GLASS PANE PRODUCTS

CREATE THE PERFECT ARCHITECTURAL STATEMENT.

Our WeatherLite™ GLASS PANE sliding panels introduce yet another great way to create a beautiful enclosed area for your home.

Enjoy your porch enclosure the way you have always imagined, in beautiful natural light. ▶

5600 Horizontal Sliding Windows

- Lightweight horizontal sliding panels can be moved to the left or right, effortlessly, to ventilate up to 50% of the screened area.
- Vents can be removed for total ventilation.
- Insulated or Single Glazed Glass
- Available as a 2P-3T Multi-Vent Sliding Door

9000 Sliding Patio Doors

- Lightweight, beveled interlock on 9000 Series
- Heavier, straight edge interlock on 9200 Series
- Pocket doors available in the 9200 Series
- All panels can move up to 4 panels

BENEFITS & OPTIONS

- ✔ Powder coated aluminum frames
- ✔ Available as single glazed 1/8" or insulated glass (Low-E glass options are only available with insulated glass units.)
- ✔ Attractive GLASS PANE sliding panels comfortably ventilate while screening out debris and insects.
- ✔ Close the sliding panels to block out the elements
- ✔ Custom made to fit a large variety of openings
- ✔ Outside mount, with or without screen installed
- ✔ Simple pushbutton handles ▶
