Hillsborough County, Florida

Fiscal Year October 1, 2018 through September 30, 2019

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in this proposal based on FY 2019 actual costs to establish cost allocations or billings for FY 2021 are allowable in accordance with the requirements of 2 CFR Part 200 and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the Federal awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

Cost Allocation Methodology and Process**

A. Cost Allocation Methodology and Process

The Cost Allocation Plan (CAP) provided in *Section C* was prepared by MAXIMUS Consulting Services, Inc. (MAXIMUS) for HILLSBOROUGH COUNTY, FLORIDA. Utilizing our proprietary, web-based cost allocation system, MAXCAP™, MAXIMUS used cost data and allocation statistics to allocate the costs to departments/divisions/programs for Fiscal Year (FY) 2019.

MAXCAP uses a double step-down allocation procedure to distribute costs among Central Services and to departments that receive benefits. Using MAXCAP, costs are input by cost center identifications consistent with the entity's accounting code structure, which allows for efficient balancing with the entity's financial reporting systems. Additionally, MAXCAP provides for the inputting of allocation statistics appropriate for the distribution of the identified indirect cost pools. Credits for direct-billed payments, cost adjustments, and other valid and applicable costing factors are also facilitated within the software.

In this section, we provide an overview of our cost allocation methodology and process used to develop the CAP.

A.1 Cost Allocation Methodology

MAXIMUS employs a double step-down procedure that allows all Central Service Departments to allocate costs to all other Central Service Departments. Since Central Service Departments' costs are not simultaneously allocated, the process must be performed sequentially, one department after another. The second step-down allows for the equitable allocation of the costs the Central Service Departments receive from one another.

Typically, CAPs are compiled using a single step down or "waterfall" methodology in which the costs of Central Service Departments are allocated in an ordinal sequence with emphasis placed on ordering non-departmental and departmental cost groupings to optimize the flow of costs to recoverable program areas. Although this is an acceptable method resulting in accurate program allocations, it provides only partial information as to the costs of individual Central Service Departments and their significant activities.

To demonstrate the potential inequity of a single step-down, consider the costs of the Facilities Management and Purchasing activities. Facilities Management manages and maintains the office space that Purchasing uses to serve departments. Facilities costs are rightfully allocable to all the departments that have space in government buildings. If Facilities Management costs are allocated after Purchasing, the cost of Purchasing's space will be allocated to the other departments in the building. It could be argued that this method then allocates costs to departments disproportionate to the benefit received from those costs.

MAXIMUS double step-down approach mitigates potential allocation inequities and has been widely accepted by federal cognizant agencies for more than 30 years.

A.1.1 First Step-Down

The first step-down allows each Central Service Department to allocate to any other department, regardless of the sequence of the departments. The department also can allocate to itself providing the statistical measurements indicate a basis for the allocations.

**HILLSBOROUGH COUNTY, FLORIDA
OMB COST ALLOCATION PLAN
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2019
Cost Allocation Methodology and Process**

Process

The process of allocating during this round is achieved sequentially, consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations it allocates:

- Costs from entity financial records
- Cost adjustments
- Credits
- Costs received from other Central Service Departments that have completed their first round allocations
- Results

At the completion of the first step-down, each Central Service Department has the allocated costs from itself and from the Central Service Departments sequenced before it.

A.1.2 Second Step-Down

The rule for the second step-down is that each Central Service Department can allocate only to another department sequenced after the allocating department; provided that the statistical measurements indicate a basis for the allocations.

Process

The process of allocating during the second step-down is achieved sequentially and consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations, it allocates:

- Costs received from other Central Service Departments that have completed their second round allocations
- Costs received in the first step-down from itself and from the Central Service Departments sequenced after the allocating department

Results

At the completion of the second step-down, each Central Service Department has completed all allocations and all Central Service Departments have been cleared of all costs. The costs have either been adjusted out of the cycle or sent to Receiving Departments based on the allocation statistics.

A.1.3 Supplemental Comments

When the relationship between and among the Central Service Departments is greatly intertwined, it may be prudent to implement three or more step-downs. Typically, the double step-down is sufficient to accomplish an equitable allocation of all costs.

If more than two step-downs are required the rules for all rounds of allocation — except the final round — are the same as defined above for the first step-down. The final round always follows the rules, as defined above, for the second step-down.

A.2 Cost Allocation Process

The process utilized by MAXIMUS in developing the CAP and tracking costs within it is discussed below.

**HILLSBOROUGH COUNTY, FLORIDA
OMB COST ALLOCATION PLAN
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2019
Cost Allocation Methodology and Process**

A.2.1 Initiating the Process

Working in conjunction with the entity, MAXIMUS determines data to be included within the cost allocation process based on:

- Application of federal cost principles or full costing principles, as applicable
- Interviews
- Review of financial documents
- Review of organizational structure
- Analysis of statistical data relative to benefit of services provided

A.2.2 Establishing the Cost Pools to be Allocated

MAXIMUS analyzes the organizational structure of the entity to determine which departments or cost pools provide services to other departments/divisions/programs. These cost pools become the “Central Service Departments” in the CAP.

Next, each cost pool is evaluated to determine the activities or services provided. The costs are then broken into subparts or activities such that each activity can be allocated on a statistical measure that is relevant to the service provided and the benefit received.

Line items of expenditures are analyzed to determine which activities receive the benefit of the costs. Distributions of these costs are made according to the determined benefit of each activity.

A.2.3 Establishing the Statistical Measurements or Bases for Allocation

MAXIMUS evaluates available statistical measurements to establish the most equitable and meaningful basis for allocating each activity within each Central Service Department. Consideration is given to determining the measurement that most appropriately demonstrates its relationship to the receiving units. For example, an activity that is driven by the number of employees within the benefiting departments can be allocated by number of employees. Similarly, an activity that is driven by the number of transactions for each benefiting department can be allocated by the number of transactions.

A.2.4 Accommodating Exceptions and Adjustments

Applicable cost adjustments for unallowable costs and/or capitalized assets are incorporated into the appropriate schedules. Credits for direct billings, special revenues, etc. are entered into the computation.

A.2.5 Developing the CAP

The MAXIMUS Cost Allocation Plan typically is organized as follows:

- Certification, if required
- Table of Contents

- CAP: Summary and Detail Schedules
- Supplemental Materials

Below, we discuss each of the summary and detail schedules included in a CAP.

Summary Schedules

The summary schedules provide a recap of the results of the cost allocation process. The following explanations define the purposes of each of the typical schedules included in the cost allocation plan..

Schedule A – Allocated Costs by Department: Schedule A demonstrates for each Receiving Department the costs received from each Central Service Department. This schedule answers the question: Which Central Service Department actually allocated the costs to each Receiving Department?

This schedule does not necessarily demonstrate the Central Service Department from which the costs originated. For example, costs sent from Purchasing to Accounting and then to a Receiving Department will be recorded on Schedule A as being from Accounting.

Schedule C – Summary of Allocated Costs: Schedule C is the simplest report to use when balancing to the financials. It demonstrates the costs to be allocated, the adjustments made to these costs, and the results of the allocations. This schedule demonstrates the full sequence of all departments with the Central Service Departments listed first and in the order of their allocating sequence.

The Receiving departments follow the Central Service Departments with the total allocations received from all Central Service Departments.

Schedule E – Summary of Allocation Basis: Schedule E demonstrates, for each Central Service Department, the services or activities of the Central Service Department and the basis for the allocation of each activity. This schedule is a convenient reference for reviewing the activities identified for each Central Service Department. This is particularly important when preparing a new plan and incorporating organizational and services changes.

Detail Schedules

The detail schedules demonstrate the original costs being allocated by each Central Service Department. In these schedules, the adjustments are applied; the activities are defined; the incoming costs from other Central Service Departments are detailed; the allocation calculations for both step-downs are documented; and the results for each Central Service Department are summarized.

When tracking costs, typically the schedules are reviewed in reverse order tracking from summary information back to detail information. This is discussed further in *Section A.2.6: Tracking Costs within the CAP*.

Schedule __.1 – Nature and Extent of Services: Schedule __.1 is a brief narrative defining the purpose of the Central Service and the benefit it provides to the Receiving Departments. The narrative also describes the allocation basis used for each activity and any other relevant information on expenditures.

Schedule __.2 – Costs to be Allocated: Schedule __.2 provides an overview of the total costs allocated by each Central Service Department including:

- Expenditures from the financial reports — balances to Schedule C
- Adjustments to financial reports — balances to Schedule C
- Incoming costs from other Central Service Departments

**HILLSBOROUGH COUNTY, FLORIDA

Cost Allocation Methodology and Process**

The incoming costs are presented in columns that represent when these costs are allocated by the Central Service Department, not when the costs are received. As explained in *Section A.1: Cost Allocation Methodology*, the costs that are received from Central Service Departments sequenced after the given department are held for allocation in the second step-down.

Schedule .3 – Costs to be Allocated by Activity: Schedule .3 provides the following:

- Expenditures from the financials are defined by type of expenditure and by activities (to the extent deemed necessary) to ensure the application of allocation bases that closely correlate to the benefits derived by the Receiving departments. Each activity is represented in its own column. The totals balance with both Schedule C and Schedule .2 expenditure amounts.
- Adjustments to the financial reports are applied to expenditures and the results spread to the appropriate activities.
- Incoming costs are demonstrated first in total and then spread to the appropriate activities for allocation for each step-down. The totals for each step-down balance to the totals on Schedule .2. It should be noted that incoming costs may be coded to spread to only the activities that receive benefit from the services.

Schedule .4 – Detail Activity Allocations: Schedule .4 represents the allocation results by activity. Each activity defined on Schedule .3 is demonstrated on a Detail Allocation Schedule. Because the number of activities varies, the number of the last of these schedules varies.

Schedule .4 includes:

- Statistical measurement used as a basis for allocation
- Identification of statistical measurement
- Source of the statistical measurement
- Percent relationship of each statistical measurement to the whole or total statistical measurement base
- Results of the first step-down — balances to functional total after first additions on Schedule .3
- Results of the second step-down — balances to functional total of second additions on Schedule .3

The totals allocated from both step-downs balances to the functional grand total from Schedule .3. Note the results of the second step-down. This schedule clearly demonstrates how the second step-down allocates only to departments sequenced after the allocating department.

Schedule .5 – Allocation Summary for each Central Service Department: Schedule .5 provides a summary of costs allocated by each activity. The activity totals balance to the totals from each Detail Activities Allocation schedule defined above.

The totals allocated to the Receiving Departments will balance to Schedule A for the allocating department.

A.2.6 Tracking Costs within the CAP

When costs are questioned, MAXIMUS utilizes our standard tracking process in order to resolve any issues with Schedule A where the questioned cost is usually identified.

From Schedule A, we identify the allocating Central Service Department. From the CAP Table of Contents the appropriate detail schedules for the allocating department are identified. Tracking begins

HILLSBOROUGH COUNTY, FLORIDA
OMB COST ALLOCATION PLAN
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2019
Cost Allocation Methodology and Process

with the last detail schedule. Once the questioned amount is located, our analysis of the summary amounts by activities indicates which detail allocation schedules to review.

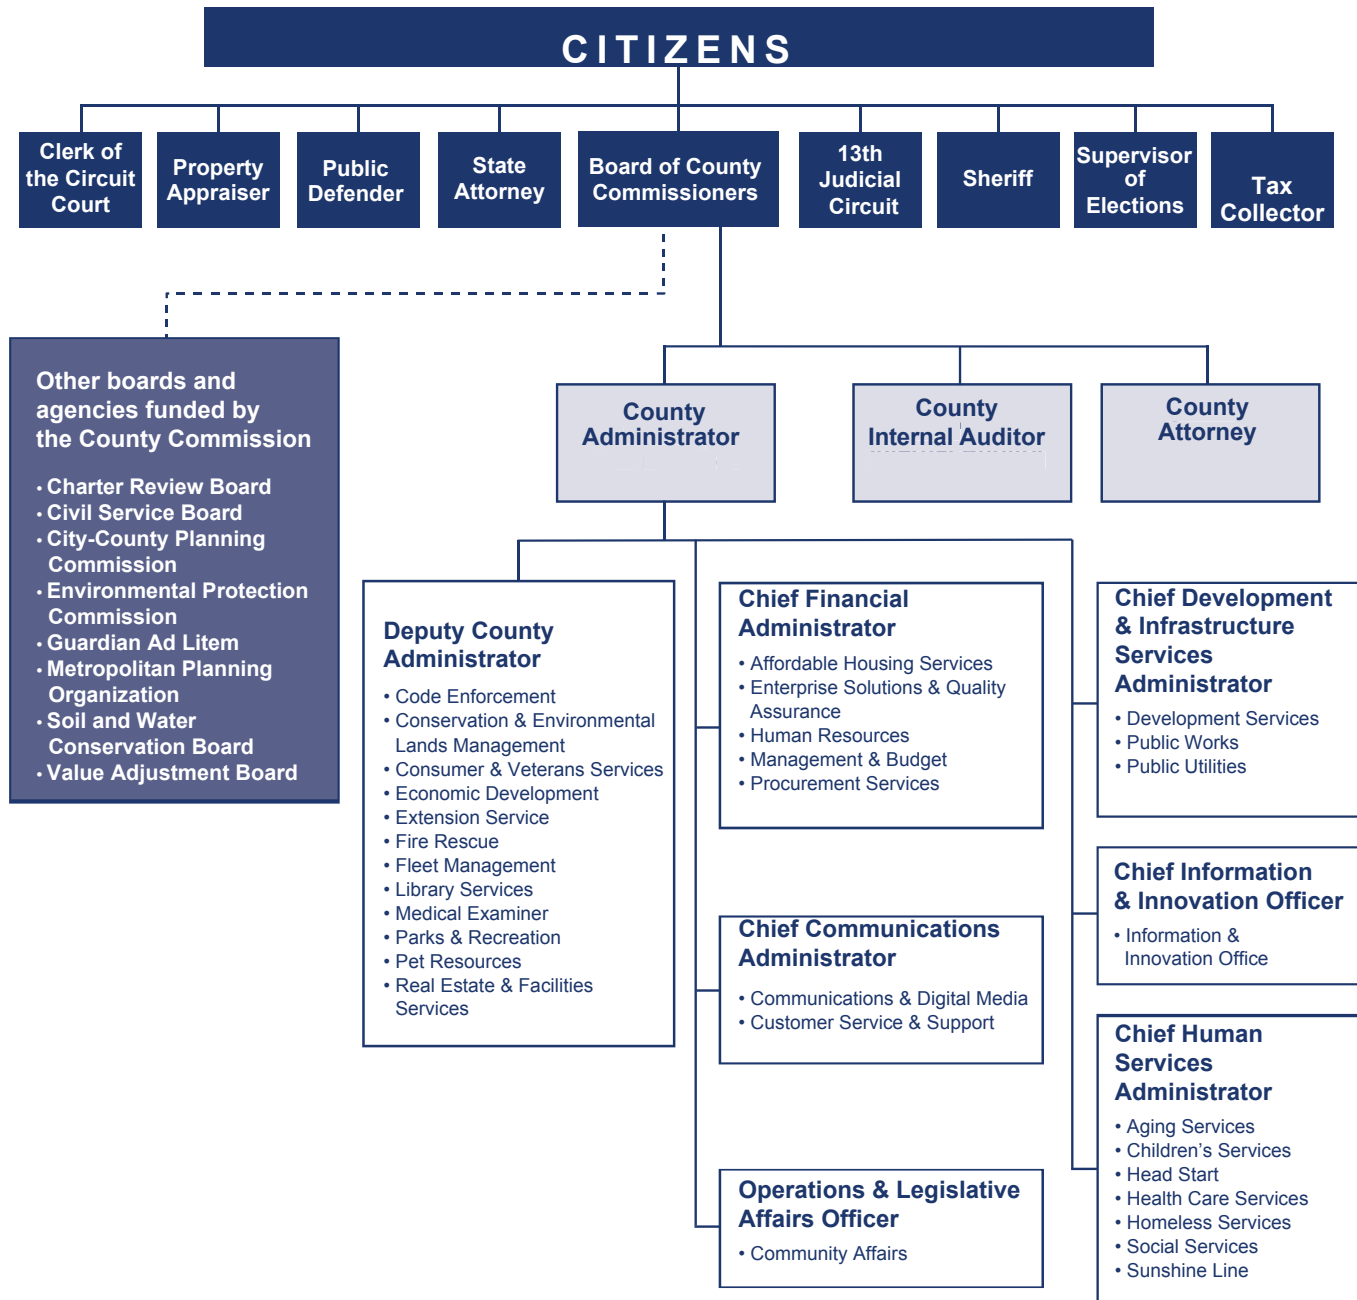

Review of each detail schedule will demonstrate the relative benefit received by the Receiving Department for the portion of the questioned cost attributable to each activity. Continuing backward through the detail schedules, the composition of the total functional costs is reviewed.

At this point, any remaining questions are typically in regard to the incoming costs. If these costs are questioned, we can use Schedule _.2 to identify which department allocated the questioned incoming costs. Referring again to the CAP Table of Contents, the detail schedules for the sending Central Service Department can be located. Tracking continues by repeating these steps until all issues have been resolved.

HILLSBOROUGH COUNTY, FLORIDA
OMB COST ALLOCATION PLAN
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2019
Schedule .1 - Nature and Extent of Services
For Department Building Depreciation

In accordance with GASB 34, Hillsborough County maintains an asset register, which identifies the acquisition cost, useful life, year-to-date depreciation expense and other pertinent information for county owned assets. Depreciation expense is the acquisition cost of the asset (plus and repairs, renovations, etc.) expended over the asset's useful life. Per cost allocation principles, year-to-date depreciation expense is an allowable cost for cost allocation purposes. Accordingly, the annual depreciation expense for County owned buildings and improvements are included within the cost allocation plan.

For cost allocation plan purposes, the Building Depreciation cost pool is functionalized as follows (the apportioning of costs to functional areas is based on the total year-to-date depreciation expense identified to each activity):

County Center – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Main Courthouse – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Courthouse, Annex Complex – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

700 Twiggs – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Courts, Edgecomb Building – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Courthouse, Plant City – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Brandon Regional Service Center – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Southshore Regional Service Center – depreciation costs are allocated based on the occupied total square footage occupied by Fund/Department.

Other Buildings - costs included in this activity represent the depreciation expense identified to single occupant facilities. These costs are allocated based on the depreciation expense identified to the benefiting Fund/Department.

Schedule .1 - Nature and Extent of Services
For Department 00004-101701 Clerk of Court - CCC

Pursuant to the Florida Constitution, the Clerk of the Circuit Court serves as Ex-Officio Clerk to the Board of County Commissioners (BOCC), Auditor, Recorder, and custodian of all County funds. Additionally, Section 28.12 Florida Statutes establishes the Clerk as Chief Accountant of the Board. The Clerk of the Circuit Court provides a variety of support services to various county organizations. The general accounting, board meeting documentation and audit services are provided by the Clerk's office in addition to court support and other general government services. Actual expenditures are accounted for in Fund 00004 (BOCC - CW General Operating Fund-01001001), Cost Center 101701 Clerk of Court - CCC.

Costs included within this cost pool are representative of various ad valorem funded services provided by the Clerk of the Circuit Court's operations. These costs are included in the respective cost pools of the Clerk of Court core functional areas (i.e. County Finance, Board Services, etc.). As such, a direct cost adjustment for the total amount of actual expenditures is credited against the total cost pool. Appropriately, only the county-wide overhead (indirect) costs allocated to this Fund/Cost Center are included for allocation purposes. These costs are allocated based on the number of positions within the BOCC-funded Cost Centers.
