

# Comfort Shield

High-performance product designs for convenient, everyday protection and comfort.

- **Multichambered frame**

Our vinyl frame has up to 18 insulating air chambers inside — significantly more than ordinary vinyl — to keep homes more comfortable year-round.

- **Weather-resistant design**

Multichambered frame and fully welded sash improve strength and thermal performance, reduce sound transmission and outperform the industry requirements for air infiltration by 53%.<sup>1</sup> Vinyl window sashes with optional performance upgrades are metal-reinforced, creating a window that's extra sturdy and wind-resistant.

- **Unique weather-repel system**

Protect homes with our unique weather-repel system on single- and double-hung windows. It has three points of protection to channel water away from the home — including triple weatherstripping.

- **Fade-resistant vinyl formula**

CWS vinyl uses a fade-resistant formula that is performance tested for excellent weathering, durability and color retention. Our high-grade vinyl resists yellowing and never needs painting and the solid color throughout the vinyl keeps minor dings and scratches virtually invisible.

- **Strong and sturdy frames**

Our precision welding process creates more durable products that resist warping or twisting over time. CWS Comfort Shield window frames are 52% stronger than ordinary vinyl.<sup>2</sup> Increase energy performance and structural strength with optional performance enhancements such as foam insulation and steel reinforcement.

- **Long-lasting glass seal**

CWS' premium sealant process helps prevent fogging between the panes of insulating glass. The Low-E coating is removed where the glass meets the sealant. This extra step helps reduce the possibility of the glass seal failing — so you can depend on CWS Comfort Shield windows to give years of exceptional energy efficiency and comfort.

- **Testing beyond requirements**

Choose CWS Comfort Shield windows with confidence. At CWS, our products are tested to meet or exceed industry requirements, testing not only the entire window for strength and durability, but individual parts as well. Ensuring long-lasting performance to reduce call-backs for you.

- **Enhanced security and privacy features**

Give your customers more peace of mind with security and privacy features including a tamper prevention system on single- and double-hung windows and between-the-glass blinds on sliding patio doors.

- **Limited lifetime warranty**

CWS products are backed by some of the strongest warranties in the business. See written limited warranty for details, including exceptions and limitations, at [cws.cc/resources/warranties](http://cws.cc/resources/warranties).

AVAILABLE IN THESE WINDOW & PATIO DOOR STYLES:

Special shapes also available.

## Colors & Finishes

### Frame Color

Create a signature look with a solid-color frame. A solid color throughout the vinyl formula keeps minor dings and scratches virtually invisible.

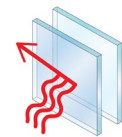

Solid-Colors:

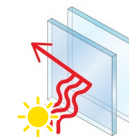

## Glass Options

### Low-E Glass<sup>4</sup>

Our glass collection offers energy saving choices to keep your home comfortable year-round.

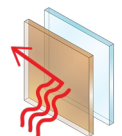

Low-E 270 insulating dual- or triple-pane glass with argon

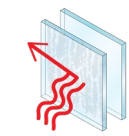

Low-E 366 insulating dual-pane glass with argon

### Additional Glass Options

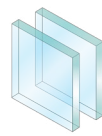

Additional glass options provide added benefits, such as more strength, improved energy efficiency or additional design options.

Bronze-tinted Low-E 270 insulating glass with argon<sup>4</sup>

Obscure Low-E insulating glass with argon<sup>5</sup>

Tempered Glass

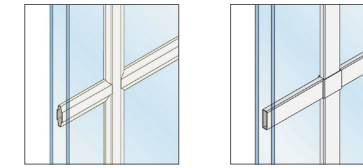

<sup>3,4,5</sup> See back cover for disclosures.

## Grilles

### Grilles Types

Grilles are color-matched to your window or patio door interior and exterior frame color.

Grilles-Between-the-Glass:

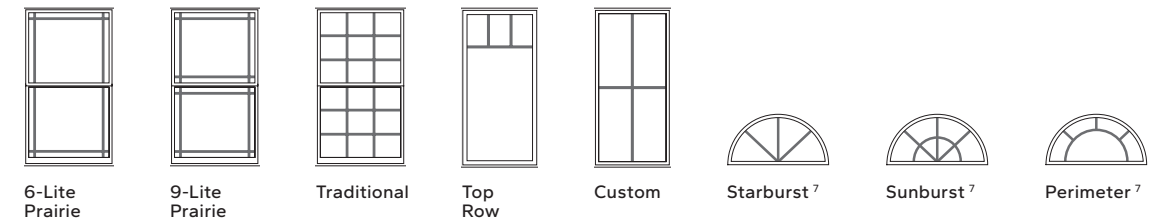

Contour 3/4"

Flat 5/8"

### Grille Patterns

Choose from one of our standard grille patterns or create a unique look with custom patterns.<sup>6</sup>

## Window Hardware

### Casement & Awning

Our casement and awning hardware folds neatly out of the way so it won't interfere with roomside window treatments. Finishes match frame color.

Fold-Away Crank

Color-Matched Finishes:

White

Almond

Fossil

### Sliding, Single- & Double-Hung

AutoLock hardware automatically locks the window when it is shut, simply close the sash and confirm it latches.

AutoLock

Color-Matched Finishes:

White

Almond

Fossil

### Integrated Sash Lift

Make raising and lowering single- and double-hung window sashes easy with a standard, integrated sash lift.

Integrated Sash Lift

Color-Matched Finishes:

White

Almond

Fossil

### Window Limited Opening Devices

A vent stop can be engaged or disengaged manually and restricts how far the bottom sash of a double-hung window can open. A window opening control device (WOCD) complies with a safety standard and allows for ventilation, emergency escape and rescue when released. A WOCD automatically limits the sash opening to less than four inches, unless it is intentionally disengaged, enabling the sash to fully open.

## Screens<sup>8</sup>

---

### High-Quality Fiberglass Screen

CWS 18x16 high transparency screens come standard and provide a clearer view than conventional fiberglass screens.

## Patio Door Hardware

---

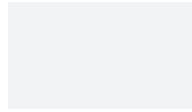

### Sliding Patio Door

Match your door's interior and exterior color with a color-matched, corrosion-resistant handle.

## Blinds-Between-the-Glass<sup>9</sup>

---

### Sliding Patio Door

Add privacy and complement a home's decor with blinds-between-the-glass. Located between panes of glass, blinds are protected from dust, pets and damage.

White

<sup>1</sup> Based on WDMA Hallmark requirements using NFRC model-size windows.

<sup>2</sup> Based on the force required to bend a window frame profile.

<sup>3</sup> Additional configurations available. Contact your local Pella expert for details.

<sup>4</sup> Optional high-altitude Low-E insulating glass available with or without argon on select products.

<sup>5</sup> Available in both dual-pane and triple-pane glass.

<sup>6</sup> Grille patterns offered may vary per product. See specific product information for availability.

<sup>7</sup> Only available with a curved product or curved glass.

<sup>8</sup> Warning: Screens will not stop children or pets from falling out of window or door. Keep child or pet away from open window or door.

<sup>9</sup> Available on dual-pane products in select sizes only. Not available on sliding patio doors with grilles-between-the-glass.

**NOTE:** Product specifications may change without notice.
