Ms. Laura Dhuwe, Chief of Mitigation  
Florida Division of Emergency Management  
Mitigation Planning Section  
2555 Shumard Oak Boulevard  
Tallahassee, Florida 32399-2100

**RE: HILLSBOROUGH COUNTY LOCAL MITIGATION STRATEGY ANNUAL UPDATE AS REQUIRED BY 27P-22.004, FLORIDA ADMINISTRATIVE CODE AND COMPLIANCE REPORTING**

Dear Ms. Dhuwe:

Under Rule 27P-22.004, Florida Administrative Code, the Board of County Commissioners approved the transmittal of the Local Mitigation Strategy (LMS) membership list to the Florida Division of Emergency Management on January 15, 2024. The Chair and Vice-Chair positions of the LMS Working Group (WG) are identified on the list and were elected by popular vote of the LMS WG members.

The Countywide Emergency Action Group (EAG), a vital component of the LMS WG, serves as an information-sharing platform. It includes representation from the County, cities of Plant City, Tampa, and Temple Terrace, state agencies, private service providers, and community non-profit organizations.

For the calendar year 2024, the LMS WG met five times, whereby meeting notes were recorded and logged. The EAG met four times during the year, and the staff was able to provide LMS program updates. During this past period, the enclosed list of members remained active participants of the LMS WG. An announcement for participation and an appreciation letter for each LMS WG member were sent, which sustained the current group's makeup. All members were notified of meetings via email, and all meetings were noticed on the Hillsborough County calendar and the Hazard Mitigation webpage of the Hillsborough County site.

Per the state requirements, information must be submitted and contained herein annually if plan modifications are made or new data exists. In addition, compliance with the Florida Administrative Code was summarized in the enclosures contained within this transmittal and forwarded to the Florida Division of Emergency Management (FDEM) to accompany Hillsborough County's submittal. The FDEM and FEMA approved the County's last five-year update, which the Board of County Commissioners adopted.

Hillsborough County is proud of its progress in collaboration with the State and participation in disaster-mitigation activities. This process provides a forum for citizens to review potential risks to our community and works to build a more resilient community to disasters. We are motivated by our positive impact and look forward to continuing this critical work.

Dear Colleagues:

As we reflect on the past year, I want to take a moment to sincerely thank each of you for your dedication and meaningful contributions to the Local Mitigation Strategy Working Group (LMS WG). Your ongoing commitment to the resilience and safety of Hillsborough County, its municipalities, and local communities has been exemplary.

The LMS WG remains a cornerstone of our efforts to prepare for and mitigate the impacts of extreme weather events and other disasters. Hurricanes Debby, Helene, and Milton were stark reminders of the importance of our work, emphasizing how essential proactive planning and collaboration are in safeguarding our communities. The efforts we've made together not only help us recover from such events but also better position us to face future challenges with increased readiness.

This year, we achieved several key milestones. Your thoughtful review and ranking of countywide projects resulted in Hillsborough County being well-positioned for Hazard Mitigation Grant Program funding for projects related to Hurricane Idalia. These achievements demonstrate the value of the LMS WG's efforts in reducing risks and enhancing community resilience.

The LMS WG's importance cannot be overstated, as it fulfills the requirements of Florida Administrative Code (FAC) 27P-22.004 and supports our annual reporting to FDEM. More importantly, your collaboration and commitment directly impact our community's safety, well-being, and resilience, ensuring we are prepared for the impacts of events like Hurricanes Helene and Milton and beyond.

On behalf of Hillsborough County, I extend my deepest gratitude for the passion and expertise you bring to this group. Your efforts profoundly impact our ability to create a safer, more sustainable future for our residents.

As always, I welcome your ideas and suggestions to enhance our program further and achieve the LMS's goals. Thank you for an exceptional year of teamwork, and I look forward to continuing our impactful collaboration in 2025.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Troy Salisbury". The signature is fluid and cursive, with the first name "M." followed by a large, stylized "T" and "S".

M. Troy Salisbury, MPA, AICP  
Hazard Mitigation, Resiliency, and Sustainability Manager

Prioritized Project List - Hillsborough County (2024-5)							
Priority	Project Name	Description (Updated since August Workshops)	Jurisdiction	Lead Agency	Estimated Cost	Potential Funding Source(s)	Expected Completion Year
High	Casey Rd Stormwater Management Flood Mitigation	Add stormwater inlets and piping infrastructure to collect and route stormwater away from the intersection and into an collection system to the north that discharges into an existing permitted Hillsborough County owned and maintained stormwater systems.	Hillsborough County (Unincorporated)	Engineering and Operations	\$322,208.56	Local Funding	2026
High	Countywide Disaster Shelter Supplies	Disaster shelter supplies for 20 shelters throughout the Tampa Bay region of Hillsborough County, FL	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$268,688.00	Local Funding	2024
High	Countywide Span Wires Infrastructure Protection Wind Mitigation	Harden traffic signal infrastructure by constructing mast arm signals made of galvanized steel in place of span wire at 6 locations in the County along major roadways that service hurricane evacuation routes, shelters, and/or critical facilities.	Hillsborough County (Unincorporated)	Engineering and Operations	\$3,354,765.00	HMGP	2027
High	Lindawoods St Stormwater Management Flood Mitigation	The proposed project incorporates a number of drainage improvement elements, including upsizing existing pipes between Lindawoods Street and Beth Court from 15 inch and 24 inch RCP to a 36 inch RCP pipe.	Hillsborough County (Unincorporated)	Engineering and Operations	\$528,000.00	Local Funding	2026
High	Span Wire to Mast Arm, Infrastructure Retrofit (TB) [Countywide]	Harden traffic signal infrastructure by constructing mast arm signals made of galvanized steel in place of span wire in the County along major roadways that service hurricane evacuation routes, shelters, and/or critical facilities.	Hillsborough County (Unincorporated)	Engineering and Operations	\$1,218,525.00	HMGP	2027
High	McLane Critical Facility Generator	Add an estimated 423 backup generator powered evacuation center spaces for evacuees within the county for special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$700,000.00	HMGP; Local Funding	2026
High	Pizzo Critical Facility Generator	Add an estimated 1,757 backup generator powered evacuation center spaces for evacuees within the county for both general population and special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$250,000.00	HMGP; Local Funding	2026
High	Pride Critical Facility Generator	Add an estimated 2,026 backup generator powered evacuation center spaces for evacuees within the county for both general population and special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$30,000.00	HMGP; Local Funding	2026
High	Tomlin Critical Facility Generator	Add an estimated 471 backup generator powered evacuation center spaces for evacuees within the county for both general population and special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$72,500.00	HMGP; Local Funding	2026
High	Turkey Creek Critical Facility Generator	Add an estimated 520 backup generator powered evacuation center spaces for evacuees within the county for both general population and special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$72,500.00	HMGP; Local Funding	2026
High	Valrico Critical Facility Generator	Add an estimated 1,441 backup generator powered evacuation center spaces for evacuees within the county for both general population and special needs clientele.	Hillsborough County (Unincorporated)	Fire Rescue & Emergency Management	\$250,000.00	HMGP; Local Funding	2026
High	John Hopkins All Children's Hospital (Brandon) Wind and Flood Mitigation	Replace the exterior main entry door and interior main entry doors.	Hillsborough County (Unincorporated)	John Hopkins All Children's Hospital	\$3,091,177.95	HMGP	2027

High	Diesel (Redundant) Fuel Source for NW Turbine Generator	Provide a secondary, on-site fuel source for use by the Turbine Generator in operation at the Northwest Reclaimed Water Regional Facility. The Turbine Generator currently utilizes natural gas supplied by underground pipelines.	Hillsborough County (Unincorporated)	Water Resources	\$1,500,000.00	HMGP	2026
High	NW Administration Facility	Construct a 15,000 sq. ft. Category 5 hardened facility to house Operations personnel who perform critical functions at the Northwest Regional Reclaimed Water Facility, one of the County's advanced wastewater treatment facilities. The facility will also serve as a shelter during severe weather activations and a welcome center for visitors and educational tours.	Hillsborough County (Unincorporated)	Water Resources	\$12,000,000.00	State Funding	2027
High	Valrico Solar Power Installation	Construction of a solar panel and battery system to provide supplemental power to the Valrico Advanced Wastewater Treatment Facility located in Dover, FL, which provides wastewater service to residents who live in southeast Hillsborough County.	Hillsborough County (Unincorporated)	Water Resources	\$5,500,000.00	BRIC; State Funding	2024
High	Critical Wastewater Infrastructure, Generators [Countywide]	Combination of four projects approved on the LMS Project List (for the purposes of applying to HMGP): Nature's Way Generator Improvement, Plantation #1 Master Generator, Big Bend East Generator, and Woodberry Super Generator.	Hillsborough County (Unincorporated)	Water Resources	\$4,266,028.00	HMGP	2026
High	Ruskin-Wimauma LPSS/Septic-to-Sewer	Construct a vacuum sewer system in Ruskin and Wimauma areas in order to better serve these areas and help improve the environment. Currently, properties in these areas are served by either septic systems or a low-pressure sewer system, both of which are aging, problematic, and contributing to water quality issues.	Hillsborough County (Unincorporated)	Water Resources	\$66,000,000.00	FDEP; State Funding	2028
High	South Hillsborough Aquifer Recharge Program Recharge-Well 3 (SHARP RW-3)	Construction of recharge well 3 (RW-3) as part of the South Hillsborough Aquifer Recharge Program (SHARP). SHARP aims to mitigate saltwater intrusion in coastal parts of the County, as well as allow for additional groundwater development.	Hillsborough County (Unincorporated)	Water Resources	\$4,100,000.00	FDEP	2025
High	Turbine Generator (Power) to Fawn Ridge WTP	Design and construct an electrical power feed from the NW Turbine Generator to the Fawn Ridge Water Treatment Plant. The new power feed will become the primary source of power for the Fawn Ridge Water Treatment Plant (WTP).	Hillsborough County (Unincorporated)	Water Resources	\$3,095,300.00	HMGP	2027
High	Valrico Reclaimed Water Generator	Install a 2MW generator, a fuel tank, sized to run the generator at capacity for 7 days, and an auxiliary connection for a portable generator hookup. The generator will use diesel fuel to make it consistent with the diesel refueling for other generators. The generator will be installed at the Valrico Advanced Wastewater Treatment Facility. This installation is vital to the plant's ability to process incoming wastewater and subsequently discharge treated non-potable water to the reclaimed system.	Hillsborough County (Unincorporated)	Water Resources	\$1,500,000.00	HMGP	2026
High	Van Dyke Generator Replacement	The replacement will help with the increase in load over time coupled with the age of the age of the existing generator.	Hillsborough County (Unincorporated)	Water Resources	\$2,829,073.00	HMGP	2026
High	Van Dyke WWTF Sodium Hypochlorite Containment	The sodium hypochlorite chemical feed system in use at Van Dyke WWTF is not adequate and does not provide containment in the event of a chemical release. This project would include the design and construction of a new chemical feed system to better contain in the event of a chemical release.	Hillsborough County (Unincorporated)	Water Resources	\$1,000,000.00	Local Funding	2024

High	56th Street Drainage Improvements	Install a 2nd outfall to the Hillsborough River, a smart box and detention ponds.	Hillsborough County (Unincorporated)	Engineering and Operations	\$8,912,555.00	Local Funding	2028
High	Town N' Country Hillsborough Ave Flood Relief	Design regional stormwater improvements to serve an area in the Lower Sweetwater Creek Watershed.	Hillsborough County (Unincorporated)	Engineering and Operations	\$45,000,000.00	Local Funding	2026
High	Gibsonston Septic-to-Sewer	Construct a vacuum sewer system in Gibsonston to reduce nutrient loadings into surface water and improve the infrastructure in an underserved area of the County.	Hillsborough County (Unincorporated)	Water Resources	\$85,000,000.00	FDEP; State Funding	2028
High	Seffner Campus Hardening, Wind Retrofit	Building hardening on campus to protect students, faculty and staff from tropical cyclone and other wind events.	Hillsborough County (Unincorporated)	Human Development Center, Inc. (HDC)	\$113,872.00	HMGP	2027
High	Lesley "Les" Miller, Jr. All People's Community Park and Life Center (formerly named All People's Life Center)	Harden the critical facility to increase resiliency against natural disasters for use as a designated emergency response location serving a low- to moderate-income area and residents with special needs.	Hillsborough County (Unincorporated)	Affordable Housing	\$1,019,000.00	Dept. of Commerce; Local Funding	2026
Medium	BRIC Project Scoping Span Wire to Mast Arm [Countywide]	BRIC Project Scoping Application to review span wire intersections (estimated at 133), perform vulnerability assessment, prioritize, and develop BRIC application for submittal in the future.	Hillsborough County (Unincorporated)	Engineering and Operations	\$200,000.00	BRIC	2028
Medium	Countywide Phased Span Wires Infrastructure Protection Wind Mitigation	Harden traffic signal infrastructure, constructing mast arm signals made of galvanizing steel in place of span wire. Phase I is for span wire signal prioritization; engineer and design 20 intersections for \$400,000. Phase II is construction for \$9,600,000.	Hillsborough County (Unincorporated)	Engineering and Operations	\$10,000,000.00	HMGP	2028
Medium	Span Wires Infrastructure Protection Wind Mitigation (1 of 4) PHASED 20 LOCATIONS [Countywide]	Harden traffic signal infrastructure, constructing mast arm signals made of galvanizing steel in place of span wire.	Hillsborough County (Unincorporated)	Engineering and Operations	\$5,000,000.00	HMGP	2028
Medium	West County Facility Hardening	Hardening of Code Enforcement West County location to allow for damage and rapid needs assessments post storm. Hardening allows for ESF 19 operations to deploy immediately upon all clear in area of West Hillsborough County and gives Code Enforcement a dependable and functional operations center for West County.	Hillsborough County (Unincorporated)	Code Enforcement	\$235,000.00	HMGP	2025
Low	S Westshore Blvd Over Cedar Canal Approach Slabs	105911: Install approach slab to a critical bridge susceptible to flood damages.	Hillsborough County (Unincorporated)	Engineering and Operations	\$225,000.00	Local Funding	2026
Low	36th Ave Over Delaney Creek Approach Slabs	104107: Install approach slab to a critical bridge susceptible to flood damages.	Hillsborough County (Unincorporated)	Engineering and Operations	\$405,075.00	Local Funding	2024
Low	56th Street from Hillsborough Avenue to Sligh Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$8,743,000.00	Local Funding; State Funding	2029
Low	Harney Road from E Hillsborough Avenue to Sligh Avenue	Raise the Station 32 access road above the 100-year floodplain.	Hillsborough County (Unincorporated)	Planning	\$1,214,000.00	Local Funding; State Funding	2029
Low	Hillsborough Avenue from 56th Street to Orient Road	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$9,601,000.00	State Funding	2029
Low	Orient Road from Hillsborough Avenue to Sligh Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$3,801,000.00	Local Funding; State Funding	2029

Low	Sligh Avenue from 50th Street to Orient Road	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$8,864,000.00	Local Funding; State Funding	2029
Low	Anderson Road from W Linebaugh Avenue to W Hillsborough Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$37,195,000.00	Local Funding; State Funding	2029
Low	Benjamin Road from Hillsborough Avenue to Waters Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$34,503,000.00	Local Funding; State Funding	2029
Low	W Hillsborough Avenue from Veterans Expressway to Hoover Boulevard	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$12,551,000.00	Local Funding; State Funding	2029
Low	Hoover Boulevard from W Sligh Avenue to W Hillsborough Avenue	Water distribution system extension and service connections to and along currently unserved areas of the corridor. Additionally, flood exposure reduction projects to reduce impacts of flooding for the roadway and area.	Hillsborough County (Unincorporated)	Planning	\$10,875,000.00	Local Funding; State Funding	2029
Low	Manhattan Avenue from W Waters Avenue to appx. Gesualdo Court	Replace sidewalk from Bird St. to Waters Ave. with floodplain compensation. / Cut and Fill assessment at Crestwood Elementary. Increase storage, raise structures.	Hillsborough County (Unincorporated)	Planning	\$158,000.00	Local Funding; State Funding	2029
Low	Sligh Avenue from Benjamin Road to CSX Railroad	Implement guardrail along the north side from Hoover Blvd. to railroad followed by cut and fill analysis to improve floodplain compensation.	Hillsborough County (Unincorporated)	Planning	\$99,000.00	Local Funding; State Funding	2029
Low	W Waters Avenue from Veterans Expressway to Manhattan Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and surrounding areas.	Hillsborough County (Unincorporated)	Planning	\$11,497,000.00	Local Funding; State Funding	2029
Low	36th Avenue from US 41 to 78th Street	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$13,188,000.00	Local Funding; State Funding	2029
Low	70th Street from Causeway Boulevard to End of Road	Study to improve southerly channel. 1-5'x15' box culvert trunkline as the local/immediate regional 100-year outfall. Extend west from 70th St. & Hartford St.	Hillsborough County (Unincorporated)	Planning	\$40,442,000.00	Local Funding; State Funding	2029
Low	78th Street from Causeway Boulevard to Madison Avenue	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$16,039,000.00	Local Funding; State Funding	2029
Low	Falkenburg Road from Progress Boulevard to Selmon Expressway	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$9,997,000.00	Local Funding; State Funding	2029
Low	Hartford Street from US 41 to 70th Street	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$14,491,000.00	Local Funding; State Funding	2029
Low	Madison Avenue from US 41 to 78th Street	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$16,691,000.00	Local Funding; State Funding	2029
Low	Progress Boulevard from 78th Street to I-75	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$22,447,000.00	Local Funding; State Funding	2029
Low	US 41/50th Street from Madison Avenue to Port Sutton Road	Flood exposure reduction projects to reduce impacts of flooding for the roadway and area critical components.	Hillsborough County (Unincorporated)	Planning	\$41,035,000.00	Local Funding; State Funding	2029

Prioritized Project List - City of Tampa (2024-5)							
Priority	Project Name	Description (Updated since August Workshops)	Jurisdiction	Lead Agency	Estimated Cost	Potential Funding Source(s)	Expected Completion Year
High	109th Ave Wastewater Pump Station	Rehabilitate the pump station to minimize the risk of being flooded. The station's electrical components are located below grade and are subject to failure if station were to flood.	City of Tampa	Wastewater	\$1,300,000.00	Resilient Florida	2026
High	117 S Clark Ave (Cleveland St Upgrade)	Design and construct an additional trunk line and outfall to relieve flooding along Cleveland St.	City of Tampa	Stormwater Engineering	\$20,000,000.00	Resilient Florida	2030
High	18th Street Pump Station Rehabilitation	Replacing and upgrading mechanical and electrical equipment as well as replacing the existing emergency generator.	City of Tampa	Wastewater	\$5,500,000.00	Resilient Florida	2026
High	18th Street Wastewater Pump Station Generator	Add backup generator to wastewater pumping station.	City of Tampa	Wastewater	\$550,000.00	Resilient Florida	2026
High	3204 Wallcraft Ave Flood Relief	Project is part of the ongoing Lower Peninsula Flood Relief Projects, and will construct a 6'x4' box culvert to provide flood relief that ultimately discharges to the Bay.	City of Tampa	Stormwater Engineering	\$250,000.00	Resilient Florida	2030
High	3311 W Napoleon Ave (Lower Peninsula Flood Relief)	Construct new stormwater system to connect to box culvert and eliminate flooding along Napoleon.	City of Tampa	Stormwater Engineering	\$170,000.00	Resilient Florida	2030
High	42nd Street Wastewater Pump Station Generator	Add backup generator to wastewater pumping station.	City of Tampa	Wastewater	\$500,000.00	Resilient Florida	2026
High	9314 Forest Hills Drive Flood Relief	Design and construction of stormwater system to eliminate area flooding of garages and streets.	City of Tampa	Stormwater Engineering	\$1,000,000.00	Resilient Florida	2030
High	Ballast Point Wastewater Pumping Station	Rehabilitate the pump station to upgrade equipment and to make improvements to prevent failures from flooding and storm events.	City of Tampa	Wastewater	\$1,300,000.00	Resilient Florida	2026
High	Bayshore Wastewater Pumping Station	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$3,750,000.00	Resilient Florida	2026
High	Conley Box Flood Relief	Project is part of the ongoing Lower Peninsula Flood Relief Projects. The "southeast" region project will include the construction of a box culvert and retention pond to provide regional flood relief.	City of Tampa	Stormwater Engineering	\$25,000,000.00	Resilient Florida	2030
High	Fire Rescue Station #10 (E 23rd Ave and N 34th St)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$650,000.00	Resilient Florida	2026
High	Fire Rescue Station #12 (W Hillsborough Ave and N Mac Dill Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$675,000.00	Resilient Florida	2026
High	Fire Rescue Station #13 (E Annie St and N 29th St)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$825,000.00	Resilient Florida	2026
High	Fire Rescue Station #15 (S Himes Ave and W Marlin Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$250,000.00	Resilient Florida	2026
High	Fire Rescue Station #16 (E 10th Ave and N 52nd St)	To bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$675,000.00	Resilient Florida	2026
High	Fire Rescue Station #17 (E Davis Blvd and Cayuga Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$850,000.00	Resilient Florida	2026
High	Fire Rescue Station #18 (N 30th St and Deleuil Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$650,000.00	Resilient Florida	2026
High	Fire Rescue Station #20 (Bruce B Downs Blvd and Methodist Pl)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$65,000.00	Resilient Florida	2026
High	Fire Rescue Station #3 (W Kennedy Blvd and S Newport Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$675,000.00	Resilient Florida	2026

High	Fire Rescue Station #5 (N Central Ave and E Virginia Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$650,000.00	Resilient Florida	2026
High	Fire Rescue Station #6 (S 22nd St and Linsey St)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$850,000.00	Resilient Florida	2026
High	Fire Rescue Station #7 (E Hanna Ave and N Nebraska Ave)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$650,000.00	Resilient Florida	2026
High	Fire Rescue Station #8 (N Manhattan Ave and W Boy Scout Blvd)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$650,000.00	Resilient Florida	2026
High	Fire Rescue Station #9 (N Tampania Ave and W Chestnut St)	Bring this structure into compliance with Florida Building Codes as it relates to high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$675,000.00	Resilient Florida	2026
High	Howard F Curren Advanced Wastewater Treatment Plant Resilience Scoping	Conduct a resiliency analysis of the Howard F. Current Wastewater Treatment Plant.	City of Tampa	Solid Waste	\$500,000.00	Resilient Florida	2026
High	Lamb Canal Improvements	Construct new box culvert system to alleviate flooding.	City of Tampa	Stormwater Engineering	\$10,000,000.00	Resilient Florida	2027
High	Live Oaks CIPP	Cured-in-place pipe (CIPP) rehabilitation method to repair existing pipelines and protect future cave ins.	City of Tampa	Wastewater	\$5,000,000.00	Resilient Florida	2026
High	MacKay Bay Refuse to Energy Resilience Scoping	Conduct a resiliency analysis of the McKay Bay Refuse to Energy Facility.	City of Tampa	Wastewater	\$500,000.00	Resilient Florida	2026
High	North Tampa Closed Basin Flood Relief	Acquire numerous floodprone properties in the area to construct a series of retention ponds for flood protection purposes.	City of Tampa	Stormwater Engineering	\$7,000,000.00	Resilient Florida	2030
High	Presscott Wastewater Pumping Station	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$1,300,000.00	Resilient Florida	2026
High	SE Seminole Heights Flood Relief	Extend City and FDOT stormwater system to address flooding in area.	City of Tampa	Stormwater Engineering	\$30,000,000.00	Resilient Florida	2026
High	Tampa Fire Supply Warehouse (E 21st Ave and N 36th St)	Retrofit and harden to provide high velocity hurricane zone wind protection, large and small missile impact resistance, and water resistance protection.	City of Tampa	Fire Rescue	\$1,000,000.00	Resilient Florida	2026
High	Upper Peninsula East Flood Relief (Name Change: South Howard Flood Relief)	Construction of a new stormwater system to alleviate frequent flooding.	City of Tampa	Stormwater Engineering	\$65,000,000.00	Resilient Florida	2029
High	Virginia Wastewater Pumping Station	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$650,000.00	Resilient Florida	2026
High	Ybor 15th St Flood Relief	Alleviate frequent and severe flooding in Ybor City by upsizing the existing stormwater system and constructing a new outfall.	City of Tampa	Stormwater Engineering	\$15,000,000.00	Resilient Florida	2030
High	Citywide Watershed Master Plan	Complete a WMP for the entire City of Tampa.	City of Tampa	Stormwater Engineering	\$5,000,000.00	Resilient Florida	2026
High	Manhattan: Vasconia to Bay-to-Bay Flooding Relief	Construct new drainage system to alleviate flooding.	City of Tampa	Stormwater Engineering	\$8,200,000.00	Resilient Florida	2027
High	Beach Park Flooding Relief	Install new stormwater system to alleviate flooding.	City of Tampa	Stormwater Engineering	\$930,000.00	Resilient Florida	2024
High	Hyde Park Groundwater Diversion	Install underdrains to capture saltwater intrusion and alleviate flooding.	City of Tampa	Stormwater Engineering	\$3,000,000.00	Resilient Florida	2024
High	Golfview Flooding Relief	Upsize existing and install new drainage conveyance system.	City of Tampa	Stormwater Engineering	\$7,800,000.00	Resilient Florida	2028
High	Lower Peninsula Southeast Flood Relief	Construct new stormwater system and pond.	City of Tampa	Stormwater Engineering	\$55,000,000.00	Resilient Florida	2025
Medium	Beach Park Isle Wastewater Pumping Station	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$650,000.00	Resilient Florida	2026
Medium	Citywide Seawall Resiliency Scoping	Conduct a thorough analysis of the City's seawall resiliency against flooding, severe storm events, hurricanes, and sea level rise.	City of Tampa	Transportation and Mobility	\$500,000.00	Resilient Florida	2026
Medium	Citywide Stormwater Outfalls Inventory Scoping	Inventory the City's stormwater outfalls. The outfalls are impacted from flooding, severe storms, and hurricanes along with sea level rise.	City of Tampa	Stormwater Engineering	\$1,500,000.00	Resilient Florida	2030
Medium	Lower Peninsula Central Stormwater Improvements	Acquire property for the construction of a flood storage facility to provide flood reduction in the Manhattan Manor neighborhood of South Tampa.	City of Tampa	Stormwater Engineering	\$40,000,000.00	Resilient Florida	2030
Medium	Lower Peninsula Northwest Stormwater Improvements	Acquire property for construction of a flood storage facility, pump station, and force main to provide flood reduction in the West Bay Vista neighborhood of South Tampa.	City of Tampa	Stormwater Engineering	\$40,000,000.00	Resilient Florida	2030
Medium	Palmetto Beach Seawall Repair	Complete seawall replacement along Bermuda Boulevard in the Palmetto Beach area of the City. Add elements of complete streets.	City of Tampa	Transportation and Mobility	\$6,500,000.00	Resilient Florida	2026

Medium	Rome Wastewater Pumping Station	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$1,300,000.00	Resilient Florida	2026
Medium	DLTWTF MP Task Order 007 Deep Well Injection	The DLTWTF Master Plan Improvements project will optimize facility performance capabilities, improve water quality and expand our water treatment capacity. This project will rehabilitate and replace existing infrastructure and eliminate deteriorating facilities and equipment to increase operational and maintenance efficiency. New infrastructure upgrades will increase our capacity to produce drinking water and we will also add new back-up systems to strengthen our resiliency when faced with a natural disaster or other emergency. New treatment processes will also be explored to achieve the twin goals of enhancing the taste and odor of our drinking water while reducing the use of water treatment chemicals.	City of Tampa	Water Resources	\$57,706.00	PIPES	2029
Medium	Foundation for Tampa's Neighborhoods Project- Wastewater Improvements for MacFarlane Park Area	The collection system rehabilitation project will restore aging sewer pipes and manholes to restore their service life. Project impacts will be minimal compared to a collection system "open cut" replacement project since the rehabilitation methods are trenchless. The collection system rehabilitation will reduce pipeline failures and blockages that cause wastewater overflows that impact public health, safety and the environment. Additional project benefits include reduction in leaks that allow ground water and stormwater runoff to enter the collection system and cause wastewater overflows, reduction in energy needed to treat and convey the additional wastewater flow caused by leaking pipelines/manholes and reduction in pipeline failures that cause roadway depressions and cave ins.	City of Tampa	Water Resources	\$11,000,000.00	PIPES	2025
Medium	Manhattan: Vasconia to Obispo Flooding Relief-Phase 1	This project consists of design and construction of a new drainage conveyance system as well as the replacement and upsizing of the existing drainage conveyance system in a highly urbanized residential neighborhood in the City of Tampa. During high intensity and short duration rain storm events the area experiences frequent and dangerous street flooding due to an old and undersized drainage system. This project is located along Manhattan Avenue at Vasconia Street and runs north to Obispo. This project will also consist of new watermain upgrades along the corridor.	City of Tampa	Stormwater Engineering	\$5,000,000.00	Stormwater Improvement Fee	2025
Medium	Golf View Estates Flooding Relief	During high intensity and short duration rain events, low-lying areas in Golfview Neighborhood experience frequent and dangerous flooding due to an old and undersized drainage system. It often takes days to drain some of the flooded streets and vehicles are stranded in these flooded streets. This project consists of design and construction of a new drainage conveyance system as well as the replacement and upsizing of the existing drainage conveyance system in a highly urbanized residential neighborhood. Following the completion of Florida Department of Transportation's drainage project on South Dale Mabry Highway between Henderson Boulevard and West Neptune Street, this project was proposed. The upsized drainage system will connect to the City's recently completed Dale Mabry-Henderson Trunkline project at West Watrous Avenue and South Dale Mabry Highway. There will be opportunities to implement Green Infrastructure technologies and improve water quality with this project.	City of Tampa	Stormwater Engineering	\$8,000,000.00	Stormwater Improvement Fee	2025
Low	305 E Althea Ave Flood Relief	Extend stormwater system to address flooding at low area in road.	City of Tampa	Stormwater Engineering	\$100,000.00	Resilient Florida	2030
Low	6115 N 23rd St Flood Relief	Construct stormwater system along 23rd St and connect to system on Hanna Ave.	City of Tampa	Stormwater Engineering	\$100,000.00	Resilient Florida	2026
Low	Annette Ave N 109th Ave Flood Relief	Construct a lateral stormwater system to existing retention pond.	City of Tampa	Stormwater Engineering	\$360,000.00	Resilient Florida	2030
Low	Ashley Drive N Flood Relief	Construct stormwater system along Ashley to Azalea and new outfall to Curiosity Creek retention.	City of Tampa	Stormwater Engineering	\$2,500,000.00	Resilient Florida	2030

Low	Eastside Canal Masterplan Projects	This diverted river flow, as well as flow originating from the Tampa Bypass Canal itself, is withdrawn from the middle and/or lower pool of the Tampa Bypass Canal at a single pumping facility located on the east side of the Tampa Bypass Canal.	City of Tampa	Sustainability & Resilience	\$7,500,000.00	Resilient Florida	2026
Low	Oakwood Ave E 20th St Flood Relief	Extension of stormwater system down Oakwood to 22nd St.	City of Tampa	Stormwater Engineering	\$250,000.00	Resilient Florida	2030
Low	Spatial Temporal Econometric Model (E Jackson St and N Franklin St)	Estimate costs and benefits of adaptation strategies using existing NOAA tool to evaluate the vulnerability, impacts and economic costs of sea level rise for the Tampa Bay area under different sea level rise scenarios.	City of Tampa	Sustainability & Resilience	\$300,000.00	Resilient Florida	2026
Low	Westshore Longfellow Dundee Flood Relief	Construct new ditch system and rehabilitate existing system.	City of Tampa	Stormwater Engineering	\$340,000.00	Resilient Florida	2030
Low	Wastewater Pumping Station Rehabilitation Prescott PS	This project provides for the complete rehabilitation of Prescott Pumping Station at 4806 Prescott St. The project will serve to replace the existing wet-dry type pumping station with a more efficient, reliable, and serviceable submersible pumping station. It includes demolition of above ground building structure, pumps and electrical equipment and installation of new submersible pumps, piping, valves, control panel and electrical upgrades. The new electrical and control equipment will be installed aboveground and will be designed to provide protection from flooding and wind damage associated with storm events. The project also includes the installation of a backup generator to maintain station operation in the event of a power loss.	City of Tampa	Wastewater	\$3,089,233.00	PIPES	2025
Low	Wastewater Pumping Station Rehabilitation 109th St. PS	Rehabilitate the pump station to meet base flood elevation requirements.	City of Tampa	Wastewater	\$2,201,000.00	PIPES	2025

Prioritized Project List - City of Temple Terrace (2024-5)							
Priority	Project Name	Description (Updated since August Workshops)	Jurisdiction	Lead Agency	Estimated Cost	Potential Funding Source(s)	Expected Completion Year
High	Bregar Drive & Bannockburn Avenue Roadway Flooding	Intersection floods during storm events. Project will look at LID options to divert some runoff into golf course.	City of Temple Terrace	Public Works	\$370,000.00	ARPA	2026
High	Fire Station #1 Emergency Operations Center (Bullard Pkwy and Broadway Ave)	Retrofit and harden existing Fire Station #1, Fire Administration, and the City's Emergency Operations Center	City of Temple Terrace	Fire	\$265,000.00	HMGP	2024
High	Fire Station #2 (E Telecom Pkwy and Cross St)	Harden and retrofit.	City of Temple Terrace	Fire	\$250,000.00	HMGP	2024
High	Maybole Place & Riverhills Dr Roadway Flooding	Intersection floods during storm events. Project will look at drainage improvements to convey stormwater.	City of Temple Terrace	Public Works	\$900,000.00	ARPA	2026
High	Pleasant Terrace Stormwater Improvements	Road floods during storm events due to stormwater lift station being overwhelmed. Project will re-establish lift station and inflow drainage structure to permitted condition.	City of Temple Terrace	Public Works	\$900,000.00	ARPA	2026
High	Public Works Building (E 113th Ave and N 53rd St)	This project calls for the hardening of the existing Public Works Building to be able to withstand wind loads associated with a Category 3 Hurricane.	City of Temple Terrace	Public Works	\$650,000.00	HMGP	2025
High	Wastewater Maintenance Building (Carolyne St and Temple Valley Dr)	This project calls for the hardening of the existing Wastewater Maintenance Building to be able to withstand wind loads associated with a Category 3 Hurricane.	City of Temple Terrace	Utilities Department	\$450,000.00	HMGP	2025
High	Whiteway Water Treatment Plant (Construction)	Construct new facility.	City of Temple Terrace	Public Works	\$7,000,000.00	ARPA	2026
Medium	COTT LS River Run Rehab (Includes Generator)	Rehabilitation of the City's existing River Run lift station located at the corner of 78th Street and Capwood Avenue, and involves the replacement of the pumps, internal piping, electrical controls, instrumentation, valve vaults and emergency generator.	City of Temple Terrace	Public Works	\$900,000.00	Local Funding	2027
Medium	Omar K. Lightfoot Center Window Replacement	Replacement of exterior windows with impact rated glass.	City of Temple Terrace	Leisure Services	\$185,000.00	HMGP	2024

### Prioritized Project List - City of Plant City (2024-5)

Priority	Project Name	Description (Updated since August Workshops)	Jurisdiction	Lead Agency	Estimated Cost	Potential Funding Source(s)	Expected Completion Year
High	Fire Station #1 - Generator Replacement (E Alexander St and Walden Woods)	Replace and upgrade existing Emergency Power Generator and Gear. Existing system is approximately 30 years old and does not serve the entire Fire Station #1 facility.	Plant City	Engineering	\$150,000.00	HMGP	2025
High	PC Lift Station (Lift Station #2) (N Pennsylvania Ave and E Calhoun St)	Replacement / Basin Improvement	Plant City	Utilities	\$5,000,000.00	HMGP; Local Funding	2025
High	Utility Communication Tower Hurricane Hardening (N Mobley St and Strawberry Dr)	Upgrade the control panel, disconnect, fiber optic relocation, and transformer with underground powerline to provide an independent power source.	Plant City	Utilities	\$1,000,000.00	HMGP	2026
