interlocal agreement with Hillsborough Community College. This will provide additional mental health support for teachers and children.
- Construct a new \$3.8m high-tech facility to serve 60 Head Start and 16 Early Head Start children, and continue major upgrades to the playgrounds and green areas of the properties to improve the learning environment and the general appearance.

Innovation:

With increased focus on mental health, the department is in the process of establishing stronger relationships with area hospitals. These agreements will assist the program in improving its reach and ensure that the County provides mental health and other general health services to a larger number of children and families. This effort is especially important as the department continues to design program strategies and responses toward the impact of COVID.

Health Care Services

(813) 272-5040 | HCFLGov.net/HealthCare

Health Care Services (HCS) manages the Hillsborough County Health Care Plan (HCHCP), the Ryan White Program, the Health Care Responsibility Act, the Trauma Agency, and the Medicaid Match for Hillsborough County. Functions of the department include: a specialized customer call center, provider-relations responsibility for four contracted medical service organizations, 13 hospitals that also contract with about 2,500 specialists, and a host of other providers of primary, specialty, and other services to Hillsborough County Health Care Plan members and Ryan White Program clients. The department manages and provides oversight of vendors who perform reviews of services and pay health care claims for the plan. Health Care Services certifies eligibility for both the Hillsborough County Health Care Plan and the Ryan White Program, and conducts enrollments and re-enrollments for both.

FY 22 and FY 23 Accomplishments:

- Through a collaboration with participating hospitals/hospital systems, two federally qualified health care centers, specialty providers, and ancillary providers/services, Hillsborough County provided an estimated \$102 million in funding to these local entities. This increased local health care treatment funding not covered by the Affordable Care Act or other payers.
- The department's FY 22 costs per member per month (PMPM) were 67% lower than the Centers for Medicare & Medicaid Services (CMS)-reported projections for National Health Expenditures. CMS projection results were \$1,132 per person per month, while the department's per member per month was \$374.
- By utilizing the services of a Patient Assistance Program (PAP), the department was able to save the Indigent Trust Fund \$18.3 million

that would otherwise have been needed to pay for pharmaceuticals for HCHCP clients. PAP is an innovative and cost-effective program providing substantial cost savings for the department and Hillsborough County taxpayers.

FY 24 and FY 25 Core Goals:

- Through a partnership with internal/external stakeholders, the department wants to increase membership and utilization of the Hillsborough County Health Care Plan through a robust education and outreach effort to inform the community of available resources, services provided, eligibility requirements, application process, and program benefits to overall well-being.
- The department and its stakeholders will impact opioid use and overdoses in Hillsborough County through continued efforts expanding behavioral health parity and address the opioid epidemic using existing funding

and opioid settlement dollars. HCS, in coordination with all provider stakeholders, Central Florida Behavioral Health Network, and State will add needed services.

- Continue public/private partnerships to expand the utilization of Social Determinants of Health (SDoH) at primary care health clinics to ensure we maintain a holistic approach to health care and health systems. SDoH delivers effective and efficient tools that provide the needed aid for individuals to become self-sufficient and have better health outcomes.

FY 24 and FY 25 Key Projects:

- The department, through the Behavioral Health Task Force, Health Care Advisory Board, and Board of County Commissioners, will make major program and funding decisions related to received opioid settlement dollars. This funding will provide education, prevention, treatment, and recovery services to abate the opioid epidemic through behavioral health and health services.
- The department and its stakeholders continue the development for a community-based, 85 bed jail step-down treatment facility located at 1800 Orient Road. This

Health Care Services Healthy Living Center provides healthy options for the Wimauma community.

program will hopefully reduce health associated readmission rates to various services, criminal justice costs, provide an economic impact through gained employment, and a reduction in overutilization of community resources.

- The department will initiate the process for three major procurements during this period. Final outcomes of these processes will determine the providers for primary care services, pharmacy services, and oral surgery services. Each will impact the County’s reimbursement costs, scope of services provided, and the continuity of care to members, as well as current providers.

Innovation:

The department and its stakeholders reviewed the system of care for opportunities to better assist HCHCP participants during the ongoing pandemic. Continued limited physical access provided an opportunity to expand telehealth services, which served over 3,300 members, a 10% increase over the previous year. Ten different providers afforded the participants greater access to primary care, specialty care, and behavioral health services. The Health Care Services department also implemented innovative virtual health and wellness programming in its Healthy Living program, serving over 4,400 participants who attended online exercise classes and 350 individuals who attended various educational classes.

Health Care Services begins a private/public partnership with Wimauma Suncoast Community Health Center, Hillsborough County Aging Services Senior Center, and Health Care Services Healthy Living Center.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily due to increases in required contractual administrative services.

CAPITAL AND OTHER EXPENDITURES:

- Changes in grants and aids expenditures is the result of increased appropriations related to the development of the Hospital Directed Payment Program.

Homeless & Community Services

(813) 274-6834 | HCFLGov.net/HomelessServices

Homeless & Community Services coordinates County and community resources to implement best practices and models that reduce and end homelessness, and manages special outreach initiatives to support community stabilization.

Hyde Park United Methodist Church manages Cold Weather Shelter over the winter holidays.

Community leaders and volunteers celebrate at the Community Food Pantry of New Tampa ribbon cutting.

FY 22 and FY 23

Accomplishments:

- Managed contracts that provided emergency bridge housing, case management, and supportive services to 2,315 individuals.
- Participated in a multi-sector collaboration, resulting in a 4% decrease in the number of unsheltered residents facing homelessness in Hillsborough County.
- Managed food contracts with multiple community partners by utilizing American Rescue Plan Funds of nearly \$10M, which supported food-relief efforts that provided 2.7M meals to individuals experiencing food insecurity in the community.

FY 24 and FY 25

Core Goals:

- Reduce the unsheltered homeless population by 5% in FY 24 and another 5% again in FY 25.
- Reduce the chronically homeless population by 5% in FY 24 and additional 5% in FY 25.
- Preserve and increase affordable housing stock while identifying opportunities to include set asides for homeless population.

FY 24 and FY 25

Key Projects:

- Collaborate with Tampa/ Hillsborough County Continuum of Care to address homelessness by providing housing opportunities to 560 unsheltered homeless individuals through the 560 and Beyond Plan. The plan simultaneously addresses the lack of affordable

housing, poverty, mental illness, unemployment, low wages, and substance abuse through ten multi-sector targeted initiatives.

- Collaborate with internal and external partners to streamline resources in support of the system of service to make homelessness rare, brief, and non-recurring.
- Manage federal, state, and local resources to support residents and community partners that were economically affected by the affordable housing crisis, coupled with the increase in the cost-of-living.

Innovation:

Managing the Cold Weather Shelter (CWS) Program is an initiative the department has coordinated since 2014. The CWS Program is a community led effort, providing temporary shelter for the county's most vulnerable population when the temperature including wind chill dips to 40 degrees or lower between 6 p.m. and 6 a.m. The sheltering sites provide temporary housing, food, and blankets not only for the

Volunteers at the Downtown/Hyde Park deployment site get their morning briefing before heading out on their shift with the Point-in-Time (PIT) Count.

unsheltered homeless population, but also for persons who live in homes without adequate heat. Since FY22, five new community partners, totaling six new sites were recruited, nearly tripling capacity. The expansion enabled the department to increase capacity by close to 300

individuals in congregate shelters and 100 individuals/families in non-congregate shelters (motels). The department's goal is to continue to network and expand the program, until temporary sheltering sites are registered throughout the entire county.

Human Resources

(813) 272-5130

Human Resources provides holistic and innovative human resources solutions to attract, develop, and engage a diverse and high-performing workforce driven to improve the everyday life of Hillsborough County residents. The department embraces the County's strategic mission to create community prosperity by pursuing business relationships, building the team, engaging employees, promoting quality and effectiveness, embracing technology and innovation, and expanding the department's total rewards programs. Human Resources is committed to a culture and vision of great people, a great place, and unlimited possibilities.

Every year, Human Resources partners with Parks & Recreation to onboard about 100 temporary summer hires to help fulfill the busy summer season of activities.

FY 22 and FY 23 Accomplishments:

- Implemented a Paid Time Off model in October 2022 to offer employees greater flexibility to choose a personal time off without the need for annual leave versus sick leave restrictions. This modern program offers less administrative burden to the employer as two separate leave accruals are combined into one.
- Significantly reduced the health plan claims cost from the 2017

projection of over \$128 million to \$104,745,074 million. The HR team implemented a multifaceted approach to reduce claims costs through effective plan design, an award-winning comprehensive wellness program, and a robust communications campaign that resulted in better than expected results.

- Integrated HR service delivery to provide a centralized 360 degree customer service to County employees, retirees, and prospective talent through the

utilization of technology. This new approach to customer service allowed for HR to successfully reach and communicate with all employees regardless of their ability to connect to the County's network.

FY 24 and FY 25 Core Goals:

- Implement employee engagement strategies to increase employee retention. Talent shortages necessitate maintaining competitive compensation, employee engagement, and retention strategic planning. The outcome of this process will ensure that Hillsborough County can continue to deliver high quality, effective, and timely service delivery.
- As inflation continues to rise, health care costs are also increasing. As a self-funded health plan, maintaining and stabilizing health care costs is critical in providing quality and cost-effective benefits to employees.
- Increase the availability of data related to the County's human capital. This will assist organizational leadership in making data informed decisions and measuring the state of the organization related to the workforce.

FY 24 and FY 25 Key Projects:

- Complete the implementation of the labor market study that was finalized in 2023 to better align all job classification and paygrades with the competitive labor market. This implementation will also include the re-alignment and design of a new pay grade

structure to create more flexibility for departments to effectively attract and retain top talent.

- Continue the efforts of stabilizing the aggressive increases in health costs by going out to competitive requests for proposals. The objective is to find a provider that will continue offering robust health care solutions to employees at lower costs resulting from improved contract design.
- Implement a mobile health care clinic for employees to provide easy and convenient access to medical care for minor health-related conditions. This mobile clinic would allow employees to meet privately with a virtual doctor to quickly address and receive care for minor colds and illnesses.

Innovation:

Quicker Application Process

Human Resources continues to streamline the application process to include application-free processing and allowing candidates to apply via resume only for certain jobs in order to reduce the time required to apply for a job.

Future Career Academy

Human Resources partnered with 32 public high schools in the County to visit and speak with non-college bound high school seniors looking to enter the employment market rather than attend college. Talent Acquisition staff helped educate students on the career possibilities with the County as well as showcase the benefits of public service.

Staff also partnered with the school system and helped put together the “40 for the Future” program which is a series of 40 short videos shown to middle and high school students on their school morning shows. The videos showcase different County jobs and the benefits of public service in order to get students excited about the opportunities Hillsborough County has to offer.

Nearly 100 temporary summer Parks & Recreation employees take part in an annual check-in day.

Hillsborough County received its fifth consecutive Cigna Healthy Workforce Designation in 2022.

Information Technology

(813) 274-4357

Information Technology (IT) embodies a diverse and inclusive culture that effectively delivers IT services that are both agile and reliable. As part of a portfolio of internal consultancy, IT works in partnership with County departments, Boards, and community agencies to achieve Hillsborough County's overall strategic goals while continuously enhancing the customer IT experience. The department is comprised of the following core services:

- Customer Endpoint Device Administration
- Hardware and Software Asset Management
- Enterprise Application Development
- Enterprise Content Management
- Network Administration
- Systems Administration
- Service Delivery Management
- Application Management

FY 22 and FY 23 Accomplishments:

- Completed several application initiatives to include the Health Care Services cloud-based migration while sunsetting a twenty-year on-premises solution improving reliability, scalability, and security for all aspects of client medical care. Further, IT completed extensive data migration (4 million records) into OnBase for the Medical Examiner to enhance preservation and accessibility.
- Implemented multi-factor authentication (MFA) enhancing the security profile of the County's networks, applications, and data lowering the risk of cyber security breaches.
- Completed move to hardened, colocation datacenter to maintain business continuity and service delivery to County departments and the community.

Information Technology staff decommissions a 20-Year-Old CLASS Server.

Information Technology staff train in OnBase.

Information Technology assists Fire Rescue with the new enterprise Station Alerting infrastructure.

FY 24 and FY 25

Core Goals:

- The IT department aims to collaborate with departments to conceive, design, and implement solutions that materially impact service quality, speed, and efficiency for the good of departments and, by extension, County residents (Example: meeting room enhancements to leverage technology for a simplified experience for in-person and hybrid meetings).
- IT will partner with County departments to deliver process-driven technology solutions that consistently and cost-effectively improve service delivery and customer experiences across the enterprise (Example: Library Services All In One (AiO) endpoint platform).
- Improve business efficiency for residents and customers: the IT department will continue to pursue innovative solutions that empower customers to complete transactions electronically (Example: insurance forms acknowledgement).

FY 24 and FY 25 Key Projects:

- Collaborate with Engineering and Operations to secure and enhance traffic infrastructure, which will facilitate traffic flow improvements for emergency vehicles, as

well as citizens. This will result in improved citizen mobility and emergency service response time, as well as implement and support - with Fire Rescue - a modern, enterprise station alerting platform.

- Continue to enhance Health Care’s client medical application. This will improve and enhance reporting and self-service capabilities to meet evolving service delivery channels to citizens. Migrate Fleet Management’s core business application to cloud-based environment for improved access and scalability.
- Expand content management across multiple departments to include Affordable Housing, Aging Services, Sunshine Line, and Risk Management.

Innovation:

Enhancing medical and mental assessments and assistance for citizens is important for Hillsborough County’s efforts to move toward citizen self-sufficiency. By transitioning to a cloud-based healthcare application, IT collaborated with Health Care Services to mitigate the risks inherent with a twenty-year old solution. The new environment allows the department to move towards a paperless application process, offer self-service capabilities, provide enhanced assessments for services, and automates tasks within a secure, reliable, and resilient environment.

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- Position transfers between Fire Rescue, Information Technology, and Performance, Data, & Analytics result in one fewer position.
- During FY23, one position was eliminated.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of several projects to modernize technology for business continuation and upgrades to support existing systems.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of projects for infrastructure, network, software, and equipment replacement.

Library Services

(813) 273-3652 | hcplc.org

Hillsborough County Library Services provides customer-focused library materials, services, programs, and resources to meet the diverse educational, recreational, and cultural needs of Hillsborough County residents. The department offers traditional and digital books, collections and story time programs, as well as in-person and online instruction, free wireless Internet, portable technologies, and access to federal, state, and local e-government services. Library services have a direct impact on economic development and community prosperity through numerous outcomes, such as improved job skills, school readiness, and availability of educational and leisure materials.

A young girl reads at one of the County libraries.

FY 22 and FY 23 Accomplishments:

- Renovation of the Town 'N Country Regional Public Library has been completed. The library has reopened to the public with renewed interior design, new furniture, enhanced layout and connectivity, as well as technological improvements to better serve the community.

- A temporary branch library site in Wimauma has been identified. The department is currently working with Architectural Services to renovate the space and establish services in the community.
- The Florida Sentinel Bulletin archive, a historic African American publication founded in 1945, has begun a preservation project. The archive will be professionally assessed this fiscal

year and a digitization plan will be developed for preservation of the archive.

FY 24 and FY 25 Core Goals:

- Provide convenient access to materials and online services. Buildings and digital spaces are intuitive and easy to use, featuring materials in a variety of formats, multiple ways of accessing information, and opportunities for learning, personal growth, and economic development.
- Implement classes, events, and library learning experiences that contribute to economic development, entrepreneurial support/career enhancement, and school readiness.
- Operate a network of free library facilities with open access, a community focus, and welcoming environments. The Library's network of 27 locations and two mobile library service vehicles provide access to materials and staff expertise, meeting rooms, computers, wireless Internet, and collaborative workspace.

FY 24 and FY 25 Key Projects:

- Improve digital access by distributing 2,500 laptops equipped with filtered data plans to families with school-age children and limited internet access at home. This is made possible through a grant from the Emergency Connectivity Fund Program of the American Recovery Act.
- Develop a display for the Burgert Bros. photographic collection, including a permanent display wall at the John F. Germany Library.

- Complete the temporary Wimauma Branch Library at the identified site and open to the public.

Innovation:

Developed and delivered Social Media Internship Program, which enables teens, ages 14-18, to virtually earn Bright Futures service hours. Hillsborough County students have limited avenues to earn educational service hours and even less opportunity to do so virtually. The Social Media Internship Program gives teens the opportunity to work remotely with the library to participate in hands-on projects and weekly tasks that use social media platforms to gain professional marketing communication experience in a safe online environment. Participants evaluate and develop advertising related to educational library resources. County staff delivers classes to participants that educate them on the concepts of professional content development. Students are able to earn up to 25 service hours throughout the course of a five-week program.

An entrance to the Town N’ Country Library leads to rows and rows of books.

FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased contract costs, indirect administrative costs, insurance assessments, safety enhancements, and library materials.
- In FY24, one-time funding for Library Technology Enhancements is budgeted.

CAPITAL AND OTHER EXPENDITURES:

- The decrease in capital expenditures is primarily the result projects requiring one-time funding reaching completion.

Management & Budget

(813) 272-5890 | HCFLGov.net/Budget

The Management & Budget department uses sound financial and business practices to budget available resources in accordance with the priorities of the Board of County Commissioners and statutory requirements. It manages the issuance of debt and provides financial analysis services.

FY 22 and FY 23 Accomplishments:

- Maintained a AAA general obligation bond rating, as determined by all three major rating agencies.
- Complied with Florida Statutes, Chapters 129 and 200, Truth in Millage requirements.
- Earned the Government Finance Officers Association’s Distinguished Budget Presentation Award for the 36th consecutive year. Receipt of the award is an indicator that Hillsborough County is communicating budget information to its residents using the best practices, which result in budget transparency.

FY 24 and FY 25 Core Goals:

- Maintain compliance with Florida Statutes, Chapters 129 and 200, to assure continuing funding and prevent potential service interruptions.
- Earn the Government Finance Officers Association’s Distinguished Budget Presentation Award.

FY 24 and FY 25 Key Projects:

- Continue development of financial/budgetary strategies to ensure fiscal sustainability of service delivery.
- Update key financial policies to ensure that they are consistent with the County’s most current business model.

Innovation:

The department has evolved its five-year proforma analysis into a more dynamic tool that analyzes multiple possible economic and financial scenarios. The model evaluates the possible implementation of master plans, the possible impacts of economic volatility, anticipated normal economic growth, and fiscal sustainability. The model provides both the County Administrator and the Board more information to make budgetary decisions.

Management & Budget earned the Government Finance Officers Association’s Distinguished Budget Presentation Award for the 36th consecutive year.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, one position was eliminated due to remaining vacant for longer than a year.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result in Misdemeanor Probationary Services collection.

CAPITAL AND OTHER EXPENDITURES:

- Changes in grants and aids expenditures are primarily the result of fluctuations in grant appropriations.

Medical Examiner

(813) 914-4500 | HCFLGov.net/MedicalExaminer

The Medical Examiner investigates or reviews more than 11,000 of the approximately 14,000 deaths that occur annually in Hillsborough County. The department has two core responsibilities: a statutorily mandated mission to determine cause and manner of death in a specific set of circumstances defined in Section 406.11, Florida Statutes, and the disposal of unclaimed bodies. A body is deemed unclaimed if no family, friend, or organization comes forward to fund private disposition of remains.

FY 22 and FY 23 Accomplishments:

- Developed an in-house Cold Case unit to focus on the unidentified cases currently within the department. The department has obtained positive ID on a few cases during this time.
- Increased the number of staff members in the Administration section to assist with the increase in number of public records requests and out-of-state shipment and cremation authorization requests.
- Increased the number of investigation staff members to increase response to death scenes to 24 hours a day, seven days a week.

FY 24 and FY 25 Core Goals:

- Obtain N.A.M.E. (National Association of Medical Examiners) accreditation.
- Increase response to death scenes to 24 hours a day, seven days a week.
- Continue to decrease the number of cases using the County Indigent Cremation Program each year.

FY 24 and FY 25 Key Projects:

- Increase the Cold Case Unit by one (1) full time equivalent forensic anthropologist and to continue to provide members of that unit with training opportunities to enhance their working knowledge.

- Finalize the procurement of the updated case management software system and system support.
- Finalize plans for future expansion of the current Medical Examiner facility.

Innovation:

The department began actively discussing developing a cold case unit to focus on obtaining positive identifications on our unidentified cases. We recently obtained a positive ID on a 1991 case.

The morgue team processes evidence.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

Minority & Small Business Enterprises

(813) 829-2650 | HCFLGov.net/EconDev

Minority & Small Business Enterprises Division increases minority- and women-owned and small businesses' access to County procurement opportunities in construction, contractual services, professional consulting services, and commodities. These programs are economic drivers that strive to support a diverse base of suppliers/vendors, job creation, and business expansion and retention. The division achieves these goals through community outreach, providing capacity-building training for certified and registered business enterprises, and direct relationships with user-departments.

FY 22 and FY 23 Accomplishments:

- Held community-wide outreach events in support of the County's \$265 million South County Wastewater Treatment Plant construction project. These events helped inform and help minority- and women-owned businesses identify subcontracting opportunities on this significant South County infrastructure improvement project.
- Expanded educational and technical assistance to certified

- and registered businesses by increasing offerings of the Small Contractor Development Program, which doubled the number of businesses impacted. Also added marketing to a curriculum which already included topics such as how to obtain bonds, legal, financial/accounting, contract management, and employee management.
- Developed and implemented an enhanced outreach and marketing strategy to reach minority- and women-owned businesses located statewide and small businesses

located in Hillsborough, Pinellas, Pasco, and Hernando counties. This strategy helped increase the number of businesses certified with and able to participate in the County's competitively bid procurement opportunities.

FY 24 and FY 25 Core Goals:

- Greater access to procurement opportunities and a more diverse base of suppliers/vendors by increasing the number of certified minority- and women-owned businesses enterprise (MBE) and registered small business enterprise (SBE) firms.
- More strategic planning and partnership opportunities for certified MBE and registered SBE firms by providing advance notice of future capital projects.
- Enhanced training and technical assistance to certified MBE and registered SBE firms to increase the number of firms securing County procurement opportunities.

FY 24 and FY 25 Key Projects:

- Support the vision of ensuring diversity, equity, and inclusion in contracting opportunities by hosting a business reverse trade show (Open Doors). This event will help minority- and women-owned and small businesses learn about and connect to opportunities in government and private sector contracting.
- Create a presentation and training about the history, purpose, and goals of the County's Minority & Small Business Enterprises Division and the department's MBE and SBE programs. This training will be presented to County departments and agencies, as well as community groups,

Minority & Small Business Enterprises Division hosts VendorConnect Business Showcase.

partners, stakeholders, and other supporters of economic diversity.

- Create a business diversity showcase (VendorConnect) to introduce and connect minority- and women-owned and small businesses with County departments and agencies that contract for goods and services provided by these businesses. This showcase will increase awareness of the capabilities of these businesses and better connect them to contracting opportunities.

Innovation:

The Minority & Small Business Enterprises Division partnered with the Florida Department of Transportation and the City of Tampa to host a construction-focused job fair and business expo to help build a workforce pipeline to support the \$6 billion in road and bridge construction projects and promote economic opportunity throughout Tampa Bay. The job fair introduced job seekers to a career in construction and connected them with local road and bridge contractors with open positions. The business expo provided minority/women-owned and small businesses with information on how to conduct business with local and state government agencies, connect with prime contractors, and learn more about business development opportunities.

Minority & Small Business Enterprises Division hosts One Water Campus Outreach event.

“I have been certified as a minority-owned business enterprise (MBE) with Hillsborough County since 2005. Since that time, the Minority and Small Business Enterprises team has helped us with our certification and our ability to obtain contracts. With their help we have been able to grow our company and to stay strong even after the COVID-19 pandemic. We would like to thank them so much for all their hard work and dedication to help us and all Hillsborough County minority-owned businesses. I know that without them we would not be where we are today!”

Gladys Chinchilla, Owner, Chinchi’s Janitorial Services, Inc.

Parks & Recreation

(813) 635-3500 | HCFLGov.net/Parks

Hillsborough County Parks & Recreation (HCPR) provides competitive athletic and recreational opportunities for people of all ages and abilities, focusing on Hillsborough County's approximately 1.4 million residents. The department manages a wide range of facilities, including 53 recreation centers, seven gymnasiums, six fitness centers, five skate parks, nine off-leash dog parks, and 47 sports complexes. The sports complexes include 170 baseball and softball fields, 30 football fields, 53 soccer fields, and three lacrosse fields. In addition, there are 104 non-programmed neighborhood parks consisting of about 1,200 acres of open space, 44 miles of walking paths, and 118 playgrounds, courts, and picnic shelters. Adaptive programs for residents with disabilities, in addition to special events with community and civic organizations, round out Parks & Recreation's offerings.

Hillsborough County Adaptive Sports Wheelchair Football team practices for its national tournament.

FY 22 and FY 23 Accomplishments:

- In 2022, HCPR partnered with 49 youth sports organizations at 42 locations. The department and its partner organizations provided youth recreational league play to over 40,000 kids in 2022. Additionally, the department served another 11,000 kids through its staff-managed

recreational basketball, ball hockey, flag football, and soccer programs.

- Hillsborough County Parks & Recreation was a 2022 finalist for the prestigious Gold Medal Award. The national award honors public park and recreation agencies across the United States that demonstrate excellence in long-range planning, resource

management, and innovative approaches to delivering superb park and recreation services with fiscally sound business practices.

- The Hillsborough County Adaptive Sports (HCAS) program grew by 20%, reaching 362 athletes. The number of programs offered grew from 26 to 31, and HCAS was one of nine teams selected to play in the first USA Wheelchair Football League. Additionally, the Hillsborough County Wheelchair Football program received the National Recreation and Park Association (NRPA) Innovation and Social Equity Award in 2022.

FY 24 and FY 25 Core Goals:

- Hillsborough County Parks & Recreation understands the sport of pickleball is exploding. According to the USA Pickleball Association, 4.2M people play pickleball in the country. The department is committed to meeting the demand for new courts. Over the next two years, the department will build or refurbish 34 pickleball courts at six separate parks across the county.
- Hillsborough County is one of only 171 park systems that has earned accreditation from the National Recreational and Park Association (CAPRA). Parks & Recreation will continue prioritizing the accreditation process, ensuring it is shared, encouraged, and integrated into daily operations.
- The department is committed to growing youth sports and providing equitable opportunities to all youth athletes. Parks & Recreation will identify locations and opportunities to expand recreational sports. It will also continue growing its competitive Team HC program, which has generated over \$100,000 in revenue since its inception.

FY 24 and FY 25 Key Projects:

- In recent years the popularity of pickleball has exploded nationally and in Hillsborough County, where it's the fastest-growing sport at the County's Parks & Recreation centers. The department has secured \$3 million in American Rescue Plan funding to build 34 new courts in Hillsborough County, more than doubling the current inventory.
- Hillsborough County Parks & Recreation is partnering with Library Services to create a destination multipurpose site for the Thonotosassa community. The multipurpose site will be developed in phases and will feature a new branch library, new athletic fields, parking, walking trails, restrooms, and additional amenity upgrades.
- The Branchton Park project will transform the 43-acre park into a destination site for Northeast Hillsborough. Phase One will feature four pickleball courts, a large playground, splash pad, walking trails, restrooms, and 70 parking spaces. Future phases will include dog parks for large and small dogs, an event pavilion, and additional walking trails, including boardwalks.

Carrollwood Village Park has numerous amenities, including its Hammock Garden.

Innovation:

Ensuring equitable access to top-In 2022, Parks & Recreation created the Community Sponsorship Program, which gives businesses and organizations the ability to sponsor park amenities, such as dog parks, sports complexes, basketball courts, and more. The program utilizes a unique and innovative partnership with the local non-profit organization,

Friends of the County Parks and Recreation, Inc., which is a 501(c) 3 organization created to support Hillsborough County parks and programs. All community sponsor contributions are utilized to improve visitor experiences and make Hillsborough County parks more equitable and inclusive. Community sponsors are recognized with signage prominently displaying their logo.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Increased participation of seniors, adults, and youth in recreational sports activities.	73,700	75,000	78,500	81,000

Funded FTE Positions	234.59	249.92	258.08	258.08

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, seven positions are established to provide additional support for the opening of the New Tampa Performance Arts Center.
- During FY23, two positions were eliminated due to remaining vacant for longer than one year.
- Position transfers between Public Works, Code Enforcement, Conservation & Environmental Lands Management, and Parks & Recreation result in four additional positions.

OPERATING EXPENDITURES:

- The decrease in operating expenditures is primarily the result of a decrease in indirect administrative costs and the transfer of one UACDC program from Parks and Recreation to non-profit cost centers.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of one-time funding for audio equipment and three pianos for the New Tampa Performance Arts Center, Turf Tank, and Turbine Blower, as well as carryforward of one-time funding approved in FY23 for various vehicles and equipment due to the delay in procurement of the items.

Performance, Data, & Analytics

The Performance, Data, & Analytics department's vision is to facilitate a 360-degree view of the customer, utilize machine learning to drive business insights, and visualize outcomes via innovative use of technology. To accomplish this vision, the department provides a variety of services, including enterprise data governance, geospatial analytics, and maintenance of the County's Geographic Information Systems (GIS). The department also houses the 911 Administration, supports the development community by assigning street names and addresses, inventories the County's transportation, stormwater, and telecommunications assets, and performs survey and mapping services, such as plat reviews and contract management.

FY 22 and FY 23 Accomplishments:

- Deployed version 2.0 of the Azure Business Intelligence Environment (ABIE). This allows for more throughput from remote locations, multiple scanners to ensure security and data standard

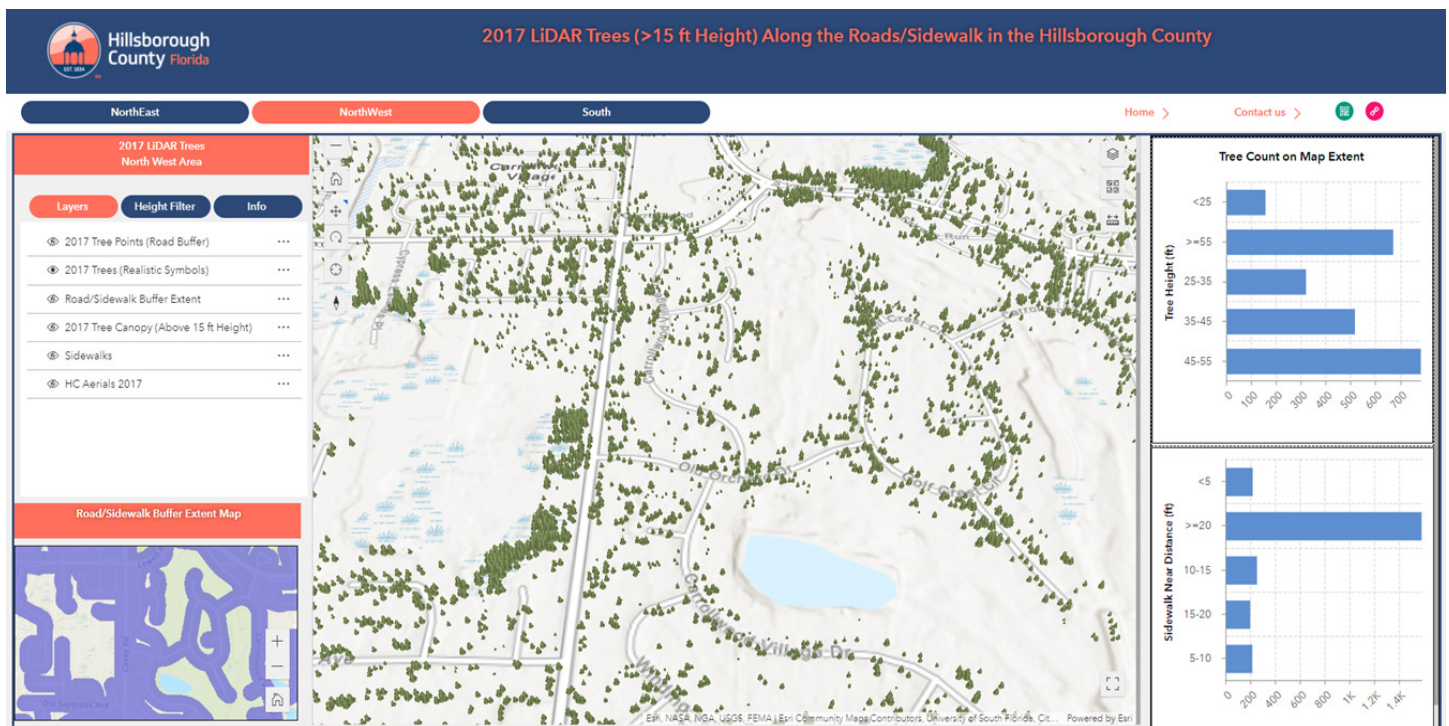

compliance, and flexible extract / transform / load tools.

- Received a grant for nearly \$8 million dollars in support of the County's 911 Administration. This grant was used to refresh the call-taking hardware and prepare the County's 911 data for NextGen Core Services.

- Used census data to perform redistricting analysis for use by the Board of County Commissioners and the School District of Hillsborough County.

FY 24 and FY 25 Core Goals:

- Refine, socialize, and execute a Master Data Management (MDM) plan that identifies and defines master data, ensures it is managed as an enterprise asset, and improves the quality and reliability of this data for analysis. This plan will include policies designed to mitigate security concerns and enable data visualization to drive insight-based decision making.
- Promote training opportunities available from the department across the organization and partner agencies. Includes GIS, Six Sigma, and Azure training.
- Implement modules in the department's ABIE and GIS

A LiDAR analysis of tree cover is shown.

3D buildings are derived using GIS.

environments to support a continuum of care model for social services partners.

FY 24 and FY 25 Key Projects:

- Work with County departments to support and analyze sustainability projects, such as visualizing County projects in a digital format and identifying County assets potentially impacted by sea level rise.

- Assist Public Works Administration departments in identifying critical infrastructure in support of the Target Zero framework. Streamline data import and conversion for use in traffic pattern analysis and modeling.
- Work in partnership with local Public Safety access points to implement the Next Generation 911 solution. This technology will increase emergency response efficiency by utilizing detailed and spatially significant information.

Innovation:

The department’s GIS team has completed implementing a support model for the County’s external partners. This includes the Property Appraiser’s Office, Tax Collector, and the Hillsborough County City-County Planning Commission. This support model allows for centralization and cost-savings of software licenses, rapid response to customer service requests, and easier sharing of data.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

- Continuation budget.

Pet Resources

(813) 301-PETS (7387) | HCFLGov.net/Pets

The Pet Resource Center (PRC) is the County's public animal shelter and community service organization that cares for homeless and unwanted pets. It also provides support for the animal control and law enforcement officers of the county. The department's mission is to make life better for the people and pets of the community through expert assistance and education. Pet Resources is one of the top public lifesaving shelters and has been identified as a leader in public sheltering.

Senior Animal Behavior Trainer Juan works with one of the shelter dogs.

FY 22 and FY 23 Accomplishments:

- PRC celebrated 100,000 Homes for Pets in July 2022, becoming the first municipal shelter to reach this goal in less than 10 years. In 2013, Hillsborough County passed the "Be the Way Home" resolution, which was aimed at finding placements for shelter animals and returning them to homes when possible.
- PRC redeveloped its volunteer program and began accepting new applicants in May after a two-year closure due to the Pandemic. Volunteers contributed over 14,000 hours in 2022 and welcomed 28 volunteer groups from local community organizations.
- Overcame a deficit of veterinarians to continue to provide vital, high quality medical care. PRC's lead veterinarian alone performed more than 4,300 surgeries.

FY 24 and FY 25 Core Goals:

- PRC strives to maintain the highest responsible live outcome rate possible for the pets of Hillsborough County. PRC maintained a 94% live outcome rate despite a nationwide spike in animals entering shelters.
- With a new program in place, PRC will continue to grow and expand volunteer and foster programs to assist the many animals in need.
- Develop a robust community outreach program to better educate and assist the citizens of Hillsborough County. This will include community event attendance, low or no-cost vaccine clinics, and school-aged educational programs.

FY 24 and FY 25 Key Projects:

- As the shelter ages and continues to see an increase in its population, the current facility is becoming insufficient for the community’s needs. PRC will begin site planning for a new, state-of-the-art animal shelter to assist with the county’s ever-growing population.
- Pilot a new program through PRC’s Pet Support Team, in conjunction with the Team Godwin Foundation, to assist members in the community struggling to keep their pets. It will cover short-term boardings in local kennels until the owners can get back on their feet and bring their pets back home.
- Enhance PRC’s pet enrichment program for the hundreds of shelter cats and dogs waiting for adoption. The program will focus on creating items to encourage natural calming behaviors, provide thought-provoking mental stimulation, and enhance the daily lives of all shelter animals.

Innovation:

With the reopening of the volunteer program, PRC has been able to utilize many additional tools in the Better Impact Volunteer Management Software. To ensure that all volunteers receive adequate and standardized training, a complete training library was created including videos, SOPs, comprehension tests, and supplementary training materials to better assist the volunteers during their onboarding journey. After seeing the effectiveness of this program, PRC has implemented the training materials to assist in onboarding new staff as well. PRC is excited to continue utilizing Better Impact into FY23, with the addition of a Foster Program component. Potential fosters will now have an application and onboarding process similar to the volunteer program.

A PRC shelter dog enjoys play time with the volunteers.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY 24, one position was established as Community Relations Coordinator to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increases in pet shelter supplies, pet food, and the replacement of supplies for the emergency pet shelter.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of the replacement of veterinary equipment.

Procurement Services

(813) 272-5790 | HCFLGov.net/Procurement | ProcurementServices@HCFLGov.net

Procurement Services provides centralized procurement for the acquisition of goods and services in support of all County departments, government agencies, and other offices that choose to use its services. The department's mission is to serve as trusted advisers who passionately, predictably, and promptly source high-value solutions so communities prosper and lives improve. As stewards of public funds, Procurement Services serves with integrity, strives for excellence in every procurement endeavor, and is committed to the fair and equitable treatment of all vendors. Department staff are empowered to take the actions necessary to exceed customers' expectations, add value, and make a positive difference in every transaction within the confines of applicable law, policies, and procedures.

FY 22 and FY 23 Accomplishments:

- Collaborated with Economic Development and area chambers of commerce to form collaborative groups for small and disadvantaged businesses to discuss doing business with Hillsborough County. Also, the department offered iSupplier vendor training in a virtual platform to reach a broader spectrum of vendors and increase the number of registered vendors doing business with the County.

- Reduced post-award delays by collaborating with the County Attorney to update clauses for receipt of recorded bonds, executed agreements, and certificates of insurance within 10 business days of posting Notice of Intent to recommend award. Therefore, the Board executes all related construction documents simultaneously, which accelerates the start of County construction projects.
- Translated iSupplier training materials and recorded "How to do Business with the County"

training in Spanish for posting on the County website to reach a broader spectrum of Spanish-speaking vendors, increase good will, and increase the number of registered vendors doing business with the County.

FY 24 and FY 25 Core Goals:

- Procure the goods and services that County departments and agencies need to deliver quality services to residents and visitors in Hillsborough County.
- Preserve and strengthen the department's reliable network of vendor businesses through active engagement, outreach, and support activities.
- Cultivate meaningful and strategic business partnerships to maximize value and support sustainable community prosperity.

FY 24 and FY 25 Key Projects:

- Leverage the County OnBase system to automate internal business processes and be the centralized electronic document management system for County staff and residents to access the Procurement Policy, Procurement Procedures, and Procurement Standard Operating Procedures.

Scott Stromer presents at the 2022 One Water Campus Informational Workshop hosted by Water Resources.

The system will provide users access to the most current versions.

- Collaborate with Bonfire to implement a cloud-based procurement solution built with an emphasis on customer-focused public procurement. The implementation provides improvements for procurement services to increase competition, data tracking, reporting, easier electronic submission process for suppliers, and enhanced correspondence capabilities for suppliers at no cost.
- Expand the Construction Apprenticeship Program (CAP) reporting capabilities by leveraging the B2G system technology in order to regularly publish CAP statuses for increased visibility and transparency, benefiting stakeholders.

Innovation:

Procurement Services is focusing on continuous improvement by creating more structured processes to provide centralized procurement. Processes are being mapped from the start of a procurement through issuing expiring contracts notices, to identify value-added opportunities to streamline processes, remove barriers, and expand training opportunities to: 1) leverage technology to train County staff on various programs via Microsoft Teams Channels/ Meetings, OneDrive/ SharePoint collaboration, 2) development of a decision tree to navigate user departments with providing required information/approvals to support procurement needs, and other related tasks.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, two positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments and computer software annual maintenance agreements.

Risk Management & Safety

(813) 301-7052 | HCFLGov.net/Risk

The Risk Management & Safety Division's mission is to create a safer work environment for employees and help protect Hillsborough County against financial losses through insurance and internal loss control. This is accomplished by creating and implementing new and improved safety practices and procedures. Risk Management & Safety evaluates and recommends appropriate improvements to current programs and practices, in addition to administering new programs on various types of training for employees, including general and automobile liability, claim administration, insurance requirements, safety protocols, and more.

FY 22 and FY 23 Accomplishments:

- Subrogation was pursued from those causing damages to County property, resulting in a reimbursement in the amount of \$61,708.52 for the fiscal year.
- Collaborated with Public Works to establish a means to more readily respond to hazards road/sidewalks conditions.

- Enhanced the functions of the Safety Action Council to include more hands-on delivery of information and training to include various health and safety, informational, and organizational employee awareness.

FY 24 and FY 25 Core Goals:

- Respond to contract review and insurance requirements within 24

hours. Provide necessary safety training to operational staff to aid in maintaining an injury free workplace. Respond to citizen claims within 24 hours.

- Enhance the defensive driver training process by transitioning to the OLM Platform, thereby alleviating the manual process. Expand the training topics to include safety subject matter specific to trainee duties and incidents.
- Provide necessary safety trainings to all operational staff to aid in reducing liability costs and mitigating the goal of maintaining an injury free workplace.

FY 24 and FY 25 Key Projects:

- Total Onbase program integration of Certificates of Insurance faxes and emails. Faxed certificates of insurance will be automatically read and filed into the department's Onbase program. This will help to revolutionize the intake of certificates of insurance with OnBase's capability to immediately read and index faxes and emails with attachments, reducing the process time.
- Launch and lead the first Safety Outreach Summit involving local municipalities, private sector, and hospitals. The focus is to bring common safety issues faced by the local community to a forum, work together to reduce employee injuries, and foster a community culture of safety.
- Offer multiple ways of delivering safety trainings, to include classroom, virtual, and on-demand. The objective is to have a 100-plus courses set-up on an on-demand basis. The on-demand capability will allow employees the

Risk Management's Joe Halle speaks at EOC Hurricane Preparedness.

opportunity to expand their safety knowledge in both direct and indirect manners related to their organizational departments.

Innovation:

The department launched and led the first Safety Outreach Summit, which involved local municipalities, private sector, and hospitals. The focus is to bring the common safety issues faced by the local community to a forum and work together as a cooperative team in reducing injury towards employees. This summit will include guest speakers, panel discussions, and cross talks between the various sectors to bring a safety culture forward in the hopes of resolving safety issues and benefiting the community.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, one position is established to expand the countywide Occupational Safety and Health Program.

OPERATING EXPENDITURES:

- The decrease in operating expenditures is primarily the result of decreased indirect administrative costs.

CAPITAL AND OTHER EXPENDITURES:

- Continuation budget.

Social Services

(813) 272-6770 | HCFLGov.net/SocialServices

The Social Services department serves some of the most vulnerable residents in the county who require stability or long-term, comprehensive case management services, including basic living needs, housing, education, and/or employment training. In addition, the department is the Emergency Services Function 6 lead for planning and coordination of Mass Care and related emergency human services during a disaster.

Community Action Board members and staff attend the Community Action Program Conference.

FY 22 and FY 23 Accomplishments:

- The department approved 16,326 applications for households in danger of losing their shelter, in addition to 39,536 applications for households in danger of having their utility (electric and water) service interrupted.
- The department provided education assistance - including English to Speakers of Other Languages, GED preparation, GED testing, technical certification courses, and higher education scholarships, along with books and fees - to 418 eligible residents.
- The department's Empowerment Program assisted 467 individuals and/or families progress towards their financial self-sufficiency goals.

FY 24 and FY 25 Core Goals:

- The department will offer expanded job training and tuition assistance to motivated individuals who are reliant on social services programs in order to promote financial self-sufficiency by obtaining gainful and stable employment.
- Social Services will offer youth engagement activities to promote opportunities for exposure and access to higher education and/or vocational training programs, thereby increasing earning potential and breaking the generational cycle of poverty.
- The department will be implementing interactive sessions with customers seeking crisis intervention services to promote

budgeting practices, employability and soft skills training, assistance with understanding first-time home ownership programs, etc.

FY 24 and FY 25 Key Projects:

- As the Emergency Support Function 6/Mass Care lead, the department will continue to streamline and specialize the Employee Emergency Response Program assignments and trainings for assigned emergency shelter staff, including the implementation of an annual action plan timeline for storm season. In addition, the department will participate in a FEMA activation exercise.
- The eviction prevention funded partnerships with the Bay Area Legal Services and the Children's Board will be expanded and/or extended in order to assist more households facing eviction.
- The Crisis Center of Tampa Bay will be co-locating with Social Services in the SouthShore Community Resource Center. This partnership expands the department's call center hours during peak times and during a disaster.

Innovation:

During this fiscal year, the department implemented a new federally funded (passed through the State of Florida's Department of Economic Opportunity) water/sewer assistance program with existing personnel. This new grant required formalized agreements with water providers and expeditiously resolves past due utility balances, which avoids service interruption to low-income, eligible households.

The Emergency Support Function/Mass Care Team are always dedicated to serving their community.

Staff attend an outreach event to promote minority businesses.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Assists with programs and services to help low-income individuals and families resolve any immediate housing crisis that would result in eviction.	12,780 application approvals	4,550 application approvals	Will depend on funding level.	Will depend on funding level.
Assists with programs and services to help low-income individuals, seniors, and families resolve any immediate utility account crisis that would result in service interruption or long-term disconnect.	25,295 application approvals	14,241 application approvals	Will depend on funding level. Solid Waste Management

(813) 272-5680 | HCFLGov.net/SolidWaste

Solid Waste Management provides solid waste collection, disposal, and recycling services to unincorporated Hillsborough County and the New Tampa area. This includes providing materials management for over one million tons of solid waste and recycling each year. The vision of the Solid Waste department is to establish a path to long-term, sustainable, and financially responsible integrated materials management in Hillsborough County that is based on: 1) stewardship to residents and stakeholders, 2) community prosperity, 3) protection of public health and safety, and 4) customer service.

FY 22 and FY 23 Accomplishments:

- Processed over one million tons of municipal, commercial, and residential waste, and converted over 513,000 tons of solid waste to energy, generating enough to power up to 35,000 households. In addition, over 185,000 tons of metal, curbside recyclables, and yard waste were recycled by the department.
- Developed a partnership with a not-for-profit agency to allow residential customers to donate unwanted items at the County community collection centers. This partnership will divert waste from the landfill while giving the customers the opportunity to donate rather than dispose of good reusable items thereby providing economic and environmental benefits.
- Awarded and implemented the Residential Solid Waste Collection contract, which realigned the collection districts, allowed for the County to be the primary

source of customer service, and incorporated additional accountability of contract requirements.

- The department received awards for the County's composting operation and leading regional waste reduction and recycling outreach campaigns.

FY 24 and FY 25 Core Goals:

- Complete the renovation of the Northwest Community Collection Center (CCC) and household hazardous waste (HHW) drop-off facility. This project will double the size of the CCC, which will allow for easier and safer access for the residents and eliminate wait times at the facility.
- Relocate the Sheldon Road Household Hazardous Waste Facility to the Northwest Transfer Station. By relocating this facility, it will provide residents easier and more convenient access to dispose of their HHW at one location.

FY 24 and FY 25 Key Projects:

- Begin construction of a recycling material recovery facility (MRF) that will process curbside recyclables, as well as other commercial recycling material. The construction of the facility will ensure the long-term viability of the County's curbside recycling program.
- Expand the capacity at the biosolids composting facility to accept pre-consumer food waste and other compostable materials. This expansion will allow commercial customers interested in diverting their waste from landfills to process their material in a more sustainable manner.
- Complete the renovation of the Northwest CCC and HHW drop-off facility. This project will double the size of the CCC, which will allow for easier and safer access for the residents and eliminate wait times at the facility.

Innovation:

In FY 22, there were inefficiencies in the manner in which the contractor was managing the department's Roll Cart Program. After a careful review, it was determined that the department would assume full operation and maintenance of the program. After one year, the department successfully improved service delivery to the constituents of Hillsborough County by increasing in-house inventory, decreasing roll cart down times, and effectuating budgetary cost savings.

A County employee compacts trash.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, nine positions are established to address an increase in department responsibility.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of higher contract and minor equipment costs including collection and recycling services, and disposal fees.

CAPITAL AND OTHER EXPENDITURES:

- Capital outlay reflects funding for new and replacement equipment.

Sunshine Line

(813) 272-7272 | HCFLGov.net/Sunshine

Sunshine Line helps create equity and community prosperity by offering transportation services to residents who, because of disability, age, or income, are unable to provide or purchase their own transportation and do not qualify for other sources of local transportation. Sunshine Line service provides access to medical appointments, grocery shopping, social services, and other community activities. The department provides daily or monthly bus passes to those who can use the local transit service but can't afford the fare. Door-to-door transportation, including assistance to and from the vehicle, is provided where fixed-route transit service is not available and for those whose destinations are outside the transit service area.

Sunshine Line staff attend the fourth quarter department meeting.

FY 22 and FY 23 Accomplishments:

- Sunshine Line resumed transportation for Aging Services' senior centers, adult day services, and nutrition sites following their reopening in the spring of 2022 after having been closed for two years due to the COVID-19 pandemic. Transportation is provided to 10 sites and helps to ensure that seniors without

transportation are able to participate in Aging Services programs.

- Sunshine Line transitioned its driver training program to the Rural Transit Assistance Program (RTAP) Operator Training Program in March 2023. This is a comprehensive national program that is supported by the Center for Urban Transportation Research at USF.

Rider exits Sunshine Line vehicle while the driver operates a vehicle lift.

FY 24 and FY 25 Core Goals:

- Continue to determine the needs of the transportation disadvantaged using available technology resources and partnerships with community stakeholders, and develop the most effective means to address those identified needs.
- Improve eligibility application and trip request processes to include mobile and web-based options, so residents who need transportation have better access to service.
- Successfully recruit and retain drivers for sufficient coverage to meet community needs for service in a time of nationwide driver shortages, with a goal of 90% of positions filled at all times.

FY 24 and FY 25 Key Projects:

- Replace current scheduling software - which was originally purchased in 2009 and is used for client eligibility, trip reservations and scheduling, dispatch, vehicle tracking, reporting, and billing - with newer technology that will also include mobile and web-based applications and greater flexibility to interface with evolving technology.
- In a joint project with Fleet

Management, Sunshine Line will pilot the use of electric vehicles to test applicability for door-to-door passenger service.

- Researching camera and security equipment to increase security and safety of drivers and passengers in vehicles for door-to-door service.

Innovation:

To increase and improve communication with all staff and particularly with drivers out on the road all day, Sunshine Line developed and maintains an internal web site which provides a bulletin board of information on benefits, Human Resources, and other employee programs, as well as quick links to procedures and forms and an employee suggestion area. This has increased employee engagement in County-sponsored programs and provides more consistent information to all staff.

Sunshine Line and School Board vehicle and staff visit a vehicle control course for training.

Sunshine Line Customer Service attends the Health Living Fair.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, one position was eliminated due to remaining vacant for longer than one year.
- During FY23, one position was changed to part-time from full time.
- Changes in personnel expenditures are primarily the result of fluctuations in grant appropriations.

OPERATING EXPENDITURES:

- Changes in operating expenditures are primarily the result of fluctuations in grant appropriations.

CAPITAL AND OTHER EXPENDITURES:

- Carryforward of funding for the Paratransit software due to procurement delays.

Water Resources

(813) 272-5977 | HCFLGov.net/PublicUtilities

The Water Resources department provides drinking water, wastewater treatment, and reclaimed water services in the unincorporated areas of Hillsborough County.

Water Resources works on many projects, including its Corrosion Inhibitor Loop project.

Field Operations conducts FELL inspections with electro scan equipment.

FY 22 and FY 23 Accomplishments:

- In response to exceptional growth in the South County service area, Water Resources completed and placed into service the South County Inline Potable Water Booster Pump Station and expanded the Potable Water Repump Station to improve water pressure throughout the distribution system. The department also added three-million gallons of water storage to the southern portion of the service area.
- Water Resources established a new East Maintenance Complex in Valrico. This new facility has helped to significantly reduce response times needed to address emergencies and customer inquiries. Furthermore, the new facility allows Water Resources to closely monitor its infrastructure and appurtenances to ensure reliable and efficient services while protecting the health and safety of the community.
- Water Resources partnered with Public Works and Fleet departments to build three new consolidated hardened maintenance facilities (south, east, and west). This has increased communication and service between all three departments. Fuel and vehicle/equipment maintenance efficiencies have greatly decreased the department's non-productive windshield time.

FY 24 and FY 25 Core Goals:

- Water Resources will deliver high-quality potable water, collect and consolidate wastewater services, and distribute reclaimed water to support

Far left: County staff work with electro scan equipment.

Left: The Total Organic Carbon (TOC) project utilizes numerous types of equipment.

current and future customers for a sustainable economy.

- The department will continue to make public outreach programs a priority to share information and receive community feedback on how best to meet their needs. The department will modify plans and services as necessary to better meet those needs.
- Water Resources will maintain a safe work environment that is cost-effective and efficient by planning repairs in advance of emergency situations where possible and reducing the cost associated with accidents through prevention.

FY 24 and FY 25 Key Projects:

- Water Resources has developed

the One Water Program to address the ever-increasing needs of the South Service Area. This program is a sustainable approach to addressing the committed development and future growth of South County. Several projects are part of this program, including the recently completed South County Repump Station.

- The department's One Water Pipeline Corridor provides wastewater and reclaimed water pipelines to and from the new One Water Advanced Wastewater Treatment Facility (Proposed delivery progressive design build [PDB]) and a proposed 18.5 MGD One Water Advanced Wastewater Treatment Facility (proposed delivery PDB).

- The department has a new 18 MGD self-cleaning inline Balm Road Wastewater Super Pump Station (proposed delivery PDB).

Innovation:

Water Resources purchased electro scan equipment (machine intelligent leak detection) to detect leaks and quantify amount of leakage in underground wastewater piping. Florida Department of Environmental Protection has required that Utilities adopt rules to limit, reduce, and eliminate the impacts of inflow and infiltration (pipe leakages) into the wastewater collection system. This technology allows Water Resources staff to pinpoint exact locations of inflow and infiltration to improve rehabilitation efforts.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, 38 positions are established to assist with ongoing CIP and construction needs, technology and Unincorporated Area development expansions, and field maintenance activities.
- Position transfers between Water Resources, Solid Waste, Environmental Management Services and Enterprise Solutions and Quality Assurance result in six fewer positions.
- During FY23, six positions were eliminated.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of higher contract costs for chemicals, increased cost of water and sewer materials, and technology requests.

CAPITAL AND OTHER EXPENDITURES:

- Capital outlay reflects funding for new and replacement equipment, as well as carryforward of one-time funding approved for FY23 for various vehicles and equipment due to the delay in procurement of the items.

Clerk of the Circuit Court and Comptroller

(813) 272-8100 | HillsClerk.com

The Clerk of the Circuit Court is one of five Constitutional Officers elected by Hillsborough County voters to perform specific functions in County government. The Clerk of the Court is responsible for all Circuit and County Court records. The Clerk also serves as ex-officio clerk of the Board of County Commissioners, Chief Financial Officer, auditor, recorder, and custodian of County funds. The Clerk records documents such as deeds, mortgages, and satisfaction of liens. The office maintains alimony and child support records, issues marriage licenses, performs marriages, accepts passport applications, and auctions real property for nonpayment of taxes or mortgage foreclosures.

Clerk of Court Cindy Stuart hosted a panel designed to augment the training that the Clerk's staff has already received on how to Spot Human Trafficking.

On Valentine's Day, Clerk Cindy Stuart officiated the weddings of 32 couples during *Tie the Knot*.

The Hillsborough Clerk of Court had the chance to help veterans clear up past legal issues by partnering with the Hillsborough County 13th Judicial Circuit Court to bring remote courtrooms to the James A. Haley Veterans' Hospital. Veterans got a chance to resolve old cases and pay legal fees or fines.

FY 22 and FY 23 Accomplishments:

- In July 2022, Cindy Stuart committed to engaging all of the office's 650-plus employees in training provided through the Florida Alliance to End Human Trafficking. Every employee received training on how to spot signs of human trafficking. As a result of this effort, the office was officially recognized as the largest organization statewide to join Florida Attorney General Ashley Moody's 100 Percent Club.
- Implemented a bilingual pay policy to recognize and compensate approximately 50 bilingual employees who provide translation/interpretation services to the thousands of Hispanic customers who rely on the staff's services.
- For the FY 22, a total of \$2,194,030.37 out of \$10,704,519.34 (20%) in purchase orders were issued to disadvantaged, minority/women-owned and small business enterprises.

FY 24 and FY 25 Core Goals:

- **Mission and Vision Statement:** Dedicated to serving the public by providing excellent customer service and safeguarding records and the public's financial assets and dollars with equity, transparency, and independence.
- **Community Engagement:** Build and leverage effective relationships to advocate for the needs of the Clerk's Office, as well as the community the County serves.
- **Customer Service:** To play an integral role in the day-to-day lives of the community. The Clerk of the Circuit Court is committed to enhancing the public's overall quality of life through the management of their tax dollars

Bond agents are required to register with HCSO and Clerk of Court & Comptroller before they can issue bonds in Hillsborough County. During 4 convenient events our clerks registered over 1/2 of the bail bond agents in Hillsborough County.

Clerk Cindy Stuart presented George D. Chamberlain High School students with laptops. The students are part of a group called EmpowerHer2 that supports young women struggling with attendance, behavior, or academics.

or providing important records. The office takes its responsibility to the public seriously.

FY 24 and FY 25 Key Projects:

- Digitization and Modernization:** Modernize the data exchange system used by the Clerk’s Office and the Hillsborough County justice system partners. Expand the public’s online access to records maintained by the Clerk by accelerating the digitization of records kept in paper, microfilm, and microfiche formats.
- Enhance Communication and Payment Options for the Public:** Broaden the use of text messaging to notify victims of the status of their domestic violence injunction without leaving their “safe place,” to include notifications about upcoming hearing dates. Enhance customers’ experience paying fees and fines via the Clerk’s phone system and online.
- Increase Community Engagement:** Have a positive impact on the community through partnerships, education, and outreach by establishing effective partnerships with community organizations that align with the office’s duties and strategic vision, while educating the community on the Clerk’s role, meeting people where they are, and helping them navigate the government landscape.

Innovation:

The office partnered with state lawmakers who sponsored and passed new legislation that will allow clerks statewide to transit domestic violence injunctions electronically via email instead of U.S. Mail, greatly improving the notification times for law enforcement.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, five positions were established to address increased workload.
- In FY24, seven positions are established to address increased workload.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments.

Property Appraiser

(813) 272-6100 | hcpafl.org

The Hillsborough County Property Appraiser (HCPA) is charged with appraising all the property in the county. This includes real estate and tangible personal property (equipment, machinery, and fixtures) of businesses. The Property Appraiser prepares the tax roll but does not collect taxes or determine tax rates. The Appraiser is required by law to assess all property within the county each Jan. 1. This means the Property Appraiser determines the market value for hundreds of thousands of individual parcels, including residential, agricultural, multifamily, commercial, and industrial, as well as thousands of personal property accounts. In addition to appraising property, the Appraiser must administer homestead exemptions, agricultural classification, and determine the eligibility of certain religious, charitable, educational, and municipal property for tax exemption, as well as administer widow, widower, and disability exemptions. The Property Appraiser also maintains current and up-to-date legal descriptions and ownership tax maps of all the real property in Hillsborough County.

FY 22 and FY 23 Accomplishments:

- Converted current building footprint sketch process used in Computer Assisted Mass Appraisal (CAMA) system to a more modern, efficient method via APEX.
- Began new leasing program of hybrid Toyota RAV4 vehicles to save taxpayer dollars through reduced gas and maintenance costs, as well as reduce office's carbon footprint.
- Utilized high-resolution aerial imagery and artificial intelligence software to detect changes in properties, which saved the office more than 8,000 work hours for the annual parcel assessment and review process that is required by the Florida Department of Revenue.
- Advanced Geographical Information System (GIS) project to accurately dimension property lines of all parcels, as required by the Florida Department of Revenue.

FY 24 and FY 25 Core Goals:

- Value all real and tangible properties in Hillsborough County to meet the requirement of the Property Appraiser's duties per Florida Statute 193.
- Mail Notice of Proposed Property Taxes to all real and tangible property owners in Hillsborough County, as required by state statute.
- Acquire and distribute county-wide aerial ortho and oblique imagery for use by all County agency GIS departments.
- Maintain physical office locations throughout the county during weekday business hours and offer 24/7/365 website access to provide the highest possible quality of service to residents of Hillsborough County.

FY 24 and FY 25 Key Projects:

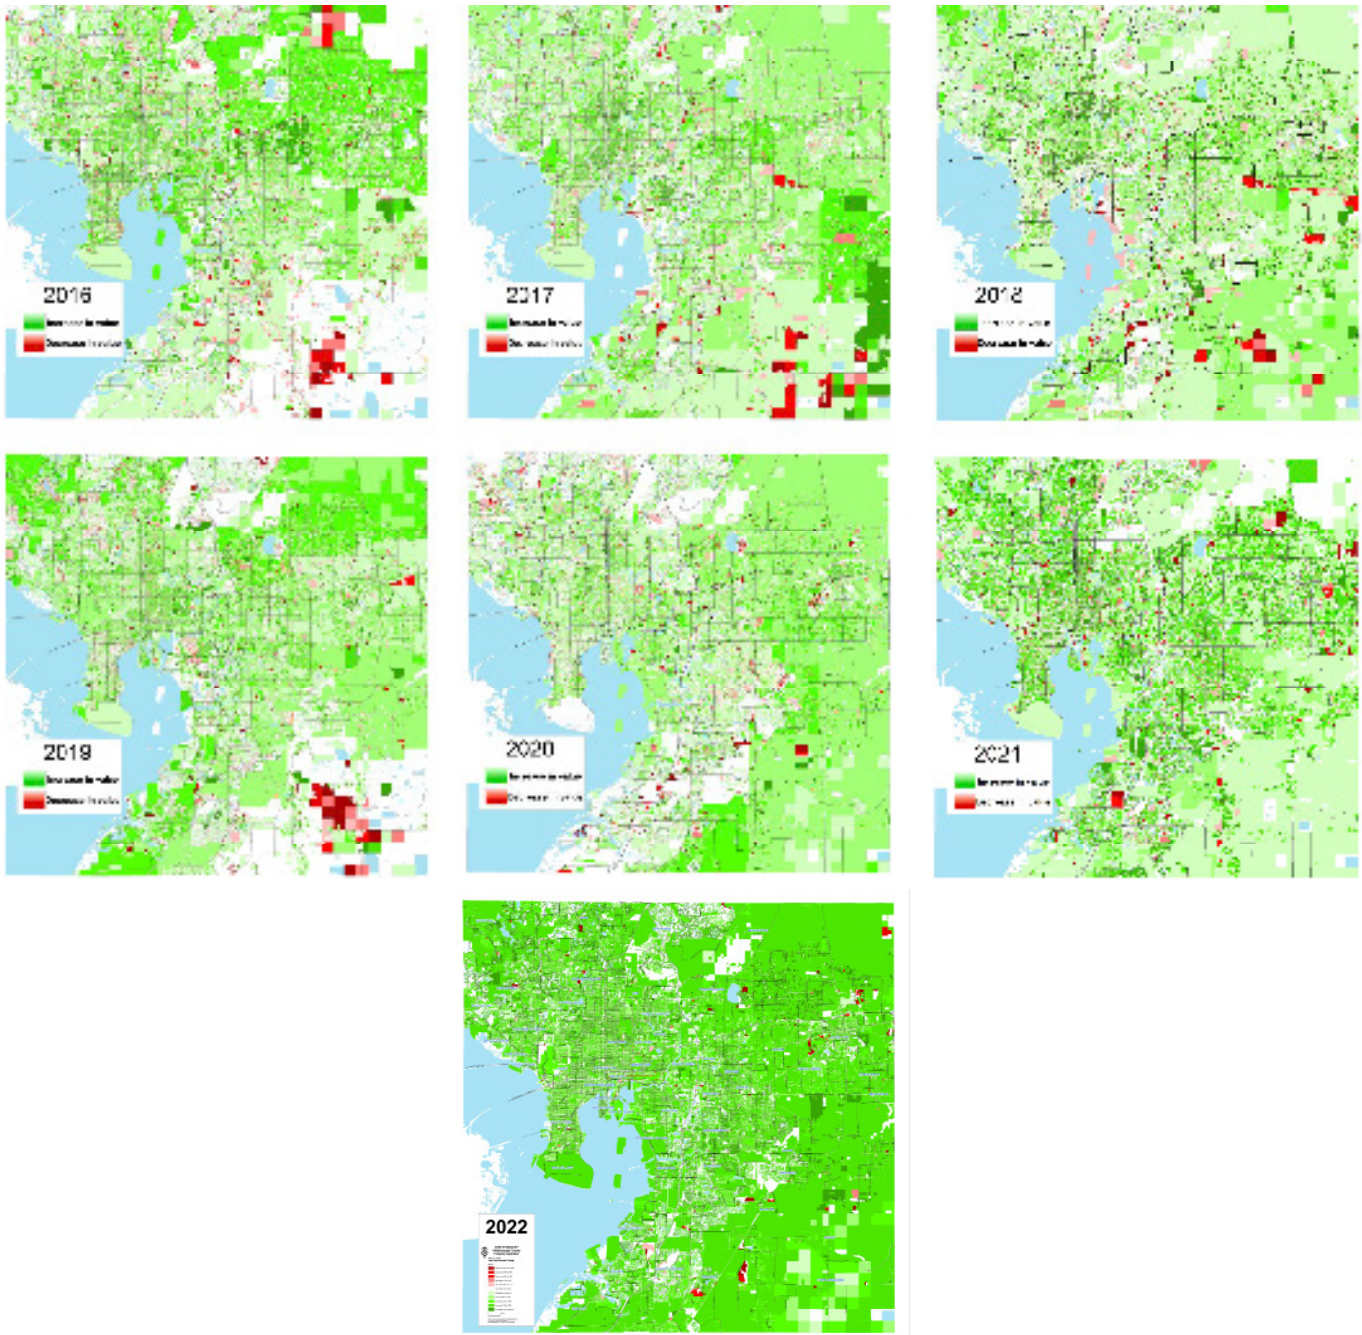

- Install new dedicated internet fiber lines at the data centers in Brandon and downtown Tampa offices for improved resiliency of network, cyber security, and protection of HCPA data.
- Launch new, updated website with improved and expanded features and ease of use for public.
- Upgrade all network hardware for improved security.

Innovation:

The HCPA Innovation and Digital Transformation (IDT) department is tasked with developing and launching new directives of Property Appraiser Bob Henriquez. For FY 22/23, IDT led the effort to implement a new cloud-based telephone system, maintained a "live chat" feature on the HCPA website, spearheaded the effort to improve office's network security, and implemented new dedicated internet fiber lines to help ensure redundancy in case of an outage.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

The Hillsborough County Property Appraiser is not required to submit their budget to the County for consideration during the budget process. They submit their budget directly to the State of Florida for approval. Once approved by the State, the Property Appraiser provides the County a copy of the approved budget.

Office of the Public Defender

(813) 272-5980 | pd13.state.fl.us

The Office of the Public Defender is provided for in the Florida Constitution and is statutorily required to represent indigent persons who are charged with felonies (including homicide), misdemeanors, criminal traffic offenses, violations of probation, violations of local ordinances, and requires attorney representation of juveniles who are alleged to be “delinquent”. Assistant Public Defenders also represent individuals held under the “Baker Act,” as well as persons detained under the involuntary Civil Commitment for Habitual Sexual Predators Act.

FY 22 and FY 23 Accomplishments:

- The office was responsible for the full implementation of its client communications and document sharing portal.
- Increased video recorded deposition and court appearances.
- Implemented its employee emergency communication system.

FY 24 and FY 25 Core Goals:

- Provide legal representation to indigent defendants charged with criminal offenses by protecting the clients’ constitutional right to due process and equal protection.
- Provide first-time offenders charged with non-serious offenses with diversion and intervention programs, which 1) increases public safety by allowing law enforcement to properly align investigative resources, and 2) improves the criminal justice system by reducing recidivism rates.
- Increase public safety by ensuring appropriate and ethical attorney caseloads, timely case disposition, and the efficient use of taxpayer money to benefit the clients, all parties in the criminal justice system, and Hillsborough County residents.
- Increase in the efficiency of the criminal justice system through technology for case management, document management, witness management, data exchange, and e-service to eliminate redundant work, which allows staff resources to be reallocated to handle the office’s constitutional responsibilities.

FY 24 and FY 25 Key Projects:

- Migration to cloud-based storage solution of discovery materials and audio/video evidence exchanged with other criminal justice partners.
- Implementation of an information technology network-managed service.

Innovation:

The Office of the Public Defender has continued to take advantage of advancing technology to improve the efficient and effective services provided by the office. In FY 22-23, the Office of the Public Defender implemented the final phase of a paperless environment by fully automating the First Appearance Court intake process and obtaining electronic Applications of Indigency, Invocation of Rights, and client signatures.

Hillsborough County Sheriff's Office

(813) 247-8200 | teamhcsso.com

The mission of the Hillsborough County Sheriff's Office (HCSO) is to serve, protect, and defend the community while preserving the rights and dignity of all. HCSO employs approximately 3,600 personnel, and provides law enforcement and 911 call dispatch services for approximately 1,051,231 residents of unincorporated Hillsborough County, as well as detention and court security services to a population of more than 1.5 million throughout Hillsborough County. Only one of Florida's 67 sheriffs' offices serves a larger population. HCSO continuously pursues and implements improvements and efficiencies to meet the public safety needs of the large and growing population the office serves.

HCSO uses grant funding for traffic safety education and enforcement operations to reduce speeding.

FY 22 and FY 23 Accomplishments:

- HCSO conducted multiple undercover operations to identify and target individuals involved in human trafficking, and investigations involving fatal and non-fatal overdoses. HCSO made 225 arrests and were able to recover and assist nine victims of human trafficking; 135 suspects were arrested for their involvement in opioid related overdoses and 11 suspects were federally indicted for Distributing Heroin or Fentanyl Resulting in Death.

- HCSO has an 8-week Veterans Resurgence Program to prepare veterans to re-enter society mentally healthier and better equipped with life skills to help them gain employment upon release. The HCSO Vocational Training facility provides classes in which inmates earn certificates in various trades, including welding, automotive, retail, service, and hair braiding. The Sheriff presents each graduate with a certificate.
- Since the inception of the HCSO Law Enforcement and Detention Training Academy in early 2022, HCSO has graduated three law enforcement and three detention academies. To

One of the communication towers providing two-way radio communications within the County is shown.

date, the Sheriff's Training Academy has successfully graduated 66 law enforcement deputies and 29 detention deputies.

FY 24 and FY 25 Core Goals:

- **Public Safety** – Reduce criminal activity and conditions that foster crime and fear of crime.
- **Child and Elder Protection** – Safeguard, protect, and promote the well-being of Hillsborough County children and elderly populations.
- **Traffic Safety** – Reduce traffic crashes and unsafe driving behavior through education and enforcement.

FY 24 and FY 25 Key Projects:

- In order to provide people with access to firearm education and safe weapons handling, HCSO has partnered with Shooters World to offer free concealed carry permit classes to individuals who would like them ahead of the law going into effect.

HCSO Training Academy graduates pose with Sheriff Chad Chronister

- In an effort to enhance the office's forensic capabilities, HCSO plans to add Biology/DNA and Chemistry sections within the Forensic Services Bureau. This will allow all DNA and seized drug cases to be processed in-house providing faster completion times and additional investigative information directly to law enforcement personnel.
- The addition of the Firearms Section within the Forensic Services Bureau gives HCSO the ability to perform direct comparative analysis on bullets, cartridge cases and firearms providing faster completion times and additional investigative lead information directly to law enforcement personnel.

Innovation:

As part of the Sheriff's Office multi-year communications plan, HCSO has been working to upgrade its two-way radio communications systems within the county from a legacy 800 MHz system to a 700 MHz P25 communications network. HCSO achieved this goal in June 2022, by providing its personnel with the latest technology and equipment resulting in improved radio coverage and enhanced inter-operable radio communications within Hillsborough County.

A firearms comparison is performed at the Firearms Section at the HCSO Forensic Services Bureau.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

The Sheriff's budget was developed with an emphasis placed on cost saving measures and efficiency of services. This budget includes increases in FRS contribution obligations, equipment maintenance, fuel and supplies. Additional provisions for new vehicles, technology upgrades, facility improvements, and the implementation of a DNA lab are also included.

State Attorney – 13th Judicial Circuit

Tampa Office: (813) 272-5400 | Plant City Office: (813) 757-3890 | sa013th.com

Article V, Section 17 of the Constitution of the State of Florida charges the State Attorney with being the Chief Prosecuting Officer of all criminal trial courts in the Circuit. Chapter 27 and 29 of the Florida Statutes and the Florida Rules of Criminal Procedure further define the duties of the State Attorney. The State Attorney, with the aid of appointed assistants and staff, appears in the Circuit and County criminal courts to prosecute offenders or defend the state of Florida in all suits, applications, or motions (civil and criminal) in which the State is a party.

FY 22 and FY 23 Accomplishments:

- The agency processed over 72,000 criminal referrals.
- The agency achieved a successful transition to State Attorney Susan Lopez following the suspension of the former State Attorney.
- The agency has increased trust with the community and law enforcement partners by ensuring all criminal referrals are evaluated on a case by case basis.

FY 24 and FY 25 Core Goals:

- Address prosecution of violent juvenile offenders in order to ensure public safety.
- Restructure gun violence prosecution unit to better address the evolution of gun-related crimes and arrests.
- Continue migration to a paperless system for First Appearance Court dockets.

State Attorney Susan Lopez joins law enforcement partners Hillsborough County Sheriff Chad Chronister and Tampa Police Chief Lee Bercaw at a community event.

FY 24 and FY 25 Key Projects:

- Continue to develop informative and efficient systems for communication with crime victims to ensure they know the status of the case and additional support services available to them.
- Continue to evaluate and update the agency's data dashboard and prosecutorial performance indicators to provide transparency and accountability to the community.
- Continue to analyze and study prosecutorial processes and case resolutions that reduce recidivism, increase public safety, and enhance trust with the County's community stakeholders.

Innovation:

First appearance court is critical to public safety given that during a Defendant's first appearance decisions about bail, conditions for release from jail, and pretrial detention are made. Through technology and work with our criminal justice partners, the agency has now created a dashboard that puts all critical information, including criminal history, other pending cases, and crime victim information, in a quick, accessible format. This allows our prosecutors to make important legal arguments that help keep our community safe.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Number of cases managed as mandated by F.S. 27.02:	72,129	72,850	73,579	74,315
Number of cases per FTE (number of attorneys = 126)	572	578	584	590

State Attorney - Part I

Appropriations	FY22 Actual	FY23 Adopted	FY24 Adopted	FY25 Planned

Total	\$ 2,376,246	\$ 2,612,052	\$ 3,687,647	\$ 3,682,251

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased costs for continued support of software and hardware maintenance.

CAPITAL AND OTHER EXPENDITURES:

- The increase in capital expenditures is primarily the result of funding for new and replacement technology equipment.
- The increase in grants and aids includes funding for Information Technology staff which represents the minimum requirements to maintain and support the operations and management of the Office of the State Attorney in the areas of: data reporting, performance accountability, case management, and data collection.

State Attorney, Part II – Victim Assistance

(813) 272-6472 | sao13th.com

Hillsborough County’s Victim Assistance Program provides victims and witnesses with resources and support throughout their involvement with the criminal justice system. Counselors help victims with any issues associated with the court process and victimization. The Victim Notification Unit helps keep victims informed, whenever possible, of crucial court dates and proceedings. The Worthless Check Diversion Unit provides assistance to victims of bad checks.

FY 22 and FY 23 Accomplishments:

- The program received proclamations from both the Board of County Commissioners during National Crime Victims’ Rights Week and as a part of the Domestic Violence Task Force for its work on behalf of victims in Hillsborough County.
- With the passage of the Marsy’s Law Amendment, the program continues to address the expansion of victims’ rights and services to include, but not limited to, first appearance court, information on victim opt-in procedures, and confidentiality.
- Assisted the Domestic Violence Task force to improve the rights of domestic violence victims with regards to the no contact order issuance in arrests for domestic violence cases.

FY 24 and FY 25 Core Goals:

- The program will notify victims about crucial court dates and proceedings. This will result in an improved prosecution rate and a safer community.
- The program will assist and educate all victims of crime to improve safety in the community.
- The program will provide escorts to court hearings and depositions, as needed. This increases participation by victims throughout the prosecutorial process and provides support for both victims and prosecutors.

FY 24 and FY 25 Key Projects:

- Offers public presentations and information booths throughout Hillsborough County. This will increase awareness of services and demonstrate achievements of the Board of County Commissioners’ Strategic Plan priorities.
- Continued work with S.P.A.N. (Service Providers Advisory Network) to provide informative forums that educate the community in areas such as special victims, domestic violence, and human trafficking.
- Created an additional Domestic Violence informational brochure, which is distributed to the community through law enforcement. This brochure is in addition to a comprehensive victim rights brochure, also distributed through law enforcement, which provides necessary resources for victims of crime.

Members of the Victim Assistance Program accepting a special recognition from the Hillsborough County Board of County Commissioners.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- In FY24, one position is changed from a part-time position to a full-time position to improve overall Domestic Violence (DV) services.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of insurance assessments.

Supervisor of Elections

(813) 744-5900 | votehillsborough.gov

The Hillsborough County Supervisor of Elections allows residents to fairly and efficiently elect local, state, and federal officials, and to vote on issues. The office maintains one of the largest voter registration databases in the United States, using data and strategic planning to serve the county's growing population in a fiscally responsible way. In preparation for each election, the agency conducts community outreach, works with candidates, tests and maintains election technology, and trains and manages thousands of poll workers, all culminating in the accurate and timely reporting of election results. As the first elections office to earn the Governor's Sterling Award, the agency is a role model for performance excellence.

After every election, the Canvassing Board conducts a post-election audit in which every tabulated ballot is scanned into a separate system to compare and confirm the results.

Supervisor of Elections Craig Latimer has been reminding voters who want to vote by mail that they have to submit a new Vote By Mail request after each countywide election cycle.

FY 22 and FY 23 Accomplishments:

- During the 2022 election cycle, the Supervisor of Elections provided the means for more than 484,000 voters to participate in choosing the state's governor, senator, and other elected officials with convenient voting options, minimal wait times, and timely results reporting. The office also conducted three municipal elections in the cities of Tampa and Plant City in 2023.
- For each election, the office operated in a transparent manner with multiple opportunities for public observation and exceeded Florida's requirements by conducting a post-election audit in which every ballot cast was scanned into another separate scanning system to confirm the results of the election.
- After the Board of County Commissioners, School Board, and Florida Legislature redrew district boundaries to reflect population changes, the office adjusted precinct lines to minimize "splits" which occur when a new district line bisects an existing precinct, causing voters on one side of a precinct to have a different representative than another. Throughout this process, a key priority was to maintain consistency, keeping voting locations the same whenever possible.

FY 24 and FY 25 Core Goals:

- The Supervisor of Elections will provide citizens with accessible, convenient opportunities to participate in democracy by conducting countywide and municipal elections, including the 2024 Presidential Preference Primary, 2024 Primary Election, 2024 General Election, the 2024 and 2025 Plant City Municipal and Runoff Elections, and any special elections that may be called.
- The Supervisor of Elections will continue to protect the integrity of the county's elections through redundant systems, contingency plans, and robust cybersecurity measures in partnership with the Department of Homeland Security, the FBI, other law enforcement agencies, and technology experts.
- As the county approaches one million registered voters, the office will continually update voter information by using verified information from voters, the U.S. Postal Service, and the Florida Department of State, thus ensuring the most accurate voter list possible.

FY 24 and FY 25 Key Projects:

- The Supervisor of Elections will renovate its Elections Service Center with an enlarged Early Voting room to better serve voters. This room is also a place for public observers to see into a newly expanded tabulation and audit room.
- In compliance with new Florida law, the elections office will send a non-forwardable mail piece to every registered voter. This mailing will help the office identify and process address changes and provide useful election information to voters in advance of the 2024 elections.
- The Supervisor of Elections will conduct an ongoing, robust communications campaign throughout 2024 so that voters can

choose their preferred method of voting and make their voting plan with a clear understanding of the deadlines and requirements for voting by mail and in person.

Innovation:

In 2022, the office developed, designed, and implemented a series of dynamic, integrated digital dashboards to track data and processes pertaining to polling places and poll worker recruitment, retention, and training. These dashboards enabled Poll Worker Services and the Training department to dramatically increase efficiency and accuracy, while reducing the amount of time spent managing the recruitment process. By integrating a multitude of complex and interrelated recruitment, retention, and training processes and systems that had previously existed on several different platforms using different technologies, the department could focus on providing the best possible service to poll workers.

Before every election, the Canvassing Board conducts a public Logic & Accuracy test to ensure the voting equipment is set up to tabulate ballots accurately.

Supervisor of Elections Craig Latimer talks to community groups and local leaders.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
The most important thing the office does is conduct elections that are fair, accessible, and accurate so that residents in the community have a voice in the County's governance. (Planned elections include potential runoffs; special elections may also be required.)	General Election	Tampa Municipal and Runoff Elections; Plant City Municipal Election	Presidential Preference Primary; Primary Election; Plant City Municipal and Runoff Elections	General Election; Temple Terrace Municipal Election; Plant City Municipal and Runoff Elections
The office secures and equips voting locations for voters in Florida's fourth most populous county. Early Voting sites are open weekdays and weekends in locations convenient to where voters work, live, or play. Election Day sites are neighborhood-based because Florida law requires Election Day voters to vote in their precinct.	Countywide Election: 26 Early Voting sites; 246 Election Day polling places	Tampa elections: 7 Early Voting sites; 66 Election Day polling places; Plant City election: 1 Early Voting site; 1 Election Day polling place	Countywide elections: 26 Early Voting sites; 260 Election Day polling places; Plant City elections: 1 Early Voting site; 1 Election Day polling place	Countywide election: 26 Early Voting sites; 260 Election Day polling places; Temple Terrace election concurrent with General Election; Plant City elections: 1 Early Voting site; 1 Election Day polling place
In an effort to increase polling place efficiency and voter turnout, the office encourages voters to take advantage of the convenience of Early Voting and Vote By Mail during countywide elections.	68% of voters voted before Election Day	At least 50% of voters voting before Election Day	At least 65% of voters voting before Election Day	At least 65% of voters voting before Election Day

Supervisor of Elections

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

The budget for the Supervisor of Elections changes year-to-year based on the number of general and special elections held. The FY 24 budget includes funding for the 2024 Presidential Election cycle, a 3% cost-of-living adjustment for permanent staff, plans to renovate the Elections Service Center, and an ongoing focus on ensuring secure processes and systems.

Tax Collector

(813) 635-5200 | hillstax.org

The Tax Collector is a constitutional officer elected every four years in the presidential election cycle to independently carry out state duties at the local level, as provided by state law, for the collection and distribution of revenues. The current Hillsborough County Tax Collector, Nancy C. Millan, was elected in 2020 and took office in January 2021 after serving in the organization for more than 30 years.

Services provided by the Hillsborough County Tax Collector's Office (HCTC) include the collection of local property taxes, tangible personal property taxes, business taxes, and tourist development taxes, as well as the issuance of vehicle-for-hire permits. Collections from these services are then distributed to local municipalities and taxing authorities to fund vital government services in Hillsborough County. HCTC also provides several state services at the local level, including the registration and titling of motor vehicles, vessels, and mobile homes, as well as the issuance of driver's licenses and ID cards, birth certificates, concealed weapons licenses, and hunting and fishing licenses. HCTC also collects and clears toll violations from several expressway authorities.

HCTC earns commission and fees for the services it provides, as established by the Florida Legislature and outlined in Florida Statutes. HCTC's annual budget is approved by the Florida Department of Revenue. Any fees and commissions earned by HCTC that exceed the annual budget needed for the efficient operation of the office are remitted to the County as unused or excess funds – which the County uses to support local initiatives and programs.

FY 22 and FY 23 Accomplishments:

- **Branch Customer Experience Enhancements:** To improve the customer experience when visiting an office, HCTC installed a new appointment and customer queuing system from Qmatic, an industry leader in this space. The system allows for skill-based routing, mobile customer check-in, mobile service ticketing options, and automated follow-up surveys. Customers making appointments for service through the office's website are able to select available appointment dates, times, and locations through a single-user interface in both English and Spanish. After the service, customers are sent a link to a survey to provide feedback on their experience to drive future service delivery improvements.
- **Ensuring Security of Data Systems and Business Continuity:** To secure data and information systems, HCTC moved its networking environment to the Public Safety Operations Complex (PSOC), which contains most of Hillsborough County's IT infrastructure. This building is rated to withstand Category 5 hurricanes, and ensures the redundancy in the network infrastructure necessary for continuity of service to the public in the event of an emergency.

- **Branch Sound Quality**

Improvements: With thousands of customers visiting Tax Collector offices daily, the noise level in the larger branches in Drew Park and Brandon made it difficult for staff to clearly communicate with customers due to the open-concept ceilings. To remedy this issue, the ceilings were lowered, and acoustical tiles were installed in these locations to improve the sound quality and communication with customers.

FY 24 and FY 25

Core Goals:

- Enhance service delivery and accessibility through innovative service delivery options and reduced wait times. Everyone has to visit a Tax Collector's Office – whether they need a driver license to travel or get a job, or a boat registration and fishing license to enjoy our waterways. The HCTC's goal is to make it easy to do business and deliver exceptional service. HCTC maintains high customer satisfaction ratings of 96%.
- Ensure fiscal accountability and meet/exceed regulatory requirements. The distribution of public funds is a primary responsibility of HCTC, and sound financial management practices ensure public trust in the agency. The HCTC completed 100% of fund distributions accurately and on time in compliance with Florida Statutes, and has a continuing trend of successful financial audits with no findings.
- Promote and grow convenience and self-service options. As Hillsborough County continues to grow, HCTC drives innovation to provide service delivery options that meet the growing demand for convenient services. It is HCTC's goal to offer convenient service options in person, by mail, and online. For example, in FY 2022, HCTC processed 96% of mail payments the same day as received, ensuring fast turnaround on mail payment services. Additionally, utilization of registration renewal kiosks located

throughout the county in HCTC offices and some Publix locations has increased significantly – from 14,236 transactions in FY 2019 to 68,498 transactions in FY 2022.

FY 24 and FY 25 Key Projects:

- The North Tampa Branch will be expanded to increase lobby space, add more customer service windows, and deploy self-service stations for customers to complete pre-transaction paperwork before they are directed to a staff member to complete their transaction or to complete easy transactions – such as making a property tax payment – without having to wait for service.
- Virtual agents in the office’s contact center will be able to remote access customer service windows in branch offices to call customers to the counter and process their transactions – allowing for prompt allocation of staff resources where services are needed most.
- The expansion of online services continues by adding the ability to renew disabled parking permits online.
- Automated lockboxes with 24/7 access will be available at most HCTC locations for customers to drop-off and pick-up processed work – a great option for dealers and title services that make frequent trips to HCTC offices.
- HCTC will be among the first Tax Collectors in the state to deploy mobile service units to bring motor vehicle and driver’s license services to the community and facility-bound residents.

Innovation:

In February 2022, HCTC launched Online Insurance Affidavits for customers whose car insurance is not updated with the State of Florida’s Department of Highway Safety and Motor Vehicles and are required to submit an insurance affidavit before their registration can be renewed. Previously, customers had to complete a paper affidavit and could not renew online, requiring them to visit an office for service. Now, customers can save time and money by skipping the trip to an office and completing their affidavit and renewing their registration online in a few easy steps.

Tax Collector Nancy C. Millan and her Senior Leadership Team are shown.

The Tax Collector’s Office hosted an educational outreach event for the Hispanic community during Hispanic Heritage Month.

The Hillsborough County Tax Collector’s Office received the Excellence in Financial Operations Award from the Florida Tax Collector’s Association as a result of its focus on fiscal accountability.

The Hillsborough County Tax Collector's Office serves over 1 million customers each year.

Performance Measure	FY 22 Actual	FY 23 Projected	FY 24 Projected	FY 25 Projected
Customer satisfaction rating is based on feedback received from public customers served in our branch offices (text/ email survey or comment card after visit) or by phone (after phone call). HCTC maintains consistently high customer satisfaction ratings. In FY 2022, HCTC collected over 196,000 surveys (152,000 from in-person customers and 44,000 from phone customer). Satisfaction is based on top-box ratings - Excellent and Very Good.	96%	96%	96%	96%
This measure represents the total number of customers served in HCTC's eight branch offices for in-person transactions. Total branch customers served continues to increase. Based on population increases in Hillsborough County, increases in the number of customers served are expected to continue. Projections are estimates only based on historical trends and population growth.	915,136	935,000	945,000	950,000
HCTC processes the following types of transactions: property taxes, business taxes, tourist development taxes, tangible personal property taxes, driver licenses (including written and road testing), Florida ID cards, titles and registrations (for motor vehicles, vessels and mobile homes), disabled parking permits, hunting & fishing licenses, Florida birth certificates, concealed weapons permits, and vehicle-for-hire permits. The figures represent the total number of transactions completed by HCTC for all services. Projections are estimates only based on historical trends and population growth.	2,343,859	2,400,000	2,450,000	2,500,000
This measure represents the total dollars collected for all local and state services provided by HCTC. Projections are estimates only based on historical trends.	\$2,822,699,298	\$2,963,000,000	\$3,112,000,000	\$3,267,000,000
This measure represents the number of transactions completed per FTE. HCTC has 385 FTEs, with the highest number of staff in operations departments serving customers. Projections are based on expected population growth resulting in an increase in transactions.	6,088	6,200	6,400	6,500

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

The budget presented for the Tax Collector does not represent the organization's State approved budget. It represents the dollar amounts that the County Commission has paid or is estimated to pay to the Tax Collector as the statutory fee for collection of taxes on behalf of the County Commission and School Board as a taxing authority. Other taxing authorities paying commissions to the Tax Collector for the collection of ad valorem taxes include the Tampa Port Authority, the Children's Board, HART, the Southwest Florida Management District and Tampa Palms. Florida Statutes require that the Tax Collector's operating budget be submitted on or before August 1st of each year and be approved by the Department of Revenue and that commissions be paid to the Tax Collector by the County and other taxing authorities for the collection of ad valorem taxes. The Tax Collector returns excess fees (residual equity) remaining at the end of the fiscal year.

13th Judicial Circuit, Administrative Office of the Courts

(813) 272-5894 | fljud13.org

The Trial Court Administrator performs a range of functions to assist the Chief Judge in carrying out administrative duties related to the operation of the County and Circuit Courts within the 13th Judicial Circuit. The executive of the Administrative Office of the Courts is responsible for ensuring there are adequate resources available, including personnel and budgetary. The duties range from management-of-court programs to facilities management. Other duties include, but are not limited to: caseload management, information system oversight, court technology and communications, dispute resolution alternatives, the development of policies and procedures, new program and service proposals, public information, interagency coordination, justice administration analysis, program performance audits, contract negotiations, and other administrative duties associated with day-to-day operations of the court.

Evidenced-based assessments are used in Juvenile Diversion programs to determine appropriate sanctions and services.

FY 22 and FY 23 Accomplishments:

- Established a hybrid model for parent/child supervised visitations at the Criminal Justice Center (CJC) to include both remote and in-person services, minimizing wait time and increasing access.
- Upgraded Criminal Annex core switches and improved Antivirus services to maximize virtual security.
- Developed a multi-track program for Drug Pre-Trial Intervention, which

provides separate requirements for participants based on their individual risk and need. The team developed contracts and participant handbooks for each of the four tracks.

- Established Behavioral Health Programs, a comprehensive internship program, to create field placement opportunities for college-level students in court programs (Children's Justice Center, Problem Solving Courts, and Juvenile Diversionary Programs) and required clinical supervision as students progress towards licensure.

FY 24 and FY 25

Core Goals:

- Enhance the office's abilities to identify victims of human trafficking across all divisions of the court and make meaningful referrals that may change the life of victims.
- Create a plan to address process evaluation recommendations, as identified by the University of South Florida, to enhance Drug Pre-Trial Intervention.

FY 24 and FY 25

Key Projects:

- Finalize Juvenile Diversion Program (JDP) relocation from 700 Twiggs to the Pat Frank Court Building to offer more efficient services to juveniles and parents, including observed drug testing.
- Expand Behavioral Health Program services to include evidence-based practices and direct services for pro se litigants in family law cases.
- Upgrade storage for production servers and virtual desktop environment. Upgrade agency firewall and blade servers to support disaster recovery.

Innovation:

Court technology has been instrumental to the office's success. Post-pandemic, many hearings are hybrid; therefore, people attend both virtually and in-person. Hybrid hearings support fairness and access to justice. During the pandemic, courtrooms were made conducive to remote technology, but technology was difficult to receive quickly. The 13th Judicial Circuit, Administrative Office of the Courts is moving towards the standardization of courtroom equipment to include jury deliberation rooms.

Court technology staff evaluate firewall equipment in the Network Operating Center.

**BUDGET CHANGES AND OPERATIONAL IMPACT
FY 23 to FY 24**

Chapter 200-445 of the The Charter Review Board convenes every five years to conduct a comprehensive study of any or all phases of county government.

The Board will convene in FY25.

Environmental Protection Commission

(813) 627-2600 | epchc.org

The mission of the Environmental Protection Commission of Hillsborough County (EPC) is to protect the natural resources, environment, and quality of life in Hillsborough County. EPC accomplishes this by protecting air, water, and soil from pollution, in addition to safeguarding wetlands and helping control nuisances such as noise and odor. EPC promulgates relevant environmental rules, and based on these rules, it issues permits and authorizations. Agency staff conducts routine compliance inspections to ensure that the terms of each permit and authorization are being met. EPC also maintains robust air and water quality monitoring networks to ensure good environmental health.

EPC lab staff analyzes benthic samples collected from Tampa Bay, which supports the assessment of the Bay's health.

FY 22 and FY 23 Accomplishments:

- EPC now operates one of only two Photochemical Assessment Monitoring Stations (PAMS) in Florida. The main objective is to develop a database of ozone precursors and meteorological measurements to support ozone model development and track the trends of important ozone precursor concentrations. Ozone is one of six criteria air pollutants identified by the U.S. Environmental Protection Agency (EPA).
- A delegation from the White House Council on Environmental Quality

toured several EPC sites, including two Brownfield cleanup locations. The redevelopment and cleanup of Brownfield sites in Hillsborough County have resulted in significant property value increases of more than \$713 million. The site visits were followed by a roundtable session relating to the protection of the environment and public health concerns.

- EPC utilized \$35,000 of Pollution Recovery Funds (PRF) to support a collaboration between EPC, the Florida Department of Health, Hillsborough County Public Schools, and Mosaic Fertilizer to study radon levels near Mosaic's

phosphogypsum stack in Riverview. This is an extension of the initial study conducted over a decade ago to continue the assessment of radon levels in relation to the size and location of the stack.

FY 24 and FY 25 Core Goals:

- EPC continues to work toward updating its Solid Waste Rule, Chapter 1-7, in order to provide additional clarification, codification of existing requirements, and accurately reference updated State regulations. This update will positively impact residents, developers, and business owners by providing greater clarification, accuracy, and consistency.
- EPC intends to update and implement a revision of the EPC Noise Rule, Chapter 1-10, to provide additional language clarification, improve consistency, and standardize the methodology for noise sampling.
- Through Inter-local Agreements, EPC, the County, and the City of Tampa will continue to work together to monitor and correct non-point source pollution loads to the county's rivers, streams, and bays. This will help ensure Hillsborough County residents and tourists continue to enjoy safe recreational opportunities on the waterways.

FY 24 and FY 25 Key Projects:

- EPC is partnering with the University of South Florida, the Federal Highway Administration, and Hillsborough County Transportation Planning Organization on a low-cost air quality monitoring study. This study involves the installation of multiple low-cost air quality monitors in low-income communities near the I-275 and I-4 transportation

corridors and will correlate the impact of transportation emissions on these often-underprivileged neighborhoods.

- As a result of changes in site qualification criteria for petroleum cleanup sites implemented by the Florida Department of Environmental Protection, EPC will be responsible for managing and overseeing 150 additional cleanup sites. EPC anticipates the need to recruit and train up to six new cleanup site management positions.
- EPC will collaborate with other researchers to collect important information on chronic sources of bacterial contamination in local waterways. Using microbial source tracking and advanced DNA markers to pinpoint where contamination is entering creeks and streams will allow scientists and engineers to fix aging or damaged infrastructure. This will eliminate a key public health risk in the county's surface waters and is intended to reduce sanitary sewer overflows into water bodies so that Hillsborough County continues to meet targets for nutrient loading into Tampa Bay.

further investigation to determine their effects on citizens' health and the health of Tampa Bay. PRF grants were also used to support research using microbial source tracking and advanced DNA markers to pinpoint where bacterial contamination is entering creeks and streams in Hillsborough County and the potential sources of the contamination.

EPC was pleased to host the return of the annual Clean Air Fair in downtown Tampa, marking the celebration's 19th year.

Hillsborough Transportation Planning Organization

(813) 272-5940 | PlanHillsborough.org

The Hillsborough Transportation Planning Organization (TPO) is a transportation policy-making board mandated by federal and state law. The TPO is responsible for making sure federal and state dollars are spent on transportation projects supported by the community, based on a continuing, cooperative, and comprehensive planning process. The TPO board includes members of all local government governing boards and transportation authorities, as well as the School Board and the Planning Commission.

Hillsborough TPO
Transportation
Planning Organization

FY 22 and FY 23 Accomplishments:

- Connecting with the County's facilitative leadership strategy, the TPO and Planning Commission received an American Planning Association Florida Chapter Award of Excellence for the Future Leaders in Planning (FLiP) Jr program, a collaborative effort of the TPO, Planning Commission, and Tampa Heights Junior Civic Association. It was recognized for getting children and families involved in community planning through a grassroots, interactive, youth-centered approach.
- At a 2022 hearing, the TPO Board approved a Transportation Improvement Program (TIP) that included \$4.2 billion in funding for transportation projects within this county, including the widening of US 92 at McIntosh Rd., the reconstruction of the I-75/Fowler Ave. interchange, and the Heights Mobility Project. Additionally, the TPO initiated a new pilot program to improve public awareness of TIP amendments that are slated to be considered by the Board. The now-institutionalized extra steps include creation of a social media post, newsletter article or press release, a dedicated webpage, and roadside signage for each amendment. This change greatly increased the number of comments received from the general public.
- The American Planning Association's 2022 State of Transportation Planning Report featured the TPO's Nondiscrimination & Equity Plan of 2021, alongside three other cities evaluating transportation performance measures as they relate to demographic groups. APA stated, "The Hillsborough TPO recognized that underserved and underrepresented people were historically disenfranchised from the decision-making process, disproportionately burdened by negative planning outcomes, and needed special accommodations to be included in planning processes."

FY 24 and FY 25 Key Projects:

- Annual update of the countywide five-year Transportation Improvement Program (TIP), which assigns available federal and state funds and grants to projects within Hillsborough County and allows for public reference of all major projects by local governments and agencies.
- Prepare the countywide Long-Range Transportation Plan (LRTP) for the new horizon year of 2050. The LRTP addresses all modes of transportation and identifies priority improvements to focus on during the next 20+ years, meeting present and future growth needs within budget constraints. Major tasks include: forecasting growth and future traffic; estimating the costs of all kinds of transportation improvements including walk/bike, transit, maintenance, and operations; seeking public input on priorities; and

preparing cost-feasible financial scenarios, one of which will be adopted at a public hearing in November 2024.

- Annually review the performance of the Sunshine Line as the designated Community Transportation Coordinator for Hillsborough County and update the Transportation Disadvantaged Service Plan.

FY 24 and FY 25

Core Goals:

- The TPO will build on its FY 23 study of electric vehicle charging facility locational needs to create a broader needs assessment of how infrastructure can support autonomous, connected, electric, and/or shared vehicle ("ACES") transportation. The ACES study recommendations will be considered in the long-range transportation plan.

TPO staff provided a demonstration at the Tampa Heights Junior Civic Association of one of the new, low-cost air quality monitoring devices that will be funded with the upcoming US EPA grant project.

- The TPO will build on its several recent studies of transportation infrastructure vulnerability to extreme weather, as well as criticality for evacuation and reconstruction, by evaluating key investments for consideration in the long-range transportation plan. The evaluation will make use of a new Resilience Disaster Recovery tool being pilot-tested by the US DOT, which estimates the cost-benefit ratio of potential investments.
- In partnership with the County Environmental Protection Commission and USF College of Public Health, the TPO was selected by the US Environmental Protection Agency for a three-year discretionary grant to develop a community air quality monitoring project along interstate highway corridors. The goal is a grassroots monitoring network of community-based organizations which host low-cost monitors and share data with community members in real time on websites like purpleair.com.

The TPO’s Health Impact Assessment of Complete Streets documented that public health outcomes here in the county are different in different neighborhoods and that the variation is statistically related to transportation.

Innovation:

The TPO’s Freight Supply Chain Resilience Study, conducted in 2022, broke new ground by tracking how five critical product types get to the residents – food/groceries, fuel, water and wastewater, housing materials, and urgent healthcare services and supplies – and flagged key transportation facilities which may be vulnerable in disaster scenarios. The study resulted in 81 actionable recommendations to help the County address vulnerabilities at these key transportation facilities.

During the award-winning FLiP Jr. summer program for youth in community planning, students at Dowdell Middle Magnet School helped improve pedestrian safety by painting a marine-themed crosswalk.

Planning Commission

(813) 272-5940 | PlanHillsborough.org

The Hillsborough County City-County Planning Commission develops and recommends long-range comprehensive plans to the elected officials of Hillsborough County and the cities of Tampa, Temple Terrace, and Plant City. The agency coordinates land use, transportation, infrastructure, and environmental planning for all four local governments. The agency also provides staff to the Transportation Planning Organization and the Hillsborough River Board. The agency mission is: The Planning Commission promotes, coordinates, collaborates with, and facilitates the involvement of all people in the long range planning and vision for our community to improve economic development, quality of life, and provide value-added services.

Members of the public review maps for the Fowler Avenue Vision Study.

FY 22 and FY 23 Accomplishments:

- Planning Commission staff handled a record number of reviews while continuing to deliver high quality recommendations to guide our jurisdictions in their decision making. The number of consistency reviews for items like rezonings, special uses, land development code amendments, and port permits increased by 67% over FY21.
- Staff completed initiatives aimed at improving the content of the Comprehensive Plans to ensure they are addressing issues facing our community. For Plant City, new plan categories to allow for a lower density transition from the rural unincorporated county into the city were created. In The City of Tampa, policies addressing the importance

of preservation of cemeteries were developed.

- The Planning Commission staff completed required updates to the Comprehensive Plans of all four local governments to incorporate Private Property Rights Elements and update the 10 year Water Supply Facilities Work Plans. The the Intergovernmental Coordination Element for Hillsborough County was updated to ensure planning activities of our jurisdictions are being coordinated to best serve residents and meet the long-range vision.

FY 24 and FY 25 Core Goals:

- The Planning Commission will plan for growth and development to maximize the choices available to

all residents of Hillsborough County – choices of where they want to live whether urban, suburban or rural areas; choices in transportation and recreation opportunities; and choices for employment, shopping and other services.

- The Planning Commission will continue to monitor, evaluate and update Comprehensive Plans to ensure each addresses the long-range needs of the citizens of Hillsborough County, meets state law requirements and furthers the visions and strategic plans of all four local governments. By serving as staff to the Hillsborough River Interlocal Planning Board & Technical Advisory Council, the Planning Commission furthers the goal of protecting this potable water source, its natural resources, wildlife and habitat, and recreational opportunities available in and along the Hillsborough River, a community asset.

FY 24 and FY 25 Key Projects:

- At the request of Hillsborough County, the Planning Commission will be updating the Greater Palm River Community Plan and creating a new Community Plan for the Valrico Area. Community Plans are intended to be an extension and refinement of the County's Comprehensive Plan based on issues raised by local stakeholders.
- The Planning Commission will be focused on completing updates to sections of the City of Tampa Comprehensive Plan such as Land Use, Housing and Coastal Management. Work will begin on the updates of the Plant City and Temple Terrace Comprehensive Plans.
- The Planning Commission, in partnership with the City of Tampa and Hillsborough County, will complete a Fowler Avenue Vision Plan to achieve a cohesive redevelopment plan for East Fowler Avenue. The process includes coordination between jurisdictions and significant community and

stakeholder outreach to develop unified policy direction for the corridor.

Innovation:

In FY22 and 23, the Planning Commission moved to online Comprehensive Plan Amendment applications as well as fee payments. This customer friendly enhancement streamlines the processing of Comprehensive Plan Amendments and makes it more accessible. This was a critical efficiency for the agency at a time when we processed a record number of amendments for some jurisdictions.

Members of the public review maps for the City of Tampa's Redistricting public outreach.

Soil & Water Conservation District

(813) 477-8332 | hillsboroughswcd.com

The mission of the Hillsborough Soil and Water Conservation District (HSWCD), built around the District's theme, "Conservation is Everybody's Business," is to provide agricultural and conservation related programs, projects, and activities for youth and adult residents in inner-city, urban, suburban, and rural communities throughout the county. While annual programming includes a vast array of events, the district's showcase event is the annual Hillsborough 100 Conservation Challenge held between Earth Day in April and Soil Stewardship Week in May. This challenge engages agricultural groups, businesses, churches, civic clubs, educational institutions, families, governmental entities, schools, youth organizations, and others to conduct an array of projects. Challenge activities include road and river clean-ups; recycling of paper, plastic, and electronics; pollinator projects including wildflower and tree plantings; community and school gardens; and educational programs at fairs, festivals, and schools. Additionally, the district administers cost share programs for bona-fide agricultural operators to implement conservation programs.

FY 22 and FY 23 Accomplishments:

- Reached an audience of over one million people through exhibits featured at the Florida State Fair, Florida Strawberry Festival, Florida Ag Expo, EPC Clean Air Fair, Earth Day, and related events.
- Offered educational programming in agriculture and conservation to an audience of over 10,000 students through AgVenture, schools and scouts, 4-H, FFA, parks and recreation, religious youth organizations, community events, and more.
- Completed the highly successful 2022 Hillsborough 100

Conservation Challenge, featuring a major kick-off luncheon; 28 page full-color newspaper tabloid distributed through the Tampa Bay Times and at fairs and festivals throughout the year; and numerous events and activities in schools, parks, businesses, and other locations countywide,

- Continued pollinator, wildflowers, and tree planting events throughout the county.
- Advocated for agriculture and conservation issues before the Florida legislature on numerous occasions, and presented Hillsborough County's successful programs before the AFCD state meeting and the National

Florida

Association of Conservation District's annual national meeting.

FY 24 and FY 25 Core Goals:

- Support and expand conservation services to county farmers, growers and ranchers through project funding and program expansion.
- Continue growth and development of the Hillsborough 100 Conservation Challenge, bringing new and innovative programs to inner-city, urban, suburban, and rural audiences alike to increase understanding of the critical need for every resident to promote responsible stewardship of the environment and natural resources.
- Expand educational programming outreach to youth and adults at all types of events to maximize understanding of critical need to support soil and water conservation efforts.

FY 24 and FY 25 Key Projects:

- HSWCD has created a new innovation program offering mini-grants for youth groups conducting community conservation projects. The 2023 inaugural group of sixteen recipients include 4-H clubs; FFA chapters; boy, cub, eagle, and girl scouts; and others, with projects as diverse as building owl nesting boxes, planting pollinator gardens, developing recycling programs, and building vegetable and herb gardens to feed community members. In addition, HSWCD continues to award scholarships to students who pursue educational opportunities in agriculture, conservation, and environmental education fields.

- Continue the Hillsborough 100 Conservation Challenge activities throughout the year with a goal of nearly 100 programs, projects and activities through engagement with civic groups, schools, and other youth groups.

Innovation:

Following the major successful exhibit on conservation featured at the Florida State Fair, HSWCD in Nov. 2022 was provided an entire tent (40 x 60 feet) to promote “Conservation is Everybody’s Business” at the Hillsborough County Fair. The district created, developed, planned, and built the multi-faceted display featuring exhibits by USDA, NRCS, HSWCD, EPC, Rotary Brandon ECO, Operation Pollination, Farm Bureau, and other groups. Also included were student poster displays, a rain barrel decorating contest, youth horticulture competition, and the annual “Great Plant Auction” that raised almost \$8,000 for youth competitions and scholarships. In addition, the display featured the ever-popular areas for students to paint creative pollinator posters promoting positive messages, such as “BEE Responsible,” “Bee Kind,” and over 20 other messages, and to put their own touch on public painted rain barrels.

The 2023 Hillsborough Soil and Water Conservation District Board of Supervisors Oath of Office ceremony at County Center in January 2023. Pictured are HSWCD Executive Director Betty Jo Tompkins and Supervisors Ryan Gill, Mark Proctor, Robert “Myke” Morris and Christopher “Bear” McCullough. Not pictured, Supervisor Adam Young. Also in attendance, Hillsborough County Commissioners Michael Owen, Joshua Wostal, Donna Cameron Cepeda and Vice Chair Gwen Myers.

HSWCD’s “Our Perfect Pollinators” mural on display at the 2022 HSWCD tent at the Hillsborough County Fair. Inset photos, from left, Commissioner Michael Owen at the HSWCD Strawberry U-Pick at Fancy Farms in Plant City; youngsters engaged in HSWCD activities at community events; and the HSWCD Youth Horticulture Show grand champion at the Hillsborough County Fair.

Performance Measures

HSWCD’s Hillsborough 100 Conservation Challenge programs, projects, and activities continue to encourage county residents to be proactive in protecting the region’s soil and water resources. While the official challenge dates run between April and May annually, programming is achieved and encouraged throughout the year, with continuous innovation. Projects promoting “Operation Pollination” continue through 2024.

Advocacy relating to agriculture, conservation, and the 2023 Farm Bill continues, with presentations before the Florida Legislature and members of Congress at the federal level. Adequate funding is essential at local, state, and federal levels to successfully protect conservation interests for both the present and future.

The district educated the public by reaching an audience of over one million in the past year, including a 2,400 sq. ft. exhibit at the Hillsborough County Fair, as well as exhibits at the Florida State Fair, Florida Strawberry Festival, Florida Ag Expo, Clean Air Fair, and many other events.

This department is set up to provide a mechanism for the recording and payment of those items which are general government costs and are not distributed to specific departments. Representative costs include claim payment accounts in the county self insurance fund, outside legal services, the year-end audit, and funds for economic development programs.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

PERSONNEL SERVICES:

- A merit increase is budgeted.
- Increases for health insurance, long-term disability, and short-term disability are budgeted.
- During FY23, two positions were eliminated due to remaining vacant for longer than a year.
- Position transfers between Children's Services and Non-Departmental Allotments result in three additional positions.

OPERATING EXPENDITURES:

- The increase in operating expenditures is primarily the result of increased insurance assessments.
- The Dana Shores budget is increased by \$1,666,769.
- A one-time budget of \$500,000 is established for Revenue Consultant.
- The Commission on Human Trafficking has a one-time increase of \$300,000.

CAPITAL AND OTHER EXPENDITURES:

- The Carrollwood Village Community Park Land budget is increased by \$473,764.
- Emergency Management equipment budget is increased by \$100,000.

GRANTS AND AID:

- The following agencies are transferred to Nonprofit Organizations: Caribbean Festival, Gasparilla Bowl, Brandon Chamber of Commerce, Greater Riverview Chamber of Commerce, Plant City Chamber of Commerce, Safe and Sound Hillsborough, South Tampa Chamber of Commerce, Southshore Chamber of Commerce, Temple Terrace Chamber of Commerce and Ruskin Firehouse Cultural Center.

Details by agency are shown in the following pages.

Included in this budget is funding for social services competitive organizations, social services non-competitive organizations, cultural services competitive organizations, and cultural services non-competitive organizations. This funding is awarded to non-profit groups on a biennial basis for community functions not covered by departments of county government.

BUDGET CHANGES AND OPERATIONAL IMPACT FY 23 to FY 24

GRANTS AND AID:

- The majority of nonprofits are funded at continuation level for FY24 with the exception of several agencies that were funded on a one-time only basis in FY23. Several agencies are added and funded on a one-time only basis.
- The following agencies are transferred from Non-Departmental Allotments and other county departments: Caribbean Festival, Gasparilla Bowl, Brandon Chamber of Commerce, Greater Riverview Chamber of Commerce, Plant City Chamber of Commerce, Safe and Sound Hillsborough, South Tampa Chamber of Commerce, Southshore Chamber of Commerce, Temple Terrace Chamber of Commerce, Ruskin Firehouse Cultural Center, Healthcare Services Agency for Community Treatment Services, Prodigy, TampaWave, STEPS, Get Moving, Workforce Training, and Parks and Recreation UACDC.

Details by agency are shown in the following pages.

Reserves and Refunds

The following table presents a four-year comparison of reserves and refunds. Unlike most schedules in the various documents that comprise the Annual Budget, this table presents adopted budgets for each year. No actuals are presented. Under governmental accounting, reserves are not expended. Instead, when funds are needed, the budget is amended to reduce the budget for a particular reserve and appropriate more funds in the expenditure category where they are needed. That means there are never actual expenditures of reserves.

Reserves are lump sum dollars set aside in a budget for unanticipated needs. These moneys are not distributed or allocated to operating budgets because specific requirements are not known at the time of budget adoption, or because bond documents require their establishment.

Florida Statutes Chapter 129.01(2)(c) and (d) provides for the following reserves:

1. A reserve for contingencies may be provided in a sum not to exceed ten percent of the total of the budget.
2. A reserve for cash balance to be carried forward may be provided for the purpose of paying expenses from October 1 of the ensuing fiscal year until the time when the revenues for that year are expected to be available.
3. An appropriation for "outstanding indebtedness" shall be made to provide for the payment of vouchers which have been incurred in and charged against the budget for the current year, but which are expected to be unpaid at the beginning of the ensuing year for which the budget is being prepared.

General contingency reserves may be allocated to fund any lawful need as long as funding source guidelines are met. Specific use reserves are restricted to an individual purpose or program within the funding source. Once it has been determined that the specific need has been satisfied or is no longer necessary, the balance in these types of reserves may be reprogrammed into a general contingency account with the approval of the Board of County Commissioners through the budget amendment process. The reserve for cash balance carry-forward, however, may not be reprogrammed during the year.

Refunds are also included in this component of the budget and may be expended. However, refunds constitute a small proportion of the budget. They usually include the refund of revenues collected in a prior fiscal year for which accounting records have been closed.

The organization of these reserves and refunds is by fund, so that it is generally clear what the funding source is for each reserve. Many of these reserves are funded from restricted revenues, such as the State Indigent Health Care Sales Tax or proceeds from bond issues or other special financings.

For more information on any of these reserves or refunds, please contact the Management and Budget Department at (813) 272-5890.

Interfund Transfers

The following table presents a four-year comparison of interfund transfers. Like most four-year schedules in this document, this table presents the actual transfers for FY 22, the FY 23 Adopted budget, the FY 24 Adopted Budget, and the FY 25 Planned Budget.

All interfund transactions that are not loans, reimbursements or quasi-external transactions are classified as transfers. Transfers are of two types: residual equity transfers and operating transfers.

Residual equity transfers are defined as “nonrecurring or non-routine transfers of equity between funds.” The GASB’s Codification, Section 1800.106, specifically cites the following examples:

- Contributions of capital to proprietary funds.
- The subsequent return to the general fund of capital contributed to proprietary funds.
- Transfers of residual balances of discontinued funds to the general fund or a debt service fund.

All transfers that do not qualify as residual equity transfers are properly classified as operating transfers. Often operating transfers reflect ongoing operating subsidies between funds. For example, the Unincorporated Area General Fund reflects its annual subsidy to the Transportation Trust Fund as an operating transfer.

The majority of the interfund transfers identified on the following schedule are operating transfers as opposed to residual equity transfers.

The organization of these interfund transfers is by fund, so that it is generally clear where the transfer originates (appropriation) and the destination of the transfer (revenue). Many of the transfers reflect the movement of funds from restricted funds established to account for the proceeds of certain revenues (e.g., Sales Tax Revenue Fund) to an operating or project fund where the County portion of the proceeds are actually expended.

For more information on any of these transfers, please contact the Management and Budget Department at (813) 272-5890.

CAPITAL BUDGET

Overview

The Adopted FY 24 Capital Budget is the County's financial plan of capital project expenditures for the fiscal year starting October 1, 2023 and ending September 30, 2024. The Capital Budget incorporates anticipated revenues and expenditures included in the first year of the Capital Improvement Program (CIP).

The Adopted Capital Budget for FY 24 is \$1.62 billion. The Planned Capital Budget for FY 25 is \$1.9 billion. A Sources and Uses schedule can be found in the Executive Summary section of this document. In addition, a list of projects is included at the end of this section.

The Capital Budget is separate and distinct from the County's operating budget for several reasons. First, capital outlays reflect non-recurring capital improvements rather than ongoing expenses. Where possible, capital projects are funded from non-recurring funding sources such as debt proceeds and grants. These one-time revenue sources are not appropriate funding sources for recurring operating expenses. Second, capital projects tend to have higher costs requiring more stringent control and accountability. Finally, several revenue sources such as the Community Investment Tax, impact fees and certain gas taxes are limited to use on certain types of capital improvements by statute or other legal restrictions.

To provide direction for the capital program, the Hillsborough County Board of County Commissioners approved Policy 03.02.02.00 - Policy for Capital Budget and Capital Improvement Program. This policy defines requirements for projects included in the Capital Budget and Capital Improvement Program. Under the policy, a capital project is defined as a set of activities meeting one or more of the following criteria:

- Delivery of a distinct capital asset or improvement to an existing capital asset which will become an asset of Hillsborough County and be recorded on the financial records of the County as a capital asset under generally accepted accounting principles and applicable State statutes;
- Any contribution by Hillsborough County to other governmental or not-for-profit entities to deliver a capital improvement. In situations where the improvement is not or will not become an asset of the County, it will be included in the Capital Improvement Program as a contribution for tracking purposes;
- Any project or equipment funded from the Community Investment Tax (CIT);
- Any engineering study or master plan needed for the delivery of a capital project;

- Any major repair, renovation or replacement that extends the useful operational life by at least five years or expands the capacity of an existing facility.

Hillsborough County categorizes capital improvements into eight programs: Fire Services, Government Facilities, Libraries, Parks Facilities, Solid Waste Enterprise, Stormwater, Transportation and Water Enterprise. The Adopted FY 24 Capital Budget also includes the County's Environmental Land Acquisition and Protection Program (ELAPP). While not specifically meeting the criteria above, this program is tracked through the CIP to provide for better accountability and control.

As previously noted, capital projects only require one-time allocations for a given project unlike operating expenses which recur annually. This funding flexibility allows the County to use financing and one-time revenue sources to accelerate completion of critical projects. Significant projects within each program are discussed below. More comprehensive project information can be found in the County's Adopted FY 24 – FY 29 Capital Improvement Program document. Interested parties can review this and other information at the County's website at www.hillsboroughcounty.org.

Financial Policies

Among financial policies approved by the Board of County Commissioners since FY 98, there are several pertaining to the preparation, implementation, monitoring and financing of capital projects. While the County Administrator is responsible for the continued development, monitoring and update of these policies, specific functions are carried out by the Management and Budget Department and the Clerk of the Circuit Court. These and other policies are reviewed periodically by the County Administrator and the Board of County Commissioners and are detailed in the Financial Policies and Procedures section of this document.

Specific policies applying to the Capital Improvement Program and the Capital Budget are:

- BOCC Policy 03.02.01.00 - Bids for Capital Improvement Projects 10% or More in Excess of Estimated Construction Costs
- BOCC Policy 03.02.02.00 - Capital Budget and Capital Improvement Program
- BOCC Policy 03.02.02.05 - Pay-As-You-Go Funding of Capital Projects
- BOCC Policy 03.02.02.06 - Prioritization of Capital Projects
- BOCC Policy 03.02.02.07 - Minimizing the Expense of Financing Capital Projects
- BOCC Policy 03.02.02.08 - Operating Impact of Capital Projects

CAPITAL BUDGET

- BOCC Policy 03.02.02.20 – Budgetary Control
- BOCC Policy 03.02.02.26 - Use of Capital Project Appropriations
- BOCC Policy 03.02.02.28 - Method of Funding Citizen Initiated Localized Capital Projects or Services
- BOCC Policy 03.02.03.00 - Environmental Land Acquisition Program (ELAPP) Fund
- BOCC Policy 03.02.06.00 - Debt Management
- BOCC Policy 03.03.01.00 - Water and Wastewater Financial Policy
- BOCC Policy 03.03.05.00 - Community Investment Tax Financial Policies
- BOCC Policy 04.05.00.00 - Capital Funding for Outside Agencies

Capital Planning

Capital planning refers to the process of identifying and prioritizing the County's capital needs to determine which capital projects should be funded in the Capital Budget as resources become available.

In general, capital planning for projects within the unincorporated area of Hillsborough County is guided by the Hillsborough County Comprehensive Plan. In particular, capital planning for certain types of parks and recreation, solid waste, stormwater, transportation and water facilities are guided by the Capital Improvements Section (CIS) of the Comprehensive Plan. This plan, prepared by the Hillsborough County City-County Planning Commission and formally adopted by the Hillsborough County Board of County Commissioners, provides long-term direction for the growth and development of the county. Proposed capital projects are reviewed for compliance to the adopted comprehensive plan as part of the budget adoption process.

The public has many opportunities to be involved in capital planning both during the comprehensive plan development process and during the budget adoption process. Interested parties can view the Comprehensive Plan at the Planning Commission's website located at www.planhillsborough.org.

Hillsborough County's plan includes a specific growth management strategy called the Urban Service Area. This strategy is designed to direct growth into areas where public service needs can be more efficiently provided and where existing services are already in place.

In addition to the standards in the Comprehensive Plan and the Capital Improvements Section of the Plan, the planning for parks and recreation, solid waste, stormwater, transportation and water facilities also is guided by master and visioning plans developed by County staff.

Planning for fire, government facilities, and library infrastructure in Hillsborough County's unincorporated area is performed primarily within County government. Each capital program has different criteria for assessing project needs and priorities; however, a common characteristic of the planning processes is the recognition of the importance of obtaining input from the public and other interested governmental and private agencies. The individual program planning processes provide the guidance necessary for allocating available resources during the capital budget process. A brief description of the various planning processes follows.

Fire Services— The Fire Rescue Department maintains a Capital Facilities Master Plan which details new fire station needs required to meet emergency and rescue service requirements within the unincorporated area. The plan is prepared based on national service response time standards established by the National Fire Protection Association, the Insurance Service Organization and on the relevant goals, objectives and policies incorporated in the County's Comprehensive Plan discussed above.

In developing this plan, which is updated every five years, the response time standards along with current response data are applied to an analysis of the needs of Hillsborough County's current and projected populations and population distribution to identify where and when new fire rescue facilities will be needed. This plan was recently updated and presented to the Board with additional analysis being performed to ensure that current facilities in need of a major remodel are presently in the best locations. This process may result in the relocation of some existing facilities.

Libraries— Library Services gauges the effectiveness of its facilities through a variety of metrics including current and potential use of a facility, state of existing buildings, grounds, and parking, total cost of operation for all facilities, existence and willingness of neighboring partner agencies, distance from population concentrations, and public demand and presents recommendations for potential capital projects to the Library Board. Annually the Library Board evaluates the data and sends a prioritized list of recommendations for funded and unfunded projects to the Board of County Commissioners.

Parks— The strategic vision of the Parks & Recreation and Conservation & Environmental Lands Management Departments includes the development of goals and objectives to safeguard the inheritance of the County's future generations.

The planning process identifies future developments that may affect expected needs, wants and social environments. It identifies the most critical stakeholders and

CAPITAL BUDGET

their major interests and expectations, such as safety and security, high quality experience, well maintained facilities and the preservation of our natural and cultural resources. The tool is evaluated against the current environment in order to develop a Capital Improvement Plan consistent with the vision of Hillsborough County and the values and expectations of our community.

In FY 17, Hillsborough County Parks & Recreation and Conservation & Environmental Lands Management Departments delivered their Master Plans to the BOCC. The Master Plans are long-range planning documents that are meant to help shape the direction, development, and delivery of the County's parks, recreation, and conservation sites. Based on a comprehensive planning approach, these plans take into consideration department goals, existing conditions, and community needs assessments that provide for the framework of recommendations and prioritization strategies. These Master Plans represent the collective vision for the Hillsborough County Parks & Recreation and Conservation & Environmental Lands departments. They serve as a guide for the Department's investments and strategies over the next ten years, shaping the delivery of services in a manner that is consistent with the County's sustainability goals and the community's level of service expectations. The cohesive vision for continually improving parks, recreation, and conservation opportunities in Hillsborough County represents the culmination of the public engagement process. The vision, along with guiding principles and mission statement will guide the implementation of the Master Plans and the future of parks, recreation, and conservation throughout the County.

Solid Waste Enterprise— The Solid Waste Enterprise has an established plan to determine the need to enhance and or change its Capital Improvement Program on an annual basis. This plan calls for information to be gathered from various sources such as staff, stakeholders, public meetings, etc. to identify needs that should be incorporated into the CIP. Management reviews the information and prioritizes each need according to a pre-established ranking system. The ranking system takes into account mandates by Federal and State agencies, health and safety concerns, capacity needs, efficiency, location requirements, population growth and aging infrastructure.

Stormwater— The County maintains a Watershed Master Plan that incorporates identified needs for each of its 17 watershed basins. The plan is periodically updated as new development and stormwater improvements are completed throughout the County. Under the plan, the entire County (1,072 sq. miles) is divided into 17 watersheds (basins) and further subdivided into 7,000 sub-basins. The master plan study looks at water quantity,

water quality and the natural watershed system. The plan identifies areas with inadequate conveyance systems or poor water quality and recommends solutions.

Flood control project evaluations take into consideration the following factors: frequency of flooding, the category of the road subject to flooding (local/arterial/collector road), the number of structures flooded, stormwater asset conditions (groundwater table, erosion/siltation and structure) and the potential of available matching funds.

The County also maintains a separate list of non-watershed related neighborhood stormwater needs. Criteria for neighborhood stormwater projects is like the criteria for watershed master plan projects, with the exception that environmental issues and the availability of matching funds are not included in the evaluation.

Water quality or natural system projects are evaluated based on concerns identified by the Florida Department of Environmental Protection (DEP), or the County related to the sub-watershed segment of "impaired waters/water bodies," the concern of water quality parameters and the benefits of a natural system.

Both engineers and environmental scientists within the Stormwater Engineering Services Section of the Public Works Department contribute to this uniform matrix evaluation process.

Transportation— Efficient movement of people and goods is important to the public safety, economic viability, and overall quality of life in Hillsborough County. Planning occurs on several levels. The Hillsborough County Transportation Planning Organization (TPO), working with the County and its three incorporated municipalities (City of Tampa, Plant City and Temple Terrace), and with input from county residents, is responsible by State statute for adopting the Long Range Transportation Plan, a blueprint for comprehensive transportation planning throughout the County. The TPO also consolidates the transportation capital improvement programs of various political jurisdictions constructing transportation projects within the county into an annual Transportation Improvement Program (TIP). The Long Range Transportation Plan and the Transportation Improvement Program are used by the County in prioritizing major capacity projects for funding, determining project impact fee eligibility, and in allocating State and federal grant dollars. These plans can be viewed at the Transportation Planning Organization's website www.planhillsborough.org. Apart from these long-established processes, the Transportation for Economic Development initiative engaged in a community-wide effort to identify transportation needs and included the County, the cities and relevant transportation entities.

CAPITAL BUDGET

As previously indicated, the Hillsborough County City-County Planning Commission is responsible for developing and monitoring compliance with the County's Comprehensive Plan. The Commission also reviews proposed developments of regional impact (DRI) proposals (those development proposals that will have significant impact on existing county roads).

Each municipality is responsible for its own transportation planning; however, major roads determined to have countywide significance may be designated as County roads, with the County primarily responsible for their maintenance and improvement. Capital needs associated with these roads, as well as all transportation needs in the unincorporated area of the County are evaluated for inclusion in the annual capital budget and Capital Improvement Program.

Planning for the transportation program is performed on a sub-program basis. The sub-programs within the transportation program are roads, intersections, sidewalks and bridges. With the exception of roads, where the County adopts the prioritized list from the Long Range Transportation Plan (LRTP) and adds local road improvements not subject to inclusion in the plan, the County has prepared a master plan for intersections, bridges and sidewalks. While specific criteria used for prioritizing the projects on the plans differ by project type, they encompass public safety, traffic volume, environmental mitigation and other key factors as well as incorporating input received during the public outreach part of the planning process.

Water Enterprise— The Water Enterprise is responsible for providing quality water, wastewater and reclaimed water services to Hillsborough County residents within its designated service area, unincorporated Hillsborough County. This includes the operation and maintenance of these facilities including treatment plants, pumping stations, metering devices and all related transmission piping and above ground appurtenances. The department is also responsible, when operating the above facilities, for complying with all federal, State and local regulatory and permit requirements.

The department uses a CIP Delivery Process. This process uses a systematic approach to develop and refine the scope, schedule and budget for existing and newly proposed expansion and renewal and replacement projects. It allows priorities to be determined and uses schedules to ultimately deliver quality projects from conception to project completion. The goal of the CIP Delivery Process is to deliver department projects in an efficient and economical manner.

The objectives of the process are to:

- Economically build and maintain existing system assets;
- Deliver projects on schedule and within budget;
- Allow for the annual update of the CIP;
- Allow for adjustments to the approved CIP due to changing priorities for those projects not yet in the implementation phase;
- Seamlessly coordinate with the County's CIP;
- Permit performance measurement; and
- Provide documentation for management and historical trending purposes.

The Board of County Commissioners policy 03.02.02.06 requires that capital projects be prioritized. The Department's Project Prioritization Model (PPM) is a formal method of documenting and tabulating the results of applying subjective criteria to prioritize the CIP each fiscal year. There are six categories to score a project against other projects within the Department's CIP:

- Compliance
- Health and Safety
- Expansion / Renewal and Replacement
- Long Range Planning
- Community and Environmental Impacts
- Economic / Financial Considerations

The resulting score for each existing or new "planning" project is used at the beginning of the budget process to rank all the projects within the CIP.

Additionally, the Department's Payback Analysis Model (PAM) incorporates several economic factors to estimate the payback period of a given capital project. It determines the payback period by modeling the average monthly revenues generated by the Equivalent Residential Customers (ERC) to be served by the capital project. Generally, the information that is required to be input into the model includes:

- Project Name, CIP Number and Type
- Payback Analysis Period
- Discount Rate
- Debt Service or Pay-As-You-Go
- Expansion Percentage
- Operating, Maintenance and Fixed Overhead Cost
- Capital Cost by Year
- Outside Funding Sources
- ERCs served by the Project
- ERC Connection Schedule
- Rate and Debt Service Information

The information is used to assign a weighted economic criteria number for the project in the earlier referenced Project Prioritization Model (PPM) during each fiscal year budget process.

CAPITAL BUDGET

Finally, the CIP Master Program Schedule is used as a planning tool to lay out each of the project schedules, provide the cash flow requirements of the program as a whole, anticipate project resource needs and provide historical data for future trend analysis. In addition, the Master Program Schedule is also used at the beginning of each fiscal year to facilitate the efficient distribution of work throughout a six year period.

Financial Planning Strategies

Hillsborough County uses a variety of tools to assist in developing long-term financial planning strategies. One tool is the preparation of an annual Pro Forma document. This document is used to put current budget and financial decisions into a longer-term context. Prepared in accordance with Board policy, the Pro-Forma provides a five year projection of revenues and expenditures for major operating funds, and is particularly useful in showing how capital projects, funded in the biennial budget or planned over the next several years, will impact future operating budgets in terms of maintenance, utility and staffing costs.

Another tool used in financial planning is the County's debt management strategy. Credit ratings assigned by the three international rating agencies, Moody's Investors Service, Standard and Poor's Ratings Services, and Fitch Ratings are key factors influencing interest rates paid on local governments' borrowings. Because of the significant impact interest rates have on our overall financial position, Hillsborough County places a great deal of emphasis on its credit worthiness. The County conducts credit updates each year, and notices of any material credit changes are provided to the rating agencies throughout the year.

The County's general credit ratings are Aaa / AAA / AAA on a scale where Aaa / AAA / AAA are the highest ratings. The County's high ratings are an objective indication of sound financial management, recognition that its overall debt profile is characterized by good debt service coverage from pledged revenues and by sound legal provisions ensuring full and timely payment of debt service. These high credit ratings enable the County to meet its borrowing needs at the lowest cost of capital.

To address short-term capital project funding requirements, Hillsborough County uses a Commercial Paper Program. Under this program the Board authorizes short-term borrowings when needed to provide adequate cash flow for active projects. This approach ensures that long-term debt is issued only when needed in appropriate amounts. Furthermore, tax exempt short-term debt tends to be the lowest cost financing tool available to local gov-

ernments resulting in substantial savings to the County. Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding short-term notes, unless there is an economic advantage in keeping short-term, variable rate notes outstanding. The County issues debt in accordance with its debt policy which governs the type and amount of borrowings that are best suited to achieving its financing objectives. The policy guides the County's borrowings by means of targets and ratios, such as direct debt per capita or general governmental debt as a percent of general fund revenue, that balance the need for flexibility to ensure the availability of capital with the need to ensure continued access to the capital markets.

When it is prudent and in the County's economic interest to do so, infrastructure improvements may be financed by means of public-private partnerships in which private corporations, such as real estate developers, agree to fund a portion of such improvements together with funding from the County, State, and/or federal government. Such partnerships enable the County to construct needed infrastructure, in particular transportation improvements, at a lower cost to taxpayers as a result of leveraging private funding sources.

Finally, the County actively and aggressively monitors market opportunities to refinance its debt to achieve lower debt service costs. When legally and economically feasible, lower interest debt will be issued to pay off outstanding debt thereby making revenues available to fund County services.

Capital Improvement Program Process

The annual Capital Budget and Capital Improvement Program (CIP) update begins in January with a request to the Capital Program directors to review, update and reprioritize the unfunded capital needs list.

The Capital Budget Team of the Management and Budget Department maintains a comprehensive list of prioritized unfunded capital needs which is used in identifying new projects to be recommended for funding. The list identifies preliminary project information such as name, location, description or scope, the estimated cost and any operating cost impact. The updated Unfunded Capital Projects Request List is then used to determine which new projects will be added to the new Capital Improvement Program.

During the month of January (in the first year of the biennial budget cycle), the Capital Budget Team conducts training sessions to provide capital project management and staff specific direction relating to the

CAPITAL BUDGET

capital budget process. As part of this training, those involved in the capital budget process are given a calendar of key budget cycle dates and written documentation including forms, instructions, and definitions to be used in preparing their capital projects budget including revising current project estimates and submitting requests to add new capital projects.

Another key step in the budget process is a review of capital project cost estimates in the current CIP or new projects added during the current fiscal year. This is to ensure that the next CIP will reflect these revised cost estimates. Departments are asked to review and update project information that will be presented in the Capital Improvement Program.

A specific form – the Capital Project Initiation Request Form - is used to document project changes or new project requests. This form is designed to guide the preparer in providing necessary information including the reason for the project, proposed location and scope, funding requirements by fiscal year, proposed project schedule and completion dates, anticipated operating cost impacts and management approvals.

Using updated information, the Capital Budget Team develops draft documents showing projects that have been completed or are anticipated to be completed by the end of the current fiscal year as well as specific detail project pages (see below for sample) for each project proposed to be included in the recommended budget.

These draft documents are distributed to the departments for another review and the opportunity to correct information. Upon completing their review, the Capital Budget Team meets with the appropriate program directors and representatives to resolve outstanding issues and ensure that all are in agreement with the current information.

Budget preparation meetings held with Directors, Executive Team members and budget staff during February through April include discussions regarding capital projects. Decisions made at these meetings are incorporated into the documents and communicated to the appropriate departments.

Final revisions are incorporated into the Recommended Capital Budget and the Recommended Capital Improvement Program (CIP) in mid-May and delivered to the Board of County Commissioners in June or July.

Sample Capital Project Detail Page

PROJECT TITLE: COUNTYWIDE SOCCER COMPLEX		PROJECT NUMBER: C80209000									
CIE REQUIREMENTS: Y		PROGRAM: PARKS									
LEVEL OF SERVICE IMPACT: F											
PROJECT DESCRIPTION: This project will design and construct a regional tournament soccer complex to include restrooms, concession stands, parking, lighting, and maintenance building. The selected location is a county owned property on Columbus Drive. Additional funding approved in FY 19 for locker room, equipment and site improvements (Phase 2). Phase 1 is complete. Additional funding has been approved in FY 21 for further site work/parking enhancements and a vendor pavilion (Phase 3). Phase 1 & 2 are complete.											
OPERATING COST IMPACT: Operating cost included in an Interlocal Agreement with Tampa Sport Authority											
PROJECT COMPLETION DATE: Dec 2024											
C80209000											
Sources of Funds											
(in \$000s)	Total Estimated Sources	Prior Funding	FY 24 Carveforward	FY 24 Additional	FY 25	FY 26	FY 27	FY 28	FY 29	Future

¹ Capital includes, but is not limited to, expenses related to constructible Development, Design, Land Acquisition, Equipment, Construction and Administration required to complete the project.
² Contributions includes, but is not limited to, funding through an agreement to other Government Agencies, Youth Organizations, Cultural Service Organizations and other Non-Profit Organizations.
³ Non-Capital includes, but is not limited to, expenses related to Building Maintenance Grounds & Landscaping/Maintenance, Non-Capitalizable Equipment and other Professional Services.

Components for Each Capital Project Page:

Project Title – This is the project’s name.

Project No. – This is a unique identification number assigned to the project for accounting purposes.

CIE Requirement – This indicates whether this project addresses a Capital Improvement Element as defined in the Growth Policy in Florida Statutes.

Level of Service Impact – If the project addresses a CIE element, this indicates what impact it has on the level of service:

(M) – This indicates a project relates to the repair, remodeling, renovation or replacement of an existing County facility in order to maintain levels of service in the Comprehensive Plan.

(E) – This indicates the construction of a new facility or expansion of an existing facility that will reduce or eliminate deficiencies in the levels of the service in the Comprehensive Plan.

(F) – This indicates the construction of a new facility or expansion of an existing facility is needed to meet levels of service for new development.

(N/A) – This indicates that the project is not covered by the Capital Improvements Element.

CAPITAL BUDGET

Program – This indicates the capital program to which this project pertains.

Project Description – This describes the scope of work.

Operating Cost Impact – This is an estimate of the ongoing annual operating and maintenance funding this project will require once completed.

Project Completion Date – This is the estimated date the project will be ready for its intended use.

Neighborhood Community Area – This indicates the area of the county the project will occur. A copy of the Neighborhood Community Area map can be found in the Appendix section of the Capital Improvement Program document.

Source of Funds – This shows by year the sources of funding. Many projects have multiple sources of funding.

Uses of Funds – This shows by year the planned uses of funds summarized by capital, contributions and non-capital.

Throughout the budget development process, the County Administrator and Management and Budget staff conduct several budget workshops with the Board of County Commissioners to provide them with revenue projection updates and to obtain overall policy guidance.

Once the recommended budget and CIP are delivered to the Board, a series of budget workshops and public meetings are held. During this period, the Hillsborough County City - County Planning Commission also reviews the recommended CIP to ensure compliance with the County's Comprehensive Plan. Two statutorily required public hearings are held in September to gain public input. A separate public hearing is held following the budget adoption to also adopt the CIP.

Final budget documents reflecting the Adopted Budget and Adopted Capital Improvement Program are then prepared and distributed in both hardcopy and electronic formats. Once the Capital Budget and CIP are formally adopted, changes to the budget can only be made in accordance with the budget amendment process defined in BOCC Policy 03.02.02.00 - Capital Budget and Capital Improvement Program, which ensures compliance with budget amendment requirements per Florida State Statute 129.06. The BOCC policy also specifies that the list of projects included in the adopted CIP may only be revised through formal Board resolution.

Funding Sources

Funding for capital projects comes from a variety of sources, but generally falls into one of several categories: ad valorem taxes, the Communications Services Tax, the

Community Investment Tax, gasoline taxes, enterprise fees, special assessments, impact fees, mobility fees, grants or financing.

- Ad Valorem (Property) Taxes are taxes levied by the Hillsborough County Board of County Commissioners on property within the County.

There are three ad valorem taxes imposed by Hillsborough County – the countywide property tax imposed on all properties within the county with use restricted to projects providing countywide benefit; the unincorporated area property tax imposed on all properties in the unincorporated area of the county with use limited to projects that benefit the unincorporated area; and the special library property tax, imposed on all properties within the City of Tampa and the unincorporated area of the County with use restricted to library projects. Both Temple Terrace and Plant City maintain their own library systems so properties within these two municipalities are not subject to the special library tax.

Additionally, two voter approved ad valorem taxes are used to pay debt service on the Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP) bonds and on Parks and Recreation bonds.

- The Communications Services Tax is a 4% tax imposed on local and long distance telephone calls, cable, fax, pagers and beepers, cellular phone services and other related telecommunication services. The Board of County Commissioners originally designated 1% of this tax for the construction of new fire stations. Beginning in FY 06, the Board increased the allocation by an additional ½ %, for a total of 1½% for the construction of fire stations. However, due to the continuing ad valorem roll back requirements by the State Legislature and the effects of Amendment 1, approved by the voters on January 29, 2008, the amount and the percentage allocated to the construction of new fire stations in FY 09 was reduced to ½%. The remainder of the 1½% is used to offset a portion of the reduction in property tax revenues funding operating expenditures.
- The Community Investment Tax is a ½% sales tax on the price of taxable goods, as defined by State statute, sold within the County. Approved for a thirty year period by public referendum in 1996, use of this tax is restricted to acquiring, constructing, and improving infrastructure and purchasing equipment with a useful life of at least five years to promote the health, safety and welfare of Hillsborough County residents. This tax expires on November 30, 2026.

CAPITAL BUDGET

- Gasoline taxes used to fund capital projects are the Six Cent Local Option Gasoline Tax, the Voted (Ninth Cent) Gasoline Tax and the Constitutional Fuel Tax. Permitted uses for each of these taxes are defined by statute, and in the case of the Voted Ninth Cent Gasoline Tax, are further restricted by County ordinances.

The Six Cent Local Option Gasoline Tax is limited to transportation expenditures for public transportation operations and maintenance; roadway and right-of-way maintenance and equipment and structures used primarily for the storage and maintenance of this equipment; roadway and right-of-way drainage; street lighting; traffic signs, traffic engineering, signalization and pavement markings; bridge maintenance and operation; debt service and current expenditures for transportation capital projects including construction or reconstruction of roads.

Use of the Ninth Cent Gasoline Tax is restricted by County ordinance to the road resurfacing program.

The Constitutional Fuel Tax collected by the State on behalf of the County is first used to meet debt service, if any, of debt assumed by the State Board of Administration payable from this tax. Any remaining tax proceeds may be used by the County for the acquisition, construction, and maintenance of roads as defined by statute or as matching funds for grants specifically related to these purposes.

- Enterprise fees are charges for services imposed on users of facilities of the two programs funded through enterprise funds - Solid Waste and Water / Wastewater / Reclaimed Water. An annual fee schedule for each enterprise fund is set by the Board of County Commissioners. Use of these revenues is restricted to operating, maintaining or building new infrastructure for the respective service for which the fee is being collected.
- Special assessments are charges levied by statute or ordinance for a specific purpose. One example is the stormwater fee, a non-ad valorem special assessment levied on the annual property tax bill, used to help fund the stormwater capital program.
- Impact fees are fees imposed on new commercial and residential construction to help fund additional infrastructure needed to support the added load on County infrastructure resulting from the new construction. The unincorporated area of the County is divided into zones for each type of impact fee.

Use of impact fees collected within each zone is restricted to projects which add capacity to the respective infrastructure within that zone. There are four types of impact fees: transportation, parks, fire and schools. Impact fees are governed by the County's Consolidated Impact Fee Assessment Program Ordinance.

- Mobility Fees are a one-time charge on new development to pay for offsite transportation improvements that are necessitated by new development. On April 26, 2016, the Board of County Commissioners adopted the Mobility Fee Ordinance that would replace the current transportation impact fees and transportation concurrency. The Mobility Fee Program became effective January 1, 2017.
- Financing is the last source of funding. It includes both long-term and short-term financing. Short-term financing via a commercial paper borrowing program is used to borrow funds when needed in order to keep projects on schedule and to keep financing costs down.

Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding short-term notes, unless there is an economic advantage in keeping short-term, variable rate notes outstanding.

Uses of Funds

Capital budget expenditures are related to one of the eight capital programs: Fire Services, Libraries, Government Facilities, Parks, Solid Waste Enterprise, Stormwater, Transportation, and Water Enterprise. It also includes the Environmental Land Acquisition and Protection Program (ELAPP) and the Major Repair, Renovation, Replacement and Maintenance (R3M) program. Planned capital project expenditures are summarized into the following categories:

Capital – These are costs incurred as part of delivering the project that will be capitalized with the asset when the project is complete. Capitalizable development, design, land acquisition, equipment, construction and administration expenditures required to complete the project are examples of capital costs.

Contributions – Contributions represent funding through an agreement to other government agencies, youth organizations, cultural services organizations and other non-profit organizations and won't be capitalized when the project is complete.

CAPITAL BUDGET

Non-Capital – These are costs incurred as part of delivering the project but won't be capitalized with the asset when the project is complete. Building maintenance, grounds and landscape maintenance, non-capitalizable equipment and other professional services are examples of non-capital costs.

Capital Projects Operating Impacts

The Capital Budget and Capital Improvement Program (CIP) are integral elements of the County's biennial budgeting process. The cost of operating new or expanded facilities or infrastructure can be significant and is included in the operating budget in the fiscal year the asset becomes operational. However, in some cases, like the construction of a new jail, the operational impact may be phased-in gradually while the new jail is under construction. This is because as the jail population increases beyond its operational capacity so does the need for additional funds for overtime pay, add new staff, jail and food supplies, and operational equipment, thus spreading the increased operating impact over a number of years rather than impacting the budget all at once when the jail opens. Historically, operating costs of non-enterprise facilities have been funded from property taxes. Consideration of operating costs becomes particularly critical when there are potential property tax restrictions or reductions due to legislative action or recession. In some cases, it may be prudent to defer or cancel construction of a facility because there will be no funds to operate it.

Debt service payments on issued debt for capital projects are also included in the operating budget. The amount of required debt service relative to the size of the annual budget is an important indicator of fiscal obligations. Since debt service expenditures reduce the amount of funds available for other operating or capital uses, it is important that the ratio of debt service to the total operating budget remain at a prudent level.

Issuance of short-term commercial paper to provide adequate cash flow for approved projects does not have an impact on the operating budget. This is because these costs are rolled to subsequent notes until the projects are completed, at which time available cash or long-term debt is used at favorable interest rates to pay off outstanding short-term notes, unless there is an economic advantage in keeping short-term debt.

Specific FY 24 – FY 25 incremental operating cost impacts of capital facilities are discussed below in each program's highlights section. The Adopted Budget for FY 24 – FY 25 includes these operating costs. A full listing of incremental operating cost impacts can be found in the

appendix section of the Adopted Capital Improvement Program document.

Program Highlights

The following program highlights focus on each program's portion of the Adopted Capital Budget for FY 24 (which includes estimated funding carried forward from FY 23 and any new, additional funding).

A number of projects that are shown in the program sections appear in the Capital Improvement Program (CIP) as "Post Construction". These projects have finished their primary construction phases and may have been placed in use; nevertheless, some of these projects still have unspent balances that are earmarked for post-construction project costs.

Fire Services

The Fire Services Program Adopted Capital Budget for FY 24 is \$89.0 million. The additional funding in the Planned FY 25 Capital Budget is \$1.9 million. The program is funded with fire impact fees, Communications Services Tax, general revenues, financing and American Rescue Plan Act (ARP) funds.

Three new projects are being added to the program in this Adopted Capital Budget. The Progress Village South Fire Station project is recommended per the Fire Rescue Master Plan to enhance services in the South-Central area of Hillsborough County. The PSOC Renovations project will renovate existing PSOC warehouse space to support Emergency Management operations. Some current warehouse functions will be relocated to a different facility. The HVAC system has reached the end of its life expectancy at Fire Station #36 in Valrico and will be replaced.

Important projects approved in prior years continue into the FY 24 Capital Budget. The Comprehensive Communications Plan/Alternate EOC project will implement a technology solution capable of providing top-down management and relief effort coordination tools that will help deliver the fastest and most effective emergency response when dealing with incidents such as hurricanes and the COVID-19 Pandemic. This implementation will also include installation of the communications equipment and tower required to make the alternate EOC site operational. The construction of a Fire Rescue/Emergency Management Warehouse will enable storage of essential supplies used in day-to-day operations and in responding to disasters. Restroom and shower repairs at various locations will be completed as part of the Fire Station Restroom and Showers Renovations project. The Sun City North Fire Station project will design and construct a new

CAPITAL BUDGET

3 bay station on previously acquired property to enhance service in that area.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three fire station replacement projects were created and approved – Armdale Fire Station #10, Gunn Highway Fire Station #13 and Palm River Fire Station #15. These stations are at or near the end of their useful life and will be replaced to increase functionality and operational efficiency.

Central Brandon Fire Station #45

Other projects continuing into FY 24 include replacing Thonotosassa Fire Station #21 at a new location and addressing drainage issues at the Palm River Fire Station. The Fire Station Hardening project will provide upgrades to additional fire stations to enhance resilience. In order to fund the purchase of important fire and safety equipment, the Fire Rescue Equipment Replacement/Modernization project receives \$1.9 million each year from FY 24 through FY 29 from the Communications Services Tax allocated to Fire Rescue. Impact fees were added to this project in FY 19 to fund the purchase of Self Contained Breathing Apparatus (SCBA) equipment.

On June 5, 2019, the Board of County Commissioners adopted an Ordinance amending the County's Consolidated Impact Assessment Program Ordinance to update the fire service impact fee schedule and to add an impact assessment for emergency medical services that are currently provided by Hillsborough County Fire Rescue. The revised fees took effect on October 1, 2019 and incremental revenues have been programmed into the Land Acquisition for New Fire Stations project, the Sun City North Fire Station and reserves.

Two projects funded by a FY 19 bond issuance to help address capacity needs reached substantial completion during FY 22. One new station was constructed to help improve response times in the Brandon area (Central Brandon Fire Station #45). Apollo Beach Fire Station #29 was built in a new location to replace the prior station which will result in improved response times and a better functioning facility. A third project funded by this bond, Rhodine Fire Station #46, was completed in FY 23. The Fire Apparatus and Equipment for New Fire Stations project, which was established to equip these new stations, will be completed in FY 24.

Operating Impact – Two projects are scheduled for completion in FY 24 and one in FY 25. Two are maintenance related (Fire Station #36 Valrico HVAC Replacement and Fire Station Restroom and Showers Renovations) and one is purchasing new equipment (Fire Apparatus and Equipment for New Fire Stations) which won't result in any significant change in operating costs. An ongoing project to harden fire stations will result in a minor increase in operating cost related to generator maintenance and testing.

Fire Services Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
Fire Stations Hardening	0	\$10.0	\$15.0

Government Facilities

The Government Facilities Program Adopted Capital Budget for FY 24 is \$142.9 million. The additional funding in the Planned FY 25 Capital Budget is \$21.6 million. Funding sources for the program are Community Investment Tax, enterprise fees, financing, grants, general revenues, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Twelve new projects are being added to the program in FY 24 and all but one is maintenance related. Repairs and renovations will take place at the central energy plant in downtown Tampa and the future Community Based Step-Down Facility. Flooring will be replaced at various County facilities and the Central Fleet Complex will be painted. The Museum of Science and Industry will have its chiller and sections of its roof replaced. In downtown Tampa, an ongoing project will modernize elevators in various buildings and the Zack Street parking garage will have its fire pump replaced. Morgue building renovations will replace the four original morgue coolers from 2007 with four updated coolers. The one project that is not maintenance related is the Soul Walk African American Heritage Trail - Public Art on Franklin Street project which

CAPITAL BUDGET

was approved for funding by the Board of County Commissioners.

The Sheriff Training - PSOC Temporary Housing & Storage Facility project was added to the CIP through Board action during FY 23. This project includes the purchase of the existing 60,000 square foot building located at 10210 Windhorst Road and provide hardening improvements for use by Emergency Management and later transitioning to a training facility for the Sheriff.

Several important projects continue in this Adopted Capital Budget. The African American Arts & Cultural Center project will begin design of a new 44,000 square foot African American Arts and Cultural Center, expandable to 60,000 square feet to be located on the BOCC-designated County-owned property at 2103 N. Rome Avenue in Tampa (currently known as the West Tampa Resource/Service Center). The existing buildings on the property are anticipated to be demolished and replaced by the new facility. Current onsite social services will be relocated within the property or to other locations. Construction funding is anticipated in the future.

Various projects will enhance existing Court facilities. The Edgecomb Courthouse will receive technology and furniture for the 4th floor buildout and lighting controls will be replaced. The Edgecomb 4th Floor Civil Court Expansion project will design and construct two additional Civil Courtrooms and associated spaces within the 4th floor shell space designated for future expansion. Access controls will be replaced at various courthouse locations and the State Attorney will get an additional conference room. Two judicial chambers and two courtrooms will be built out at the Pat Frank Court Building.

Five projects will make contributions to outside agencies for capital improvements to their facilities. Much needed repairs will be completed at the Historic 1914 School in Plant City. The Sweetwater Organic Community Farm will be acquiring land to expand their operations. A Contribution will be made to the United Food Bank of Plant City for their capital building projects. High 5 Inc. is refurbishing a swimming pool at their facility in Brandon and the funding for the Tampa Museum of Art will help with their capital campaign.

The Public Defender will have its 6th floor office expanded and 1st floor modified to enhance security. Work around the Falkenburg Warehouse will replace the Clerks emergency generator, repave a parking lot and replace window canopies. A project will begin to renovate the housing pods at the Falkenburg Road Jail. Two maintenance projects will replace hurricane curtains at the Roger Stewart Center and renovate buildings at the Human Development Center. Additional solar projects will be

completed at various County facilities to increase energy efficiency. Land located within the Falkenburg Complex on Columbus Drive will be acquired to accommodate future County facilities such as the Fire Rescue/Emergency Management Warehouse.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, two new Government Facilities projects were created and approved. The Community Based Step-Down Facility - ARP Act 3 Funds project will renovate the former Sheriff's Work Release Center located at 1800 Orient Road to offer comprehensive services for participants exiting the local County jail who suffer from substance abuse and behavioral health related issues. The Outdoor Senior Fitness Zones - ARP Act 3 Funds project installed outdoor senior fitness equipment at various Senior Centers and Adult Day Care Centers to provide opportunities for the County's seniors to exercise safely and remain active when viral disease transmission rates are high.

Solar Panels – Cooperative Extension Office

Several other projects continue in this Adopted Capital Budget with many being maintenance related. Four projects will tackle painting and parking lot renovations at various County facilities. Carpet will be replaced at the Edgecomb Courthouse, County Center and the Roger

CAPITAL BUDGET

Stewart Complex. The University Community Resource Center will have its HVAC system replaced. The County Center will continue to have its air handlers replaced along with roof fans in conjunction with the re-roof project. The Clerk's Falkenburg Road facility will have its generator replaced.

A project will provide for security enhancements at the County Center and other County buildings. Funds have been set aside to help establish a future film studio / film school in the county. Funding is also provided for a new Adult Day Health Services Center to be developed in South County.

One of the continuing projects will improve space utilization at the Edgecomb Courthouse by renovating the 5th floor to allow for one large courtroom with approximately 160 gallery seats and a full jury box (14-16 seats). One other courts project will enable the relocation of the Juvenile Diversion Program. The La Paloma Head Start Facility Replacement project will replace the existing modular building at 3419 N. Nebraska Avenue, Tampa with a new, expanded block building which will include Head Start as well as Early Head Start classrooms. The ERP System Enhancements project funds a full system upgrade to address improvement opportunities for the Oracle E-Business Suite software.

During FY 19, a bond was issued that supported various governmental, fire and parks facilities projects. Many of the projects were in the Government Facilities program with one still being active. The Emergency Generators at Various Locations project includes engineering and installation of emergency generators and associated infrastructure upgrades at various emergency shelters (such as public schools) and other critical facilities to provide back-up power capability.

Security Enhancements – County Center

The Historic Preservation Matching fund program continues in FY 24 to help preserve historic community assets. The Northwest Area Head Start / Service Center project will develop a new Head Start facility and research opportunities for a new service center to provide enhanced customer service in the northwest area of Hillsborough County.

The Annual Public Art Plan, as recommended by the Public Art Committee, is included within the appendix section of the Adopted Capital Improvement Program. Current funding is adequate for projects that are in process at this time.

Two projects reached substantial completion prior to the end of FY 23. The one remaining Consolidated and Hardened Maintenance Facilities (West Service Unit) was completed and ready for use. The Solar Projects Various Buildings project will result in energy savings at multiple County facilities.

Public Art – Balm Boyette Roundabout

There are seventeen projects that are scheduled to reach substantial completion in FY 24 and most are maintenance related. Carpet replacement projects will be completed at the Edgecomb Courthouse, County Center and Roger Stewart Complex. The Edgecomb Courthouse will also have its lighting controls replaced, 4th and 5th floors expanded along with tech and furniture for the 4th floor. Storm protection will be enhanced at the Roger Stewart Complex after hurricane curtains are replaced and the University Community Resource Center will get a new HVAC system. Various County facilities will be repainted and have parking lots repaved. Window canopies will be

CAPITAL BUDGET

replaced at the Falkenburg Warehouse and the Human Development Center will be renovated. The Juvenile Diversion Center will be relocated to new offices and work associated with the Hanna Facility Repurpose project will be completed.

Six projects should reach substantial completion in FY 25. The County Center roof and roof fans will be replaced. For the courts, the buildout of two courtrooms in the Pat Frank Court Building and a conference room for the State Attorney will be completed. A replacement building for the La Paloma Head Start facility should be ready for use and the generator will be replaced at the Clerk's Falkenburg Road facility.

Operating Impact – None of the projects that are scheduled to reach substantial completion in FY 24 will have an impact on operating costs. For FY 25, the La Paloma Head Start Facility might create some additional operating costs, but those have not been determined yet. One ongoing master project to install new emergency generators will result in a small increase in maintenance costs.

Government Facilities Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
Emergency Generators at Various Locations	0	\$68.0	\$68.0
La Paloma Head Start Facility	0	0.0	TBD

Libraries

The Library Services Program Adopted Capital Budget for FY 24 is \$48.0 million. The additional funding in the Planned FY 25 Capital Budget is \$0.9 million. The program is funded with ad valorem tax proceeds from the Special Library Taxing District.

One new project is being added to the program this year. The John Germany Chiller Replacement Project will replace the HVAC chiller that has reached its life expectancy at the main downtown Tampa library.

There are several carry-over projects included in this program. Three are maintenance related – the North Tampa Library will have its chiller replaced, the Ruskin Library will have its roof replaced and restroom facilities will be renovated at various libraries to update their functionality, fixtures, and finishes. The Sentinel Bulletin Archiving project will preserve and digitize the Sentinel Bulletin historic archive of newspapers which includes 118 bound volumes (1945-2010) that have been housed at the C. Blythe Andrews, Jr. Public Library's Special Collection since 2019. The collection contains approximately 400,000 pages. This is a one of kind collection of the

only African American centered newspaper in the Tampa Bay area. Initial funding has been put in place to create a temporary library in Wimauma at the former Bethune Park senior congregate dining site. This project will renovate the existing building, improve the site, and provide furniture and fixtures. In the future, a site will be selected for construction of a permanent library in the Wimauma area.

Initial funding has been put in place to explore site options and project development for a future new library to be located in the Fishhawk area in southeast Hillsborough County. The Libraries Safety and Security Upgrades project will install access control systems, replace proprietary alarm systems and install/upgrade surveillance systems, etc., at various libraries to improve safety and security for library staff and customers. Project development, design and construction will begin on an effort to replace the Thonotosassa Library with a larger and more functional facility at a newly acquired site.

North Tampa Library Renovations

The John Germany (Main Library) Various Improvements and Planning Study project includes various renovations to the building and site to meet customer needs. The Burgert Brothers Photo Archive Preservation project will preserve and digitize the prints and negatives of the collection. Landscaping will be improved at various libraries with the Landscape Renovation project.

The Brandon Library Replacement – Phase 2 project provides funds to construct a new 25,000 square foot, expandable to 35,000 square foot, Brandon Library on a site acquired in Phase 1 which was funded separately. The programs and services offered by the library will be determined with citizen input. Four continuing projects will renovate existing libraries (Austin Davis, Fendig, Southshore and West Tampa).

CAPITAL BUDGET

One project reached substantial completion during FY 23. Renovations on the Town 'N Country Library were completed. There are four projects that are scheduled to reach substantial completion in FY 24 and all are renovation or maintenance related. Renovations will be complete on the Austin Davis, Fendig and West Tampa Libraries and the Ruskin Library will have its roof replaced. In FY 25, three projects should be completed. A temporary library will be opened in Wimauma, preliminary planning will be done for a future new Fishhawk Library and the chiller will be replaced at the North Tampa Library.

Town 'N Country Library Renovations

Operating Impact – Since they are renovation and maintenance related, there is no incremental operating cost impact for the projects listed above that are scheduled to reach substantial completion in FY 24. For the projects reaching completion in FY 25, the operating impact has not been determined yet.

Parks

The Parks Facilities Program Adopted Capital Budget for FY 24 is \$166.7 million. The additional funding in the Planned FY 25 Capital Budget is \$9.5 million. The program is funded through a combination of impact fees, Community Investment Tax, general revenue, financing, boat improvement funds, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Nine new projects have been added to the Parks Capital Budget including the All Peoples Life Center Chiller Replacement at \$500,000, the Athletic Facilities Batting Cage Renovations at \$800,000, the Conservation & Environmental Lands Management Fencing Replacement at \$300,000, the Conservation & Environmental Lands

Management Hardscape Replacements at \$400,000, the Citrus Park Synthetic Turf at \$478,000, the Skyway Park Trailhead Fitness Zone at \$100,000, the Temple Park Improvements at \$200,000 and the Providence West Sport Complex Renovations at \$600,000. The Providence West Sport Complex Renovations Project will replace the old baseball clay infield with two large practice areas including irrigation, LED sports lighting and new sod.

Skyway Park Playground Shade

Twelve projects were completed in FY 23 including the EG Simmons Fishing Pier Renovations, the Keystone Park Expansion, the Larry Sanders Synthetic Turf Replacement, the Mann-Wagnon Memorial Park Canoe Launch, the Veterans Memorial Park Amphitheater Shade Sail, the New Tampa Performing Arts Center, and the Skyway Park Playground Shade. The Skyway Park Playground Shade project added fabric sunshade structures to the existing Skyway Sports Complex playground.

Tennis and Basketball Courts Renovations

CAPITAL BUDGET

Six projects are scheduled for completion in FY 24 including the Alexander Metal Roof Replacement, the UACDC Aquatic Center & Community Center Improvements, the Lettuce Lake Park Playground, and the Tennis & Basketball Court Renovations and Replacements projects. This last project is for replacing and renovating tennis and basketball courts at various County parks as part of scheduled lifecycle replacement.

Significant projects in the program are the Branchton Regional Park which will construct a regional park to serve the recreational needs of the community in Northeast Hillsborough County and the Kings Forest Park Splash Pad & Improvements which will design and construct a splash pad and other improvements to the existing Kings Forest Park.

New Tampa Performing Arts Center

Another significant project in the Capital Budget is the New Tampa Performing Arts Center. This project designed and constructed a new civic building to serve as a cultural/community center as part of the New Tampa Community.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three Park projects were created and approved. The Pickleball Complexes - ARP Act Revenue Recovery Funds project which will design and construct pickleball courts at various locations throughout the County; the Kings Forest Park Splash Pad - ARP Act 3 Funds project which will design and construct a Splash Pad at the park; and the Progress Village Park Improvements – ARP Act 3 Funds project which will design and construct various improvements to the existing Progress Village Park.

Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP)

The Jan K. Platt Environmental Lands Acquisition and Protection Program (ELAPP) is a voluntary land preservation program based in the Conservation and Environmental Lands Management Department. The ELAPP Program is dedicated to the protection and preservation of natural and environmentally significant resources, as well as restoration of natural habitat. Properties preserved through ELAPP are available for recreational uses compatible with the preservation objectives. Some of the criteria used when considering a property for protection are: contains unique or scarce natural habitat for endangered species, protection of water resources, or lands that buffer, link or provide access to existing environmentally sensitive lands.

Historically, funding was secured through an operating and debt service ad valorem millage not exceeding 0.25 mills in any one-year period. A four-year property tax was originally approved by 71% of the voters in 1987 and in 1990 a referendum authorizing \$100 million in bonds was approved by 73% of the voters. In November 2008, nearly 79% of the voters approved the issuance of up to \$200 million in bonds to continue capital funding for the ELAPP Program. So far \$124.4 million has been issued of the \$200 million authorized by the voters.

As of October 1, 2022, the County has preserved approximately 63,343 acres at a cost of \$308.1 million, of which \$90.4 million (or 29%) has been funded by other agencies.

Operating Impact – The following table identifies the stand-alone projects that are scheduled for completion in FY 24 and FY 25 that have a separately identified operating impact. Ongoing master projects that have an identified operating impact are also listed in the table below.

Parks Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
All Peoples Park Expansion	0	\$10.0	\$10.0
EG Simmons/Eco Tourism	0	15.0	15.0
Emanuel Johnson Park Splash Pad	0	0.0	55.0
Kenly Park Splash Pad	0	0.0	36.7
Parks Shade Covers	0	20.0	20.0
Riverview / Brandon / East Area Parks	0	15.0	15.0
Southshore Sportsplex	0	250.0	250.0
Winston Park Splash Pad	0	0.0	55.0

CAPITAL BUDGET

Solid Waste Enterprise

The Solid Waste Enterprise Program Adopted Capital Budget for FY 24 is \$160.8 million. The additional funding in the Planned FY 25 Capital Budget is \$35.0 million. The Solid Waste Enterprise Program is funded with long-term financing and revenues generated from fees and assessments paid by customers of the enterprise.

Southeast County Landfill Facility Improvements

The program consists of fifteen active projects which concentrate on enhancing the Solid Waste services centers throughout the county. One of these projects is the Northwest Transfer Facility Improvements. This project will design, permit, construct and provide quality assurance for the Northwest Community Collection Center Improvements project. The improvements are necessary to provide a better site configuration thus improving safety, customer traffic flow, efficiency of the operation and improve the overall customer experience while using the facility.

Five new projects have been added to the Solid Waste Capital Budget including the Northwest TS and LF Facility Improvements at \$5.5 million, the Resource Recovery Facility Waste Handling and Crane Improvements at \$10.0 million, the South County TS Facility Improvements at \$5.5 million, the Southeast County Landfill Leachate Storage System at \$7.5 million, and the Resource Recovery Facility Fly Ash Separation and Building Expansion at \$15.0 million. This last project will expand the Resource Recovery Facility (RRF) to add a fly ash handling, processing, and conveying system. The system will keep bottom and fly ash separate for increased effi-

ciency in metal recycling and for facility environmental compliance and improved facility operations.

Another project included in the program is the Southeast Alternative Waste Processing Facility at \$612.5 million. The project will provide waste processing technologies to handle the county's increasing solid waste volumes. A new waste-to-energy facility is a technology to be considered; however, multiple technologies will be reviewed, such as materials recovery, digestors, composting, or other technologies, that can adequately process the current and future waste processing needs of the County. The facility infrastructure will include planning, design, permitting, and construction of infrastructure to support technology(s).

Resource Recovery Facility Improvements

One significant project in the program is the Resource Recovery Facility Improvements. The Resource Recovery Facility has four boilers that burn the waste and generate steam for turning two turbines that generate 35-40 Mega Watts of electricity for use by other County Departments and for retail sales that generate revenue for the Division. Three of the Boilers were built in 1989 and one in 2009. This project allows for the evaluation, identification and prioritization of recommended actions for equipment in need of upgrades to increase the performance and safety of the facility. The anticipated improvements include road improvements, auto combustion regulators on boilers to increase combustion efficiency, auto dialer notification, increased environmental protection with separation of stormwater and ash, boiler steam and tube replacement and other upgrades.

CAPITAL BUDGET

Operating Impact – No projects are scheduled to begin incurring operating costs in FY 24 or FY 25.

Stormwater

The Stormwater Program Adopted Capital Budget for FY 24 is \$86.9 million. The additional funding in the Planned FY 25 Capital Budget is \$31.5 million. The program is funded with a combination of Stormwater fees, Community Investment Tax, general revenue, grants, BP oil spill fund and American Rescue Plan Act (ARP) funds.

No new projects are being added to the program as part of FY 24 Capital Budget, but funding has been added to several master projects. The program includes thirteen master projects that provide for the maintenance, rehabilitation, construction and improvement of the Hillsborough County stormwater system.

Neighborhood System Improvements

The Culvert Renewal and Replacement Program replaces or repairs culverts at various locations throughout Hillsborough County. The Watershed Master Plan Updates and Watershed Drainage Improvements projects study the water quantity, and water quality if applicable in various watersheds within Hillsborough County and constructs various regional and intermediate stormwater improvements. The Neighborhood Drainage Improvements projects alleviate flooding on County-maintained roadways that do not meet the County's level of service for flood protection. These projects are initiated at the conclusion of a drainage investigation of actual flooding identifying the deficiencies. The Water Quality Improvements and Environmental Program projects implement water quality improvements and alleviate stormwater pollutant loading to surface waters.

To keep pump stations functioning properly, the Stormwater Pump Station Repair & Replacement project provides for the annual renewal and/or replacement of stormwater pump stations throughout the County. The Culvert Upgrade and Enhancement Project will upgrade, enhance and extend stormwater drainage culverts, including design, land acquisition, and construction for individual projects throughout the County. Restorations and improvements to maximize the flow and safety of roadside drainage systems are implemented through the Stormwater System Maintenance project. The Canal Dredging and Preventative Measures project provides grant funding for coastal canal dredge projects that will improve and enhance navigation pursuant to the Board of County Commissioners' Policy #01.31.01.00.

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, five Stormwater projects were created and approved. Two projects are addressing drainage issues in the Progress Village area. The Delaney Creek Water Quality Improvements project is addressing pollutant loading and stormwater management for that area. The Stormwater Drainage and Water Quality Improvements project is designing and constructing drainage improvements to alleviate neighborhood flooding at various locations. The 56th and Hannah Regional Drainage Improvements project was proposed, but then canceled after a feasibility review.

Neighborhood Drainage Improvements

CAPITAL BUDGET

No stand-alone projects were completed during FY 23. One of the ARP funded projects mentioned above, Delaney Creek Water Quality Improvements, is expected to reach substantial completion during FY 24. In FY 25, the Progress Village Local Drainage Improvements project should be completed. Although they are not listed separately, many sub-projects will be completed in FY 24 and FY 25 and will provide benefits to the County.

Operating Impact – New stormwater infrastructure normally does not have explicit additional operating costs beyond additional materials and supplies for maintenance. Ongoing annual maintenance costs for stormwater improvements are estimated at \$2.50 per \$1,000 of project cost. Stormwater infrastructure maintenance requirements include keeping drainage areas free from silt, litter, leaves and debris, mowing and maintaining stormwater ditches, canals and conveyances as well as repairing cracked or broken stormwater pipes, culverts and other stormwater infrastructure. Unanticipated maintenance of new stormwater infrastructure can be absorbed within the operating budget of the various maintenance components of the Public Works Department. However, as more infrastructure becomes operational each year, additional staff and equipment will be needed at some future date to maintain infrastructure at desired levels.

Ongoing master projects with an annual operating cost impact in FY 24 and FY 25 are listed in the table below. In addition, two stand-alone projects, Delaney Creek Water Quality Improvements and Progress Village Local Drainage Improvements will have an impact on operating costs in FY 24 and FY 25 respectively.

Stormwater Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
Culvert Renewal and Replacement Program	0	\$71.7	\$115.4
Culvert Upgrade & Enhancement	0	2.4	2.4
Delaney Creek Water Quality Improvements—ARP Act 3 Funds	0	1.0	4.0
Major Neighborhood Drainage Improvements	0	3.5	3.5
Neighborhood Drainage Capital Improvements	0	59.5	77.8
Neighborhood Drainage Improvements	0	0.6	0.6
Progress Village Local Drainage Improvements—ARP Act 3 Funds	0	0.0	2.2
Stormwater Drainage and Water Quality Improvements - ARP Act 3 Funds	0	6.4	6.4
Water Quality Improvement & Environmental Program	0	7.7	7.7

Water Quality Improvements and Environmental Program	0	3.0	4.3
Watershed Drainage Improvements	0	12.8	23.8

Transportation

The Transportation Program Adopted Capital Budget for FY 24 is \$364.7 million. The additional funding in the Planned FY 25 Capital Budget is \$35.9 million. The program is funded with a combination of fuel taxes, Community Investment Tax, financing, general revenues, grants, impact fees, mobility fees, BP oil spill fund and American Rescue Plan Act (ARP) funds.

Bell Shoals Road Corridor Improvements

Three new projects are being added to the program as part of FY 24 Capital Budget. The Big Bend Road Corridor Improvements West - US 41 to Covington Garden Drive project is part of the extensive work that is being done in the I-75 / Big Bend Road area. The project will widen Big Bend Road, a 4-lane divided road to 6-lanes from US 41 to Covington Garden Drive. The improvements will include bicycle lanes, bus facilities and enhanced pedestrian safety features, including wide sidewalks, crosswalks and signals. Stormwater drainage will also be improved. The Bay to Bay Boulevard Safety Improvements project will fund improvements to enhance safety in that corridor. The CDBG Roads and Sidewalks

CAPITAL BUDGET

Repairs master project will fund various repairs to existing roads and sidewalks within CDBG eligible areas.

In FY 23, a project was added through Board approval to take advantage of a grant opportunity. The Safe Streets and Roads for All program includes projects funded by the U.S Department of Transportation Safe Streets and Roads for All (“SS4A”) Grant. This project will improve safety for pedestrians, bicyclists, transit users, and drivers at approximately 22 locations throughout Hillsborough County.

Many important projects continue into this Adopted Budget to make critical infrastructure improvements. As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, three Transportation projects were created and approved. The Roadway Pavement Preservation – ARP Act Revenue Recovery Funds project was established after the BOCC directed that \$40 million of ARP dollars be used for resurfacing projects. Roads will be improved at various locations throughout the county. Two sidewalk projects (the Sidewalk Improvements - ARP Act 3 Funds and Sidewalk Improvements - ARP Act Revenue Recovery Funds projects) will repair existing sidewalks and upgrade sidewalks to be ADA compliant across Hillsborough County.

Apollo Beach Blvd I-75 Overpass

Key areas in the Transportation Program that continue include corridor improvement projects (19th Avenue NE, Bell Shoals Road, Big Bend Road, East 131st Avenue, Lithia Pinecrest Road, South 78th Street and Van Dyke Road), intersection / interchange improvements (Big Bend Road at I -75, various locations on Lumsden Road, safety enhancements at various locations) and roadway improvements (University Area improvements and Sun City Center pedestrian mobility improvements). The Corridor Safety Retrofit Improvements project will provide safety retrofit improvements in high injury crash and high safety risk locations. It includes safety enhancements with major road resurfacing projects.

Many other previously funded projects continue in this Adopted Capital Budget. The Safe Routes to School Program includes sidewalks near schools, school safety circulation enhancements, new sidewalks on county roads, new and enhanced pedestrian crossings, signs and pavement markings. Funds have also been allocated for four trails projects (Balm Boyette/Alafia Connector, South Coast Greenway, Tampa Bypass Canal and Upper Tampa Bay) and construction is being managed by Public Works. These trails are in various levels of evaluation, design and construction.

Sidewalk Repair Program

The Bell Shoals Road Corridor Improvements (Bloomington to Boyette) project will complete a new four lane di-

CAPITAL BUDGET

vided county road including enhancements to pedestrian safety features. Turkey Creek Road will be widened from Sydney Road to south of SR 574/MLK Boulevard to provide capacity and intersection improvements. The program also includes funding for bridge replacements, bridge repairs, intersection improvements, sidewalks, pavement preservation, and safety Improvements.

Two projects reached substantial completion during FY 23. Intersection improvements at Orient Road and Sligh Avenue were completed. The Sidewalk Retrofit Construction Funding project improved sidewalks throughout the County.

Three stand-alone projects are scheduled to reach substantial completion in FY 24 and one in FY 25. For FY 24, the Bell Shoals Road Corridor Improvements (Bloomingdale to Boyette) and Turkey Creek Road Improvements from MLK Blvd to Sydney Road projects discussed above will be completed. The project implementing various intersection improvements along Lumsden Road will also be completed. In FY 25, the Big Bend/I-75 Interchange Improvements project will be completed which will enhance traffic flow in that area. Although not listed separately, many sub-projects will be completed in FY 24 and FY 25 and will provide benefits to the County.

Operating Impact – While new transportation infrastructure generally has no immediate direct operating costs associated with it, future and ongoing maintenance expenditures are needed to keep the roads, trails and sidewalks up to County standards. Ongoing maintenance costs include pothole patching, lane and crosswalk re-striping, sign and traffic signal replacement, ADA compliance and roadside right-of-way mowing and maintenance. Not including residential street lighting, the County expends approximately \$9,022 annually per lane mile on ongoing maintenance. The County is responsible for maintaining over 6,933 lane miles throughout the county. Note that major road resurfacing is budgeted separately under the capital program. Like stormwater, as more transportation infrastructure continues to become operational, additional staff and equipment will be needed to maintain infrastructure at operational levels. The annual cost to maintain traffic signals is approximately \$6,000 per signalized intersection; \$2,400 for utility cost and \$3,600 for maintenance costs.

Only one of the stand-alone projects scheduled for completion in FY 24 and FY 25 discussed above has an identified operating cost impact (Bell Shoals Road Corridor Improvements). Ongoing master projects that have an identified operating impact are also listed in the table below.

Transportation Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
Advanced Traffic Management System Improvement Program	0	\$450.0	\$450.0
Bell Shoals Road Corridor Improvements (Bloomingdale to Boyette)	0	21.8	29.0
Intersection Improvement Program	0	100.0	100.0
New & Improved Signalization Program	0	100.0	100.0

Water Enterprise

The Water Enterprise Program Adopted Capital Budget for FY 24 is \$556.2 million. The additional funding in the Planned FY 25 Capital Budget is \$556.7 million. The Water Enterprise Program includes potable water, wastewater and reclaimed water projects and is funded with a combination of long-term financing, impact fees, revenue generated from fees, rates and charges paid by customers of the enterprise, BP oil spill funds and American Rescue Plan Act (ARP) funds.

Northwest Regional Water Reclamation Facility System Improvement & Expansion

Fourteen new projects were added to the Water Enterprise Capital Budget including the Palm River Service Area Purchase and Connection at \$120.0 million, the Countywide Aquifer Recharge Program at \$38.0 million, the Falkenburg Structural Rehabilitation Phase II at \$10.5 million, the Mitchell Master Pump Station to Clay

CAPITAL BUDGET

Avenue Pump Station Pipeline and Station Upgrades at \$19.2 million, the South County Reclaimed Water Pipeline at \$ 25.0 million, and the South County One Water Campus Expansion at \$189.0 million. This last project will design and construct new water facilities for progressive development and population growth in the South County area.

The Northwest Regional Water Reclamation Facility System Improvement & Expansion project was completed in FY 23. The project constructed improvements to the Northwest Regional Water Reclamation Facility. The prior facility was only permitted to treat 10.0 million gallons per day and the new improvements increased the permitted capacity to 30.0 million gallons per day. This permitted capacity allows for one full treatment train to be out of service for maintenance and operational flexibility.

South Hillsborough Aquifer Recharge Program (SHARP)

The Woodberry Super Station Rehabilitation project at \$5.8 million is scheduled for completion in FY 24. The Woodberry Super Station is one of the largest in the County. It is over 20 years old and requires rehabilitation including new variable frequency drives, wet well coatings, new pumps, bypass pumping, piping, and other appurtenances. The Woodberry Super Station is critical to transferring wastewater to the Falkenburg Advanced Wastewater Treatment Facility. Allowing the electrical

infrastructure to continue to age presents significant financial and environmental risk to the County.

South County Water Facility

An ongoing project of importance is the South Hillsborough Aquifer Recharge Program (SHARP) at \$18.7 million. In the future, surface water discharges will be limited and/or eliminated due to Total Maximum Daily Loads and Numeric Nutrient Criteria restrictions. Aquifer Recharge is another area where reclaimed water can be used to reduce discharge, can act as a salinity barrier created to limit saltwater intrusion, create a path to the restoration of local water levels and support a long-term and sustainable solution to water management challenges in the Hillsborough County Public Utilities service area. In coordination with the Southwest Florida Water Management District and the Florida Department of Environmental Protection, Hillsborough County embarked on two reclaimed water direct aquifer recharge pilot projects along the coastal county in a non-drinking water portion of the aquifer.

Additionally, the program includes the two University Area Septic to Sewer Innovation Area projects at \$48 million. The University Area Septic to Sewer Innovation Area project funding will be used to pay for residential and commercial hook-up charges for water and sewer in the University Area.

CAPITAL BUDGET

As part of the federal response to the COVID-19 pandemic, the County received funding through the American Rescue Plan Act (ARP). Various agenda items were brought to the BOCC for approval during FY 22 and FY 23 to allocate these funds to projects. As part of that process, five Water projects were created and approved. The projects will address the sewer systems in Gibsonton, Palm River, Ruskin, Wimauma and the University Area. The Gibsonton Area Septic to Sewer Conversion Program ARP funding project will build a wastewater collection system for existing residents and future developments in the Gibsonton Area.

Operating Impact – No stand-alone projects are scheduled to begin incurring operating costs in FY 24 or FY 25. Ongoing master projects that have an identified operating impact are also listed in the table below.

Water Enterprise Projects	New Positions	Operating Impact (In thousands)	
		FY 24	FY 25
Public Utilities Telemetry / Data Network and Support Program (MP)	0	\$50.0	\$50.0
Reclaimed Water Transmission Main Extensions to New and Existing Customers (MP)	0	1.2	1.2

Major Repair, Replacement, Renovation, and Maintenance Program

During the FY 02 capital budget process, the Board of County Commissioners, concerned about maintaining the condition of County facilities, established the Major Repair, Replacement, Renovation and Maintenance Program (R3M). The program focuses on non-routine repairs, renovations, replacement or maintenance of existing facilities rather than construction of new facilities or infrastructure. Projects included in this program are typically under \$150,000, do not add square footage to an

existing facility, and can be delivered within a twelve-month period. This program is more flexible than the CIP process, allowing the County to react in a more timely manner to facility related emergencies or non-routine repairs and maintenance needs. The projects can be identified, budgeted and completed within a twelve-month period.

To ensure that funding is available to maintain existing facilities, the Board of County Commissioners sets aside a minimum of 1% of anticipated annual revenues in the Countywide General Fund, the Unincorporated Area General Fund and the Library District Fund. The Adopted FY 24 allocations will generate approximately \$10.8 million at 1.2% for the Countywide General Fund, \$8.0 million at 2.0% for the Unincorporated Area General Fund and \$820,301 at 1% for the Library District Fund. A list of proposed FY 24 R3M projects can be found in the appendix section of the Adopted Capital Improvement Program document.

Monitoring

The Capital Budget Team conducts regular reviews of capital project status, allocations and expenditures along with related activities.

The purposes of these reviews are:

- To ensure compliance with applicable statutes, ordinances, County policies and procedures, and sound accounting and budgeting practices.
- To identify projects with excess appropriations that might be subject to reallocation.
- To track impact fee revenues and expenditures to ensure that impact fees are being spent in a timely manner as required by ordinance.

Results of these analyses are communicated to appropriate management and staff for follow-up and corrective action. To assist in the reviews, the Capital Budget Team generates numerous variance and tracking reports from the County's financial system.

CAPITAL BUDGET

FY 24 - FY 25 Funding for Capital Projects (in thousands)

Project Number	Program / Project Title	Prior Expenses	FY 24 Adopted	FY 25 Planned	Future Funding	Total Cost
<i>Fire Services:</i>						
C91204000	Apollo Beach Fire Station #29 Replacement	\$4,996	\$174	\$0	\$0	\$5,170

Debt Service Budget

EXECUTIVE SUMMARY

The County issues debt in accordance with its Debt Policy, adopted by the County Commission, which governs the type and amount of borrowings that are best suited to achieving its financing objectives. As of September 30, 2023, total County debt outstanding is \$1,422,686,000 which includes \$36,620,000 in debt issued by the Tampa Sports Authority, and \$1,386,066,000 in County-issued debt consisting of \$596,630,000 in enterprise fund and special assessment debt (including \$22,200,000 in variable rate debt), \$150,480,000 in general obligation and limited ad valorem debt, and \$638,956,000 in non-ad valorem revenue supported debt (including \$24,485,000 in tax-exempt commercial paper).

Of the \$1.39 billion in total County-issued debt outstanding on September 30, 2023, about \$1.33 billion is financed with fixed interest rates and about \$58.82 million with variable interest rates resulting in a mix of 96.6% long-term fixed rate and 3.4% short-term variable rate debt. This represents a conservative portfolio that is well insulated from interest rate volatility. Depending on market conditions, the County plans to vary its short-term debt issuance in order to lower the County's cost of capital without overexposing the County to short-term spikes in interest rates. This objective is reflected in the County's FY23 – FY27 Capital Improvements Program (the "CIP").

The County has significant debt capacity remaining, is in compliance with its anti-dilution test¹ and is well below the limits of associated debt ratios (please see "Debt Ratios on County-issued Debt" as shown in the final table of this section). Both annual and total debt service levels are manageable. However, inasmuch as all County revenues are being used to either pay debt service or to fund County operations and reserves, any use of County revenues to secure and pay additional debt could impact County operations unless additional revenue sources are identified. One exception is the Community Investment Tax ("CIT") which was originally levied in fiscal year 1997 for 30 years and may be used only for capital projects. Because of the relatively short time frame remaining until expiration of the CIT, it is no longer used as a security pledge on long term-bond issues, but is instead used to fund pay-go projects and may also be used as the repayment source for short- or medium-term bank loans, if appropriate.

¹ An Anti-Dilution test is computed with respect to debt secured by the County's covenant to budget and appropriate from legally available non-ad valorem revenues. This test measures the extent to which the County can use non-ad valorem revenues for debt service on additional bonds in relation to general government services. The purpose of this test is to ensure that the County does not excessively leverage its non-ad valorem revenues.

When appropriate, the County utilizes its Commercial Paper program to address short-term capital project funding needs, such as to encumber contracts and provide short-term financing prior to the issuance of long-term debt. Under this program the Board authorizes short-term borrowings when needed to provide adequate cash flow for active projects. This approach ensures that long-term debt is issued only when needed and is only issued in appropriate amounts. Furthermore, tax exempt short-term debt tends to be the lowest cost financing tool available to local governments resulting in substantial savings to the County. Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding short-term notes, unless there is an advantage in keeping short-term, variable rate notes outstanding. As a part of its funding plan, the CIP includes future issuance of commercial paper notes, in addition to bonds, as a major source of capital funding.

The County has credit ratings on its debt from Moody's Investors Service, Standard and Poor's, and Fitch Ratings. Each of the three credit rating agencies has assigned the County general credit ratings of "Aaa", "AAA", and "AAA", respectively. These ratings represent the highest attainable credit rating assigned by each agency. The rating agencies have separately rated other bonds of the County which are secured by specific revenue pledges. These are described later in this report.

The County's enterprise fund, general obligation, and limited ad valorem tax debt continue to be "self-supporting" in that this debt is secured solely by and paid from enterprise fund revenue and ad valorem taxes. Many of the non-enterprise, non-ad valorem revenue bonds are supported by revenues specifically earmarked for such purpose. For example, bonds issued for Criminal Justice facilities are repaid with the State Shared Sales Tax, Community Investment Tax or court fees.

Professional Sports Venues

Bonds issued to finance construction of the Amalie Arena (formerly the Tampa Bay Times Forum), a multi-purpose arena which is the home to the NHL Lightning franchise are repaid from the County's 5th Cent of the Tourist Development Tax (the "TDT"), which can only be used for debt service on professional sports franchise facilities and for tourism marketing costs. Bonds issued to finance construction of Raymond James Stadium (home of the NFL Buccaneers) are repaid with CIT²

² This Sales Surtax was approved by referendum, and the proceeds are allocated among the Hillsborough County School District, the County, and the cities of Tampa, Temple Terrace, and Plant City pursuant to an interlocal agreement. The interlocal agreement provides a specific allocation of revenues for debt service and certain other capital expenditures in connection with the stadium.

Debt Service Budget

revenue, the 4th Cent of the TDT, and payments from a State of Florida sales tax rebate.

Local Government Infrastructure Surtax (CIT)

A major funding source for the County's governmental capital projects is the Local Government Infrastructure Surtax, referred to locally as the CIT. Because capital projects are front-loaded in the early years, financing is required. Furthermore, because the CIT is scheduled to sunset in about eight years (on December 31, 2026), bank notes and commercial paper notes will be the predominant financing source as opposed to traditional long-term bonds. Currently, approximately \$38.3 million in active capital improvement projects are funded through the CIT program. The majority of this will be funded via issuance of commercial paper, which may subsequently be refinanced with short or medium term fixed rate debt which will mature prior to the expiration of the CIT program.

SUMMARY OF RECENT AND FUTURE DEBT ISSUANCES

Recent Debt Issuances

On November 21, 2023, the County issued \$1,782,802 in special assessment-backed debt for the purpose of funding capital improvements constructed in connection with Ordinance No. 14-31 and Resolution No. R19-002.

On August 9, 2023, the County issued its Series 2023 General Obligation Bonds (Environmental Lands Acquisition and Protection Program) in the amount of \$53,390,000 for the purpose of financing or refinancing the acquisition costs of environmentally sensitive lands for inclusion in its Environmental Lands Acquisition and Protection (ELAP) Program.

On March 28, 2022 the County opened a variable rate line of credit in the amount of \$37,500,000. The line of credit was obtained for the purpose of funding certain capital improvements to the Water and Wastewater System, including the construction of improvements at the System's future One Water Campus facility.

On July 19, 2021 the County issued its Series 2021A Utility Revenue Bonds in the amount of \$155,155,000 and its Series 2021B Utility Refunding Revenue Bonds in the amount of \$19,780,000. The 2021A Bonds were issued in order to fund several water and wastewater capital improvement projects. The 2021B Bonds were issued for the purpose of refunding all of the County's outstanding Utility Revenue Bonds, Series 2010C (Federally Taxable – Recovery Zone Economic Development Bonds – Direct Payment).

On June 17, 2021 the County entered into a \$275,541,016 revolving credit facility agreement for the purpose of providing short-term funding to a variety of capital improvement projects. This credit facility replaced an expiring and near identical facility the County had in place with a different bank.

On May 25, 2021 the County issued its \$189,290,000 Capital Improvement Program Non-Ad Valorem Revenue Bonds for the purpose of paying off commercial paper notes previously issued to fund transportation project costs, and in order to fund additional transportation project costs.

On April 12, 2021 the County issued its Series 2021 Wastewater Impact Fee Assessment Special Assessment Revenue Bonds in the amount of \$58,040,000 for the purpose of partially funding certain improvements to the Public Utilities Water/Wastewater System intended to increase capacity in southern Hillsborough County.

On December 21, 2020 the County opened a variable rate line of credit in the amount of \$22,000,000. The line of credit was obtained for the purpose of funding certain capital improvements to the Solid Waste System, including the construction of improvements at the System's Northwest Transfer Station facility, and the purchase of a leachate evaporate concentrator.

Planned Future Debt Issuances

In 2024, the County intends to issue approximately \$503 million in rate-backed debt for the purpose of funding certain improvements to the Public Utilities Water/Wastewater System intended to increase capacity in southern Hillsborough County, and to refinance the System's \$37.5 million variable rate line of credit.

In 2024, the County intends to issue up to \$101 million in rate-backed revenue bonds for the purpose of partially funding certain improvements to the Solid Waste and Resource Recovery System, and to refinance the System's \$22 million variable rate line of credit.

SUMMARY OF DEFEASANCE AND REDEMPTION OF DEBT

On July 19, 2021, the County defeased all outstanding maturities of its Utility Revenue Bonds, Series 2010C (Federally Taxable – Recovery Zone Economic Development Bonds – Direct Payment) using proceeds from the issuance of its Utility Refunding Revenue Bonds, Series 2021B. The outstanding Bonds had a par value of \$21,700,000 at the time of refunding.

On September 1, 2020, the County repaid the outstanding balance on its Series 2013 Solid Waste and Resource Recovery Bond (AMT) using cash reserves from the System's Rate

Debt Service Budget

Stabilization Fund. The outstanding balance on the Bond was \$10,603,000 at the time of final payment.

CONCLUSION

The County issues debt in accordance with its Debt Policy, adopted by the County Commission, which governs the type and amount of borrowings that are best suited to achieving its financing objectives. The policy guides the County's /borrowings by means of targets and ratios, such as direct debt per capita or general governmental debt as a percent of general fund revenue, that balance the need for flexibility to ensure the availability of capital with the need to ensure continued access to the capital markets. On a per capita basis, Hillsborough County debt is comparable to similarly sized counties.

The County actively and aggressively monitors market opportunities to refinance, defease or redeem its outstanding debt to achieve lower debt service costs. When legally and economically feasible, lower interest rate debt or available reserves will be issued to pay off higher interest rate debt.

In summary, as confirmed by its credit ratings, the County's financial condition is characterized by strong debt service coverage from pledged revenue, a broad and varied local economy, and strong financial management.

Debt Service Budget

COUNTY CREDIT RATINGS

The County has credit ratings on its debt from Moody's Investors Service ("Moody's"), Standard & Poor's Ratings Services ("S&P"), and Fitch Ratings ("Fitch") and has general credit ratings of Aaa/AAA/AAA. As stated in Moody's credit report for Hillsborough County, an improved credit rating reflects continued health, diversity and growth in the County's economy, strong tax base expansion, strong financial

administration and a manageable debt position. The County's strategic goal is to maintain general credit ratings of at least A2/AA/AA. All the County's credit ratings as of September 30, 2023 are shown in the following table. The County's high credit ratings are a notable achievement since they generally lead to lower interest costs on debt financings. The County's debt obligations are issued and administered in such a manner as to ensure and sustain long-term financial integrity of the County, and to achieve the highest possible credit ratings

Hillsborough County, Florida Credit Ratings as of September 30, 2023

ALL COUNTY DEBT

As of the fiscal year ending September 30, 2023, the County had total indebtedness of \$1.37 billion including County-supported debt issued by the Tampa Sports Authority, but excluding County-issued Special Assessment Revenue Bonds (described at the end of this section).

All County Debt¹ is divided into seven categories consisting of:

	Fiscal year Ended September 30,				
Governmental	2019	2020	2021	2022	2023
General Obligation	\$ 109,490,000	\$ 106,805,000	\$ 103,725,000	\$ 100,490,000	\$ 150,480,000

¹ Excludes commercial paper.

² Excludes County-issued Special Assessment Revenue Bonds.

³ Excludes Principal Payments on Defeased Debt.

⁴ Includes Capitalized Interest.

⁵ For a more complete description of Tampa Sports Authority debt see the section titled "Revenue Bonds: Debt Issued by Independent Authorities".

Debt Capacity of Selected Revenues

The Florida Constitution does not limit the amount of ad valorem taxes a county may levy for the payment of bonds authorized by voter referendum. The County is limited by Article VII, Section 9 of the Florida Constitution, however, to a maximum levy of 10 mills per \$1,000 of the assessed value of real estate and tangible personal property for county purposes other than the payment of voted bonds. The countywide millage rate for calendar year 2023 (fiscal year 2024) is 5.7309 mills.

Debt related to rate-based County services, such as water/wastewater utilities and solid waste collection and disposal, does not affect operations because pledges are made only on net revenues (i.e., total revenue minus operating and maintenance costs of the systems). Therefore, debt capacity for these enterprise operations is a function of the adequacy of rates and fees to support outstanding and additional debt.

The County has considerable debt capacity remaining. However, inasmuch as all County revenues are being used to

pay debt service, fund County operations or increase reserves, any use of County revenues to secure and pay additional debt could impact County operations unless additional revenue sources are identified.

Appendix B of this report shows calculations of the debt capacity of County major non-ad valorem revenues in relation to current outstanding general fund debt of the County. These calculations serve three major purposes. First, they enable the County to determine its ability to pledge the revenues for additional projects. Secondly, they are used to determine the general debt capacity of the non-ad valorem revenues of the County taking into consideration the constraints of the anti-dilution test required by the County's outstanding bond issues and interlocal agreements. Finally, the debt capacity calculation provides an indication of the financial condition of the County.

A graph of the debt capacity of major revenues is illustrated below:

Debt Capacity of Selected Revenues

The County currently has twelve major non-ad valorem revenues as follows:

- the local government half-cent sales tax,
- the guaranteed entitlement,
- the communications services tax,
- the local option infrastructure surtax for community reinvestment (the “Community Investment Tax or CIT”),
- the voted fuel tax (9th ¢),
- the local option fuel tax (1-6¢),
- the county fuel tax (7th ¢),
- the constitutional fuel tax,
- the 4th cent tourist development tax,
- the 5th cent tourist development tax,
- traffic surcharge revenues, and
- the Indigent Care half-cent sales tax

In addition, the County has a mix of other non-ad valorem revenues. However, these revenues on a stand-alone basis are difficult to pledge as security for a bond issue due to

the volatility and uncertainties of collections on an annual basis. Therefore, the debt capacity analysis primarily provides information on the above referenced major non-ad valorem revenue sources.

Many of the non-ad valorem revenues discussed here are limited as to use. For example, the county fuel tax and local option fuel tax are limited to transportation and road improvement related costs, including debt service payments on transportation bonds; the 4th and 5th cents of the tourist development tax are limited to capital construction and maintenance of tourist-related facilities such as convention centers, sports arenas and stadiums; and, the Indigent Care half-cent sales tax is limited to indigent care services. The primary, unrestricted direct revenue sources available as security for a non-ad valorem/non-enterprise bond issue are the local government half-cent sales tax, the guaranteed entitlement, the communication services tax, the community investment tax, and the constitutional fuel tax.

Description of Types of Debt Issued by the County

There are several different types of debt incurred by cities and counties in Florida, including general obligation debt, revenue debt, long-term leases and government loans. To date, Hillsborough County has used the methods summarized below. For a more detailed discussion, see Appendix A.

GENERAL OBLIGATION DEBT

General obligation ("G.O.") bonds of municipalities, counties, school districts and states are backed by a pledge of the full faith and credit of the issuing entity. This pledge generally is supported by a commitment of the issuer to levy and to collect ad valorem taxes, without limitations as to millage rate or amount, for the payment of principal and interest on its bonds. With the County's excellent "Aaa/AAA/AAA" credit rating, G.O. debt offers the lowest interest cost of any form of county debt. The County is limited by Article VII, Section 9 of the Florida Constitution, however, to a maximum levy of 10 mills per \$1,000 of the assessed value of real estate and tangible personal property for county purposes other than the payment of voted bonds. Because of the impact on property owners, the issuance of general obligation debt in Florida requires the consent of the voters through a referendum. The Florida Constitution does not limit the amount of ad valorem taxes a county may levy for the payment of bonds authorized by voter referendum.

REVENUE DEBT: BONDS, NOTES AND GOVERNMENTAL LOANS

Most, if not all, state constitutions authorize either explicitly or implicitly the issuance of revenue debt. Revenue debt may be issued without voter referendum because of a public policy called the "special fund doctrine". The essence of revenue debt is that a particular stream of revenue is designated as the

sole source of repayment of the debt. This revenue source may be derived from a specific project or enterprise, a loan program or even a special tax. In the event that such a source proves inadequate or default is otherwise threatened, the issuer is under no obligation to repay the debt from its other general governmental funds.

Debt related to rate-based County services, such as water and wastewater utilities, does not affect system operations because the initial size of the borrowing as well as the related debt service payments are structured around net system revenues.

FIXED VS. VARIABLE INTEREST RATE DEBT

Historically, short-term variable interest rates ("short-term rates") tend to be lower than long-term fixed interest rates ("long-term rates"). Short-term rates promote the assets/liabilities matching principle. However, long-term rates provide debt service certainty and protect against short-term spikes in interest rates. Of the \$1.34 billion in total County-issued debt outstanding on September 30, 2023, about \$1.29 billion is financed with fixed interest rates and about \$46.67 million with variable interest rates (i.e. tax-exempt and taxable commercial paper notes), resulting in a debt portfolio mix of 96.5% long-term fixed rate and 3.5% short-term variable rate debt, which is conservative and well-insulated from interest rate volatility. Depending on market conditions, the County plans to achieve a more moderate debt portfolio mix in the future by increasing its short-term debt issuance. The objective will be to further lower the County's cost of capital without overexposing the County to short-term spikes in interest rates.

General Obligation Bonds

General Obligation Bonds are secured by a pledge of the full faith and credit of the County to levy sufficient ad valorem taxes to pay the debt service on the bonds. The County has three series of general obligation bonds outstanding. The \$18,540,000 **Series 2002 General Obligation Refunding Bonds (Parks)** were issued to refund the Series 1993 and Series 1996 Bonds, each of which was issued in the original par amount of \$10,000,000 to fund the acquisition and development of parks.

The \$38,830,000 **Series 2019A General Obligation Refunding Bonds (ELAPP)** and \$64,950,000 **Series 2019B General Obligation Bonds (ELAPP)** were issued to refund the Series

2009B Taxable General Obligation Bonds (ELAPP – Federally Taxable Build America Bonds – Direct Subsidy), and to continue the ELAPP program in accordance with the 2008 referendum authorization. The final maturity date of the outstanding 2019A Bonds is July 1, 2039 and the final maturity date of the 2019B Bonds is July 1, 2049.

The \$53,390,000 series 2023 General Obligation Bonds (Environmental Lands Acquisition and Protection Program) were issued to fund or refinance the acquisition cost of ELAPP Projects. The final maturity date of the 2023 Bonds is July 1, 2053.

Revenue Bonds: Non-Enterprise/Non-Ad Valorem

Debt classified as “non-enterprise/non-ad valorem” is supported by a variety of fees, taxes and other revenues of the County, excluding enterprise system revenues and ad valorem taxes. All currently outstanding debt in this category is tax-exempt. The following overview provides a description of each outstanding issue, the original amount and purpose of the issue, and a description of pledged revenues.

The tax-exempt debt issued under the County’s Commercial Paper Program (the “Program”), established in April 2000, is payable from and secured by the County’s covenant to budget and appropriate from non-ad valorem revenues. The County’s borrowings under the Program are also secured by a \$275 million revolving credit agreement from Wells Fargo Bank, NA. Since its inception, the Program has provided cost-efficient, short-term financing for projects until such time as final project costs are known, sufficient revenue is available to support a long-term financing, multiple projects can be combined into a single long-term financing of adequate dollar size, or a favorable interest rate environment exists.

The **Series 2012A Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$38,130,000 on May 23, 2012. The Series 2012A Bonds were issued to refund a portion of the outstanding CIT Revenue Bonds, Series 2001A (Jail Project), and a portion of the outstanding CIT Revenue Bonds, Series 2001B (Stormwater Project). The Series 2012A Bonds are payable solely from and secured by the CIT Revenues. The CIT Revenues securing the Series 2012A Bonds are on a parity and equal status with the County’s outstanding CIT Revenue Bonds, Series 2007; the CIT Refunding Revenue Bonds, Series 2012B; the CIT Refunding Revenue Bonds, Series 2015; and the Court Facilities Refunding Revenue Note, Series 2015.

The **Series 2012B Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$51,625,000 on May 23, 2012. The Series 2012B Bonds were issued to refund a portion of the outstanding CIT Revenue Bonds, Series 2004. (The final remaining unrefunded portion of the series 2004 CIT Bonds was paid off during fiscal 2015) The Series 2012B Bonds are payable solely from and secured by the CIT Revenues. The CIT Revenues securing the Series 2012B Bonds are on a parity and equal status with the County’s outstanding CIT Revenue Bonds, Series 2007; the CIT Refunding Revenue Bonds, Series 2012A; the CIT Refunding Revenue Bonds, Series 2015; and the Court Facilities Refunding Revenue Note, Series 2015.

The **Series 2015 Communications Services Tax Revenue Bonds** were issued in the amount of \$67,800,000 on April 16, 2015. The series 2015 Bonds were issued in order to provide funds sufficient to finance, refinance and/or reimburse the acquisition, construction and equipping of a new Public Safety Operations Complex (“PSOC”), new Sheriff’s facilities, improvements to various existing fire stations and to new fire stations, and various parks, recreation and other public

facilities improvements. The Bonds are secured by and will be repaid from Communication Services Tax revenues.

The **Series 2015 Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$139,215,000 on July 29, 2015. The Series 2015 Bonds were issued in order to refinance \$49,500,000 of outstanding commercial paper notes, and \$103,745,000 of outstanding Community Investment Tax Revenue Bonds, Series 2007. The Series 2015 Bonds are payable solely from and secured by the CIT Revenues. The CIT Revenues securing the 2015 Series Bonds are on a parity and equal status with the County’s outstanding Court Facilities Refunding Note, Series 2015; CIT Revenue Bonds, Series 2007 (unrefunded portion), Series 2012A and CIT Revenue Bonds Series 2012B.

The **Series 2015 Tampa Bay Arena Refunding Revenue Note** was issued in the amount of \$11,176,000 on November 5, 2015. The Series 2015 Note was issued in order to refund all of the outstanding 2005 Tampa Bay Arena Refunding Revenue bonds originally issued to refund the Tampa Sports Authority taxable 1995 Special Purpose Bonds and to pay the cost of terminating a forward interest rate swap agreement. The Bonds are secured by a pledge of Non-Ad Valorem Revenues but are being repaid from 5th Cent Tourist Development Tax Revenues.

The **Series 2015 Court Facilities Refunding Revenue Note** was issued in the amount of \$19,756,000 on November 5, 2015. The Series 2015 Note was issued to refund the Court Facilities Series 2005 Bonds, which were issued to refund the Court facilities Series 1999 Bonds, which were issued to finance capital improvements to the court system facilities of the County and to refund the Courthouse Annex Note and the 700 Twiggs Street Commercial Paper Loan. The Bonds are secured by a pledge of Non-Ad Valorem Revenues and are being repaid from Traffic Surcharge Revenues.

The **Series 2016 Capital Improvement Program Refunding Revenue Bonds** were issued in the amount of \$18,185,000 on July 14, 2016. The Series 2016 Bonds were issued to refund all the outstanding 2006 Capital Improvement Program Refunding Revenue Bonds, which were issued to refund the Series 1996 Capital Improvement Program Refunding Revenue Bonds (Steinbrenner/Legends Field and 800 MHz Radio Communication System). The Bonds are secured by the half-cent sales tax revenues, but may also be repaid in part by 4th Cent Tourist Development Tax Revenues and revenues collected under F.S. 318.21(9).

The **Series 2016 Fifth Cent Tourist Development Tax Refunding Revenue Bonds** were issued in the amount of \$39,075,000 on October 25, 2016. The Series 2016 Bonds were issued to refund the 2006A Fifth Cent Tourist Development Tax Refunding Revenue Bonds (Ice Palace Project) and redeem outstanding Commercial Paper related to Amalie Arena,

Revenue Bonds: Non-Enterprise/Non-Ad Valorem

formerly known as the Tampa Bay Times Forum, St Pete Times Forum and as the Ice Palace. The 5th Cent Tourist Development Tax Revenues are the sole payment source for the Series 2016 Bonds.

The Series 2017A Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds were issued in the amount of \$12,875,000. The Series 2017A Bonds were issued to refund the County's outstanding Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds, Series 2006, which were issued to refund Tampa Sports Authority Tourist Development Tax Revenue Bonds (Stadium Project), Series 1997B, which in turn were issued to fund the acquisition and/or construction of various capital improvements to the County-owned Steinbrenner Field (fka Legends Field) baseball stadium, and the City-owned Tampa Convention Center. The 4th Cent Tourist Development Tax is the sole payment source for the Series 2017A Bonds.

The Series 2017B Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds were issued in the amount of \$22,020,000. The 2017B Bonds were issued to fund certain cost reimbursements for various improvements to George M. Steinbrenner Field (fka Legends Field), a professional spring training baseball facility. The 4th Cent Tourist Development Tax is the sole payment source for the Series 2017B Bonds.

The Series 2017 Capital improvement Non-Ad Valorem Refunding Revenue Note was issued in the amount of \$11,749,000 on September 26, 2017. The Series 2017 Note was issued in order to refinance \$11,420,000 of outstanding Capital Improvement Non-Ad Valorem Refunding Revenue Bonds, Series 2008 which were issued to refund the County's Capital Improvement Non-Ad Valorem Revenue Bonds, Series 1998 which were issued to 1) fund the acquisition and construction of a combined warehouse and operations center for various County agencies and two regional substations for the County sheriff's department, and 2) redeem an outstanding note to the Florida Local Government Finance Commission. The Note is secured by a pledge of Non-Ad Valorem Revenues but is being repaid from Half-Cent Sales Tax Revenues.

The Series 2017 Capital Improvement Program Refunding Revenue Note was issued in the amount of \$27,216,000, on December 21, 2017. The Series 2017 Note was issued to refinance a portion of the outstanding Capital Improvement Program Refunding Revenue Bonds, Series 2012, which were issued to pay off \$50 million of outstanding commercial paper and to fund approximately \$29 million of capital improvement projects approved as part the adopted CIP. The Note is secured by Half-Cent Sales Tax Revenues.

The Series 2018 Community Investment Tax Refunding Revenue Bonds were issued in the amount of \$61,135,000 on July 24, 2018. The Series 2018 Bonds were issued for the purpose of refunding \$51,610,000 of outstanding commercial paper notes, together with financing the design, engineering, acquisition, construction and reconstruction of certain transportation and other capital improvements in the County. The Bonds are secured by CIT Revenues.

The Series 2019 Capital Improvement Non-Ad Valorem Revenue Bonds were issued in the amount of \$142,720,000 on June 20, 2019. The Series 2019 Bonds were issued to fund the acquisition, construction, reconstruction, expansion, replacement and/or equipping of various fire stations, court facilities, parks, recreation facilities, operations centers, maintenance facilities, emergency generators and solar and LED lighting, including capital improvements related to the hardening of certain facilities for hurricane resiliency and used by the County for emergency preparedness and post-disaster response. The Bonds are secured by a pledge of Non-Ad Valorem Revenues but are being repaid from Half-Cent Sales Tax Revenues.

The Series 2021 Capital Improvement Program Non-Ad Valorem Revenue Bonds were issued in the amount of \$189,290,000 on May 25, 2021. The Series 2021 Bonds were issued in order to redeem commercial paper notes previously issued for the purpose of funding transportation projects, and in order to provide long-term funding for additional transportation project costs.

Revenue Bonds: Enterprise Funds

WATER AND WASTEWATER

The County's water and wastewater bonds are secured solely by a pledge of the revenues of the water and wastewater utility system (the "Utility System"). Utility System debt outstanding as of September 30, 2023 is \$446,710,000.

The **Series 2016 Utility Revenue Bonds**, issued in the amount of \$207,795,000, funded the cost of design and acquisition of various capital improvements to the County's water and waste water utility system. The Bonds are being repaid from water and wastewater utility system revenues.

The **Series 2019 Utility Refunding Revenue Bonds**, issued in the amount of \$90,375,000. The Series 2019 Bonds were issued to refund the County's outstanding Series 2010B Utility Revenue Bonds (Federally Taxable – Build America Bonds), which were issued to provide funding for the Utility System's capital improvement program. The Series 2019 Bonds will be repaid from water and wastewater system revenues.

The **Series 2021A Utility Revenue Bonds**, issued in the amount of \$155,155,000, provided \$166,513,292 in project funding for the Utility System's capital improvement program, and the **Series 2021B Utility Refunding Revenue Bonds**, which were issued in the amount of \$19,780,000 in order to refund the County's outstanding Series 2010C Utility Revenue Bonds (Federally Taxable – Recovery Zone Economic Development Bonds). The Series 2010C Bonds were issued to provide funding for the Utility System's capital improvement program. The Series 2021 Bonds will be repaid from water and wastewater system revenues.

The **2022 Non-Revolving Credit Agreement** was opened in March 2022 with a credit line of \$37,500,000. The line of credit was obtained for the purpose of providing short-term funding for certain capital improvements to the Water and Wastewater System, including the construction of improvements at the System's future One Water Campus facility. The credit line is being serviced with water/wastewater system revenues and will be refinanced in future as part of a long-term financing (budgeted at \$503 million).

WATER AUTHORITY

In September 1998, a new regional water authority was created. This authority, Tampa Bay Water (TBW), replaced the

previous West Coast Regional Water Supply Authority ("WCRWSA") and issued \$372.25 million in bonds to retire the debt of the WCRWSA. In the years since then, TBW has completed a number of additional financings and, as of September 30, 2020, has debt outstanding, including accreted interest on capital appreciation bonds, in the amount of \$897,550,822. The County's current proportionate obligation to TBW is treated as a current operating and maintenance expense of the County's water and wastewater system and is not reflected as a debt of the County.

SOLID WASTE

Solid Waste and Resource Recovery Revenue Bonds are secured solely by a pledge of the revenues of the solid waste system. Solid waste system debt outstanding as of September 30, 2023 is \$100,885,000.

The **Series 2016A (AMT) Solid Waste and Resource Recovery Revenue Bonds** issued in the amount of \$89,010,000 and the **Series 2016B (NON AMT) Solid Waste and Resource Recovery Revenue Bonds** issued in the amount of \$25,220,000. The Series 2016A Bonds were issued to refund the County's outstanding Solid Waste Resource Recovery Bonds, Series 2006A (AMT) which were issued to fund the costs of design, acquisitions, construction and equipping of solid waste disposal and resource recovery facilities owned by the County. The Series 2016B Bonds were issued to refund the County's outstanding Solid Waste and Resource Recovery Revenue Bonds, Series 2006B (NON-AMT) which were issued to fund the costs of design, acquisition, construction and equipping of solid waste disposal and resource recovery facilities owned by the County. The Series 2016 Bonds will be repaid from solid waste system revenues.

The **2020 Non-Revolving Credit Agreement** was opened in December 2020 with a credit line of \$22 million. The credit facility was obtained for the purpose of obtaining funds to purchase and install a new leachate evaporate concentrator, and to construct various capital improvements at the Northwest Transfer Station facility. The credit line is being serviced with solid waste system revenues and will be refinanced in 2024 as part of a long-term bond issuance (budgeted at \$101 million).

Revenue Bonds: Debt Issued by Independent Authorities

The Tampa Sports Authority (TSA) has issued debt to finance a multipurpose arena (“Amalie Arena”, formerly known as the Tampa Bay Times Forum, St. Pete Times Forum and as the Ice Palace) and a community stadium (“Raymond James Stadium”). This debt is primarily secured by certain revenues of the County as described in more detail below. As of September 30, 2023, \$36,620,000 of TSA-issued bonds related to these facilities are outstanding.

ARENA BONDS

Currently the TSA does not have any debt outstanding related to the Amalie Arena (the multipurpose arena). However, the County issued direct debt (refunding revenue bonds) to defease TSA bonds related to the arena in order to achieve debt service savings. That debt is still outstanding and is described more fully in the section of this report titled “Revenue Bonds: Non Enterprise/ Non-ad Valorem”. A history of all financing transactions related to the arena is presented here for informational purposes:

The TSA issued its \$27,685,000 Special Purpose Bonds, Series 1995 (the 1995 County-supported Bonds), and its \$17,020,000 Taxable Surcharge Bonds, Series 1995 (the 1995 Surcharge Bonds) in order to finance a portion of the cost to construct the multipurpose arena then known as the Ice Palace. The 1995 Surcharge Bonds were subsequently refunded for debt service savings by the County’s Arena Refunding Revenue Bonds, Series 2005 (the 2005 Bonds), which were then refunded by the Tampa Bay Arena Refunding Revenue Note, Series 2015. The 2015 Note is secured by a covenant to budget and appropriation of County non-ad valorem revenues. The 5th Cent Tourist Development Tax is the primary payment source for the Series 2015 Bonds.

The 1995 County-supported Bonds were refunded for debt service savings by TSA’s \$30,185,000 County Interlocal Payments Refunding Revenue Bonds, Series 1998 (the 1998 Bonds). The 1998 bonds were, in turn, refunded by the County-issued Fifth Cent Tourist Development Tax Refunding Revenue Bonds, Series 2006A (the Series 2006A Bonds). In addition, on December 19, 2006, the County also issued new money bonds, the Fifth Cent Tourist Development Tax Improvement Revenue Bonds, Series 2006B (the Series 2006B Bonds), to pay for certain capital improvements to the arena. In 2016 the county refunded the outstanding Series 2006A Bonds with the Fifth Cent Tourist Development Tax Refunding Revenue Bonds, Series 2016 (the “Series 2016 Bonds”) for debt service savings. The Series 2016 Bonds are secured solely by the 5th Cent Tourist Development Tax. The above referenced Series 2006B Bonds have been paid off.

The County expects that the 5th Cent Tourist Tax will produce sufficient revenues to pay debt service on the outstanding Series 2015 Note and 2016 bonds.

STADIUM BONDS

Currently, the TSA has two debt issues outstanding, both issued in 2015, that are related to Raymond James Stadium (the community stadium): the **Series 2015 Tampa Sports Authority Florida Sales Tax Payments Refunding Revenue Bonds (Stadium Project)** (the “2015 FST Bonds”), and the **Series 2015 Tampa Sports Authority Local Option Sales Tax Refunding Revenue Bonds** (the “2015 LOST Bonds”). In addition, the County has issued direct debt to refund a portion of the TSA’s outstanding stadium debt and to raise money for certain other capital projects. A history of the TSA transactions related to the stadium is presented here for informational purposes.

On July 10, 1997, the TSA issued three series of bonds as part of the plan of finance for the construction of a new professional sports franchise community stadium: the Series 1997 Local Option Sales Tax Revenue Bonds (Stadium Project) (the “1997 LOST Bonds”), the Series 1997 Florida Sales Tax Payments Revenue Bonds (Stadium Project) (the “1997 FST Bonds”), and the Series 1997B Tourist Development Tax Revenue Bonds (Stadium Project) (the “1997B TDT Bonds”). The 1997 LOST Bonds, the 1997 FST Bonds, and the 1997B TDT Bonds have since been refunded. (The TSA also issued its Series 1997A Tourist Development Tax Revenue Bonds on July 10, 1997, for the purpose of refunding its outstanding Series 1977 Refunding Revenue Bonds. The Series 1997A Bonds were **not** issued as part of the plan of finance for the construction of the new community stadium.)

The 1997 LOST Bonds were issued in the amount of \$148,945,000 to partially fund the acquisition, construction and equipping of a new professional sports franchise stadium and related parking facilities, as well as demolition of the then-existing stadium. The Bonds were secured by and repaid from CIT revenues. The 1997 LOST Bonds were subsequently refunded in November 2005 by the TSA Series 2005 LOST Bonds in the amount of \$114,865,000 (the “2005 LOST Bonds”); the 2005 LOST Bonds were subsequently refunded in January 2015 by the TSA Series 2015 LOST Bonds in the amount of \$63,020,000.

The 1997 FST Bonds were issued in the amount of \$30,010,000 to partially fund the acquisition, construction and equipping of a new professional sports franchise stadium and related parking facilities. The Bonds were secured by and repaid from sales tax revenues distributable to the County by the State of Florida pursuant to Sections 288.1162 and 212.20(6)(g)5.a, Florida Statutes, as amended. The 1997 FST Bonds were subsequently refunded in November 2005 by the TSA Series 2005 FST Bonds in the amount of \$27,015,000; the 2005 FST Bonds were subsequently refunded in January 2015 by the TSA Series 2015 FST Bonds in the amount of \$19,240,000.

The 1997B TDT Bonds were issued in the amount of \$11,190,000 to partially finance the acquisition, construction

Revenue Bonds: Debt Issued by Independent Authorities

and equipping of a new professional sports franchise stadium and related parking facilities, as well as demolition of the then-existing stadium. The Bonds were secured by and repaid from an additional one percent tourist development tax levied by the County pursuant to Section 125.0104(3)(l), Florida Statutes (the 4th Cent of the County's levied Tourist Development Tax). The 1997B TDT Bonds were subsequently refunded in December 2006 by the County's Series 2006 Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds in the amount of \$18,270,000 (the "2006 TDT Bonds"). In addition to providing the funds necessary to refund the 1997B TDT Bonds, the 2006 TDT Bonds provided the

County with funding necessary to finance the acquisition and/or construction of certain capital improvements to Steinbrenner Field (formerly known as "Legends Field") and to fund a grant to the City of Tampa to pay for certain capital improvements to the Tampa Convention Center. The 2006 TDT Bonds were subsequently refunded by the 2017A TDT Bonds in January 2017. The 4th Cent Tourist Development Tax is the sole security pledge and payment source for the 2017A TDT Bonds. Please see Revenue Bonds: Non-Enterprise/Non-Ad Valorem for more details on the 2017A TDT Bonds.

Special Assessment Revenue Bonds

During fiscal 2021, the County issued its Wastewater Impact Fee Assessment Special Assessment Revenue Bonds, Series 2021 in order to provide funding for certain improvements to the Public Utilities Water/Wastewater System intended to increase capacity in southern Hillsborough County. Special assessment debt is not considered to be "County debt" because it is secured solely by special assessments and liens on the property comprising the respective assessment districts which benefit from the improvements funded by the debt. Accordingly, special assessment debt is not included in any of the debt summaries presented earlier in this report.

WATER AND WASTEWATER

The Wastewater Impact Fee Assessment Special Assessment Revenue Bonds, Series 2021 were issued in the amount of \$58,040,000 on April 12, 2021. The Series 2021 Bonds were issued to provide funding for certain improvements to the Public Utilities Water/Wastewater System intended to increase capacity in southern Hillsborough County. The Series 2021 Bonds are payable solely from non-ad valorem assessments levied and collected annually in conjunction with real property taxes.

Explanation of Types of Debt Issued by the County

REVENUE DEBT: BONDS, NOTES AND GOVERNMENTAL LOANS

The issuance of revenue debt is usually subject to fewer, less severe restrictions than are imposed on general obligation debt. This is because the purpose of such restrictions is to minimize the loss of popular control over the public purse (i.e., to protect future taxpayers against heavy tax burdens they must bear without their consent). Since the County cannot be compelled to levy taxes or fees, other than those specific taxes or fees pledged to revenue debt, future taxpayers are not burdened with the debt service associated with revenue debt. Therefore, the same level of restrictions is not necessary. Nevertheless, in the case where a revenue source such as a sales tax or franchise fee flows to the General Fund to offset operating expenses, the utilization of such revenues as a security pledge for bond indebtedness will have a direct impact on General Fund revenues. Thus, in order to maintain the same level of general services, the issuer may need to identify other supplemental revenues or reduce operating costs.

Self-Supporting Revenue Debt. The source of funds securing an issuance of self-supporting revenue debt is usually the receipts from the operation of a facility or enterprise (e.g. a solid waste resource recovery facility or utility system) built with bond proceeds. As such revenues are received, they immediately become subject to the pledge established by the indenture or resolution that such revenues are received by the issuer to: (i) be held in trust for the benefit of the bond or note holder; and, (ii) be applied solely as specified in the indenture or resolution. In accordance with this quasi-fiduciary relationship, it is provided that, upon receipt of the revenues, they are to be deposited into a Trust Fund which is usually deemed the "Revenue Fund."

As stated above, repayment of revenue debt is dependent upon a particular source of funds, not upon any general governmental commitment to provide the amount needed for payment. Therefore, it is essential that the funds flowing from such a revenue source be allocated exclusively for such payment, for building required reserves, and for operating the project or program which generated the funds. Surplus funds may be applied for other uses. Such exclusive allocation is achieved by means of: (1) formally pledging all funds flowing from the source as security for the bonds or notes; (2) specifying the manner of its application, including restrictions on the alternative application of any surplus; and, (3) covenanting not to apply any such funds except as so specified. Most bond or note resolutions

include a requirement that the issuer (such as the County's water/wastewater utility system) charge rates high enough to produce system revenues sufficient to pay not only operating expenses and debt service, but also to provide an adequate margin to protect bond or note holders should there be an unforeseen revenue shortfall. Most such margins are in the range of 25% to 40% of annual debt service, depending primarily on the strength of the revenue source.

Commercial Paper. The most common type of Commercial Paper (CP) is short-term, unsecured promissory notes issued by organizations of recognized credit quality. While corporations usually issue CP on an unsecured basis, legal differences normally require that municipal issuers secure CP with a specific pledge. CP is issuable in virtually any amount at any time on very short notice. The dollar amount of each maturity is usually tailored to the needs of the issuer on the date the notes are brought to market. Virtually all municipal CP is supported by a credit facility from a commercial bank (e.g. letter of credit). The funds available under this credit facility are generally sufficient to pay the outstanding principal of and interest on the CP. Bank-support facilities can take various forms.

Credit ratings by at least one of the major rating agencies (Moody's, Standard & Poor's, Fitch) are essential to enable a CP issuer to reach a broad range of investors, obtain competitive interest rates and be able to issue CP in amounts consistent with its overall program. The best or "prime" ratings are P-1 by Moody's, A-1+ by Standard & Poor's and F-1+ by Fitch, which are the ratings of the County's CP.

CP has many advantages when used in a suitable borrowing situation. Relative to other short-term financing options, the short average maturity of CP results in significant interest rate savings in most economic environments. The effect of this lower average interest rate is a decrease in the overall borrowing costs of the County. Principal amounts and maturities ranging from 1 to 270 days can be tailored to meet the County's changing financial needs in amounts up to the Board authorized limit established by the CP resolution. Finally, CP has the lowest issuance costs of any long- or short-term, public or private placement financing alternative.

Debt Capacity Analysis

Table 1

\$139,215,000 Series 2015 CIT Refunding Bonds	-	-	-	20,726
\$18,185,000 Series 2016 Capital Improvement Program Refunding Revenue Bonds	2,746	-	-	-
\$27,216,000 Series 2017 CIP Revenue Note	6,666	-	-	-
\$61,135,000 Series 2018 CIT Refunding Bonds	-	-	-	28,700
Total Maximum Annual Debt Service	\$ 9,412	\$ -	\$ 4,027	\$ 59,315
Available Revenues ⁽⁴⁾	\$ 149,730	\$ 6,752	\$ 8,162	\$ 41,815
Estimated Unused Revenue Debt Capacity ^(5,6)	\$ 1,611,953	\$ 89,211	\$ 49,427	\$ 108,569

(1) Assumes a 1.35 X Coverage Requirement.

(2) Assumes a 1.10 X Coverage Requirement; Pursuant to the Revenue Sharing Act, commencing July 1, 2004, the County can assign, pledge or set aside as a trust for debt service on bonds or other indebtedness, an amount up to 50% of its Revenue Sharing Moneys received in the prior state fiscal year.

(3) The County's share of such revenues is determined by Florida Statutes 218.62 to be about 73.8525% of collections after the following deductions: 25% of total collections are paid to the Hillsborough County School District and, on average, about \$8,750,000 is paid to the Tampa Sports Authority, all as set forth in the Interlocal Agreement for Distribution of Community Investment Tax dated July 17, 1996 between the County, the School District, and the Cities of Tampa, Temple Terrace and Plant City.

(4) Revenues less Maximum Annual Debt Service.

(5) Assumes AAA/AAA rated debt with average interest rate of 5.5%. Estimated Unused Revenue Debt Capacity is determined by dividing Available Revenues by the applicable coverage factor, and then calculating the amount of debt which can be supported by those revenues assuming the 5.5% average interest rate and a 30 year amortization of debt for Half-Cent Sales Tax, Communication Services Tax and for Guaranteed Entitlement, and 4 years for CIT.

(6) Capacity exceeds amount available to fund projects by amount necessary to pay financing costs and fund reserve accounts.

(7) Local government half-cent sales tax revenues are used to pay debt service on other debt including bonds secured by the County's covenant to budget and appropriate from non-ad valorem revenues, such as: the Capital Improvement Non-Ad Valorem Refunding Revenue Note, Series 2017 (Warehouse and Sheriff's Facilities Project) and Tax-Exempt Commercial Paper notes.

(8) Assumes a 1.50 X Coverage Requirement; only 62.5% of the Communications Services Tax is available for additional bonding capacity given 37.5% of it has been committed for public safety uses.

2019 Capital Improvement Non-Ad Valorem Revenue Bonds	9,107	9,107	9,107	9,107	9,107
2021 Capital Improvement Non-Ad Valorem Revenue Bonds			9,404	9,404	9,404
Total	15,393	15,393	25,481	24,990	24,081
Debt Service Coverage	8.01 x	7.58 x	6.88 x	7.10 x	6.87 x

(1) Does not include the Community Investment Tax proceeds which are payable to the County nor any indebtedness pledging the Community Investment Tax proceeds. The County has, by ordinance, limited the use of such funds to projects expressly approved by the Board as specified in the procedure set forth in the enacting ordinance.

(2) The amounts shown are the county's major sources of Non-Ad Valorem Revenues that are available for the payment of debt service on the outstanding Bonds. In addition, the County has other significant non-ad valorem revenue sources; however, these revenues are either volatile on an annual basis or limited as to their use.

(3) The amount shown as "Available" Communications Service Tax is 62.5% of total CST collections with the remaining specifically allocated to public safety.

(4) The Clerk of the Circuit Court has no expectation that this revenue source will continue in the future.

(5) The amount shown is total Fifth Cent TDT collections less maximum annual debt service on Fifth Cent TDT pledged bonds. This excess may not be used to pay any of the items in the "Non-Ad Valorem Maximum Annual Debt Service" section of the table except for the 2015 Arena Refunding Revenue Note and is not legally available to pay debt service on the Capital Improvement Non-Ad Valorem Refunding Revenue Bonds (Warehouse and Sheriff's Facilities Project), or the 2017 Capital Improvement NAV Refunding Revenue Note.

(6) Upon the issuance of the 2005 Arena Refunding Revenue Bonds (which were subsequently refunded by the 2015 Arena note) the surcharges were included as part of the lease payments paid to the County for use of the Arena. Due to a cap on the amount of surcharges that may be collected without impacting the tax exempt status of the 2005 Bonds and 2015 Note, the County anticipates cessation of such payments by the TSA in the future, the timing of which depends on the rate of receipt of such revenues. The Surcharge has been revenue of the TSA and thus is not shown in the County's audited Financial Statements.

(7) Consists of County debt issues that are secured by a covenant to budget and appropriate legally available County Non-ad Valorem revenue, which include the County's obligations under certain Interlocal Agreements. Debt service coverage for the year ended September 30, 2017 is not materially affected by debt service on bonds delivered after September 30, 2017 either to refund any of this debt, to refund debt for which debt service has been netted from major non-ad valorem revenue shown above, or to repay debt issued to fund new projects.

(8) The 2008 Capital Improvement Non-Ad Valorem Refunding Revenue Bonds (Warehouse and Sheriff's Facilities Projects) were refunded in September 2017 by the 2017 Capital Improvement NAV Refunding Revenue Note.

(9) For the purpose of calculating maximum annual debt service, outstanding commercial paper is amortized over 30 years utilizing the Bloomberg MuniBond 30 Year Yield.

(10) The 1995 Bonds were refunded in June 2005 by the 2005 Tampa Bay Arena Refunding Revenue Bonds, which in turn were refunded in November 2015 by the 2015 Note.

(11) The 2017 Capital Improvement NAV Refunding Revenue Note, was issued in September 2017 for the purposes of refunding the 2008 Capital Improvement Non-Ad Valorem Refunding Revenue Bonds.

FY 23 – FY 28 Proforma

Countywide General Fund

Unincorporated Area General Fund

FY 23 – FY 28 Baseline Proforma Parameters

- Taxable Property Values growth
 - Modeled at 14.5% for FY 24
 - 1 % higher than Florida Legislature, Office of Economic and Demographic Research, Revenue Estimating Conference (REC) , Ad Valorem Assessments, March 6, 2023
 - Slightly below from 15.3% for FY 23
 - Home sales fell 12.1% in 2022 while prices rose 20%
 - Sales are down 9.2% in the first three months of 2024 and price gains have slowed to 2.41% in March 2023. These will likely limit gains in FY 25 taxable values.
 - A \$111 million gain Countywide and \$50 million Unincorporated (at 95%)
 - The state forecasts overall Hillsborough County taxable values will increase 8.1% for FY 25
 - 20-year average annual growth of 5.7% for FY 26 – FY 28
 - 2002 – 2022 Countywide average annual rate

FY 23 – FY 28 Baseline Proforma Parameters

■ Expenditures

- Most FY 24 non-personnel costs modeled to rise by combined 2022 rates of population and government inflation, 11.5%. 20-year long run average annual rate of 4.99% for FY 25 to FY 28.
- Most nonunion personnel wage costs modeled to rise an average 6.0% in FY 24 and 3% annually thereafter
 - Florida Retirement System rates modeled at 17.9% to 24.7% for FY 24
 - Health plan cost modeled at 10% for FY 24
 - Disability costs modeled at 19% for FY 24
- Constitutional increases
 - Countywide: 11.2% for FY 24, 3.4% for FY 25
 - Unincorporated: 2.4% for FY 24, 10.3% for FY 25

Glossary of Key Terms

ACCRUAL is a method of accounting that recognizes revenue when earned and expenditures when incurred regardless of when cash is received or disbursed.

AD VALOREM TAX is a tax levied on the assessed value of the property minus statutory exemptions on which it is levied. The rate of the tax is expressed in "mills." This tax is also called **PROPERTY TAX**. Also see the definition of **MILL**.

ADOPTED BUDGET is the financial plan for a fiscal year beginning October 1. Florida Statutes require the Board of County Commissioners to approve this budget at the second of two public hearings.

ADVANCED REFUNDED DEBT PRINCIPAL refers to principal owed on outstanding bonds that have been refinanced (refunded) prior to the date on which the outstanding bonds become due or callable. Proceeds from the refunding bond issue are used to pay principal and interest on the outstanding bonds until such time as the original bond issue can be retired.

ALL YEARS BUDGETING is the method of budgeting and reporting grant and capital project appropriations and expenditures from grant or project inception through the reporting period, as opposed to budgeting and reporting on a fiscal year basis. As a result, each year's budget only reflects that year's changes in funding, such as additional funds being added to a project budget or unneeded funds being subtracted from the budget.

ALLOTMENTS BY LEGISLATIVE ACTS is a department set up to provide a mechanism for the recording and payment of items which are general government costs and are not distributed to specific departments.

AMENDED OR REVISED BUDGET is the current year adopted budget adjusted to reflect all budget amendments approved by the Board of County Commissioners through the date indicated.

APPROPRIATION is the legal authorization of funds granted by a legislative body such as Hillsborough County's Board of County Commissioners to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and to a time period within which it may be expended. It is the act of appropriation that funds a budget.

ASSESSED VALUE is a value set upon real estate or other personal property by a government as a basis for levying taxes. The assessed value of property in Hillsborough County is determined by the Property Appraiser.

AUDIT is a systematic examination of financial or accounting records by an auditor, resulting in an expression of opinion on the fairness of the respective financial position of the governmental activities.

BEGINNING FUND BALANCE is the Ending Fund Balance of the previous period. (See **ENDING FUND BALANCE** definition.)

BIENNIAL BUDGET PROCESS is a two-year budget process resulting from a policy adopted in 1995 by the Board of County Commissioners. In this process, two separate twelve-month budgets are prepared and approved by the Board of County Commissioners in odd-numbered years. The first year of the biennial budget is adopted as the FY 08 budget as required by State Statute. At the same time, the Board of County Commissioners also approves a budget for the second year, the planned FY 09 budget. Then, in the year 2008, the planned FY 09 budget is reviewed by staff and the Board during the budget update process. This review allows the County to make the necessary adjustments to revenues and expenditures in order to accommodate needs that have arisen since the planned budget was prepared in 2007. The Board then adopts a budget for FY 09 according to procedures outlined by State statute.

BOCC is an acronym for the Board of County Commissioners. See the definition for **BOARD OF COUNTY COMMISSIONERS**.

BOARD OF COUNTY COMMISSIONERS is the seven-member legislative body of Hillsborough County's general purpose government. This board is governed by State law and the County Charter.

BOND is written evidence of the issuer's obligation to repay a specified principal amount on a certain date (maturity date), together with interest at a stated rate, or according to a formula for determining that rate.

BUDGET is a financial plan containing an estimate of proposed sources and uses of funds for a given period of time (typically a fiscal year).

CAU is an acronym for Capacity Assessment Unit. See the definition for **CAPACITY ASSESSMENT UNIT**.

CAPACITY ASSESSMENT UNIT (CAU) is a financing tool that allows property owners to pay water and wastewater system connection charges over a 20 year period.

CAPITAL BUDGET is the financial plan of capital project expenditures for the fiscal year beginning October 1. It incorporates anticipated revenues and appropriations included in the first year of the six year Capital Improvements Program (CIP), and any anticipated unspent budget appropriation balances from the previous fiscal year. It is adopted by the Board of County Commissioners as a part of the annual County budget.

CAPITAL EXPENDITURES are payments to acquire or construct capital assets which will benefit the County in both present and future periods.

CAPITAL IMPROVEMENT PROGRAM (CIP) is Hillsborough County's financial plan of approved capital projects with their schedules and costs over a six-year period. The CIP is designed to meet county infrastructure needs in a responsive and efficient

Glossary of Key Terms

manner. It includes projects which are, or will become the property of Hillsborough County, as well as projects that although not owned by the County, will be part of a joint project agreement.

CAPITAL OUTLAY or **CAPITAL EQUIPMENT** is an item such as office furniture, fleet equipment, data processing equipment and other operating equipment with a unit cost of \$1,000 or more.

CAPITAL PROJECT is any improvement or acquisition of major facilities with a useful life of at least five years such as roads, bridges, buildings, or land.

CHARGES FOR SERVICES is revenue derived from charges for current services. They include all revenue related to services performed whether received from private individuals or other governmental units.

CIP is an acronym for the **CAPITAL IMPROVEMENT PROGRAM**. See the definition for **CAPITAL IMPROVEMENT PROGRAM**.

CONTINUATION BUDGET is a level of funding which enables an organization to provide the same amount of services in the following fiscal year as the organization provides in the current fiscal year. A continuation level budget does not necessarily provide funding for growth in demand of services.

COVID is an acute respiratory illness in humans caused by a coronavirus.

DEBT SERVICE is the dollars required to repay funds borrowed by means of an issuance of bonds or a bank loan. The components of the debt service payment typically include an amount to retire a portion of the principal amount borrowed (i.e., amortization), as well as interest on the remaining outstanding unpaid principal balance.

DECISION UNITS are groups of inputs which make a measurable contribution to the achievement of an established department purpose—a purpose often dictated by law and/or defined by objectives and measured by service levels or units of output. Decision units are segregated by funding source. Decision units are used to build departmental budgets. They are rank ordered in a hierarchical format.

DEFEASANCE is a financing tool by which outstanding bonds may be retired without a bond redemption or implementing an open market buy-back. Cash is used to purchase government securities. The principal of and interest earned on the securities are sufficient to meet all payments of principal and interest on the outstanding bonds as they become due. If the defeasance is consistent with generally accepted accounting principles and complies with the outstanding bond document requirements, the bonds will no longer be treated as debt for accounting purposes nor

for purposes of computing any statutory or constitutional debt limitation. In FY 10 the County will defease two bond issues; the 2003 CIP bonds and the 2006 MOSI / County Center bonds.

DEMAND is a type of measurement category. Demand represents the external factors that demonstrate the needs for the service(s) or program(s), i.e., population, service area, complaints, and waiting lists.

DEPARTMENT is, for budgeting purposes, any distinct government organizational entity receiving direct funding approved by the Board of County Commissioners.

DEPRECIATION is a method of allocating the cost of a tangible asset over its useful life.

ELAPP is the acronym for Environmentally Sensitive Lands Acquisition and Protection Program. See the definition for **ENVIRONMENTALLY SENSITIVE LANDS ACQUISITION AND PROTECTION PROGRAM**.

ENDING FUND BALANCE is funds carried over at the end of the fiscal year. Within a fund, the revenue on hand at the beginning of the fiscal year, plus revenues received during the year, less expenses equals ending fund balance.

ENTERPRISE FUND is a fund used to account for operations that are financed and operated in a manner similar to private business enterprises, wherein the stated intent is that the costs (including depreciation) of providing goods and services be financed from revenues recovered primarily through user fees.

ENVIRONMENTALLY SENSITIVE LANDS ACQUISITION AND PROTECTION PROGRAM is a program established by Hillsborough County Ordinance Number 90-19 for the acquisition, preservation, protection, management and restoration of environmentally sensitive lands in Hillsborough County. Under Resolution Number 92-0131, the BOCC is authorized to issue limited ad valorem tax bonds and levy up to 0.25 mills for payment of these bonds.

FIDUCIARY FUNDS are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs.

FINES AND FORFEITURES REVENUES includes revenues received from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Forfeits include revenues resulting from confiscation of deposits or bonds held as performance guarantees and proceeds from sale of contraband property seized by law enforcement agencies.

FTE is the acronym for Full-Time Equivalent. See the definition for **FULL-TIME EQUIVALENT**.

Glossary of Key Terms

FULL-TIME EQUIVALENT is one position funded for a full year. For example, a permanent employee funded and paid for 40 hours/week and 52 weeks/year or 2 employees funded and paid for 20 hours/week and 52 weeks/year would be equal to one full-time equivalent.

FUND is an accounting entity used to record cash and other financial resources as well as an offsetting amount of liabilities and other uses. The resources and uses are segregated from other resources and uses for the purpose of carrying on specific activities or attaining specific objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE reflects the net financial resources of a fund, the difference between assets and liabilities. In simpler terms, fund balance reflects what is available to spend for a fund.

FUNDED POSITIONS is a term referring to the number of authorized positions for which funding is included in a given fiscal year's budget.

FUNDING SOURCES is a term referring to the type or origination of funds to finance recurring or non-recurring expenditures. Examples include revenues such as ad valorem taxes, user fees, licenses, permits, and grants and non-revenues such as fund balance and interfund transfers.

FY (FISCAL YEAR) 20 ADOPTED BUDGET refers to the budget for the period beginning October 1, 2019 and ending September 30, 2020.

FY (FISCAL YEAR) 21 PLANNED BUDGET refers to the budget for the period beginning October 1, 2020 and ending September 30, 2021.

GAAP is the acronym for Generally Accepted Accounting Principles.

GASB (GOVERNMENTAL ACCOUNTING STANDARDS BOARD) 34 is a new accounting standard used by the Governmental Accounting Standards Board that is applicable to state and local governments. Compliance with GASB Statement 34 is necessary for the preparation of financial statements in accordance with Generally Accepted Accounting Principles. A significant provision of this new standard includes the preparation of government-wide financial statements that summarize the information of the government as a whole using the accrual basis of accounting (in addition to the continuing-requirements for fund financial statements using the modified accrual basis of accounting). The County has selected the "modified approach" for the accounting of these assets. Under the "modified approach," the County records infrastructure assets at estimated original cost, but does not record depreciation against these assets. Instead of recording depreciation, the County is committed to incur the maintenance expenses necessary to preserve its infrastructure assets at specified levels of condition. Infrastructure assets such

as streets, bridges, and sidewalks are also to be included in the government-wide financial statements. There are also expanded disclosure requirements.

GASB (GOVERNMENTAL ACCOUNTING STANDARDS BOARD) 45 is a new accounting standard used by the Governmental Accounting Standards Board that is applicable to state and local governments. This standard addresses accounting and financial reporting for post-employment benefits other than pensions.

GENERAL REVENUE FUND (GENERAL FUND) is the fund that accounts for all financial transactions except those required to be accounted for in other funds. The fund's resources, ad valorem taxes and other revenues provide services or benefits to all residents of Hillsborough County.

GOVERNMENTAL FUNDS focus on how spendable resources flow into and out of those funds and the level of balances remaining at year end that are available for expenditure. These funds are where most of the County's basic services are reported. These funds are reported on an accrual basis.

GRANTS AND AIDS includes all grants, subsidies, and contributions from other government agencies or private organizations.

IMPACT FEES are a type of charge for services imposed on new construction in order to support specific new demands on a given service, e.g., transportation, schools, parks and fire protection.

INFRASTRUCTURE is a permanent installation such as a building, road, or water transmission system that provides public services.

INTERNAL SERVICE FUNDS are funds that finance and account for the operations of County agencies which provide services to other County agencies, organizations, or other governmental units on a cost-reimbursed basis such as the self-insurance fund.

INTERGOVERNMENTAL REVENUE includes all revenue received from federal, state, and other local government sources in the form of grants, shared revenue and payments in lieu of taxes.

LIBRARY TAXING DISTRICT is a special taxing district encompassing the City of Tampa and the unincorporated areas of the county. It provides library services for county residents. These services are financed primarily by an ad valorem tax levied on all taxable property located in the district and accounted for in the Special Library Tax District Fund.

LICENSES AND PERMITS REVENUE are fees levied by the County for providing corporations or individuals the right to engage in a business, occupation, or activity otherwise lawful.

MAJOR FUND is generally a fund whose sources and uses of that individual fund are at least ten percent of the corresponding

Glossary of Key Terms

total for the relevant fund type (i.e.,--governmental and proprietary funds). However, a major fund could also be a fund that is considered to be of particular importance to users of the budget.

MANDATE is a requirement imposed by a legal act of the federal, state, or local government.

MEASURE is a term referring to any one of four different types of measure: a count, a ratio, a percentage, and a dollar amount. Before developing any measure, it is necessary to identify something that can be counted. In order to identify what is to be counted, the event being assessed must be determined, i.e., days spent in the hospital, certificates of occupancy issued, gallons of water treated, etc.

METROPOLITAN PLANNING ORGANIZATION (MPO) is an agency that provides long-range transportation planning for Tampa, Temple Terrace, Plant City and Hillsborough County. The MPO works hand-in-hand with the three cities, the Hillsborough County City-County Planning Commission and with the West Central Florida Chairs Coordinating Committee, an organization of area MPO's, to ensure that local and regional transportation priorities are coordinated with land use. The MPO is statutorily required by Chapter 339.175 of the Florida Statutes.

MILL is a monetary measure equating to one one-thousandth (0.001) of a dollar. When used in reference to the **AD VALOREM TAX RATE**, it means a 1-mill tax is one dollar of tax on \$1,000 of taxable value.

MILLAGE RATE is the rate per one thousand dollars of taxable property value which, when multiplied by the taxable value, yields the tax billing for a given parcel.

MINIMUM SERVICE LEVEL (MSL) is a term which defines the base outputs which are either legally mandated and/or considered to be the most important set of outputs of an organization. The minimum service level corresponds directly to the purpose or mission of the organization. MSL is the effort, expressed in terms of service and cost, below which it is not realistic or feasible to operate.

MISCELLANEOUS (FUNDING SOURCE) is revenue other than those received from standard sources such as taxes, licenses and permits, grants and user fees.

MISSION STATEMENT is a broad statement of purpose derived from an organization's and/or community's values and goals.

MOSI is an acronym for the facility and organization known in Hillsborough County as the Museum of Science and Industry.

MPO is an acronym for the Metropolitan Planning Organization. See the definition for **METROPOLITAN PLANNING ORGANIZATION**.

MSTU is an acronym for Municipal Services Taxing Unit. See the definition for the **MUNICIPAL SERVICES TAXING UNIT**.

MUNICIPAL SERVICES TAXING UNIT (MSTU) is the taxing district encompassing the unincorporated area of the county. It provides services typically provided by a municipality (e.g., Sheriff's patrol, paramedic services, fire protection, parks and recreation, code enforcement and road network maintenance) to the residents and businesses in the unincorporated area. The services are financed primarily by an ad valorem tax levied on all taxable property located in the unincorporated area. Accounting for the funds from this taxing unit is done through the **UNINCORPORATED AREA GENERAL FUND**. See the definition for the **UNINCORPORATED AREA GENERAL FUND**.

NON-AD VALOREM ASSESSMENT is a fee levied on certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit those properties. The value of the property is not considered when calculating a **NON-AD VALOREM ASSESSMENT**. Instead, the cost of the facility or the service is allocated proportionately to the benefited properties in a defined area. It is sometimes referred to as a **SPECIAL ASSESSMENT**. Generally, this is collected by the Tax Collector's Office on the annual consolidated tax bill like **AD VALOREM TAXES**.

OBJECTIVE is a statement specifying achievements to be attained within a prescribed time frame. An objective is exchanged/superseded by another objective at the expiration of the time frame. An objective is directly connected to how the resources of an organization will be used. An objective statement begins with an action verb and includes the quantified statement of the results expected as an outcome of the action, such as *PROVIDE (the action verb) WITH EXISTING MANPOWER, 24-HOUR SECURITY COVERAGE FOR FIVE SOUTH COUNTY GOVERNMENT BUILDINGS AT DAILY COST NOT TO EXCEED \$15.60 (quantified results) DURING THE APPLICABLE FISCAL YEAR* (explicit timeframe).

OPERATING BUDGET is the budget including appropriations for recurring and certain one-time expenditures that will be consumed in a fixed period of time to provide for day-to-day operations (e.g., salaries and related benefits, operating supplies, contractual and maintenance services, professional services, and operating equipment). The operating budget does not include debt service payments (principle and interest), budgeted reserves, transfers between funds, and the capital projects program budget. It does include the Internal Service and Trust funds.

OTHER TAXES are other charges levied by the local unit against the income or wealth of a person, whether natural or corporate.

PERSONAL SERVICES characterizes expenses for salaries, wages, and related employee benefits provided for all persons employed by the County whether on a full-time, part-time, or temporary basis. Employee benefits include employer contributions to a retirement system, social security, insurance, sick leave, and

Glossary of Key Terms

similar direct benefits as well as other costs such as Workers' Compensation and Unemployment Insurance.

PROJECT DEVELOPMENT AND ENVIRONMENTAL STUDY (PD&E) is the preliminary study to determine the best alternatives related to location, facility layout, materials of construction, design parameters, zoning requirements, right-of-way requirements, permitting issues, cost and schedule for completion. Additionally utility relocations, transportation needs, social and economic impacts, environmental impacts, economic factors and public acceptance are considered. The study results in a clear and complete project scope of work, schedule and budget such that a project can be properly prioritized and inserted into the County's CIP process.

PROJECTED EXPENSE is the estimated expense through the end of the current fiscal year for a respective budget line item.

PROPERTY TAX is another term for **AD VALOREM TAX**. See **AD VALOREM TAX**.

PROPRIETARY FUNDS account for the County's Enterprise Funds and Internal Service Fund operations. These funds account for activities of the County that are operated in a business-type manner. The County's proprietary funds include Water and Solid Waste Operations, and the County's Fleet Management and Risk Management Operations.

RECLAIMED WATER IMPROVEMENT UNIT is a type of **MUNICIPAL SERVICE BENEFIT UNIT** established by Hillsborough County in selected areas of the unincorporated area. The purpose of a unit of this type is to levy non-ad valorem assessments on properties benefiting from the installation of pipes carrying reclaimed water. The non-ad valorem assessments pay for costs associated with the installation of these pipes. There are multiple units of this type.

REPLACEMENT EQUIPMENT is equipment requested by a department for replacing like or similar equipment to be retired because of unserviceability.

RESERVE FOR INVESTMENT FAIR MARKET VALUE CHANGE represents the increase or decrease in the unrealized value of the investments held by any subfund. While the change in the fair market value of any investment is reflected as a revenue (like interest) in the budget, it is important to note that until such time that the investments are sold, this revenue is unrealized and therefore there is no cash to support this revenue. As such, as part of the annual reappropriation process, entries reserving the inception-to-date "Investment Fair Value Change" are recorded at the subfund level. If the Investment Fair Value Change represents a positive gain, the unrealized revenue will result in a higher fund balance, but since there is no cash it is important that this portion of fund balance be included in a restricted reserve to prevent it from being "spent" or appropriated.

RESERVES AND REFUNDS refers to a budget category for funds required to meet both anticipated and unanticipated needs; the balance of anticipated earmarked revenues not required for operation in the budget year; estimated reimbursements to organizations, state, or federal governments for revenues received and not spent, and those required to be set aside by bond covenants.

RESTRICTED REVENUES are funds collected for limited or specific expenditure purposes. These funds are earmarked for specific purposes by requirements within the resource origin, such as: regulations found in bond covenants; grant contracts; local ordinances; donations for a specific purpose; state statute; and federal law or administrative guidelines.

REVENUES are funds received from the County by external sources; income. Revenues are to be differentiated from funding sources which include fund balance, interfund transfers, reimbursements, etc.

ROLLED-BACK RATE is that millage rate which, when applied to the total amount of taxable value of property (excluding new construction), produces the same amount of tax dollars as the previous year. Calculation of the "rolled-back rate" is governed by Florida Statutes.

RWIU is an acronym for Reclaimed Water Improvement Unit. See the definition for **RECLAIMED WATER IMPROVEMENT UNIT**.

SINKING FUND is an account, sometimes called a debt service fund, into which the issuer makes periodic deposits to assure the timely availability of sufficient monies for the payment of debt service requirements. The revenues to be deposited into the sinking fund and payments from it are determined by the terms of the bond contract.

SPECIAL ASSESSMENT is another name for **NON-AD VALOREM ASSESSMENT**.

STRUCTURALLY BALANCED BUDGET An adopted budget where recurring revenues are equal to recurring expenditures, thus supporting long-term financial sustainability.

TAXABLE VALUE is the assessed value of property minus any authorized exemptions (i.e., agricultural, homestead exemption). This value is used to determine the amount of ad valorem tax to be levied. The **TAXABLE VALUE** is calculated by the Property Appraiser's Office in compliance with State law.

TE FLGFC is an acronym for *Tax Exempt Florida Local Government Finance Commission* and for the long term financing packages arranged through the Commission. This Commission is a legal entity formed through interlocal agreement among several Florida governments. This Commission enables public agencies

Glossary of Key Terms

to benefit from the economies of scale associated with large commercial paper financings.

TRANSFERS is a term referring to monies moved from one budgetary fund or subfund to another. Because of legal or other restrictions, monies collected in one fund may need to be expended in other funds. A transfer is accomplished through Transfers-In (a source of funds) for the recipient fund and an equal Transfer-Out (a use of funds) for the donor fund. When this movement occurs between different funds, it is known as an Interfund Transfer. When it occurs between the restricted and unrestricted portions of the same fund, it is known as an Intrafund Transfer.

UNINCORPORATED AREA GENERAL FUND is the fund that accounts for MSTU ad valorem taxes and other revenue sources that provide services for the benefit of the residents of the unincorporated areas of Hillsborough County only. The services provided by this fund include fire suppression, law enforcement, stormwater, parks and recreation, planning and growth management, survey/mapping, code enforcement, and emergency services.

UNRESTRICTED REVENUES is a term referring to those revenues that can be used for any lawful expenditure supporting a wide variety of functions, or objectives.

USER FEES are charges for specific governmental services. These fees cover the cost of providing that service to the user (e.g., building permits, animal licenses, and park fees).

ZERO-BASE BUDGETING (ZBB) is a method of detailed budget analysis and justification that combines elements of management by objectives and program evaluation. It is a vehicle to link management and planning to the budget process. ZBB starts with an examination of an agency's basic programs and services by the lowest management level, and continues up the organization as funding packages are prioritized at each level in accordance with available resources and desired outcomes. ZBB is a tool for objectively directing the allocation of funds among activities and programs. Its basis is the consideration of the efficiency and effectiveness of activities and programs.
