

Impact Patio Doors

Trust a leader in windows and doors since 1925 to help protect your project. Pella offers high-quality impact and non-impact resistant patio doors to help Floridians in every market protect what matters most.

Pella® Hurricane Shield Series™

VINYL

Unwavering hurricane protection with exceptional everyday performance.

Trusted Hurricane Protection

Engineered and tested to withstand Florida hurricanes and the most stringent coastal requirements, Pella Hurricane Shield Series impact-resistant doors help protect your home and everything inside. Options offered are tested and rated to be installed in all coastal areas, including the High Velocity Hurricane Zone.

Exceptional Everyday Performance

Safeguard your home from hurricanes and more with advanced glass technology. Pella Hurricane Shield Series products with laminated glass reduce more noise and block nearly 100% of UV rays, helping to protect your carpet, furniture and décor from fading. It also keeps your home more comfortable with exceptional energy efficiency and helps provide protection from intruders.

Engineered for Precise Installation

When it comes to performance, installation matters — which is why Florida installation requirements are so stringent. Pella Hurricane Shield Series products are built to make the installation process as seamless as possible. Making your home secure — quickly, easily and reliably.

Pella® Impervia® with Impact Glass

FIBERGLASS

Engineered for lasting durability.

Unmatched Strength and Lasting Durability

Get a patio door ready to handle virtually anything life throws at it. Pella Impervia patio doors are made from our proprietary fiberglass, the strongest material available for patio doors, engineered for lasting durability.¹

Sleek, Timeless Style

Versatile design elements combined with sleek profiles, clean lines and more glass deliver a timeless style. Complement your home's unique look with an up-to-date color palette, including Black, grilles-between-the-glass and the lowest standard sill design in the industry with high performance.²

Relentless Performance

Get outstanding resistance to water, wind and outside noises all while increasing energy efficiency, security and ease of operation. Available hurricane impact glass helps prevent damage and injury caused by wind, water and debris, helps reduce noise and block 99.7% of harmful UV rays. In addition, it enhances energy efficiency and helps provide protection from intruders.

Sliding Patio Door

¹ Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.

² Pella Impervia sliding patio door sill height is lower than the standard sill heights of all leading national brands. High performance refers to air, water and structural performance.

Impact Patio Doors Recommended by Location
