E. Committee Candidate Information (Page 1/2)

Name: Paul Cappola

Position Interested in (if known): Equestrian Alternate

Current position: N/A

Additional information:

Qualification and Experience:

Economics - B.A. - University of South Florida

Juris Doctor - J.D. - Western Michigan University - Cooley Law School

Real Estate Broker

My interests are to preserve Green Space and create Trails (Equestrian, Walking, Biking) in the Keystone Odessa area.

Name: Shirley Denton

Position Interested in (if known): At Large Primary or Paddling Alternate

Current position: N/A

Additional information:

I am a retired plant ecologist with a 30+ years of professional experience based in Hillsborough County. I worked as an environmental consultant, and had the opportunity to participate in planning, usually on the behalf of clients, in assessments of land use potential, land management, and sometimes, land conservation. Among my favorite jobs were a number of early assessments of lands proposed for acquisition by Hillsborough County under the ELAPP program. I like to think of myself as pragmatic and a strong supporter of environmentally focused recreation (I mostly paddle and hike). I also have a history of participation in conservation oriented organizations (Florida Native Plant Society, as a past president and ongoing board member) and the Sierra Club Tampa Bay Group where I am on their executive committee. I would enjoy bringing my knowledge and personal enjoyment of our natural environment to the Greenways Committee.

E. Committee Candidate Information (Page 2/2)

Name: Josh Grissom

Position Interested in (if known): At-large (Primary or Alternate) or Multi Use (Alternate)

Current position: N/A

Additional information

I'm interested in (1) of the "At-Large" Seats
Specifically either "Multi-Use" or "At Large"

Name: Jeffrey Oswald

Position Interested in (if known): At-large (Primary or Alternate)

Current position: N/A

Additional information

I do not have the experience of holding a seat on a community board. However, I have long had an interest in community improvements and development. So far I have attended two of the community input meetings at Jimmy B Keel library. I shared a lot of ideas and suggestions that have been adopted on the vision board. I am a Central Florida native and care a lot about our unique environment. Also I have lived in or near other Central Florida communities such as Orlando, Winter Park, Winter Garden and Lakeland. This is relevant as I feel that is important to get ideas from other areas and consider what may be successful here in Hillsborough County.

Name: Gene Peters

Position Interested in (if known): (not specified)

Current position: N/A

Additional information

[M]y wife and I reside in the Brandon/Bloomingdale area and hope to buy a home there soon. We consider that community home and I am interested in volunteering to grow pedestrian and cycling opportunities there and across the county. I've been somewhat of a cyclist most of my life and did own a bicycle shop for several years up in Biloxi, MS. During that time I got fairly involved in cycling initiatives in my local community and attended the Bicycle Summit in Washington DC two years. Thanks for your consideration.
